Plague report. Adoni Municipality. Bellary district

1 Name of town or village. Adoni.

2 Population of town or village. 26243.

3 Plague cases up to date of } No of seizures nil
 Last report ————— } " deaths nil
 Date of last report nil.

4 Date of present attack. One on the evening of the 5th instant and the other on the morning of the 6th instant at 8 A.M.

5 When reported by telegram. 6th January 99

6 Imported or indigenous - Imported.

7 Brief history of the case. One Gauramma and her son Sugappa arrived at Adoni

from Konakondla near Guntakal on the night of the 4th instant. She former got fever on the evening of the 5th instant and the latter on the morning of the 6th instant at 8th clock enlarged glands being found in both the cases.

8 If imported, had patient } Yes.
 a passport ————— }

9 Steps taken to isolate and } Removed to the plague
 treat the patient ————— } hospital at once and
 kept under medical

10 Steps taken towards the } Two (2) contacts segre-
regation of contacts - } gated.

11 Steps taken towards the } House disinfected.
evacuation and disinfection of the infected house

12 Was there any opposition
on the part of the inmates
of the infected house or
of the people of the village
to the plague measures? No

13 Remarks.

Dated 6th January 99 (Signed) P. Manuamathas
Secretary Adoni

my. inc 79. P
8.1.99 / True copy / Municipal Council

Forwarded to the Plague Commissioner, Surgeon-
at, and Sanitary Commissioner.

I spent yesterday (7.1.99) at Adoni.
The 2 contacts alluded to as having been
segregated had accompanied the 2 patients
from Konakondla. There were other 3 contacts,
but as they have been inoculated they will
merely be inspected for the next 3 days.
These 3 persons had been allowed to

buy me to another house in the vicinity.

I caused the infected house to be evacuated
and thoroughly disinfected: the disinfection
done on 6.1.99 was very insufficient.

I may mention that the house is situated
in Kilchipeta, a clean suburb of Adoni, and
well exposed to light and air.

I ordered a nurse, a Hospital Assistant
2 female ward attendants, and 2 totis to
proceed from Peddahotus to Adoni to help
the Municipal Staff: a dhobi will be
obtained from Madras.

Bellary.

To, The Sanitary Commissioner
Madras.

It is stated that the inoculated
contacts would be inspected for
three days. The modified rul-
ing as to inoculation permits
domiciliary observation of the
inoculated. It is advised that
such observation should extend
up the usual limit of ten days.
