ORDER—No. 2285 L., dated 10th November 1899.

The Government, having separately reviewed the administration reports of the several District Boards for 1898–99 in the proceedings read above, will now consider them collectively.

2. These reports were again received, on an average, seven days after the prescribed date, those from Anantapur, Cuddapah and the Nilgiris being 25, 17 and 16 days, respectively, behind time. The Presidents of the District Boards concerned should endeavour to secure strict punctuality in the submission of future reports. The reports and the accompanying statements were prepared, on the whole, with greater care than in the previous year. Those from Madura and Kurnool, however, contained the largest number of errors, discrepancies and omissions, while those from North Arcot, Salem and Nellore were the least inaccurate.

I.—GENERAL.

3. *Administration.*—Five new unions were formed in the districts of South Arcot (2), Chingleput (2) and Salem (1). With this exception, there was no change in the system of Local Fund administration during the year under review.

4. *District Boards.*—Appendix I shows the constitution of the 21 District Boards on the 31st March 1899 and the average attendance of the members at their meetings. There were then 55 vacancies on these Boards or two more than in the previous year, and owing to this the number of nominated official members on all the District Boards, except those of South Arcot, South Canara, Chingleput, Cuddapah, Madura, the Nilgiris, Tinnevelly and Vizagapatam, exceeded the maximum limit of one-fourth prescribed by

the Local Boards Act. The proportion of nominated officials, including *ex-officio* members, to the total strength was 25·4 per cent. against 24·1 in the previous year and that of the elected members 45·1 against 45·7. Under the election rules in force, one-half of the sanctioned number of members for each District Board were elected by the Taluk Boards in all districts, except the Nilgiris, in which there are no Taluk Boards. At the close of the year, however, the full proportion of elected members existed only in the districts of South Canara, Chingleput, Cuddapah and Salem, the absence of it in the remaining districts being the result of vacancies on the Boards. The District Boards met in all 230 times against 237 in the previous year and no meeting was adjourned for want of a quorum. There was a decrease in the number of meetings held by the Anantapur, South Arcot, Bellary, South Canara, Cuddapah, Ganjám, Nellore and Salem Boards, and in these districts, except South Arcot and Nellore, as well as in Kurnool, the Nilgiris, Trichinopoly and Vizagapatam, the number was less than twelve. As in the previous year, the average attendance of members at each meeting was seventeen (six officials and eleven non-officials) out of an average strength of 31 for each Board. There was an improvement in Anantapur, Ganjám, Gódávari, Kurnool, Madura, Malabar, the Nilgiris and Trichinopoly and a retrogression in the other districts. The attendance of both classes of members in Madura, Malabar, the Nilgiris, Salem, Tinnevelly and Trichinopoly was fair; but that of the officials in Anantapur, South Arcot, South Canara, Kistna, Nellore and Vizagapatam was poor, being less than 40 per cent. of their strength.

5. *Taluk Boards.*—There were eighty Taluk Boards as in the previous year, and their constitution and attendance are shown in Appendix II. At the end of the year there were 51 vacancies on these Boards against 50 in 1897–98 and in consequence of this ten of them had less than the minimum number of twelve members prescribed by the Act. The Taluk Boards of Madura, Tinnevelly, Sermadevi, Srivilliputtur, Cocanada and Ellore have been authorized to elect their Vice-Presidents. The Taluk Boards held altogether 1,030 meetings against 1,034 in the previous year and 30 others against 21 in that year were adjourned for want of a quorum. The Hospet, Uppinangadi, Berhampur, Nandyal, Tellicherry, Narasapatnam and Párvatípuram Boards, however, failed to meet once a month as required by section 28 of the Act. This irregularity in the case of the Nandyal Board has not been explained. In Hospet and Berhampur it is ascribed to want of subjects for consideration in certain months and in the remaining cases to the adjournment of one of the meetings for want of a quorum. The average attendance of members at each meeting rose from 53·8 to 56·0 per cent. of their total strength. The attendance of the official members in South Arcot, Gódávari, Salem and Tinnevelly and of the non-officials in South Arcot, Kistna, Nellore, Salem and Tinnevelly was good, being more than 60 per cent. of their strength; but that of the officials in Cuddapah and Kurnool was irregular. The worst cases of neglect have been noticed in the individual reviews. No information has been given regarding the working of the Taluk Boards in Kurnool. In the remaining districts these Boards continued to work, on the whole, satisfactorily, with the exception of the Masulipatam Board in Kistna, which is stated to have been dilatory in the disposal of its business.

6. *Union Panchayats.*—Appendix III shows the constitution and attendance of the Union Panchayats, of which there were 381 or five more than in the previous year. Owing to vacancies at the end of the year, the actual number of members on the Panchayats of Kurugodu in Bellary, Yeleswaram in Gódávari, and Pedana, Chilakalurpet and Dachepalle in Kistna was less than the minimum strength of five prescribed by the Act and the number of officials exceeded that of non-officials in the Panchayats noted in the margin. In the Panchayats of Rapur (Nellore), Narasapatnam and Párvatípuram (Vizagapatam) also the number of non-officials exceeded that of officials, although there were no vacancies, while in Madakasíra (Anantapur) and Madanapalle (Cuddapah) the same would have been the case even if all the existing vacancies had been filled by non-officials. The necessary steps for removing the preponderance of the official element have since been taken or

Tadpatri, Bukkapatnam, Porto Novo, Kadiri	(Anantapur) (South Arcot). (Cuddapah).
Yeleswaram, Gollalamamidada, Melaviraraghavapuram	(Gódávari). (Tinnevelly).

ordered to be taken. The Panchayats met in all 5,046 times against 4,938 in the previous year; but the average number for each Panchayat continued to be thirteen. Fifty-three of these Panchayats, excluding those newly formed during the year, against 56 in 1897–98, failed to meet once a month as required by section 129 of the Local Boards Act and the Presidents of the Taluk Boards concerned have been directed in the reviews of the individual reports to take the necessary steps for preventing the recurrence of this irregularity.

No information has been furnished regarding the working of the Panchayats under the Coimbatore, Pollachi and Kollegal Taluk Boards in the Coimbatore district. The remaining Panchayats, except those named in the margin, are reported to have worked, on the whole, satisfactorily. The Chairmen and members of the Panchayats appear to have generally evinced a fair amount of zeal and interest in the discharge of their duties and the usefulness of these institutions continued to be appreciated by the people. The ward system of supervision continued to be in force in all the districts, though not in some of the unions and it is reported to have been a success in all but a few cases. The necessary steps should be taken to extend the system to the unions in which it has not yet been adopted.

Rayadrug, Kanékallu, Siruguppa, Hárélalu, Kudatini, Kurugodu, Hampasagaram (Bellary).
Tekkali, Narasannapeta, Calingapatam, Battili (Ganjám).
Varanasi, Achanta, Nagaram (Gódávari).
Répalle, Tenali, Bápatla, Vetapalem, Chirala, Ponnuru, Kolluru, Bhattiprolu, Tadikonda, Sattenapalle, Mangalagiri, Phirangipuram (Kistna).

7. *District, Taluk and Union Funds.*—Appendices IV, V and VI furnished by the Accountant-General show in detail the receipts and charges of the several Local Boards and Union Panchayats and Appendix VII exhibits their financial position. The total results of the year are compared below with the figures of the previous year:—

	1897–98.				1898–99.			
	District Funds.	Taluk Funds.	Union Funds.	Total.	District Funds.	Taluk Funds.	Union Funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Total assets ..	48,27,972	45,55,089	7,39,394	1,01,22,455	49,53,988	44,42,339	7,53,339	1,01,49,666
Total expenditure ..	39,32,370	38,75,379	5,86,326	83,94,075	42,33,035	37,24,246	5,91,829	85,49,110
Closing balance ..	8,95,602	6,79,710	1,53,068	17,28,380	7,20,953	7,18,093	1,61,510	16,00,556

* The difference as compared with the closing balance of 1897–98 given in the General Review for that year is due to the adjustment since made by the Accountant-General of contributions from Local to Provincial funds on account of famine-relief expenditure in certain districts.

The year opened with a balance of Rs. 16,41,380 against Rs. 16,93,800 in 1897–98. Excluding debt heads (Rs. 4,27,516) and contributions from one District Board to another (Rs. 1,883), the actual receipts amounted to Rs. 80,78,887 against Rupees 80,20,124 in the previous year and the charges, excluding debt heads (Rs. 4,68,688)

and contributions from one District Board to another (Rs. 1,883), to Rs. 80,78,539 against Rs. 79,99,117. Thus the year closed with a balance of Rs. 16,00,556, of which Rs. 1,61,510 belonged to unions, Rs. 4,38,924 to endowed institutions in charge of the Local Boards and Rs. 88,389 to the Railway Guarantee Fund in Tanjore, leaving Rs. 9,11,733 or 13 per cent. of the receipts available for general purposes. There was no change in the principles on which the receipts and charges were distributed among the Local Boards and Union Panchayats.

8. *Incidence of Taxation.*—Appendix VIII shows the incidence of Local Fund taxation per head of the population in the several districts according to the Census of 1891. As in the previous year, the average for the Presidency was As. 3–2 including tolls and As. 2–9 excluding them. The incidence of taxation including tolls was low in Malabar (As. 2–2), Anantapur (As. 2–4), Salem (As. 2–4) and North Arcot (As. 2–5) and was very high in the Nilgiris (As. 12–1), the circumstances of which are peculiar. In the remaining districts, except Kistna (As. 5–3) and Gódávári (As. 5–2), it was below As. 4.

II.—RECEIPTS.

9. *Receipts.*—Appendices IV and IX show the receipts of all the Local Boards and Union Panchayats under the several heads as compared with the figures for the previous year. The opening balance was Rs. 16,41,380 or Rs. 52,420 less than in 1897–98, the decrease being the net result of a fall of Rs. 2,25,506 in eleven districts and a rise of Rs. 1,73,086 in the remaining ten. The actual receipts, however, rose from Rs. 80,20,124 to Rs. 80,78,887.

10. *Land-cess.*—This tax was, as in the preceding years, levied at two annas per rupee of the assessment in Malabar and the Nilgiris (except South-East Wynaad), at As. 1–6 in South Canara and at one anna in the remaining districts and in South-East Wynaad. One-fourth of the receipts under this head in Tanjore was, as usual, reserved for railway operations. According to Appendix X, which shows the demand, collection and balance of this tax, the current demand exceeded that of the previous year by Rs. 22,056, the variations being large in Anantapur (+ Rs. 41,669), Gódávari (+ Rs. 40,485), Vizagapatam (+ Rs. 20,695), Tanjore (— Rs. 37,978) and Kistna (— Rs. 28,726). The increase in Gódávari was due to the enhanced revenue from water-cess and that in Vizagapatam to the levy of land-cess on certain devadayam lands which escaped taxation in the previous year. On the other hand, the decrease in Kistna was due to advance collections made in 1897–98. The variations in Anantapur and Tanjore have not been explained. The collections (current and arrears) amounted to Rs. 50,89,165 or 94 per cent. of the demand against Rs. 51,85,000 or 93 per cent. in the previous year. They were excellent in Coimbatore and Salem, being more than 99 per cent. of the demand and good in Chingleput (98 per cent.), Ganjám (98), Gódávari (98), Nellore (98), South Canara (97), Tanjore (97), South Arcot (96), Kistna (96) and Tinnevelly (96), while in Cuddapah they continued to be bad, being 74 per cent. against 68 per cent.

11. *Tolls.*—Appendix XI shows the statistics of tolls. Nineteen additional toll-gates were established in Salem (10), North Arcot (4), Vizagapatam (4) and South Arcot (1), while two of the existing gates in South Arcot were abolished and the two temporary gates usually opened at Kuruvatti and Mylar (Bellary) during the annual festivals at those places were not established during the year, as the attendance of people there was prohibited under the Epidemic Diseases Act. There was also a decrease of one in the number of gates in Malabar, which has not been explained. Thus there were 300 gates at the end of the year in all districts, except Gódávari, against 286 in 1897–98. Tolls were levied at the maximum rates at 89 gates, at three-fourths rates at 25 and at half rates at the remaining 186. The arrangements under which tolls on certain roads in charge of the Public Works Department or Municipal Councils were collected by the District Boards remained unaltered. The total collections under this head amounted to Rs. 7,83,726 against Rs. 7,71,155 in the previous year. Of the former sum, Rs. 6,47,975 were realised at the Local Fund toll-gates and Rs. 1,35,751 were contributed by Municipal Councils on account of

tolls levied by them on through traffic against Rs. 6,50,529 and Rs. 1,20,626, respectively, in 1897–98. The decrease under Local Fund tolls occurred chiefly in South Arcot, being due to the abolition of two gates, and the increase under Municipal tolls, which occurred mainly in Madura, was due partly to an increase in the amount for which the Municipal gates were leased out and partly to the collection of arrears of the previous year. In South Canara, Chingleput, Coimbatore, Kurnool, Madura, Malabar, Nellore, the Nilgiris and Tanjore, the whole of the demand under Local Fund tolls was realized within the year. In the other districts also the collections were good, except in Anantapur, South Arcot and Cuddapah, where only 84, 86 and 87 per cent. of the respective demands were realised. The balance due in South Arcot is covered by deposits which will be adjusted in the current year, while in Anantapur and Cuddapah the short collections were due to the failure of the contractors. The net receipts from tolls, excluding the cost of establishments and contingencies and the contributions paid to Provincial and Municipal funds, rose from 29 to 33 per cent. of the expenditure on roads, the proportion being high in the Nilgiris (58 per cent.).

12. *House-tax.*—This tax was levied in all the unions, except one in Tinnevelly. The maximum rates were in force in 248 unions, three-fourths rates in 64, two-thirds rates in eight, and half rates in the remaining sixty. The collections rose from Rs. 4,14,011 or 90 per cent. of the demand to Rs. 4,45,482 or 91 per cent., the increase being due to the imposition of the tax in the unions newly constituted during the year and to the enhancement of the rate in some of the existing unions. The tax was again most productive in Tinnevelly where Rs. 67,938 were realised in 33 unions, and least so in Ganjám where only Rs. 9,463 were collected in 15 unions. In North Arcot, Chingleput, Kistna, Salem, Tanjore and Trichinopoly, the collections were good, being more than 95 per cent. of the demand, and they were fair in the remaining districts, except Cuddapah, where only 59 per cent. of the demand was realised owing partly to the unfavourable character of the season and partly to slackness in collection. From Appendix XIII, which shows the incidence of this tax and other particulars connected therewith, it appears that the number of houses actually assessed to the tax was 646,425 against 584,321 according to the Census of 1891, the excess being apparently due to the increase in the number of houses since the last Census. In the 24 unions noted in the margin, however, more than 25 per cent. of the number of houses according to the Census escaped taxation. In North Arcot this was due to the accidental destruction of several houses by fire during the year, and in Coimbatore (as regards Singanallúr and Kunniyamuttur only), Gódávari, Tanjore and Vizagapatam to the exemption of certain hamlets or classes of houses from taxation on the ground of poverty. No explanation has been furnished in the remaining cases, although similar omissions were noticed in the General Reviews for the preceding two years. The Presidents of the Taluk Boards concerned should satisfy themselves, after careful enquiry, that no houses which are liable to taxation have escaped and should report the result of their enquiry to Government. The average incidence per house taxed rose from As. 10–10 to As. 11–2 and ranged from Rs. 3–0–4 in Kodaikánal (Madura) to As. 2–10 in Rapur (Nellore). There was a large increase in the number of distress warrants issued for the collection of this tax, which was 25,612 against 18,400 in 1897–98, while the number of cases in which property was sold was only 778 and the amount involved was Rs. 505, the corresponding figures for that year being 514 and Rs. 315. The rate-payers appear generally to have paid the taxes without difficulty. Except in Bellary, Madura and Tinnevelly, the Taluk Boards again made large contributions to Union Panchayats in excess of the lighting charges, which under section 142 of the

Local Boards Act have to be met from Taluk Funds. But as it is not right that the funds raised throughout the district should be utilised for the benefit of the small population living in unions, the Taluk Boards concerned should consider the advisability of enhancing the rate of house-tax where the maximum rates are not in force and of reducing the expenditure elsewhere so as to make the unions self-supporting.

13. *Educational.*—Excluding the sale-proceeds of books which are now credited to "debt heads," the receipts under this head rose from Rs. 2,24,040 to Rs. 2,35,332, the increase occurring chiefly under school-fees and "miscellaneous." In the first case the increase, which appears mainly in Gódávari, was due to an improvement in the attendance of the Boards' schools, and in the second the excess was the result chiefly of the sale of articles manufactured in the Technico-Normal Institute at Madura.

14. *Medical, Vaccination and Sanitation.*—The income under this head fell from Rs. 53,269 to Rs. 47,657, the decrease, which appears mainly under contributions from private individuals, being partly counterbalanced by an increase under "miscellaneous."

15. *Interest.*—The investments made by Local Boards in favour of the endowed institutions in their charge and the Railway Guarantee Fund in Tanjore rose from Rs. 14,77,141 to Rs. 18,84,865 and the interest derived therefrom was Rs. 52,997 against Rs. 46,336 in 1897–98, as shown in Appendix XIV.

16. *Miscellaneous.*—The income from choultries, markets and other miscellaneous sources detailed in Appendix IX amounted to Rs. 9,84,695 or Rs. 53,874 more than in the previous year, the principal variations being dealt with below :—

(*a*) *Fishery Rents.*—The revenue under this head rose from Rs. 1,21,507 to Rs. 1,25,267. Of this sum Rs. 1,18,912 were collected by the Revenue Department and Rs. 6,355 by the Public Works Department.

(*b*) *Choultry Rents.*—The receipts appertaining to choultries rose from Rupees 2,70,393 to Rs. 2,94,251, the increase which occurred chiefly in Tanjore being due partly to prompt collections and partly to a rise in the commutation rate of prices.

(*c*) *Market Rents.*—The Taluk Boards maintained 592 markets or four less than in 1897–98 and fees were levied in 528 of them against 530. The income from these institutions, however, rose from Rs. 1,62,200 to Rs. 1,73,473, the increase which occurred mainly in Anantapur, Coimbatore and Madura being due either to the collection of arrears or to competition at the sale of the leases. The expenditure on public works, etc., connected with these institutions also rose from Rs. 1,84,561 to Rs. 1,97,978. As the balance in their favour at the beginning of the year was Rs. 2,14,213 against Rs. 2,08,228 in the previous year, the closing balance of the year was enhanced from Rs. 2,14,213 to Rs. 2,38,068 and the Taluk Boards concerned have either promised or have been directed by Government in the individual reviews to take the necessary steps for spending the greater portion of this amount on the improvement of the markets and the construction and repair of the roads leading to them.

(*d*) *Avenues.*—The statistics of avenues in the several districts are given in Appendix XV. Out of 26,875 miles of roads in charge of the Local Boards, 17,048 were provided with avenues, the corresponding figures for the previous year being 26,744 and 16,997. The total number of trees at the end of the year also rose from 2,919,376 or 172 for each mile on an average to 2,965,555 or 174 per mile. It is, however, a matter for regret that the number of trees which perished during the year exceeded the number planted in Bellary, South Canara, Coimbatore, Ganjám, Madura, Malabar and Tinnevelly. The receipts under this head were almost stationary, being Rs. 1,18,196 against Rs. 1,18,052 in 1897–98, while the expenditure incurred on their extension and maintenance fell from Rs. 1,01,478 to Rs. 99,400. The condition of the avenues is reported to have been, on the whole, satisfactory.

(*e*) *Ferry Rents.*—These amounted to Rs. 1,85,595 or Rs. 7,368 more than in the previous year, the increase which appeared mainly in Gódávari and South Canara being due partly to keen competition at the sale of the leases and partly to the establishment of additional ferries.

17. *Contributions from Provincial Funds.*—Grants amounting to Rs. 3,07,411 were received from Provincial funds for the following purposes against Rs. 3,15,143 in the previous year :—

	1897-98.	1898-99.
	RS.	RS.
(1) Public Works	1,62,198	1,31,985
(2) Schools	92,958	92,699
(3) Hospitals and Dispensaries	7,118	5,501
(4) Choultries	33,850	34,073
(5) General purposes	19,000	21,047
(6) To cover deficits	..	22,106
(7) Refunds	19	..
Total ..	3,15,143	3,07,411

The decrease under public works was due chiefly to only a grant of Rs. 6,500 against Rs. 20,000 in the previous year having been made to the Malabar District Board on account of the Calicut-Vayittiri-Gudalur road and to a diminution in the net profits of the Máyavaram-Muttupet Railway for the twelve months ending December 1898 as the result of the plague regulations. The fall under hospitals and dispensaries was due to the absence of arrear contributions such as those received in the previous year. The Local Fund accounts of South Arcot and Bellary having closed the year with deficits of Rs. 8,038 and Rs. 14,068, respectively, owing to the expenditure incurred on plague-preventive measures, these amounts were adjusted, as usual, by a contribution from Provincial funds.

18. *Contributions from Special Funds.*—The sum of Rs. 390 credited under this head represents chiefly the proportionate cost of the travelling allowances of the local audit clerks recovered from Special funds.

19. *Contributions from Municipalities.*—The receipts under this head amounted to Rs. 11,970 against Rs. 8,778 in 1897-98, as shown below :—

	1897-98.	1898-99.
	RS.	RS.
Education	1,993	2,093
Medical, Vaccination and Sanitation	5,612	6,627
Public Works	900	3,074
Miscellaneous	273	176
Total ..	8,778	11,970

The increase under public works occurred chiefly in Tinnevelly and Vizagapatam, being due in the former case to the receipt of a contribution of Rs. 1,000 from the Tinnevelly Municipal Council towards the building fund of the maternity hospital and female dispensary at Vannarpet, and in the latter to the contribution of Rs. 1,212 paid by the Vizagapatam Municipality for the upkeep of the pontoon bridge.

III.—EXPENDITURE.

20. The total expenditure, excluding debt heads (Rs. 4,68,688) and contributions from one District Board to another (Rs. 1,883), amounted to Rs. 80,78,539 or Rupees 79,422 more than in 1897-98, the increase which appeared under Grants 3 and 4 and investments being partly met by a decrease under the other grants. The charges under the several heads are compared with the figures for the previous year in Appendices V and XVI, while the expenditure under each grant and the proportion of it to the total outlay are shown in the following abstract.

Grants.	1897-98.	1898-99.	Percentage.	
			1897-98.	1898-99.
	RS.	RS.

Total Expenditure ..	79,99,117	80,78,539	100	100

GRANT 1, PUBLIC WORKS.

21. The details of the outlay on public works and the cost of the engineering establishment including contingencies and of tools and plant are shown in Appendix XVII. The total expenditure on public works amounted to Rs. 33,31,367 against Rs. 35,29,227 in the previous year, the decrease occurring chiefly in South Arcot, Ganjám, Gódávari, Kistna and Madura and being partly met by an increase in Nellore. This sum was 41 per cent. of the receipts and of the charges, and it was spent by the agencies noted below :—

	1897-98.	1898-99.
	RS.	RS.
By the Local Fund Engineering establishment ..	33,43,738	31,92,571
,, Revenue Department	1,47,165	1,11,029
,, Public Works Department	38,324	27,767
Total ..	35,29,227	33,31,367

The outlay on communications was Rs. 29,91,098 or Rs. 1,32,942 less than in the previous year; but it was 90 per cent. of the allotment against 86 per cent. in that year. Of this sum, Rs. 29,63,331 were spent by the Local Fund Engineering establishment and the Revenue Department and Rs. 27,767 by the Public Works Department. The works undertaken by the Public Works Department were the widening of the left bank of the Pandavayar, the diversion of road No. 46 and improvement of the village road from Lakshmanagudi bridge to Kottagam in Tanjore, the construction of a culvert on the central channel in Nellore and the maintenance of roads on tank, canal and channel banks in South Arcot, Coimbatore, Ganjám, Gódávari, Kistna, Nellore, Tanjore and Trichinopoly. The expenditure on the construction and repair of buildings, such as school-houses, hospitals, dispensaries, choultries, &c., amounted to Rs. 1,47,781 and that on miscellaneous public improvements, such as the plantation and maintenance of avenues and the construction and repair of markets, tanks and wells, was Rs. 1,92,488, the corresponding figures for the previous year being Rs. 1,75,894 and Rs. 2,29,293.

The proportion which the outlay on public works executed by the Local Fund Engineering establishment bore to the sanctioned allotment rose from 85 to 88 per cent. It was high in South Arcot (100), Chingleput (99·6), Ganjám (98), Kistna (98), Kurnool (98), Bellary (97), Coimbatore (97), Salem (97) and Trichinopoly (96), and low in Cuddapah (64), Anantapur (70) and South Canara (71). The explanations offered for the short outlay in the last three cases are given in the last column of Appendix XVII.

22. *Roads.*—Appendix XVIII shows the statistics of roads in the several districts, excepting the main road from Kallar to Ootacamund in the Nilgiris which remained in charge of the Public Works Department as in the previous years. The total length of roads maintained by the Local Boards and Union Panchayats was less than in 1897-98 by thirty miles, which was the net result of decreases in seven districts and of increases in eleven others. The decrease, which was large in Kurnool, has not been explained. The largest expenditure on new roads, including those in progress but not yet completed, was again incurred in Kistna (Rs. 34,759). It was

also high in Tanjore (Rs. 21,493), Tinnevelly (Rs. 17,624) and South Arcot (Rs. 11,066), while in the other districts it was less than Rs. 10,000. The average cost of maintaining each mile of road fell from Rs. 117 to Rs. 115. It was low in Anantapur (Rs. 31), Cuddapah (Rs. 48) and South Canara (Rs. 69), but high in Nellore (Rs. 251), Kistna (Rs. 243) and Tinnevelly (Rs. 115). In six districts the average was higher than in the previous year and in thirteen others it was lower, while in Cuddapah and Salem it remained unaltered.

The percentage of the expenditure on communications in the several districts to the net revenue from tolls *plus* half the receipts from land-cess is shown in Appendix XVIII-A. In only five districts was the prescribed proportion reached, the percentage being very high in the Nilgiris (192 per cent.), which received a large contribution of Rs. 78,690 from Provincial Funds, and in Nellore (146). On the other hand it was very low in Kurnool (45), Anantapur (53) and Cuddapah (60), the short outlay being accounted for in the administration reports of these districts.

The general condition of the roads in North Arcot, South Arcot, Kistna, Malabar and Tanjore and with certain exceptions in South Canara, Chingleput, Coimbatore, Gódávari, the Nilgiris, Trichinopoly and Vizagapatam, is reported to have been on the whole fair, while in Bellary, Ganjám and Nellore there was some improvement as compared with the previous year. The trunk roads in Kurnool are stated to have greatly improved, while the other roads continued to be far from satisfactory. In Madura the roads in the Sivaganga, Dindigul and Mélúru taluks were in a satisfactory condition, while those in the other taluks were in bad order. In Salem there was a general improvement except in the case of the roads under the Námakkal Taluk Board and of some of those under the Tiruppattúr Taluk Board which were unsatisfactory. On the other hand the roads in Anantapur, Cuddapah and Tinnevelly were in a bad state.

23. *Establishments, &c.*—As in previous years, the District Boards maintained Engineering establishments of their own for the execution of public works other than the construction and maintenance of roads on tank, canal and channel banks which were entrusted to the Public Works Department. These establishments worked as usual directly under the District Boards, although their cost was generally met from the District and Taluk funds in proportion to the outlay from each. The expenditure incurred on their account amounted to Rs. 6,02,892 or 19 per cent. of the outlay on works executed by them against Rs. 5,81,426 or 17 per cent. in 1897–98, the maximum fixed by Government being 20 per cent. and the contribution payable to the Public Works Department for the execution of Local Fund works being 23 per cent. In Anantapur, Kurnool, Cuddapah, Gódávari, Bellary, Kistna, Vizagapatam and South Canara the maximum limit was exceeded by 25, 15, 6, 4, 3, 2, 2 and 1 per cent., respectively, owing mainly to short outlay on works. On the other hand the percentage was low in Nellore (14), Coimbatore (15) and Tanjore (15). A contribution of Rs. 903 was paid to the Public Works Department for the execution of Local Fund works in Gódávari, Kistna and Nellore and Rs. 8,209 for the scrutiny of Local Fund plans and estimates at the rate of $2\frac{1}{2}$ per cent. on the amount of the estimates.

The cost of toll and ferry establishments amounted to Rs. 12,901 against Rs. 9,839 in the previous year, the increase, which appeared chiefly in Gódávari, being due to the establishment of a ferry between Rajahmundry and Polavaram.

The outlay on tools and plant by the Local Fund Engineering establishment was Rs. 52,562 or 1·6 per cent. of the expenditure on works executed by it, the maximum limit prescribed by Government for all districts except the Nilgiris being 1 per cent. In Anantapur, North Arcot, Bellary, Cuddapah, Ganjám, Gódávari, Kistna, Madura, Nellore and Trichinopoly this limit was exceeded, the excess being very large in Kistna (3·4) owing mainly to the purchase of a steam road-roller and in Nellore (2·3) owing to the purchase of new tools and water-carts. A sum of Rs. 538 was spent on tools and plant required for the works executed by the Public Works Department.

24. *Contributions.*—The amount contributed to Provincial and Municipal funds and to private individuals, &c., fell from Rs. 86,178 to Rs. 50,005. The decrease occurred mainly in Bellary and Tanjore, where large contributions were paid to Provincial funds in 1897–98 on account of famine-relief works and the Máyávaram-Muttupet Railway, respectively.

GRANT 2, EDUCATION.

25. The lines on which the educational operations of Local Boards were conducted remained unaltered. The total expenditure on education, exclusive of Rs. 22,788 spent on school-buildings and debited to Grant 1, was Rs. 10,75,333 or Rs. 20,449 less than in the previous year, the decrease appearing chiefly under Boards' primary schools. Appendices XIX to XXI show the receipts and charges of the schools maintained and aided from Local funds, but exclude contributions from Municipalities and miscellaneous items.

26. *Inspection.*—As in the previous year, the District Boards employed 201 Inspecting Schoolmasters for supervising their educational operations. These officers visited 23,671 villages and prepared 21,195 schools for examination, the corresponding figures for the previous year being 25,721 and 21,871, and their work is reported to have been on the whole satisfactory. The cost of this establishment amounted to Rs. 1,02,511 against Rs. 1,01,630 in 1897–98.

27. *Training Schools.*—Two training schools were again maintained by the District Boards of Madura and Tinnevelly; but the training section of the school at Melaviraraghavapuram in Tinnevelly was transferred to Government on the 1st January 1899. The normal department of the Technico-Normal Institute at Madura was attended by 37 students against 32 in the previous year. Of these, twelve appeared for the Lower Secondary grade of the Teachers' Certificate examination and two were successful in the written and four in the practical test, while in the primary grade 16 out of 26 passed the written and 22 out of 34 the practical test. In the normal department of the training school at Melaviraraghavapuram, there were 39 students at the time of its transfer to Government; but the results of the examination which was conducted thereafter have not been reported.

28. *Sessional Schools.*—Fifty-six schools of this class for the education of village schoolmasters, against 63 in the previous year, were maintained by the District Boards for three or four months each in all the districts except Anantapur and the Nilgiris; but the number of students attending them rose from 875 to 902. Excluding the school in Malabar, the progress of which has not been reported, the working of these institutions was on the whole good, 668 pupils having passed the Primary examination out of 846 sent up. Of the 17,084 teachers employed in the schools maintained and aided from Local funds, 6,324 or 37 per cent. were entirely unqualified. The District Boards should take steps to reduce this large proportion by opening additional sessional schools where necessary and by reducing or withholding the grants payable to schools in which unqualified teachers are employed.

29. *Technical Schools.*—The industrial school at Bezwada in Kistna, in which instruction was given in drawing, carpentry and blacksmiths' and rattan work, was attended by 37 students or two more than in the previous year, and it is stated to have made satisfactory progress, only the students who underwent training in blacksmiths' work having fared badly in the technical examination. The attendance in the industrial department of the Technico-Normal Institute at Madura fell from 117 to 112, and of these 96 appeared for examination in technical subjects, but only 40 were successful. In the agricultural department of this institution there were again eight students, but the results of the examination have not been reported. In the industrial class attached to the training school at Melaviraraghavapuram there were 47 students against 46 in 1897–98 and they are stated to have made good progress.

30. *Secondary Schools.*—There were 112 Boards' secondary schools or three less than in the previous year and their attendance fell from 11,177 to 11,140. The decrease in the number of schools was the net result of the closure of two schools in Anantapur and Vizagapatam, the reduction of the schools at Nandyal (Kurnool) and Kilayur (Tanjore) to the primary grade and the raising of the primary school at Manantoddy (Malabar) to the lower secondary grade. Of the total number, ten were of the upper secondary and the others of the lower secondary grade. Out of 149 students who appeared for the Matriculation examination from the upper secondary

schools, 64 were successful, the corresponding figures for the previous year being 162 and 54. The results of the upper secondary schools at Coondapoor, Dhárápuram, Amalápuram and Tiruválúr were fair, while those of the Harpanahalle school were again very unsatisfactory, only one out of the thirteen students presented for the examination having passed. As this institution has been working badly for the last six years, the Taluk Board concerned should consider the advisability of reducing it to the lower secondary grade. From the lower secondary schools and the lower secondary departments of the upper secondary schools, 1,082 students were presented for the Lower Secondary examination, and of these 385 or 36 per cent. passed, the corresponding figures for the previous year being 948, 446 and 47. The schools at Arni, Udipi, Karkal, Kasaragod, Puttur, Udamalpet, Bhaváni, Tanuku, Pithápuram, Narasaraopet, Alattur, Námakkal, Tiruválúr, Enangudi and Kulittalai produced fair results, not less than 50 per cent. of the pupils sent up for the examination having passed, while those at Penukonda, Arcot, Karvetnagar, Villupuram, Porto Novo, Tirukkóyilúr, Hospet, Rayadrug, Kollegal, Russellkonda, Tekkali, Attili, Tallapudi, Sattenapalle, Dachepalle, Kottayi, Tiruchengodu, Krishnagiri, Pattukkóttai, Narasapatnam, Yellamanchili, Kasimkóta, Chódavaramu, Palkonda and Parvatipuram fared badly, less than a fifth of the number of students presented having been successful. All the upper secondary schools were maintained on the salary system and the average net cost of educating each pupil in the upper secondary schools and departments rose from Rs. 2–10–8 to Rs. 3–11–5. The schools in Gódávari and Tinnevelly were worked at a profit of Rs. 906 and Rs. 123, respectively, while in Bellary and Tanjore the net cost per pupil was high, being Rs. 12–3–8 and Rupees 10–8–11, respectively. The high cost in Bellary has not been explained; in Tanjore it was due to the students of the Sanskrit school at Tiruvádi having been educated and fed gratuitously. The net cost of educating each pupil in the lower secondary schools and departments on the salary system fell from Rs. 1–15–6 to As. 11. The Local Boards of Malabar, Kistna, Tanjore, Trichinopoly, North Arcot, Coimbatore and Anantapur worked these schools at a profit of Rs. 1,751, Rs. 831, Rs. 724, Rs. 510, Rs. 424, Rs. 208 and Rs. 40, respectively. The net cost was low in Kurnool (As. 2–8) and Gódávari (As. 8–5), and high in Ganjám (Rs. 13–1–10) and South Arcot (Rupees 11–14–5). The net cost of educating each pupil in the lower secondary schools and departments on the salary-result system also fell from Rs. 10–15–3 to Rs. 9–13–6. It was, however, high in Tinnevelly (Rs. 26–9–10), Gódávari (Rs. 17–9–1) and North Arcot (Rs. 10–0–10). The Local Boards in these districts should adopt prompt measures to reduce it.

31. *Primary Schools.*—The number of primary schools maintained by the Local Boards fell from 2,688 with 119,358 pupils to 2,536 with 113,264 pupils, the decrease which occurred chiefly in Malabar, Nellore, Salem, South Canara, Gódávari and Madura being mainly due to the closure of some schools. The net cost of educating each pupil in the upper primary departments of these institutions was either *nil* or very low in South Canara, Chingleput, Ganjám, Kurnool, Malabar and Vizagapatam, while in Bellary, it was high, being more than Rs. 10. Steps should be taken to reduce the high cost in this case. The net cost per pupil in the lower primary schools and departments was not high in any district. The number of pupils who appeared for the standard examinations from the primary schools and the primary departments of the secondary schools was 73,003 against 66,780 in the previous year, and 55,463 or 76 per cent. of these passed against 50,337 or 75 per cent. in that year. Thus the progress of these schools was on the whole satisfactory. The Local Boards maintained schools for the exclusive benefit of Panchamas and other backward classes in all the districts except the Nilgiris, where there are no special schools for them, and Trichinopoly, regarding which no information has been furnished. The number of such schools was large in Gódávari (120), Kistna (75), Vizagapatam (43), South Arcot (33), Madura (31), Tanjore (28), South Canara (24), Coimbatore (23) and Cuddapah (20). These schools made fair progress in all the districts except Anantapur and Coimbatore, regarding which no information has been furnished, and Kurnool, Nellore and South Arcot.

32. *Aided Schools.*—The Local Boards aided 9,740 schools with 255,814 pupils against 9,700 schools with 250,874 pupils in the previous year and the expenditure

thereon amounted to 99 per cent of the allotment, while in 1897–98 it was in excess of the allotment by 3 per cent. In Bellary, Chingleput, Cuddapah, Ganjám, Malabar and Trichinopoly the allotment was exceeded owing to (1) payment of arrears of the previous year, (2) increase in the number of schools and (3) better results produced by some of the schools. On the other hand in Gódávari as much as 16 per cent. of the allotment was allowed to lapse, but no reason has been assigned for the short expenditure.

33. *General Educational Results.*—There were on the 31st March 1899, 2,648 Boards' schools attended by 124,626 pupils against 2,803 schools with 130,535 pupils in the previous year. A few of these schools were maintained exclusively for girls, while in many of the others pupils of both sexes were admitted. The proportion of the total net expenditure on education to the total receipts was 9·4 per cent. against 9·8 per cent. in 1897–98. The percentage was high in Anantapur (12·4), Gódávari (12·4) and Bellary (12·2) and low in Tanjore (6·0), Malabar (7·6), Trichinopoly (8·4), Vizagapatam (8·9) and Madura (9·0). The total number of girls educated in Boards' schools fell from 18,656 to 17,850, while that in aided schools rose from 22,913 to 24,554. The total number of boys under instruction in the schools maintained and aided from Local funds fell from 338,376 or 14·2 per cent. of the male population of school-going age to 338,036 or 14·0 per cent., the decline being noticeable in Chingleput (1·8), North Arcot (1·3) and Nellore (1·1). There was, on the other hand, an appreciable increase in the Nilgiris (1·9), Ganjám (1·2), Tinnevelly (1·2) and Bellary (1·1). The proportion was again high in the Nilgiris (26·9), Tinnevelly (23·4) and Bellary (21·2) and fair in the remaining districts except Anantapur and Cuddapah, where it was less than 10 per cent., in the first for the second year and in the second for the sixth year in succession.

GRANT 3, MEDICAL SERVICES, VACCINATION AND SANITATION.

34. *Hospitals and Dispensaries.*—During the year under review the hospital at Paramagudi (Madura) was converted into a dispensary, the dispensary at Dharmavaram (Anantapur) was converted into a hospital, that at Arupppukóttai (Madura) was handed over to the American Mission, the women and children's dispensary at Salem was closed for want of a medical subordinate to take charge of it, and the dispensaries at Sulurpet and Singarayakonda (Nellore) were closed for want of funds. Thus, on the 31st March 1899, there were 131 hospitals maintained by the Local Boards as in the previous year, while the number of dispensaries was reduced from 226 to 222. The statistics of these institutions are shown in appendix XXIII. In addition to these, the Taluk Boards in Tinnevelly continued to aid ten dispensaries, of which eight were managed by mission and two by private agencies.

There was again a fall in the total number of patients treated in the Local Fund institutions, which was 2,499,198 or 7·8 per cent. of the population, against 2,573,054 or 8·0 per cent. in the previous year. In twelve districts there was a decline and in seven others an advance, while in the remaining two districts the attendance was stationary. There was a marked fall in Salem (2·1 per cent.), Bellary (1·9), Trichinopoly (1·7), North Arcot (1·5), and Anantapur (1·2), which is ascribed partly to the scare caused by the prevalence of plague and partly to the closure of some of the institutions for a portion of the year owing to the deputation of the medical subordinates concerned for plague or cholera duty. The proportion was below 6 per cent. in Cuddapah, Malabar and North Arcot, in the first two for the fourth year in succession, while in the other districts it ranged from 6·8 per cent. in Ganjám and Bellary to 13·0 per cent. in the Nilgiris. The total number of beds available for in-patients in the hospitals was 1,446 against 1,424 in 1897–98.

	In-patients.	Out-patients.
1897–98	17,086	2,555,968
1898–99	16,160	2,483,038

Excluding the cost of midwives and midwifery pupils, the net expenditure on the maintenance of these institutions amounted to Rs. 5,18,693 against Rs. 5,41,957 in the preceding year; but as there was also a decrease in the number of patients treated in them, the average cost for each patient continued to be As. 3–4. The cost was high

in Bellary (As. 6–3), Cuddapah (As. 4–8), Kistna (As. 4–5) the Nilgiris, (As. 4–5), North Arcot (As. 4–4), Malabar (As. 4–3) and South Canara (As. 4–3). In the remaining districts it ranged from As. 3–10 in Gódávari to As. 2–2 in Madura.

35. *Medical Schools and Medical Pupils.*—As in the preceding year, there were 47 students under training in the Prince of Wales' Medical school at Tanjore maintained by the District Board. Of these, fourteen appeared for the Hospital Assistants' examination and eight passed. Seven students were under training in the Medical College at Madras at the cost of the Local Boards in Gódávari, Ganjám and Vizagapatam.

36. *Midwives.*—Besides the ten nurses in Cuddapah who attended 705 cases of labour against 572 in 1897–98, there were 221 trained midwives or eleven more than in the previous year in the employ of the Local Boards. The number continued to be large in Madura (25), Nellore (21) and Tanjore (20) and small in Cuddapah (1), the Nilgiris (1), Anantapur (3) and Kurnool (3). They attended altogether 16,312 cases of labour or 3,001 more than in the preceding year, the average being six cases each per mensem against five in that year. The midwives in Bellary and Vizagapatam attended on an average ten cases each per mensem—a very fair outturn, while the work done by those in Anantapur, Coimbatore, Malabar and Salem was poor, the average being only four cases each per mensem. Every effort should be made by the Taluk Boards concerned to produce better results in future.

37. *Medical Training of Women.*—Appendix XXIV contains a summary of the information furnished on this subject. The Local Boards in all the districts, except Chingleput, South Canara, Anantapur, Malabar, the Nilgiris and North Arcot, either granted scholarships for the training of female medical students or employed those who had been previously trained at their cost or with the aid of the Countess of Dufferin's Fund. In Chingleput there was no necessity for taking steps in this direction owing to its proximity to Madras where there are hospitals for females, while in the other districts above referred to nothing was done in the matter apparently owing to want of funds.

38. *Vaccination.*—The Government has already fully dealt with this subject in its Order, No. 1498 L., dated 28th July 1899, reviewing the report of the Inspector of Vaccination for 1898–99. This branch of the Boards' administration was much affected by the plague scare which made the people unwilling to submit themselves and their children to vaccination under the mistaken impression that plague inoculation was being substituted for vaccination. Thus the total number of operations performed by the Local Fund vaccine staff, which consisted of 52 Deputy Inspectors of Vaccination and 687 Vaccinators and Probationers, against 51 and 688 respectively in the preceding year, fell from 1,066,287 to 909,925. The percentage of reported success also fell from 89 to 86. The total number of operations performed by Local Fund Vaccinators and the number of successful cases, as given in statement I appended to the vaccination report, differ, as shown below, from the figures furnished by the Presidents of District Boards, and the Sanitary Commissioner is requested to explain the discrepancies :—

Districts.	Number of operations performed by Local Fund vaccinators.		Number of successful operations.	
	As in the vaccination report.	As in the President's report.	As in the vaccination report.	As in the President's report.
South Arcot	53,245	52,615	..	..
Coimbatore	..	..	42,361	42,358
Cuddapah	25,055	23,755	24,433	23,164

The number of operations performed by each Vaccinator was, on an average, 1,366 against 1,581 in 1897–98. It was good in Vizagapatam (2,071) and was above 1,000

in the remaining districts, except the Nilgiris (605), Cuddapah (759), North Arcot (787), Anantapur (806) and Kurnool (964). Compared with the previous year, there was a decrease in all districts except five, notably in Trichinopoly, North Arcot and Salem, being the effect of the plague scare already alluded to.

Owing to the smaller outturn of work, the average cost of each successful case rose from As. 3–8 to As. 4–4. It was high in the Nilgiris (As. 10–3), Gódávari (As. 10), Cuddapah (As. 8–5), North Arcot (As. 7–7), Anantapur (As. 6–7), Kurnool (As. 6–2), Nellore (As. 5–8) and Bellary (As. 5–5) and low in Madura and Tinnevelly, where it was As. 2–9 each. Compared with the preceding year, there was a decrease in five districts, while in the remaining districts there was an increase, the excess being very large in Gódávari (As. 3–9), North Arcot (As. 3–7), Cuddapah (As. 3–2) and the Nilgiris (As. 2–10).

Including the work done by the medical subordinates in charge of Local Fund hospitals and dispensaries, the total number of successful operations performed during the year was 793,563 or 24·7 per mille of the population against 962,223 or 29·9 per mille in 1897–98. In the Nilgiris, Tinnevelly, South Canara, Bellary, Chingleput, Vizagapatam and Kistna the results were fair, the proportion varying from 30 to 40 per mille; but in the other districts they were unsatisfactory, especially in North Arcot (13·3) and Gódávari (12·9). The reported number of successful operations on children under one year fell from 264,399 or 8·2 per mille of the population to 219,765 or 6·8 per mille. The best work was done in Bellary (17·7) and Chingleput (16·2), while in Malabar (0·4) it was again very bad. In all the districts vaccination was, as usual, conducted exclusively with animal lymph.

39. *Sanitation.*—Besides Rs. 16,733 spent on sanitary public works and shown under Grant 1, the expenditure under this head was Rs. 5,13,766 against Rs. 5,26,972 in 1897–98, as detailed below :—

	1897–98.	1898–99.
	RS.	RS.
Improvement of water-supply	1,13,358	94,881
Improvement of village-sites	31,058	42,970
Conservancy establishments	3,35,654	3,37,277
Arrangements at fairs and festivals	19,081	14,842
Other sanitary outlay	27,821	23,796
Total ..	5,26,972	5,13,766

The decrease which occurs chiefly in Gánjam was apparently due to the allotment having been reduced in order to provide funds for plague expenditure. No sanitary work of any importance was undertaken in the rural areas; but, as usual, many petty works, such as the improvement of water-supply and village-sites and the construction and repair of latrines, dust-bins, &c., were carried out by the Local Boards and Union Panchayats. Two hundred and fifty-three new wells were sunk and 1,233 existing sources of water-supply were repaired or otherwise improved, the corresponding figures for the previous year being 333 and 1,509. The number of watchmen employed to guard drinking-water sources, however, rose from 401 to 423, and 212 village-sites were improved against 178 in 1897–98. Out of 44,622 minor towns and villages in the Presidency, 381 unions and 327 other villages were provided with conservancy establishments against 376 and 456, respectively, in the previous year. As these establishments in non-union villages are in many instances not adequately supervised, the Local Boards should, where desirable, divert the expenditure incurred on them to the improvement of water-supply which requires much attention.

As in the previous year, the total expenditure on sanitation amounted to 88 per cent. of the sanctioned allotment. The proportion was fair in all the districts, except North Arcot and Madura where it was less than 80 per cent. In North Arcot the short outlay was due to the falling of rains which rendered the full utilization of the provision for water-supply unnecessary and to the lapse of the allotment made for

"probable expenditure." On the other hand, in Madura it is attributed to the late receipt of bills in the Dindigul taluk and to the late submission of applications from the sanitary associations for contributions from Local funds. The private scavenging system was in force in 56 towns against 44 in the previous year. In the unions of Tadpatri (Anantapur), Ránipéttai, Arkónam and Arni (North Arcot), Bhavani and Satyamangalam (Coimbatore), Russellkonda (Ganjám), Maddikera (Kurnool), Námakkal, Shendamangalam and Tiruchengódu (Salem) and Turaiyúr (Trichinopoly), it was either a failure or a source of loss to the Panchayats. In Rayadrug and Siruguppa (Bellary), Madanapalle (Cuddapah), Rámachandrapuram, Dowlaishweram, Attili, Narsapur, Palakollu and Achanta (Gódávari) and Mélúr (Madura) the system was not in force for a sufficiently long time to admit of its being declared a success or otherwise. No information has been furnished regarding its working in the unions of Villupuram, Vriddháchalam and Tirukkóyilúr (South Arcot) and Uttamapalaiyam (Madura). In the remaining places it is reported to have worked fairly well. The system was not in operation in the districts of Nellore, Tanjore and Vizagapatam, and the Taluk Boards in these districts should consider the advisability of introducing it in some of the unions under their control.

Anantapur	2	Kurnool	2
Arcot, North	4	Madura	2
„ South	3	Malabar	1
Bellary	4	Salem	7
Chingleput	4	Tinnevelly	6
Coimbatore	8	Trichinopoly	2
Cuddapah	1		
Ganjám	1	Total	56
Gódávari	8		
Kistna	1		

40. *Plague.*—The Local Boards in all the districts, except Nellore, adopted measures to prevent the spread of the bubonic plague and the total charges incurred on this account amounted to Rs. 3,18,716 against Rs. 41,110 in the previous year.

41. *Contributions.*—Contributions amounting to Rs. 1,62,942 or Rs. 6,260 more than in 1897–98 were paid by the Local Boards to Provincial and Municipal Funds and to private bodies for medical and sanitary purposes, the increase occurring mainly under contribution to Provincial funds on account of the Medical College.

GRANT 4, PUBLIC AND CHARITABLE INSTITUTIONS.

42. *Choultries.*—The Local Boards had under their management 570 choultries or six more than in the previous year; but the expenditure incurred on them showed a further decline, having been Rs. 2,27,171 against Rs. 2,29,852. Of these, 247 were endowed institutions and in 59 of them 1,278,447 travellers were fed at a cost of Rs. 1,01,198, the corresponding figures for the preceding year being 1,378,734 and Rs. 1,01,652. The remaining choultries were mere rest-houses.

43. *Miscellaneous.*—The lighting charges, which were incurred in all the districts except Malabar and the Nilgiris, fell from Rs. 51,716 to Rs. 47,696. The expenditure was generally confined to unions; but in Chingleput, Gódávari, Salem, Tinnevelly and Trichinopoly some of the main roads and bridges were also provided with lights. In all 8,603 lights were put up in 241 places against 8,439 and 267 respectively in the previous year.

There was a decrease both in the number of lights and in the expenditure incurred on them in all the districts except North Arcot and Tinnevelly. The Local Boards in these districts should remember that although lighting is generally popular and useful, yet it is not desirable to increase the expenditure on it to the detriment of other more pressing needs, such as the upkeep of communications and sanitation.

GRANT 5, SUPERVISION AND MANAGEMENT.

44. *Supervision and Management.*—Under this head an expenditure of Rupees 4,79,087 was incurred against Rs. 4,74,151 in the preceding year and it was 5·9 per cent. of the total receipts and also of the total charges as in that year. The increase which occurred under "Local Boards' office establishments" was due chiefly to the establishments entertained in the unions newly constituted during the year.

45. *Repayment of Loans, &c.*—In Chingleput the District Board paid Rs. 7,460 as the last instalment of the principal and Rs. 145 as interest on account of the loan received from Imperial funds for the construction of the Korttalaiyár bridge. For want of funds the sum of Rs. 3,313, being the last instalment due to the Government of India on account of the loan obtained for the completion of the Tamracheri and Periya Ghât roads in Malabar, was not paid by the District Board during the year under review. Rupees 133 were, however, paid as interest.

The Coimbatore District Board paid Rs. 960 as interest on account of the debenture loan of Rs. 16,000 raised for the construction of the Pollachi market and the Ganjám District Board Rs. 106 as interest on the unpaid portion of the loan of Rs 5,000 received from Provincial funds for the construction of railway feeder roads. The District Board of Tinnevelly paid Rs. 3,500, being the last instalment of the loan of Rs. 35,000 obtained from the zemindar of Ettiyápuram for the construction of the Srívaikuntam bridge and Rs. 125 on account of interest.

The balance to the credit of the Railway Guarantee Fund in Tanjore at the beginning of the year was Rs. 7,66,000 in Government securities and Rs. 1,25,897 in cash. The District Board derived a net profit of Rs. 41,285 from the working of the Máyavaram-Muttupet Railway during the twelve months ending December 1898, which represents 3·3 per cent. on the capital outlay. A sum of Rs. 12,000 was paid towards the cost of the survey of the extension of the line from Muttupet to Avadaiyarkoil and Rs. 2,14,100 were invested in Government securities. The balance in favour of the fund at the close of the year was Rupees 9,80,100 in Government securities and Rs. 90,378 in cash.

IV.—ENDOWMENTS.

46. Appendix XXVIII shows the number of endowed institutions, such as schools, hospitals and dispensaries, choultries, markets, &c., under the control of the Local Boards and Union Panchayats, and appendices XXIX and XXX, furnished by the Accountant-General, exhibit their financial transactions. The contributions and loans paid from General Funds to meet the deficits, with which some of them would otherwise have closed the year, amounted to Rs. 1,12,343 against Rs. 1,04,599 in 1897–98. Excluding these, the income of the endowed institutions rose from Rupees 5,58,958 to Rs. 5,90,419, and the charges from Rs. 5,37,558 to Rs. 6,32,719. The increase in the receipts, which occurred chiefly under choultry rents in Tanjore, was due partly to prompt collection of the demand and partly to a rise in the commutation rate of prices, while that in the charges, which also appeared mainly in Tanjore was only nominal, being due to the investment of a sum of Rs. 70,000 in Government securities in favour of certain choultries in the district. The opening balance in favour of these institutions being Rs. 4,81,224, the year closed with a balance of Rs. 4,38,924. The closing balance was large in Gódávari, where the Local Boards were directed to utilize, for the purposes specified in article 214 of the Local Fund Code, the major portion of the accumulations in favour of markets.

V.—GENERAL REMARKS.

47. *Local Fund Accounts.*—There was no change in the existing arrangements for the audit and inspection of Local Fund accounts. During the year under review, the accounts of 1897–98 and a portion of those for 1898–99 were examined in all districts except Kurnool. From the reports received from the Accountant-General it appeared that the state of the accounts was good in all districts except Anantapur, where the results were again not satisfactory.

48. *General Administration.*—The Government having in the reviews of the individual reports commented fully upon the administration of the Local Boards and Union Panchayats in each district, it will be sufficient here to remark that, speaking generally, the administration of local affairs continued to be on the whole satisfactory, although, as compared with the previous year, there was a retrogression in the districts

of North Arcot, Chingleput, Cuddapah, Gódávari, Salem and Vizagapatam, which was due chiefly to the restriction of expenditure in order to reserve funds for plague charges and to the measures adopted for the prevention of the spread of the epidemic.

* Railway Guarantee Fund.

† The difference, as compared with the closing balance of 1897-98 given in the General Local Fund Review for that year is due to the adjustment of contributions from Local to Provincial Funds on account of famine-relief works subsequently carried out by the Accountant-General.

* Excludes the cost of (1) Medical practitioners employed on sanitary inspection, distribution of medicines, &c.; (2) Medical schools; (3) the District Medical and Sanitary officers' establishments; (4) Medical pupils and (5) Midwives and midwifery pupils; but includes the pay of the medical subordinates in charge.

† Includes 10 nurses.

‡ Includes 705 cases attended by the nurses.

APPENDIX XXIV.

A summary of the measures adopted in furtherance of female medical education in 1898–99.

Arcot, South.—The dispensary for women and children at Cuddalore continued to work during the year and was maintained at the cost of the District Board and Municipal Council in equal shares.

Bellary.—The female student who was undergoing training for the Apothecary grade in the Madras Medical College at the cost of the District Board, passed the final examination held in March 1899.

Canara, South.—No steps were taken for the medical training of women beyond the payment of the usual contribution of Rs. 1,000 to the Mangalore Municipality in aid of the women and children's hospital at Mangalore.

Chingleput.—There was no necessity for taking any steps towards the furtherance of medical education of women in this district on account of its proximity to Madras.

Coimbatore.—The dispensary for women and children at Pollachi, which continued to be in charge of a female Apothecary, is stated to be doing good work.

Cuddapah.—A female Hospital Assistant trained by the Countess of Dufferin's Fund Committee on behalf of the Taluk Board continued to be employed in the Madanapalle hospital.

Ganjám.—The District Board continued to pay a scholarship to the female medical pupil who was being trained in the Medical College at Madras for the Apothecary grade under the auspices of the Dufferin Fund Committee.

Gódávari.—The dispensary for women and children at Cocanada continued to be in charge of a female Apothecary trained under the supervision of the Dufferin Fund Committee on behalf of the District Board.

Kistna.—The female medical pupil who was being trained for the Apothecary grade in the Medical College at Madras at the cost of the District Board is reported to have recently passed her examination.

Kurnool.—A female medical pupil for the Apothecary grade continued to be under training at the Madras Medical College at the cost of the District Board.

Madura.—The female medical pupil who was under training for the Apothecary grade in the Madras Medical College at the cost of the District Board is stated to have passed her first examination.

Nellore.—A female medical pupil was being trained in the Madras Medical College for the Apothecary grade at the cost of the District Board.

Salem.—Out of the dispensaries for women and children at Salem and Tiruppattúr in charge of female Apothecaries trained at the cost of the District Board, the one at Salem was closed from September 1897 on the resignation of the female Apothecary, and the District Board has not been able to secure a substitute.

Tanjore.—A female medical pupil continued to be under training for the Apothecary grade in the Madras Medical College at the cost of the District Board.

Tinnevelly.—Two female pupils continued to be trained for the Apothecary grade in the Medical College at Madras at the cost of the District Board.

Trichinopoly.—The female medical pupil who was undergoing training for the Apothecary grade in the Madras Medical College at the cost of the District Board is reported to have passed the final examination.

Vizagapatam.—There were two hospitals and one dispensary intended solely for women and children and they were in charge of female apothecaries trained under the supervision of the Countess of Dufferin's Fund Committee on behalf of the District Board.

No steps were taken in Malabar and the Nilgiris for the medical training of women, and the reasons for the omission have not been explained; in Anantapur nothing was done in furtherance of female medical education, regard being had to the circumstances and population of the district; and in North Arcot for want of funds.

In all the districts a number of trained midwives were employed (*vide* Appendix XXIII).

APPENDIX XXV.

STATEMENT showing the strength, cost and operations of the vaccine establishments for 1898–99.

District Boards.	Establishment.			Number of vaccine operations performed			Number of successful cases.			Percentage of successful cases to total number.	Number of successful operations per mille of the total population.	Average cost of each successful case by Local Fund vaccinators.	Number of successful operations on children under one year of age.	Number of successful operations on children under one year per mille of the total population.	Total cost of vaccination.
	Deputy Inspectors.	Vaccinators.	Probationers.	By Local Fund vaccinators.	By medical subordinates.	Total.	By Local Fund vaccinators.	By medical subordinates.	Total.

ORDER—No. 2285 L., dated 10th October 1899.

The Government, having separately reviewed the administration reports of the several Districts Boards for 1898–99 in the proceedings read above, will now consider them collectively.

2. These reports were again received, on an average, seven days after the prescribed date, those from Anantapur, Cuddapah and the Nilgiris being 25, 17 and 16 days, respectively, behind time. The Presidents of the District Boards concerned should endeavour to secure strict punctuality in the submission of future reports. The reports and the accompanying statements were prepared, on the whole, with greater care than in the previous year. Those from Madura and Kurnool, however, contained the largest number of errors, discrepancies and omissions, while those from North Arcot, Salem and Nellore were the least inaccurate.

I.—GENERAL.

3. *Administration.*—Five new unions were formed in the districts of South Arcot (2), Chingleput (2) and Salem (1). With this exception, there was no change in the system of Local Fund administration during the year under review.

4. *District Boards.*—Appendix I shows the constitution of the 21 District Boards on the 31st March 1899 and the average attendance of the members at their meetings. There were then 55 vacancies on these Boards or two more than in the previous year, and owing to this, the number of nominated official members on all the District Boards, except those of South Arcot, South Canara, Chingleput, Cuddapah, Madura, the Nilgiris, Tinnevelly and Vizagapatam, exceeded the maximum limit of one-fourth prescribed by

the Local Boards Act. The proportion of nominated officials, including *ex-officio* members, to the total strength was 25·4 per cent. against 24·1 in the previous year, and that of the elected members 45·1 against 45·7. Under the election rules in force, one-half of the sanctioned number of members for each District Board were elected by the Taluk Boards in all districts, except the Nilgiris, in which there are no Taluk Boards. At the close of the year, however, the full proportion of elected members existed only in the districts of South Canara, Chingleput, Cuddapah and Salem, the absence of it in the remaining districts being the result of vacancies on the Boards. The District Boards met in all 230 times against 237 in the previous year, and no meeting was adjourned for want of a quorum. There was a decrease in the number of meetings held by the Anantapur, South Arcot, Bellary, South Canara, Cuddapah, Ganjám, Nellore and Salem Boards, and in these districts, except South Arcot and Nellore, as well as in Kurnool, the Nilgiris, Trichinopoly and Vizagapatam, the number was less than twelve. As in the previous year, the average attendance of members at each meeting was seventeen (six officials and eleven non-officials) out of an average strength of 31 for each Board. There was an improvement in Anantapur, Ganjám, Gódávari, Kurnool, Madura, Malabar, the Nilgiris and Trichinopoly, and a retrogression in the other districts. The attendance of both classes of members in Madura, Malabar, the Nilgiris, Salem, Tinnevelly and Trichinopoly was fair; but that of the officials in Anantapur, South Arcot, South Canara, Kistna, Nellore and Vizagapatam was poor, being less than 40 per cent. of their strength.

5. *Taluk Boards.*—There were eighty Taluk Boards as in the previous year, and their constitution and attendance are shown in Appendix II. At the end of the year, there were 51 vacancies on these Boards against 50 in 1897–98, and in consequence of this, ten of them had less than the minimum number of twelve members prescribed by the Act. The Taluk Boards of Madura, Tinnevelly, Sermadevi, Srivilliputtur, Cocanada and Ellore have been authorized to elect their Vice-Presidents. The Taluk Boards held altogether 1,030 meetings against 1,034 in the previous year, and 30 others against 21 in that year were adjourned for want of a quorum. The Hospet, Uppinangadi, Berhampur, Nandyal, Tellicherry, Narasapatnam and Párvatípuram Boards, however, failed to meet once a month as required by section 28 of the Act. This irregularity in the case of the Nandyal Board has not been explained. In Hospet and Berhampur it is ascribed to want of subjects for consideration in certain months, and in the remaining cases to the adjournment of one of the meetings for want of a quorum. The average attendance of members at each meeting rose from 53·8 to 56·0 per cent. of their total strength. The attendance of the official members in South Arcot, Gódávari, Salem and Tinnevelly and of the non-officials in South Arcot, Kistna, Nellore, Salem and Tinnevelly was good, being more than 60 per cent. of their strength, but that of the officials in Cuddapah and Kurnool was irregular. The worst cases of neglect have been noticed in the individual reviews. No information has been given regarding the working of the Taluk Boards in Kurnool. In the remaining districts these Boards continued to work, on the whole, satisfactorily, with the exception of the Masulipatam Board in Kistna, which is stated to have been dilatory in the disposal of its business.

6. *Union Panchayats.*—Appendix III shows the constitution and attendance of the Union Panchayats, of which there were 381 or five more than in the previous year. Owing to vacancies at the end of the year, the actual number of members on the Panchayats of Kurugodu in Bellary, Yeleswaram in Gódávari, and Pedana, Chilakalurpet and Dachepalle in Kistna was less than the minimum strength of five prescribed by the Act, and the number of officials exceeded that of non-officials in the Panchayats noted in the margin. In the Panchayats of Rapur (Nellore), Narasapatnam and Párvatípuram (Vizagapatam) also the number of non-officials exceeded that of officials, although there were no vacancies, while in Madakasíra (Anantapur) and Madanapalle (Cuddapah) the same would have been the case even if all the existing vacancies had been filled by non-officials. The necessary steps for removing the preponderance of the official element have since been taken or

Melaviraraghavapuram	(Tinnevelly).

ordered to be taken. The Panchayats met in all 5,046 times against 4,938 in the previous year, but the average number for each Panchayat continued to be thirteen. Fifty-three of these Panchayats, excluding those newly formed during the year, against 56 in 1897–98, failed to meet once a month as required by section 129 of the Local Boards Act, and the Presidents of the Taluk Boards concerned have been directed in the reviews of the individual reports to take the necessary steps for preventing the recurrence of this irregularity.

No information has been furnished regarding the working of the Panchayats under the Coimbatore, Pollachi and Kollegal Taluk Boards in the Coimbatore district. The remaining Panchayats, except those named in the margin, are reported to have worked, on the whole, satisfactorily. The Chairmen and members of the Panchayats appear to have generally evinced a fair amount of zeal and interest in the discharge of their duties, and the usefulness of these institutions continued to be appreciated by the people. The ward system of supervision continued to be in force in all the districts, though not in some of the unions, and it is reported to have been a success in all but a few cases. The necessary steps should be taken to extend the system to the unions in which it has not yet been adopted.

7. *District, Taluk and Union Funds.*—Appendices IV, V and VI furnished by the Accountant-General show in detail the receipts and charges of the several Local Boards and Union Panchayats, and Appendix VII exhibits their financial position. The total results of the year are compared below with the figures of the previous year:—

—	1897-98.				1898-99.			
	District Funds.	Taluk Funds.	Union Funds.	Total.	District Funds.	Taluk Funds.	Union Funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	9,41,613	6,04,594	1,47,593	16,93,800	*8,08,602	*6,79,710	1,53,068	*16,41,380
Receipts	43,85,331	35,64,194	4,79,130	84,28,655	44,34,985	35,59,049	5,14,252	85,08,286

Allotments from Taluk to District funds	+ 8,017	− 8,017	..	..	+ 62,411	+ 62,411	..	..
Allotments from Taluk to Union funds	..	−1,15,761	+1,15,761	..	..	− 94,363	+ 94,363	..
Allotments from Union to Taluk funds	..	+ 3,790	− 3,790	..	..	+ 9,374	− 9,374	..
Total assets ..	48,27,972	45,55,089	7,39,394	1,01,22,455	49,53,988	44,42,339	7,53,339	1,01,49,666
Total expenditure ..	39,32,370	38,75,379	5,86,326	83,94,075	42,33,035	37,24,246	5,91,829	85,49,110
Closing balance ..	8,95,602	6,79,710	1,53,068	17,28,380	7,20,953	7,18,093	1,61,510	16,00,556

* The difference as compared with the closing balance of 1897–98 given in the General Review for that year is due to the adjustment since made by the Accountant-General of contributions from Local to Provincial funds on account of famine-relief expenditure in certain districts.

The year opened with a balance of Rs. 16,41,380 against Rs. 16,93,800 in 1897–98. Excluding debt heads (Rs. 4,27,516) and contributions from one District Board to another (Rs. 1,883), the actual receipts amounted to Rs. 80,78,887 against Rupees 80,20,124 in the previous year, and the charges, excluding debt heads (Rs. 4,68,688)

and contributions from one District Board to another (Rs. 1,883), to Rs. 80,78,539 against Rs. 79,99,117. Thus the year closed with a balance of Rs. 16,00,556, of which Rs. 1,61,510 belonged to unions, Rs. 4,38,924 to endowed institutions in charge of the Local Boards and Rs. 88,389 to the Railway Guarantee Fund in Tanjore, leaving Rs. 9,11,733 or 13 per cent. of the receipts available for general purposes. There was no change in the principles on which the receipts and charges were distributed among the Local Boards and Union Panchayats.

8. *Incidence of Taxation.*—Appendix VIII shows the incidence of Local Fund taxation per head of the population in the several districts according to the Census of 1891. As in the previous year, the average for the Presidency was As. 3–2 including tolls and As. 2–9 excluding them. The incidence of taxation including tolls was low in Malabar (As. 2–2), Anantapur (As. 2–4), Salem (As. 2–4) and North Arcot (As. 2–5) and was very high in the Nilgiris (As. 12–1), the circumstances of which are peculiar. In the remaining districts, except Kistna (As. 5–3) and Gódávári (As. 5–2), it was below As. 4.

II.—RECEIPTS.

9. *Receipts.*—Appendices IV and IX show the receipts of all the Local Boards and Union Panchayats under the several heads as compared with the figures for the previous year. The opening balance was Rs. 16,41,380 or Rs. 52,420 less than in 1897–98, the decrease being the net result of a fall of Rs. 2,25,506 in eleven districts and a rise of Rs. 1,73,086 in the remaining ten. The actual receipts, however, rose from Rs. 80,20,124 to Rs. 80,78,887.

10. *Land-cess.*—This tax was, as in the preceding years, levied at two annas per rupee of the assessment in Malabar and the Nilgiris (except South-East Wynaad), at As. 1–6 in South Canara and at one anna in the remaining districts and in South-East Wynaad. One-fourth of the receipts under this head in Tanjore was, as usual, reserved for railway operations. According to Appendix X, which shows the demand, collection and balance of this tax, the current demand exceeded that of the previous year by Rs. 22,056, the variations being large in Anantapur (+ Rs. 41,669), Gódávari (+ Rs. 40,485), Vizagapatam (+ Rs. 20,695), Tanjore (— Rs. 37,978) and Kistna (— Rs. 28,726). The increase in Gódávari was due to the enhanced revenue from water-cess, and that in Vizagapatam to the levy of land-cess on certain devadayam lands which escaped taxation in the previous year. On the other hand, the decrease in Kistna was due to advance collections made in 1897–98. The variations in Anantapur and Tanjore have not been explained. The collections (current and arrears) amounted to Rs. 50,89,165 or 94 per cent. of the demand, against Rs. 51,85,000 or 93 per cent. in the previous year. They were excellent in Coimbatore and Salem, being more than 99 per cent. of the demand, and good in Chingleput (98 per cent.), Ganjám (98), Gódávari (98), Nellore (98), South Canara (97), Tanjore (97), South Arcot (96), Kistna (96) and Tinnevelly (96), while in Cuddapah, they continued to be bad, being 74 per cent. against 68 per cent.

11. *Tolls.*—Appendix XI shows the statistics of tolls. Nineteen additional toll-gates were established in Salem (10), North Arcot (4), Vizagapatam (4) and South Arcot (1), while two of the existing gates in South Arcot were abolished, and the two temporary gates usually opened at Kuruvatti and Mylar (Bellary) during the annual festivals at those places were not established during the year, as the attendance of people there was prohibited under the Epidemic Diseases Act. There was also a decrease of one in the number of gates in Malabar, which has not been explained. Thus there were 300 gates at the end of the year in all districts, except Gódávari, against 286 in 1897–98. Tolls were levied at the maximum rates at 89 gates, at three-fourths rates at 25 and at half rates at the remaining 186. The arrangements under which tolls on certain roads in charge of the Public Works Department or Municipal Councils were collected by the District Boards remained unaltered. The total collections under this head amounted to Rs. 7,83,726 against Rs. 7,71,155 in the previous year. Of the former sum, Rs. 6,47,975 were realised at the Local Fund toll-gates and Rs. 1,35,751 were contributed by Municipal Councils on account of

tolls levied by them on through traffic against Rs. 6,50,529 and Rs. 1,20,626, respectively, in 1897–98. The decrease under Local Fund tolls occurred chiefly in South Arcot, being due to the abolition of two gates, and the increase under Municipal tolls, which occurred mainly in Madura, was due partly to an increase in the amount for which the Municipal gates were leased out and partly to the collection of arrears of the previous year. In South Canara, Chingleput, Coimbatore, Kurnool, Madura, Malabar, Nellore, the Nilgiris and Tanjore, the whole of the demand under Local Fund tolls was realized within the year. In the other districts also the collections were good, except in Anantapur, South Arcot and Cuddapah, where only 84, 86 and 87 per cent. of the respective demands were realised. The balance due in South Arcot is covered by deposits which will be adjusted in the current year, while in Anantapur and Cuddapah the short collections were due to the failure of the contractors. The net receipts from tolls, excluding the cost of establishments and contingencies and the contributions paid to Provincial and Municipal funds, rose from 29 to 33 per cent. of the expenditure on roads, the proportion being high in the Nilgiris (58 per cent.).

12. *House-tax.*—This tax was levied in all the unions, except one in Tinnevelly. The maximum rates were in force in 248 unions, three-fourths rates in 64, two-thirds rates in eight, and half rates in the remaining sixty. The collections rose from Rs. 4,14,011 or 90 per cent. of the demand to Rs. 4,45,482 or 91 per cent., the increase being due to the imposition of the tax in the unions newly constituted during the year and to the enhancement of the rate in some of the existing unions. The tax was again most productive in Tinnevelly where Rs. 67,938 were realised in 33 unions, and least so in Ganjám where only Rs. 9,463 were collected in 15 unions. In North Arcot, Chingleput, Kistna, Salem, Tanjore and Trichinopoly, the collections were good, being more than 95 per cent. of the demand, and they were fair in the remaining districts, except Cuddapah, where only 59 per cent. of the demand was realised owing partly to the unfavourable character of the season and partly to slackness in collection. From Appendix XIII, which shows the incidence of this tax and other particulars connected therewith, it appears that the number of houses actually assessed to the tax was 646,425 against 584,321 according to the Census of 1891, the excess being apparently due to the increase in the number of houses since the last Census. In the 21 unions noted in the margin, however, more than 25 per cent. of the number of houses according to the Census escaped taxation. In North Arcot, this was due to the accidental destruction of several houses by fire during the year; and in Coimbatore (as regards Singanallúr and Kunniyamuttur only), Gódávari, Tanjore and Vizagapatam to the exemption of certain hamlets or classes of houses from taxation on the ground of poverty. No explanation has been furnished in the remaining cases, although similar omissions were noticed in the General Reviews for the preceding two years. The Presidents of the Taluk Boards concerned should satisfy themselves, after careful enquiry, that no houses which are liable to taxation have escaped and should report the result of their enquiry to Government. The average incidence per house taxed rose from As. 10–10 to As. 11–2 and ranged from Rs. 3–0–4 in Kodaikánal (Madura) to As. 2–10 in Rápur (Nellore). There was a large increase in the number of distress warrants issued for the collection of this tax, which was 25,612 against 18,400 in 1897–98, while the number of cases in which property was sold was only 778 and the amount involved was Rs. 505, the corresponding figures for that year being 514 and Rs. 315. The rate-payers appear generally to have paid the taxes without difficulty. Except in Bellary, Madura and Tinnevelly, the Taluk Boards again made large contributions to Union Panchayats in excess of the lighting charges, which under section 142 of the

Local Boards Act have to be met from Taluk Funds. But as it is not right that the funds raised throughout the district should be utilised for the benefit of the small population living in unions, the Taluk Boards concerned should consider the advisability of enhancing the rate of house-tax where the maximum rates are not in force and of reducing the expenditure elsewhere so as to make the unions self-supporting.

13. *Educational.*—Excluding the sale-proceeds of books which are now credited to "debt heads," the receipts under this head rose from Rs. 2,24,040 to Rs. 2,35,332, the increase occurring chiefly under school-fees and "miscellaneous." In the first case the increase, which appears mainly in Gódávari, is due to an improvement in the attendance of the Boards' schools, and in the second the excess was the result chiefly of the sale of articles manufactured in the Technico-Normal Institute at Madura.

14. *Medical, Vaccination and Sanitation.*—The income under this head fell from Rs. 53,269 to Rs. 47,657, the decrease, which appears mainly under contributions from private individuals, being partly counterbalanced by an increase under "miscellaneous."

15. *Interest.*—The investments made by Local Boards in favour of the endowed institutions in their charge and the Railway Guarantee Fund in Tanjore rose from Rs. 14,77,141 to Rs. 18,84,865, and the interest derived therefrom was Rs. 52,997 against Rs. 46,336 in 1897–98, as shown in Appendix XIV.

16. *Miscellaneous.*—The income from choultries, markets and other miscellaneous sources detailed in Appendix IX amounted to Rs. 9,84,695 or Rs. 53,874 more than in the previous year, the principal variations being dealt with below:—

(*a*) *Fishery Rents.*—The revenue under this head rose from Rs. 1,21,507 to Rs. 1,25,267. Of this sum Rs. 1,18,912 were collected by the Revenue Department and Rs. 6,355 by the Public Works Department.

(*b*) *Choultry Rents.*—The receipts appertaining to choultries rose from Rupees 2,70,393 to Rs. 2,94,251, the increase which occurred chiefly in Tanjore being due partly to prompt collections and partly to a rise in the commutation rate of prices.

(*c*) *Market Rents.*—The Taluk Boards maintained 592 markets or four less than in 1897–98, and fees were levied in 528 of them against 530. The income from these institutions, however, rose from Rs. 1,62,200 to Rs. 1,73,473, the increase which occurred mainly in Anantapur, Coimbatore and Madura being due either to the collection of arrears or to competition at the sale of the leases. The expenditure on public works, etc., connected with these institutions also rose from Rs. 1,84,561 to Rs. 1,97,978. As the balance in their favour at the beginning of the year was Rs. 2,14,213 against Rs. 2,08,228 in the previous year, the closing balance of the year was enhanced from Rs. 2,14,213 to Rs. 2,38,068, and the Taluk Boards concerned have either promised or have been directed by Government in the individual reviews to take the necessary steps for spending the greater portion of this amount on the improvement of the markets and the construction and repair of the roads leading to them.

(*d*) *Avenues.*—The statistics of avenues in the several districts are given in Appendix XV. Out of 26,875 miles of roads in charge of the Local Boards, 17,048 were provided with avenues, the corresponding figures for the previous year being 26,744 and 16,997. The total number of trees at the end of the year also rose from 2,919,376 or 172 for each mile on an average to 2,965,555 or 174 per mile. It is, however, a matter for regret that the number of trees which perished during the year exceeded the number planted in Bellary, South Canara, Coimbatore, Ganjám, Madura, Malabar and Tinnevelly. The receipts under this head were almost stationary, being Rs. 1,18,196 against Rs. 1,18,052 in 1897–98, while the expenditure incurred on their extension and maintenance fell from Rs. 1,01,478 to Rs. 99,400. The condition of the avenues is reported to have been, on the whole, satisfactory.

(*e*) *Ferry Rents.*—These amounted to Rs. 1,85,595 or Rs. 7,368 more than in the previous year, the increase which appeared mainly in Gódávari and South Canara being due partly to keen competition at the sale of the leases and partly to the establishment of additional ferries.

17. *Contributions from Provincial Funds.*—Grants amounting to Rs. 3,07,411 were received from Provincial funds for the following purposes against Rs. 3,15,143 in the previous year :—

	1897-98.	1898-99.
	Rs.	Rs.
(1) Public Works	1,62,198	1,31,985
(2) Schools	92,958	92,699
(3) Hospitals and Dispensaries	7,118	5,501
(4) Choultries	33,850	34,073
(5) General purposes	19,000	21,047
(6) To cover deficits	..	22,106
(7) Refunds	19	..
Total ..	3,15,143	3,07,411

The decrease under public works was due chiefly to only a grant of Rs. 6,500 against Rs. 20,000 in the previous year having been made to the Malabar District Board on account of the Calicut-Vayittiri-Gudalur road and to a diminution in the net profits of the Máyavaram-Muttupet Railway for the twelve months ending December 1898 as the result of the plague regulations. The fall under hospitals and dispensaries was due to the absence of arrear contributions such as those received in the previous year. The Local Fund accounts of South Arcot and Bellary having closed the year with deficits of Rs. 8,038 and Rs. 14,068, respectively, owing to the expenditure incurred on plague-preventive measures, these amounts were adjusted, as usual, by a contribution from Provincial funds.

18. *Contributions from Special Funds.*—The sum of Rs. 390 credited under this head represents chiefly the proportionate cost of the travelling allowances of the local audit clerks recovered from Special funds.

19. *Contributions from Municipalities.*—The receipts under this head amounted to Rs. 11,970 against Rs. 8,778 in 1897–98, as shown below :—

	1897-98.	1898-99.
	Rs.	Rs.
Education	1,993	2,093
Medical, Vaccination and Sanitation	5,612	6,627
Public Works	900	3,074
Miscellaneous	273	176
Total ..	8,778	11,970

The increase under public works occurred chiefly in Tinnevelly and Vizagapatam, being due in the former case to the receipt of a contribution of Rs. 1,000 from the Tinnevelly Municipal Council towards the building fund of the maternity hospital and female dispensary at Vannarpet, and in the latter, to the contribution of Rs. 1,212 paid by the Vizagapatam Municipality for the upkeep of the pontoon bridge.

III.—EXPENDITURE.

20. The total expenditure, excluding debt heads (Rs. 4,68,688) and contributions from one District Board to another (Rs. 1,883), amounted to Rs. 80,78,539 or Rupees 79,422 more than in 1897–98, the increase which appeared under Grants 3 and 4 and investments being partly met by a decrease under the other grants. The charges under the several heads are compared with the figures for the previous year in Appendices V and XVI, while the expenditure under each grant and the proportion of it to the total outlay are shown in the following abstract.

Grants.	1897-98.	1898-99.	Percentage. 1897-98.	Percentage. 1898-99.
	Rs.	Rs.		
Grant 1, Public Works	42,81,793	40,78,787	53	50
,, 2, Education	10,95,782	10,75,333	14	13
,, 3, Medical, Vaccination and Sanitation	15,66,008	18,26,475	19	23
,, 4, Public and Charitable Institutions	3,07,472	3,07,626	4	4
,, 5, Supervision and Management	5,40,462	5,01,718	7	6
Investments in Government Securities	2,07,600	2,88,600	3	4
Total Expenditure ..	79,99,117	80,78,539	100	100

Grant 1, Public Works.

21. The details of the outlay on public works and the cost of the engineering establishment including contingencies and of tools and plant are shown in Appendix XVII. The total expenditure on public works amounted to Rs. 33,31,367 against Rs. 35,29,227 in the previous year, the decrease occurring chiefly in South Arcot, Ganjám, Gódávari, Kistna and Madura and being partly met by an increase in Nellore. This sum was 41 per cent. of the receipts and of the charges, and it was spent by the agencies noted below :—

	1897-98.	1898-99.
	Rs.	Rs.
By the Local Fund Engineering establishment ..	33,43,738	31,92,571
,, Revenue Department	1,47,165	1,11,029
,, Public Works Department	38,324	27,767
Total ..	35,29,227	33,31,367

The outlay on communications was Rs. 29,91,098 or Rs. 1,32,942 less than in the previous year; but it was 90 per cent. of the allotment against 88 per cent. in that year. Of this sum, Rs. 29,63,331 were spent by the Local Fund Engineering establishment and the Revenue Department and Rs. 27,767 by the Public Works Department. The works undertaken by the Public Works Department were the widening of the left bank of the Pandavayar, the diversion of road No. 46 and improvement of the village road from Lakshmanagudi bridge to Kottagam in Tanjore, the construction of a culvert on the central channel in Nellore and the maintenance of roads on tank, canal and channel banks in South Arcot, Coimbatore, Ganjám, Gódávari, Kistna, Nellore, Tanjore and Trichinopoly. The expenditure on the construction and repair of buildings, such as school-houses, hospitals, dispensaries, choultries, &c., amounted to Rs. 1,47,781, and that on miscellaneous public improvements such as the plantation and maintenance of avenues and the construction and repair of markets, tanks and wells, was Rs. 1,92,488, the corresponding figures for the previous year being Rs. 1,75,894 and Rs. 2,29,293.

The proportion which the outlay on public works executed by the Local Fund Engineering establishment bore to the sanctioned allotment rose from 85 to 88 per cent. It was high in South Arcot (100), Chingleput (99·6), Ganjám (98), Kistna (98), Kurnool (98), Bellary (97), Coimbatore (97), Salem (97) and Trichinopoly (96), and low in Cuddapah (64), Anantapur (70) and South Canara (71). The explanations offered for the short outlay in the last three cases are given in the last column of Appendix XVII.

22. *Roads.*—Appendix XVIII shows the statistics of roads in the several districts, excepting the main road from Kallar to Ootacamund in the Nilgiris which remained in charge of the Public Works Department as in the previous years. The total length of roads maintained by the Local Boards and Union Panchayats was less than in 1897–98 by thirty miles, which was the net result of decreases in seven districts and of increases in eleven others. The decrease, which was large in Kurnool, has not been explained. The largest expenditure on new roads, including those in progress but not yet completed, was again incurred in Kistna (Rs. 34,759). It was

also high in Tanjore (Rs. 21,493), Tinnevelly (Rs. 17,624) and South Arcot (Rs. 11,066), while in the other districts it was less than Rs. 10,000. The average cost of maintaining each mile of road fell from Rs. 117 to Rs. 115. It was low in Anantapur (Rs. 31), Cuddapah (Rs. 48) and South Canara (Rs. 69), but high in Nellore (Rs. 251), Kistna (Rs. 243) and Tinnevelly (Rs. 115). In six districts the average was higher than in the previous year and in thirteen others it was lower, while in Cuddapah and Salem it remained unaltered.

The percentage of the expenditure on communications in the several districts to the net revenue from tolls *plus* half the receipts from land-cess is shown in Appendix XVIII-A. In only five districts was the prescribed proportion reached, the percentage being very high in the Nilgiris (192 per cent.), which received a large contribution of Rs. 81,000 from Provincial Funds, and in Nellore (146). On the other hand it was very low in Kurnool (45), Anantapur (53) and Cuddapah (60), the short outlay being accounted for in the administration reports of these districts.

The general condition of the roads in North Arcot, South Arcot, Kistna, Malabar and Tanjore and with certain exceptions in South Canara, Chingleput, Coimbatore, Gódávari, the Nilgiris, Trichinopoly and Vizagapatam, is reported to have been on the whole fair, while in Bellary, Ganjám and Nellore there was some improvement as compared with the previous year. The trunk roads in Kurnool are stated to have greatly improved, while the other roads continued to be far from satisfactory. In Madura the roads in the Sivaganga, Dindigúl and Mélúru taluks were in a satisfactory condition, while those in the other taluks were in bad order. In Salem there was a general improvement except in the case of the roads under the Námakkal Taluk Board and of some of those under the Tiruppattúr Taluk Board which were unsatisfactory. On the other hand, the roads in Anantapur, Cuddapah and Tinnevelly were in a bad state.

23. *Establishments, &c.*—As in previous years, the District Boards maintained Engineering establishments of their own for the execution of public works, other than the construction and maintenance of roads on tank, canal and channel banks which were entrusted to the Public Works Department. These establishments worked as usual directly under the District Boards, although their cost was generally met from the District and Taluk funds in proportion to the outlay from each. The expenditure incurred on their account amounted to Rs. 6,02,892 or 19 per cent. of the outlay on works executed by them against Rs. 5,81,426 or 17 per cent. in 1897–98, the maximum fixed by Government being 20 per cent. and the contribution payable to the Public Works Department for the execution of Local Fund works being 23 per cent. In Anantapur, Kurnool, Cuddapah, Gódávari, Bellary, Kistna, Vizagapatam and South Canara the maximum limit was exceeded by 25, 15, 6, 4, 3, 2, 2 and 1 per cent., respectively, owing mainly to short outlay on works. On the other hand the percentage was low in Nellore (14), Coimbatore (15) and Tanjore (15). A contribution of Rs. 903 was paid to the Public Works Department for the execution of Local Fund works in Gódávari, Kistna and Nellore and Rs. 8,209 for the scrutiny of Local Fund plans and estimates at the rate of $2\frac{1}{2}$ per cent. on the amount of the estimates.

The cost of toll and ferry establishments amounted to Rs. 12,901 against Rs. 9,839 in the previous year, the increase, which appeared chiefly in Gódávari, being due to the establishment of a ferry between Rajahmundry and Polavaram.

The outlay on tools and plant by the Local Fund Engineering establishment was Rs. 52,562 or 1·6 per cent. of the expenditure on works executed by it, the maximum limit prescribed by Government for all districts except the Nilgiris being 1 per cent. In Anantapur, North Arcot, Bellary, Cuddapah, Ganjám, Gódávari, Kistna, Madura, Nellore and Trichinopoly this limit was exceeded, the excess being very large in Kistna (3·4) owing mainly to the purchase of a steam road-roller and in Nellore (2·3) owing to the purchase of new tools and water-carts. A sum of Rs. 538 was spent on tools and plant required for the works executed by the Public Works Department.

24. *Contributions.*—The amount contributed to Provincial and Municipal funds and to private individuals, &c., fell from Rs. 86,178 to Rs. 50,005. The decrease occurred mainly in Bellary and Tanjore, where large contributions were paid to Provincial funds in 1897–98 on account of famine-relief works and the Máyavaram-Muttupet Railway, respectively.

Grant 2, Education.

25. The lines on which the educational operations of Local Boards were conducted remained unaltered. The total expenditure on education, exclusive of Rs. 22,788 spent on school-buildings and debited to Grant 1, was Rs. 10,75,333 or Rs. 20,449 less than in the previous year, the decrease appearing chiefly under Boards' primary schools. Appendices XIX to XXI show the receipts and charges of the schools maintained and aided from Local funds, but exclude contributions from Municipalities and miscellaneous items.

26. *Inspection.*—As in the previous year, the District Boards employed 201 Inspecting Schoolmasters for supervising their educational operations. These officers visited 23,671 villages and prepared 21,195 schools for examination, the corresponding figures for the previous year being 25,721 and 21,871, and their work is reported to have been on the whole satisfactory. The cost of this establishment amounted to Rs. 1,02,511 against Rs. 1,01,630 in 1897–98.

27. *Training Schools.*—Two training schools were again maintained by the District Boards of Madura and Tinnevelly; but the training section of the school at Melaviraraghavapuram in Tinnevelly was transferred to Government on the 1st January 1899. The normal department of the Technico-Normal Institute at Madura was attended by 37 students against 32 in the previous year. Of these, twelve appeared for the Lower Secondary grade of the Teachers' Certificate examination and two were successful in the written and four in the practical test, while in the primary grade 16 out of 26 passed the written and 22 out of 34 the practical test. In the normal department of the training school at Melaviraraghavapuram, there were 39 students at the time of its transfer to Government, but the results of the examination which was conducted thereafter have not been reported.

28. *Sessional Schools.*—Fifty-six schools of this class for the education of village schoolmasters, against 63 in the previous year, were maintained by the District Boards for three or four months each in all the districts except Anantapur and the Nilgiris, but the number of students attending them rose from 875 to 902. Excluding the school in Malabar, the progress of which has not been reported, the working of these institutions was on the whole good, 668 pupils having passed the Primary examination out of 846 sent up. Of the 17,084 teachers employed in the schools maintained and aided from Local funds, 6,324 or 37 per cent. were entirely unqualified. The District Boards should take steps to reduce this large proportion by opening additional sessional schools where necessary and by reducing or withholding the grants payable to schools in which unqualified teachers are employed.

29. *Technical Schools.*—The industrial school at Bezwada in Kistna, in which instruction was given in drawing, carpentry and blacksmiths' and rattan work, was attended by 37 students or two more than in the previous year, and it is stated to have made satisfactory progress, only the students who underwent training in blacksmiths' work having fared badly in the technical examination. The attendance in the industrial department of the Technico-Normal Institute at Madura fell from 117 to 112, and of these 96 appeared for examination in technical subjects, but only 40 were successful. In the agricultural department of this institution there were again eight students, but the results of the examination have not been reported. In the industrial class attached to the training school at Melaviraraghavapuram there were 47 students against 46 in 1897–98, and they are stated to have made good progress.

30. *Secondary Schools.*—There were 112 Boards' secondary schools or three less than in the previous year and their attendance fell from 11,177 to 11,140. The decrease in the number of schools was the net result of the closure of two schools in Anantapur and Vizagapatam, the reduction of the schools at Nandyal (Kurnool) and Kilayur (Tanjore) to the primary grade and the raising of the primary school at Manantoddy (Malabar) to the lower secondary grade. Of the total number, ten were of the upper secondary and the others of the lower secondary grade. Out of 149 students who appeared for the Matriculation examination from the upper secondary

schools, 64 were successful, the corresponding figures for the previous year being 162 and 54. The results of the upper secondary schools at Coondapoor, Dhárápuram, Amalápuram and Tiruválúr were fair, while those of the Harpanahalle school were again very unsatisfactory, only one out of the thirteen students presented for the examination having passed. As this institution has been working badly for the last six years, the Taluk Board concerned should consider the advisability of reducing it to the lower secondary grade. From the lower secondary schools and the lower secondary departments of the upper secondary schools, 1,082 students were presented for the Lower Secondary examination, and of these 385 or 36 per cent. passed, the corresponding figures for the previous year being 948, 446 and 47. The schools at Arni, Udipi, Karkal, Kasaragod, Puttur, Udamalpet, Bhaváni, Tanuku, Pithápuram, Narasaraopet, Alattur, Námakkal, Tiruválúr, Enangudi and Kulittalai produced fair results, not less than 50 per cent. of the pupils sent up for the examination having passed, while those at Penukonda, Arcot, Karvetnagar, Villupuram, Porto Novo, Tirukkóyilúr, Hospet, Rayadrug, Kollegal, Russellkonda, Tekkali, Attili, Tallapudi, Sattenapalle, Dachepalle, Kottayi, Tiruchengodu, Krishnagiri, Pattukkóttai, Narasapatnam, Yellamanchili, Kasimkóta, Chódavaramu, Palkonda and Parvatipuram fared badly, less than a fifth of the number of students presented having been successful. All the upper secondary schools were maintained on the salary system and the average net cost of educating each pupil in the upper secondary schools and departments rose from Rs. 2–10–8 to Rs. 3–11–5. The schools in Gódávari and Tinnevelly were worked at a profit of Rs. 906 and Rs. 123, respectively, while in Bellary and Tanjore the net cost per pupil was high, being Rs. 12–3–8 and Rupees 10–8–11, respectively. The high cost in Bellary has not been explained; in Tanjore it was due to the students of the Sanskrit school at Tiruvádi having been educated and fed gratuitously. The net cost of educating each pupil in the lower secondary schools and departments on the salary system fell from Rs. 1–15–6 to As. 11. The Local Boards of Malabar, Kistna, Tanjore, Trichinopoly, North Arcot, Coimbatore and Anantapur worked these schools at a profit of Rs. 1,751, Rs. 831, Rs. 724, Rs. 510, Rs. 424, Rs. 208 and Rs. 40, respectively. The net cost was low in Kurnool (As. 2–8) and Gódávari (As. 8–5), and high in Ganjám (Rs. 13–1–10) and South Arcot (Rupees 11–14–5). The net cost of educating each pupil in the lower secondary schools and departments on the salary-result system also fell from Rs. 10–15–3 to Rs. 9–13–6. It was, however, high in Tinnevelly (Rs. 26–9–10), Gódávari (Rs. 17–9–1) and North Arcot (Rs. 10–0–10). The Local Boards in these districts should adopt prompt measures to reduce it.

31. *Primary Schools.*—The number of primary schools maintained by the Local Boards fell from 2,688 with 119,358 pupils to 2,536 with 113,261 pupils, the decrease which occurred chiefly in Malabar, Nellore, Salem, South Canara, Gódávari and Madura being mainly due to the closure of some schools. The net cost of educating each pupil in the upper primary departments of these institutions was either *nil* or very low in South Canara, Chingleput, Ganjám, Kurnool, Malabar and Vizagapatam, while in Bellary, it was high, being more than Rs. 10. Steps should be taken to reduce the high cost in this case. The net cost per pupil in the lower primary schools and departments was not high in any district. The number of pupils who appeared for the standard examinations from the primary schools and the primary departments of the secondary schools was 73,003 against 66,780 in the previous year, and 55,463 or 76 per cent. of these passed against 50,337 or 75 per cent. in that year. Thus the progress of these schools was on the whole satisfactory. The Local Boards maintained schools for the exclusive benefit of Panchamas and other backward classes in all the districts except the Nilgiris, where there are no special schools for them, and Trichinopoly, regarding which no information has been furnished. The number of such schools was large in Gódávari (120), Kistna (75), Vizagapatam (43), South Arcot (33), Madura (31), Tanjore (28), South Canara (24), Coimbatore (23) and Cuddapah (20). These schools made fair progress in all the districts except Anantapur and Coimbatore, regarding which no information has been furnished and Kurnool, Nellore and South Arcot.

32. *Aided Schools.*—The Local Boards aided 9,740 schools with 255,814 pupils against 9,700 schools with 250,874 pupils in the previous year and the expenditure

thereon amounted to 99 per cent of the allotment, while in 1897–98 it was in excess of the allotment by 3 per cent. In Bellary, Chingleput, Cuddapah, Ganjám, Malabar and Trichinopoly the allotment was exceeded owing to (1) payment of arrears of the previous year, (2) increase in the number of schools and (3) better results produced by some of the schools. On the other hand in Gódávari as much as 16 per cent. of the allotment was allowed to lapse, but no reason has been assigned for the short expenditure.

33. *General Educational Results.*—There were on the 31st March 1899, 2,648 Boards' schools attended by 124,626 pupils against 2,803 schools with 130,535 pupils in the previous year. A few of these schools were maintained exclusively for girls, while in many of the others pupils of both sexes were admitted. The proportion of the total net expenditure on education to the total receipts was 9·4 per cent. against 9·8 per cent. in 1897–98. The percentage was high in Anantapur (12·4), Gódávari (12·4) and Bellary (12·2) and low in Tanjore (6·0), Malabar (7·6), Trichinopoly (8·4), Vizagapatam (8·9) and Madura (9·0). The total number of girls educated in Boards' schools fell from 18,656 to 17,850, while that in aided schools rose from 22,913 to 24,554. The total number of boys under instruction in the schools maintained and aided from Local funds fell from 338,376 or 14·2 per cent. of the male population of school-going age to 338,036 or 14·0 per cent., the decline being noticeable in Chingleput (1·8), North Arcot (1·3) and Nellore (1·1). There was, on the other hand, an appreciable increase in the Nilgiris (1·9), Ganjám (1·2), Tinnevelly (1·2) and Bellary (1·1). The proportion was again high in the Nilgiris (26·9), Tinnevelly (23·4) and Bellary (21·2) and fair in the remaining districts except Anantapur and Cuddapah, where it was less than 10 per cent., in the first for the second year and in the second for the sixth year in succession.

Grant 3, Medical Services, Vaccination and Sanitation.

34. *Hospitals and Dispensaries.*—During the year under review, the hospital at Paramagudi (Madura) was converted into a dispensary, the dispensary at Dharmavaram (Anantapur) was converted into a hospital, that at Arupppukóttai (Madura) was handed over to the American Mission, the women and children's dispensary at Salem was closed for want of a medical subordinate to take charge of it, and the dispensaries at Sulurpet and Singaroyakonda (Nellore) were closed for want of funds. Thus, on the 31st March 1899, there were 131 hospitals maintained by the Local Boards as in the previous year, while the number of dispensaries was reduced from 226 to 222. The statistics of these institutions are shown in appendix XXIII. In addition to these, the Taluk Boards in Tinnevelly continued to aid ten dispensaries, of which eight were managed by mission and two by private agencies.

There was again a fall in the total number of patients treated in the Local Fund institutions, which was 2,499,198 or 7·8 per cent. of the population, against 2,573,054 or 8·0 per cent. in the previous year. In twelve districts there was a decline and in seven others an advance, while in the remaining two districts the attendance was stationary. There was a marked fall in Salem (2·1 per cent.), Bellary (1·9), Trichinopoly (1·7), North Arcot (1·5), and Anantapur (1·2), which is ascribed partly to the scare caused by the prevalence of plague and partly to the closure of some of the institutions for a portion of the year owing to the deputation of the medical subordinates concerned for plague or cholera duty. The proportion was below 6 per cent. in Cuddapah, Malabar and North Arcot, in the first two for the fourth year in succession, while in the other districts it ranged from 6·8 per cent. in Ganjám and Bellary to 13·0 per cent. in the Nilgiris. The total number of beds available for in-patients in the hospitals was 1,446 against 1,424 in 1897–98.

	In-patients.	Out-patients.
1897–98	17,086	2,555,968
1898–99	16,160	2,483,038

Excluding the cost of midwives and midwifery pupils, the net expenditure on the maintenance of these institutions amounted to Rs. 5,18,693 against Rs. 5,41,957 in the preceding year; but as there was also a decrease in the number of patients treated in them, the average cost for each patient continued to be As. 3–4. The cost was high

in Bellary (As. 6–3), Cuddapah (As. 4–8), Kistna (As. 4–5) the Nilgiris, (As. 4–5), North Arcot (As. 4–4), Malabar (As. 4–3) and South Canara (As. 4–3). In the remaining districts it ranged from As. 3–10 in Gódávari to As. 2–2 in Madura.

35. *Medical Schools and Medical Pupils.*—As in the preceding year, there were 47 students under training in the Prince of Wales' Medical school at Tanjore maintained by the District Board. Of these, fourteen appeared for the Hospital Assistants' examination and eight passed. Seven students were under training in the Medical College at Madras at the cost of the Local Boards in Gódávari, Ganjám and Vizagapatam.

36. *Midwives.*—Besides the ten nurses in Cuddapah who attended 705 cases of labour against 572 in 1897–98, there were 221 trained midwives or eleven more than in the previous year in the employ of the Local Boards. The number continued to be large in Madura (25), Nellore (21) and Tanjore (20) and small in Cuddapah (1), the Nilgiris (1), Anantapur (3) and Kurnool (3). They attended altogether 16,312 cases of labour or 3,001 more than in the preceding year, the average being six cases each per mensem against five in that year. The midwives in Bellary and Vizagapatam attended on an average ten cases each per mensem—a very fair outturn, while the work done by those in Anantapur, Coimbatore, Malabar and Salem was poor, the average being only four cases each per mensem. Every effort should be made by the Taluk Boards concerned to produce better results in future.

37. *Medical Training of Women.*—Appendix XXIV contains a summary of the information furnished on this subject. The Local Boards in all the districts, except Chingleput, South Canara, Anantapur, Malabar, the Nilgiris and North Arcot, either granted scholarships for the training of female medical students or employed those who had been previously trained at their cost or with the aid of the Countess of Dufferin's Fund. In Chingleput there was no necessity for taking steps in this direction owing to its proximity to Madras where there are hospitals for females, while in the other districts above referred to nothing was done in the matter apparently owing to want of funds.

38. *Vaccination.*—The Government has already fully dealt with this subject in its Order, No. 1498 L., dated 28th July 1899, reviewing the report of the Inspector of Vaccination for 1898–99. This branch of the Boards' administration was much affected by the plague scare which made the people unwilling to submit themselves and their children to vaccination under the mistaken impression that plague inoculation was being substituted for vaccination. Thus the total number of operations performed by the Local Fund vaccine staff, which consisted of 52 Deputy Inspectors of Vaccination and 687 Vaccinators and Probationers, against 51 and 688 respectively in the preceding year, fell from 1,066,287 to 909,925. The percentage of reported success also fell from 89 to 86. The total number of operations performed by Local Fund Vaccinators and the number of successful cases, as given in statement I appended to the vaccination report, differ, as shown below, from the figures furnished by the Presidents of District Boards, and the Sanitary Commissioner is requested to explain the discrepancies :—

Districts.	Number of operations performed by Local Fund vaccinators.		Number of successful operations.	
	As in the vaccination report.	As in the President's report.	As in the vaccination report.	As in the President's report.
South Arcot	53,245	52,615	..	..
Coimbatore	..	..	42,361	42,358
Cuddapah	25,055	23,755	24,433	23,164

The number of operations performed by each Vaccinator was, on an average, 1,366 against 1,581 in 1897–98. It was good in Vizagapatam (2,071) and was above 1,000

in the remaining districts, except the Nilgiris (605), Cuddapah (759), North Arcot (787), Anantapur (806) and Kurnool (964). Compared with the previous year, there was a decrease in all districts except five, notably in Trichinopoly, North Arcot and Salem, being the effect of the plague scare already alluded to.

Owing to the smaller outturn of work, the average cost of each successful case rose from As. 3–8 to As. 4–4. It was high in the Nilgiris (As. 10–3), Gódávari (As. 10), Cuddapah (As. 8–5), North Arcot (As. 7–7), Anantapur (As. 6–7), Kurnool (As. 6–2), Nellore (As. 5–8) and Bellary (As. 5–5) and low in Madura and Tinnevelly, where it was As. 2–9 each. Compared with the preceding year, there was a decrease in five districts, while in the remaining districts there was an increase, the excess being very large in Gódávari (As. 3–9), North Arcot (As. 3–7), Cuddapah (As. 3–2) and the Nilgiris (As. 2–10).

Including the work done by the medical subordinates in charge of Local Fund hospitals and dispensaries, the total number of successful operations performed during the year was 795,563 or 24·7 per mille of the population against 962,223 or 29·9 per mille in 1897–98. In the Nilgiris, Tinnevelly, South Canara, Bellary, Chingleput, Vizagapatam and Kistna the results were fair, the proportion varying from 30 to 40 per mille; but in the other districts they were unsatisfactory, especially in North Arcot (13·3) and Gódávari (12·9). The reported number of successful operations on children under one year fell from 264,399 or 8·2 per mille of the population to 219,765 or 6·8 per mille. The best work was done in Bellary (17·7) and Chingleput (16·2), while in Malabar (0·4) it was again very bad. In all the districts vaccination was as usual conducted exclusively with animal lymph.

39. *Sanitation.*—Besides Rs. 16,733 spent on sanitary public works and shown under Grant I, the expenditure under this head was Rs. 5,13,766 against Rs. 5,26,972 in 1897–98, as detailed below :—

	1897–98.	1898–99.
	Rs.	Rs.
Improvement of water-supply	1,13,358	94,881
Improvement of village-sites	31,058	42,970
Conservancy establishments	3,35,654	3,37,277
Arrangements at fairs and festivals	19,081	14,842
Other sanitary outlay	27,821	23,796
Total ..	5,26,972	5,13,766

The decrease which occurs chiefly in Gánjam is apparently due to the allotment having been reduced in order to provide funds for plague expenditure. No sanitary work of any importance was undertaken in the rural areas; but, as usual, many petty works, such as the improvement of water-supply and village-sites and the construction and repair of latrines, dust-bins, &c., were carried out by the Local Boards and Union Panchayats. Two hundred and fifty-three new wells were sunk and 1,233 existing sources of water-supply were repaired or otherwise improved, the corresponding figures for the previous year being 333 and 1,509. The number of watchmen employed to guard drinking-water sources, however, rose from 401 to 423, and 212 village-sites were improved against 178 in 1897–98. Out of 44,622 minor towns and villages in the Presidency, 381 unions and 327 other villages were provided with conservancy establishments against 376 and 456, respectively, in the previous year. As these establishments in non-union villages are in many instances not adequately supervised, the Local Boards should where desirable, divert the expenditure incurred on them to the improvement of water-supply which requires much attention.

As in the previous year, the total expenditure on sanitation amounted to 88 per cent. of the sanctioned allotment. The proportion was fair in all the districts, except North Arcot and Madura, where it was less than 80 per cent. In North Arcot the short outlay was due to the failing of rains which rendered the full utilization of the provision for water-supply unnecessary and to the lapse of the allotment made for

"probable expenditure." On the other hand, in Madura it is attributed to the late receipt of bills in the Dindigul taluk and to the late submission of applications from the sanitary associations for contributions from Local funds. The private scavenging system was in force in 56 towns against 44 in the previous year. In the unions of Tadpatri (Anantapur), Ránipéttai, Arkónam and Arni (North Arcot), Bhavani and Satyamangalam (Coimbatore), Russellkonda (Ganjám), Maddikera (Kurnool), Námakkal, Shendamangalam and Tiruchengódu (Salem) and Turaiyúr (Trichinopoly), it was either a failure or was a source of loss to the Panchayats. In Rayadrug and Siruguppa (Bellary), Madanapalle (Cuddapah), Rámachandrapuram, Dowlaishweram, Attili, Narsapur, Palakollu and Achanta (Gódávari) and Mélúr (Madura) the system was not in force for a sufficiently long time to admit of its being declared a success or otherwise. No information has been furnished regarding its working in the unions of Villupuram, Vriddháchalam and Tirukkóyilúr (South Arcot) and Uttamapalaiyam (Madura). In the remaining places it is reported to have worked fairly well. The system was not in operation in the districts of Nellore, Tanjore and Vizagapatam, and the Taluk Boards in these districts should consider the advisability of introducing it in some of the unions under their control.

40. *Plague.*—The Local Boards in all the districts, except Nellore, adopted measures to prevent the spread of the bubonic plague, and the total charges incurred on this account amounted to Rs. 3,18,716 against Rs. 41,110 in the previous year.

41. *Contributions.*—Contributions amounting to Rs. 1,62,942 or Rs. 6,260 more than in 1897–98 were paid by the Local Boards to Provincial and Municipal Funds and to private bodies for medical and sanitary purposes, the increase occurring mainly under contribution to Provincial funds on account of the Medical College.

Grant 4, Public and Charitable Institutions.

42. *Choultries.*—The Local Boards had under their management 570 choultries or six more than in the previous year; but the expenditure incurred on them showed a further decline, having been Rs. 2,27,171 against Rs. 2,29,852. Of these, 247 were endowed institutions, and in 59 of them 1,278,447 travellers were fed at a cost of Rs. 1,01,198, the corresponding figures for the preceding year being 1,378,734 and Rs. 1,01,652. The remaining choultries were mere rest-houses.

43. *Miscellaneous.*—The lighting charges, which were incurred in all the districts except Malabar and the Nilgiris, fell from Rs. 51,716 to Rs. 47,696. The expenditure was generally confined to unions; but in Chingleput, Gódávari, Salem, Tinnevelly and Trichinopoly some of the main roads and bridges were also provided with lights. In all 8,603 lights were put up in 241 places against 8,439 and 267 respectively in the previous year.

There was a decrease both in the number of lights and in the expenditure incurred on them in all the districts except North Arcot and Tinnevelly. The Local Boards in these districts should remember that although lighting is generally popular and useful, yet it is not desirable to increase the expenditure on it to the detriment of other more pressing needs, such as the upkeep of communications and sanitation.

Grant 5, Supervision and Management.

44. *Supervision and Management.*—Under this head an expenditure of Rupees 4,79,087 was incurred against Rs. 4,74,151 in the preceding year, and it was 5·9 per cent. of the total receipts and also of the total charges as in that year. The increase which occurred under "Local Boards' office establishments" was due chiefly to the establishments entertained in the unions newly constituted during the year.

45. *Repayment of Loans, &c.*—In Chingleput the District Board paid Rs. 7,460 as the last instalment of the principal and Rs. 145 as interest on account of the loan received from Imperial funds for the construction of the Korttalaiyár bridge. For want of funds the sum of Rs. 3,313, being the last instalment due to the Government of India on account of the loan obtained for the completion of the Tamracheri and Periya Ghât roads in Malabar, was not paid by the District Board during the year under review. Rupees 133 were, however, paid as interest.

The Coimbatore District Board paid Rs. 960 as interest on account of the debenture loan of Rs. 16,000 raised for the construction of the Pollachi market, and the Ganjám District Board Rs. 106 as interest on the unpaid portion of the loan of Rs. 5,000 received from Provincial funds for the construction of railway feeder roads. The District Board of Tinnevelly paid Rs. 3,500, being the last instalment of the loan of Rs. 35,000 obtained from the zemindar of Ettiyápuram for the construction of the Srívaikuntam bridge and Rs. 125 on account of interest.

The balance to the credit of the Railway Guarantee Fund in Tanjore at the beginning of the year was Rs. 7,66,000 in Government securities and Rs. 1,25,897 in cash. The District Board derived a net profit of Rs. 41,285 from the working of the Máyavaram-Muttupet Railway during the twelve months ending December 1898, which represents 3·3 per cent. on the capital outlay. A sum of Rs. 12,000 was paid towards the cost of the survey of the extension of the line from Muttupet to Avadaiyarkoil and Rs. 2,14,100 were invested in Government securities. The balance in favour of the fund at the close of the year was Rupees 9,80,100 in Government securities and Rs. 90,378 in cash.

IV.—Endowments.

46. Appendix XXVIII shows the number of endowed institutions, such as schools, hospitals and dispensaries, choultries, markets, &c., under the control of the Local Boards and Union Panchayats, and appendices XXIX and XXX, furnished by the Accountant-General, exhibit their financial transactions. The contributions and loans paid from General Funds to meet the deficits, with which some of them would otherwise have closed the year, amounted to Rs. 1,12,343 against Rs. 1,04,599 in 1897–98. Excluding these, the income of the endowed institutions rose from Rupees 5,58,958 to Rs. 5,90,419, and the charges from Rs. 5,37,558 to Rs. 6,32,719. The increase in the receipts, which occurred chiefly under choultry rents in Tanjore, was due partly to prompt collection of the demand and partly to a rise in the commutation rate of prices, while that in the charges, which also appeared mainly in Tanjore was only nominal, being due to the investment of a sum of Rs. 70,000 in Government securities in favour of certain choultries in the district. The opening balance in favour of these institutions being Rs. 4,81,224, the year closed with a balance of Rs. 4,38,924. The closing balance was large in Gódávari, where the Local Boards were directed to utilize, for the purposes specified in article 214 of the Local Fund Code, the major portion of the accumulations in favour of markets.

V.—General Remarks.

47. *Local Fund Accounts.*—There was no change in the existing arrangements for the audit and inspection of Local Fund accounts. During the year under review, the accounts of 1897–98 and a portion of those for 1898–99 were examined in all districts except Kurnool. From the reports received from the Accountant-General it appeared that the state of the accounts was good in all districts except Anantapur, where the results were again not satisfactory.

48. *General Administration.*—The Government having in the reviews of the individual reports commented fully upon the administration of the Local Boards and Union Panchayats in each district, it will be sufficient here to remark that, speaking generally, the administration of local affairs continued to be on the whole satisfactory, although, as compared with the previous year, there was a retrogression in the districts

of North Arcot, Chingleput, Cuddapah, Gódávari, Salem and Vizagapatam, which was due chiefly to the restriction of expenditure in order to reserve funds for plague charges and to the measures adopted for the prevention of the spread of the epidemic.

* Railway Guarantee Fund.

† The difference, as compared with the closing balance of 1897-98 given in the General Local Fund Review for that year is due to the adjustment of contributions from Local to Provincial Funds on account of famine-relief works subsequently carried out by the Accountant-General.

* Excludes the cost of (1) Medical practitioners employed on sanitary inspection, distribution of medicines, &c.; (2) Medical schools; (3) the District Medical and Sanitary officers' establishments; (4) Medical pupils and (5) midwives and midwifery pupils; but includes the pay of the medical subordinates in charge.

† Includes 10 nurses.

‡ Includes 705 cases attended by the nurses.

APPENDIX XXIV.

A summary of the measures adopted in furtherance of Female Medical Education in 1898–99.

Arcot, South.—The dispensary for women and children at Cuddalore continued to work during the year and was maintained at the cost of the District Board and Municipal Council in equal shares.

Bellary.—The female student who was undergoing training for the Apothecary grade in the Madras Medical College at the cost of the District Board, passed the final examination held in March 1899.

Canara, South.—No steps were taken for the medical training of women beyond the payment of the usual contribution of Rs. 1,000 to the Mangalore Municipality in aid of the women and children's hospital at Mangalore.

Chingleput.—There was no necessity for taking any steps towards the furtherance of medical education of women in this district on account of its proximity to Madras.

Coimbatore.—The dispensary for women and children at Pollachi, which continued to be in charge of a female Apothecary, is stated to be doing good work.

Cuddapah.—A female Hospital Assistant trained by the Countess of Dufferin's Fund Committee on behalf of the Taluk Board continued to be employed in the Madanapalle hospital.

Ganjám.—The District Board continued to pay a scholarship to the female medical pupil who was being trained in the Medical College at Madras for the Apothecary grade under the auspices of the Dufferin Fund Committee.

Godávari.—The dispensary for women and children at Cocanada continued to be in charge of a female Apothecary trained under the supervision of the Dufferin Fund Committee on behalf of the District Board.

Kistna.—The female medical pupil who was being trained for the Apothecary grade in the Medical College at Madras at the cost of the District Board is reported to have recently passed her examination.

Kurnool.—A female medical pupil for the Apothecary grade continued to be under training at the Madras Medical College at the cost of the District Board.

Madura.—The female medical pupil who was under training for the Apothecary grade in the Madras Medical College at the cost of the District Board is stated to have passed her first examination.

Nellore.—A female medical pupil was being trained in the Madras Medical College for the Apothecary grade at the cost of the District Board.

Salem.—Out of the dispensaries for women and children at Salem and Tiruppattúr in charge of female Apothecaries trained at the cost of the District Board, the one at Salem was closed from September 1897 on the resignation of the female Apothecary, and the District Board has not been able to secure a substitute.

Tanjore.—A female medical pupil continued to be under training for the Apothecary grade in the Madras Medical College at the cost of the District Board.

Tinnevelly.—Two female pupils continued to be trained for the Apothecary grade in the Medical College at Madras at the cost of the District Board.

Trichinopoly.—The female medical pupil who was undergoing training for the Apothecary grade in the Madras Medical College at the cost of the District Board is reported to have passed the final examination.

Vizagapatam.—There were two hospitals and one dispensary intended solely for women and children and they were in charge of female apothecaries trained under the supervision of the Countess of Dufferin's Fund Committee on behalf of the District Board.

No steps were taken in Malabar and the Nilgiris for the medical training of women, and the reasons for the omission have not been explained; in Anantapur nothing was done in furtherance of female medical education, regard being had to the circumstances and population of the district; and in North Arcot for want of funds.

In all the districts a number of trained midwives were employed (*vide* Appendix XXIII).

APPENDIX XXV.

STATEMENT showing the strength, cost and operations of the vaccine establishments for 1898–99.

District Boards.	Establishment.			Total cost of vaccination.	Number of vaccine operations performed			Number of successful cases.			Percentage of successful cases to total number.	Number of successful operations per mille of the total population.	Average cost of each successful case by Local Fund vaccinators.	Number of successful operations on children under one year of age.	Number of successful operations on children under one year per mille of the total population.

ORDER—No. 2285 L., dated 10th Nov. ~~October~~ 1899.

The Government, having separately reviewed the administration reports of the several Districts Boards for 1898–99 in the proceedings read above, will now consider them collectively.

2. These reports were again received, on an average, seven days after the prescribed date, those from Anantapur, Cuddapah and the Nilgiris being 25, 17 and 16 days, respectively, behind time. The Presidents of the District Boards concerned should endeavour to secure strict punctuality in the submission of future reports. The reports and the accompanying statements were prepared, on the whole, with greater care than in the previous year. Those from Madura and Kurnool, however, contained the largest number of errors, discrepancies and omissions, while those from North Arcot, Salem and Nellore were the least inaccurate.

I.—GENERAL.

3. *Administration.*—Five new unions were formed in the districts of South Arcot (2), Chingleput (2) and Salem (1). With this exception, there was no change in the system of Local Fund administration during the year under review.

4. *District Boards.*—Appendix I shows the constitution of the 21 District Boards on the 31st March 1899 and the average attendance of the members at their meetings. There were then 55 vacancies on these Boards or two more than in the previous year, and owing to this, the number of nominated official members on all the District Boards,
