Civil Works.

READ—the following papers:—

From the Superintending Engineer, I Circle, dated 29th April 1899, No. 395 G.N.
Collector of Ganjam, dated 10th June 1899, Dis. No. 963 Eng.
Mis. No. 3224, dated 30th June 1899.
Endorsement thereon in the Revenue Department, No. 1062 R., dated 11th August 1899.

ORDER—No. 2915 W., dated 1st November 1899.

The papers read above relate to the Tekkali-Anantagiri road in the Ganjam district which, in G.O., No. 229, Revenue, dated 26th March 1889, was ordered to be carried out as a famine relief work.

2. An estimate amounting to Rs. 23,500 was sanctioned in G.O., No. 2076 W., dated 31st July 1890, for earthwork and metalling, and in G.O., No. 965 W., dated 9th April 1894, an estimate of Rs. 27,200 for masonry works to render the road passable for traffic was passed. This amount was raised to Rs. 29,500 in G.O., No. 218 W., dated 4th August 1897.

3. This road would never have been undertaken except as a famine relief work, and the intention was to hand it over to the District Board on completion.

4. The President of the Ganjam District Board, however, states that the District Board is unable to take over the road from the current year as the annual budget has been long since prepared and approved by Government. He adds that the road is not deemed necessary in Local Fund interests, and, if taken over by the Local Fund Department, would probably be abandoned at an early date.

5. The Superintending Engineer reports that there is very little traffic on the road, and, that in consequence of the opening of the railway, the road is practically of no value except to persons travelling straight to Tekkali. The Superintending Engineer now requests orders as to the agency by which the road is to be maintained in future.

6. The Collector also agrees with the Superintending Engineer in thinking that the road which was undertaken as a famine work before the construction of the East Coast Railway is of but little use. As there is now very little traffic on the road, the Collector sees no object in spending large sums on its maintenance. He suggests that the estimates for the repairs of the road be provided in successive famine programmes.

7. In the circumstances stated above, His Excellency the Governor in Council directs that the road be handed over to the Local Fund Board who need incur no expenditure on its upkeep in normal years. Its repairs should be undertaken only as a famine relief work when the necessity for such works arises, provision being made therefor in the successive programmes of famine relief works of the District Board.
