I shall be very much obliged
 if you will kindly give me a
 brief note - dear friends - on
 the matter in your letter
 very politely & help me with
 the preparation of the narrative
 that you to fact. I shall be glad
 if you will be so good as to
 be a finding. Every that week
 commencing from Sunday 27th
 I do not want to trouble you with
 writing - long reports - but ask for
 details. I have them already
 but they do not always come
 out as well known to the
 Office as the report. The report

from of doing, I go in to details,
 they mistake a long time to write,
 I am much longer I know details
 than I want. I have not the time.

I still can desire, to attempt to control
 the work of each individual officer;
 that must be left to you on the head
 of the District. What I want are
 general instructions as to the language
 of the people, the readiness with which
 they permit inspection of the sick, or
 contacts, or with which they examine
 houses of their own accord. I wish
 to accept of them as a revolution.
 What steps they take to help themselves
 whether the District is increasing or decreasing.
 Whether your efforts are meeting with
 any success, I long to know.
