Observation Circles in Bellary.

Approving of the proposal of the Collector to sub-divide Hospet and Hanisi circles, and also to form a new circle in Alur Taluk.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—the following paper:—

From R. A. CAMPBELL, Esq., Acting Collector of Bellary, to the Plague Commissioner, Madras, dated 27th January 1899, Ref. on C. No. 214-P.

In consequence of the outbreak of plague at Hospet in an indigenous form, Mr. Elwin considered it necessary to sub-divide the Hospet circle into two circles with reference to paragraph 1 of your Proceedings, No. 88, dated 7th October 1898, and in anticipation of your sanction placed it in charge of two inspectors; the second inspector has been sent out to that circle on 23rd January 1899.

2. The plague supervisor of group VI having reported that Hanisi circle, situated adjacent to the Hospet circle and consisting of 39 villages situated among hills, should be sub-divided into two, I have in anticipation of your sanction ordered its sub-division and applied to the Sanitary Commissioner for an additional sanitary inspector to be placed in charge of that circle.

3. Owing to the re-appearance of plague at Peddahotur, in Alur taluk, I consider it necessary that the villages east of the Hagri river between the Holagondi circle (No. 29) and Halaharvi circle (No. 36) should be formed into a new circle and placed in charge of a new inspector to work under the plague supervisor of group IX. In anticipation of your sanction I am arranging to send out an inspector to take charge of that circle.

4. I request that Mr. Elwin's action referred to in paragraph 1, and mine in paragraphs 2 and 3, may be approved.
