Reviewing the Rajahmundry — for 1899–1900.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. N. JALADURGAPRASADARAYUDU Garu, B.A., Chairman, Municipal Council, Rajahmundry, to the Secretary to Government, Local and Municipal Department (through the Sub-Collector, Gódávari), dated 29th December 1898, Dis. No. 132-R.M.

I have the honour to submit, for approval of Government, the revised estimate for the current year and the budget for 1899–1900, together with the usual statements as sanctioned by the Council in its resolution, dated 26th December 1898 (copy enclosed).

REVISED ESTIMATE FOR 1898–99.

*Receipts.*

2. The total receipts of the current year with the opening balance of Rs. 3,850 are expected to amount to Rs. 50,520, which shows an increase of Rs. 6,910 over the budget estimate.

3. The increase is due to an increase under certain heads and to a decrease under others as shown below :—

| Choultry funds | 600 | .. |
| Total | 8,165 | 1,255 |
| Net increase | 6,910 | |

4. The following remarks will explain the above variations :—

(*a*) *Opening Balance.*—The increase is due to short expenditure as explained in the last year's administration report.

(*b*) *Tax on Arts, Buildings and Lands.*—The increase under these heads is due to the arrears to be collected.

(*c*) *Tax on Vehicles with Springs, &c., Tax on Animals and Tax on Carts, &c.*—The excess is in consequence of a greater number of vehicles, animals, carts, &c., to be licensed.

(*d*) *Tolls.*—The increase is consequent upon the competition at the time of sales.

(*e*) *Penalties on account of Market-rents, Conservancy Receipts and Quit-rents.*—These are fluctuating items.

(*f*) *Cart-stand Fees and evasion of Tolls.*—These are fluctuating items.

(*g*) *Rent on Buildings.*—The increase is due to rent collected on buildings acquired for widening the Pinnamgattu street before they were demolished.

(*h*) *Fees from Travellers' Bungalow.*—When the travellers' bungalow was acquired by the Railway department for the Gódávari bridge approach line a building was rented for the accommodation of travellers. The decrease seems to be due to the fact that European and Eurasian travellers who come to the travellers' bungalow have been putting up with their friends and acquaintances whose number has increased on account of the bridge work going on here.

(*i*) *Sale-proceeds of Lands.*—No lands having been sold in the course of the year, the income under this head has fallen.

(*j*) *Sale-proceeds of Old Materials, &c.*—Some houses were acquired for widening the Pinnamgattu street; when they were pulled down, the old materials were sold; hence the increase.

(*k*) *Conservancy Receipts.*—The slight increase under this head is on account of arrears collected during the year.

(*l*) *Other Revenues from Educational Institutions.*—Before the Innespeta girls' school was taken over by Government, it had been under the management of the Municipality, having been made over to it, by the managing committee of the school, together with its funds deposited in the Savings Bank. The Council, in its resolution, No. 1722, dated 18th June 1898, resolved to amalgamate this fund with the general revenue at the Auditor's suggestion; hence the increase under this head.

(*m*) *Sale-proceeds and Composition Fees of Medicines.*—This is a fluctuating item.

(*n*) *Other Hospital Receipts.*—The increase under this head is consequent upon the amalgamation of the hospital fund hitherto in deposit in the Savings Bank with the general revenue in accordance with the resolution mentioned in (*l*) on the advice of the Auditor.

(*p*) *Income from Markets.*—The decrease is due to want of keen competition at the time of sales.

(*q*) *Income from Slaughter-houses.*—The decrease is due to the butchers not using the bullock slaughter-house newly constructed in the place of the old one taken up by the Railway department for the bridge approach line. These butchers, to evade payment of fees on animals slaughtered, have now been slaughtering animals outside municipal limits and they are now being prosecuted for selling in the market without permission or license.

(*r*) *Distraint Fees, Cart-stand Fees, Sale of Earth, Extracts from Births and Deaths Register, Copying and Searching Fees.*—These are fluctuating items.

(*s*) *Grants from Government for Normal Stipends, Gymnastic Instructor and Drawing Master.*—The increase is due to the receipt during the year of arrears from the Government.

(*t*) *Grants from Local Boards for Medical Purposes.*—The Local Fund Board having been ordered by the Collector to pay one-third of the charges incurred by the Municipality on account of the plague preventive measures, credit is taken for the amount due by the Board; hence the increase.

(*u*) *Grants from Local Boards for Choultries.*—The Local Fund Board pays two-thirds of the charges incurred on account of the Kambam choultry. As it is necessary to have certain repairs made to it, credit is taken for the amount due by the Board; hence the increase.

(*v*) *Cess-pools.*—The increase is due to several cesspools being temporarily closed for some months during the year, while they were building according to the rules prescribed by the Council.

(*w*) *Refunds of Expenditure of previous year—Fee for numbering Carts, &c.*—These are fluctuating items.

(*x*) *Durbhanari Choultry.*—The increase is due to the income from the lands attached to the choultry handed over to the Municipality during the year.

*Charges.*

5. The total charges for the year, excluding the closing balance, amount to Rs. 45,780 against Rs. 43,090 budgeted, showing on the whole an increase of Rs. 2,690 as detailed below :—

| Net decrease | 461 | |
| Advances recoverable | 371 | .. |
| Total net increase | 2,690 | |

The following remarks will explain the above variations :—

*Grant 1*, (*a*) *New Works—Communications.*—The increase is due to acquisition of sites in Gopalaswamy and Chinnaswamy's streets, sanctioned by Government.

(*b*) *Buildings.*—The increase is due to the completion this year of the slaughter-house begun last year.

(*c*) *Repairs—Communications and Buildings—Water-supply—Repairs, &c.—Tools and Plant, &c.*—The decrease is due to the provision made for plague charges and increased expenditure under Grant 3 as explained therein.

*Grant 2*, (*d*) *Result Grants.*—The increase is due to payment of arrears to result schoolmasters during this year.

(*e*) *Municipal Inspector's Establishment.*—The increase is due to the appointment of a substitute for the municipal inspector when he was granted privilege leave.

(*f*) *Building, Furniture, &c., Grants.*—The decrease is due to less expenditure under the head owing to no applications having been made for grants for furniture.

(*g*) *Drawing Master Contingencies.*—The decrease is due to short expenditure, for want of funds.

*Grant 3*, (*h*) *Hospitals, Sundries and Contingencies.*—The increase under this head is due to bedding and clothing supplied to the hospitals.

(*i*) *Conservancy and Road-cleaning, &c.—Other Charges such as Purchase or Hire of Carts, &c.*—The increase is principally due to increase in the number of rubbish carts and in the amount paid for them.

(*j*) *Private Scavenging Contingencies.*—The increase is in consequence of an increase in the amount paid for sewage carts and employment of two night-soil carts.

(*k*) *Plague Charges.*—The increase is due to expenditure incurred on account of plague observation staff and construction of, and repairs to, plague sheds at Kovvur, Vadapally and Rajahmundry.

(*l*) *Cholera Charges.*—There were no cases of cholera last year; hence the decrease under this head.

*Grant 4*, (*m*) *Slaughter-house Contingencies.*—The increase is due to an increase in the amount paid for the sewage cart attached to the slaughter-house.

(*n*) *Durbhanari Choultry.*—The increase is on account of the salaries of the choultry establishment, entertained during the year.

(*o*) *Durbhanari Choultry—Feeding Travellers.*—The increase is due to expenditure on account of feeding travellers, purchase of utensils, &c., for the above choultry.

(*p*) *Avenue Contingencies.*—A new item. A few trees have been planted in the Innespeta square.

(*q*) *Purchase of Seeds, &c.*—The decrease is due to less expenditure for the purchase of seeds, &c.

*Grant 5*, (*r*) *Office Establishment.*—The decrease is due to saving of the amount allotted for the pay of the Secretary whose appointment was approved of by Government in September.

(*s*) *Collection Establishment.*—The increase is due to the payment made during this year to the temporary establishment entertained last year which was sanctioned by Government.

(*t*) *Tolls Contingencies.*—The increase is due to increased expenditure on account of repairs to tolls' sheds.

(*u*) *Advances Recoverable.*—The increase is due to advances made to a Councillor for having barrels made for sewage carts.

(2) To another Councillor for feeding travellers in the Durbhanari choultry.

(3) To a pleader to conduct suits in connection with the Durbhanari choultry and the Listerpeta fund.

## Budget Estimate for 1899-1900.

### *Receipts.*

6. The total receipts for the ensuing year are expected to amount to Rs. 47,430 against Rs. 50,520 anticipated in the revised estimate. The decrease of Rs. 3,090 is due to increase under some heads and decrease under others as explained below :—

| | Increase. | Decrease. |
|---|---|---|
| | Rs. | Rs. |
| Opening balance | 890 | .. |
| Tax on arts | .. | 700 |

| Latrine fees | .. | 45 |
| Refund of expenditure of previous year | .. | 5 |
| Total | 2,340 | 5,430 |
| Net decrease | 3,090 | |

(*a*) *Opening Balance.*—The increase is due to short expenditure.

(*b*) *Tax on Arts.*—The amount shown under this head in the revised estimate includes arrears due for the previous year; hence the decrease in the budget.

(*c*) *Tax on Buildings.*—The increase is due to the expected increase under this head after the revision of house-tax, which is now being made, is completed. It is expected that the net increase will be about Rs. 2,000 over the income of the last year, and the Council under the present state of things considers it inadvisable to raise the percentage of taxation over the present rate 7 per cent. and it is very desirable not to reach the maximum at once, but to have a margin left, for raising the taxes whenever that course might become inoperative.

(*d*) *Tax on Lands.*—The amount shown under this head in the revised estimate includes arrears due for the previous year; hence the decrease.

(*e*) *Cart-stand Fees—Evasion of Tolls.*—These are fluctuating items.

(*f*) *Rent on Buildings.*—The amount shown under this head in the revised estimate is on account of certain buildings acquired for widening the Pinnamgattu street which were let before they were demolished; hence the decrease.

(*g*) *Sale-proceeds of Old Materials.*—There will be no old materials for sale; hence the decrease.

(*h*) *Sale-proceeds of Night-soil.*—The amount under this head in the revised estimate includes arrears due for the previous year; hence the decrease.

(*i*) *Other Revenue from educational institutions—Sale-proceeds and Composition fees and other Hospital receipts—Vide* explanation in the revised estimate.

(*j*) *Income from Markets.*—The amount shown under this head in the revised estimate includes the arrears due for the previous year; hence the decrease in the budget.

(*k*) *Slaughter-house.*—The reason for decrease under this head is explained in the revised estimate. It is expected that the usual income will be realized in the ensuing year when it is hoped that the bullock slaughter-house will be used by butchers; hence the increase.

(*l*) *Distraint fees and extracts from Births and Deaths registers.*—These are fluctuating items.

(*m*) *Grants from Government for Normal Stipends Gymnastic Instructor and* [illegible] *master.*—The items under these heads in the revised estimate include the [illegible] the previous year received during the current year from Government; [illegible] diture under the h[illegible] furniture. [illegible]*ue Charges.*—The increase is on account of plague charges.

8. *Budget Charges.*—Explanation of variations—

*Grant 1, (a) New Works—Communications.*—The Council does not contemplate undertaking any new works; hence the decrease.

(*b*) *Repairs—Communications.*—The increase is slight.

*Buildings.*—The decrease is due to less expenditure on repairs of buildings.

*Public Works Establishment.*—The increase is due to the salaries of the road coolies being shown under establishment according to G.O., No. 1873 M., dated 4th November 1898, and to the increment of Re. 1 a month in the salary of the maistry whose pay the Council resolved to raise from Rs. 12 to Rs. 15 by three annual increments of Re. 1 each, in consideration of its being low now inasmuch as a bricklayer earns Rs. 15 a month.

9. *Grant 2, (c) Municipal Lower Secondary School Establishment.*—The establishment of the school was sanctioned for two years originally and it was afterwards sanctioned for another two years which would be over by next April. As the Council resolved to continue the school permanently in view of its success financially as well as in its results, this allotment is repeated under this head, taking credit for the fee income under receipts. The school has been almost self-supporting and a good lower secondary school is needed for the town. The present allotment under this head includes the usual annual increment of Rs. 2 to the First Assistant and the pay of the night watcher, Rs. 5, which was hitherto shown under contingencies and is now shown under establishment under the instructions of the Auditor. Hence the increase over the revised estimate under this head.

(*d*) *Fixed Payments.*—The Council resolved on the recommendation of the Sub-Assistant Inspector of Schools to close the Innespeta night school which is badly attended, and to open in its place from January next an upper primary day school for which there is a great want felt; hence the increase. The expenditure of the upper primary school will be very nearly the same as the expenditure on the night school from which no income is derived. Under the revised estimate under this head no increase was necessary, as the pay for March will be paid in April next and the pay for January and February will be met by the allotment already made for the night school. The increase is slight and is due to the establishment of the upper primary school alluded to.

(*e*) *Salary Grants.*—Under the new rules, no salary grants will be paid to the lower secondary schools; hence the decrease.

(*f*) *Result Grants—Vide* explanation in the revised estimate.

(*g*) *Result System.*—The increase is due to a provision of Rs. 400 made for fixed grants.

(*h*) *Municipal Inspectors Establishment—Vide* explanation in the revised estimate.

(*i*) *Building, Furniture, &c., Grants.*—The increase is made to meet any applications that might be made.

(*j*) *Drawing Master—Contingencies.*—Some drawing models are required for the drawing class; hence the increase.

10. *Grant 3, (k) Registration Establishment.*—The increase is due to the usual annual increment of the assistant registrar, and to the increment of Re. 1 in the salary of the registrar whose pay the Council resolved to increase from Rs. 12 to Rs. 15 by three annual increments, as he is a hard working officer.

(*l*) *Other Charges such as Purchase of Carts, &c.*—This allotment includes Rs. 200 for road-watering and Rs. 200 for purchase of dust-bins. The decrease under the head is due to less expenditure provided for road-watering.

(*m*) *Private Scavenging Establishment.*—The increase is due to increase in the amount to be paid to sewage cart boys. The number of toties and sweepers is now 63 and 50, respectively, which is a little over that recommended by the Sanitary Commissioner. The number of sweepers cannot be reduced as so many are required.

(*n*) *Private Scavenging Contingencies.*—The increase is due to increase in the rates for sewage carts, and a provision of Rs. 300 for purchase of night-soil hand-carts.

(*o*) *Plague Charges.*—This amount is allotted in accordance with the instruction of the Collector under G.O., No. 883, dated 13th October 1898.

11. *Grant 4, Slaughter-house Establishment.*—This amount includes the increase in the pay of the sewage cart boy attached to the slaughter-house; hence the increase.

(*q*) *Durbhanari Choultry.*—One servant was not employed for some time; hence the increase in the budget.

(*r*) *Feeding Travellers, Durbhanari Choultry.*—Travellers have been fed from November last; hence the increase.

(*s*) *Travellers' Bungalow Contingencies.*—The increase is due to a light sanctioned to be placed there.

(*t*) *Garden Establishment.*—The increase is due to an increase of Re. 1 sanctioned by the Council in the salary of the museum peon, who is a very hard working and trustworthy servant of very long standing.

(*u*) *Purchase of Seeds, &c.*—*Vide* explanation in the revised estimate.

12. *Grant 5,* (*v*) *Office Establishment.*—The increase is due to provision made for privilege leave and includes the usual annual increments in the pay of the office staff.

(*w*) *Collection Establishment.*—The increase is due to shroff's pay being fixed at Rs. 15, the pay of 10 to 15 being attached to one in the office establishment as sanctioned in G.O., Mis. No. 1913 M., dated 15th November 1898, and to an increase of Re. 1 per mensem in the pay of three tax collectors drawing Rs. 8 each, sanctioned by the Council, in view of the collection of the quit-rents (hitherto made by the Revenue department) having been transferred to them which accordingly entails more work on them.

(*x*) *Purchase of Account Books, &c.*—The increase is intended to meet the cost of bound books, forms, &c., supplied by the Lawrence Asylum Press.

13. The required proposition statement is herewith submitted.

14. The necessary variations having been explained, a summary of the budget for 1899–1900, as proposed, is given below.

15. The year is expected to open with a balance of Rs. 4,740 and the usual sources of income are expected to amount to Rs. 42,690. The total charges of the year are estimated at Rs. 45,550 and the year will thus close with a balance of Rs. 1,880.

16. An extract from the proceedings of the Council, dated 26th December 1898, is herewith submitted.

2. *Revised Estimate for* 1898–99.—The allotment for Repairs—Communications has been cut down from Rs. 3,460 to Rs. 2,181, although the former figure was fixed by Government in its review of the budget. Rs. 1,500 has however been expended on New Works—Communications.

3. There is a large increase in the expenditure on private scavenging without a corresponding increase in the receipts. The expenditure should have been met by an increased scale of fees.

4. *Budget Estimate for* 1899–1900.—There is a slight increase expected under tax on buildings, but as pointed out last year this might be increased by Rs. 2,350 by levying the maximum tax at the maximum rate.

5. The receipts from tolls are estimated at Rs. 7,215 and yet it is proposed to spend only Rs. 2,250 on Repairs—Communications and nothing on New Works—Communications. In view of the fact that the condition of the roads is not at all

satisfactory, the allotment should be raised to at least Rs. 3,600, *i.e.*, half the income from tolls. To meet this additional funds would be necessary and might be secured by raising the tax on buildings to 8½ per cent.

6. The allotment for result grants seems unnecessarily high.

7. The receipts under private scavenging are estimated at Rs. 4,300 and the expenditure at Rs. 5,832, *i.e.*, the service is to be worked at a loss of Rs. 1,532. The fees should be raised or the expenditure reduced.

2. *Revised Estimate for* 1898–99.—The current receipts and charges are now estimated at Rs. 50,520 and 45,780, respectively, against Rs. 43,610 and 43,090 anticipated in the sanctioned budget. The net increase of Rs. 6,910 in the receipts is mainly due to increases under the heads "Taxes on arts, buildings, income from tolls, other hospital receipts and choultry funds." The increase under charges, viz., Rs. 2,690, appears chiefly under Grants 1, 3, and 4. The increase under charges under Grant 3 is due to the extra allotment made on account of plague charges and to the increased expenditure on account of sewage, night-soil and rubbish-carts. The increase of charges under private scavenging is, as remarked by the Sub-Collector, excessive and should have been met by a corresponding increase in the scale of fees. There is also a heavy decrease of Rs. 505 in the receipts under "Income from slaughter-houses", while there is an increase of Rs. 42 in the expenditure under the same head. The former is explained to be due to the butchers not using the newly constructed slaughter-house. If so, there is no reason why a sewage cart should have been employed therefor—*vide* Chairman's remark against Grant 4 (*m*).

3. The collections under "Taxes on buildings and lands" during the first eight months of the year cannot be considered satisfactory, being only 65 and 42 per cent., respectively, of the estimated receipts. The collection of receipts under Arts, tolls and markets" are however fair.

4. The original allotment under "Repairs—Communications" sanctioned by Government has been considerably reduced by the Council in the revised estimate and the reduction is said to have been made as provision has had to be made under "Plague". The amount allotted under the latter head is only Rs. 800, while that deducted from "Repairs—Communications" is Rs. 1,279. The condition of the roads in the Municipality is not satisfactory. Provision should have been made for "Plague" by suitable reductions under Grants 3 and 4.

5. *Budget Estimate for* 1899–1900—*Receipts.*—The probable receipts for next year are estimated at Rs. 47,430 against Rs. 50,520 as per the revised estimate for this year, the decrease occurring chiefly under "Taxes on arts, lands and markets, other receipts from educational institutions and other hospital receipts." It is hoped that the revision of the house and land tax registers of the Municipality which the Council seems to have taken on hand will be steadily pushed on with, as the undersigned has no doubt there is much to be done in this way. The reasons given by the Council for not raising the percentage do not seem to be at all convincing. In view of the increase of wealth, trade and population in Rajahmundry and the consequent increase in the rent value of houses since the assessments were last fixed on the one hand, and the probable demand for more funds on account of the plague and the condition of roads which are being neglected year after year on the other, I think it is time that the Council should see its way to raise the percentage of taxation (and Government ought to insist on the council doing it) to 7½ per cent. at least.

6. *Charges.*—These are put down at Rs. 45,550 against Rs. 45,780 in the revised estimate. There is a heavy decrease under Grant I, counterbalanced by a large increase under Grants 3 and 5. The decrease under Grant 1 is mainly due to the Council not

contemplating the construction of any new buildings or roads next year. The allotment under "Repairs—Communications" is very inadequate and I strongly support the Sub-Collector's recommendation to raise it to Rs. 3,600.

(Signed) V. A. BRODIE.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 10th January 1899, No. 329.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Rajahmundry Municipality for 1899–1900.

2. Under receipts, credit has been taken for a salary grant of Rs. 90 on behalf of the gymnastic instructor and the drawing master and of Rs. 100 on behalf of municipal schools. This should be Rs. 90 for the gymnastic instructor and Rs. 100 for the drawing master.

3. An allotment of Rs. 1,000 has been made for fixed and result grants against Rs. 700 for salary grants and Rs. 600 for result grants in the current year's budget. The lower secondary school, which is now aided on the salary grant system, being no longer eligible for salary grants under the Grant-in-aid Code for 1899–1900, the whole of the allotment in the current year's budget for salary grants should be transferred to the head "Fixed and result grants" to permit of the lower secondary school being aided on the fixed or the result grants system, as the case may be. I beg, therefore, strongly to recommend that the allotment proposed for fixed and result grants be raised to Rs. 1,300. The heading "Result grants" should be altered into "Fixed and result grants".

4. The Council proposes to continue to maintain permanently the lower secondary school. In my letter, No. 326, dated 14th January 1897, remarking on the budget estimate of the Municipality for 1897–98, I recommended to Government the continuance of the school under the management of the Municipality till April 1899 and observed that the question of making it a part of the practising section of the training college might be considered after the new building for the training college has been completed. The building is fast approaching completion and the Principal, Rajahmundry College, has been asked to submit a special report on the subject. Pending the decision that may be arrived at on the point, the allotment proposed may be retained.

5. With the modification suggested in paragraph 3, the net expenditure under Grant 2 will be Rs. 3,060 (Rs. 6,480 — Rs. 3,420), which is about 11 per cent. of the estimated income of the Municipality from taxation and markets.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated 20th January 1899, No. 72.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Rajahmundry Municipality for the year 1899–1900 is sufficient and calls for no further remarks.

---

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., L.L.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 7th February 1899, No. 1495.

In returning the papers referred to me for remarks with endorsement No. 82 L. and M., dated 30th ultimo, and in continuation of paragraph 4 of this office letter, No. 329, dated 10th January 1899, I have the honour to submit copy of a letter from the Principal, Rajahmundry College, No. 772, dated 25th January 1899, and to recommend that, as suggested by Mr. Stone, the Municipal Council, Rajahmundry, be permitted to continue the lower secondary school for two years more, at the expiration

of which period the question may be taken up again. The suggestions of the Principal to close the upper primary school in Innespetta square and to arrange for some of the upper and lower secondary grade students working in the lower secondary school are also supported. He says that the Chairman of the Municipal Council has no objection to such a course.

From Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., I.M.S., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal department, dated Madras, 27th February 1899, No. 637-S.

With reference to the Rajahmundry Municipal budget for 1899–1900, I have the honour to remark that the provision therein made for vaccination being the same as that for the current year calls for no comment. The increased provision for registration of births and deaths is desirable. The allotment for conservancy is Rs. 16,715, or 39·1 per cent. of the estimated receipts. I consider very much better results could be obtained for the money spent, were the Council to adopt the advice frequently offered to abolish the filthy practice of collecting night-soil in baskets in favour of night-soil carts.

2. No extracts from statements II-A and II-B have accompanied the budget and, in consequence, I am unable to offer any remarks on the sanitary works, if any, proposed for execution under Grant I, and on the sufficiency or otherwise of the conservancy supervising staff under Grant III. My last inspection showed that in all sanitary details very much more supervision is requisite, and that consequently the appointment of a certificated Sanitary Inspector in accordance with the scale advised by Government in G.O., No. 4 M., dated 4th January 1897, should be adopted.

## Revised Estimate for 1898–99.

2. The current receipts and charges are now estimated at Rs. 46,670 and Rupees 45,780, respectively, against Rs. 41,150 and Rs. 43,090 anticipated in the sanctioned budget. An increase in the receipts occurs chiefly under the taxes on arts, buildings and lands, tolls, sale-proceeds of old materials, other revenue from educational institutions, other hospital receipts, contributions from Local Boards and miscellaneous other items, but it is partly counterbalanced by a decrease under fees from travellers' bungalows and slaughter-houses; while under charges the increase which appears under grants 1,3,4 and advances recoverable is partly met by a decrease under grant 5. The collections under the tax on lands during the first eight months of the year were not satisfactory. The attention of the Municipal Council is drawn to the remarks of the Sub-Collector and the Collector in paragraphs 3 and 2, respectively, of their endorsements regarding the working of the private scavenging system. With reference to G.O., No. 7, Financial, dated 3rd January 1899, communicated with G.O., No. 145-P., dated 30th January 1899, the contribution of Rs. 250 expected from the District Board for plague charges will be struck out. The attention of the

Municipal Council is drawn to the remarks of the Collector in paragraph 4 of his endorsement. With reference to G.O., No. 130, Financial, dated 21st January 1899, communicated with G.O., No. 273 L., dated 17th February 1899, the provision made for plague charges will be raised from Rs. 800 to Rs. 2,210. The balance to be carried forward to the ensuing year's budget will then be Rs. 3,080.

## Budget Estimate for 1899–1900.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 42,690 against Rs. 46,420 in the revised estimate. There is a decrease under the taxes on arts and lands, sale-proceeds of old materials, other revenue from educational institutions and other hospital receipts, but it is partly counterbalanced by an increase under the tax on buildings, slaughter-house fees and contributions from Local Boards. In order to avoid the large deficit which would otherwise occur, the Government considers that the only course open to the Council is to increase the rate of the house-tax to the maximum. Under section 49 of the District Municipalities Act, as amended, the Council is requested to state its objections, if any, to this proposal within one month from the date of receipt of this order. In the meantime, credit will be taken for an increase of Rs. 2,350 in the revenue from this source. The attention of the Municipal Council is drawn to paragraph 2 of the Director's first letter read above and to paragraph 6 of the Sub-Collector's endorsement. With reference to paragraph 2 of G.O., No. 7, Financial, dated 3rd January 1899, communicated with G.O., No. 145-P., dated 30th January 1899, the contribution of Rs. 250 expected from the District Board for plague charges will be struck out, but to enable the Municipal Council to provide sufficient funds for this purpose, credit will be taken for a loan of Rs. 6,000 from Imperial funds.

4. *Charges.*—(1) The probable charges are entered as Rs. 45,550 against the revised estimate of Rs. 47,190. There is a decrease under Grants 1 and 2 and advances recoverable, but it is partly counterbalanced by an increase under the other grants.

(2) *Grant 1.*—As recommended by the Sub-Collector and the Collector in paragraphs 5 and 6, respectively, of their endorsements, the allotment for the maintenance of roads will be raised from Rs. 2,250 to Rs. 3,600. The proposal of the Municipal Council to raise the salary of the public works maistry from Rs. 12 to Rs. 15 by three annual increments of Re. 1 each, referred to in paragraph 8 of the Chairman's letter, is sanctioned.

(3) *Grant 2.*—As recommended by the Director of Public Instruction in his second letter read above, the Municipal Council will be permitted to continue the lower secondary school for two years more, at the expiration of which period the question should be taken up again. The Council's attention is drawn to the latter part of this letter. The Municipal Council's proposals to close the Innespeta night school and to open in its place an upper primary day school and the entertainment of the necessary establishment, to which reference should have been made in the Chairman's letter, are approved. As recommended by the Director in paragraph 3 of his first letter, the allotment for fixed and result grants will be raised by Rs. 300.

(4) *Grant 3.*—The increases in the salaries of the registrar of births and deaths and the private scavenging sewage cart boys, referred to in paragraph 10 of the Chairman's letter, are approved. The improper practice of collecting night-soil in baskets, referred to in paragraph 1 of the Sanitary Commissioner's letter read above, should be discontinued and his suggestion in the concluding portion of paragraph 2 should be considered by the Municipal Council. The omission noticed by the Sanitary Commissioner in this paragraph should be guarded against in future. With reference to G.O., No. 1259, Financial, dated 28th December 1898, communicated with G.O., No. 44 L., dated 11th January 1899, the provision for plague charges will be raised from Rs. 1,650 to Rs. 6,760.

(5) *Grants 4 and 5.*—The increases in the salaries of the sewage cart-boy attached to the slaughter-house, of the museum peon and the three bill-collectors on Rs. 8 each, proposed in paragraphs 11 and 12 of the Chairman's letter, are sanctioned. With

reference to G.O., No. 2250 L, dated 25th November 1898, the contribution for the central office establishments will be raised from Rs. 370 to Rs. 391, or Rs. 390 in round figures.

5. As revised by Government, the budget closes with a balance of Rs. 1,540, or only 3·4 per cent. of the ordinary receipts. This should be increased by effecting savings wherever possible during the course of the year.

6. If the loan of Rs. 6,000 from Imperial funds, for which credit has been taken in paragraph 3 *supra*, be not sanctioned by the Government of India, the budget will have to be recast.

**Municipal Budget.**

Reviewing the Rajahmundry — for 1899–1900.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. N. JALADURGAPRASADARAYUDU Garu, B.A., Chairman, Municipal Council, Rajahmundry, to the Secretary to Government, Local and Municipal Department (through the Sub-Collector, Gódávari), dated 29th December 1898, Dis. No. 132-R.M.

I have the honour to submit, for approval of Government, the revised estimate for the current year and the budget for 1899–1900, together with the usual statements as sanctioned by the Council in its resolution, dated 26th December 1898 (copy enclosed).

REVISED ESTIMATE FOR 1898–99.

*Receipts.*

2. The total receipts of the current year with the opening balance of Rs. 3,850 are expected to amount to Rs. 50,520, which shows an increase of Rs. 6,910 over the budget estimate.

3. The increase is due to an increase under certain heads and to a decrease under others as shown below:—

| | Increase. | Decrease. |
|---|---|---|
| | RS. | RS. |
| Opening balance | 1,390 | .. |
| Tax on arts | 500 | .. |

| Fees for numbering carts | 5 | .. |
| Choultry funds | 600 | .. |
| Total | 8,165 | 1,255 |
| Net increase | 6,910 | |

4. The following remarks will explain the above variations:—

(*a*) *Opening Balance.*—The increase is due to short expenditure as explained in the last year's administration report.

(*b*) *Tax on Arts, Buildings and Lands.*—The increase under these heads is due to the arrears to be collected.

(*c*) *Tax on Vehicles with Springs, &c., Tax on Animals and Tax on Carts, &c.*—The excess is in consequence of a greater number of vehicles, animals, carts, &c., to be licensed.

(*d*) *Tolls.*—The increase is consequent upon the competition at the time of sales.

(*e*) *Penalties on account of Market-rents, Conservancy Receipts and Quit-rents.*—These are fluctuating items.

(*f*) *Cart-stand Fees and evasion of Tolls.*—These are fluctuating items.

(*g*) *Rent on Buildings.*—The increase is due to rent collected on buildings acquired for widening the Pinnamgattu street before they were demolished.

(*h*) *Fees from Travellers' Bungalow.*—When the travellers' bungalow was acquired by the Railway department for the Gódávari bridge approach line a building was rented for the accommodation of travellers. The decrease seems to be due to the fact that European and Eurasian travellers who come to the travellers' bungalow have been putting up with their friends and acquaintances whose number has increased on account of the bridge work going on here.

(*i*) *Sale-proceeds of Lands.*—No lands having been sold in the course of the year, the income under this head has fallen.

(*j*) *Sale-proceeds of Old Materials, &c.*—Some houses were acquired for widening the Pinnamgattu street; when they were pulled down, the old materials were sold; hence the increase.

(*k*) *Conservancy Receipts.*—The slight increase under this head is on account of arrears collected during the year.

(*l*) *Other Revenues from Educational Institutions.*—Before the Innespeta girls' school was taken over by Government, it had been under the management of the Municipality, having been made over to it, by the managing committee of the school, together with its funds deposited in the Savings Bank. The Council, in its resolution, No. 1722, dated 18th June 1898, resolved to amalgamate this fund with the general revenue at the Auditor's suggestion; hence the increase under this head.

(*m*) *Sale-proceeds and Composition Fees of Medicines.*—This is a fluctuating item.

(*n*) *Other Hospital Receipts.*—The increase under this head is consequent upon the amalgamation of the hospital fund hitherto in deposit in the Savings Bank with the general revenue in accordance with the resolution mentioned in (*l*) on the advice of the Auditor.

(*p*) *Income from Markets.*—The decrease is due to want of keen competition at the time of sales.

(*q*) *Income from Slaughter-houses.*—The decrease is due to the butchers not using the bullock slaughter-house newly constructed in the place of the old one taken up by the Railway department for the bridge approach line. These butchers, to evade payment of fees on animals slaughtered, have now been slaughtering animals outside municipal limits and they are now being prosecuted for selling in the market without permission or license.

(*r*) *Distraint Fees, Cart-stand Fees, Sale of Earth, Extracts from Births and Deaths Register, Copying and Searching Fees.*—These are fluctuating items.

(*s*) *Grants from Government for Normal Stipends, Gymnastic Instructor and Drawing Master.*—The increase is due to the receipt during the year of arrears from the Government.

(*t*) *Grants from Local Boards for Medical Purposes.*—The Local Fund Board having been ordered by the Collector to pay one-third of the charges incurred by the Municipality on account of the plague preventive measures, credit is taken of the amount due by the Board; hence the increase.

(*u*) *Grants from Local Boards for Choultries.*—The Local Fund Board pays two-thirds of the charges incurred on account of the Kambam choultry. As it is necessary to have certain repairs made to it, credit is taken for the amount due by the Board; hence the increase.

(*v*) *Cess-pools.*—The increase is due to several cesspools being temporarily closed for some months during the year, while they were building according to the rules prescribed by the Council.

(*w*) *Refunds of Expenditure of previous year—Fee for numbering Carts, &c.*—These are fluctuating items.

(*x*) *Durbhanari Choultry.*—The increase is due to the income from the lands attached to the choultry handed over to the Municipality during the year.

*Charges.*

5. The total charges for the year, excluding the closing balance, amount to Rs. 45,780 against Rs. 43,090 budgeted, showing on the whole an increase of Rs. 2,690 as detailed below :—

| Advances recoverable | 371 | .. |
| Total net increase | 2,690 | |

The following remarks will explain the above variations :—

*Grant 1*, (*a*) *New Works—Communications.*—The increase is due to acquisition of sites in Gopalaswamy and Chinnaswamy's streets, sanctioned by Government.

(*b*) *Buildings.*—The increase is due to the completion this year of the slaughter-house begun last year.

(*c*) *Repairs—Communications and Buildings—Water-supply—Repairs, &c.—Tools and Plant, &c.*—The decrease is due to the provision made for plague charges and increased expenditure under Grant 3 as explained therein.

*Grant 2*, (*d*) *Result Grants.*—The increase is due to payment of arrears to result schoolmasters during this year.

(*e*) *Municipal Inspector's Establishment.*—The increase is due to the appointment of a substitute for the municipal inspector when he was granted privilege leave.

(*f*) *Building, Furniture, &c., Grants.*—The decrease is due to less expenditure under the head owing to no applications having been made for grants for furniture.

(*g*) *Drawing Master Contingencies.*—The decrease is due to short expenditure, for want of funds.

*Grant 3*, (*h*) *Hospitals, Sundries and Contingencies.*—The increase under this head is due to bedding and clothing supplied to the hospitals.

(*i*) *Conservancy and Road-cleaning, &c.—Other Charges such as Purchase or Hire of Carts, &c.*—The increase is principally due to increase in the number of rubbish carts and in the amount paid for them.

(*j*) *Private Scavenging Contingencies.*—The increase is in consequence of an increase in the amount paid for sewage carts and employment of two night-soil carts.

(*k*) *Plague Charges.*—The increase is due to expenditure incurred on account of plague observation staff and construction of, and repairs to, plague sheds at Kovvur, Vadapally and Rajahmundry.

(*l*) *Cholera Charges.*—There were no cases of cholera last year; hence the decrease under this head.

*Grant 4*, (*m*) *Slaughter-house Contingencies.*—The increase is due to an increase in the amount paid for the sewage cart attached to the slaughter-house.

(*n*) *Durbhanari Choultry.*—The increase is on account of the salaries of the choultry establishment, entertained during the year.

(*o*) *Durbhanari Choultry—Feeding Travellers.*—The increase is due to expenditure on account of feeding travellers, purchase of utensils, &c., for the above choultry.

(*p*) *Avenue Contingencies.*—A new item. A few trees have been planted in the Innespeta square.

(*q*) *Purchase of Seeds, &c.*—The decrease is due to less expenditure for the purchase of seeds, &c.

*Grant 5*, (*r*) *Office Establishment.*—The decrease is due to saving of the amount allotted for the pay of the Secretary whose appointment was approved of by Government in September.

(*s*) *Collection Establishment.*—The increase is due to the payment made during this year to the temporary establishment entertained last year which was sanctioned by Government.

(*t*) *Tolls Contingencies.*—The increase is due to increased expenditure on account of repairs to tolls' sheds.

(*u*) *Advances Recoverable.*—The increase is due to advances made to a Councillor for having barrels made for sewage carts.

(2) To another Councillor for feeding travellers in the Durbhanari choultry.

(3) To a pleader to conduct suits in connection with the Durbhanari choultry and the Listerpeta fund.

## BUDGET ESTIMATE FOR 1899–1900.

### *Receipts.*

6. The total receipts for the ensuing year are expected to amount to Rs. 47,430 against Rs. 50,520 anticipated in the revised estimate. The decrease of Rs. 3,090 is due to increase under some heads and decrease under others as explained below :—

| Refund of expenditure of previous year .. .. .. .. | .. | .. |
| Total .. | 2 340 | 5,430 |
| Net decrease .. | 3,090 | |

(*a*) *Opening Balance.*—The increase is due to short expenditure.

(*b*) *Tax on Arts.*—The amount shown under this head in the revised estimate includes arrears due for the previous year; hence the decrease in the budget.

(*c*) *Tax on Buildings.*—The increase is due to the expected increase under this head after the revision of house-tax, which is now being made, is completed. It is expected that the net increase will be about Rs. 2,000 over the income of the last year, and the Council under the present state of things considers it inadvisable to raise the percentage of taxation over the present rate 7 per cent. and it is very desirable not to reach the maximum at once, but to have a margin left, for raising the taxes whenever that course might become inoperative.

(*d*) *Tax on Lands.*—The amount shown under this head in the revised estimate includes arrears due for the previous year; hence the decrease.

(*e*) *Cart-stand Fees—Evasion of Tolls.*—These are fluctuating items.

(*f*) *Rent on Buildings.*—The amount shown under this head in the revised estimate is on account of certain buildings acquired for widening the Pinnamgattu street which were let before they were demolished; hence the decrease.

(*g*) *Sale-proceeds of Old Materials.*—There will be no old materials for sale; hence the decrease.

(*h*) *Sale-proceeds of Night-soil.*—The amount under this head in the revised estimate includes arrears due for the previous year; hence the decrease.

(*i*) *Other Revenue from educational institutions—Sale-proceeds and Composition fees and other Hospital receipts—Vide* explanation in the revised estimate.

(*j*) *Income from Markets.*—The amount shown under this head in the revised estimate includes the arrears due for the previous year; hence the decrease in the budget.

(*k*) *Slaughter-house.*—The reason for decrease under this head is explained in the revised estimate. It is expected that the usual income will be realized in the ensuing year when it is hoped that the bullock slaughter-house will be used by butchers; hence the increase.

(*l*) *Distraint fees and extracts from Births and Deaths registers.*—These are fluctuating items.

(*m*) *Grants from Government for Normal Stipends Gymnastic Instructor and Drawing master.*—The items under these heads in the revised estimate include the arrears due for the previous year received during the current year from Government; hence the decrease.

(*n*) *Medical—Plague Charges.*—The increase is on account of plague charges.

8. *Budget Charges.*—Explanation of variations—

*Grant 1*, (*a*) *New Works—Communications.*—The Council does not contemplate undertaking any new works; hence the decrease.

(*b*) *Repairs—Communications.*—The increase is slight.

*Buildings.*—The decrease is due to less expenditure on repairs of buildings.

*Public Works Establishment.*—The increase is due to the salaries of the road coolies being shown under establishment according to G.O., No. 1873 M., dated 4th November 1898, and to the increment of Re. 1 a month in the salary of the maistry whose pay the Council resolved to raise from Rs. 12 to Rs. 15 by three annual increments of Re. 1 each, in consideration of its being low now inasmuch as a bricklayer earns Rs. 15 a month.

9. *Grant 2*, (*c*) *Municipal Lower Secondary School Establishment.*—The establishment of the school was sanctioned for two years originally and it was afterwards sanctioned for another two years which would be over by next April. As the Council resolved to continue the school permanently in view of its success financially as well as in its results, this allotment is repeated under this head, taking credit for the fee income under receipts. The school has been almost self-supporting and a good lower secondary school is needed for the town. The present allotment under this head includes the usual annual increment of Rs. 2 to the First Assistant and the pay of the night watcher, Rs. 5, which was hitherto shown under contingencies and is now shown under establishment under the instructions of the Auditor. Hence the increase over the revised estimate under this head.

(*d*) *Fixed Payments.*—The Council resolved on the recommendation of the Sub-Assistant Inspector of Schools to close the Innespeta night school which is badly attended, and to open in its place from January next an upper primary day school for which there is a great want felt; hence the increase. The expenditure of the upper primary school will be very nearly the same as the expenditure on the night school from which no income is derived. Under the revised estimate under this head no increase was necessary, as the pay for March will be paid in April next and the pay for January and February will be met by the allotment already made for the night school. The increase is slight and is due to the establishment of the upper primary school alluded to.

(*e*) *Salary Grants.*—Under the new rules, no salary grants will be paid to the lower secondary schools; hence the decrease.

(*f*) *Result Grants—Vide* explanation in the revised estimate.

(*g*) *Result System.*—The increase is due to a provision of Rs. 400 made for fixed grants.

(*h*) *Municipal Inspectors Establishment—Vide* explanation in the revised estimate.

(*i*) *Building, Furniture, &c., Grants.*—The increase is made to meet any applications that might be made.

(*j*) *Drawing Master—Contingencies.*—Some drawing models are required for the drawing class; hence the increase.

10. *Grant 3*, (*k*) *Registration Establishment.*—The increase is due to the usual annual increment of the assistant registrar, and to the increment of Re. 1 in the salary of the registrar whose pay the Council resolved to increase from Rs. 12 to Rs. 15 by three annual increments, as he is a hard working officer.

(*l*) *Other Charges such as Purchase of Carts, &c.*—This allotment includes Rs. 200 for road-watering and Rs. 200 for purchase of dust-bins. The decrease under the head is due to less expenditure provided for road-watering.

(*m*) *Private Scavenging Establishment.*—The increase is due to increase in the amount to be paid to sewage cart boys. The number of toties and sweepers is now 63 and 50, respectively, which is a little over that recommended by the Sanitary Commissioner. The number of sweepers cannot be reduced as so many are required.

(*n*) *Private Scavenging Contingencies.*—The increase is due to increase in the rates for sewage carts, and a provision of Rs. 300 for purchase of night-soil hand-carts.

(*o*) *Plague Charges.*—This amount is allotted in accordance with the instruction of the Collector under G.O., No. 883, dated 13th October 1898.

11. *Grant 4, Slaughter-house Establishment.*—This amount includes the increase in the pay of the sewage cart boy attached to the slaughter-house; hence the increase.

(*q*) *Durbhanari Choultry.*—One servant was not employed for some time; hence the increase in the budget.

(*r*) *Feeding Travellers, Durbhanari Choultry.*—Travellers have been fed from November last; hence the increase.

(*s*) *Travellers' Bungalow Contingencies.*—The increase is due to a light sanctioned to be placed there.

(*t*) *Garden Establishment.*—The increase is due to an increase of Re. 1 sanctioned by the Council in the salary of the museum peon, who is a very hard working and trustworthy servant of very long standing.

(*u*) *Purchase of Seeds, &c.*—*Vide* explanation in the revised estimate.

12. *Grant 5,* (*v*) *Office Establishment.*—The increase is due to provision made for privilege leave and includes the usual annual increments in the pay of the office staff.

(*w*) *Collection Establishment.*—The increase is due to shroff's pay being fixed at Rs. 15, the pay of 10 to 15 being attached to one in the office establishment as sanctioned in G.O., Mis. No. 1913 M., dated 15th November 1898, and to an increase of Re. 1 per mensem in the pay of three tax collectors drawing Rs. 8 each, sanctioned by the Council, in view of the collection of the quit-rents (hitherto made by the Revenue department) having been transferred to them which accordingly entails more work on them.

(*x*) *Purchase of Account Books, &c.*—The increase is intended to meet the cost of bound books, forms, &c., supplied by the Lawrence Asylum Press.

13. The required proposition statement is herewith submitted.

14. The necessary variations having been explained, a summary of the budget for 1899–1900, as proposed, is given below.

15. The year is expected to open with a balance of Rs. 4,740 and the usual sources of income are expected to amount to Rs. 42,690. The total charges of the year are estimated at Rs. 45,550 and the year will thus close with a balance of Rs. 1,880.

16. An extract from the proceedings of the Council, dated 26th December 1898, is herewith submitted.

2. *Revised Estimate for* 1898–99.—The allotment for Repairs—Communications has been cut down from Rs. 3,460 to Rs. 2,181, although the former figure was fixed by Government in its review of the budget. Rs. 1,500 has however been expended on New Works—Communications.

3. There is a large increase in the expenditure on private scavenging without a corresponding increase in the receipts. The expenditure should have been met by an increased scale of fees.

4. *Budget Estimate for* 1899–1900.—There is a slight increase expected under tax on buildings, but as pointed out last year this might be increased by Rs. 2,350 by levying the tax at the maximum rate.

5. The receipts from tolls are estimated at Rs. 7,215 and yet it is proposed to spend only Rs. 2,250 on Repairs—Communications and nothing on New Works—Communications. In view of the fact that the condition of the roads is not at all

satisfactory, the allotment should be raised to at least Rs. 3,600, *i.e.*, half the income from tolls. To meet this additional funds would be necessary and might be secured by raising the tax on buildings to $8\frac{1}{2}$ per cent.

6. The allotment for result grants seems unnecessarily high.

7. The receipts under private scavenging are estimated at Rs. 4,300 and the expenditure at Rs. 5,832, *i.e.*, the service is to be worked at a loss of Rs. 1,532. The fees should be raised or the expenditure reduced.

2. *Revised Estimate for* 1898–99.—The current receipts and charges are now estimated at Rs. 50,520 and 45,780, respectively, against Rs. 43,610 and 43,090 anticipated in the sanctioned budget. The net increase of Rs. 6,910 in the receipts is mainly due to increases under the heads "Taxes on arts, buildings, income from tolls, other hospital receipts and choultry funds." The increase under charges, viz., Rs. 2,690, appears chiefly under Grants 1, 3, and 4. The increase under charges under Grant 3 is due to the extra allotment made on account of plague charges and to the increased expenditure on account of sewage, night-soil and rubbish-carts. The increase of charges under private scavenging is, as remarked by the Sub-Collector, excessive and should have been met by a corresponding increase in the scale of fees. There is also a heavy decrease of Rs. 505 in the receipts under "Income from slaughter-houses", while there is an increase of Rs. 42 in the expenditure under the same head. The former is explained to be due to the butchers not using the newly constructed slaughter-house. If so, there is no reason why a sewage cart should have been employed therefor—*vide* Chairman's remark against Grant 4 (*m*).

3. The collections under "Taxes on buildings and lands" during the first eight months of the year cannot be considered satisfactory, being only 65 and 42 per cent., respectively, of the estimated receipts. The collection of receipts under Arts, tolls and markets" are however fair.

4. The original allotment under "Repairs—Communications" sanctioned by Government has been considerably reduced by the Council in the revised estimate and the reduction is said to have been made as provision has had to be made under "Plague". The amount allotted under the latter head is only Rs. 800, while that deducted from "Repairs—Communications" is Rs. 1,279. The condition of the roads in the Municipality is not satisfactory. Provision should have been made for "Plague" by suitable reductions under Grants 3 and 4.

5. *Budget Estimate for* 1899–1900—*Receipts.*—The probable receipts for next year are estimated at Rs. 47,430 against Rs. 50,520 as per the revised estimate for this year, the decrease occurring chiefly under "Taxes on arts, lands and markets, other receipts from educational institutions and other hospital receipts." It is hoped that the revision of the house and land tax registers of the Municipality which the Council seems to have taken on hand will be steadily pushed on with, as the undersigned has no doubt there is much to be done in this way. The reasons given by the Council for not raising the percentage do not seem to be at all convincing. In view of the increase of wealth, trade and population in Rajahmundry and the consequent increase in the rent value of houses since the assessments were last fixed on the one hand, and the probable demand for more funds on account of the plague and the condition of roads which are being neglected year after year on the other, I think it is time that the Council should see its way to raise the percentage of taxation (and Government ought to insist on the council doing it) to $7\frac{1}{2}$ per cent. at least.

6. *Charges.*—These are put down at Rs. 45,550 against Rs. 45,780 in the revised estimate. There is a heavy decrease under Grant I, counterbalanced by large increase under Grants 3 and 5. The decrease under Grant 1 is mainly due to the Council not

contemplating the construction of any new buildings or roads next year. The allotment under "Repairs—Communications" is very inadequate and I strongly support the Sub-Collector's recommendation to raise it to Rs. 3,600.

(Signed) V. A. BRODIE.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 10th January 1899, No. 329.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Rajahmundry Municipality for 1899–1900.

2. Under receipts, credit has been taken for a salary grant of Rs. 90 on behalf of the gymnastic instructor and the drawing master and of Rs. 100 on behalf of municipal schools. This should be Rs. 90 for the gymnastic instructor and Rs. 100 for the drawing master.

3. An allotment of Rs. 1,000 has been made for fixed and result grants against Rs. 700 for salary grants and Rs. 600 for result grants in the current year's budget. The lower secondary school, which is now aided on the salary grant system, being no longer eligible for salary grants under the Grant-in-aid Code for 1899–1900, the whole of the allotment in the current year's budget for salary grants should be transferred to the head "Fixed and result grants" to permit of the lower secondary school being aided on the fixed or the result grants system as the case may be. I beg, therefore, strongly to recommend that the allotment proposed for fixed and result grants be raised to Rs. 1,300. The heading "Result grants" should be altered into "Fixed and result grants".

4. The Council proposes to continue to maintain permanently the lower secondary school. In my letter, No. 326, dated 14th January 1897, remarking on the budget estimate of the Municipality for 1897–98, I recommended to Government the continuance of the school under the management of the Municipality till April 1899 and observed that the question of making it a part of the practising section of the training college might be considered after the new building for the training college has been completed. The building is fast approaching completion and the Principal, Rajahmundry College, has been asked to submit a special report on the subject. Pending the decision that may be arrived at on the point, the allotment proposed may be retained.

5. With the modification suggested in paragraph 3, the net expenditure under Grant 2 will be Rs. 3,060 (Rs. 6,480 — Rs. 3,420), which is about 11 per cent. of the estimated income of the Municipality from taxation and markets.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated 20th January 1899, No. 72.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Rajahmundry Municipality for the year 1899–1900 is sufficient and calls for no further remarks.

---

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 7th February 1899, No. 1495.

In returning the papers referred to me for remarks with endorsement No. 82 L. and M., dated 30th ultimo, and in continuation of paragraph 4 of this office letter, No. 329, dated 10th January 1899, I have the honour to submit copy of a letter from the Principal, Rajahmundry College, No. 772, dated 25th January 1899, and to recommend that, as suggested by Mr. Stone, the Municipal Council, Rajahmundry, be permitted to continue the lower secondary school for two years more, at the expiration

of which period the question may be taken up again. The suggestions of the Principal to close the upper primary school in Innespetta square and to arrange for some of the upper and lower secondary grade students working in the lower secondary school are also supported. He says that the Chairman of the Municipal Council has no objection to such a course.

From Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., I.M.S., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal department, dated Madras, 27th February 1899, No. 637-S.

With reference to the Rajahmundry Municipal budget for 1899–1900, I have the honour to remark that the provision therein made for vaccination being the same as that for the current year calls for no comment. The increased provision for registration of births and deaths is desirable. The allotment for conservancy is Rs. 16,715, or 39·1 per cent. of the estimated receipts. I consider very much better results could be obtained for the money spent, were the Council to adopt the advice frequently offered to abolish the filthy practice of collecting night-soil in baskets in favour of night-soil carts.

2. No extracts from statements II-A and II-B have accompanied the budget and, in consequence, I am unable to offer any remarks on the sanitary works, if any, proposed for execution under Grant I, and on the sufficiency or otherwise of the conservancy supervising staff under Grant III. My last inspection showed that in all sanitary details very much more supervision is requisite, and that consequently the appointment of certificated Sanitary Inspector in accordance with the scale advised by Government in G.O., No. 4 M., dated 4th January 1897, should be adopted.

## Revised Estimate for 1898-99

2. The current receipts and charges are now estimated at Rs 46,670 and Rs 45,780 respectively against Rs 41,150 and Rs 43090 anticipated in the sanctioned budget. An increase in the receipts occurs chiefly under the taxes on arts. buildings and lands, Tolls, Sale-proceeds of old material, other revenue from Educational institutions, other hospital receipts, Contributions from local boards and Miscellaneous other items, but it is partly counterbalanced by a decrease under fees from travellers' bungalows and slaughter-houses; while ~~the increase under the~~ the increase in Charges which appears under grants 1, 3, 4 and advances recoverable is partly met by a decrease under grant 5. The collections under the tax on lands during the first eight months of the year were not satisfactory. The attention of the Municipal Council is drawn to the remarks of the Asst. Collector and the Collector in paras 3 and 2 respectively of their endorsements regarding the work of the private scavenging establishments with reference to Go. No 7 Fin. dated 3rd January 1899. Communicated with Go. No 145 P dated 30th January 1899, the contribution of Rs 250 expected from the District Board for plague charges will be struck out. The

attention of the Municipal Council is drawn to the remarks of the Collector in para 11 of his endorsement with reference to f.o. no 130 Fin. dated 21st January 1899, Communicated with f.o. no 273 L dated 17th February 1899, the provision made for plague charges will be raised from Rs 900 to Rs 2210. The balance to be carried forward to the ensuing year's budget will then be Rs 3090

Budget Estimate for 1899-1900

3. Receipts - The receipts for the ensuing year are put down at Rs 42,690 against Rs 46,420 in the revised estimate - There is a decrease under the taxation arts and lands, sale-proceeds of old materials, other revenue from educational institutions and other hospital receipts, but it is partly counterbalanced by an increase under the tax on buildings, slaughter-house fees and contributions from local boards. In order to avoid the large deficit which will otherwise occur, the Govt considers that the only course open to the Council is to increase the rate of the house-Tax to the maximum. Under Sec 49 of the Dist Municipalities Act, as amended, the Council is requested to state its objections, if any, to this proposal within one month from the date of receipt of this order. In the meantime credit will

The attention of the Municipal Council is drawn to para 2 of the Director's letter and to para 5 of the 2nd Collector's Endorsement read above with reference to para 2 of f.o. no 7 Fin. dated 3rd January 1899, Communicated with f.o. no 14 dated 30th January 1899, the Contribution of Rs 250 expected from the District Board for plague charges will be struck out, but to enable the Municipal Council to provide sufficient funds for this purpose, credit will be taken for a loan of Rs 6000 from Imperial funds.

Para 6 (2).

4. Charges (1) - The probable charges are entered as Rs 45,550 against the revised estimate of Rs 47,190. There is a decrease under grants 1 and 2 and advances recoverable, but it is partly counterbalanced by an increase under the other grants.

(2) Grant 1. As recommended by the Sub-Collector and the Collector in paras 5 and 6 respectively of their endorsements, the allotment for the Maintenance of roads will be raised from Rs 2250 to Rs 3600. The proposal of the Municipal Council to raise the salary of the Public Works Maistry from Rs 12 to Rs 15 by three annual increments of Re 1 each, referred to in para 8 of the Chairman's letter, is sanctioned.

(3) Grant 2. The Director of Public Instruction is requested to communicate to Government his decision regarding

maintenance of the lower secondary school by the Municipal Council. meanwhile the provision made for this purpose will be allowed to stand. The Municipal Council's proposals to close the Durnipeta night school and to open in its place an upper primary day school and the entertainment of the necessary Establishment, to which reference should have been made in the Chairman's letter, are approved. As recommended by the Director in para 3 of his first letter, the allotment for fixed and result grants will be raised by Rs 300

(4) Grant 3. The increases in the salaries of the Registrar of births and deaths and the private scavenging sewage cart boys, referred to in para 10 of the Chairman's letter, are approved. The filthy practice of collecting night-soil in baskets, referred to in para 1 of the Sanitary Commissioner's letter read above, should be discontinued and the suggestion in the concluding portion of para 2 should be considered. The omission noticed by the Sanitary Commr in this paragraph should be guarded against in future - with reference to

(6) council will be permitted to continue the lower secondary school for two years more, at the expiration of which period the question should be taken up again. The Council's attention is drawn to the latter part of this letter.

(5) Grants 4 and 5. The increases in the salaries of the sewage cart boy attached to the slaughter-house & of the Municipal Peon and the three bill collectors on Rs 8 each proposed in paras 11 and 12 of the Chairman's letter, are sanctioned - with reference to Fr. No 2250 L dated 25th November 1898, the contribution for the central office Establishments will be raised from Rs 370 to Rs 397 or Rs 390 in round figures

5. As revised by Government, the budget closes with a balance of Rs 1540 or only 3·4 per cent of the ordinary receipts - This should be increased by effecting savings wherever possible during the course of the year

6. If the loan of Rs 6000 from Imperial funds, for which credit has been taken in para 3 supra, is not sanctioned by the Government of India, the budget will have to be recast.

Sir,

With reference to the remarks of Government in para 4 (2) of its review of the Administration report of this Municipality for 1897-98, regarding the communication mentioned in the concluding portion of para 19 of my letter submitted therewith, as to the permanent continuance of the

both of the Lower Secondary Standards: and this School had continued till the opening of the Training Section of the Rajahmundry College.

4 After the organization of the Rajahmundry High School, the School committee purchased a site in Innespeta about 2 acres in extent, with a view to build a house, for the accommodation of the High School with its Lower Secondary branch, in Innespeta, the town branch having already been provided with a pucka building; but the object of the School Committee could not be accomplished for want of funds. Then Mr. Mitchell moved the Committee to hand over the School to Government in view of its being provided with a suitable building, which would tend to place the

the Upper Secondary education thereon a firm and satisfactory basis, and requested Government, through the Director of Public Instruction, to take over the High School together with its branches. The Government complied with the request and sanctioned the establishment of the Training Section of the Rajahmundry College; accordingly the Training Section was opened in February 1894, with the High School and its branches, which the Committee had made over, (with all their belongings) to Government, as the Practising Department, in Innespeta.

5 In view of the intention of Government to open this section in Innespeta and seeing that it was not contemplated to have a Lower Secondary School in the old town, the Council proposed in the year to open a Lower Secondary School in the old town

where

whether it was considered absolutely necessary
in the interests of young boys of tender age,
attending the School, who could not be
expected to go a long distance to the
School in Lunuglela. But the Government
withheld its sanction to the opening of
the School on the recommendation of
Mr Munro, the then acting Director of Public
Instruction, who was under a mis-
apprehension that it would form a
rival to the Lower Secondary classes
of the Practising Department of the
Training section of the Rajakiriyagama College.
Fortunately Mr Munro happened to visit
this place shortly after he had made
the recommendation to Government, and in
the presence of Mr Nuleatpore explained
to him all the facts and impressed
upon him with the necessity of having a

P 334.ht
2-2-98

a Lower Secondary School in the old town
In the succeeding year Government sanctioned
it temporarily for two years as recommended
by the Educational authorities. That it
is a misapprehension on the part of Educational
Authorities, that the Municipal Lower
Secondary School would form a rival
to Lower Secondary Department of the
Training Section of the Rajakiriyagama College,
can be clearly seen from the fact that
the Lower Secondary classes of the latter
have continued strong enough all these
four years, in spite of the existence of
the Municipal Lower Secondary School
The Training Section was located in
a rented building towards the southern
part of Lunuglela, and the new building
for it was proposed to be constructed
on the site handed over to it by

by the late Rajahmundry High School
committee, which site is a little nearer
the old town than the one the rented building
in which the School was temporarily
located by Government. And the
Educational Authorities were of opinion,
as I understand, that after the construction
of the new building, it might not be
necessary to have a Municipal
Lower Second ary School in the old town,
and therefore recommended that the
School should be sanctioned
temporarily for a period of two years.
After that period was over,
Government sanctioned the continuance
of the School for another period
of 2 years on the recommendation
of the Educational Authorities.

7

The Training College building after its
completion, cannot hold the Training
College classes, the practising High School,
department and the Lower Secondary & the
primary classes (now) held in a rented building
in Dummapeta, and also the Lower classes
of the Municipal Lower Secondary School.
It has, I learn, 13 rooms available for
classes, and assigning one room to each
class, the building is quite inadequate
to accommodate the 14 classes of the
Training Section and the 8 of the Municipal
Lower Second ary School, not to speak
of more divisions into which some of these
classes will have to be split. It is
besides inadvisable to instruct on young
boys in the old town coming to School
dis. tance, which would be appre-
-ciably diminished by the location
of

of the School in the new building under construction for the Training Section. There is also nothing to be gained by the abolition of the Municipal Boarer Secondary School, as the practising branches of the Training Section are already large enough. The Municipal Boarer Secondary School has, ever since it was opened, been doing very well in every way, as the remarks of the Inspectors and the Assistant Inspector of Schools show, and it has been almost self-supporting.

8 From the foregoing short history of the Schools here, Government will see pleased to observe that except for one year, as pointed out above, there has been a Boarer Secondary School in the old town in the present building for a very long time and this itself, apart from the success of the School, noticed by the Divisional Officer in para 3 of his remarks on the Administration Report of this Municipality for 1897-98, is sufficient to show that a Keen want has always been felt for such a school in the old town.

9 In these circumstances, the Council has resolved to continue the School permanently and made provision in the Budget for next year, for its continuance as explained therein; and it therefore prays that Government be pleased to sanction its permanent continuance.

I have the honour to be,
Sir
Your most obedient Servant

Sir,

With reference to your official memorandum No 485, dated the 16th instant, I have the honour to submit the following remarks.

1. The Lower Secondary and Primary Departments of the Practising school contained 117 and 128 pupils respectively on the 31st March 1898 and there is no reason for thinking that their strength will be materially different this term. These numbers are certainly insufficient for a Practising school, since each normal student of the Primary and Lower Secondary Departments gets only one and a half hours' teaching a week, ~~whilst~~ while it is desirable that he should have twice as much. The absorption of the Municipal Lower Secondary school would raise the strength of the Lower Secondary Department to 266 and of the Primary Department to 235. Accommodation is provided in the new building for 274 Lower Secondary and 340 Primary pupils, allowing the minimum accommodation of six and eight square feet respectively per pupil.

It would, therefore, seem probable that in a few years the Lower Secondary Department will outgrow the accommodation designed for it. In this case, of course, there would probably be room in the building for the overflow, with the result, however, that the arrangement of each department in a well-marked division of the building would be spoilt and the school to that extent fall short of being a model institution.

The Municipal Lower Secondary school is only 560 yards, as the crow flies, from the new Training College buildings so that the areas from which the two institutions draw their pupils will overlap. By moving into the new buildings, however, we shall be going a quarter of a mile nearer to the Municipal Lower Secondary school and therefore might expect to

attract pupils from it rather than lose any to it. At the same time we shall be in danger of losing pupils to a Municipal Upper Primary school which has lately been started in Innespett and which after the removal of the Training College will be more conveniently situated than it for some pupils. There are also two private schools containing recognized Primary Departments of 100 and 82 pupils respectively, called the Innespett Upper Primary school, within a quarter of a mile of the new buildings. The Practising school if efficient should attract pupils from these schools, but the policy of the Municipality in granting aid to them, especially as they maintain unrecognized lower secondary classes, seems hardly consistent with its desire to have a permanent Lower Secondary school of its own.

I think, therefore, that on the one hand the absorption of the Municipal Lower Secondary school would be an advantage to our Practising department subject to the objection noted above, and on the other that its rivalry, if it is allowed to maintain an independent existence, will not be serious. Further, I cannot but sympathize with the feeling of the Municipality that it is not desirable that there should be only one public lower secondary school and that attached to a Training College in the town.

In conclusion, I have the honour to make three suggestions.

(1) That the final settlement of the question be deferred for another year or two when experience will have shown the effect on the attendance of the removal to the new buildings.

(2) That this year I arrange with the authorities for some of the upper and lower secondary students going to teach in the Municipal Lower Secondary school.

The Chairman of the Municipality sees no objection to this being done. The Municipal Lower Secondary school is nearer to the new buildings than they are to the College so that teachers could go to it as easily as those of the higher grades go from the College to the Training section. One of the masters of the Training College could be detailed to supervise the teaching done in the Municipal school.

(3) That the Municipality should close its newly opened upper primary school in Innespetta square. This school is as I have remarked, above very likely to attract pupils who would raise the strength of our Practising school.

Note

With reference to G.O. No 130 Fin dated 21st January 1899 and
x
y G.O. No 1259 Fin dated 27th December 1898 the L. and M. Department has provided in the budget of the Rajahmundry Municipality Rs 221 and Rs 6760 for the current and ensuing years respectively on account of plague. In G.O. No 285 Fin dated 22nd February 1899 the amount for the current year for the Godavari district has been reduced from Rs 7600 to Rs 7310, & the allotment for the Rajahmundry Municipality will need slightly to be reduced.

It is proposed to meet the expenditure for next year by taking credit for a loan of Rs 6000 from Imperial funds. It would be safer to add a sentence to the draft order stating that if the loan is not sanctioned the budget will have to be revised

In the late notice of India. Para Three

and half results grants will be paid to the teachers as suggested. The night school in Jamjeepeta will be closed from January next. It is not necessary now to reduce the grant to the Panchama school or the Jamjeepeta night school. 50 Rs will be provided for road watering.

Budget

Grant I The tax collectors drawing 8 Rs will be given an increase of 1 Re each per month in view of the gunt rents to be collected, the collection of which is made over to the municipality, this year by the Collector.

Grant IV The Museum peon will be given an increase of 1 Re per month as he is a trustworthy and hardworking servant of very long standing.

Grant III The allotment under other charges re 5- a ii will be put down at 2700 so as to provide 200 Rs for road- watering and 200 for dust bins.

5_b-ii The allotment will be raised to 3300 Rs so as to provide 300 Rs for purchasing night soil hand carts.

The Registrar's pay will be raised to 15 Rs by annual increments of 1 Re from next year.

There are now 63 latrines and 50 Sweepers and this number is a little over that recommended by the Sanitary Commissioner and the number of the Sweepers cannot be reduced, as so many are required.

Grant II Under Results grants 1000 Rs will be provided 400 Rs of which will go in payment of fixed grants and the rest for other grants. A totty school will not be established there being already a Panchama school, and no funds are available for it.

Grant I

d-1- Repairs to workshop.

15 Rs will be provided.

b- Repairs to Buildings 800 Rs will be provided as follows:-

| | |
|---|---|
| Hospital | 200 Rs |
| Markets | 200 Rs |
| Museum | 100 Rs |
| Latrines | 150 Rs |
| Slaughterhouse | 50 Rs |
| School buildings | 50 Rs |
| Choultry | 50 Rs |
| | 800 Rs |

Repairs to communications — 2200 Rs will be provided as follows:—

For repairs of the Main road, consisting of the Ramaseejupeta road, bazar road, Sqaualamba road, Jail road and the Kambala Tank road Rs. 500.

Repairs of roads in the 1st ward — 150 Rs
Do II ward 150 Rs
Do III ward 400 Rs
Do IV ward 150 Rs
Do V ward 400 Rs
Do VI ward 500 Rs
2250 Rs

The maistry's pay will be raised to 15 Rs by annual increments of 1 R from next year, seeing that his present pay is less than what an ordinary workman gets to nearly 8 as a day.

As there will be an increase of 2000 Rs in house tax, income as anticipated, by the revision now being made, the Council Considers it inadvisable under the present State of things to raise the percentage of taxation over the present rate 7 per cent.

with these alterations and modifications the Revised Estimate and Budget are passed.
