FROM

ag COLLECTOR AND DISTRICT MAGISTRATE,

North Arcot,

To

THE Sanitary Commissioner

Madras

SIR,

With reference to your telegram of the 13th Instant requesting me to furnish the percentage of persons not traced on available total number of passports and in continuation of my telegrams of the 13th and 16th Instant, I have the honour to append below a statement showing the passports received and registered in the several taluqs and municipalities in this district the number of persons referred to in them the number of persons not traced and the percentage of persons not traced to the total number of persons included in the passports:—

2. It will be seen from this that the percentages are large in Palmaner, Kalahasti and Tirupati Municipality. I have called on the officers concerned to furnish details as to the places of destination of the untraced and the places where the passports were issued and also to account for the high percentage in the case of Palmaner taluk. In the case of persons untraced the high percentage is probably due to the fact that large number of persons from villages just within the Mysore frontier attend markets just within the frontier of this district and return the same day. A few hours in the district they are not traced. But I am taking steps to have such persons observed at the markets. The high percentage in Puttur is due to the fact that the number of persons shown as untraced includes also 8 persons about whom no reports have been received yet from the local authorities.

3. In my telegram of the 13th instant I reported to you that about 15 per cent of the people have not been traced, but you will find from the above

Taluks, divisions, or Municipalities	Passports received	Total no of persons referred to in the passport	Total no of passport holders not traced	Percentage of persons not traced to total no of passport holders.
