MARCH.

Municipal Budget.

Reviewing the Kurnool — for 1899–1900.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. T. CHIDAMBARA RAO Garu, B.A., Chairman, Municipal Council, Kurnool, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional Officer in charge of Ramallakot taluk), dated 21st December 1898, No. 244.

I have the honour to submit herewith the revised estimate of the Kurnool Municipality for 1898–99 and the budget estimate for 1899–1900.

REVISED ESTIMATE FOR 1898–99.

2. The total receipts during the year, including an opening balance of Rupees 4,472–8–9, amount to Rs. 56,421–8–9 as against Rs. 50,560 of the budget and the charges to Rs. 58,810 as against Rs. 44,010. The increase in the receipts is due mainly to the recoveries made from private individuals for house-service work done in connection with the water-works and to the increase in the rate of house-tax, which was raised during the year from $7\frac{1}{2}$ to 8 per cent. The increase in charges is due mainly to the charges incurred on account of the plague and to an increased expenditure under the "Water-works—Contingencies" and the "House-service system."

Receipts.

3. The increase of Rs. 200 under tax on arts is due to an increase in the number of persons assessed under this head during the year; that of Rs. 500 under tax on buildings is due mainly to the increase in the rate of house-tax by half per cent.; that of Rs. 300 under water-tax is on account of the collection during the year of arrears of the previous year; that of Rs. 50 under fees under Act II of 1888 is due to fees having been levied during the year for temporary pandals erected by private individuals as sanctioned in G.O., Mis. No. 759 M., dated 15th April 1898; that of Rs. 150 under license fees is due to a revision of the rates of license fees as sanctioned by Government in G.O., Mis. No. 715 M., dated 4th April 1898; that of Rs. 40 under cartstand fees is due to brisk competition at the sales; that of about Rs. 180 under "Contribution for municipal high school" is due mainly to the collection of arrears due for the past year; that of Rs. 500 under private scavenging fees is due to an increase in the number of houses served by municipal toties; that of Rs. 4,400 under "Miscellaneous other purposes" is due to recoveries made from private individuals for house-service in connection with the water-works. The sum of Rs. 45 under "Miscellaneous other items" is the amount of famine batta recovered from municipal subordinates as directed by Government in G.O., Mis. No. 1181 M., dated 4th July 1898. The sum of Rs. 740 shown under "Advances recovered" represents the advances which had been made during the previous year and recovered during the current year mainly in connection with the new market. The increases under other heads being slight call for no remarks.

4. The decrease of Rs. 70 under fees from travellers' bungalow is due to a fall in the number of gentlemen occupying the bungalow; that of Rs. 40 under produce of gardens is due to the stoppage of the old water-supply system, in consequence of which several trees in the people's park withered away; that of Rs. 80 under cartstand manure fees is due to slack competition at the sales; that of Rs. 240 under "Municipal high school fees" and that of Rs. 100 under "Fees from municipal upper primary school" are attributable to the raising of the standard of the American Baptist Mission school to the lower secondary grade and to the low rate of fees levied in that school; and that of Rs. 70 under "Stipends to normal students" is due to no students having been sent for training during the year.

Charges.

5. *Grant 1.*—The increase of Rs. 975 under "New Works—Buildings" is due to the additional allotment sanctioned for the completion of the market (*vide* G.O., Mis. No. 759 M., dated 15th April 1898); that of Rs. 10 under water-supply is due to payment made during the year for the supply of pipes for the water-works extension as advised by the Sanitary Engineer in his letter, No. 104, dated 20th October 1897; that of Rs. 1,800 under "Water-supply—Contingencies" is due mainly to additional cost of fuel for working the engine day and night to meet the increased demand for water-supply and to payments made to the engine staff for extra night work done according to the rules laid down by the Sanitary Engineer's department. The decrease of Rs. 20 under the public works establishment charges is due to the acting arrangements made in the establishment during the time that the Public Works Inspector was placed on other duty. The decrease of Rs. 505 under "Contribution to Provincial funds for the water-supply" is due to the collection of a smaller amount by the Executive Engineer's department than was anticipated in the budget. The other increases and decreases under this grant do not call for any remarks being very slight.

6. *Grant 2.*—The decrease of Rs. 120 under "Stipends to normal students" is due to no students having been sent for training during the year; that of Rs. 36 under "High school establishment charges" is due to acting arrangements made owing to the third assistant master having resigned; that of Rs. 20 under "Municipal inspecting establishment" is due to the supervisor of schools having gone on leave for a short time on loss of pay.

7. *Grant 3.*—The increase of Rs. 600 under "Diet of patients" and of Rs. 296 under "Sundries and contingencies" in connection with the hospital is due to an increase in the number of patients; that of Rs. 21 under "Vaccination establishment" is due to the pay of the vaccination establishment due for the past year having been paid during the current year owing to the late submission of the bill therefor; that of Rs. 506 and Rs. 78 under "Private scavenging establishment" and "Contingencies" is due to an increase in the number of toties, to the entertainment of a maistry and bill-collector as sanctioned in G.O., Mis. No. 2063 M., dated 5th December 1898, and to increased contingent charges owing to an addition in the number of houses served by municipal toties; and of Rs. 5,600 under "Epidemic charges" is due to the increased expenditure on account of the plague as sanctioned in G.O., No. 883, Financial, dated 13th October 1898.

The decrease of Rs. 180 under "Hospital establishment charges" is due to the payment of the first-class hospital assistant at only Rs. 67 a month instead of Rs. 72 as given in the budget, to only one compounder having been entertained during the year instead of two, and to the entertainment of two male toties on Rs. 8 and one female toty on Rs. 6 instead of three males on Rs. 8 each; that of Rs. 218 under "Vaccination contingencies" is due to the substitution of "lanoline lymph" for "animal lymph"; that of Rs. 130 under "Cesspool establishment and contingencies" is due to the employment of only two toties instead of four in consequence of the small number of cesspools to be cleaned.

8. *Grant 4.*—The increase of Rs. 50 under "Lighting—Contingencies" is due to the purchase of several chimneys in place of those broken or stolen and to the increased quantity of oil purchased. The increase of about Rs. 128 under "Slaughter-houses—Establishment and contingencies" is due to the entertainment of a bill-collector for collecting the fees sanctioned in G.O., Mis. No. 897 M., dated 10th May 1898, and to increased expenditure on account of printing forms, &c. The additional charges to the extent of Rs. 4,700 under "Work done for private individuals" are those incurred in connection with the water-works house-service system. The increase of Rs. 100 under "Printing charges" is due to the increased number of forms and books, &c., printed.

9. *Grant 5.*—The increase of Rs. 35 under "General establishment—Inspection" is due to the payment of carriage allowance to the Chairman for the month of April and for a portion of May owing to the new Secretary not having joined duty until about the middle of May 1898. The increase of Rs. 755 under "Tolls—establishment" charges was sanctioned in G.O., Mis. No. 674 M., dated 30th March 1898; and of Rs. 245 under "Tolls—Contingencies" is due to charges incurred owing to the toll farm having been worked under the direct management of the Municipal Council.

The decrease of Rs. 245 under "Office establishment charges" is mainly due to the Secretary not having joined duty until the middle of May and to the acting arrangements made in the office before the permanent head clerk on Rs. 45 entered on his duties.

10. *Repayment of Debt and Interest.*—The increase of about Rs. 160 under this head is due to the additional sum having been collected by the Accountant-General's department.

11. *Advances Recoverable.*—The sum of Rs. 185 represents the advances for works during the year.

12. *Refund of other than current Collections.*—A sum of Rs. 30 was refunded to parties in connection with the water-works house-service system for excess collections made from them.

13. It will thus be seen that the year closes with a deficit balance of Rupees 2,388-7-3. As there should be a saving to the extent of Rs. 6,037-14-3 under the water-tax fund, the year practically closes with a total deficit of Rs. 8,426-5-6, due mainly to additional charges incurred on plague preventive measures. The balance to be carried forward to the ensuing year's budget will thus be a deficit balance of Rs. 2,388-7-3.

Budget Estimate for 1899-1900.

Receipts.

14. The receipts for the year 1899-1900 are estimated to amount to Rupees 47,031-8-9 including the deficit opening balance of Rs. 2,388-7-3, as detailed hereunder:—

	Rs.	A.	P.
Opening balance	— 2,388	7	3
Tax on arts	3,500	0	0
„ on buildings and lands	10,150	0	0
Water-tax	4,650	0	0
Tax on vehicles and animals	1,750	0	0
Carts	1,400	0	0
Tolls	8,050	0	0
Fees under Act II of 1888	50	0	0
License fees	700	0	0
Contributions from Provincial funds for municipal schools	3,020	0	0
Local Boards	2,000	0	0
School-fees	3,350	0	0
Fines and fees	710	0	0
Proceeds of sale of night-soil, &c.	1,750	0	0
Income from markets, slaughter-houses and cartstands	5,590	0	0
Hospital endowment	220	0	0
Miscellaneous	2,530	0	0
Total	47,031	8	9

15. In estimating the receipts for the year the figures of the budget estimate or of the revised estimate for the current year have been adopted with variations only in the cases noted below:—

(*a*) *Tax on Arts.*—An increase of Rs. 200 is expected by a careful assessment under this head.

(*b*) *Tax on Buildings and Water-tax.*—An additional income of Rs. 500 over that of the revised estimate is expected under "Tax on buildings" by a revision of the house-tax registers, which is in progress. For the same reason an increase of Rs. 150 is estimated under the "Water-tax."

(*c*) *Fees from Municipal High School.*—In this case the actuals for 1897-98 have been taken as the guide.

(*d*) *Income from Markets.*—An additional income of Rs. 700 is estimated under this head. The experience of the current year, during which the new market was opened, justifies the expectation of this additional income.

(*e*) *Income from Slaughter-houses.*—During the current year although there was an increase in the rate of fees for slaughtering animals, there was no corresponding addition to the income under this head owing to a combination amongst the butchers. It is expected that with the increase in the rates of fees, there will be an additional income of Rs. 200 under the slaughter-house fees in the ensuing year.

(*f*) *Provincial Contribution for Municipal High School.*—The increase under this head over the budget estimate for 1898-99 is due to the increments allowed to the headmaster and the first assistant.

(*g*) *Private Scavenging Fees.*—As strenuous efforts are being made to improve this system an additional income of Rs. 500 over the revised estimate is expected.

(*h*) *Recoveries on account of Cess-pool Cleaning Service and Water-works House-services connection.*—The necessary endeavours will be made to improve the system of cess-pool cleaning along with the private scavenging system. An income of Rs. 300 is therefore estimated under this head. A sum of Rs. 200 is put down as the probable receipts under the water-works house-service system.

Charges.

16. As in the case of the receipts, the figures of the budget estimate or of the revised estimate for 1898-99 have mostly been adopted in calculating the charges, variations therefrom being explained below under each grant.

17. *Grant 1,* (1) *New Works—Communications.*—No provision is made under this head for want of funds.

(2) *Repairs—Communications.*—A sum of Rs. 2,000 is provided for this purpose as in the current year. It will be seen that this allotment of only Rs. 2,000 on account of communications is only 25 per cent. instead of 50 per cent. of the receipts under "Tolls." A larger sum could not be provided in view of the present financial difficulties of the Municipality.

(3) *Repairs—Buildings.*—A sum of Rs. 500 is provided for the necessary repairs to Municipal buildings. The additional allotment of Rs. 250 under this head over that of the revised and budget estimates of the current year is due to the fact that several public latrines are in urgent need of repairs, as are also the slaughter-houses.

(4) (*a*) *Water-supply Establishment.*—The increased provision of Rs. 110 under this head is due to the increment of Rs. 10 allowed to the water-works engine driver as recommended by the Sanitary Engineer to Government as will be seen from the copies of his letters, which are herewith submitted. Sanction for this increase is respectfully solicited.

(4) (*b*) *Water-supply—Contingencies.*—The amount provided for this purpose in the budget for 1898-99 was Rs. 3,690, but the actual charges as estimated in the revised estimate amount to Rs. 5,490. This is mainly due to the increased expenditure of fuel and its high value. Arrangements are now being made to introduce coal in the place of fuel as suggested by the officers of the Sanitary Engineer's department. It is therefore expected that there will be a considerable saving effected thereby. A sum of Rs. 4,000 is therefore now provided for the purpose.

(5) *Public Works Establishment.*—The decrease of Rs. 110 under this head below the budget estimate for the current year is due to a reduction of Rs. 10 in the pay of the Public Works Inspector. The Sanitary Inspector of the Municipality, who has very responsible duties to perform and who has, for an efficient discharge of his duties, to maintain a horse, is at present paid only Rs. 35 without any horse allowance. The Sanitary Commissioner has often recommended that this officer should be paid horse allowance at the rate of Rs. 15 a month in addition to his pay of Rs. 35. Experience has also shown that, without this allowance, it is very difficult to secure competent men for this important office with the present pay. It is therefore necessary to give the Sanitary Inspector an allowance of at least Rs. 10 to enable him to maintain a horse.

As the duties of the Public Works Inspector do not involve much responsibility, it will be possible to secure the services of one with the requisite qualifications for a pay of Rs. 15. It is therefore proposed to reduce the pay of the Public Works Inspector from Rs. 25 to Rs. 15 and to utilize the surplus as horse allowance to be paid to the Sanitary Inspector. It is respectfully solicited that Government will be pleased to accord sanction to this arrangement.

(6) *Contribution to Provincial Funds for Water-supply.*—An additional sum of Rs. 35 over that of the revised estimate is provided in view of a probable increase in the demand for water-supply.

18. *Grant 2*, (1) *Stipends to Normal Students.*—The usual provision of Rs. 120 is repeated as suggested by the officers of the Educational Department.

(2) *Municipal High School Establishment.*—The increased provision under this head is due to the increments allowed to the headmaster and the first assistant under G.O., Mis. No. 262 M., dated 20th March 1898. No provision has been made under this head for want of funds for the entertainment of a drawing master in the Municipal high school, although the Director has threatened to withdraw the recognition of the school. The Council will take the earliest opportunity to give effect to the Director's suggestion as soon as funds permit.

(3) *Fixed and Result Grants.*—A lump sum of Rs. 1,150 is provided for the payment of fixed grants and of result grants as directed in G.O., No. 2088 L., dated 31st October 1898.

19. *Grant 3*, (1) *Hospital Establishment.*—The decrease under this head below the budget estimate of 1898–99 is due to the provision made for the first-class hospital assistant at the rate of Rs. 67 a month instead of Rs. 72 and to that made for two male toties on Rs. 8 each, one female toty on Rs. 6, instead of three male toties on Rs. 8 each.

(2) *Conservancy Establishment.*—The increased expenditure under this head is mainly due to the provision made for paying the Sanitary Inspector a horse allowance at the rate of Rs. 10 a month from the savings effected by a reduction in the pay of the Public Works Inspector as explained in paragraph 17 (5) under Grant 1. The increase is also due to the increase allowed at the rate of one rupee each to three of the conservancy peons in consideration of their long service. Sanction is therefore requested for this increase.

(3) *Private Scavenging Establishment and Contingencies.*—The additional expenditure is in consequence of the increase in the number of houses under the private scavenging system.

(4) *Epidemic Charges.*—It is to be regretted that the present state of the Municipal finances does not allow of any adequate provision being made for expenditure on plague preventive measures as directed by Government in G.O., Mis. No. 1911 M., dated 14th November 1898. The Government is aware that the limited resources of this Municipality are altogether insufficient to meet any extraordinary special charges. The current year's charges on account of the plague come up to Rs. 6,600, an amount which is much beyond the means of this poor Municipality. These additional charges have, as already submitted in paragraph 13 *supra*, resulted in a large deficit. It is therefore hardly necessary for me to submit that, unless the Government be pleased to come to the rescue of this Municipality and aid it with grants from Provincial funds, enough to cover the additional charges incurred during the current year and to be incurred on account of the plague during the year 1899–1900, it will be almost impossible for this Municipality to find the necessary funds to combat the plague.

20. *Grant 4.*—The usual provision is made under this grant, with the exception that a sum of Rs. 620 is provided as compensation to be paid for the site required for the new Muhammadan burial-ground. Although the amount of compensation to be paid was settled during 1897–98, no provision could be made in the current year's budget for want of funds. It does not seem to be advisable to delay any longer the acquisition of the site. Unless the site is acquired and the necessary arrangements

are made for burials therein, it will not be possible to prevent burials in the town. Sanction is therefore respectfully solicited for this expenditure. Under the head of "Work done for private individuals" a sum of Rs. 150 only is provided in connection with the water-works house-service system as this is an uncertain item.

21. *Grant 5*, (1) *Office Establishment.*—The increased provision under this head is owing to the Secretary having to be paid for the whole year and not for only a portion thereof as in the current year.

(2) *Tolls Establishment.*—The provision made herein is for payment in April 1899 of the salaries of the present establishment for March 1898.

22. *Repayment of Debt and Interest.*—Provision is made under these heads as in the current year.

23. *Gratuity.*—The office accountant on Rs. 20 has retired in the current year. In consideration of his long and valuable services in the Municipality for nearly thirty years, it is proposed to give him a gratuity of Rs. 60 equal in amount to his pay for three months at the rate of Rs. 20. Sanction is respectfully requested for this expenditure.

24. The budget thus closes with a balance of Rs. 639–8–9. But as there should be a balance of Rs. 6,037–14–3 under the water-tax fund, the budget practically closes with a deficit of Rs. 5,398–5–6.

Endt. Cur. No. 1680-Genl.

Submitted through the Collector of Kurnool.

CAMP, MADDIKERA,
24th December 1898.

(Signed) P. THEENATHAYULU,
Deputy Collector.

Endt. N. Cur. No. 3352-Genl.

Submitted.

2. The revised budget estimate for 1898–99 closes with a deficit balance of Rs. 2,388; but according to G.O., No. 547, Financial, dated 18th June 1898, the other districts of the Presidency have to bear two-thirds of all the plague charges other than Provincial and if the Kurnool Municipality gets a contribution of Rs. 4,200 or two-thirds of the annual expenditure in connection with plague as estimated at present, not only the deficit will be made up but also there will be a surplus of Rs. 1,812, leaving out of account the water-tax fund, the appropriation of which for general purposes there appears to be no means of avoiding and which will have to be made by the Municipal Council available for utilization when required for works connected with water-supply by raising a loan or otherwise.

3. Regarding the budget estimate for 1899–1900, the provision made for plague charges is inadequate and should, in my opinion, be raised to Rs. 6,300 which is the amount required for the current year. In this case also, the portion to be borne by the Kurnool Municipality will be Rs. 2,100 which can be met from the provision of Rs. 1,000 already made and the balance of Rs. 1,812 remaining at the close of the current year. The entire expenses in connection with plague will, however, have to be defrayed in the first instance by the Kurnool Municipality, and if credit for contribution due from other Municipalities can be given at the end of each month, there will be no difficulty in arranging for the payments; otherwise the Municipality may take a temporary loan from Government of the amount needed for plague charges and discharge it as soon as the contribution from the other districts is credited to its accounts.

KURNOOL,
30th December 1898.

(Signed) MUHAMMAD RAZA KHÁN,
Collector.

From J. A. JONES, Esq., M.I.C.E., F.R.S.E., Sanitary Engineer to Government, to the Secretary to Government, Local and Municipal Department, dated Madras, 3rd January 1899, No. 13.

With reference to the budget estimate of the Kurnool Municipal Council for 1899–1900, of which an extract has been furnished to me, I have the honour to state that the allotments under (*2*) (*d*) Repairs—Water-supply are adequate. The increase to the engine driver is recommended and, as the correspondence on the subject is before Government, it is needless for me to say anything further here.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 12th January 1899, No. 30.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Kurnool Municipality for the year 1899–1900 is sufficient and calls for no further remarks.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 14th January 1899, No. 442.

Referring to the budget estimate of the Kurnool Municipality for 1899–1900, I have the honour to state that to the provision made therein for education should be added a sum of Rs. 360 for the appointment of a drawing master—Rs. 330 for his salary for eleven months at Rs. 30 per mensem and Rs. 30 for contingencies—credit being taken for a grant of Rs. 165 or in round numbers, Rs. 170, subject to the provisions of the Grant-in Aid Code. Drawing is a subject of the ordinary curriculum in upper secondary forms and provision should be made for teaching it. The teacher may, if necessary, be required to give instruction in the primary schools also. The plea urged by the Council, viz., want of funds, does not seem to me quite strong, seeing that the Council is spending on education only about 9 per cent. of its income from taxation and markets. I would, therefore, strongly recommend that the allotment proposed above may be sanctioned.

2. No provision has been made for result stipends to teachers in salary-result system schools. This allotment seems to have been included under fixed and result grants. A sum of Rs. 250 from the latter head may be transferred to the former.

3. With the addition proposed in paragraph 1 above, the net expenditure under Grant 2 will be Rs. 2,780 (Rs. 9,320—6,540), or nearly 9 per cent. of the estimated income of the Municipality from taxation and markets.

From Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., I.M.S., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 3rd February 1899, No. 352-S.

I have the honour to state that the Kurnool Municipal Council proposes to spend on conservancy during the ensuing year Rs. 9,820 or 19·9 of the estimated current receipts. This, though slightly in advance of the current year's figure, is much below actual requirements and falls considerably short of the general average of mufassal Municipalities. The existing scavenging staff is greatly undermanned and should be strengthened without further loss of time. The horse allowance proposed for the Sanitary Inspector should be increased to Rs. 15.

From the Chairman, Municipal Council, Kurnool, dated 7th November 1898, No. 136.

ABSTRACT.—Submitting statement called for in paragraph 2 of G.O., No. 2031 L., dated 22nd October 1898.

From the Collector of Kurnool, dated 10th November 1898, Dis. No. 4208-Genl.

ORDER—No. 386 M., dated 16th March 1899.

The estimated receipts and charges of the Kurnool Municipality for 1899–1900, as passed by Government, are compared below with the budget and revised estimates for the year 1898–99 and the actuals of 1897–98 :—

—	Actuals, 1897-98.	Budget estimate, 1898-99.	Revised estimate, 1898-99.	Budget estimate, 1899-1900.
Receipts.	Rs.	Rs.	Rs.	Rs.

Revised Estimate for 1898–99.

2. The current receipts and charges are now estimated at Rs. 52,200 and Rupees 58,810, respectively, against Rs. 45,480 and Rs. 44,010 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts and buildings, water and drainage tax, tolls, recoveries on account of services rendered to private individuals and advances recovered, and that in the charges under Grants 1, 3 and 4. The collections under the tax on arts during the first eight months of the year, amounting to 40 per cent. of the estimate, were not satisfactory. In order to enable the Municipal Council to provide sufficient funds for expenditure on plague preventive measures, credit will be taken for a loan of Rs. 5,000 from Imperial funds. The reduction from Rs. 72 to Rs. 67 in the pay of the hospital assistant and the entertainment of a female toty on Rs. 6 in the hospital in lieu of a male toty on Rs. 8, proposed in paragraph 7 of the Chairman's letter, are approved. With reference to G.O., No. 285, Financial, dated 22nd February 1899, communicated with G.O., No. 534 L., dated 8th March 1899, the allotment for plague charges will be reduced from Rs. 6,600 to Rs. 5,480. The balance to be carried forward to the ensuing year's budget will then be Rs. 3,980.

Budget Estimate for 1899–1900.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 49,620 against Rs. 57,200 in the revised estimate, a decrease which appears chiefly under recoveries on account of services rendered to private individuals, loans and advances recovered, being partly met by an increase under the tax on buildings, school-fees, and income from markets. With a view to enable the Municipal Council to provide for plague charges without appropriating the balance of Rs. 5,820 of the Provincial grant and loan on account of the water-supply scheme, which is required for carrying out the extension of the water-works suggested in G.O., No. 1932 M., dated 17th November 1898, credit will be taken for a loan of Rs. 6,000 from Imperial funds.

4. *Charges.*—(1) The probable charges are entered as Rs. 46,390 against the revised estimate of Rs. 57,690, the decrease occurring under all the grants except Grant 2.

(2) *Grant 1.*—In the present state of the municipal finances, the allotment of Rs. 2,000 for communications, which is only about 25 per cent. of the net municipal income from tolls, will be allowed to stand. A sum of Rs 5,820 will be provided under New Works—Water-supply for the extension of the water-works, with reference to paragraph 3 *supra*. The proposed increase of Rs. 10 in the salary of the engine-driver and the reduction by the same amount in that of the Public Works Inspector, referred to in paragraph 17 (4) and (5) of the Chairman's letter, are sanctioned.

(3) *Grant 2.*—With reference to the remarks of the Director of Public Instruction in paragraph 2 of his letter read above, the allotment under salary-result system schools will be increased by Rs. 250, a corresponding reduction being made under that for fixed and result grants. His suggestion in paragraph 1 to appoint a drawing master on Rs. 30 must be postponed for the present for want of funds.

(4) *Grant 3.*—The grant of a horse allowance to the Sanitary Inspector is approved; but in view of the Sanitary Commissioner's recommendation in his letter

read above, the allowance will be fixed at Rs. 15 instead of Rs. 10. The increase of one rupee each in the salaries of three of the conservancy peons referred to in paragraph 19 cannot be sanctioned, as the Government is not satisfied of its necessity. With reference to G.O., No. 1259, Financial, dated 28th December 1898, communicated with G.O., No. 44 L., dated 11th January 1899, the allotment for epidemic charges will be raised from Rs. 1,000 to Rs. 7,260. In this connection, the attention of the Collector is drawn to paragraph 2 of G.O., No. 7, Financial, dated 3rd January 1899, communicated with G.O., No. 145 P., dated 30th January 1899, under which the Municipal Council is not entitled to any contribution from other districts for plague charges.

(5) *Grant 4.*—The abolition of the post of slaughter-house fee collector on Rs. 6, which from statement II-B appears to be contemplated, is approved; but it should have been shown in the proposition statement and referred to in the Chairman's letter.

(6) *Grant 5.*—The proposal to grant a gratuity of Rs. 60 to the Municipal office accountant, referred to in paragraph 23 should form the subject of a separate communication. With reference to G.O., No. 2250 L., dated 25th November 1898, the contribution for the central office establishments will be raised from Rs. 300 to Rs. 389 or Rs. 390 in round numbers.

5. *Debt and Closing Balance.*—The provision for repayment of debt will be raised from Rs. 1,890 to Rs. 2,040 and that for interest on loan will be reduced from Rs. 2,820 to Rs. 2,740, with reference to actual requirements. As revised by Government, the budget closes with a balance of Rs. 1,010 or only 2·0 per cent. of the estimated ordinary receipts.

6. If the loan of Rs. 6,000 from Imperial funds for which credit has been taken in paragraph 3 *supra* be not sanctioned by the Government of India, the budget will have to be recast.

MARCH.

Municipal Budget.

Reviewing the Kurnool — for 1899–1900.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. T. CHIDAMBARA RAO Garu, B.A., Chairman, Municipal Council, Kurnool, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional Officer in charge of Ramallakot taluk), dated 21st December 1898, No. 244.

I have the honour to submit herewith the revised estimate of the Kurnool Municipality for 1898–99 and the budget estimate for 1899–1900.

REVISED ESTIMATE FOR 1898–99.

2. The total receipts during the year, including an opening balance of Rupees 4,472–8–9, amount to Rs. 56,421–8–9 as against Rs. 50,560 of the budget and the charges to Rs. 58,810 as against Rs. 44,010. The increase in the receipts is due mainly to the recoveries made from private individuals for house-service work done in connection with the water-works and to the increase in the rate of house-tax, which was raised during the year from 7½ to 8 per cent. The increase in charges is due mainly to the charges incurred on account of the plague and to an increased expenditure under the "Water-works—Contingencies" and the "House-service system."

Receipts.

3. The increase of Rs. 200 under tax on arts is due to an increase in the number of persons assessed under this head during the year; that of Rs. 500 under tax on buildings is due mainly to the increase in the rate of house-tax by half per cent.; that of Rs. 300 under water-tax is on account of the collection during the year of arrears of the previous year; that of Rs. 50 under fees under Act II of 1888 is due to fees having been levied during the year for temporary pandals erected by private individuals as sanctioned in G.O., Mis. No. 759 M., dated 15th April 1898; that of Rs. 150 under license fees is due to a revision of the rates of license fees as sanctioned by Government in G.O., Mis. No. 715 M., dated 4th April 1898; that of Rs. 40 under cartstand fees is due to brisk competition at the sales; that of about Rs. 180 under "Contribution for municipal high school" is due mainly to the collection of arrears due for the past year; that of Rs. 500 under private scavenging fees is due to an increase in the number of houses served by municipal toties; that of Rs. 4,400 under "Miscellaneous other purposes" is due to recoveries made from private individuals for house-service in connection with the water-works. The sum of Rs. 45 under "Miscellaneous other items" is the amount of famine batta recovered from municipal subordinates as directed by Government in G.O., Mis. No. 1181 M., dated 4th July 1898. The sum of Rs. 740 shown under "Advances recovered" represents the advances which had been made during the previous year and recovered during the current year mainly in connection with the new market. The increases under other heads being slight call for no remarks.

4. The decrease of Rs. 70 under fees from travellers' bungalow is due to a fall in the number of gentlemen occupying the bungalow; that of Rs. 40 under produce of gardens is due to the stoppage of the old water supply system, in consequence of which several trees in the people's park withered away; that of Rs. 80 under cartstand manure fees is due to slack competition at the sales; that of Rs. 240 under "Municipal high school fees" and that of Rs. 100 under "Fees from municipal upper primary.

school" are attributable to the raising of the standard of the American Baptist Mission school to the lower secondary grade and to the low rate of fees levied in that school; and that of Rs. 70 under "Stipends to normal students" is due to no students having been sent for training during the year.

Charges.

5. *Grant 1.*—The increase of Rs. 975 under "New Works—Buildings" is due to the additional allotment sanctioned for the completion of the market (*vide* G.O., Mis. No. 759 M., dated 15th April 1898); that of Rs. 10 under water-supply is due to payment made during the year for the supply of pipes for the water works extension as advised by the Sanitary Engineer in his letter, No. 104, dated 20th October 1897; that of Rs. 1,800 under "Water-supply—Contingencies" is due mainly to additional cost of fuel for working the engine day and night to meet the increased demand for water-supply and to payments made to the engine staff for extra night work done according to the rules laid down by the Sanitary Engineer's department. The decrease of Rs. 20 under the public works establishment charges is due to the acting arrangements made in the establishment during the time that the Public Works Inspector was placed on other duty. The decrease of Rs. 505 under "Contribution to Provincial funds for the water-supply" is due to the collection of a smaller amount by the Executive Engineer's department than was anticipated in the budget. The other increases and decreases under this grant do not call for any remarks being very slight.

6. *Grant 2.*—The decrease of Rs. 120 under "Stipends to normal students" is due to no students having been sent for training during the year; that of Rs. 96 under "High school establishment charges" is due to acting arrangements made owing to the third assistant master having resigned; that of Rs. 20 under "Municipal inspecting establishment" is due to the supervisor of schools having gone on leave for a short time on loss of pay.

7. *Grant 3.*—The increase of Rs. 600 under "Diet of patients" and of Rs. 296 under "Sundries and contingencies" in connection with the hospital is due to an increase in the number of patients; that of Rs. 21 under "Vaccination establishment" is due to the pay of the vaccination establishment due for the past year having been paid during the current year owing to the late submission of the bill therefor; that of Rs. 506 and Rs. 78 under "Private scavenging establishment" and "Contingencies" is due to an increase in the number of toties, to the entertainment of a maistry and bill-collector as sanctioned in G.O., Mis. No. 2063 M., dated 5th December 1898, and to increased contingent charges owing to an addition in the number of houses served by municipal toties; and of Rs. 5,600 under "Epidemic charges" is due to the increased expenditure on account of the plague as sanctioned in G.O., No. 883, Financial, dated 13th October 1898.

The decrease of Rs. 180 under "Hospital establishment charges" is due to the payment of the first-class hospital assistant at only Rs. 67 a month instead of Rs. 72 as given in the budget, to only one compounder having been entertained during the year instead of two, and to the entertainment of two male toties on Rs. 8 and one female toty on Rs. 6 instead of three males on Rs. 8 each; that of Rs. 218 under "Vaccination contingencies" is due to the substitution of "lanoline lymph" for "animal lymph"; that of Rs. 130 under "Cesspool establishment and contingencies" is due to the employment of only two toties instead of four in consequence of the small number of cesspools to be cleaned.

8. *Grant 4.*—The increase of Rs. 50 under "Lighting—Contingencies" is due to the purchase of several chimneys in place of those broken or stolen and to the increased quantity of oil purchased. The increase of about Rs. 128 under "Slaughter-houses—Establishment and contingencies" is due to the entertainment of a bill-collector for collecting the fees sanctioned in G.O., Mis. No. 897 M., dated 10th May 1898, and to increased expenditure on account of printing forms, &c. The additional charges to the extent of Rs. 4,700 under "Work done for private individuals" are those incurred in connection with the water-works house-service system. The increase of Rs. 100 under "Printing charges" is due to the increased number of forms and books, &c., printed.

9. *Grant* 5.—The increase of Rs. 35 under "General establishment—Inspection" is due to the payment of carriage allowance to the Chairman for the month of April and for a portion of May owing to the new Secretary not having joined duty until about the middle of May 1898. The increase of Rs. 755 under "Tolls—establishment" charges was sanctioned in G.O., Mis. No. 674 M., dated 30th March 1898; and of Rs. 245 under "Tolls—Contingencies" is due to charges incurred owing to the toll farm having been worked under the direct management of the Municipal Council.

The decrease of Rs. 245 under "Office establishment charges" is mainly due to the Secretary not having joined duty until the middle of May and to the acting arrangements made in the office before the permanent head clerk on Rs. 45 entered on his duties.

10. *Repayment of Debt and Interest.*—The increase of about Rs. 160 under this head is due to the additional sum having been collected by the Accountant-General's department.

11. *Advances Recoverable.*—The sum of Rs. 185 represents the advances for works during the year.

12. *Refund of other than current Collections.*—A sum of Rs. 30 was refunded to parties in connection with the water-works house-service system for excess collections made from them.

13. It will thus be seen that the year closes with a deficit balance of Rupees 2,388-7-3. As there should be a saving to the extent of Rs. 6,037-14-3 under the water-tax fund, the year practically closes with a total deficit of Rs. 8,426-5-6, due mainly to additional charges incurred on plague preventive measures. The balance to be carried forward to the ensuing year's budget will thus be a deficit balance of Rs. 2,388-7-3.

Budget Estimate for 1899-1900.

Receipts.

14. The receipts for the year 1899-1900 are estimated to amount to Rupees 47,031-8-9 including the deficit opening balance of Rs. 2,388-7-3, as detailed hereunder:—

	Rs.	A.	P.
Opening balance —	2,388	7	3
Tax on arts	3,500	0	0
„ on buildings and lands	10,150	0	0
Water-tax	4,650	0	0
Tax on vehicles and animals	1,750	0	0
Carts	1,400	0	0
Tolls	8,050	0	0
Fees under Act II of 1888	50	0	0
License fees	700	0	0
Contributions from Provincial funds for municipal schools	3,020	0	0
Local Boards	2,000	0	0
School-fees	3,350	0	0
Fines and fees	710	0	0
Proceeds of sale of night-soil, &c.	1,750	0	0
Income from markets, slaughter-houses and cartstands	5,590	0	0
Hospital endowment	220	0	0
Miscellaneous	2,530	0	0
Total	47,031	8	9

15. In estimating the receipts for the year the figures of the budget estimate or of the revised estimate for the current year have been adopted with variations only in the cases noted below:—

(*a*) *Tax on Arts.*—An increase of Rs. 200 is expected by a careful assessment under this head.

(*b*) *Tax on Buildings and Water-tax.*—An additional income of Rs. 500 over that of the revised estimate is expected under "Tax on buildings" by a revision of the house-tax registers, which is in progress. For the same reason an increase of Rs. 150 is estimated under the "Water-tax."

(*c*) *Fees from Municipal High School.*—In this case the actuals for 1897-98 have been taken as the guide.

(*d*) *Income from Markets.*—An additional income of Rs. 700 is estimated under this head. The experience of the current year, during which the new market was opened, justifies the expectation of this additional income.

(*e*) *Income from Slaughter-houses.*—During the current year although there was an increase in the rate of fees for slaughtering animals, there was no corresponding addition to the income under this head owing to a combination amongst the butchers. It is expected that with the increase in the rates of fees, there will be an additional income of Rs. 200 under the slaughter-house fees in the ensuing year.

(*f*) *Provincial Contribution for Municipal High School.*—The increase under this head over the budget estimate for 1898-99 is due to the increments allowed to the headmaster and the first assistant.

(*g*) *Private Scavenging Fees.*—As strenuous efforts are being made to improve this system an additional income of Rs. 500 over the revised estimate is expected.

(*h*) *Recoveries on account of Cess-pool Cleaning Service and Water-works House-services connection.*—The necessary endeavours will be made to improve the system of cess-pool cleaning along with the private scavenging system. An income of Rs. 300 is therefore estimated under this head. A sum of Rs. 200 is put down as the probable receipts under the water-works house-service system.

Charges.

16. As in the case of the receipts, the figures of the budget estimate or of the revised estimate for 1898-99 have mostly been adopted in calculating the charges, variations therefrom being explained below under each grant.

17. *Grant* 1, (1) *New Works—Communications.*—No provision is made under this head for want of funds.

(2) *Repairs—Communications.*—A sum of Rs. 2,000 is provided for this purpose as in the current year. It will be seen that this allotment of only Rs. 2,000 on account of communications is only 25 per cent. instead of 50 per cent. of the receipts under "Tolls." A larger sum could not be provided in view of the present financial difficulties of the Municipality.

(3) *Repairs—Buildings.*—A sum of Rs. 500 is provided for the necessary repairs to Municipal buildings. The additional allotment of Rs. 250 under this head over that of the revised and budget estimates of the current year is due to the fact that several public latrines are in urgent need of repairs, as are also the slaughter-houses.

(4) (*a*) *Water-supply Establishment.*—The increased provision of Rs. 110 under this head is due to the increment of Rs. 10 allowed to the water-works engine driver as recommended by the Sanitary Engineer to Government as will be seen from the copies of his letters, which are herewith submitted. Sanction for this increase is respectfully solicited.

(4) (*b*) *Water-supply—Contingencies.*—The amount provided for this purpose in the budget for 1898-99 was Rs. 3,690, but the actual charges as estimated in the revised estimate amount to Rs. 5,490. This is mainly due to the increased expenditure of fuel and its high value. Arrangements are now being made to introduce coal in the place of fuel as suggested by the officers of the Sanitary Engineer's department. It is therefore expected that there will be a considerable saving effected thereby. A sum of Rs. 4,000 is therefore now provided for the purpose.

(5) *Public Works Establishment.*—The decrease of Rs. 110 under this head below the budget estimate for the current year is due to a reduction of Rs. 10 in the pay of the Public Works Inspector. The Sanitary Inspector of the Municipality, who has very responsible duties to perform and who has, for an efficient discharge of his duties, to maintain a horse, is at present paid only Rs. 35 without any horse allowance. The Sanitary Commissioner has often recommended that this officer should be paid horse allowance at the rate of Rs. 15 a month in addition to his pay of Rs. 35. Experience has also shown that, without this allowance, it is very difficult to secure competent men for this important office with the present pay. It is therefore necessary to give the Sanitary Inspector an allowance of at least Rs. 10 to enable him to maintain a horse.

As the duties of the Public Works Inspector do not involve much responsibility, it will be possible to secure the services of one with the requisite qualifications for a pay of Rs. 15. It is therefore proposed to reduce the pay of the Public Works Inspector from Rs. 25 to Rs. 15 and to utilize the surplus as horse allowance to be paid to the Sanitary Inspector. It is respectfully solicited that Government will be pleased to accord sanction to this arrangement.

(6) *Contribution to Provincial Funds for Water-supply.*—An additional sum of Rs. 35 over that of the revised estimate is provided in view of a probable increase in the demand for water-supply.

18. *Grant 2*, (1) *Stipends to Normal Students.*—The usual provision of Rs. 120 is repeated as suggested by the officers of the Educational Department.

(2) *Municipal High School Establishment.*—The increased provision under this head is due to the increments allowed to the headmaster and the first assistant under G.O., Mis. No. 262 M., dated 20th March 1898. No provision has been made under this head for want of funds for the entertainment of a drawing master in the Municipal high school, although the Director has threatened to withdraw the recognition of the school. The Council will take the earliest opportunity to give effect to the Director's suggestion as soon as funds permit.

(3) *Fixed and Result Grants.*—A lump sum of Rs. 1,150 is provided for the payment of fixed grants and of result grants as directed in G.O., No. 2088 L., dated 31st October 1898.

19. *Grant 3*, (1) *Hospital Establishment.*—The decrease under this head below the budget estimate of 1898–99 is due to the provision made for the first-class hospital assistant at the rate of Rs. 67 a month instead of Rs. 72 and to that made for two male toties on Rs. 8 each, one female toty on Rs. 6, instead of three male toties on Rs. 8 each.

(2) *Conservancy Establishment.*—The increased expenditure under this head is mainly due to the provision made for paying the Sanitary Inspector a horse allowance at the rate of Rs. 10 a month from the savings effected by a reduction in the pay of the Public Works Inspector as explained in paragraph 17 (5) under Grant 1. The increase is also due to the increase allowed at the rate of one rupee each to three of the conservancy peons in consideration of their long service. Sanction is therefore requested for this increase.

(3) *Private Scavenging Establishment and Contingencies.*—The additional expenditure is in consequence of the increase in the number of houses under the private scavenging system.

(4) *Epidemic Charges.*—It is to be regretted that the present state of the Municipal finances does not allow of any adequate provision being made for expenditure on plague preventive measures as directed by Government in G.O., Mis. No. 1911 M., dated 14th November 1898. The Government is aware that the limited resources of this Municipality are altogether insufficient to meet any extraordinary special charges. The current year's charges on account of the plague come up to Rs. 6,600, an amount which is much beyond the means of this poor Municipality. These additional charges have, as already submitted in paragraph 13 *supra*, resulted in a large deficit. It is therefore hardly necessary for me to submit that, unless the Government be pleased to come to the rescue of this Municipality and aid it with grants from Provincial funds, enough to cover the additional charges incurred during the current year and to be incurred on account of the plague during the year 1899–1900, it will be almost impossible for this Municipality to find the necessary funds to combat the plague.

20. *Grant 4.*—The usual provision is made under this grant, with the exception that a sum of Rs. 620 is provided as compensation to be paid for the site required for the new Muhammadan burial-ground. Although the amount of compensation to be paid was settled during 1897–98, no provision could be made in the current year's budget for want of funds. It does not seem to be advisable to delay any longer the acquisition of the site. Unless the site is acquired and the necessary arrangements

are made for burials therein, it will not be possible to prevent burials in the town. Sanction is therefore respectfully solicited for this expenditure. Under the head of "Work done for private individuals" a sum of Rs. 150 only is provided in connection with the water-works house-service system as this is an uncertain item.

21. *Grant 5*, (1) *Office Establishment.*—The increased provision under this head is owing to the Secretary having to be paid for the whole year and not for only a portion thereof as in the current year.

(2) *Tolls Establishment.*—The provision made herein is for payment in April 1899 of the salaries of the present establishment for March 1898.

22. *Repayment of Debt and Interest.*—Provision is made under these heads as in the current year.

23. *Gratuity.*—The office accountant on Rs. 20 has retired in the current year. In consideration of his long and valuable services in the Municipality for nearly thirty years, it is proposed to give him a gratuity of Rs. 60 equal in amount to his pay for three months at the rate of Rs. 20. Sanction is respectfully requested for this expenditure.

24. The budget thus closes with a balance of Rs. 639–8–9. But as there should be a balance of Rs. 6,037–14–3 under the water-tax fund, the budget practically closes with a deficit of Rs. 5,398–5–6.

Endt. Cur. No. 1680-Genl.

Submitted through the Collector of Kurnool.

CAMP, MADDIKERA,

(Signed) P. THEENATHAYULU,
Deputy Collector.

Endt. N. Cur. No. 3352-Genl.

Submitted.

2. The revised budget estimate for 1898–99 closes with a deficit balance of Rs. 2,388; but according to G.O., No. 547, Financial, dated 18th June 1898, the other districts of the Presidency have to bear two-thirds of all the plague charges other than Provincial and if the Kurnool Municipality gets a contribution of Rs. 4,200 or two-thirds of the annual expenditure in connection with plague as estimated at present, not only the deficit will be made up but also there will be a surplus of Rs. 1,812, leaving out of account the water-tax fund, the appropriation of which for general purposes there appears to be no means of avoiding and which will have to be made by the Municipal Council available for utilization when required for works connected with water-supply by raising a loan or otherwise.

3. Regarding the budget estimate for 1899–1900, the provision made for plague charges is inadequate and should, in my opinion, be raised to Rs. 6,300 which is the amount required for the current year. In this case also, the portion to be borne by the Kurnool Municipality will be Rs. 2,100 which can be met from the provision of Rs. 1,000 already made and the balance of Rs. 1,812 remaining at the close of the current year. The entire expenses in connection with plague will, however, have to be defrayed in the first instance by the Kurnool Municipality, and if credit for contribution due from other Municipalities can be given at the end of each month, there will be no difficulty in arranging for the payments; otherwise the Municipality may take a temporary loan from Government of the amount needed for plague charges and discharge it as soon as the contribution from the other districts is credited to its accounts.

KURNOOL,
30th December 1898.

(Signed) MUHAMMAD RAZA KHÁN,
Collector.

From J. A. JONES, Esq., M.I.C.E, F.R.S.E., Sanitary Engineer to Government, to the Secretary to Government, Local and Municipal Department, dated Madras, 3rd January 1899, No. 13.

With reference to the budget estimate of the Kurnool Municipal Council for 1899–1900, of which an extract has been furnished to me, I have the honour to state that the allotments under (2) (*d*) Repairs—Water-supply are adequate. The increase to the engine driver is recommended and, as the correspondence on the subject is before Government, it is needless for me to say anything further here.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 12th January 1899, No. 30.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Kurnool Municipality for the year 1899–1900 is sufficient and calls for no further remarks.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 14th January 1899, No. 442.

Referring to the budget estimate of the Kurnool Municipality for 1899–1900, I have the honour to state that the provision made therein for education should be added a sum of Rs. 360 for the appointment of a drawingmaster—Rs. 330 for his salary for eleven months at Rs. 30 per mensem and Rs. 30 for contingencies—credit being taken for a grant of Rs. 165 or in round numbers, Rs. 170, subject to the provisions of the Grant-in Aid Code. Drawing is a subject of the ordinary curriculum in upper secondary forms and provision should be made for teaching it. The teacher may, if necessary, be required to give instruction in the primary schools also. The plea urged by the Council, viz., want of funds, does not seem to me quite strong, seeing that the Council is spending on education only about 9 per cent. of its income from taxation and markets. I would, therefore, strongly recommend that the allotment proposed above may be sanctioned.

2. No provision has been made for result stipends to teachers in salary-result system schools. This allotment seems to have been included under fixed and result grants. A sum of Rs. 250 from the latter head may be transferred to the former.

3. With the addition proposed in paragraph 1 above, the net expenditure under Grant 2 will be Rs. 2,780 (Rs. 9,320 —6,540), or nearly 9 per cent. of the estimated income of the Municipality from taxation and markets.

From Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., I.M.S., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 3rd February 1899, No. 352-S.

I have the honour to state that the Kurnool Municipal Council proposes to spend on conservancy during the ensuing year Rs. 9,820 or 19·9 of the estimated current receipts. This, though slightly in advance of the current year's figure, is much below actual requirements and falls considerably short of the general average of mofassil Municipalities. The existing scavenging staff is greatly undermanned and should be strengthened without further loss of time. The horse allowance proposed for the sanitary inspector should be increased to Rs. 15.

From the Chairman, Municipal Council, Kurnool, dated 7th November 1898, No. 136.

ABSTRACT.—Submitting statement called for in paragraph 2 of G.O., No. 2031 L., dated 22nd October 1898.

From the Collector of Kurnool, dated 10th November 1898, Dis. No. 4208-Genl.

ORDER—No. 386 M., dated 16th March 1899.

The estimated receipts and charges of the Kurnool Municipality for 1899–1900, as passed by Government, are compared below with the budget and revised estimates for the year 1898–99 and the actuals of 1897–98 :—

3980/

REVISED ESTIMATE FOR 1898–99.

2. The current receipts and charges are now estimated at Rs. 52,200 and Rupees 58,810, respectively, against Rs. 45,480 and Rs. 44,010 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts and buildings, water and drainage tax, tolls, recoveries on account of services rendered to private individuals and advances recovered, and that in the charges under Grants 1, 3 and 4. The collections under the tax on arts during the first eight months of the year, amounting to 40 per cent. of the estimate, were not satisfactory. In order to enable the Municipal Council to provide sufficient funds for expenditure on plague preventive measures, credit will be taken for a loan of Rs. 5,000 from Imperial funds. The reduction from Rs. 72 to Rs. 67 in the pay of the hospital assistant and the entertainment of a female toty on Rs. 6 in the hospital in lieu of a male toty on Rs. 8, proposed in paragraph 7 of the Chairman's letter, are approved. With reference to G.O., No. 285, Financial, dated 22nd February 1899, communicated with G.O., No. 534 L., dated 8th March 1899, the allotment for plague charges will be reduced from Rs. 6,600 to Rs. 5,480. The balance to be carried forward to the ensuing year's budget will then be Rs. 3,980.

BUDGET ESTIMATE FOR 1899–1900.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 49,620 against Rs. 47,200 in the revised estimate, a decrease which appears chiefly under recoveries on account of services rendered to private individuals, loans and advances recovered, being partly met by an increase under the tax on buildings, school-fees, and income from markets. With a view to enable the Municipal Council to provide for plague charges without appropriating the balance of Rs. 5,820 of the Provincial grant and loan on account of the water-supply scheme, which is required for carrying out the extension of the water-works suggested in G.O., No. 1932 M., dated 17th November 1898, credit will be taken for a loan of Rs. 6,000 from Imperial funds.

4. *Charges.*—(1) The probable charges are entered as Rs. 46,390 against the revised estimate of Rs. ~~57,810~~, the decrease occurring under all the grants except Grant 2.

(2) *Grant 1.*—In the present state of the municipal finances, the allotment of Rs. 2,000 for communications, which is only about 25 per cent. of the net municipal income from tolls, will be allowed to stand. A sum of Rs 5,820 will be provided under New Works—Water-supply for the extension of the water-works, with reference to paragraph 3 *supra*. The proposed increase of Rs. 10 in the salary of the engine-driver and the reduction by the same amount in that of the Public Works Inspector, referred to in paragraph 17 (4) and (5) of the Chairman's letter, are sanctioned.

(3) *Grant 2.*—With reference to the remarks of the Director of Public Instruction in paragraph 2 of his letter read above, the allotment under salary-result system schools will be increased by Rs. 250, a corresponding reduction being made under that for fixed and result grants. His suggestion in paragraph 1 to appoint a drawing-master on Rs. 30 must be postponed for the present for want of funds.

(4) *Grant 3.*—The grant of a horse allowance to the Sanitary Inspector is approved; but in view of the Sanitary Commissioner's recommendation in his letter

read above, the allowance will be fixed at Rs. 15 instead of Rs. 10. The increase of one rupee each in the salaries of three of the conservancy peons, referred to in paragraph 19, cannot be sanctioned, as the Government is not satisfied of its necessity. With reference to G.O., No. 1259, Financial, dated 28th December 1898, communicated with G.O., No. 44 L., dated 11th January 1899, the allotment for epidemic charges will be raised from Rs. 1,000 to Rs. 7,260. In this connection, the attention of the Collector is drawn to paragraph 2 of G.O., No. 7, Financial, dated 3rd January 1899, communicated with G.O., No. 145 P., dated 30th January 1899, under which the Municipal Council is not entitled to any contribution from other districts for plague charges.

(5) *Grant 4.*—The abolition of the post of slaughter-house fee collector on Rs. 6, which from statement II-B appears to be contemplated, is approved; but it should have been shown in the proposition statement and referred to in the Chairman's letter.

(6) *Grant 5.*—The proposal to grant a gratuity of Rs. 60 to the Municipal office accountant, referred to in paragraph 23, should form the subject of a separate communication. With reference to G.O., No. 2250 L., dated 25th November 1898, the contribution for the central office establishments will be raised from Rs. 300 to Rs. 389 or Rs. 390 in round numbers.

5. *Debt and Closing Balance.*—The provision for repayment of debt will be raised from Rs. 1,890 to Rs. 2,040 and that for interest on loan will be reduced from Rs. 2,820 to Rs. 2,740, with reference to actual requirements. As revised by Government, the budget closes with a balance of Rs. 1,010 or only 2·0 per cent. of the estimated ordinary receipts.

6. If the loan of Rs. 6,000 from Imperial funds for which credit has been taken in paragraph 3 *supra* is not sanctioned by the Government of India, the budget will have to be recast.

REVISED ESTIMATE FOR 1898-99.

2. The current receipts and charges are now estimated at Rs.52,200 and Rs.58,810 respectively, against Rs.45,480 and Rs.44,010 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts and buildings, water and drainage tax, tolls, recoveries on account of services rendered to private individuals and advances recovered and that in the charges under Grants 1, 3 and 4. The collections under the tax on arts during the first eight months of the year, amounting to 40 per cent of the estimate, were not satisfactory. In order to enable the Municipal Council to provide sufficient funds for expenditure on plague preventive measures, credit will be taken for a loan of Rs.5,000 from Imperial Funds. The reduction from Rs.72 to Rs.67 in the pay of the hospital assistant and the entertainment of a female toty on Rs.6 in the hospital in lieu of a male toty on Rs.8, proposed in para.7 of the Chairman's letter are approved. With reference to G.O. No. ~~180~~ 285, Financial, dated ~~21st January~~ 22nd February 1899, communicated with G.O. No. ~~273~~ 534 L., dated ~~7th February~~ 8th March 1899, the allotment for plague charges will be reduced from Rs.6,600 to Rs.5,~~600~~ 480. The balance to be carried forward to the ensuing year's budget will then be Rs. ~~3,860~~ 3980.

BUDGET ESTIMATE FOR 1899-1900.

3.

3. RECEIPTS. The receipts for the ensuing year are put down at Rs.49,620 against Rs.57,200 in the revised estimate, a decrease which appears chiefly under recoveries on account of services rendered to private individuals, loans and advances recovered being partly met by an increase under the tax on buildings, school-fees, and income from markets. With a view to enable the Municipal Council to provide for plague charges without appropriating the balance of Rs.5,820 of the Provincial Grant and loan on account of the water-supply scheme, which is required for carrying out the extension of the water works suggested in G.O. No.1932 M., dated 17th November 1898, credit will be taken for a loan of Rs.6,000 from Imperial Funds.

4. CHARGES (1). The probable charges are entered as Rs.46,390 against the revised estimate of Rs.57,~~810~~ 690, the decrease occurring under all the grants except Grant 2.

(2) GRANT 1. In the present state of the Municipal finances, the allotment of Rs.2,000 for communications, which is only about 25 per cent of the net Municipal income from tolls, will be allowed to stand. A sum of Rs.5,820 will be provided under ~~the~~ New Works-Water-supply for the extension of the water works, with reference to para.3 Supra. The proposed increase of Rs.10 in the salary of the engine driver, and the reduction by ~~a similar~~ the same amount in that of the Public Works Inspector, referred to in paras.17 (4) & (5) of the Chairman's letter, are sanctioned.

(3) GRANT 2. With reference to the remarks of the Director of Public Instruction in para.2 of his letter read above, the allotment under salary-result system schools will be increased by Rs.250, a corresponding reduction being made under that for fixed and result grants. His suggestion in para.1 to appoint a drawing master on Rs.30 must be postponed for the present, for want of funds.

(4) GRANT 3. The grant of a horse allowance to the Sanitary Inspector is approved; but in view of the Sanitary Commissioner's recommendation in his letter read above, the allowance will be fixed at Rs.15, instead of Rs.10. The increase of one rupee each in the salaries of three of the conservancy peons referred to in para.19 cannot be sanctioned, as the Government is not satisfied of its necessity. With reference to G.O. No.1259, Financial, dated 28th December 1898, communicated with G.O. No.44 L., dated 11th January 1899, the allotment for epidemic charges will be raised from Rs.1,000 to Rs.7,260. In this connection, the attention of the Collector is drawn to para.2 of G.O. No.7, Financial, dated 3rd January 1899, communicated with G.O. No.145 P., dated 30th January 1899, under which the Municipal Council is not entitled to any contribution from other districts for plague charges.

(5) GRANT 4. The abolition of the post of slaughter-house fee collector on Rs.6, which from Statement II.B. appears to be contemplated, is approved; but it should have been shown in the proposition statement and referred to in the Chairman's letter.

(6) GRANT 5. The proposal to grant a gratuity of Rs.60 to the Municipal Office Accountant, referred to in para.23, should form the subject of a separate communication. With reference to G.O. No.2250 L., dated 25th November 1898, the contribution for the central office establishments will be raised from Rs.300 to Rs.389 or Rs.390 in round numbers.

5. DEBT AND CLOSING BALANCE.

The provision for repayment of debt will be raised from Rs.1,890 to Rs.2,040 and that for interest on loan will be reduced from Rs.2,820 to Rs.2,740, with reference to actual requirements. As revised by Government, the budget closes with a balance of Rs. ~~890~~ 1010 or only ~~1.9~~ 2.0 per cent of the estimated ordinary receipts.

V.R.
4/3/99

To The Financial Dept. for counter initials the portions marked in with reference to paras 2 & 3 of the draft order.

6. If the loan of Rs 6000 from Imperial funds for which credit has been taken in para 3 supra is not sanctioned by the Govt. of India, the budget will have to be recast.

Note

With reference to G.O. No 130 Finl dated 21st January 1899 and G.O. No. 1259 Finl dated 28th December 1898 the L. & M. Department has provided in the budget of the Kurnool municipality Rs 5600 and 7260 for the current and ensuing years respectively on account of plague. As in G.O. No 205 Finl dated 22nd February 1899 the amount provided for the Kurnool municipality has been reduced to Rs 5400, the provision made by the L & M Department will need to be altered.

It is proposed to meet the expenditure for the current and ensuing years by taking credit for the loans of Rs 5000 and 6000 respectively from Imperial funds.

C. No.s 3440 and 3472 A.K

SUBJECT.

Plague Expenditure — Kurnool Munlty.

FOR ORDERS.

U

Under G.O. No. 883 Financial dated 13th October 1898, the estimated expenditure in the current year on plague preventive measures in the Kurnool Municipality is Rs 6,600. A sum of Rs 1000 was provided in the budget for cholera and plague charges, but from the statement submitted by the Chairman it appears that the expenditure already incurred on this account is Rs 3,537. For this excess expenditure of Rs 2,537, no formal allotment or transfer of funds has been sanctioned by competent authority. The estimated closing balance of the year was Rs 65[illegible] of which Rs 6,090 represented the unexpended balance of th

Provincial grant and loan on account of the Water Supply works, so that only Rs460 were available for general purposes - Vide para. 5 of Gs. No 326 M dated 4th February 1898. As however the year 1897-98 closed with a deficit of Rs1577, the anticipated closing balance of the current year as revised with reference to the actual opening balance, but excluding the balance of the Provincial Grant and Loan for the water supply scheme, will be minus (Rs6197). Excluding therefore the budget allotment of Rs1000, the Municipal Council has to find Rs5600 and as it does not appear that any reduction is possible in the allotments for works, the Financial Department may be requested to advance Rs7,500 as it is probable that the actual expenditure on plague preventive measures in the current year will probably exceed the present estimate.

D.O.

Dear Sir,

[illegible] that the Eurasian association has been applying to me to employ ~~him~~ somewhere else. There are several towns where [illegible] occur. He might get more pay but he seems dissatisfied because his pay has been reduced to Rs 50 and not increased to Rs 75 as promised.

I also agree that the policy of reducing pay is not one that will eventually lead to economy: at present you have a hardworking employe well acquainted with the works and you would find great difficu[lty] in securing any other person for Kurnool who would be at all suita[ble]

at that pay or more and might get some one who would never get into the work and understand the detail as Mr. Stephens does. It is a post requiring a very steady man and I hope that you will do all in your power to retain Mr. Stephen's services if necessary by increasing his pay to Rs 75 each.

× × × × × × × × ×

I write entirely in the interests of the Council.

Yours Sincerely

(Sgd) J. A. Jones.

(True copy)

Chidambara Ram

Chairman

Official Members.

M.R.Ry A. Venkoba Rangoon.

Non-Official Members.

C. Ramsing garu, Rai Bahadur

M.B. Varada Iyengar Avergal B.A.B.L.

P. Ganapatti Mudaliar Avergal.

B. Govinda Naida garu, Subedar Bahadur

Shumsuddin Khan Sahib

The following business was transacted:-

1. Read revised and budget estimate of receipts and charges for the years 1898-99 and 1899-1900 respectively as prepared by the Chairman

Passed.

2. Read letter No 359 Kr/4.11.98 from the Inspector of Schools making suggestio regarding the entertainment of a drawing master in the Municipa High

in future to secure another man who would be fit for the two duties of pumping and watching filteration

3. Besides this the hours of pumping have to be increased and I therefore feel assured that to raise the salary of the driver would be a saving of expense to the Council in the near future - an inefficient man might cost the Council as much in a day as the increase of pay requested would in a month or even a year

4. I believe that the driver is looking out for a better paid appointment and this is another good reason I think for granting the increase.

I have the honour to be
Sir
Your Most obedient Servant
