 COLLECTOR'S OFFICE,
 Cuddalore

No. 1499

DATED 20th January 1888

FROM

L. M. W. N. S. S. S.

Ag COLLECTOR OF SOUTH ARCOT.

TO

THE Plague Commission
 Madras.

SIR,

I have the honour to report
 that I went to Tiruvannamalai
 yesterday to see how the ar-
 rangements ordered to be made
 for the inspection of trains
 from the north were being
 carried out.

Inspection commenced on
 the 17th, the date on which the
 medical officer Mr. Bourdieu
 by the Surgeon General arrived.
 He is assisted by one Hospital
 Assistant and an Inspector.

ENCLOSURES :-

136
 7-199

I met the Agent and Traffic
Managers G. J. R. at Tienkama-
malai and arranged with
them for the erection of a
shed at the platform, of the
same dimensions and design
as the one put up at Pakala.
The Traffic Manager will
furnish me with a list of the
men on the running staff
to whom passports should
be given in accordance with
the instructions contained
in your letter no. $\frac{16}{2}$ dated 5-1-88 -

2 Thoolie bearers have been en-
gaged, and a supply of dis-
infectants will be kept on
the spot in charge of the medical
officer as soon as the inspection
shed (which is already in
course of construction) is
ready.

I have arranged also for

a police force consisting of
1 head Constable and 6 Constables
to do duty under the orders
of the Medical officer on the
arrival of the trains. The
site of the Plague Camp was
inspected and approved by
Surgeon Col: King in November
last when he visited the place
on the occasion of the Festigai
festival. It is within ten
minutes' walk from the
station. It consists at
present of two sheds 40' x 20'
each, divided into two com-
partments. A small shed
for the Hospital Assistant
and two small sheds 12' x 14' for
relatives of Plague patients.
with the necessary cooking shed
and latrine. Water is obtainable
from wells in the neighbourhood.

I have directed the erection
of

of six more small sheds
12' x 10'. The distribution
of the camp would therefore
be as under:

1. Plague Hospital shed for natives 40' x 20'

2. Sheds 12' x 10' for relatives

2. Cooking sheds

2. Latrines

6. Sheds 12' x 10' for suspects
(natives)

2. Cooking sheds

2. Latrines

1. Shed 40' x 20' for European
suspects

1. Shed for Hospital assistant

A shed will have to be built

to serve as a plague hospital

for two Europeans and I have

directed this to be put in hand.

The following staff is already

engaged:

4 male men and attendants

3 female - " do " "

4. Thakie beards.

2 Laties } will have been

2 Cooks } engaged by now

2 Thakies }

Two hospital assistants
one compounder, &

Two nurses - are still required.

As soon as the Hospital
assistant who has been

ordered from Madras joins, the
man at present doing duty

at the station will take charge
of the camp. Should a second

be required the Chergam
Dispensary will be closed and

the Hospital assistant there
brought in at once.

The Lt Surgeon will be requested
to day to send up a compounder

and two nurses.

As regard arrangements for
prevention of rebooking, I have

directed the station master and
medical staff to be specially on the

alert, and I have directed the
Tahsildar to bring to notice all cases

in which persons to whom
passports have been issued
fail

fail to present themselves before
Plague authorities for inspection -
I thought of ordering him also to
depute Dalug peans to watch the
movements of all animals, but
hesitated to do so as this would
undoubtedly afford an opportunity
for petty annoyance and extortion,
and I beg that I may be informed
of any other measures that have
been adopted and approved
Elsewhere.

In conclusion I have to
report that I permitted the
detention of two passengers (sepoys)
last night one of whom was
suffering from slight fever. He
had been detained for 12 hours
and disinfectd at Lingabada
Inspection station and was pro-
ceeding to Trichinopoly. He is
suffering from Syphilis, but
shows signs of glandular
swellings. The Medical officer
thought it best to err on the side
of caution and I agreed with him.
The case will serve to test the
efficiency

efficiency of the arrangements
at the camp.

The Sub Collector remains at
Tiruvannamalai for two or three
days to see the arrangements
put in working order.

The D^r Medical & Sanitary officer,
Dr. Chalke, has been requested
to proceed to Tiruvannamalai
as soon as possible to see
to the provision of dis-
infectants, medical stores
and comforts and to instruct
the Hospital Assistant
in charge of the camp in the
treatment of suspects and
plague cases.

I have the honour to be,

Sir,

Your most obedient Servant,

Atyazuddin

Foriff Collector.
