SIR,

As intimations of passengers from the plague infected parts were received from some of the medical officers in charge of Railway frontier inspection stations with incomplete or indefinite addresses such as "Care of Station master Bezavada" and "going to bathe in the Kistna" I invited the attention of the officers in charge of all the Railway frontier inspection stations in the presidency to this fact on the 26th September last and requested them to give definite addresses in future to facilitate easy tracing out of the individuals concerned. The duplicate copies of the enclosed intimations issued on 31st October and 2nd November by the medical officer in charge of the frontier inspection station at Guntakab will show that the medical officer has paid no attention to this request. you will see that the address of one person has been given as "going to survey duty" and

Amantapur D. Surgeon's office
Camp Buntakul
31st January 1899

From

Captain R. Robertson I.M.S.
Dt Medical and Sanitary Officer
Buntakul

To

The Collector of
Amantapur D.

Sir,

In reply to your post note

R.C. 1052 P I have the honour to state
10.12.98 that no report was wanted in the reference
quoted above.

The address given by No 1 was Surveyor Begowad.
Another passport No 136 was issued to one
2.11.98 Soudi Pathwan. The address given by him
was c/o Kathu then - Pathwan Gunther Kistna
Dt.

3. The addresses above recorded are, I think,
quite sufficient to trace out the persons referred
to, as the first man appears to be an official
of the Revenue Survey Department and the second
a Pathwan with a clear address. If these persons
were not to be found with these addresses, it
must be presumed that they had given false
information.

4. All the passport issuing officers were
already instructed to obtain proper & correct
addresses from the passengers before they leave.

The station for the passport issuing was
stopped at Cumbahur since November 1898.

I have the honour to be
Sir

Your most obedt Servant
