Note for the Chief Assistant F. D.

It is not clear from G. O. No 1054 Fin, ~~as~~ for what items the Surgeon General should submit an estimate, nor does he explain what estimates he is engaged in compiling. He has lately sent an indent on the Secy of State for medicines & disinfectants, but the cost of these will be probably met from the provision which Collrs make in their budgets.

15 Dt estimates have been received here & will be forwarded to F. D. shortly

Note

With reference to the note below of the Personal Assistant to the Plague Commr., it is submitted, that the intention of Govt. in calling for annual estimates of Plague Expenditure and lists of Plague establishments from the Surgeon-General ~~in addition to those~~ called for from the Dt. Collrs, is probably to provide the means of checking the latter estimates with by the former. A similar course was adopted in G.O. 923/21-10.98. The items in regard to which the Surgeon-General's estimates would specially be required for check, would seem to be the pay and allowances of Superior and subordinate Medical Officers (under his charge) on plague duty ~~whether employed directly under Govt. or under Local and Municipal bodies~~, as well as all contingent expendre & expendre on Supplies & Services which he incurs

NOTE FOR THE Plague Comr.

The Financial Dept has to be informed what lump provision under Provincial will be required next year for the 11 districts not under observation. A reminder for this information has come today.

2. An advance copy of G.O. No 1122 dt 28-11-98 reviewing the plague Estimates for Nov has been specially obtained. It came this afternoon and is submitted herewith.

3. I would work out the lump provision as follows. The most correct Estimate is that for the current month and the typical districts are Salem and Anantapur. The following are the Estimates for December for these two Dts

	Anantapur	Salem
24 D	1120	2724 60
24 A	710	325
3 A. ~~Lab~~ Land Rev	670	0
19 A	199	170
21 A.	0	
	2699	3279

3000 average per month or Rs 36,000 for

for 12 months.

4. There are 11 districts not under observation but it is not likely that plague operation will commence on a large scale simultaneously in all the Dts. Provision may therefore be made for half the number and this would amount to $\frac{36000 \times 11}{2} = 1,98,000$ or say 2,00,000 Rs.

5. The estimate under Provincial for the whole Presy except Madras City for the current year is Rs 1,97,328 but this amount does not cover the full twelve months.

6. An abstract of the Collrs' estimates for the next year is put up. The returns from Malabar & the Nilgiris are still due & telegraphic reminders have been sent.

According to the monthly plague establishment list, the monthly expenditure on establishment is only Rs ~~[illegible]~~ 34 excluding the contribution from Local. The estimate for the current year for all the 3 municipalities in the Godavari Dt is Rs 7,220 (vide page 71 of G.O. No 1122 Mis dt 28-11-98), while that ~~of~~ for Rajahmundry alone is Rs 687. If funds are provided to the extent of Rs 1,000, the provision would be ample for the current year. Details of the estimate are not available in this office.

Surgeon General.

NOTE FOR THE Financial Deptt.

The Estimate of Plague expenditure for 1899 - 1900 are herewith forwarded so far as received. The remaining Estimates will be sent on receipt.

2. It is almost impossible to frame any thing like a correct estimate of the requirements for the next year, but there cannot be much doubt that in the districts under observation (Vide Statement I) the present rate of expenditure on Establishments will be found to be necessary throughout the year and that provision should be made in the next year's budget on the scale sanctioned in the latest revised estimate for the Current Year. A sum of Rs. 10,000 should, however, be provided under "Petty Construction & repairs" in each district under observation in which the Collector's Estimate does not provide for the amount. It will be required for the repair of the existing plague camps or for the construction of new

The other items do not invo

any large expenditure

3. As regards the Districts not under observation (vide Statement II) it is not possible even to make a guess and the undersigned can only recommend that a lump provision of Rs: × be made under Provincial on account of the 11 districts shown in this list.

× will be reported separately

In respect to Local & municipal expenditure it is necessary to show separate provision for each Dt Board and municipality, and it is suggested that a lump provision of Rs: 15,000 for each Dt Board and Rs: 5000 for each municipal Town should be made.

Estimate of Plague Charges for 1899-1900 debitable to Provincial in districts not under observation.-

---

NOTE FOR THE Financial Department

The Districts in which the most complete arrangements are existing to combat plague and the estimated cost of the arrangements (Provincial) for the ensuing year are:-

	Rs:
North Arcot	26,146
Anantapur - . . .	42,000
Bellary - - - .	57,942
Salem - - - -	62,460.

The average expenditure per mensem varies from about 2000 to 5000 Rs:

The question is:- What lump sum should be provided for the 11 districts not yet under observation for plague charges in 1899-900?

The average cost (Provincial) of a district under observation may be taken at about Rs: 4000 per mensem. H

It is unlikely the whole of the 11 districts will come under observation on April 1st

Provision for 6 for 12 months costs come to Rs: 2,88,000^+^ for the year.

+ vide telegram attached

The estimate under Provincial for the whole Presidency, except Madras City for the current year is Rs:- 1,97,328. This, however, does not cover 12 months.

The lump allotment to be provided should, I consider, be not less than Rs: 2,00,000; & if possible Rs: 2,50,000 should be provided.
