Sir,

In acknowledging the receipt on the 11th instant of G.O. No. 254 M. Mis. dated 24th February 1899, I have the honor to state that the Sanitary Commissioner's opinion (para: 3) that licenses are issued without requiring Sanitary Inspectors to inspect places under Section 188, is not borne out by the records in the Municipal office, as the Inspectors are invariably required to inspect and report on all applications under - a - d - g - j - l - m - n - o - p - q - before the issues of licenses. Applications are not received under - b - c - e - f - h - i.

2. The Inspectors are also required to inspect and report under Section 186 before the issue of notices. To enable them to carry out

out their inspections they are required to keep a pony and are paid Rs. 15. a month for its keep, which they declare is insufficient.

3. When forwarding the diaries of the Sanitary Inspectors to the Sanitary Commissioner in November 1898. I added:-

"It may be mentioned that the Inspectors when called upon in special cases make special reports which are not alluded to in the daily diaries."

4. Mr. J. A. Jones, the Sanitary Engineer to Government who was at Ootacamund very recently will be able to say, if asked, if the places over which he had to go daily in connection with the drainage scheme were kept as clean as they should have been. These places were partly in charge of a certificated Sanitary Inspector and partly under a non-certificated man.

5. As I have already pointed out the great difficulty here, is in getting the staff of maistries, Sweepers, Scavengers and Cart-drivers to do the work required of them satisfactorily.

6. Mr. Aldridge is not prepared to continue in the post of Sanitary Inspector. Therefore the Sanitary Commissioner can arrange for the appointment of a duly qualified man, giving me notice as to when he

he will be in a position to make the appointment as I have to give Mr. Aldridge a month's notice.

I have the honor to be,

Sir,

Yours most obedt. Servt.

W. Rammell
Chairman.
