SUBJECT.

Subd a copy of letter from the Collr of Anandapur stating that there was some mistake as regards the naming of the ob-servation circles formed in the Kalyan drug Taluk and that as plague is dying out the connection of the same may be postponed to the future; and stating that he agrees with the Collr.

PROCEEDINGS OF THE PLAGUE COMMISSIONER

Read the following letter from the Collector of Anantapur, dated 15th March 1899, Ref. on C. No. 650/P :-

I have the honour to state that there was some mistake as regards radius of the observation circles formed in Kalyandrug Taluk. The Deputy Collector of Anantapur was asked in this office C. No. 650 dated 18-2-99 to map out the western side of the Kalyandrug Taluk bordering on Mysore Frontier into 10 miles circles and the Tahsildar of Kalyandrug to whom the Deputy Collector communicated this office order misunderstood it for 10 miles radius, divided the western portion of the Taluk into observation circles with a radius of 10 miles and submitted a map accordingly.

This mistake was found out only after the formation of circles was sanctioned by Government.

A map of the Taluk drawn on 4 miles scale dividing the original three circles into six with a list of villages comprising each circle is herewith sent for approval. I however think that as the plague seems to be dying out the alteration may be postponed for the present.
