## GENERAL DEPARTMENT (PLAGUE).

*Bombay Castle, 20th March 1899.*

No. 1996-P.—The following Summary of Plague Operations in Bombay City during the week ending the 11th March 1899 is published for information :—

There were 2,444 deaths from all causes, being an increase of 137 deaths over the total for the previous week. Of these, 145 deaths were untraced. 136 deaths were due to measles. There was but little mortality from relapsing fever. The public health of Umarchadi, Dongri, and Worli greatly deteriorated, but 13 sections of the City showed improvement. About 25,000 persons left the City in excess of arrivals, thus reducing the population to about 7,90,000.

The figures for plague attacks, deaths and total mortality are compared below.

The admissions have been slightly in excess during the week and the mortality is still very heavy, and the type of the disease still continues unchanged.

Sixteen Hospitals show an increase in their admissions, but only one of these, "S. Strong's," shows a large increase. This Hospital will open two more wards shortly and is doing good work. Seven Hospitals show a decrease in the numbers admitted.

There is a decrease in the numbers of Evicts and Contacts in the Camps and Hospitals, but the Private Camps along the Kennedy Sea Face, Cruikshank Road and the various Parsi Camps have increased.

Special Medical Officer, Plague Operations.

Prophylactic Inoculations performed in Bombay during the week ending 8th March 1899  
as reported to the Plague Research Laboratory by the undermentioned operators.
