Copy of Letter No 972 from the Com-
missioned Medical Officer Tungabhadra
to the Collector of Bellary

I herewith forward a plan and estimate
for an additional room to be built ad-
joining my quarters, as I see that the
expenditure for adding on a room to them
would cost more than this estimate; and
request that the same may be sanctioned
and orders issued for its construction as
early as possible.

2. I need hardly add that I had to
undergo great discomfort during the
time that I have been here, as the
lath walls afford scanty protection
from the high winds and rains especially
as the walls could not be taken right up
to the ceiling leaving a big space at the
top. There are only two rooms in the house
and no provision is made for an office
room. And I hope that the addition
will afford a little shelter and minimize
the inconveniences of this life
