Submitted to Government

2. Alur town which was previously infected has been evacuated & is now clear. The plague has now broken out in Alur fort and as the place is overcrowded & consists mostly of small & ill ventilated houses, the C.M. recommends a general disinfection of all the houses in the fort by the agency of troops. The P.C. supports the recommendation and requests that a company of native troops may be ordered to be placed at the Bellary C.M.'s disposal as early as practicable. The troops formerly employed on plague duty in this S.L. have all rejoined their regiment.

14/4
To Secy to Govt & the Secy
C.M. to C.M. of Bellary

Submitted to H.M. for orders.

14/4/99

(I submit it for the Secy as the matter is urgent)

note

This draft is put up as according to the note, papers have to be sent to the Secy till 15/5, and as the Secy has more than once objected to P.C. sending papers direct to H.M. or even marking them to H.M. the Secy is in charge & he will take orders of H.M.

No.	Date.

Copy of letter no 927 P from the
13.4.99

District Medical and Sanitary Officer
Bellary to the Collector of Bellary.

I have the honor to inform you that
as 3 cases of indigenous plague have
recently been reported to have occurred
in the fort at Alur, I consider it
very necessary that the Fort should be
immediately evacuated and as the
place is overcrowded with very narrow
lanes surrounded by a wall and the
majority of the houses small and ill-
ventilated, I am of opinion that all the
houses should be disinfected, otherwise
I anticipate plague reappearing when it
is reoccupied.

Alur is an important village on
the trunk road 27 miles from Bellary and
16 from Adoni and a very large market
is held weekly and as plague has practi-
cally been confined to this Taluk, I
consider it also necessary to disinfect all
the houses in the Peltah and suggest that
Sephap under a British officer being employed
to do the disinfection. Past experience has
shown that the work is done to the well
done.

Forwarded to the Plague Commissioner
for favour of orders as regards the
despatch to the 9th M.I. I agree into all that
the District Medical and Sanitary
officer says and have ordered the
immediate evacuation of the fort.
Major Jackson commanding 9 M.I.
wishes to retain his men at Bellary
till 20.4.99 for the completion of the
annual course of musketry & that
concession may perhaps be allowed if
the evacuated houses being secured
against entrance meanwhile.
