GENERAL DEPARTMENT (PLAGUE).

Bombay Castle, 3rd April 1899.

No. 2348-P.—The following Summary of Plague Operations in Bombay City during the week ending the 25th March 1899 is published for information:—

During the week ending the 25th March 1899, there were 2,327 deaths from all causes reported from the cemeteries, being a reduction of 17 compared with the preceding week's total. Of these deaths, 127 were not traceable.

There was a considerable increase during the week in the death-rate of Girgaum, Mázagaon and Parel, but a marked improvement in the large areas comprised in C Ward and Byculla. This is the first indication of a decline in Byculla for ten weeks past and may be regarded as a hopeful feature.

The excess of departures over arrivals during the week fell to 15,535, leaving in Bombay an estimated population of about 7,58,000.

The figures for plague attacks, deaths and total mortality are compared below.

Period.	Plague Attacks.	Plague Deaths.	Total Mortality.
Week ending 26th March 1898	1,031	1,158	2,176
Ditto 4th March 1899	1,119	971	2,307
Ditto 11th March 1899	1,254	1,109	2,444
Ditto 18th March 1899	1,319	1,065	2,344
Ditto 25th March 1899	1,419	1,144	2,327

The admissions to hospitals and camps are shown in the following statement. 853 plague cases were under treatment at the beginning of the week. 669 were admitted during the week. Recoveries and deaths were 131 and 521, respectively. Appended are also statements showing information in regard to the plague operations and in regard to inoculation.

Return showing information regarding Plague under the following headings for the week ending 6 A.M. on Saturday the 25th March 1899.

Section.	Population by Census of 1891.	Average weekly Mortality.	Actual Mortality for the Week	No. of Plague cases discovered.			No. of Patients removed to Hospitals. * One suspicious case in Hospital under observation.

† Three suspicious cases in Hospital under observation.

‡ Too ill to be removed.

§ Two cases of relapsing fever.

|| Not removed being in a moribund condition.

NOTE.—The total number of cases discovered is shown. If a man is discovered sick, he is entered as an attack; but if he subsequently dies he is not again entered as a death. Similarly when the first intimation of a case is after the patient's death, he is entered as a death, but not also entered as an attack.

Weekly Return of Hospitals, Public and Private, for Infectious Diseases from 6 A.M., Saturday, 18th March, to 6 A.M., Saturday, 25th March 1899.

By order of His Excellency the Right Honourable the Governor in Council,
A. WINGATE,
Acting Chief Secretary to Government

GENERAL DEPARTMENT (PLAGUE).

Bombay Castle, 10th April 1899.

No. 2488-P.—The following Summary of Plague Operations in Bombay City during the week ending the 1st April 1899 is published for information :—

The decrease in the total mortality of the City noticed during the two previous weeks has continued during the week under report : the number of deaths from all causes being 2,221, or a reduction of 106 compared with the previous week's figures. 117 deaths reported at the cemeteries were not traceable in the town. There were 136 deaths from measles, and dysentery is reported to be prevalent in the north of the Island. Whilst a marked improvement occurred in the death-rate of the Dongri, Tarvádi, Byculla, Tárdeo and Sion Sections of the City, there was a counterbalancing increase in the mortality in Khára Taláv, Mázgaon, Kámathipura and Parel : the figures in the last three districts being the highest returned during the present epidemic. The excess of departures over arrivals during the week was 12,331 against 15,535, 17,000 and 25,000 during the three previous weeks. The population at the end of the week was about 7,46,000.

The figures for plague attacks, deaths and total mortality are compared below.

Period.	Plague Attacks.	Plague Deaths.	Total Mortality.
Week ending 2nd April 1898 ...	935	749	1,626
Ditto 11th March 1899 ...	1,254	1,109	2,444
Ditto 18th March 1899 ..	1,319	1,065	2,344
Ditto 25th March 1899 ...	1,419	1,144	2,327
Ditto 1st April 1899 ...	1,237	992	2,221

The admissions to hospitals and camps are shown in the following statement. 900 plague cases were under treatment at the beginning of the week. 529 were admitted during the week. Recoveries and deaths were 131 and 442, respectively. Appended are also statements showing information in regard to the plague operations and in regard to inoculation.

Return showing information regarding Plague under the following headings for the week ending 6 A.M. on Saturday the 1st April 1899.

Section.	Population by Census of 1891	Average weekly Mortality.	Actual Mortality for the Week	No. of Plague cases discovered.			No. of Patients removed to Hospitals.	No. of Persons sent to Hospitals or Camps as Contacts.	No. of Persons segregated in private quarters other than authorized Hospital or Camp.		Houses inspected.	Houses disinfectd.	Houses or whole floors vacated	No. of Persons sent to Camps as Evicts.

* One suspicious case in Hospital under observation.

One too ill to be removed.

† Too ill to be removed.

‡ One case of relapsing fever.

§ One case isolated by the Health Department.

§ Thirteen allowed to remain in Navanagar Mahomedan Village and Camp and 3 left at home under treatment and 9 in dying condition.

NOTE.—The total number of cases discovered is shown. If a man is discovered sick, he is entered as an attack; but if he subsequently dies he is not again entered as a death. Similarly when the first intimation of a case is after the patient's death, he is entered as a death, but not also entered as an attack.

Weekly Return of Hospitals, Public and Private, for Infectious Diseases from 6 A.M., Saturday, 25th March, to 6 A.M., Saturday, 1st April 1899.

The admissions during the week have been less in all Hospitals both with regard to plague and relapsing fever. The mortality however has been as severe, if not severer, than the week before. Four cases of small-pox, one of chicken-pox and 6 cases of measles were admitted during the week at Arthur Road Hospital. There is an increase in the number of people admitted into the private camps and also in the number of evicts.

(Signed) JAMES S. WILKINS, I. M. S.,
Special Medical Officer, Plague Operations.

By order of His Excellency the Right Honourable the Governor in Council,

A. F. WOODBURN,
Acting Chief Secretary to Government.

No. 2730 OF 1899.
P

GENERAL DEPARTMENT (PLAGUE):

Bombay Castle, 20th April 1899.

FROM

THE ACTING CHIEF SECRETARY
TO GOVERNMENT;

To

THE SECRETARY TO THE GOVERN-
MENT OF MADRAS.

SIR,

I am directed to forward, for your information,
the accompanying Summary of Plague Opera-
tions in the Bombay City up to the week
ending 1st April 1899.

I have the honour to be,

Sir,

Your most obedient Servant,

Ernest Sands

For Acting Chief Secretary to Government.

22/4
