PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—again the following paper :—

Plague Commissioner's Proceedings, No. 130, dated 17th January 1899.

Proceedings—No. 130, dated 17th January 1899.

2. The standard scale of equipment for each road inspection station is given on pages 118 and 119 of the Madras Plague Regulations and Rules. As regards railway frontier inspection stations, the matter has been left to be settled on a special representation by the officer in charge. In consequence of this ruling, the Medical officers in charge of Hospet and Tungabhadra inspection stations have been sending indents for various articles from time to time, while no similar applications have been received from the other stations. It is desirable that a uniform procedure should be adopted as far as possible in all districts. The Plague Commissioner accordingly requests the Surgeon-General and the Sanitary Commissioner to draw up, in consultation with each other, (1) a scale of minimum equipment for each railway inspection station which must always be kept in reserve at that station; and (2) a scale of additional quantities of stores which should be obtained whenever the number of patients in the hospital or of the people under segregation exceeds the number for which provision is made in the minimum scale. Both these lists should contain only those articles which are absolutely necessary and which will have to be issued free. A supplemental list of articles which it may be desirable to have at hand for the convenience of patients and others and for which they will be required to pay may also be prepared. Once these lists are drawn up for each railway inspection station and approved by the Plague Commissioner, the question of replacing articles spent in the ordinary course will be left to the Collectors concerned to dispose of.

(Signed) L. E. BUCKLEY,
Plague Commissioner.

READ—also the following papers :—

G.O., No. 1598 P., dated 17th December 1898.

ABSTRACT.—Leaving it to the Plague Commissioner to dispose of the question of the equipment of the plague hospitals and camps at railway inspection stations after consultation with the Surgeon-General.

From L. E. BUCKLEY, Esq., Plague Commissioner for Madras, to the Surgeon-General with the Government of Madras, dated 5th January 1899, Ref. on C. No. 2657.

With reference to G.O., Mis. No. 1598 P., dated 17th December 1898, I have the honour to request that you will be so kind as to let me know what equipment you consider necessary. I am inclined to think that the full equipment detailed in the plague manual need not be held in readiness at all stations, and that, if the necessity for furnishing hospital quarters should arise, much might be taken from the general store.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 19th January 1899, No. 65.

Adverting to your Ref. on C. No. 2657, dated the 5th January 1899, I have the honour to state that the equipment given in the plague regulations is meagre.

2. The equipment of the plague hospital and of quarters for nurses and hospital assistants can be kept in the general store until required, but it should be quite separate from that used for other purposes, and once used in a plague hospital should not be returned into the general store until thoroughly disinfected where possible or if this is not possible the articles should be destroyed when no longer required in the plague hospital.

3. In no properly organized hospital for the treatment of epidemic diseases is the furniture allowed to be interchangeable.

Letter from the Plague Commissioner, dated 2nd February 1899, Ref. on C. No. 878.

ABSTRACT.—Inquiring what equipment should be maintained at each inspection station.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 9th February 1899, No. 150.

With reference to your Ref. on C. No. 878, dated 2nd February 1899, I have the honour to state that in accordance with your Proceedings, No. 130, dated 17th January 1899, I am now preparing a list of equipment in consultation with the Sanitary Commissioner. The list will be forwarded to you in a few days.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 24th February 1899, No. 191.

Adverting to your Proceedings No. 130, dated 17th January 1899, I have the honour to forward herewith a scale of equipment for a suspect camp with accommodation for 100 "suspects" and for 10 hospital beds, attached to a railway plague inspection station.

2. The list has been drawn up in communication with the Sanitary Commissioner and Major Hakim, I.M.S.

Scale of equipment for a Suspect Camp with accommodation for 100 "Suspects," and for ten hospital beds, attached to a Railway Inspection Station.

Minimum scale.										Additional stores to be obtained when the number provided for, is exceeded.	Supplemental list of articles to be issued on payment.
Special observation ward in Suspect Camp.		Hospital of ten beds.		For one nurse.	For one medical subordinate.	For office and dispensary.					
Natives.	Europeans.	Natives.	Europeans.								
At two per cent. of total accommodation for each sex.	One male and one female.	Four males and four females.	One male and one female.

No. 761-S.

Forwarded to the Plague Commissioner.

(Signed) W. G. KING, Lieut.-Col., I.M.S.,
Sanitary Commissioner for Madras.

3rd March 1899.

Endorsement of the Surgeon-General with the Government of Madras, dated 2nd February 1899, No. 125.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of South Arcot for furniture and medical stores required for the plague inspection station at Tiruvannamalai.

Endorsement of the Surgeon-General with the Government of Madras, dated 16th February 1899, No. 168.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of Chingleput for furniture, &c., required for the plague inspection station at Chingleput.

Endorsement of the Surgeon-General with the Government of Madras, dated 5th March 1899, No. 1413.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of Chingleput for a large almirah required for the plague camp at Chingleput.

PROCEEDINGS—No. 2485, dated 20th March 1899.

The scale of equipment for railway inspection stations, prepared by the Surgeon-General in consultation with the Sanitary Commissioner, is approved and is communicated to all Collectors for information and guidance.

2. Equipment may be provided by Collectors according to the scale without further sanction.

3. The Superintendent, Government Press, will send a proof of the list to the Surgeon-General, who is requested to mark therein all articles which should be obtained through him from the Medical Stores Depot. Other articles should be obtained locally or from Madras.

S. S. Mahalingam
19/4/99
Personal Assistant,
for Plague Commissioner.

To all Collectors (A, B, C, F, G, H, J, K).

„ the Surgeon-General.
„ the Sanitary Commissioner.
„ the President, Municipal Commission, Madras.
„ the Secretary to Government, Local and Municipal Department.
„ the Superintendent, Government Press, Madras.
