FROM

Bannalyne Macleod Esq.,
COLLECTOR OF

COLLECTOR OF Anantapur

To

THE

Plague Commission

Monarchs

SIR,

SIR,

Owing to the increase of plague at
Hindupur and Choulur, and the difficulty of
getting disinfection of houses done by local coolies
as well as the prospect of more attacks in
neighbouring villages, I have the honour to apply
for the services of a company of sepoy under
a British officer at Hindupur for disinfecting
purposes and moral support to the civil authorities.
My detachment will be glad to

2. The Gumbakal detachment will be glad to get back to their regiment at Bellary or at all events not to go to such a distance as Hindupur and I would suggest a company being got from the 1st Pioneers at Bangalore, men well used to manual labour and nearer to the spot.

Gumbakal of the Plague Deputy Collector who is assisted by one of my Deputy Sahsildars who brought in from time to time from out stations. I would again urge the desirability of relieving this Dy Sahsildar by a Special Deputy Sahsildar for Gumbakal as the Officers now brought in have to neglect their own work at other distant stations.

Gooley is a heavy Saluk and Gumbakal has sprung into importance of late years and it is necessary that at all events at present a Deputy Sahsildar should be stationed there so as to allow the Gooley Sahsildar and the Uruwakonda and other Dy Sahsildars to attend to their legitimate duties and be ready to attend to plague measures at their head quarters.

I have the honour to be
Your most obedient servant
Mammattam Muttiah
Collector

AM

C. No. 2473 + 2574 sent in original.

NOTE FOR THE Local & Municipal Department

* End of the Dy. Sahsildar sent to us unofficially & sent back to them

On the papers below the Collector of Anantapur asks (among other things) for 100 Sepoys under a British Officer for disinfection work at Anantapur.

2 He ~~undoubtedly~~ requires help in this direction, but I doubt if a general disinfection is practicable - it will take a long time. I should like him to have 25 Sepoys for disinfection work - for the present. On receipt of further information it may be found necessary to ask for the full 100. In asking military for 25, the probable demand for 75 more should be mentioned. I don't know from what Centre they will be sent. Bangalore is nearest.

3 While on tour I noticed that the British officers in command of disinfection detachments have but little to do. The native officers are quite capable of supervising the disinfection work. I spoke to one of them (the British officers), and

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Plague Commissioner dated 20-12-98 reporting that several indigenous cases have broken out at Hindupur and three quarters of the town have been evacuated and requesting to warn the military to be ready for disinfection of the town.

Order No. 5. P. M. dated 2-1-99

The following telegram will be despatched to the Dy Adjutant-General:—

"Government requests fifty Sepoys may be placed at disposal of Collector, Anantapur for disinfection work at Hindupur.

(True Extract.)

A Edgington
For Secretary to Govt

To the Plague Commissioner with
C. No. 2473 returned.

found he would be glad if was given something to do. I think they might be given general charge of plague operations in the locality to which they are sent working under the Collector or the District Officer, if a European. They are capable of doing much good work. I have spoken to him about it and he approves, but asks on what terms they are sent. Is there any objection to giving them charge of plague work. I believe a British officer is bound to be sent with every detachment over 50 (or 60).

Disinfection will probably be required at Maddur; the Sindhi Sepoys may go there.

Camp Gooty
3/1/99

My dear Buckley,

The 3rd doctor Roberts who has arrived is to come to Gooty in case of further attacks here.

On Capt Robertson's advice I have moved the Hindupur Road frontier Station back to Penumbonda.

He says that 25 sepoy for Hindupur are insufficient & wants to make a complete job of it with 100 men. He also wants to let
