CURRENT No. 2535

For orders

From for from Sharmavaram & Panchkonda is then plague now in Mysore Aug 7/88

Most of the infected villages are not found in the map (Hlas sheet 59+60). Of the places found the nearest place is in Koriabur Salak is more than 50 miles from Sharmavaram and 30 miles from Panchkonda.

From

The Director of Anantapur

In Orders

No. 1162-298

It is doubtful whether these observation circles are required now.

If circles are to be established to protect Sharmavaram & Panchkonda talukas against importation of plague from Mysore, it may be argued that similar circles ~~are required~~ should be opened to protect Anantapur, Kothkuntla & Tadpatri talukas against the introduction of plague from Gooty & Ballikunda talukas.

COLLECTOR OF

Anantapur,

TO

THE Plague Commissioner
Madras

SIR,

Enclosures.

With reference to your Proceedings No 256/18 dated 27th January 1899, I have the honour to state that I have proposed to open three observation circles in Punukonda and two in Bhannavarum Taluk as the western and southern sides of them border on Mysore Frontier respectively. The circles are roughly 10 miles diameter.

2. Sketches of the observation circles drawn on the scale of 4 miles to an inch, and lists of circles with the names of villages comprising the same, are herewith sent for information
