The Plague Commissioner,

MADRAS.

Sir,

We have heard this morning from our Manager at Bezwada that under the orders of the Plague Officer there casks of spirit are to be exposed to the Sun for 12 hours and bags of sugar are to be rebagged. These goods are received from our Factory and Distillery at Ranipet and as we have not received advice that any such restriction has been imposed elsewhere on goods from the same destination we have the honor to ask if there is not some mistake. If our surmise is correct we would be obliged by your wiring the Officer the necessary instructions in the matter.

Madras.

SIR,

With reference to your telegram of the 10th instant I have the honor to inform you that I have ascertained from the Chairman of the Municipal Council, Rani-
pettai that neither have any consignments of sugar or liquor been received from Rani-
pettai nor did he take steps to disinfect any articles of food or drink received from North Arcot or from any infected track.

- The medical officer on plague duty at Kundapalli reports that articles of diet, vegetables and other edibles received from plague infected parts are not disinfected but that the gunny bags, old palmyra mats and such other articles as form the cover of the foods and which are likely to carry infectious germs are subjected to disinfection or exposure to sun as the case may be.
