SIR,

With reference to your Ref on C No 2032
dated 6.3.99, I have the honour to state that
on consideration I am by no means confident
that a patrolling Inspector will do any real
good, commensurate with the cost involved
in his appointment. The effective guarding
of the river frontier really depends on the
village peonies' exertions, and an Inspector
would probably be a waste of money. I shall
not under the circumstances appoint the
Inspector referred to.

I have the honour to be

Sir,
Your most Obedient Servant

NOTE FOR THE

Cho 2032 of 1899

Propo

The temporary
entertainment of
an adol plague Inspr
to patrol the Juyabada
rivers in the Bellary
taluk, up to the end of
July next, is sanctioned

The app. is sanctioned
if the District still
considers that the
man can do any real
work. He disclosed his
history at D. P. & my
recollection is that we
decided he was not
likely to do any real
work. His decision is
report his decision.

being from

Ch. op. 93 by

note The Bellary taluk
frontier is about 25 miles
and there must be at least
3 Plague Inspectors already
in charge of this. The C. M.
says that the new Inspector
"will patrol the whole river
line in Bellary taluk".
Obviously he cannot do this
all himself, and the Colls
does not explain whether
the new man is merely to
superintend

superior to work of the
existing inspectors.

To

THE Plague Commissioner

Madras

SIR,

I have the honour to state that the river Tungabhadra has fallen and become fordable almost everywhere, thus giving an opportunity for people on the other side of the river to enter this district without passing through a Road Frontier Inspection Station. This circumstance very much adds to the responsibility of the Village headmen in issuing passports and that of the plague observation staff in seeing that the reddies perform their duty in this respect. Most of the people from the other side appear to have been crossing the river near Siruguppa in places other than that at which the Road Frontier Inspection Station near Siruguppa is located. It is

necessary that the fordable places should
be watched as far as possible and that
the villages lying along the river in the
Bellary taluk should be more systema-
tically patrolled. To secure this end
I request that sanction may be accorded
for the employment of an additional
plague Inspector whose duty will be to
patrol the whole river line in Bellary
taluk. His services may be dispensed
with in July next when the river will
again be in freshes. I propose to re-
tain the Siruguppa Road Frontier Ins-
pection station as the road is an im-
portant one.

I have the honour to be

Sir,

Your most obedient servant

R. L. S.
