From

THE SUPERINTENDENT, ~~RESERVE~~ REMOUNT DEPÔT,
HOSUR, (MADRAS.)

To

The Plague Commissioner,
Madras.

Remount Depot, Hosur,
No. 2366 M Dated the 11th March 1899.

Sir,

In compliance with the Plague Regulations & in conjunction with the Plague & Civil authorities, a large number of the houses in the depôt Horsekeepers' Village have been unroofed & the roofing burnt. These men have been segregated in the different paddocks about the depot since the above precautions were taken & will be unable to reoccupy the Village until the houses have been thoroughly repaired and reroofed.

These men have already been put to considerable trouble & expense in having to evacuate their homes & they are too poor to rebuild & reroof their Village

without assistance. His Depôt is not in possession of any spare funds to spend on this account & I would therefore solicit your support & assistance in obtaining for them a grant from the Native Government of a suitable compensation per house in lieu of the loss sustained by them.

I have the honor to be
Sir,
Your most obt Servant

Dated 12 3 1899.

FROM R H Campbell Esquire
as COLLECTOR OF
BELLARY.

To

THE Plague Commissioner
Madras.

SIR,

The Tahsildar of Alur states that, in consequence of the outbreak of plague at Hiravakatte, near Peddahotur, he has in anticipation of sanction entertained from 1-3-99 two taliaries on Rs 5 each for plague duty in that village, the village taliaries being engaged in connection with their duties relating to collection of revenue. I have the honour to recommend that sanction may be accorded for the Entertainment of the two taliaries, whose services will be dispensed with when

are Answer required.

From

A. J. Pinhey Esq.,

Collector of South Canara,

To

The Plague Commissioner,

Madras.

Sir,

I have the honor to inform you that it is hardly possible to send the printed list of plague establishment from this district so as to reach you on the 5th. The return is to be compiled from those received from divisional officers who cannot be expected to send them prior to 1st of each month as the changes made till the last day of the preceding month have to be exhibited therein. It requires at least 2 days to prepare the consolidated return and get it printed. Then it takes 4 days for the return to reach you after it is posted. So much delay in transit does not, I believe,

C to 2178

occur in the case of any other District as every other District is connected by railway. In these circumstances I request you will be so good as to extend the time from 3d. to 7th in the case of this District though every endeavour will be made to submit the returns earlier, if possible.

I have the honorable,
Sir,
Your most Obedient Servt
for Ag: Collector

Comps

17 MAR. 1899

To

Negapatam, 16th March 1899

The Plague Commissioner
Madras.

Sir,

In acknowledging receipt of your favor. No 287. dated 31st January last, we have the honor to bring to your notice that, as directed by you a reference was made to the Straits Government for removing the 10 days' observation which the Superintendent of the Depot alleges to carry out under your instructions, of all the coolies arriving at the Negapatam Emigration Depôt from infected area. We beg to hand you herewith copy of a telegram received by us yesterday from Penang, and also copies of letters from the Emigration agents and the superintendent of the Depôt. The free passengers proceeding to Straits in immense numbers by the same steamers do not undergo any such observation prior to embarkation & it is the same case with the free coolies, whereas it is strange that the Statute Emigrants who, are usually admitted into the Depot, on the fourth day preceding that of embarkation, are subject to detention of

a

a still longer period Viz:- Ten days, in addition to the nine days' quarantine imposed upon all arrivals at Penang. From the telegram above referred to, it is clear that the Straits Govt. is under the impression not to deviate from the restrictions placed by the Plague Commissioner, Madras, while you are pleased to state that the matter is entirely left to that Government. In these circumstances, the recruiting agents, who are bound to satisfy both the authorities, have, at last to incur not only a dead loss to themselves but also the displeasure of their Employers in the Straits, because of want of labor in their Estates.

Now placing all the above to your valuable consideration, we beg that you will be good enough to instruct the Superintendent of the Negapatam Emigration Depôt to discontinue the Ten days' observation, alleged to be carried out under your orders, and treat the Emigrants on the same level as other passengers with regard to Plague restrictions, which would render the recruiting system more feasible, and for which we shall feel extremely thankful.

We have the honor to be.
Sir
Your most obedient Servants.

To

The Plague Commissioners,
Madras.

Sir,

Adverting to para 1 of your Proceedings No. 606 dated 3rd Instant, I have the honor to state that with reference to your letter No 320 dated 3rd Ultimo passports are issued at Chingleput to passengers from infected areas going to any station north of Chingleput on the main line of the South Indian Rly. For this purpose the trains from the South are being examined. On the 24th Ultimo 25 passengers who had commenced their journey at Kalamber and were bound for Madras came by train from the South and passports were issued to them. Under these circumstances I consider that the trains from the South should continue to be examined by the inspecting medical staff at Chingleput.

~~Camp,~~ Mangalore 6th March 1899.

FROM

A. J. Pinhey Esq.,
COLLECTOR OF SOUTH CANARA,

To

THE Plague Commissioner,
Madras.

SIR,

With reference to para 8 of your proceedings No. 1047 dated 28th December 1898, I have the honor to request that necessary sanction may be accorded in the case of the following plague establishments which were entertained for carrying out the quarantine Regulations promulgated in Notification No. 163 dated 31st August 97. No sanction appears to have been obtained for entertaining the establishments before this, apparently because it was considered that the 'Sanitary authority' as defined in these regulations had power to entertain them under cl. 5 of Reg. I & Reg. 29. These establishments are employed for only about 9 months in the year there being

Page 46 of the Plague Regns & Rules

no need for their services during the raining season, June to August, when there is no sea communication.

SUBJECT.

Report on the conduct of Sepoys employed on plague duty.

BACK PAPERS.

No.	Date.

FURTHER PAPERS.

No.	Date.

Copy of letter from the Divisional Plague officer, Hosur, 29th March 1877, to the Collector of Salem.

With reference to your endorsement No. 584, 27th instant regarding sappers' conduct, I have the honour to inform you that in the beginning and until a British officer was sent to command them, the conduct of the sappers employed here on plague duty was fairly unsatisfactory.

2. At first there was great dissatisfaction amongst them owing to their not getting their plague Batta (which they expected) in time and their having come here without any money to buy food. This caused some of them to give a lot of trouble one way or another and their conduct was reported to their Commandant with the result that at first a native officer was sent to command them and as they still gave trouble, I represented the matter and a British officer Lt: Howard, R. E., was sent to

take charge of them. Since then they have worked very well and I have had no reason to complain of their conduct.

3. I do not think therefore there is any necessity now to make a further report about them as it would only bring their name into bad repute. I have always known this corps to have a good name and it would be a pity to spoil it by reporting on their bad behaviour as a body, which was principally due to the bad example set by a few men who were known to be bad characters and who were sent here, I believe, to get rid of them before the General's inspection of the corps at Bangalore.

4. Lt: Howard had sent these men back to Bangalore and since their influence has been removed the conduct of the men has been good.

Endorsement No. 556, dt 13.5.1897.

Submitted to the Plague Commissioner. Before the arrival of Lt: Howard the men originally sent contained amongst their number some bad characters, who were addicted to drinking, fought with the Mattigiri Lemonte Employés and were insubordinate and uncontrollable by their own native officers. They caused a good deal of trouble, but Captain Forench does not wish to report them for the sake of the corps as a whole. For my own part I think such men as we had at first ought to have needed not.

T. 185.

NOTICE TO CONSIGNORS.

The Madras Railway Company hereby gives public notice,

1. That the Madras Railway Company will not be accountable for any articles unless the same are booked and a receipt for them given by their clerk or agent, and that when the articles are so accepted for conveyance, the responsibility of the Company for the loss, destruction, or deterioration of the articles is subject to the provisions of section 72 of the Indian Railways Act, 1890.

2. That the Madras Railway Company will not, in any case, be responsible for the loss, destruction or deterioration of any of the following articles, viz.—Gold or silver, coined or uncoined, manufactured or unmanufactured; Pearls, precious stones, jewellery, and trinkets; Watches, clocks or time-pieces of any description; Government securities; Government stamps; Bills of exchange, bundies, promissory notes, bank notes and orders or other securities for payment of money; Maps, writings, and drawings; Paintings, engravings, lithographs, photographs, carvings, sculpture, and other works of art; Articles of glass, China, or marble; Silks in a manufactured or unmanufactured state, and whether wrought up with other materials; Shawls; Lace, and furs; Opium and Narcotic preparations of hemp, ivory, ebony, coral and sandal-wood; Musical and scientific instruments; Articles of personal use or ornament, and whether in use or not; Trunks, boxes, bags, bundles, or packages containing any of the articles aforesaid, or containing articles of special value which the Governor-General in Council may, by notification in the Gazette of India, declare to be articles of which the Company will not be responsible for the loss, destruction or deterioration, unless the nature and value of such articles have been declared by the sender, and an insurance, rate over and above the railway charges for carriage aid in the preparation of the same, paid to the Madras Railway Company.

3. That the railway receipt given by the Madras Railway Company for the articles delivered for conveyance must be given up at destination by the consignee to the Railway Company, or the Railway may refuse to deliver, and that the signature of consignee or his agent in the delivery book at destination shall be evidence of complete delivery.

If the consignee does not himself attend to take delivery, he must endorse on the receipt a request for delivery to the person to whom he wishes it made, and if the receipt is not produced, the delivery of the goods may, at the discretion of the Railway Company, be withheld until the person entitled in its opinion to receive them has given an indemnity to the satisfaction of the Railway Company.

4. That all claims against the Madras Railway Company for loss or damage to goods must be preferred in writing by or on behalf of the parties entitled to receive the goods, to the station master at the station to which they have been booked before delivery is taken, and that a written statement of the description and contents of the articles missing, or of the damage received must be sent forthwith to the Traffic Officer of the District in which the forwarding or receiving station is situated; otherwise, the Railway Company will be freed from responsibility.

5. That by section 77 of the Indian Railways Act, 1890, it is enacted that a person shall not be entitled to a refund of an overcharge in respect of animals or goods carried by railway or to compensation for the loss, destruction, or deterioration of animals or goods delivered to be so carried, unless his claim to the refund or compensation has been preferred in writing by him or on his behalf to the Railway Company within six months from the date of the delivery of the animals or goods for carriage by railway.

6. That the Madras Railway Company have the right of re-measurement, re-weighment, and re-calculation of charges at the place of destination, and of collecting, before the goods are delivered, any amount that may have been omitted or undercharged.

7. That the foreign railway goods must be paid either previously or at the time of delivery, and that by section 55 of the Indian Railways Act, 1890, it is enacted that if a person fails to pay on demand made by or on behalf of a Railway Company any rate, terminal or other charge due from him in respect of animals or goods left on their premises after the expiration of free time, the Railway Company may detain the whole or any of the animals or goods, or, if they have been removed from the railway, any other animals or goods of such person in respect of all such rates, terminal and other charges due on them.

8. That all goods left on the Madras Railway Company's premises are liable to wharfage and demurrage charges as per goods tariff, and these charges will also be levied on goods left on their pending payment of freight, and charges due on them.

9. That goods booked to stations on the Madras Railway or railways worked by the Madras Railway Company's tariff and goods booked to or over a foreign railway, are subject to the rules and conditions printed from time to time in the Madras Railway Company's tariff and to wharfage and other charges in force on such railway.

10. That by section 103 of the Indian Railways Act, 1890, it is enacted that if a person requests a railway administration to deliver goods to him elsewhere than at a railway station, he may be required under section 56 to give an account with respect to any goods, gives an account which is materially false, he shall be punished with fine which may extend to ten rupees for every maund or part of a maund of the goods, and the fine shall be in addition to any rate or other charge to which the goods may be liable.

11. That by section 107 of the Indian Railways Act, 1890, it is enacted that if in contravention of section 59 a person takes with him any dangerous or offensive goods upon a railway, or delivers or causes any such goods for carriage upon a railway, he shall be punished with fine which may extend to five hundred rupees, and shall also be responsible for any loss, injury or damage which may be caused by goods of such goods having been so brought upon the railway.

Scale of Equipment for Railway Inspection Stations.

Approving of the — prepared by the Surgeon-General in consultation with the Sanitary Commissioner; and communicating it to all Collectors, for information and guidance.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—again the following paper :—

Plague Commissioner's Proceedings, No. 130, dated 17th January 1899.

Proceedings—No. 130, dated 17th January 1899.

* * * * *

2. The standard scale of equipment for each road inspection station is given on pages 118 and 119 of the Madras Plague Regulations and Rules. As regards railway frontier inspection stations, the matter has been left to be settled on a special representation by the officer in charge. In consequence of this ruling, the Medical officers in charge of Hospet and Tungabhadra inspection stations have been sending indents for various articles from time to time, while no similar applications have been received from the other stations. It is desirable that a uniform procedure should be adopted as far as possible in all districts. The Plague Commissioner accordingly requests the Surgeon-General and the Sanitary Commissioner to draw up, in consultation with each other, (1) a scale of minimum equipment for each railway inspection station which must always be kept in reserve at that station; and (2) a scale of additional quantities of stores which should be obtained whenever the number of patients in the hospital or of the people under segregation exceeds the number for which provision is made in the minimum scale. Both these lists should contain only those articles which are absolutely necessary and which will have to be issued free. A supplemental list of articles which it may be desirable to have at hand for the convenience of patients and others and for which they will be required to pay may also be prepared. Once these lists are drawn up for each railway inspection station and approved by the Plague Commissioner, the question of replacing articles spent in the ordinary course will be left to the Collectors concerned to dispose of.

(Signed) L. E. BUCKLEY,
Plague Commissioner.

READ—also the following papers :—

G.O., No. 1598 P., dated 17th December 1898.

ABSTRACT.—Leaving it to the Plague Commissioner to dispose of the question of the equipment of the plague hospitals and camps at railway inspection stations after consultation with the Surgeon-General.

From L. E. BUCKLEY, Esq., Plague Commissioner for Madras, to the Surgeon-General with the Government of Madras, dated 5th January 1899, Ref. on C. No. 2657.

With reference to G.O., Mis. No. 1598 P., dated 17th December 1898, I have the honour to request that you will be so kind as to let me know what equipment you consider necessary. I am inclined to think that the full equipment detailed in the plague manual need not be held in readiness at all stations, and that, if the necessity for furnishing hospital quarters should arise, much might be taken from the general store.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 19th January 1899, No. 65.

Adverting to your Ref. on C. No. 2657, dated the 5th January 1899, I have the honour to state that the equipment given in the plague regulations is meagre.

2. The equipment of the plague hospital and of quarters for nurses and hospital assistants can be kept in the general store until required, but it should be quite separate from that used for other purposes, and once used in a plague hospital should not be returned into the general store until thoroughly disinfected where possible or if this is not possible the articles should be destroyed when no longer required in the plague hospital.

3. In no properly organized hospital for the treatment of epidemic diseases is the furniture allowed to be interchangeable.

Letter from the Plague Commissioner, dated 2nd February 1899, Ref. on C. No. 878.

ABSTRACT.—Inquiring what equipment should be maintained at each inspection station.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 9th February 1899, No. 150.

With reference to your Ref. on C. No. 878, dated 2nd February 1899, I have the honour to state that in accordance with your Proceedings, No. 130, dated 17th January 1899, I am now preparing a list of equipment in consultation with the Sanitary Commissioner. The list will be forwarded to you in a few days.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 24th February 1899, No. 191.

Adverting to your Proceedings No. 130, dated 17th January 1899, I have the honour to forward herewith a scale of equipment for a suspect camp with accommodation for 100 "suspects" and for 10 hospital beds, attached to a railway plague inspection station.

2. The list has been drawn up in communication with the Sanitary Commissioner and Major Hakim, I.M.S.

Scale of equipment for a Suspect Camp with accommodation for 100 "Suspects," and for ten hospital beds, attached to a Railway Inspection Station.

—	Minimum scale. Special observation ward in Suspect Camp. At two per cent. of total accommodation for each sex.	Special observation ward in Suspect Camp. One male and one female.	Hospital of ten beds. Four males and four females.	Hospital of ten beds. One male and one female.	For one nurse.	For one medical subordinate.	For office and dispensary.	Additional stores to be obtained when the number provided for, is exceeded. Natives.	Additional stores to be obtained when the number provided for, is exceeded. Europeans.	Supplemental list of articles to be issued on payment. Natives.	Supplemental list of articles to be issued on payment. Europeans.

Forwarded to the Plague Commissioner.

(Signed) W. G. KING, Lieut.-Col., I.M.S.,
Sanitary Commissioner for Madras.

3rd March 1899.

Endorsement of the Surgeon-General with the Government of Madras, dated 2nd February 1899, No. 125.

Abstract.—Forwarding, for sanction, an indent from the Collector of South Arcot for furniture and medical stores required for the plague inspection station at Tiruvannámalai.

Endorsement of the Surgeon-General with the Government of Madras, dated 16th February 1899, No. 168.

Abstract.—Forwarding, for sanction, an indent from the Collector of Chingleput for furniture, &c., required for the plague inspection station at Chingleput.

Endorsement of the Surgeon-General with the Government of Madras, dated 5th March 1899, No. 1413.

Abstract.—Forwarding, for sanction, an indent from the Collector of Chingleput for a large almirah required for the plague camp at Chingleput.

Proceedings—No. $\frac{785}{49}$, dated 20th March 1899.

The scale of equipment for railway inspection stations, prepared by the Surgeon-General in consultation with the Sanitary Commissioner, is approved and is communicated to all Collectors for information and guidance.

2. Equipment may be provided by Collectors according to the scale without further sanction.

3. The Superintendent, Government Press, will send a proof of the list to the Surgeon-General, who is requested to mark therein all articles which should be obtained through him from the Medical Stores Depôt. Other articles should be obtained locally or from Madras.

Scale of Equipment for Railway Inspection Stations.

Approving of the — prepared by the Surgeon-General in consultation with the Sanitary Commissioner; and communicating it to all Collectors, for information and guidance.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—again the following paper :—

Plague Commissioner's Proceedings, No. 130, dated 17th January 1899.

Proceedings—No. 130, dated 17th January 1899.

* * * * *

2. The standard scale of equipment for each road inspection station is given on pages 118 and 119 of the Madras Plague Regulations and Rules. As regards railway frontier inspection stations, the matter has been left to be settled on a special representation by the officer in charge. In consequence of this ruling, the Medical officers in charge of Hospet and Tungabhadra inspection stations have been sending indents for various articles from time to time, while no similar applications have been received from the other stations. It is desirable that a uniform procedure should be adopted as far as possible in all districts. The Plague Commissioner accordingly requests the Surgeon-General and the Sanitary Commissioner to draw up, in consultation with each other, (1) a scale of minimum equipment for each railway inspection station which must always be kept in reserve at that station; and (2) a scale of additional quantities of stores which should be obtained whenever the number of patients in the hospital or of the people under segregation exceeds the number for which provision is made in the minimum scale. Both these lists should contain only those articles which are absolutely necessary and which will have to be issued free. A supplemental list of articles which it may be desirable to have at hand for the convenience of patients and others and for which they will be required to pay may also be prepared. Once these lists are drawn up for each railway inspection station and approved by the Plague Commissioner, the question of replacing articles spent in the ordinary course will be left to the Collectors concerned to dispose of.

* * * * *

(Signed) L. E. BUCKLEY,
Plague Commissioner.

READ—also the following papers :—

G.O., No. 1598 P., dated 17th December 1898.

ABSTRACT.—Leaving it to the Plague Commissioner to dispose of the question of the equipment of the plague hospitals and camps at railway inspection stations after consultation with the Surgeon-General.

From L. E. BUCKLEY, Esq., Plague Commissioner for Madras, to the Surgeon-General with the Government of Madras, dated 5th January 1899, Ref. on C. No. 2657.

With reference to G.O., Mis. No. 1598 P., dated 17th December 1898, I have the honour to request that you will be so kind as to let me know what equipment you consider necessary. I am inclined to think that the full equipment detailed in the plague manual need not be held in readiness at all stations, and that, if the necessity for furnishing hospital quarters should arise, much might be taken from the general store.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 19th January 1899, No. 65.

Adverting to your Ref. on C. No. 2657, dated the 5th January 1899, I have the honour to state that the equipment given in the plague regulations is meagre.

2. The equipment of the plague hospital and of quarters for nurses and hospital assistants can be kept in the general store until required, but it should be quite separate from that used for other purposes, and once used in a plague hospital should not be returned into the general store until thoroughly disinfected where possible or if this is not possible the articles should be destroyed when no longer required in the plague hospital.

3. In no properly organized hospital for the treatment of epidemic diseases is the furniture allowed to be interchangeable.

Letter from the Plague Commissioner, dated 2nd February 1899, Ref. on C. No. 878.

ABSTRACT.—Inquiring what equipment should be maintained at each inspection station.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 9th February 1899, No. 150.

With reference to your Ref. on C. No. 878, dated 2nd February 1899, I have the honour to state that in accordance with your Proceedings, No. 130, dated 17th January 1899, I am now preparing a list of equipment in consultation with the Sanitary Commissioner. The list will be forwarded to you in a few days.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 24th February 1899, No. 191.

Adverting to your Proceedings No. 130, dated 17th January 1899, I have the honour to forward herewith a scale of equipment for a suspect camp with accommodation for 100 "suspects" and for 10 hospital beds, attached to a railway plague inspection station.

2. The list has been drawn up in communication with the Sanitary Commissioner and Major Hakim, I.M.S.

SCALE of equipment for a Suspect Camp with accommodation for 100 "Suspects," and for ten hospital beds, attached to a Railway Inspection Station.

No. 761-S.

Forwarded to the Plague Commissioner.

(Signed) W. G. KING, Lieut.-Col., I.M.S.,
Sanitary Commissioner for Madras.

3rd March 1899.

Endorsement of the Surgeon-General with the Government of Madras, dated 2nd February 1899, No. 125.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of South Arcot for furniture and medical stores required for the plague inspection station at Tiruvannámalai.

Endorsement of the Surgeon-General with the Government of Madras, dated 16th February 1899, No. 168.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of Chingleput for furniture, &c., required for the plague inspection station at Chingleput.

Endorsement of the Surgeon-General with the Government of Madras, dated 5th March 1899, No. 1413.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of Chingleput for a large almirah required for the plague camp at Chingleput.

PROCEEDINGS—No. $\frac{785}{49}$, dated 20th March 1899.

The scale of equipment for railway inspection stations, prepared by the Surgeon-General in consultation with the Sanitary Commissioner, is approved and is communicated to all Collectors for information and guidance.

2. Equipment may be provided by Collectors according to the scale without further sanction.

3. The Superintendent, Government Press, will send a proof of the list to the Surgeon-General, who is requested to mark therein all articles which should be obtained through him from the Medical Stores Depôt. Other articles should be obtained locally or from Madras.

Personal Assistant,
for *Plague Commissioner*.

To all Collectors (A, B, C, F, G, H, J, K).
,, the Surgeon-General.
,, the Sanitary Commissioner.
,, the President, Municipal Commission, Madras.
,, the Secretary to Government, Local and Municipal Department.
,, the Superintendent, Government Press, Madras.

Scale of Equipment for Railway Inspection Stations.

Approving ~~and communicating, with remarks, to all Collectors, for information and guidance,~~ of the — prepared by the Surgeon-General in consultation with the Sanitary Commissioner; and communicating it to all Collectors for information and guidance.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—the following paper :—

G.O., No. 130, dated 17th January 1899.

Order—No. 130, dated 17th January 1899.

* * * * *

2. The standard scale of equipment for each road inspection station is given on pages 118 and 119 of the Madras Plague Regulations and Rules. As regards railway frontier inspection stations, the matter has been left to be settled on a special representation by the officer in charge. In consequence of this ruling, the Medical officers in charge of Hospet and Tungabhadra inspection stations have been sending indents for various articles from time to time, while no similar applications have been received from the other stations. It is desirable that a uniform procedure should be adopted as far as possible in all districts. The Plague Commissioner accordingly requests the Surgeon-General and the Sanitary Commissioner to draw up, in consultation with each other, (1) a scale of minimum equipment for each railway inspection station which must always be kept in reserve at that station; and (2) a scale of additional quantities of stores which should be obtained whenever the number of patients in the hospital or of the people under segregation exceeds the number for which provision is made in the minimum scale. Both these lists should contain only those articles which are absolutely necessary and which will have to be issued free. A supplemental list of articles which it may be desirable to have at hand for the convenience of patients and others and for which they will be required to pay may also be prepared. Once these lists are drawn up for each railway inspection station and approved by the Plague Commissioner, the question of replacing articles spent in the ordinary course will be left to the Collectors concerned to dispose of.

* * * * *

(Signed) L. E. BUCKLEY,
Plague Commissioner.

Read—also the following papers—

G.O., No. 1598 P., dated 17th December 1898.

ABSTRACT.—Leaving it to the Plague Commissioner to dispose of the question of the equipment of the plague hospitals and camps at railway inspection stations after consultation with the Surgeon-General.

From L. E. BUCKLEY, Esq., Plague Commissioner for Madras, to the Surgeon-General with the Government of Madras, dated 5th January 1899, Ref. on C. No. 2657.

With reference to G.O., Mis. No. 1598 P., dated 17th December 1898, I have the honour to request that you will be so kind as to let me know what equipment you consider necessary. I am inclined to think that the full equipment detailed in the plague manual need not be held in readiness at all stations, and that, if the necessity for furnishing hospital quarters should arise, much might be taken from the general store.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 19th January 1899, No. 65.

Adverting to your Ref. on C. No. 2657, dated the 5th January 1899, I have the honour to state that the equipment given in the plague regulations is meagre.

2. The equipment of the plague hospital and of quarters for nurses and hospital assistants can be kept in the general store until required, but it should be quite separate from that used for other purposes, and once used in a plague hospital should not be returned into the general store until thoroughly disinfected where possible or if this is not possible the articles should be destroyed when no longer required in the plague hospital.

3. In no properly organized hospital for the treatment of epidemic diseases is the furniture allowed to be interchangeable.

Letter from the Plague Commissioner, dated 2nd February 1899, Ref. on C. No. 878.

ABSTRACT.—Inquiring what equipment should be maintained at each inspection station.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 9th February 1899, No. 150.

With reference to your Ref. on C. No. 878, dated 2nd February 1899, I have the honour to state that in accordance with your Proceedings, No. 130, dated 17th January 1899, I am now preparing a list of equipment in consultation with the Sanitary Commissioner. The list will be forwarded to you in a few days.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Plague Commissioner, dated Madras, 24th February 1899, No. 191.

Adverting to your proceedings order No. 130, dated 17th January 1899, I have the honour to forward herewith a scale of equipment for a suspect camp with accommodation for 100 "suspects" and for 10 hospital beds, attached to a railway plague inspection station.

2. The list has been drawn up in communication with the Sanitary Commissioner and Major Hakim, I.M.S.

Scale of equipment for a Suspect Camp with accommodation for 100 "Suspects," and for ten hospital beds, attached to a Railway Inspection Station.

	Minimum scale.								Additional stores to be obtained when the number provided for, is exceeded.		Supplemental list of articles to be issued on payment.	
	Special observation ward in Suspect camp.		Hospital of ten beds									
	At two per cent. of total accommodation for each sex.	One male and one female.	Natives.	Europeans.	Four males and four females.	One male and one female.	For one nurse.	For one medical subordinate.	For office and dispensary.	Natives.	Europeans.	Natives.	Europeans.

No. 761-S.

Forwarded to the Plague Commissioner.

(Signed) W. G. KING, Lieut.-Col., I.M.S.,
Sanitary Commissioner for Madras.

3rd March 1899.

Endorsement of the Surgeon-General with the Government of Madras, dated 2nd February 1899, No. 125.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of South Arcot for furniture and medical stores required for the plague inspection station at Tiruvannámalai.

Endorsement of the Surgeon-General with the Government of Madras, dated 16th February 1899, No. 168.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of Chingleput for furniture, &c., required for the plague inspection station at Chingleput.

Endorsement of the Surgeon-General with the Government of Madras, dated 5th March 1899, No. 1413.

ABSTRACT.—Forwarding, for sanction, an indent from the Collector of Chingleput for a large almirah required for the plague camp at Chingleput.

PROCEEDINGS—No. 785/497 dated 20th March 1899.

The scale of equipment for railway inspection station, prepared by the Surgeon-General in consultation with the Sanitary Commissioner, is approved and is communicated to all Collectors for information and guidance.

2. All equipment may be provided by Collectors according to the scale without further sanction.

3. The Superintendent, Government Press, will send a proof of the list to the Surgeon-General, who is requested to mark therein all articles which should be obtained through him from the Medical Stores Depôt. Other articles should be obtained locally or from Madras.

Personal Assistant,
for *Plague Commissioner.*

To all Collectors (A, B, C, F, G, H, J, K).
„ the Surgeon-General.
„ the Sanitary Commissioner.
„ the President, Municipal Commission, Madras.
„ the Secretary to Government, Local and Municipal Department.
„ the Superintendent, Government Press, Madras.

Exd. A. Rungasawmy Aiyangar.

Sir,

With ref[e] to GO. 1598 P. Mm. dy 17.12.98 I.t.t. to request that you will be so kind as to let me know what Equipment you consider necessary. I am inclined to think that the full equipment detailed in the plague manual need not be used in readiness at all stations, & that, if the necessity for [illegible] should arise, much might be taken from the General stores.

NOTE FOR THE

Progs.

The indent is sanctioned with the exception of the portion relating to nurses and medical subordinates, which is under Correspondence with the Surgeon General.

2. The Plague Commissioner will be obliged if the lists of equipment for Railway Inspection Stations called for in para 2 of Progs 136 dy 17-1-99 are furnished as early as possible.

These should provide their own furniture as at other Ry Inspection Stations. The equipment given on pages 107–112 relates to Plague Hospitals & should not be attached to Ry Inspection Stations - vide GO. No 1106 P. dy 17-9-98.

Lucy 4/2/99

Note

The indent agrees with the last of the articles mentioned in Pp 108–109 of the Plague Reg[n] Book.

To The Surgeon General

Sir

In my letter Ref mCirc 2657 dy 5-1-99, I enquired what equipment you considered necessary at Rly stn camps attached to Rly inspection stations, and remarked that I felt inclined to think that the full equipment detailed in the Plague Manual need not be kept at all the stations. In reply to this you borne in your letter No 65 dy 19-1-99 that the equipment given in the plague regulations is meagre. May you will kindly inform me what equipment you consider should be maintained at each station

Yours

To THE Plague Commissioner
Madras

SIR,

Adverting to your Reference No. 2657 dated 20th January 1899, I have the honor to state that the equipment given in the plague regulations is meagre.

2. — The equipment of the plague hospital and of quarters for nurses and hospital assistants can be kept in the general store until required, but it should be quite [illegible] Room that used for other purposes in a plague hospital should not be returned into the general store until thoroughly disinfected when [illegible] or if this is not possible the articles should be destroyed when no longer required in the plague hospital.

3. In no properly organized hospital for the treatment of epidemic diseases is

to be furnished allowed to be interchanged.

I have the honor to be,
Sir,
Your most obedient servant,

C Sibthorpe.

FROM

D. Wr. G. Cowie Esquire,
ag COLLECTOR OF
Chingleput District.

To

THE Surgeon General,
with the Government of Madras

SIR,

With reference to your Secretary's Letter No. 9191 dated 25th ultimo, to the medical officer in charge of the Plague Inspection Station Chingleput, I have the honour to forward duly countersigned the indent for equipment for the inspection station. It does not appear to me that the ice box is necessary. The indent for stationery received with the medical officer's letter is being forwarded to the Chairman Municipal Council for compliance.

I have the honor to be

Sir,

P. C. 19 MAR 1899

With reference to your letters nos: 959 & 526, dated 19-12-'98, & 27-2-'99 respectively, I have the honor to inform you that your suggestion to detain under observation for 10 days of exhibs arriving at this depôt from infected areas has been sedulously carried out by me. But it appears to the opinion of the Honorable the Resident Councillor Penang, that in the absence of any regulations from the Madras government in this connection, I should not detain exhibs in the depôt for purposes of quarantine. I beg to enclose copy of a letter from the ag. Supt. of Indian Immigrants Penang for your information, and to request an expression of your opinion in the matter. In the meanwhile, I have informed the ag Supt that I shall hereafter not detain exhibs

Sir,

I have the honor to inform you by direction of the Honorable the Resident Councillor that unless obliged to do so by any regulations which may have been issued by the Government of Madras, you should not detain coolies in the serpit for purposes of quarantine, as all passengers arriving from Mergui are quarantined at this port, and a double quarantine does not appear to be necessary.

I have the honor Sir
