Plague-infected Areas.

Ordering the issue of a notification revising the list of —.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

ORDER—No. 794 P., dated 29th May 1899.

The list of infected areas within this Presidency published in Notification, No. 201, on page 58, Part I-A, of the *Fort St. George Gazette*, dated 7th March 1899, will be revised and the following notification published in the *Fort St. George Gazette*:—

NOTIFICATION.

In modification of notification No. 201, published on page 58, Part I-A, of the *Fort St. George Gazette*, dated 7th March 1899, as amended by notifications Nos. 302 and 447, published on pages 134 and 199, Part I-A, of the *Fort St. George Gazette*, dated 11th April and 16th May 1899, respectively, the following places in India are declared to be infected with plague:—

In the Madras Presidency.

(1) Alúr town, in the Alúr taluk, Bellary district.
(2) Manepalle and Narsapuram villages in the Hindúpur taluk, Anantapur district.
(3) Vellore Municipality and Ránipéttai and Tiruvallam unions in the North Arcot district.
(4) Periyabelagondapalli, Nagondapalli, and Mukondahalli, in the Hosúr taluk, Salem district.

Outside the Madras Presidency.

(1) Mysore Province including the Civil and Military station of Bangalore.
(2) Naldrug, Gulbarga, and Lingsugur districts in the Hyderabad State.
(3) Wardha district in the Central Provinces.
(4) Bombay Presidency including Sind.
(5) The City of Calcutta.
(6) The districts of Howrah, Hooghli, Saran, Darbhanga, Dacca and 24-Pargannahs in Bengal.
(7) Jullander district in the Punjab.

Current No. of 189 , dated from the

Current No. of 189 , dated from the

SUBJECT.

List of infected areas

Ath

FOR ORDERS.

In the beginning of this month the Plague Commr. submitted certain proposals for the revision of the list of infected areas. So far as this related to places in the Madras Presidency, it was ordered that it be left alone till the 15th instant vide Plague C. The proposals are therefore now resubmitted.

2. The existing list of infected areas includes the following places

(1) Pattikonda Taluk, Kurnool Dt.
(2) Alur Taluk, Bellary Dt.
(3) Hospet town, Do
(4) Gooty Taluk, Anantapur Dt.
(5) Hindupur Taluk, Anantapur Dt.
(6) Towns of Vellore, Wallajapet, Arcot, Ranipet, Kuppam } N. Arcot Dt.
(7) Hosur Taluk, Salem Dt.

3. In para 8 of his letter No. 1401 S dy

dd 4-5-99 (which has been submitted separately for orders with the file ~~[illegible]~~ relating to the reduction of plague expenditure) the Sanitary Commr. suggests ~~states~~ that only places actually infected with plague should be declared to be ~~such~~ infected and states that if a larger area is notified people from the infected village will wander to healthy villages included in that area without passports & without surveillance. He accordingly recommends that addl. Reg 34 (page 39 of the Madras Plague Regulations) should be modified so as to make it clear that the passport system shall commence at the infected town or village. This view seems correct. It is submitted that in the revised list only villages & towns actually infected should be included instead of the whole taluks.

4. In the Kurnool Dt, Pattikonda town had one outbreak on the 30th April & another on the 4th May. The D.M.O. considers both these cases to be not plague: Barring [illegible] the whole of the Kurnool Dt has been free

free from plague since the 28th March. It is submitted that the whole Dt be excluded from the list.

5. In the Bellary Dt, Alur town reported one case on the 8th May & another on the 15 May. Hospet has been free since the 11th April & Chittavadgi since the 20th April. No other places have reported plague during April & May. It is submitted that Alur town be alone shown in the list.

6. In the Anantapur Dt, Manepalli reported ~~one attack on the 1st May~~ 1 attack on the 30 April & 1 attack on the 1st May. Narasapuram had one case on the 19th April & another on the 25th April. Srirangarajapalli reported one attack on 2d April & 2 on the 3d April. Beriahalli had one case on the 2d April. Otherwise the Dt has been free since the 1st April. It is submitted that only Manepalli & Narasapuram be shown in the list.

7. In the N. Arcot Dt, Vellore, Tiruvallam & Ranipet still report cases. Wallajapet had its last case on the 28th April after an interval of 14 days. Arcot has been free since the 16th April & Kuppam since

It is no doubt very inconvenient to notify a large area as infected when only a small part of it is really so – To begin with within the area people are allowed to move about freely which is not at all desirable. Thus when Guntakal was first infected – owing to the whole Taluq being notified we could not stop persons going from Guntakal village to neighbouring villages – had only Guntakal village been notified, we could legally have insisted on [illegible] for all persons going from the village to the next one. It is also very hard on non-infected villages. Thus when Guntakal only was infected – persons from Gooty a perfectly healthy village could not go to Bellary without a passport. Had I not gone home in November I should have moved about the matter then.

since the 11th April. There is no plague elsewhere & it is submitted that only Vellore, ~~Ranip~~ Tiruvallam & Ranipet be shown in the list as infected.

8. In the Salem Dt., Periyathalagunda-palli had its first indigenous case on the 12th May. Nagondapalli had 3 cases on the 4th May. Hosur had one doubtful case on the 3rd May after being free since the 11 April. Mukondapalli had its last case on the 29 April, Kottakondapalli on the 5th April & Nedusalai & Kottur on the 2nd April. There has been no plague elsewhere since 11th April. It is submitted that only Periyathalagundapalli, Nagondapalli & Mukondapalli be shown as infected.

G. 0794/99

~~Kurnool & Anantapur~~

A. Clean since 27th March
B. — 9th —

NOTE FOR THE L. M.

The time is approaching when our list of infected areas may be revised. The list is important as our frontier system depends upon it.

I have prepared a draft suggesting the omission of Pattikonda Taluq (A) in Kurnool, & Gooty Taluq in Anantapur (B), as no cases have been reported from Pattikonda. I think it is too soon to omit Alur Taluq — the cases of [illegible] & Hospet may be [illegible] until May 15th, & if no more (F) cases are reported from them, they may be omitted from the list.

The notification declares stations between Taluqs & [illegible] stat

4

since the 11th April. There is no plague elsewhere & it is submitted that only Vellore, ~~Ranip~~ Tiruvallam & Ranipet be shown in the list as infected.

8. In the Salem Dt, Periyakelagundapalli had its first indigenous case on the 12th May. Nagondapalli had 3 cases on the 4th May. Hosur had one doubtful case on the 3rd May after being free since the 11 April. Mukundapalli had its last case on the 29 April, Kottakondapalli on the 5th April, & Nadusalai & Kottur on the 2nd April. There has been no plague elsewhere since 11th April. It is submitted that only Periyakelagundapalli, Nagondapalli & Mukundapalli be shown as infected.

9. Revised as suggested above, the list of infected ~~areas~~ areas in the Madras Presy will be

(1) Alur Tāluk, Bellary Dt
(2) Manepalli, Narasapuram } Hindupur taluk, Anantapur Dt
(3) Vellore, Ranipet, Tiruvallam } N. Arcot Dt
(4) Periyakelagundapalli, Nagondapalli, Mukundapalli } Hosur taluk, Salem Dt.

10. The dates given in this note relate to indigenous attacks only. Imported cases have been not been taken into consideration.

Letter

To

The Secretary to Govt.
Local & Municipal Dept.

Sir,

Referring to G.O. No. 505 P d/ 6. 4. 99, I have the honour to request that the notification printed in Supplt. to F. G. O. No. 380 P. d/ 11-3-99 ~~of the 7th March~~ may be further modified as suggested below.

(a) Pattikonda Taluk of the Kurnool Dt and the Gooty Taluk of the Anantapur district may be removed from the list of plague infected areas. The former has been free from plague since the 27th and the latter since the 9th Ult.

In Alur taluk only the town of Alur ~~is not found infected~~ reported a few cases this month & ~~it is unnecessary~~ it is enough if it is alone included in the list instead of the whole taluka

(b) The village of Tiruvallam including the Railway Stn. in the Gudiyattam Taluk, N. Arcot Dt, whence indigenous cases have been reported may be added to the list. The Statistics of this village are given below:—

	S.	D.
6. 4. 99	1	1
7. 4. 99	1	.
9. 4. 99	2	.
10. 4. 99	.	1

2. ~~Plague has decreased everywhere~~ Since the publication of the notification printed in para 3 of G.O. No 380 P. d/ 11-3-99, plague has diminished greatly & it does not exist ~~in~~ anywhere in an epidemic form. Under these circumstances, I do not think that any restrictions are called for on the movements of persons leaving stations other than those declared to be infected with plague, and I accordingly recommend that the notification ~~declar~~ notifying certain stations for the purposes of the passport rules may be cancelled.

Lim
26/4/99

It was thought at the time the G.O. was issued, the plague would have disappeared altogether
