C. No. 74 P.

Note for L. G. M.

News was received of indigenous plague in Nelson on Saturday; no written report came to hand on Sunday morning & I proceeded to Nelson by train on Sunday evening. Inspected town on Monday morning & returned Tuesday evening.

There have been already 7 cases & 5 deaths of indigenous plague in Nelson — probably more. I am of opinion that cases have probably been concealed. Cholera is in the town, & it is possible that some deaths put down to cholera have been due to plague, but Dr. Lancaster or his assts have seen most so-called cholera cases, & found none to be plague, until Monday — when he found two.

The people generally have refused to go to camp, but by argument and discreet threats I induced the Mahomedan — a pensioned Subadar — in whose house 2 cases occurred yesterday to agree to go to segregation — but I doubt if he will do so when it comes to the point. (We had to give him time, as the 2nd case was at the point of death & could not be moved.) The contacts of the cases are being segregated.

The existence of plague in Vellore is serious menace to Madras. The following measures are called for.

(1) The appt of an officer to be in sole charge of plague operations in Vellore. The Sub-Collector cannot do the work. The officer should be a civilian or a Staff Corps officer. A civilian of sufficient standing & knowledge will be hard to find, unless an ag. H.A.C. is taken. I know of

a retired S.C. man who I think will do. Capt. A. French late 9th M.I., brother of Capt. French at Hosur, who is working admiralty. He wants Rs 300 a month & knows Hindustani & Tamil well. I am enquiring why he left the Staff Corps; I do not know of anything against him.

(2) An additional medical officer for Vellore town alone. A good officer is wanted. If I may nominate or suggest, I ask for Mr. W. Bickerton Edwards, recently in Bellary, transferred (without consulting me) to Vellore. He is an officer whom both Mr. Ewing & myself have the highest opinion, & I should like such a man for such a responsible post.

(3) 100 sepoys under a British officer. They will be nominally for disinfection

work ^will be used for this purpose but will strengthen the hands ~~of~~ the authorities immensely.

(4) Vellore must be declared infected.

(5) Passengers travelling or expecting to commence their journey at any station between Jalarpet and ~~[illegible]~~ Sholinghur on M.R. & Chittoor & Katpadi on S.I.R. must be required to take passports.

(6) Trains northward from Katpadi must be examined at Perambur. I have arranged with Lowe for this.

(7) Trains southward from Katpadi must be examined at Tiruvannamalai or Kuppam. I have consulted Col. [illegible], asked him which stations be selected, & to give his requirements. He will want ^a medical ~~an~~ officer not lower in grade than Asst Surgeon.

The Taluks ^or portions of them round Vellore may be declared infected, or some two Ry Stations on either side, but I doubt whether it is necy to declare from Jalarpet to Katpadi. There is no road from Kuppam cutting that line, & very few people must be crossing the hills.

(8) Additional precautions may be necessary at Chingleput or Egmore, but I cannot say yet which. No doubt many will go from Vellore to Conjeeveram by road & there take train. If we require passports for all from Conjeeveram, they will come on to Madras from there by road, I fear. There is now a Hospital Assistant at Chingleput, but he does little I believe, beyond looking after passengers who return; ~~the~~ no proper general inspection of the train is carried out, I believe. If it is to be done, an officer of higher grade is required. Passport arrangements at Egmore will scarcely do for few will hold tickets from an infected area, & it will be difficult to know to whom to issue them, unless the whole line from Arkonam to Chingleput is added to the list of stations between Jalarpet & Arkonam. Perhaps this will be the best course.

A.A.

P. C. might thrash the matter out, or talk it over with H.-Li

H.T.

The provision of camps at Vellore is a great difficulty owing to the absence of space. The Palar river, the wet cultivation (crops then [illegible] there) & the hills with the graveyards at their feet leave but little space available & no sites near at hand is suitable. A small camp suitable for immediate purposes is ready between Vellore & Katpadi Station, & other sites are available on the Bangalore road, & near the jail, but all are far off. I have asked the [illegible] to extend accommodation there.

Lt M.

Herewith the 2 notes on Vellore & Kuppam with orders.

I explained your view of the taking at Railway stations with care. H.E. after discussion decided on Stations, but Reg. 17(i) sh'd run "Every person arriving or suspected of having arrived" &c. or words to that effect. No doubt many persons now have to take passports who are only suspected.

I am now going to see S. G., & to make further enquiries about Capt. D'French.

In addressing D. A. G. for troops will you ask them to send men shortly, as there has been much delay over the 2nd 25 & men for Salem.

~~C. No. 75 P.~~

There have been 7 indigenous cases & 4 deaths at Kuppam. Collector asks for 25 Sepoys, as labour for disinfection is not procurable. I support.

Ask for them anyhow

MA
10.1.99.

I doubt whether the Coll: could not get men, by offering double or treble pay. We can hardly have Sepoy-disinfecters everywhere; our troops are limited; apparently troops have not been required in NWP etc.

I admit the circumstances of ~~Bellary District~~ the Deccan & bellore are exceptional.

Collector has since reported these are not required. May requisition be kindly countermanded?
