Enclosure.

SIR,

I have the honor to offer the following
remarks on the Buddapah District Board
Budget for 1899-1900:—

- (1). The allotment for vaccination is sufficient.
- (2). The proposed sanitary outlay is only 7 per cent of the probable receipts of the year. The sum of Rs. 2500 for improvement of water supply throughout the whole district is absolutely inadequate. Even this small sum apparently is to be used not in the endeavour to protect existing supplies but to obtain new sources. Yet, in this District, "step wells" so notoriously liable to contamination, exist in the majority of villages.
- (3). The sum of Rs. 1000 is held as a reserve to draw upon in times of epidemic outbreaks other than plague. I need not say that the provision is hopelessly small for combating cholera, a constant

constant visitant of this District.

(4). I would invite attention to the desire to increase lights of Unions before the pecuniary requirements of Sanitation have been secured, as exhibited in para(3) Grant IV— a policy which has been consistently objected to by Government. Surely, if burglaries and thefts "have become too common a thing" the police might be revised before the lights— as a first effort at least.

I have the honor to be,
Sir,
Your most obedient servant,
W. H. [Signature]
Lt. Col. I.M.S.,
Sanitary Commissioner
for Madras.
