From.
The Head Master,
Board High school,
Udamalpet.

To. The President,
Taluk Board, Pollachi.

Sir, In prompt obedience to your memo.
no. 34 of the 14th instant, I beg to sub-
mit the financial statement of the
school for the 3 years — 1897-98, 1898-9
1899-1900.

2. Evidently, the figures for the current and
the next year can only be forecasts, thou
the former can be accepted to be as good
as actuals, there remaining only a mont
and a half more for the close of the ye
The figures for 1897-98 are of course th
actuals.

3. I beg to append an abstract statem
of the financial position of the schoo
for the three yea

From a cursory view of the figures, it will be clear that the school is numerically, and therefore financially too, a very great success, that this success has been steadily becoming greater and greater, and that the next year promises to be very hopeful. The forecast for the next year has been based on the present and prospective strengths of the High and Primary schools, both of which have been advancing by rapid strides, as would appear from the figures given below. The figures in red ink indicate the forecast.

	Primary school.	High school	Total
On the 31st March 1895	180	130	310
Do 1896	218	136	354
Do 1897	246	149	395
Do 1898	262	160	422
On the 18th February 1899	314	178	492
On the 31st March 1900	400	220	620

4. As a direct result of the steady and rapid rise, the income from fees has been steadily advancing, so much so that the Direc-

tor of Public Instruction has, for the past 3 years, been refusing to sanction increased grants to which the school would otherwise be entitled under the grant-in-aid code. It may not be out of place to quote below the views of the Director on this subject:—

No. 372/17-1-96. In 1894-95. "The school had Rs 150 left in its favour after meeting all the charges. This is very satisfactory."

No. 12597/20-11-96. In 1895-96 "The financial condition of the school was highly satisfactory."

No. 12464/12-11-97 "The Director is glad to note that the strength of the school has been steadily rising during the past five years. xxx The school maintained its financial position during 1896-97."

No. 14290/24-12-98 "During 1897-98, the income from fees and grants left a surplus of Rs. 278 in favour of the school after meeting the total charges which amounted to Rs. 4110. It is hoped that the above surplus balance will be utilised towards equipping the school fully. No aided school is allowed to spend any portion of its income for other than educational purposes."

5. In pursuance of the spirit of the last sentence of the above extract, the Director has refused to allow the school grants to the extent of Rs 208 to Rs 260 for the past few years. These amounts are separately shown in the abstract in red ink. And it is almost certain that increased grants will not be allowed even next year. Nay more. There is the further danger of even the sanctioned amount of grants being disallowed next year, as the following considerations will show. The several sources of income for the next year are

(1) The opening balance of Rs 574
(2) School fees - - - - Rs 4500
(3) the sanctioned amount of grants Rs 990

The first two sources are certain and will yield an income of Rs 5428. Even allowing a margin of Rs 428, there is

a clear income of Rs 5000 to be added to the grants — the whole amounting to Rs 6000. But the present expenditure is only Rs 4362 including the provision for the additional teacher newly entertained. Hence there is a large margin left for effecting the necessary improvements repeatedly urged by the department.

6. The Inspector of schools and the Director of Public Instruction have repeatedly drawn the attention of the Board to the great desirability of revising the scale of pay obtaining in the school. The latest recommendation of the Director is embodied in his proceedings No. 14290 dated the 24th December 1898 in which he says "The scale of salaries in force stands in need of revision. Funds seem to be available for the purpose" "It is hoped that the surplus balance will be utilised towards

equipping the school fully. No aided school is allowed to spend any portion of its income for other than educational purposes." Encouraged by this extremely favourable situation and adopting the scale of pay repeatedly recommended by the Inspector of schools and supported by the Director, I have provided increases of Rs 30, 15, 10, 4, 4, and 4 to the six senior members of the staff respectively, in the expenditure of the school for the next year. These increases amount to Rs 804 which is less than a half of the total surplus of Rs 1638, as pointed out in para 5 above. I fully trust that my proposals will commend themselves to you and meet with your approval and sanction. These increases are distinctly shown in red ink.

7. When this first instalment of increases

is sanctioned I shall be prepared to submit proposals for increasing the pay of the remaining members of the staff.

I have the honor to be,

Sir

Your most obedient servant,

Head Master.

To, The Inspector of schools

Sir,

I respectfully beg to report that before closing the school for the Christmas vacation, I was able to announce to my students, the results of the annual examinations, held in common to the Board High schools - Udamalpet and Dharapuram. Hence I am now fairly able to calculate the strengths of the several forms of the school for the next year. From the feeder Primary school is expected a supply of from 45 to 50 students, to the first form.

2. After making the necessary allowance for unexpected admissions and withdrawals, the figures may be safely put down as follows:-

1898		1899.	
Form	Strength	Form	Strength.
VI.	20	VI	22
V	14	V	12
IV.	12	IV	25
III.	32	III-A	22

II-A	22	II	33
II-B	22	I-A	25
I	28	I-B	25
Total.	150	Total	186

Some Total

From the above it will be seen that the strength of the school will be 36 more than during the Current year. This will necessarily lead to a rise in the number of divisions in the school from 7 to 8, hence has arisen the necessity for the entertainment of an additional teacher for one of the divisions of the I form. A Trained matriculate of some experience on Rs 20 a month will be enough.

3. The school reopens on the 16th January next. Hence I beg that early arrangements may be made for securing the services of a competent teacher for the place.

2. The necessity for an additional teacher has been sufficiently shown by the Head master. This is not likely to entail any additional expenditure to the Board, as the increase in the attendance will increase the fee income and cover the additional expenditure-
