The printed reports put up below reveal the state of affairs in the Nigani's village of Gangawatti. Up to the 13th of May not less than 50 deaths seems to have occurred before the Plague authorities became aware of it. Concealment of cases seems to be going on and

and the local Rev. authorities
are suspected of
appearing to wink at this.

FROM

BELLARY.

To

THE Secretary to Government

Local & Municipal Department.

SIR,

I have the honour to state that
with reference to para 1 of the Plague
Commissioner's Proceedings ⁸⁸ 7.10.98 I have,
as a temporary measure, sub divided
The Kampli Circle (Hospet taluk)
and placed it in charge of 2 plague
Inspectors instead of one as heretofore,
as plague is reported to have broken
out at Gangavatti, a large place in
The Hyderabad State some 5 miles
from Kampli, and the inhabitants
are said to be entering this district

in considerable numbers in order
to escape infection. Increased watch-
fulness will, I think, be required
in the villages of the above circle
for the next few weeks, after

which time the services of the
additional Plague Inspector will be
dispensed with.

I have the honour to be
Sir,

Your most obedient servant

W. J. U.
Acting Collector
