Memorandum from Major W. B. Bannerman, I.M.S., No. 1975, dated the 12th May 1899—

Forwards for approval, with reference to Government memorandum No. 3135-P., dated the 9th idem, the following set of rules for the guidance of inoculators with regard to the granting of certificates to persons inoculated with Professor Haffkine's prophylactic; and observes that they have been modified according to the views expressed by the Surgeon-General with the Government of Bombay:—

I.—A certificate may be granted after one full dose has been given, but the recipient should be recommended to return for a second inoculation after ten days.

II.—The full dose should always be given at one time, unless for medical reasons it is considered advisable to divide it.

If it is necessary to do this, a certificate should not be given until the equivalent of two full doses has been given. If, however, no undue re-action ensues after the first fractional dose has been taken, it is advisable to give the full dose at once on the second occasion, after which a certificate may be given.

Resolution.—The rules framed by Major Bannerman are approved and should be circulated to the officers concerned for information and guidance.
