3. In reply, I am to state that when the question of withdrawing the annual contribution of Rs. 6,000 paid to the Madras Municipality from the Military Works Funds for the maintenance of certain roads within the military zone was under consideration, the Municipal Commissioners requested the continuance of the contribution on the ground that "as the Commissioners cannot be held to have *sole* control over the "roads within the military zone, no buildings being allowed on those roads, Government might fairly be asked to continue the contribution to those roads". The Government of India argues that this statement amounts to a recognition by the Municipal Commissioners that they had *no control* not only over the roads for which the contribution of Rs. 6,000 was then paid, but also over *all the roads* within the military zone, and that the roads were consequently under the control of Government. This inference, however, is not correct, for all that the Commissioners meant was that the Government in prohibiting the construction of buildings on the roads in question, also exercised some control over them along with the Municipality, and not that the roads were entirely under the control of Government and that the Commissioners had no control over them. Nor can it be said that the statement of the Commissioners had reference to any roads other than those the contribution for whose maintenance it was then proposed to withdraw. Any admission which they might have made at the time can only be held to apply to the roads then under discussion. With regard to the contention of the Government of India that the words "not being the property or kept under the control of Government" occurring in section 233 of the City of Madras Municipal Act, save the roads within the military zone from the operation of that section, I am to point out that the Evening Bazar Road on which the buildings in question stand, was not one of those roads which were kept under the control of Government in the orders withdrawing the grant of Rs. 6,000; but that when the contribution for this road was stopped in 1875, the Government withdrew all its control over that road, and that it was then handed over to the Municipality without any reservation whatsoever. In consequence as this road was thus not under the control of Government when Act I of 1884 (Madras) came into operation, [the military zone round Fort St. George within which building is prohibited, having been constituted only in 1892], the road then vested in the Municipal Commissioners. His Excellency the Governor in Council therefore considers that the position now taken by the Government of India cannot be justified.

4. Moreover, the President of the Municipal Commission, Madras, now contends that if all the land within the military zone of Fort St. George is military land, it cannot be vested in the Commissioners in accordance with section 233 of Act I of 1884, and that therefore the Commissioners cannot be held responsible for the maintenance of the roads situated within the zone, notwithstanding the fact that they are in municipal limits. If therefore the Government of India were still to adhere to and could legally enforce the view that the roads within the military zone are under the control of Government and have not vested in the Municipal Commissioners, the Military Department would have to take over the maintenance of the roads within the zone or revive the payment of a contribution towards their maintenance. I am however to add that roads which legally vest in the Municipal Commissioners cannot be withdrawn from them by an executive order of Government.

5. With regard to the observation at the close of paragraph 6 of your letter that in the case of the line of buildings constructed in 1895 to replace a number of mat bazars, it will be for consideration whether the compensation should not be paid by the Municipal Commissioners under section 436 of the Act owing to their sanction to the construction of these being *ultra vires*, I am directed to say that if the Municipality is to be made to pay for the removal of these buildings it must be on the ground that in 1875, although the Government grant was stopped, the Government did not withdraw its control then over the roads, which, however, as I have shown above, was not the case. It cannot be contended that the fact that the road was subsequently included within the military zone affected in any way the legal right of ownership possessed by the Municipal Commission over the land in question. So far as this Government understands the case I am to say that the Municipality appears to have acted throughout within its powers, and that the proposed action of the Government of India appears to be illegal.

JUNE.

Administration Report.

Reviewing the — of the Adóni Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. A. SHANMUGASUNDARAM PILLAI Avargal, Chairman, Municipal Council, Adóni, to the Secretary to Government, Local and Municipal Department (through the Divisional-officer, Adóni, and the Collector of Bellary), dated 25th May 1899, Dis. No. 300.

I have the honour to submit the report on the administration of the District Municipalities Act IV of 1884 as amended by Act III of 1897 in the town of Adóni for the year 1898–99.

I.—Constitution of the Municipal Council.

2. The Council consisted of fourteen members on the 31st March 1899, the full strength sanctioned being sixteen, including the Revenue Divisional-officer. The remaining fifteen were appointed by Government. The decrease of two in strength on the 31st March 1899 was due to the vacancies caused by the expiry of the term of two of the councillors and steps being taken to fill them by election.

3. M.R.Ry. G. T. Raghava Aiyar Avargal, B.A., a non-official member of the Council, held the office of Chairman from the beginning of the year under report up to 15th November 1898, and on his resignation, I took temporary charge under section 15 of Act IV of 1884 and was finally elected Chairman on the 8th December 1898.

4. The number of meetings held in the year under report was 36 including the two, which were adjourned for want of a quorum, against 39 in the previous year. The average attendance of the members at each meeting was 8·3 (officials 1·8 and non-officials 6·5) as against 8·7 (officials 1·7 and non-officials 7) of the previous year.

II.—Receipts.

5. The opening balance as given in the accompanying Statement No. I—Revenue and receipts, was Rs. 1,263–0–5. The actual receipts in the year under report amounted to Rs. 43,098–9–0 against Rs. 43,661 in the revised estimate and Rupees 29,957–10–10, actuals of the previous year. There was thus an increase of Rupees 13,140–14–2 in the year as compared with the previous year which was due to the increase of receipts under the taxes on arts, buildings and water-tax, animals and carts, tolls, realizations under special Acts, sale-proceeds of night-soil, school fees, income from markets, warrant and distraint fees, license-fees, fines under the Municipal and other Acts, grants and contributions from Provincial and other funds and private scavenging fees. Hereunder is given in detail the explanation for the variations under the several heads.

6. A, *Receipts from Taxation—Tax on Arts.*—The tax was levied on all classes comprised in Schedule A annexed to Act IV of 1884 as amended by Act III of 1897. The original demand in the year under report was Rs. 3,202 against Rs. 3,012 in the previous year. The increase of Rs. 190 was due to the careful preparation of the registers under the Act.

The number of appeals preferred against the imposition of the tax was 28 against 37 of last year. All of them were disposed of before the end of the year under report. The result of the appeals was that in ten cases the tax was confirmed, in fourteen reduced, in three remitted, and in one rejected, having been time-barred. The remissions and reductions made by the Council amounted to Rs. 138–8–0 or 4·3 per cent. of the original demand against Rs. 103–8–0 or 3 per cent. of the previous year.

7. The final demand of the tax was Rs. 3,063–8–0, or Rs. 155 more than in 1897–98. The increase was due to the reason assigned in paragraph 6 above. Of the finally settled demand, Rs. 2,949–8–0 were realized before the close of the year. The balance left at the close of the year was Rs. 114, of which Rs. 8–8–0 have since been collected. Steps are being taken to realize the arrears.

8. The arrears outstanding at the commencement of the year was Rs. 1,905, of which Rs. 1,119–8–0 were collected, and Rs. 713–8–0 were written off by the Council as irrecoverable owing to (*a*) parties having left the town during the past distress, (*b*) to their insolvency due to the depression in trade, consequent upon the apprehension that the plague precautionary measures created among the weavers who form the bulk of the population of the town and who were plying their trade by exporting their manufactures to different parts of the Mysore Province and the Bombay Presidency where plague was rampant. Of the remaining sum of Rs. 72 at the close of the year, Rs. 17–8–0 have since been collected, and Rs. 54–8–0 left to be adjusted in the current year. The total current and arrear collections at the end of the year under report amounted to Rs. 4,069 against Rs. 4,210 in the revised estimate. Stringent steps are being taken to realize the outstandings.

9. The proportion of current collections to demand was 96·3 per cent. and the percentage of arrear realizations was 58·8. The total number of persons assessed was 721 in the year under report against 574 in the previous year, and the average incidence of taxation was Rs. 4–4–0 against Rs. 5–1–0 in the previous year.

10. The number of assessees was 2·7 per cent. of the population of the town against 2·1 per cent. in 1897–98.

11. *Tax on Buildings.*—The tax was levied not at 7½ per cent. as in the previous year, but at 8½ per cent. on the rent value of the buildings and lands (*vide* G.O., Mis. No. 907 M., dated 12th May 1898). The annual rent value of the buildings was estimated by the actual rent for which they were let as far as the Council could ascertain it and on the probable rent if the houses were in the occupation of the owners themselves. There were twenty-two appeals presented against the imposition of the tax, and all of them were disposed of during the year under report. In nine cases the tax was confirmed, in nine reduced, in three remitted, and one rejected. The remissions and reductions made by the Council amounted to Rs. 36–4–6 or 2 per cent. of the original demand against *nil* in the previous year. The original demand in the year under report was Rs. 12,276–0–4. The final demand in the year under report was Rs. 12,239–11–10 against Rs. 10,522–14–0 in the previous year. Of this sum, Rs. 11,418–9–4 were collected during the year under report, and Rupees 821–2–6 left uncollected at the close of the year which amount has been reduced by subsequent collections to Rs. 273–14–4.

12. The percentage of collections to demand was 93·3 against 71·8 in 1897–98. The increase was due to the adoption of stringent special measures after the appointment of the Secretary to the Municipality. The percentage would have been much better had it not been for the depression of trade consequent upon the plague scare and for the quinquennial revision of the house and water taxes by special committees appointed for the purpose which completed it in the fag end of the year, *i.e.*, in October 1898, thus allowing only five months for collecting the large demand under this head as well as arrears under other heads outstanding from a long time, *i.e.*, from 1896–97.

13. The arrears outstanding at the beginning of the year under report amounted to Rs. 4,038, of which Rs. 3,181–6–0 were realized, Rs. 1–8–0 remitted, and Rs. 671–15–0 were written off the accounts as irrecoverable by the Council. There

was still a balance of Rs. 183-3-0 which will be adjusted in the current year. Of the balance, a sum of Rs. 56 has since been collected. The proportion of collection to the final demand was 76·4 against 54·8 per cent. in the previous year.

14. The total number of buildings taxed, the amount of tax imposed on them, and the average incidence per house were 5,761, Rs. 12,239-11-10 and Rs. 2-1-11 as against 5,620, Rs. 10,522-14-0 and Rs. 1-13-11, respectively, in the previous year.

15. *Tax on Lands.*—As desired in G.O., No. 621 M., dated 22nd March 1898, an original demand of Rs. 210-14-10 was raised against *nil* in the previous year (*vide* paragraph 15 of the administration report for 1897-98 embodied in G.O, No. 1339 M., dated 27th July 1898). There were five appeals against the imposition of the tax and all of them were disposed of before the end of the year. The result of the appeals was that in two cases the tax was reduced, in two remitted, and in one confirmed. The remissions and reductions made by the Council amounted to Rupees 20-9-10 or 10 per cent. of the original demand. The net demand in the year under report was Rs. 190-5-0, of which Rs. 121-0-9 were collected, leaving a balance of Rs. 69-4-3. Out of this, Rs. 41-13-4 have since been collected, and the remaining sum (Rs. 17-6-11) will be adjusted during the current year.

16. There were Rs. 64-9-9 as arrears of previous years, of which Rs. 40-11-4 were collected and Rs. 23-11-5 remained uncollected at the close of the year.

17. The percentage of collection to demand was 73·8 against *nil* in the previous year.

18. *Water tax on Buildings and Lands.*—This tax was levied in the year under report not at 4 per cent. as in the previous year, but at 4½ per cent. of the annual rent value of buildings and lands (*vide* G.O., Mis. No. 907 M., dated 12th May 1898). Out of a total demand of Rs. 8,772-7-9 (current Rs. 6,580-5-10 and arrears Rupees 2,192-1-11), Rs 7,829-14-9 or 89·2 per cent. were collected. Rs. 359-11-10 were written off the accounts as irrecoverable, and As. 12-10 were remitted by the Council. The uncollected balance at the close of the year was Rs. 582-0-4, of which Rs. 197-11-9 (arrears and current) have since been collected, leaving a sum of Rs. 386-4-7 still uncollected.

19. *Taxes on Vehicles with Springs, Animals and Carts.*—The receipts under this head amounted to Rs. 2,525 against a revised estimate of Rs. 2,430 and the actuals of Rs. 1,677-8-0 of the previous year. There was thus an increase of Rs. 95 as compared with the revised estimate.

20. *Coercive Process.*—The number of warrants issued during the year was 1,145 against 27 in the previous year. Of these, 1,085 were executed and 60 cancelled within the year under report. The cancellation of the warrants was due to the parties concerned not having any other property than those exempted from distraint by section 106, clause (i). Of the total amount of Rs. 1,216-6-6 covered by the warrants, Rs. 1,156-6-6 were realized, leaving a balance of Rs. 60 at the close of the year. The large increase in the number of warrants issued was due to the large arrears of the past two years to be collected and to the prompt steps we were compelled to adopt to collect them. Sixty-nine prosecutions were also instituted in the year under report for recovery of taxes, the result of which was that in nine cases the parties were fined, in 22 acquitted, and out of 38, 21 were cases in which collections were made before judgment and 17 were withdrawn.

21. *Tolls.*—There were seven toll-gates as in the previous year. Tolls were levied at the maximum rates specified in schedule D of the Act and the right of collecting them was leased out to a contractor for Rs. 5,209 against Rs. 3,880 of the previous year. The increase of Rs. 1,329 was due to keen competition among the bidders at the time of the auction. The whole of this amount was collected by monthly instalments before the close of the year, and the usual contribution of one-fourth (¼) of the revenue was paid to the District Board before the close of the year. The gross receipts from tolls, including interest on overdue kists, amounted to Rs. 5,232-2-6.

22. *Incidence of Taxation.*—The incidence of taxation per head of population according to the census of 1891 was Rs. 1-3-10 including tolls, and Rs. 1-1-10 excluding them, against As. 13-2 and As. 10-10, respectively, in the preceding year.

The increase in the incidence was due to the collection of heavy arrears outstanding from 1896-97 and the increased taxes resulting from the quinquennial revision as per enhanced rates sanctioned in G.O., No. 907, dated 12th May 1898.

23. *B, Miscellaneous Receipts—Avenue Receipts.*—Rs. 36-15-6 were realized from this source against a revised estimate of Rs. 35 and an actual of Rs. 22-4-0 in the previous year; the increase being slight calls for no remark.

24. *Fees from Travellers' Bungalow.*—The realizations under this head amounted to Rs. 211-8-0 or Rs. 11-8-0 more than the revised estimate. The increase needs no special explanation.

25. *Sale-proceeds of Lands and Gardens.*—This is a new item of receipts. The income under this head amounted to Rs. 137, or Rs. 72 more than the revised estimate, being the sale-proceeds of the usufruct of mango trees in the bed of the Nallacheruvu tank.

26. *Sale-proceeds of Old Materials, Empty Oil-cans, &c.*—The receipts under this head showed an increase of Rs. 6-5-0 over the revised estimate, which calls for no remark.

27. *Sale-proceeds of Night-soil, Street Refuse, &c.*—The income from this source amounted to Rs. 1,706-4-6 against Rs. 1,100 expected in the revised estimate and Rs. 1,267, the actuals of the preceding year. The increase was due to the extensive sale of night-soil which from past experience of ryots was found to be the best manure that they could use for their fields.

28. *Fees from Educational Institutions—School-fees.*—Rs. 264-12-0 have been realized from this source, showing an increase of Rs. 14-12-0 over the revised estimate. The actuals of the previous year were Rs. 174-12-10. The increase calls for no remark.

29. *Sale-proceeds and Composition Fees of Medicines.*—Rs. 23-8-9 were realized under this head, showing an increase of Rs. 3-8-9 over the revised estimate. The actuals of the previous year were Rs. 34-15-7.

30. *Income from Markets.*—The amount realized was Rs. 2,105-13-5 or Rupees 5-13-5 more than the revised estimate or Rs. 689-12-8 more than the actuals of the previous year which amounted to Rs. 1,416-0-9. The increase was due to keen competition among the bidders.

31. *Income from Slaughter-houses.*—The amount realized under this head amounts to Rs. 594-7-6 or Rs. 4-7-6 more than the revised estimate.

32. *Warrant and Distraint Fees.*—The realizations under this item of receipts amounted to Rs. 103-8-0, of which Rs. 86-12-0 were warrant fees and Rs. 16-12-0 distraint fees. The slight decrease of Rs. 16-8-0 as compared with the revised estimate needs no special notice.

33. *License Fees.*—The realizations under this head amounted to Rs. 1,100-9-5 or As. 9-5 more than the revised estimate or Rs. 774-7-3 more than the actuals of the previous year. The increase was due to the collection of arrears of last year.

34. *Fines under Municipal and other Acts.*—These amounted to Rs. 400-15-11 against Rs. 400 in the revised estimate. The slight increase calls for no remark.

35. *Grants and Contributions from Government.*—Rs. 278-9-1 or Rs. 58-9-1 more than the revised estimate were drawn in the year under report in full clearance of all grants due from Provincial funds for salaries on behalf of the gymnastic instructor and the drawingmaster.

36. *Grants and Contributions from Local Boards.*—The amount derived from this source amounted to Rs. 556-9-0 or Rs. 13-7-0 less than the revised estimate. This variation calls for no remarks.

37. *Other Grants and Contributions.*—Rs. 44-5-8 or Rs. 4-5-8 more than the revised estimate were realized from the London Mission School, Adóni, towards the

salary of the gymnastic instructor, the actuals of the previous year being Rs. 65. The decrease in receipts as compared with the last year was due to the vacancy of the gymnastic instructor's place for some months in the year under report.

38. *Recoveries for services to Private Individuals—Private Scavenging Fees.*—These amounted to Rs. 2,064–5–0 or Rs. 14–5–0 more than the revised estimate or Rupees 349–1–0 more than the actuals of the previous year. The number of houses served by Municipal agency was 853 or more than one-seventh of the total number of houses assessed the town, as against 830 in the previous year, showing an increase of 23 latrines. Of the current demand of Rs. 1,908–6–9, Rs. 1,894–4–3 were collected and Rs. 14–2–6 left uncollected at the close of the year. Rs. 6–7–6 have since been collected and the balance of Rs. 7–11–0 will be adjusted in the current year. The arrear demand at the commencement of the year was Rs. 209–15–9, of which Rs. 170–0–9 were collected and Rs. 36–1–6 were written off as irrecoverable, leaving a balance of Rs. 3–13–6, which has been adjusted in the current year. Endeavours to introduce the system of prepayment propounded in G.O., No. 1555, dated 25th September 1895, have been successful this year after the appointment of the Secretary to the extent of making the people pay their privy taxes mostly in the early part of or the first month of the quarter to which the taxes related, instead of allowing the collections to protract even after the expiry of the quarter. The year under report having been a year in which there was the quinquennial revision of house and water taxes according to the enhanced rates sanctioned in G.O., No. 907, dated 12th May 1898, and an year in which the plague scare deterred many a Muhammadan weaver depressed in trade from availing of this scavenging service, it was deemed that the enforcement of the system of prepayment to the fullest extent in the very year would be viewed by the people as simply harassing. Some time therefore must elapse before the system could be fully enforced and its results seen.

39. The variations in the other items of receipts were small and need no special notice.

III.—EXPENDITURE.

40. The total expenditure amounted to Rs. 36,557–5–5 against a revised estimate of Rs. 39,680 and the actuals of Rs. 42,565–9–5 of the previous year. The following figures show the expenditure under the several heads as compared with the revised estimates for the year under report:—

	Actuals.			Revised estimate.		
	RS.	A.	P.	RS.	A.	P.
Grant 1, Public Works	4,672	9	8	5,430	0	0
„ 2, Education	4,105	4	10	4,010	0	0
„ 3, Sanitation and Medical Services.	17,852	13	10	19,750	0	0
„ 4, Lighting and Miscellaneous ..	1,690	5	2	2,030	0	0
„ 5, Supervision and Management ..	4,303	3	11	4,530	0	0
Repayment of Debt	3,933	0	0	3,930	0	0
Advances and Refunds	..			..		
Total ..	36,557	5	5	39,680	0	0

41. *Grant 1, Public Works.*—The outlay on public works amounted to Rupees 4,672–9–8 against the revised estimate of Rs. 5,430. The decrease as compared with the revised estimate occurred chiefly under communications, buildings and water-supply and is explained below.

42. *New Works—Communications.*—No provision was made under this head nor any new works undertaken and executed in the year under report, the outlay incurred in the previous year being Rs. 67–13–0.

43. *Repairs—Communications.*—The outlay under this head was Rs. 410–4–9 against an allotment of Rs. 800 provided in the revised estimate, the actuals in the previous year being Rs. 1,726–14–5. Of this outlay Rs. 386–0–7 were spent in remetalling and gravelling one of the four main roads and in executing repairs to the remaining three, and Rs. 24–4–2 in petty repairs to other minor roads and in repairing one of the culverts abetting one of the important roads. The total length of the roads

maintained in this Municipality was 9 miles, of which 7¾ miles were metalled and gravelled and 1¼ unmetalled. All the roads have been kept in a tolerably good condition.

44. *Road Charges and Tolls.*—The total expenditure during the year on communications, new and old, amounted to Rs. 410–4–9 or 10·4 per cent. of the net income from tolls against Rs. 1,794–11–5 or 61·4 per cent. in the previous year. The decrease in the percentage of expenditure was due to the reservation of the allotment, as far as possible, for incurring expenditure in connection with plague which seriously threatened the town in the early part of January 1899, apprehending that the provision already made for meeting plague expenditure would fall short and there would be no other funds to set free for that purpose.

45. *Buildings.*—The expenditure on construction and repair of buildings was Rs. 1,261–12–4 against Rs. 1,390 in the revised estimate and the actuals of Rupees 3,007–2–7 in the previous year. Of this outlay Rs. 1,181–2–5 were spent on new works, viz., completing the construction of the conservancy store shed and completing the additions to the old police hospital converted into quarters for the civil apothecary.

46. *Repairs—Buildings.*—Out of an outlay of Rs. 80–9–11, Rs. 65–0–11 were spent upon repairs to the out-houses of the Municipal hospital, to the travellers' bungalow, to latrines, and the Underpet poor school.

47. *Drainage.*—Rs. 72–15–0 were spent upon repairs of drains against Rs. 100 in the revised estimate. The variation being slight calls for no remark.

48. *Water-supply—New Works.*—Rs. 220 were provided in the revised estimate, of which Rs. 186–3–0 were spent for buying pipes proposed to be laid to the public latrines and Rs. 24–10–2 for putting up a public fountain in Santhapet. The slight variation calls for no notice.

Under repairs to water-supply, Rs. 679–1–0 as against Rs. 900 in the revised estimate, were spent in jointing pipes, re-building the wing-wall of the waste weir of the Nallacheruvu tank, repairing the supply channel and its waste weir, cleaning wells in the town for affording water to the people for other than drinking purposes, repairing trap doors of the Ramjerry spring, the valve pits and the syphon shed at the head water-works. No necessity was found to utilize the balance of Rs. 220–15–0 under this head in view of the apprehension that extra expenditure would be incurred on account of plague (*vide* paragraph 44 *supra*).

49. The cost of public works establishment was Rs. 552 and that of water-supply establishment Rs. 1,378–10–5 against Rs. 550 and Rs. 1,390, respectively, anticipated in the revised estimate. The variations call for no remarks.

Grant 2, Education.—The total expenditure on education excluding the amount spent upon repair of school buildings (Rs. 2–14–0) shown in Grant 1, was Rupees 4,105–4–10 against Rs. 4,010 in the revised estimate and Rs. 4,131–3–9, the actuals of the previous year. The increase as compared with the revised estimate occurred chiefly under fixed and result grants and was due to larger sums having been earned by the schools than what was expected.

50. *Training Schools.*—No expenditure was incurred in the year under report as no provision was made in the revised estimate as per Proceedings of the Director of Public Instruction, No. 10696, dated 18th September 1897.

51. *Primary Schools.*—Rs. 2,233–14–9 or Rs. 46–1–3 less than the revised estimate and Rs. 45–10–11 less than the actuals of the previous year were spent under this head. The decrease was due to the Havennapet Primary school utterly failing to earn any grant in the fourth standard in the year under report. As in the previous year, the number of primary schools on the salary-result system maintained by the Municipal Council was six, two of which were for Muhammadans and one for Panchamas. The strength of these schools at the end of the year was 397 and the average attendance during the year was 371 against 385 and 369, respectively, in the previous year. The average cost of educating each pupil fell from Rs. 5–15–4 to Rs. 5–4–11. The net cost to the Municipal Council, excluding school-fees which amounted to Rs. 264–12–0, was Rs. 1,969–2–9 against Rs. 2,198–12–10 in the

preceding year. Two hundred and forty eight pupils appeared for grant examination from all these schools and 168 passed, against 285 and 165 respectively in 1897–98. These results may be pronounced to be satisfactory on the whole.

52. *Grant-in-aid Schools.*—There were fourteen schools of the kind attended by 729 pupils at the end of the year against sixteen schools with 695 in the previous year. The slight fall in the number of schools is more than compensated by a satisfactory rise in the strength of the remaining schools. Of the fourteen schools referred to above, one was secondary and the rest primary. The number of pupils examined for grant was 463, and 343 of them passed, the corresponding figures for the previous year having been 470 and 286. The total amount of grant earned was Rs. 1,163–6–0 against a revised estimate of Rs. 1,000 and an actual of Rs. 977–5–0 in the previous year. The progress made by the schools was, as in the previous year, satisfactory. Grants were paid at the maximum rates only to such schools as continued to employ trained teachers, and at 75 per cent. to all other schools.

53. There were twelve unaided and indigenous schools with 273 pupils against eleven with 216 pupils in the preceding year. All of them were opened by private persons whose only income was that earned in the shape of school-fees got from the boys. The reason for the non-registry of these schools for grants appears to be either the incompetency or unwillingness of these persons to observe the rules regulating the maintenance of the necessary registers. Religious education was imparted in the unaided Muhammadan schools.

54. *General Educational Results.*—The total number of pupils under instruction in Municipal and Aided schools was 1,099 or 55·3 per cent. of the male population of school-going age, the corresponding figures of the previous year having been 1,046 or 52·6 per cent. The results were more satisfactory than last year.

55. *Inspection.*—The inspecting agency continued the same as in the previous year, the number of days spent on inspection and the number of pupils examined having been 444 and 15,277, respectively, the corresponding figures having been 478 and 15,137, respectively, in 1897–98. The cost to the Municipality under this head amounted to Rs. 290–11–7 against Rs. 303–4–2 in the previous year.

56. *Miscellaneous.*—The expenditure under this head amounted to Rs. 417–4–6 against Rs. 477–0–11 in the previous year as detailed below:—

	1897–98.			1898–99.		
	RS.	A.	P.	RS.	A.	P.
Building, furniture grants	150	0	0	50	0	0
Common gymnasium	161	5	8	127	1	10
Do. drawing	165	11	3	240	2	8
Total ..	477	0	11	417	4	6

57. *Grant 3, Sanitation and Medical Services.*—The expenditure under this head was Rs. 3,213–15–10 or Rs. 66–0–2 less than the revised estimate or Rs. 454–12–0 less than the actuals of the previous year. The decrease as compared with the actuals of the previous year was chiefly due to the reason assigned in paragraph (52) of the administration report for 1897–98 embodied in G.O., No. 1339 M., dated 27th July 1898. The variations in the remaining items under this head were slight and need no explanation. The total number of patients treated in the Municipal hospital fell from 13,384 to 8,702 as detailed below:—

	In-patients.	Out-patients.
1897–98	108	13,276
1898–99	85	8,617

The significant decrease in attendance under the two classes was due to the plague scare which made many to apprehend that a visit to the hospital would result in being inoculated.

58. The midwife attached to the Municipal hospital conducted 105 labour cases against 83 in the last year. She is getting to be popular.

59. *Medical training of Women.*—Nil.

60. *Contributions to Provincial Funds.*—Rs. 288 were paid towards the Medical College, Sanitary inspection, and Medical reserve staff, as against Rs. 324 in the previous year, the revised estimate being Rs. 330.

61. *Vaccination.*—The expenditure under this head was Rs. 274–2–0 against Rs. 300 in the revised estimate and Rs. 292–8–6, actuals of the last year. The slight decrease as compared with the revised estimate and the actuals of the previous year calls for no explanation. The statistics relating to vaccination are embodied in statement XIII accompanying this report. The number of operations performed by the Municipal vaccinator was 1,357, of which (967 of below one year of age and 390 of above one year of age) against 1,476 (1,047 of below one year of age and 429 of above one year of age). Of these 1,266 or 93 per cent. were successful as against 1,273 or 86·2 per cent. in the previous year. The number of children under one year reported to have been successfully vaccinated was 936 or 39·1 per mille against 981 or 37·4 per mille of the population. The results may therefore be said to be more satisfactory than last year. The average cost of each successful operation performed by the Municipal vaccinator was As. 3–5 in the year under report as against As. 3–8 in the previous year. The decrease of cost was due to the fall in the price of lanoline paste supplied from Mysore vaccine depot. The civil apothecary in charge of the Municipal hospital supervised the work of the Municipal vaccinator, and the District Medical and Sanitary Officer checked them during his visits. The number of cases vaccinated by the civil apothecary was 44, of which 40 were successful as against 15 and 15, respectively, in the previous year.

62. *Registration of Births and Deaths.*—The charges under this head amounted to Rs. 192–1–3 against Rs. 209–13–6, the actuals of the previous year and Rs. 200 in the revised estimate. Hereunder is given the number of births and deaths registered in the year under report as compared with that of the previous year:—

—	Births.	Rate per mille.	Deaths.	Rate per mille.
1897–98	923	35·2	978	37·3
1898–99	1293	49·3	717	27·3

The increase in birth-rate and decrease in death-rate were due to public health having been better than last year. Births and deaths were reported by the conservancy peons and by the parties concerned. No prosecutions under section 283 of Act IV of 1884 as amended by Act III of 1897 were instituted in the year under report.

63. *Sanitation.*—The charges under this major head amounted to Rs. 13,884–10–9 against Rs. 15,640 in the revised estimate, and Rs. 13,043–13–1, the actuals of the previous year. As compared with the revised estimate, there was a decrease of Rs. 1,755–5–3, due to the expenditure on account of plague having been less than what was anticipated in the revised estimate. Under conservancy, road cleaning and road watering, the charges amounted to Rs. 8,669–1–1, against Rs. 8,590 in the revised estimate and Rs. 9,723–2–2, the actuals of the previous year. As compared with the revised estimate, there was a slight increase which calls for no remark. The sanitation of the town was better looked after by the sanitary staff than in the previous year, as is evident from the civil apothecary's report, dated 13th April 1899 (appended hereto). There was a palpable improvement in the public health over the last year. The system of removing street refuse by departmental agency worked satisfactorily in the year under report. The total number of carts at work in the year under report was nineteen, of which eleven were rubbish and the rest sewage and night-soil carts. The due maintenance of carts and the feeding of the cattle were supervised by two councillors in the year under report. There were on the 31st March 1899, 20 public latrines, 125 dust-bins (74 masonry and 51 iron), and five urinals. All of them were cleaned daily and kept in a very tidy state.

64. *Private Scavenging.*—The expenditure under this head amounted to Rupees 1,771–7–10 against Rs. 1,780 in the revised estimate and Rs. 1,967–8–3, the

preceding year. Two hundred and forty eight pupils appeared for grant examination from all these schools and 168 passed, against 285 and 165 respectively in 1897–98. These results may be pronounced to be satisfactory on the whole.

52. *Grant-in-aid Schools.*—There were fourteen schools of the kind attended by 729 pupils at the end of the year against sixteen schools with 695 in the previous year. The slight fall in the number of schools is more than compensated by a satisfactory rise in the strength of the remaining schools. Of the fourteen schools referred to above, one was secondary and the rest primary. The number of pupils examined for grant was 463, and 343 of them passed, the corresponding figures for the previous year having been 470 and 286. The total amount of grant earned was Rs. 1,163–6–0 against a revised estimate of Rs. 1,000 and an actual of Rs. 977–5–0 in the previous year. The progress made by the schools was, as in the previous year, satisfactory. Grants were paid at the maximum rates only to such schools as continued to employ trained teachers, and at 75 per cent. to all other schools.

53. There were twelve unaided and indigenous schools with 273 pupils against eleven with 216 pupils in the preceding year. All of them were opened by private persons whose only income was that earned in the shape of school-fees got from the boys. The reason for the non-registry of these schools for grants appears to be either the incompetency or unwillingness of these persons to observe the rules regulating the maintenance of the necessary registers. Religious education was imparted in the unaided Muhammadan schools.

54. *General Educational Results.*—The total number of pupils under instruction in Municipal and Aided schools was 1,099 or 55·3 per cent. of the male population of school-going age, the corresponding figures of the previous year having been 1,046 or 52·6 per cent. The results were more satisfactory than last year.

55. *Inspection.*—The inspecting agency continued the same as in the previous year, the number of days spent on inspection and the number of pupils examined having been 444 and 15,277, respectively, the corresponding figures having been 478 and 15,137, respectively, in 1897–98. The cost to the Municipality under this head amounted to Rs. 290–11–7 against Rs. 303–4–2 in the previous year.

56. *Miscellaneous.*—The expenditure under this head amounted to Rs. 417–4–6 against Rs. 477–0–11 in the previous year as detailed below:—

	1897–98.			1898–99.		
	RS.	A.	P.	RS.	A.	P.
Building, furniture grants	150	0	0	50	0	0
Common gymnasium	161	5	8	127	1	10
Do. drawing	165	11	3	240	2	8
Total ..	477	0	11	417	4	6

57. *Grant 3, Sanitation and Medical Services.*—The expenditure under this head was Rs. 3,213–15–10 or Rs. 66–0–2 less than the revised estimate or Rs. 454–12–0 less than the actuals of the previous year. The decrease as compared with the actuals of the previous year was chiefly due to the reason assigned in paragraph (52) of the administration report for 1897–98 embodied in G.O., No. 1339 M., dated 27th July 1898. The variations in the remaining items under this head were slight and need no explanation. The total number of patients treated in the Municipal hospital fell from 13,384 to 8,702 as detailed below:—

	In-patients.	Out-patients.
1897–98	108	13,276
1898–99	85	8,617

The significant decrease in attendance under the two classes was due to the plague scare which made many to apprehend that a visit to the hospital would result in being inoculated.

58. The midwife attached to the Municipal hospital conducted 105 labour cases against 83 in the last year. She is getting to be popular.

59. *Medical training of Women.*—Nil.

60. *Contributions to Provincial Funds.*—Rs. 288 were paid towards the Medical College, Sanitary inspection, and Medical reserve staff, as against Rs. 324 in the previous year, the revised estimate being Rs. 330.

61. *Vaccination.*—The expenditure under this head was Rs. 274–2–0 against Rs. 300 in the revised estimate and Rs. 292–8–6, actuals of the last year. The slight decrease as compared with the revised estimate and the actuals of the previous year calls for no explanation. The statistics relating to vaccination are embodied in statement XIII accompanying this report. The number of operations performed by the Municipal vaccinator was 1,357, of which (967 of below one year of age and 390 of above one year of age) against 1,476 (1,047 of below one year of age and 429 of above one year of age). Of these 1,266 or 93 per cent. were successful as against 1,273 or 86·2 per cent. in the previous year. The number of children under one year reported to have been successfully vaccinated was 936 or 39·1 per mille against 981 or 37·4 per mille of the population. The results may therefore be said to be more satisfactory than last year. The average cost of each successful operation performed by the Municipal vaccinator was As. 3–5 in the year under report as against As. 3–8 in the previous year. The decrease of cost was due to the fall in the price of lanoline paste supplied from Mysore vaccine depot. The civil apothecary in charge of the Municipal hospital supervised the work of the Municipal vaccinator, and the District Medical and Sanitary Officer checked them during his visits. The number of cases vaccinated by the civil apothecary was 44, of which 40 were successful as against 15 and 15, respectively, in the previous year.

62. *Registration of Births and Deaths.*—The charges under this head amounted to Rs. 192–1–3 against Rs. 209–13–6, the actuals of the previous year and Rs. 200 in the revised estimate. Hereunder is given the number of births and deaths registered in the year under report as compared with that of the previous year:—

—	Births.	Rate per mille.	Deaths.	Rate per mille.
1897–98	923	35·2	978	37·3
1898–99	1293	49·3	717	27·3

The increase in birth-rate and decrease in death-rate were due to public health having been better than last year. Births and deaths were reported by the conservancy peons and by the parties concerned. No prosecutions under section 283 of Act IV of 1884 as amended by Act III of 1897 were instituted in the year under report.

63. *Sanitation.*—The charges under this major head amounted to Rs. 13,884–10–9 against Rs. 15,640 in the revised estimate, and Rs. 13,043–13–1, the actuals of the previous year. As compared with the revised estimate, there was a decrease of Rs. 1,755–5–3, due to the expenditure on account of plague having been less than what was anticipated in the revised estimate. Under conservancy, road cleaning and road watering, the charges amounted to Rs. 8,669–1–1, against Rs. 8,590 in the revised estimate and Rs. 9,723–2–2, the actuals of the previous year. As compared with the revised estimate, there was a slight increase which calls for no remark. The sanitation of the town was better looked after by the sanitary staff than in the previous year, as is evident from the civil apothecary's report, dated 13th April 1899 (appended hereto). There was a palpable improvement in the public health over the last year. The system of removing street refuse by departmental agency worked satisfactorily in the year under report. The total number of carts at work in the year under report was nineteen, of which eleven were rubbish and the rest sewage and night-soil carts. The due maintenance of carts and the feeding of the cattle were supervised by two councillors in the year under report. There were on the 31st March 1899, 20 public latrines, 125 dust-bins (74 masonry and 51 iron), and five urinals. All of them were cleaned daily and kept in a very tidy state.

64. *Private Scavenging.*—The expenditure under this head amounted to Rupees 1,771–7–10 against Rs. 1,780 in the revised estimate and Rs. 1,967–8–3, the

actuals of the previous year. The decrease as compared with the revised estimate was small and therefore calls for no remarks. The total receipts derived from this head amounted to Rs. 2,064-5-0 or Rs. 292-13-2 more than the expenditure incurred in the year under report. Thus the service was worked at a profit of Rs. 292-13-2 to the Council against a loss of Rs. 253 in the previous year. As in the previous year, the night-soil from the public and private latrines and the sweepings from the dust-bins were removed in Municipal carts to the night-soil depot for being buried there in trenches dug out for the purpose. The depot worked in accordance with the suggestions of the Sanitary Commissioner was in a satisfactory condition.

65. *Epidemic Charges.*—Rs. 3,444-1-10 were spent against a revised estimate of Rs. 5,270 and Rs. 1,343-2-8, the actuals of the previous year. The charges were incurred in the employment of establishments for combating plague and the construction of plague sheds of all descriptions under the Mufassal Plague Regulations. The decrease was due to the reason assigned in paragraph 63 *supra.*

66. There was no cholera in the year under report, but there were four imported plague cases with three deaths. Preventive steps were promptly taken under the plague regulations by watching the town vigilantly to prevent people from infected localities and keeping it in a very sanitary condition.

67. *Grant 4, Lighting.*—The outlay incurred under this head amounted to Rupees 997-2-3 against Rs. 1,310 in the revised estimate and Rs. 1,443-9-10, the actuals of the previous year. The decrease as compared with the revised estimate was due partly to the fall in the price of kerosine-oil and partly to the non-purchase of other lighting materials and to the non-payment of Rs.176-11-6 to the oil supplier owing to his late presentation of bills for January, February and March 1899. This amount due to him will be adjusted in the current year. The lighting of the town was conducted departmentally as in the previous year, the number of lamps in the town being 174 against 182 in the preceding year.

68. *Market.*—There was only one market, the income from which was Rupees 2,105-13-5 against Rs. 2,100 in the revised estimate and Rs. 1,416-0-9, the actuals of the previous year. The increase of Rs. 689-12-8 as compared with the actuals of the previous year was due to keen competition at the time of the auction sale. The market was, as in the previous year, kept in a good condition, the public resorting to it freely.

69. *Slaughter-house.*—The expenditure on account of the establishment, which consisted of only two sweepers, amounted to Rs. 138-10-8 against Rs. 130 anticipated in the revised estimate. There were two slaughter-houses, one for sheep and goats, and the other for bullocks and cows. They were daily flushed and kept in a clean condition. The animals were examined by the Sanitary Inspector before they were slaughtered at the said house.

70. *Choultries.*—Except the establishment charges of Rs. 24 paid to the single watcher employed at Rs 2 per mensem, no other expenditure was incurred in the year under report.

71. *Travellers' Bungalow.*—Rs. 150-10 were spent under this head against Rs. 120 in the revised estimate and Rs. 101-1-4 actuals, of the previous year. The increae as compared with the revised estimate was due to the supplying of a long felt want of travellers, viz., the purchase of crockery.

72. *Avenues.*—The existing avenues were properly watched. The charges incurred under this head amounted to Rs. 117-9-2 as against Rs. 150 in the revised estimate.

73. *Other charges.*—These amounted to Rs. 262-14-3 or Rs. 47-1-9 less than the revised estimate. The slight decrease calls for no remark.

74. *Grant 5, Supervision and Management.*—The outlay incurred under this head was Rs. 4,303-3-11 against Rs. 4,530 in the revised estimate and Rs. 3,584-13-6, actuals of the previous year. The decrease as compared with the revised estimate was owing chiefly (*a*) to the non-receipt by the office manager of his pay at Rs. 22-8-0 for the three months for which he was absent on sick leave on half pay granted by the

Secretary, instead of privilege leave sought for by him, the question of the conversion of his sick leave into one of privilege leave on full pay having been favourably considered by the Council at his request after the close of the year under report, and (*b*) to the savings effected in the purchase of account books, &c.

75. *Re-payment of debt.*—Rs. 1,352-8-6 were paid into the Government Treasury, Adóni, as the fifth instalment of loan of Rs. 66,000 obtained from Government in 1893-94 and Rs. 2,580-7-6 as interest on it before the 31st March 1899.

76. *Municipal accounts.*—The accounts of this Municipality for 1897-98 were audited in the year under report by M.R Ry. M. K. Murugesa Mudaliyar Avargal, Assistant Inspector of Local Fund Accounts, attached to the Accountant-General's office, Madras, who remarked that on the whole the accounts were satisfactorily maintained. His audited figures have been adopted in the accompanying annual statements as the actuals of 1897-98.

77. Statements I, II, III and IV showing the statistics of all the schools in the Municipality received from the Assistant Inspector of Schools, Ceded districts division, and the report of the civil apothecary on the working of the Municipal hospital and on the sanitation of the town are enclosed.

78. The statements XIV and XV required in G.O., No. 1594 M., dated 11th July 1897, and G.O., No. 291 M., dated 25th February 1897, are also enclosed.

79. A copy of the Council's resolution approving the report is submitted herewith.

Enclosure.

From Civil Apothecary A. XAVIER in Medical charge, Adóni, to the Chairman, Municipal Council, Adóni (through the District Medical and Sanitary Officer, Bellary), dated 13th April 1899.

I have the honour to submit my report on the administration of Municipal hospital, Adóni, and on the sanitation of the town during the official year 1898-99.

Public Health.—Fair. There was palpable improvement over that of the previous year. Except for a mild form of influenza which set in at about the latter part of March 1899, there were no epidemics. Four cases of plague were treated, of whom three died. These were all imported cases. There were no indigenous attacks.

The following comparative statement shows the number of deaths from the principal diseases :—

	1897-98.	1898-99.
Plague	..	3
Small-pox	2	..
Cholera	93	..
Fevers	322	163
All other causes	561	551
Total ..	978	717

2. *Vital statistics.*—

	1897-98.	1898-99.
Population	26,243	26,243
Births, including born-dead	923	1,293
Deaths, from all causes excluding born-dead	978	717
Birth-rate per mille	35·16	49·27
Death-rate per mille	37 26	27·32

3. *Sanitation.*—The methods and staff and plant employed in respect to night-soil and rubbish conservancy were the same as in the previous year. With a view to early detection of plague cases, a plague observation staff was employed; besides this special purpose, this staff was also engaged in attending to the general cleanliness of the town. The number of public latrines and urinals was the same as in 1897-98. Eight hundred and fifty-three private latrines were scavenged by Municipal agency against 830 of the previous year.

4. *Vaccination.*—The total number of cases vaccinated was 1,401 compared with 1897–98; this shows a decrease of 90 cases. The number of children vaccinated under one year of age is 960. Of these, 914 were successful. The figures for the previous year are 1,058 vaccinated and 992 successful. The fall in numbers is accounted for by the fact that in 1897–98 there were 1,162 births liable to vaccination and in 1898–1899 only 1,038.

5. *Hospital and Dispensaries.*—

(*a*) *Nature and sufficiency of accommodation.*—Substantial and ample.

(*b*) *State of repair of buildings.*—They are in good state of repair.

(*c*) *State of repair of furniture.*—They are in fair order.

(*d*) *Inspections*—

(i) by the Surgeon-General—*Nil.*

(ii) by the District Medical and Sanitary Officer, Bellary—On the 13th August 1898 and 16th March 1899.

(*e*) *Amount of recoveries from patients*—Nil.

(*f*) *Number of patients treated as compared with previous years.*—The following comparative statement shows a considerable decrease. This is due to the plague scare; an apprehension on the part of patients that a visit to the hospital may result in their being sent to the plague isolation shed.

—	In-patients.		Out-patients.	
	Number treated.	Average daily sick.	Number treated.	Average daily attendance.
1896-97	81	3·22	12,921	94·79
1897-98	108	5·63	13,276	96·27
1898-99	85	3·74	8,617	74·14

(*h*) *Operations and results.*—The number of surgical operations performed during the year was 247. There were no deaths.

(*i*) *Establishment, whether sufficient and efficient.*—Efficient and ample.

(*j*) *Midwives, work actually done by.*—Midwife Thippama was on duty during the year; she conducted 105 cases against 83 of the previous year.

(*k*) There is no caste and gosha women dispensary in this town.

(*l*) The expenditure as compared with the previous year is as follows :—

	1897-98.			1898-99.		
	RS.	A.	P.	RS.	A.	P.
Salaries of medical subordinates	1,587	2	0	1,612	8	0
Salaries of servants	635	0	0	635	0	0
Medical stores and instruments	841	13	0	492	8	10
Dieting charges	290	9	0	191	6	1
Contingencies	252	5	11	222	8	11
Lanoline vaccine paste	102	2	0	73	9	0

C. R. No. 706.

Forwarded.

(Signed) R. PEMBERTON, Lieut-Col., I.M.S.,
Ag. District Medical and Sanitary Officer.

27th April 1899.

Submitted.

(Signed) A. SHANMUGASUNDARAM PILLAI,
Deputy Collector.

29th May 1899.

Forwarded.

2. *Paragraph* 4.—There was very little improvement in the attendance at the meetings of the Council of the official members, in spite of the communication to them of the remarks passed in paragraph 2 of G.O., No. 1339, dated 27th July 1898. It must, however, be mentioned that all these members are itinerating officers and that one of them, a Sub-Assistant Inspector of Schools, has his head-quarters at Bellary and necessarily visits Adóni only a few times in the course of the year.

3. *Paragraphs* 6—20.—The greater portion of the arrears of the previous years have now been cleared off, and the current collections were fairly satisfactory. The number of warrants issued (1,145) for the recovery of the taxes was large, but property had to be distrained in only 49 cases and was sold in none.

4. *Paragraph* 44.—The roads were in moderately good order, though but Rs. 410 were spent on them as compared with Rs. 1,794 in the previous year. It is hoped that part of the balance of Rs. 7,804 with which the year under report closed may be spent in opening out new roads in the more thickly populated quarters of the town.

5. *Paragraph* 61.—There was a decrease in the total number of cases vaccinated; on the other hand, there was an advance in the proportion of successful operations.

6. *Paragraph* 64.—Private scavenging brought in a profit of Rs. 292–13–2 to the Municipality, and the system might be extended, at reduced rates, to the houses of poor Muhammadans whose females do not appear in public.

(Signed) E. A. ELWIN,
Acting Collector.

4th June 1899.

From the Chairman, Municipal Council, Adóni, dated 10th June 1899, Dis. No. 330.

Order—No. 890 M., dated 26th June 1899.

The receipts and charges of the Adóni Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98 :—

—	Actuals, 1897-98.	Budget estimate, 1898-99.	Revised estimate, 1898-99.	Actuals, 1898-99.
Receipts.	RS.	RS.	RS.	RS.
Balance brought forward	13,871	1,200	1,260	1,263
Tax on Arts	3,133	3,210	4,210	4,069
,, Buildings and Lands	9,055	13,730	15,550	14,762
Water and Drainage tax on Buildings and Lands	4,832	6,890	8,360	7,830
Tax on Vehicles and Animals	701	830	1,000	1,029
,, Carts	976	1,100	1,430	1,496
Tolls	2,923	3,000	3,910	3,925
Realizations under Special Acts	..	..	50	75
Rent of Lands, Buildings, &c., and sale-proceeds of Lands, &c. ..	323	160	350	442
Conservancy Receipts	1,267	1,000	1,100	1,706
Fees and Revenue from Educational Institutions	175	240	250	265
,, ,, Medical Institutions	41	40	20	23
Income from Markets and Slaughter-houses	2,197	1,800	2,690	2,700
License fees	326	750	1,100	1,101
Other fees	44	40	160	143
Fines under Municipal and other Acts	261	500	400	401
Grants and Contributions from Government	..	190	220	279
,, ,, Local Boards	621	570	570	557
,, ,, other bodies	65	60	40	44
Recoveries for services to private individuals	1,715	1,900	2,090	2,102
Miscellaneous	52	..	40	32
Advances Recovered	1,251	..	120	118
Total ..	29,[illegible]8	36,010	43,660	43,099
Grand Total ..	43,829	37,210	44,920	44,362

4. *Vaccination.*—The total number of cases vaccinated was 1,401 compared with 1897–98; this shows a decrease of 90 cases. The number of children vaccinated under one year of age is 960. Of these, 914 were successful. The figures for the previous year are 1,058 vaccinated and 992 successful. The fall in numbers is accounted for by the fact that in 1897–98 there were 1,162 births liable to vaccination and in 1898–1899 only 1,038.

5. *Hospital and Dispensaries.*—

(*a*) *Nature and sufficiency of accommodation.*—Substantial and ample.

(*b*) *State of repair of buildings.*—They are in good state of repair.

(*c*) *State of repair of furniture.*—They are in fair order.

(*d*) *Inspections*—

(i) by the Surgeon-General—*Nil.*

(ii) by the District Medical and Sanitary Officer, Bellary—On the 13th August 1898 and 16th March 1899.

(*e*) *Amount of recoveries from patients*—Nil.

(*f*) *Number of patients treated as compared with previous years.*—The following comparative statement shows a considerable decrease. This is due to the plague scare; an apprehension on the part of patients that a visit to the hospital may result in their being sent to the plague isolation shed.

—	In-patients.		Out-patients.	
	Number treated.	Average daily sick.	Number treated.	Average daily attendance.
1896–97	81	3·22	12,921	94·79
1897–98	108	5·68	13,276	96·27
1898–99	85	3·74	8,617	74·14

(*h*) *Operati·ns and results.*—The number of surgical operations performed during the year was 247. There were no deaths.

(*i*) *Establishment, whether sufficient and efficient.*—Efficient and ample.

(*j*) *Midwives, work actually done by.*—Midwife Thippama was on duty during the year; she conducted 105 cases against 83 of the previous year.

(*k*) There is no caste and gosha women dispensary in this town.

(*l*) The expenditure as compared with the previous year is as follows :—

	1897–98.			1898–99.		
	RS.	A.	P.	RS.	A.	P.
Salaries of medical subordinates	1,587	2	0	1,612	8	0
Salaries of servants	635	0	0	635	0	0
Medical stores and instruments	841	13	0	492	8	10
Dieting charges	290	9	0	191	6	1
Contingencies	252	5	11	222	8	11
Lanoline vaccine paste	102	2	0	73	9	0

C. R. No. 706.

Forwarded.

(Signed) R. PEMBERTON, Lieut-Col., I.M.S.,
Ag. District Medical and Sanitary Officer.

27th April 1899.

Submitted.

(Signed) A. SHANMUGASUNDARAM PILLAI,
Deputy Collector.

29th May 1899.

Forwarded.

2. *Paragraph* 4.—There was very little improvement in the attendance at the meetings of the Council of the official members, in spite of the communication to them of the remarks passed in paragraph 2 of G.O., No. 1339, dated 27th July 1898. It must, however, be mentioned that all these members are itinerating officers and that one of them, a Sub-Assistant Inspector of Schools, has his head-quarters at Bellary and necessarily visits Adóni only a few times in the course of the year.

3. *Paragraphs* 6—20.—The greater portion of the arrears of the previous years have now been cleared off, and the current collections were fairly satisfactory. The number of warrants issued (1,145) for the recovery of the taxes was large, but property had to be distrained in only 49 cases and was sold in none.

4. *Paragraph* 44.—The roads were in moderately good order, though but Rs. 410 were spent on them as compared with Rs. 1,794 in the previous year. It is hoped that part of the balance of Rs. 7,804 with which the year under report closed may be spent in opening out new roads in the more thickly populated quarters of the town.

5. *Paragraph* 61.—There was a decrease in the total number of cases vaccinated; on the other hand, there was an advance in the proportion of successful operations.

6. *Paragraph* 64.—Private scavenging brought in a profit of Rs. 292–13–2 to the Municipality, and the system might be extended, at reduced rates, to the houses of poor Muhammadans whose females do not appear in public.

(Signed) E. A. ELWIN,
Acting Collector.

4th June 1899.

From the Chairman, Municipal Council, Adóni, dated 10th June 1899, Dis. No. 330.

ORDER—No. 890 M., dated 26th June 1899.

The receipts and charges of the Adóni Municipality for 1898–99 are compared below with the budget and revised estimates for the year and the actuals of 1897–98 :—
