Sir,

I have the honor to forward copies of —
correspondence that have passed between the District Traffic
Superintendent Solaspur and the Chief Medical Officer in
charge of the plague inspection staff on the subject of a
Sontaman from Pisantham who, having got leave to go to
his native village, was removed to the segregation camp
on arrival at Solaspur and detained for a period of ten
days, although it is stated he had no symptoms of fever,
and was not in any way suspected of having plague.
Dr. Thomas in his reply, states that the man was
detained because he had come from an infected area.

It has always been understood hitherto that the
Plague inspection Officers were not justified in detaining
passengers unless they had reasonable grounds for
suspicion that they were subjects of plague or were
likely to spread infection.

If all passengers from infected areas are to be detained for ten days irrespective of any other circumstances, it seems very advisable that the fact should be made widely known to the inhabitants of those areas; and the matter appears to me to be so serious that I beg to bring it to your notice in view to your taking such action as you may deem advisable.

I have the honor to be,
Sir,
