Plague

Notification 663 729.3.29
Plague

The Collector recognizes the assistance which the inhabitants of Hosur Town and Suburbs have rendered to the plague authorities in the readiness with which they have for the most part evacuated the infected quarters and taken up their abode in sheds outside. As there seems, however, no immediate prospect of stamping out the disease entirely if the remaining families are left inside the town and suburbs and the people living in the sheds surreptitiously visit the houses in the town and thereby spread infection, it is hereby notified that under Additional Regulation 22 that the whole of Hosur Town and its suburbs which is infected with plague must be evacuated within 48 hours of the publication of this notice.

2. Any person other than plague officials found within the said area after the expiry of the said notice except with the permission of and under the pass in writing of the special Plague officer or some one specially authorized by him in this behalf will be prosecuted under section 188 I.P.C.
3. An exception will be made in the case of bona fide travellers passing through the town by roads specially set apart or to the public

public offices, but with this exception entry into any road, street, house shop or any other portion of the infected area without a pass is absolutely prohibited.

4. Accommodation is ready for the families directed to evacuate and they should if necessary apply for information or instructions to the special Plague officer.
