## Report on the Inspection of the Local Fund Accounts of the Chengalput District.

Camp, Tanjore

Dated 11<sup>th</sup> October 1898.

To

THE Inspector of Local Fund

Accounts, Madras.

SIR,

I have the honour to submit the following report on my recent inspection of the Local Fund Accounts of the Chengalput District for the period extending from June 97 to March 98.

2. The accounts were examined generally for the whole period in accordance with the instructions given in the enclosure to Accountant-General's letter to Government, No. L. F. D. 522, dated the 29th February 1892, as modified by subsequent Government orders, and in detail for the months of July 97 to March 98.

3. A note on the defects found in the accounts has been forwarded to the President, District Board. The following points, however, deserve to be brought to the notice of Government.

(1) In the following cases, provision was made both in the working and special repairs estimates, for repairs to the same miles of the roads concerned. The necessity for this is not understood, especially when, as in the first of the cases mentioned, the estimates were submitted on the same date. If any portion of a road is being specially repaired, it is difficult to see how ordinary maintenance repairs can be carried on simultaneously.

ously on the same portion; but this is what was apparently done in the 5<sup>th</sup> mile of the great northern Trunk road vide last column of both the entries against item 1 below.

It may be mentioned also, as showing that this double provision is not always made that in the case of the first and thus roads referred to, provision was made for special repairs to the 1<sup>st</sup> & 6<sup>th</sup> and 39<sup>th</sup> & 40<sup>th</sup> miles respectively without any corresponding entry in the ordinary maintenance estimates.

| No. | Taluk      | name of road                                              | no. of mile | kind of estimate         | Amount of estimate | Date of estimate            | Date of expenditure             |
|-----|------------|-----------------------------------------------------------|-------------|--------------------------|--------------------|-----------------------------|---------------------------------|
| 1   | Ponneri    | special repairs to the great northern Trunk road          | 5           | special repairs estimate | 3500               | 22 <sup>nd</sup> April 97   | 2 <sup>nd</sup> June 97         |

I have the honor to inform that there is nothing wrong in making provision for the special repair and the ordinary repairs of any mile of road when there is doubt about the ability of the Board to provide funds for special repair estimates. For instance for this year a special repair estimate was submitted for renewal of

the 1 to 5 furlongs of the 6<sup>th</sup> mile of the Southern Trunk Road and provision was made also in the maintenance estimate for patch work and petty repairs of the same. In this case funds could not be spared for the special repairs, so the maintenance estimate alone was worked out.

2. In the first instance mentioned by the Assistant Inspector, Southern Trunk Road, provision for the repair of a length of only 320 feet of road way was made in the 5 mile in the special repair estimate for want of funds, as the

the allotment was limited to Rs 3,500.

Patch repairs for the rest of that mile had therefore to be provided in the maintenance estimate.

3. In the case of the special repair of flood damages for the 37 to 40 miles of the Ramayyeri road, the estimate for that work was prepared in December 1896 for Rs 1330, but only Rs 400 were sanctioned for that year (1896-97). When the maintenance estimate for the following year (1897-98) was prepared in April 1897 for that road, it was doubtful if funds for special repair would be sanctioned, as the Trivellore Taluk Board was short of funds; provision was therefore made in the maintenance estimate for petty repairs to the extent of Rs 56 for the 37 and 38 miles of that

road. When however a contribution to the Taluk Board was sanctioned by the District Board on the 19<sup>th</sup> August 1897 for completion of the special repairs, the supply of gravel for the 37 and 38 miles, provided for in the maintenance estimate, was not made. The special repair estimate only was worked out.

4. The 3<sup>rd</sup> Case (Red Hills - Trivellore road) is similar to the Ramangeri road. It will thus be seen that there was nothing wrong in the procedure adopted.

5. The only thing that would seem objectionable in such cases would be to renew a mile or portion of road by special repair estimate and at the same time to patch the same portion in the maintenance estimate.

This

This has not been done in any case.  
6. The estimates for special repair and maintenance for these 3 roads are sent for perusal and return.

I have the honor to be,  
Sir,

your most obedient servant.
