**JULY.**

**Administration Report.**

Reviewing the — of the Tirupati Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

---

Read—the following paper :—

From M.R.Ry. V. RANGANATHA RAO Avargal, Chairman, Municipal Council, Tirupati, to the Secretary to Government, Local and Municipal Department (through the Head Assistant Collector of North Arcot), dated 27th May 1899, Ref. No. 1225 M.

I have the honour to submit my report on the administration of the Tirupati Municipality for the financial year 1898–99.

I.—Constitution of the Council.

2. The Council consisted of twelve members—three officials and nine non-officials. Six vacancies occurred during the year—four on the 13th August and one on the 17th September 1898, consequent upon efflux of time, and the other on the 15th February last by the transfer of one of the official councillors viz., M.R.Ry. K. Gopalachariar Avargal, Deputy Tahsildar, from the division. None of these vacancies was filled up before the close of the year. Two vacancies were filled by nomination subsequently and four have been reserved for election, as this municipality has also been granted this privilege by Government in their order, No. 2260 M., dated 15th October 1897. M.R.Ry. K. Gopalachariar Avargal, Chairman, having been transferred from the division, as stated above, the Head Assistant Collector assumed charge of the office in February last and the work was managed by M.R.Ry. V. Ananthachariar Avargal, Chairman-delegate, till the close of the year. The total number of meetings held during the year was twenty-three, exactly the same number as in last year, and the average attendance at each meeting was 1·39 among officials and 3·42 among non-officials against 1·52 and 4·87, respectively. Only one meeting was adjourned for want of a quorum. The slight fall in the attendance was due to the non-attendance of the ex-officio councillor among officials and to the fact that four vacancies had not been filled up for a major portion of the year, *i.e.*, from 13th August to the end of the year (as these had to be filled up by election)—*vide* Collector's letter, Dis. No. 1745, dated 30th September 1898.

II.—Receipts.

3. The total receipts together with the opening balance amounted to Rupees 31,337–14–4 against Rs. 38,890 as per revised estimate. The expenditure amounted to Rs. 28,693–12–11 against Rs. 37,000. The year thus closed with a balance of Rs. 2,644–1–5 against Rs. 1,890 of the revised estimate.

4. *Tax on Arts.*—The amount, as originally assessed, was Rs. 1,412 against an estimate of Rs. 1,600, of which Rs. 56–8–0 were remitted by the Council and the net demand, as finally settled, was Rs. 1,355–8–0. Of this, Rs. 1,240 were collected during the year, leaving a balance of Rs. 115–8–0 at the close of the year. Of this, Rs. 16 has since been collected. The arrear balance at the beginning of the year was Rupees 545–10–11, of which Rs. 87–12–6 were realized and Rs. 117–3–5 written off as irrecoverable, leaving a balance of Rs. 340–11–0 at the close of the year. Necessary steps will be taken to realize the arrears as early as possible. The fall in the demand

under this head is attributed to depression of trade owing to plague in India, in consequence of which there is a very great fall among the number of pilgrims to the town.

5. *Tax on buildings.*—The demand under this head amounted to Rs. 6,031–9–7. Of this, Rs. 5,785–15–11 were collected and Rs. 1–15–3 remitted on account of poverty, thus leaving a balance of Rs. 243–10–5 at the close of the year. Of this, Rs. 49 have since been collected and Rs. 30–4–9 written off by the Council as irrecoverable. Of the arrears of previous years (Rs. 429–4–2), a sum of Rs. 188–3–6 was collected during the year, Rs. 11–0–3 written off as irrecoverable, and Rs. 230–0–5 still left. Of this, Rs. 69–4–9 have since been realized and Rs. 90–2–10 written off by the Council as irrecoverable. Necessary arrangements have been made to realize the balance soon.

6. *Tax on lands.*—The demand under this head is more or less the same as in last year, viz., Rs. 351–6–8. Rs. 300–6–3 were collected and the balance left is Rupees 51–0–5 at the close of the year. Out of the arrears of Rs. 71–13–3, Rs. 23–12–5 were collected during the year and Rs. 48–0–10 left as balance. Measures have been taken for their realization at an early date.

7. Bills for the taxes on arts, buildings and lands were issued in June, July and December, respectively. The delay in the issue of bills for the last item appears to have been due to the services of the bill collectors having been availed of till then for collection of other taxes.

8. The tax on vehicles with springs, animals and carts amounted to Rs. 161, Rs. 521 and Rs. 626, respectively, against Rs. 220, Rs. 690 and Rs. 700, respectively, originally estimated. The fall seems to be due apparently to over-estimate. The outstandings, viz., Rs. 12, Rs. 5–8–0 and Rs. 2 shown in statement IV-A should have been collected within the close of the year, but seem to have been left out by the carelessness of the office and out-door establishments who appear to have been satisfied with giving mere notice to the parties concerned. No further steps seem to have been taken, and I shall now see that the amount is cleared off at once.

9. *Tolls.*—The farm of tolls was as usual leased out for the year under report for Rs. 1,920 against Rs. 2,200, the actuals of last year. Rupees 3–4–9 were collected from toll contractor on account of interest on overdue payments, and Rs. 3–1–6 were spent on repair of toll-gates. Thus, the net income from tolls is Rs. 1,920–3–3 and the one-third share due to Local funds is therefore Rs. 640–1–1. Instead of paying this amount, Rs. 640–6–10 have been paid, *i.e.*, As. 5–9 in excess, which will be recovered at once. The fall under this item is due to want of competition.

10. The sum of Rs. 30 shown under "fees under Act II of 1888" represents the fees levied on account of a tent put up by a Horse Circus Company called "Sreesankaravilas" who had come here during August last and gave performances.

11. The sum of Rs. 27–11–0 represents the rent levied on shops kept on the municipal lands during fairs and festivals.

12. Of the sum of Rs. 41–12–0 shown under "avenue receipts," Rs. 15–8–0 were realized from the sale of usufructs of tamarind produce and the remaining from the sale of dried and wind-blown trees.

13. *Produce of gardens, &c.*—Rupees 7–8–0 were realized from the sale of usufruct of tamarind trees in the People's Park and Rs. 21–15–6 from the sale of dried and wind-blown trees in the same park.

14. *Sale-proceeds of old materials.*—The sum of Rs. 9–13–0 was made up of Rs. 6, being the value recovered of dressed stones which were found lying in the People's Park and of Rs. 3–13–0 from the sale of kerosine tins, &c.

15. *Conservancy receipts.*—Rupees 422–1–0 were realized from the sale of sweepings during the year against an estimate of Rs. 350. This was due to keen competition among the ryots for manure, especially on account of timely rains.

16. *School fees.*—The sum of Rs. 220–3–6 represents the fees collected from boys of the municipal schools against Rs. 200 in the estimate. This is a fluctuating item and calls for no remarks.

17. *Income from markets.*—The municipal vegetable market was leased out for Rs. 295 and the meat market for Rs. 115. Annas 11–3 was levied from the renters on account of penal interest on overdue kists for the same. Rupees 10 was also levied as fees on the private fish market.

18. *Income from slaughter-house.*—This was also leased out during the year for Rs. 417, and As. 11–4 was collected as penal interest on overdue kists. Rs. 57–6–0 were also realized from the slaughter of sheep in sacrifice to village deities on payment of As. 3 per head to the Council as sanctioned in paragraph 3 of G.O., No. 536 M., dated 8th March 1898.

19. *Warrant and distraint fees.*—A sum of Rs. 237–12–0 was levied under this head, and it comprises Rs. 209–2–0, warrant fees, Rs. 27–2–0, distraint fees and Rs. 1–8–0, charges incurred in connection with the seizure and detention of unregistered carts under section 90 (2) of the District Municipalities Act.

20. The number of warrants issued during the year and those of the previous years were 2,714, amounting to Rs. 2,928–6–5. Of these, 1,845 amounting to Rupees 2,220–9–11 were executed and 869 with an amount of Rs. 707–12–6 left unexecuted at the close of the year. One thousand seven hundred and fifty-one warrants to the amount of Rs. 1,973–10–3 were collected after the issue of warrants but before distraint, and property was distrained in 61 cases and money collected before sale. The number of cases in which property was sold is 16.

21. *License fees.*—A sum of Rs. 72–0–6 against Rs. 130 of the estimate was realized for places used for offensive and dangerous trades and for temporary erections. The considerable fall against the estimate is apparently due to over-estimate.

22. *Cart-stand fees.*—There are two cart-stands in the town and they were together leased out during the year for Rs. 17. Annas 2–4 were also collected as penal interest on overdue kists. A sum of Rs. 6 was collected as fees on account of jutka-stand.

23. *Fines.*—Rupees 107 were levied as fines under the Town Nuisances Act, and Rs. 29–8–0 under the Municipal Act.

24. *Grants from Government.*—A sum of Rs. 188–13–11 was paid from Provincial funds on account of result grants for the Municipal girls' school.

25. *Other grants.*—Of the sum of Rs. 12,065 shown under this head, Rs. 12,000 were paid during the year by the Mahant of Tirupati on account of his first instalment of contribution due towards the Tirupati waterworks, and Rs. 65 by the Bugga Matam Mahant as contribution for the salary of the Bugga watchman who is under the control of the Council. In this connection, I feel bound to bring to the notice of Government that the Mahant has not paid his second instalment of contribution though the same is 13 months overdue. The several requisitions from this office and those of the Collector as well have practically been in vain. If such a state of things should continue, the Council is afraid that the municipality would be subject to pay a large amount of interest from Municipal funds which is already in a crippled state of finances. It was, I understand, on the motion made from this office that the Collector was pleased to allow the Mahant the concession of paying the said contribution in two instalments in the year—one in October and the other in February. Though he has, I learn, signified his consent to the measure, yet nothing has been practically done. Under the circumstances, some such measure as has been contemplated by the provisions of section 269 of the District Municipalities Act seems desirable if the legislature allow it. I learn that the Mahant has signed an agreement before the Collector of the district promising to pay the said contribution in instalments of Rs. 12,000 per annum, and but for this munificent grant the Council would not have undertaken the scheme. In these circumstances, it is but just that the Mahant should be compelled to pay the amount regularly.

26. *Private scavenging.*—One hundred ninety-eight houses are being served under this system, and a fee of As. 12 per house levied quarterly and in advance for the service. The demand under this head was Rs. 653 against an estimate of Rs. 650. Of this, Rs. 634–4–0 were collected and Rs. 48 left outstanding. Rupees 9–12–0 have since been collected. Of the arrear demand of previous years, viz., Rs. 55–8–0, Rs. 29–4–0 were collected during the year besides Rs. 2–4–0 since collected. Necessary steps will be taken to make out a clean balance sheet.

27. *Fishery rents.*—The drinking-water tank, called Thathaya gunta, got dry and there consequently came in keen competition for the lease of fishery thereof, and the Council accordingly granted the application and thus realized Rs. 27 to the credit of the Municipal funds.

28. *Loans.*—Rupees 2,700 were granted by Government as loan from Imperial funds for plague charges likely to be incurred on plague-preventive measures and the same was taken credit for in the accounts.

29. *Other advances.*—Of the sum of Rs. 30–7–5 shown under this head, Rs. 20 was recovered from Gangi Reddi and Rs. 600 by adjustment against advance made to Sreenivasa Chari for the repair of conservancy carts in 1897–98. Rs. 1–1–3 was recovered during the year from the contractor who had been overpaid in 1897–98. So also the sum of Rs. 3–6–2 which had been overpaid to the District Board was recovered during the year in payment of the cost of the repair of toll sheds.

## III.—CHARGES.

30. *Grant 1, New Works—Buildings.*—A sum of Rs. 422–7–11 was spent for the erection of two latrines with corrugated iron sheets supplied by Messrs. Sultan & Co., Madras, against an estimate of Rs. 400. The excess over the estimate was due to the payment of trainage for the materials supplied by the said Company and also for fixing them.

31. *Repairs—Communications.*—Rupees 1,516–14–7 have been spent on repairs—communications against the revised estimate of Rs. 1,500 for the repair of the town roads. Of this amount, Rs. 423–12–4 represents the wages of the gang coolies consisting of one maistry and seven coolies. The remaining amount of Rs. 1,093–2–3 is what was spent on town roads by engaging temporary coolies and executing the work departmentally. No work was given on contract this year as the mode of executing repairs by departmental agency was found to be advantageous.

32. *Buildings.*—Rupees 141–8–11 were incurred under this head for the repair of—

| | Rs. | A. | P. |
|---|---|---|---|
| (1) Chandragiri toll-shed ... ... ... ... ... ... | 2 | 0 | 0 |
| (2) Repair of tatti latrines ... ... ... ... ... ... | 1 | 3 | 3 |
| (3) Municipal office ... ... ... ... ... ... ... | 129 | 10 | 2 |
| (4) Meat market ... ... ... ... ... ... ... | 4 | 0 | 0 |
| (5) Penta street urinal ... ... ... ... ... ... | 2 | 8 | 0 |
| (6) Chandragiri toll-shed ... ... ... ... ... ... | 1 | 1 | 6 |
| (7) Petty repairs to latrines ... ... ... ... ... | 1 | 2 | 0 |

33. A sum of Rs. 21–15–3 was spent on account of the repair of a broad well on the bed of Thathaya gunta as the water in it had become unwholesome and unfit for use.

34. Rupees 179–6–0 were spent in payment of the salaries of three tank watchmen, two of them watching the two drinking-water tanks and the third watching the bugga. A sum of Rs. 3 was also spent on contingencies, such as sign boards, &c.

35. The sum of Rs. 235 shown under establishment represents the salary of the Municipal overseer. Public Works tools were also purchased during the year.

36. The total outlay under Grant 1 amounted to Rs. 2,553–14–8 against the revised estimate of Rs. 2,530.

37. *Grant 2—Education—Schools on salary-results system.*—There are four municipal schools—two for Hindu boys, one for Hindu girls, and the other, a mixed school for Muhammadan boys and girls. A sum of Rs. 735–0–3 was expended on account of the salary of the establishment, Rs. 195–14–6 for result stipends and Rs. 270–1–5 for contingent expenses. The strength of the schools shows no increase over that of last year.

38. *Salary Grants.*—There is an upper secondary school maintained by the H.L.G. Mission and Rs. 349–8–7 were disbursed to the manager of the said school on account of the salary of teachers attached to it.

39. *Result grants.*—There were during the year under report only nine result schools eligible for grants, and a sum of Rs. 260–3–0 was disbursed to the managers concerned. The number of result schools is too small for an Inspecting schoolmaster on a salary of Rs. 15 per mensem, and the strength of these and of the salary schools does not show much improvement. This does not speak well of the Inspecting schoolmaster's work, and his attention will be drawn to it.

40. *Inspection.*—Rupees 180 was spent on account of the salary of the Inspecting schoolmaster and Rs. 16–15–8 for contingencies.

41. *Gymnasium.*—The place of gymnastic instructor was vacant for the first five months for want of competent hands, when a local man who qualified himself by necessary examination was appointed and a sum of Rs. 70 were disbursed to him. Rs. 33–1–11 were also spent for the purchase of the necessary apparatus.

42. The net expenditure under grant 2 amounted to Rs. 2,110–12–11 against the revised estimate of Rs. 2,150.

43. Contributions to Medical College, Sanitary Inspection and Medical reserve staff amounted to Rs. 140.

44. *Vaccination.*—This municipality has one first-class vaccinator on Rs. 15, and his work is supervised by the local hospital assistant attached to the Devastanam civil dispensary and an allowance of Rs. 2–8–0 per mensem is given him. The lanoline lymph purchased from Bangalore has been used for operations during the year. Rupees 203–10–0 were spent on account of the salary of the establishment, and Rs. 106–4–7 for contingencies. The total number of cases vaccinated during the year was 428 against 547 in last year, and the number of successful cases 415 against 452. No action under section 138 of the District Municipalities Act was found necessary during the year under report. The minimum number of cases to be vaccinated by the vaccinator was already fixed at 56 a month, and he was to lose or gain one anna for every case short or in excess of the said number as the case may be. The fall is attributed to the emigration of the lower orders from the town owing to the prevalence of cholera and a few cases of plague.

45. *Registration of births and deaths.*—The total number of births and deaths registered during the year was 402 and 498, respectively, against 363 and 464 in the previous year. The increase in the number of deaths seems to be due to cholera prevailing in the town in an epidemic form from 17th November 1898 to 11th March 1899. The total number of attacks and deaths was 63 and 39, respectively. A sum of Rs. 120 was expended on account of the salary of the registrar and Rs. 31–12–2 for contingencies. The latter item comprises Rs. 16–10–0, being the cost of four notice boards informing the public of the procedure they have to adopt when any birth or death takes place in their houses. Rupees 13–11–2 was expended on printing monthly forms and birth and death certificates and Rs. 1–7–0 on travelling allowance and other contingencies.

46. *Conservancy Establishment.*—The conservancy and road-cleaning establishment continued to be the same as in the previous year, but with an addition of one scavenger on Rs. 5 per mensem sanctioned in G. O., No. 536 M., dated 8th March 1898. The total cost of the establishment amounted to Rs. 3,581–12–5 against an estimate of Rs. 3,620 in the budget. The decrease was due to stoppages on account of their absence from duty, of fines, &c. The sanitary inspector was disallowed to draw his horse allowance from 11th July to 14th August last, when he was on leave for one month and four days.

47. *Other charges.*—Rupees 166–7–3 shown under this head represent Rs. 97–1–9, being the cost of repairing conservancy carts, Rs. 12 rent paid to the owner of the land taken for latrine purposes, Rs. 20 rent of Karakambadi rubbish depot, Rs. 34 value of iron pans, &c., and Rs. 2–11–0 repair of conservancy plants.

48. *Private Scavenging establishment.*—A sum of Rs. 430–12–9 was paid to the private scavenging establishment on account of salary. Though seven scavengers were sanctioned in the budget, the services of six men only were utilized in consideration of the inadequate number of houses to provide work for more men. Hence the savings under this head.

49. *Other charges.*—One big iron night-soil cart was purchased at Madras for Rs. 75, and Rs. 1–1–0 is the cost of trainage of the said cart to Tirupati.

50. *Epidemic charges.*—Of the sum of Rs. 1,651–14–8, Rs. 105–2–7 represent the cost of the marginally-noted * establishment entertained temporarily for cholera purposes, Rs. 63–10–6 were spent on cholera medicines, Rs. 85–15–0 on repair of cholera sheds, Rs. 11–11–3 on cholera contingencies and Rs. 547–9–7 were spent for erecting two plague hospitals and two observation sheds with necessary additions, such as cook-room, &c. The marginally-noted † plague establishments were also entertained and Rs. 49–6–0 spent for contingencies such as beddings, &c.

* 1 Male attendant.
1 Female attendant.
1 Cook.
1 Female toty.
1 Dhobie.

† 4 Passport issuing officers.
2 Circle Inspectors.
2 Peons.
2 Toties.
2 Sets of dhooly bearers.
1 Male attendant.
1 Female attendant.
1 Cook.
1 Female toty.
1 Hospital Assistant, 1st class.

51. *Fairs and Festivals.*—The sum of Rs. 675–9–8 was spent for conserving the Tirupati town during the two Tirumalai Brahmotsavam festivals instead of one that usually takes place every year, and the necessary establishment was maintained as noted below :—

1 Sanitary Inspector.
12 Drain cleaners.
16 Sweepers.
16 Scavengers.
8 Tank watchmen.
2 Assistant Inspectors.
4 Maistries.

As plague was prevalent in the district at the time, the above-mentioned preventive measures had to be taken at a heavy cost. The Collector of the District and Dr. Thummon Sing, Civil Surgeon, were encamped here throughout the first Brahmotsavam and supervised all the above arrangements.

52. *Other sanitary outlay.*—The sum of Rs. 60–15–4 comprises Rs. 6–3–9, cost of removal of prickly-pear, Rs. 16–14–0 travelling allowance paid to sanitary inspector and maistries to go to and return from Chandragiri for conducting criminal cases as the Sub-Magistrate here could not try municipal cases, he being the Chairman, and Rs. 37–13–7 contingencies.

53. The total outlay under Grant 3 thus amounted to Rs. 7,245–13–10.

54. *Lighting.*—Rupees 293–10–8 were expended on account of the salary of the lighting establishment, and Rs. 716–4–0 represent the cost of kerosine oil and lighting materials. The increase has been due to the purchase of chimneys, &c., to the value of Rs. 218–13–0 during the year.

55. The sum of Rs. 11 shown under slaughter-house contingencies is the rent paid to the owner of the land on which the slaughter-house is constructed.

56. *Public garden.*—A gardener on Rs. 5 per mensem was maintained during the year for the garden in the premises of the Municipal office and the sum of Rs. 60 is the amount paid to him during the year. As. 14–9 has been spent for the purchase of rope to draw water from the municipal well for watering the garden.

57. *Survey of land.*—The sum of Rs. 466–1–1 represents the cost of surveying the town by the Town Survey Party.

58. *Stationery and printing.*—Rupees 296–15–4 shown under this head is the cost of printing minutes of proceedings.

59. Charges for numbering carts amounted to Rs. 11-6-0. This is only a nominal expenditure. Fees for numbering carts are collected from cart-owners and paid to the painter, the amount being shown under both heads of receipts and charges in the accounts.

60. The total of Grant 4 amounted to Rs. 1,860-1-5 against Rs. 1,517 of last year.

61. The sum of Rs. 872-3-6 is the cost of office establishment and Rs. 183-0-2 represent the contingencies, such as stationery, printing charges of office forms, purchase of postage stamps, &c.

62. *Collection of Municipal tax.*—The sum of Rs. 219-0-8 is the cost of the collection establishment. The entertainment of two additional bill collectors for two months was sanctioned in G.O., No. 368 M., dated 15th March 1899. The savings under this head are due to the stoppage of their pay for the days they were absent on leave.

63. *Contingencies.*—The cost of account forms supplied by the Lawrence Asylum Press during the year amounted to Rs. 253-9-4.

64. Rupees 120 shown under contribution for Central office and audit establishment represents the amount remitted for the said purpose.

65. *Instalments paid during the year.*—The matter has been fully discussed at length in paragraph 25 *supra* and further the same remarks apply to this also.

66. *Advances.*—The subjoined memorandum gives particulars of the advances made for the Tirupati water-works and recovered during the year :—

| | | RS. | A. | P. |
|---|---|---|---|---|
| Balance on 31st March 1898 ... ... ... ... | | 2,18,861 | 10 | 10 |
| Advances made during the year ... ... ... ... | | 12,942 | 13 | 9 |
| | Total ... | 2,31,804 | 8 | 7 |
| Advances repaid by adjustment ... ... ... | | 952 | 15 | 5 |
| Balance on 31st March 1899 ... ... ... ... | | 2,30,851 | 9 | 2 |

Of this balance, Rs. 23-4-0 was paid to the sanitary inspector as process-fees in previous years for prosecuting municipal cases. As the sanitary inspector had not accounted for the amount, it is not known whether the amounts have or have not been recovered. As the amount was neither recovered nor written off, this had to be carried over to the accounts of 1898-99. The sums of Rs. 20 and Rs. 10 represent the permanent advances given to the municipal manager and the vaccinator, respectively. Rupees 50 were paid as advance to contractors, Gopalacharlu and Punniyakoti Nayudu, for the repair of the Penta drain, but the work was postponed owing to want of funds. The contractors collected materials under the orders of the Chairman, and so the amounts could not be recovered from the parties. The materials will be valued and taken charge of, and necessary adjustment will be made in the accounts. A sum of As. 8, being the amount of magisterial fines to be credited to Local funds, was, by mistake, credited to Municipal funds in 1897-98 in the Sub-Magistrate's office. The mistake was found out subsequently and the Chairman was asked to pay the amount from Municipal funds. It was accordingly done. The mistake was again rectified in the accounts of the Sub-Magistrate, and As. 8 were deducted from fines due to the Municipality and credited again to Local funds. Thus an amount of As. 8 was overpaid and it will be recovered now. Rs. 5 was paid to the sanitary inspector as permanent advance and a further advance of Rs. 15 was made for plague contingencies. This seems unnecessary as all the expenses could be met from the permanent advance of the office. The amount will therefore be recovered at once. As. 5-9 has to be recovered from the District Board, North Arcot, as the same was disbursed for the repair of toll-sheds as stated in paragraph 9 above. The last four items appertain to the current year and the other items to previous years.

67. All other items of receipts and charges are more or less the same as in the revised estimate and call for no remarks.

68. *General remarks.*—I took charge of the office of Chairman on the 4th instant and find that good deal has to be done in putting the office and out-door establishments in order. The office does not exercise proper check over the out-door establishment, nor does its work properly. There has been therefore, I find, good deal of loss to Municipal funds owing to want of prompt action in the collection of taxes and fees. Arrears of several years past are being unnecessarily shown in the accounts. I am now trying to collect them, but think that a large amount could not be recovered as several rate-payers have since died, left the town and so on. I shall not deal much on this subject as this is not the place for it. The roads are not in as good an order as they ought to have been, although a sum of Rs. 1,516 and odd has been spent on them last year. It is probably due to the laying of pipes in connection with the water-works in the town. There is also a general decline in the registration of vital statistics and vaccination, and every endeavour will be made with the co-operation of the councillors towards remedying in as short a time as possible the several defects found apparent at present.

69. The following papers are submitted herewith :—

(1) Annual statements.

(2) Extract from the minutes of proceedings of the Municipal Council, Tirupati, adopting the report.

(3) Statements received from the Educational authorities.

---

No. 3837.

Forwarded through the Collector.

2. As Rs. 2,700 has to be deducted from the total receipts, being a loan, there is no question of a paid Secretary. The roads are not very bad, though broken up by the water-works.

3. *Section* 15 is very satisfactory.

4. As to *section* 25 I am to interview the Mahant personally this month. A report will be submitted.

5. *Section* 44. I think it is clear that too much is asked of the vaccinator. He fell short by 209 cases—Rs. 13—nearly a month's pay. It is not stated whether the full deduction was made. I think 42 cases might be made the month's work for the present, as a fair mean of the last two years.

(Signed) R. W. D'E. ASHE,
*Ag. Head Assistant Collector.*

*6th June* 1899.

---

Dis. No. 907-D. Eng.

Submitted.

2. The Mahant has not paid the second instalment of Rs. 12,000 due for 1898-99, though Mr. Batten wrote to him about it several times. I have recently asked Mr. Ashe, the Acting Head Assistant Collector, to meet the Mahant and to persuade him to pay up the amount and am awaiting his report in the matter.

CAMP VELLORE,
*14th June* 1899.

(Signed) R. H. CAMPBELL,
*Acting Collector.*

---

ORDER.—No. 1070 M., dated 28th July 1899.

The receipts and charges of the Tirupati Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98 :—

| — | Actuals, 1897-98. | Budget estimate, 1898-99. | Revised estimate, 1898-99. | Actuals, 1898-99. |
|---|---|---|---|---|
| *Receipts.* | Rs. | Rs. | Rs. | Rs. |
| Balance brought forward | 64,891 | 3,920 | 3,320 | 3,317 |
| Tax on Arts | 1,744 | 1,600 | 1,840 | 1,328 |

| Grand Total .. | 2,34,367 | 2,59,690 | 37,000 | 28,694 |
| Balance | 3,317 | 1,170 | 1,890 | 2,644 |

2. As in the previous year, the Municipal Council held 23 meetings. The average attendance of the members, both official and non-official, declined and was indifferent. The decline in the case of officials is attributed to the absence of the ex-officio member, for which no explanation has been furnished, and in that of non-officials to the fact that four seats which were reserved for being filled by election were vacant for the major portion of the year.

3. *Receipts.*—(1) Owing to the large decrease in the number of pilgrims caused by the prevalence of plague in India and the consequent depression of trade, the net current demand under the tax on arts again fell from Rs. 1,521 to Rs. 1,356. The demand under the taxes on buildings and lands, however, remained almost stationary.

(2) The current collections under the taxes on arts and buildings continued to be good; but under the land tax they were indifferent owing, it is stated, to delay in the issue of bills, for which no satisfactory explanation has been offered. The arrear realizations under all these heads declined and were very poor. Notwithstanding the remarks of Government in the reviews of the reports for the three previous years, arrears dating back to 1892-93 remained unadjusted at the close of the year. The Government, however, trusts that the present Chairman will spare no pains to adjust the outstanding balances without further delay. The number of warrants issued for the collection of the several taxes was much smaller than in the previous year; but there was great laxity in their execution, nearly one-third of the total number for disposal remaining unexecuted at the close of the year. This is not creditable to the Municipal executive and greater promptness should be displayed in this respect in the current year.

(3) There was an increase in the receipts from the sale of sweepings; but those from tolls and warrant fees declined. The variations in the first two cases are explained in paragraphs 9 and 15 of the Chairman's report. A sum of Rs. 12,000 was paid by the Mahant as the first instalment of his contribution towards the cost of the water-supply scheme, but from paragraph 25 of the Chairman's report, it is noticed with regret that he has failed to pay the second instalment, although it is now more than thirteen months overdue. His Excellency the Governor in Council, however, trusts that the Mahant will pay this amount without further delay and also arrange that the remaining instalments of the contribution are punctually paid in future. The result of the Head Assistant Collector's proposed interview with the Mahant, referred to in paragraph 2 of the Collector's endorsement, should be reported to Government.

(4) The number of houses served by the private scavenging agency was 198 or eight less than in the previous year. The receipts from this source amounted to Rs. 634 against Rs. 694 in that year and the service was again worked at a profit of Rs. 127 against Rs. 255. As has been repeatedly pointed out by Government, there is ample scope for the extension of this system, seeing that the number of houses served by the Municipal agency is only about 6 per cent. of the total number assessed to the tax on buildings. Every endeavour should be made to extend the service in the current year, the surest means to this end being the systematic prosecution of the owners of insanitary premises.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head amounted to Rs. 2,554 against a budget allotment of Rs. 1,57,770, the decrease which appears mainly under new works—water-supply being apparently due to the fact that no information was furnished by the Public Works Department regarding the amount spent on the water-supply scheme, which was the only important new work under execution during the year. Two iron latrines were also put up at a cost of Rs. 422. The total outlay on communications was Rs. 1,517 or 18·5 per cent. in excess of the net Municipal revenue from tolls. The town roads are stated by the Chairman not to have been in as good order as they should have been, while the Revenue Divisional Officer reports that they were not very bad, though broken up by the water-works.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,702 or 16·7 per cent. of the receipts from taxation. Of this sum, all but Rs. 187 was spent on primary education. As in the previous year, the Municipal Council maintained four primary schools on the salary-result system, one of which was for Muhammadans, and aided one secondary school with salary grants; but the number of schools aided with result grants rose from eight to nine. Taken together, the attendance at the Municipal schools showed an improvement; but notwithstanding the increase in their number, the attendance at the aided schools declined. This requires explanation.

Again no information has been furnished regarding the working of the salary grant school, an omission which should not recur. The Municipal schools appear to have done well at the departmental examinations; but the results of the grant examination in the aided schools were indifferent and more than 13 per cent. of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the Municipal and aided schools fell from 605 to 570 or 55·3 per cent. of the male population of school-going age against a general average of 61·8 per cent. for Municipalities in 1897–98.

(3) *Medical Relief.*—As in previous years, the Municipal Council maintained no hospital of its own, and medical relief was supplied by the Mahant's hospital under the management of the District Board.

(4) *Vaccination and Vital Statistics.*—The total number of vaccinations performed during the year again fell from 547 to 428, the decline being ascribed by the Chairman to the emigration of the lower classes of people from the town, owing to the prevalence of cholera and a few cases of plague. The quality of the work, however, improved, the percentage of reported success being 93·2 against 82·6 in the previous year. Infantile vaccination continued to be unsatisfactory, the total number of children under one year successfully vaccinated being 300 or 21·1 per mille of the population against a registered birth-rate of 28·2 per mille. The average cost of each successful case continued to be very high, being As. 12–5 against the general average of As. 4–3 for Municipalities in 1897–98 and should be reduced.

There was an increase in the number of births and deaths registered during the year. The death-rate was slightly above the normal, but the birth returns cannot yet be regarded as trustworthy, the rate recorded being much below the normal. Greater attention should be paid to this matter in the current year.

(5) *Sanitation.*—The expenditure under this head amounting to Rs. 6,644 exceeded the sanctioned allotment by more than 20 per cent. and was 49·8 per cent. of the current receipts. The Chairman's report furnishes hardly any information regarding the sanitary condition of the town or the steps taken to improve it. From the last inspection notes of the Sanitary Commissioner, recorded in G.O., No. 980 M., dated 12th July 1899, however, it appears that a great deal remains to be done before the sanitation of the town can be considered satisfactory. The Government trusts that the Municipal Council will exert itself to the utmost to carry out the recommendations of this officer as far as funds permit.

5. *General Remarks.*—The year closed with a balance of Rs. 2,644 or 9·4 per cent. of the current receipts.

The administration of the Municipality during the year under review deteriorated in many respects and must be regarded as inefficient. The collection of arrears was indifferent, the private scavenging system was not extended, vaccination showed a retrogression, registration of births was neglected and sanitation left much to be desired. The Government, however, trusts that the present Chairman will spare no pains to effect an improvement in all these directions in the current year.

**JULY.**

**Administration Report.**

Reviewing the — of the Tirupati Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

---

Read—the following paper :—

From M.R.Ry. V. RANGANATHA RAO Avargal, Chairman, Municipal Council, Tirupati, to the Secretary to Government, Local and Municipal Department (through the Head Assistant Collector of North Arcot), dated 27th May 1899, Ref. No. 1225 M.

I have the honour to submit my report on the administration of the Tirupati Municipality for the financial year 1898–99.

I.—Constitution of the Council.

2. The Council consisted of twelve members—three officials and nine non-officials. Six vacancies occurred during the year—four on the 13th August and one on the 17th September 1898, consequent upon efflux of time, and the other on the 15th February last by the transfer of one of the official councillors viz., M.R.Ry. K. Gopalachariar Avargal, Deputy Tahsildar, from the division. None of these vacancies was filled up before the close of the year. Two vacancies were filled by nomination subsequently and four have been reserved for election, as this municipality has also been granted this privilege by Government in their order, No. 2260 M., dated 15th October 1897. M R.Ry. K. Gopalachariar Avargal, Chairman, having been transferred from the division, as stated above, the Head Assistant Collector assumed charge of the office in February last and the work was managed by M.R.Ry. V. Ananthachariar Avargal, Chairman-delegate, till the close of the year. The total number of meetings held during the year was twenty-three, exactly the same number as in last year, and the average attendance at each meeting was 1·39 among officials and 3·42 among non-officials against 1·52 and 4·87, respectively. Only one meeting was adjourned for want of a quorum. The slight fall in the attendance was due to the non-attendance of the ex-officio councillor among officials and to the fact that four vacancies had not been filled up for a major portion of the year, *i.e.*, from 13th August to the end of the year (as these had to be filled up by election)—*vide* Collector's letter, Dis. No. 1745, dated 30th September 1898.

II.—Receipts.

3. The total receipts together with the opening balance amounted to Rupees 31,337–14–4 against Rs. 38,890 as per revised estimate. The expenditure amounted to Rs. 28,693–12–11 against Rs. 37,000. The year thus closed with a balance of Rs. 2,644–1–5 against Rs. 1,890 of the revised estimate.

4. *Tax on Arts.*—The amount, as originally assessed, was Rs. 1,412 against an estimate of Rs. 1,600, of which Rs. 56–8–0 were remitted by the Council and the net demand, as finally settled, was Rs. 1,355–8–0. Of this, Rs. 1,240 were collected during the year, leaving a balance of Rs. 115–8–0 at the close of the year. Of this, Rs. 16 has since been collected. The arrear balance at the beginning of the year was Rupees 545–10–11, of which Rs. 87–12–6 were realized and Rs. 117–3–5 written off as irrecoverable, leaving a balance of Rs. 340–11–0 at the close of the year. Necessary steps will be taken to realize the arrears as early as possible. The fall in the demand

under this head is attributed to depression of trade owing to plague in India, in consequence of which there is a very great fall among the number of pilgrims to the town.

5. *Tax on buildings.*—The demand under this head amounted to Rs. 6,031–9–7. Of this, Rs. 5,785–15–11 were collected and Rs. 1–15–3 remitted on account of poverty, thus leaving a balance of Rs. 243–10–5 at the close of the year. Of this, Rs. 49 have since been collected and Rs. 30–4–9 written off by the Council as irrecoverable. Of the arrears of previous years (Rs. 429–4–2), a sum of Rs. 188–3–6 was collected during the year, Rs. 11–0–3 written off as irrecoverable, and Rs. 230–0–5 still left. Of this, Rs. 69–4–9 have since been realized and Rs. 90–2–10 written off by the Council as irrecoverable. Necessary arrangements have been made to realize the balance soon.

6. *Tax on lands.*—The demand under this head is more or less the same as in last year, viz., Rs. 351–6–8. Rs. 300–6–3 were collected and the balance left is Rupees 51–0–5 at the close of the year. Out of the arrears of Rs. 71–13–3, Rs. 23–12–5 were collected during the year and Rs. 48–0–10 left as balance. Measures have been taken for their realization at an early date.

7. Bills for the taxes on arts, buildings and lands were issued in June, July and December, respectively. The delay in the issue of bills for the last item appears to have been due to the services of the bill collectors having been availed of till then for collection of other taxes.

8. The tax on vehicles with springs, animals and carts amounted to Rs. 161, Rs. 521 and Rs. 626, respectively, against Rs. 220, Rs. 690 and Rs. 700, respectively, originally estimated. The fall seems to be due apparently to over-estimate. The outstandings, viz., Rs. 12, Rs. 5–8–0 and Rs. 2 shown in statement IV-A should have been collected within the close of the year, but seem to have been left out by the carelessness of the office and out-door establishments who appear to have been satisfied with giving mere notice to the parties concerned. No further steps seem to have been taken, and I shall now see that the amount is cleared off at once.

9. *Tolls.*—The farm of tolls was as usual leased out for the year under report for Rs. 1,920 against Rs. 2,200, the actuals of last year. Rupees 3–4–9 were collected from toll contractor on account of interest on overdue payments, and Rs. 3–1–6 were spent on repair of toll-gates. Thus, the net income from tolls is Rs. 1,920–3–3 and the one-third share due to Local funds is therefore Rs. 640–1–1. Instead of paying this amount, Rs. 640–6–10 have been paid, *i.e.*, As. 5–9 in excess, which will be recovered at once. The fall under this item is due to want of competition.

10. The sum of Rs. 30 shown under "fees under Act II of 1888" represents the fees levied on account of a tent put up by a Horse Circus Company called "Sreesankaravilas" who had come here during August last and gave performances.

11. The sum of Rs. 27–11–0 represents the rent levied on shops kept on the municipal lands during fairs and festivals.

12. Of the sum of Rs. 41–12–0 shown under "avenue receipts," Rs. 15–8–0 were realized from the sale of usufructs of tamarind produce and the remaining from the sale of dried and wind-blown trees.

13. *Produce of gardens, &c.*—Rupees 7–8–0 were realized from the sale of usufruct of tamarind trees in the People's Park and Rs. 21–15–6 from the sale of dried and wind-blown trees in the same park.

14. *Sale-proceeds of old materials.*—The sum of Rs. 9–13–0 was made up of Rs. 6, being the value recovered of dressed stones which were found lying in the People's Park and of Rs. 3–13–0 from the sale of kerosine tins, &c.

15. *Conservancy receipts.*—Rupees 422–1–0 were realized from the sale of sweepings during the year against an estimate of Rs. 350. This was due to keen competition among the ryots for manure, especially on account of timely rains.

16. *School fees.*—The sum of Rs. 220–3–6 represents the fees collected from boys of the municipal schools against Rs. 200 in the estimate. This is a fluctuating item and calls for no remarks.

17. *Income from markets.*—The municipal vegetable market was leased out for Rs. 295 and the meat market for Rs. 115. Annas 11–3 was levied from the renters on account of penal interest on overdue kists for the same. Rupees 10 was also levied as fees on the private fish market.

18. *Income from slaughter-house.*—This was also leased out during the year for Rs. 417, and As. 11–4 was collected as penal interest on overdue kists. Rs. 57–6–0 were also realized from the slaughter of sheep in sacrifice to village deities on payment of As. 3 per head to the Council as sanctioned in paragraph 3 of G.O., No. 536 M., dated 8th March 1898.

19. *Warrant and distraint fees.*—A sum of Rs. 237–12–0 was levied under this head, and it comprises Rs. 209–2–0, warrant fees, Rs. 27–2–0, distraint fees and Rs. 1–8–0, charges incurred in connection with the seizure and detention of unregistered carts under section 90 (2) of the District Municipalities Act.

20. The number of warrants issued during the year and those of the previous years were 2,714, amounting to Rs. 2,928–6–5. Of these, 1,845 amounting to Rupees 2,220–9–11 were executed and 869 with an amount of Rs. 707–12–6 left unexecuted at the close of the year. One thousand seven hundred and fifty-one warrants to the amount of Rs. 1,973–10–3 were collected after the issue of warrants but before distraint, and property was distrained in 61 cases and money collected before sale. The number of cases in which property was sold is 16.

21. *License fees.*—A sum of Rs. 72–0–6 against Rs. 130 of the estimate was realized for places used for offensive and dangerous trades and for temporary erections. The considerable fall against the estimate is apparently due to over-estimate.

22. *Cart-stand fees.*—There are two cart-stands in the town and they were together leased out during the year for Rs. 17. Annas 2–4 were also collected as penal interest on overdue kists. A sum of Rs. 6 was collected as fees on account of jatka-stand.

23. *Fines.*—Rupees 107 were levied as fines under the Town Nuisances Act, and Rs. 29–8–0 under the Municipal Act.

24. *Grants from Government.*—A sum of Rs. 188–13–11 was paid from Provincial funds on account of result grants for the Municipal girls' school.

25. *Other grants.*—Of the sum of Rs. 12,065 shown under this head, Rs. 12,000 were paid during the year by the Mahant of Tirupati on account of his first instalment of contribution due towards the Tirupati waterworks, and Rs. 65 by the Bugga Matam Mahant as contribution for the salary of the Bugga watchman who is under the control of the Council. In this connection, I feel bound to bring to the notice of Government that the Mahant has not paid his second instalment of contribution though the same is 13 months overdue. The several requisitions from this office and those of the Collector as well have practically been in vain. If such a state of things should continue, the Council is afraid that the municipality would be subject to pay a large amount of interest from Municipal funds which is already in a crippled state of finances. It was, I understand, on the motion made from this office that the Collector was pleased to allow the Mahant the concession of paying the said contribution in two instalments in the year—one in October and the other in February. Though he has, I learn, signified his consent to the measure, yet nothing has been practically done. Under the circumstances, some such measure as has been contemplated by the provisions of section 269 of the District Municipalities Act seems desirable if the legislature allow it. I learn that the Mahant has signed an agreement before the Collector of the district promising to pay the said contribution in instalments of Rs. 12,000 per annum, and but for this munificent grant the Council would not have undertaken the scheme. In these circumstances, it is but just that the Mahant should be compelled to pay the amount regularly.

26. *Private scavenging.*—One hundred ninety-eight houses are being served under this system, and a fee of As. 12 per house levied quarterly and in advance for the service. The demand under this head was Rs. 653 against an estimate of Rs. 650. Of this, Rs. 634–4–0 were collected and Rs. 48 left outstanding. Rupees 9–12–0

have since been collected. Of the arrear demand of previous years, viz., Rs. 55–8–0, Rs. 29–4–0 were collected during the year besides Rs. 2–4–0 since collected. Necessary steps will be taken to make out a clean balance sheet.

27. *Fishery rents.*—The drinking-water tank, called Thathaya gunta, got dry and there consequently came in keen competition for the lease of fishery thereof, and the Council accordingly granted the application and thus realized Rs. 27 to the credit of the Municipal funds.

28. *Loans.*—Rupees 2,700 were granted by Government as loan from Imperial funds for plague charges likely to be incurred on plague-preventive measures and the same was taken credit for in the accounts.

29. *Other advances.*—Of the sum of Rs. 30–7–5 shown under this head, Rs. 20 was recovered from Gangi Reddi and Rs. 600 by adjustment against advance made to Streenivasa Chari for the repair of conservancy carts in 1897–98. Rs. 1–1–3 was recovered during the year from the contractor who had been overpaid in 1897–98. So also the sum of Rs. 3–6–2 which had been overpaid to the District Board was recovered during the year in payment of the cost of the repair of toll sheds.

### III.—CHARGES.

30. *Grant 1, New Works—Buildings.*—A sum of Rs. 422–7–11 was spent for the erection of two latrines with corrugated iron sheets supplied by Messrs. Sultan & Co., Madras, against an estimate of Rs. 400. The excess over the estimate was due to the payment of trainage for the materials supplied by the said Company and also for fixing them.

31. *Repairs—Communications.*—Rupees 1,516–14–7 have been spent on repairs—communications against the revised estimate of Rs. 1,500 for the repair of the town roads. Of this amount, Rs. 423–12–4 represents the wages of the gang coolies consisting of one maistry and seven coolies. The remaining amount of Rs. 1,093–2–3 is what was spent on town roads by engaging temporary coolies and executing the work departmentally. No work was given on contract this year as the mode of executing repairs by departmental agency was found to be advantageous.

32. *Buildings.*—Rupees 141–8–11 were incurred under this head for the repair of—

| | Rs. | A. | P. |
|---|---|---|---|
| (1) Chandragiri toll-shed ... ... ... ... ... ... | 2 | 0 | 0 |
| (2) Repair of tatti latrines ... ... ... ... ... | 1 | 3 | 3 |
| (3) Municipal office ... ... ... ... ... ... | 129 | 10 | 2 |
| (4) Meat market ... ... ... ... ... ... ... | 4 | 0 | 0 |
| (5) Penta street urinal ... ... ... ... ... ... | 2 | 8 | 0 |
| (6) Chandragiri toll-shed ... ... ... ... ... ... | 1 | 1 | 6 |
| (7) Petty repairs to latrines ... ... ... ... ... | 1 | 2 | 0 |

33. A sum of Rs. 21–15–3 was spent on account of the repair of a broad well on the bed of Thathaya gunta as the water in it had become unwholesome and unfit for use.

34. Rupees 179–6–0 were spent in payment of the salaries of three tank watchmen, two of them watching the two drinking-water tanks and the third watching the bugga. A sum of Rs. 3 was also spent on contingencies, such as sign boards, &c.

35. The sum of Rs. 235 shown under establishment represents the salary of the Municipal overseer. Public Works tools were also purchased during the year.

36. The total outlay under Grant 1 amounted to Rs. 2,553–14–8 against the revised estimate of Rs. 2,530.

37. *Grant 2—Education—Schools on salary-results system.*—There are four municipal schools—two for Hindu boys, one for Hindu girls, and the other, a mixed school for Muhammadan boys and girls. A sum of Rs. 735–0–3 was expended on account of the salary of the establishment, Rs. 195–14–6 for result stipends and Rs. 270–1–5 for contingent expenses. The strength of the schools shows no increase over that of last year.

38. *Salary Grants.*—There is an upper secondary school maintained by the H.L.G. Mission and Rs. 349-8-7 were disbursed to the manager of the said school on account of the salary of teachers attached to it.

39. *Result grants.*—There were during the year under report only nine result schools eligible for grants, and a sum of Rs. 260-3-0 was disbursed to the managers concerned. The number of result schools is too small for an Inspecting schoolmaster on a salary of Rs. 15 per mensem, and the strength of these and of the salary schools does not show much improvement. This does not speak well of the Inspecting schoolmaster's work, and his attention will be drawn to it.

40. *Inspection.*—Rupees 180 was spent on account of the salary of the Inspecting schoolmaster and Rs. 16-15-8 for contingencies.

41. *Gymnasium.*—The place of gymnastic instructor was vacant for the first five months for want of competent hands, when a local man who qualified himself by necessary examination was appointed and a sum of Rs. 70 were disbursed to him. Rs. 33-1-11 were also spent for the purchase of the necessary apparatus.

42. The net expenditure under grant 2 amounted to Rs. 2,110-12-11 against the revised estimate of Rs. 2,150.

43. Contributions to Medical College, Sanitary Inspection and Medical reserve staff amounted to Rs. 140.

44. *Vaccination.*—This municipality has one first-class vaccinator on Rs. 15, and his work is supervised by the local hospital assistant attached to the Devastanam civil dispensary and an allowance of Rs. 2-8-0 per mensem is given him. The lano-line lymph purchased from Bangalore has been used for operations during the year. Rupees 203-10-0 were spent on account of the salary of the establishment, and Rs. 106-4-7 for contingencies. The total number of cases vaccinated during the year was 428 against 547 in last year, and the number of successful cases 415 against 452. No action under section 138 of the District Municipalities Act was found necessary during the year under report. The minimum number of cases to be vaccinated by the vaccinator was already fixed at 56 a month, and he was to lose or gain one anna for every case short or in excess of the said number as the case may be. The fall is attributed to the emigration of the lower orders from the town owing to the prevalence of cholera and a few cases of plague.

45. *Registration of births and deaths.*—The total number of births and deaths registered during the year was 402 and 498, respectively, against 363 and 464 in the previous year. The increase in the number of deaths seems to be due to cholera prevailing in the town in an epidemic form from 17th November 1898 to 11th March 1899. The total number of attacks and deaths was 63 and 39, respectively. A sum of Rs. 120 was expended on account of the salary of the registrar and Rs. 31-12-2 for contingencies. The latter item comprises Rs. 16-10-0, being the cost of four notice boards informing the public of the procedure they have to adopt when any birth or death takes place in their houses. Rupees 13-11-2 was expended on printing monthly forms and birth and death certificates and Rs. 1-7-0 on travelling allowance and other contingencies.

46. *Conservancy Establishment.*—The conservancy and road-cleaning establishment continued to be the same as in the previous year, but with an addition of one scavenger on Rs. 5 per mensem sanctioned in G. O., No. 536 M., dated 8th March 1898. The total cost of the establishment amounted to Rs. 3,581-12-5 against an estimate of Rs. 3,620 in the budget. The decrease was due to stoppages on account of their absence from duty, of fines, &c. The sanitary inspector was disallowed to draw his horse allowance from 11th July to 14th August last, when he was on leave for one month and four days.

47. *Other charges.*—Rupees 166-7-3 shown under this head represent Rs. 97-1-9, being the cost of repairing conservancy carts, Rs. 12 rent paid to the owner of the land taken for latrine purposes, Rs. 20 rent of Karakambadi rubbish depot, Rs. 34 value of iron pans, &c., and Rs. 2-11-0 repair of conservancy plants.

48. *Private Scavenging establishment.*—A sum of Rs. 430-12-9 was paid to the private scavenging establishment on account of salary. Though seven scavengers were sanctioned in the budget, the services of six men only were utilized in consideration of the inadequate number of houses to provide work for more men. Hence the savings under this head.

49. *Other charges.*—One big iron night-soil cart was purchased at Madras for Rs. 75, and Rs. 1-11-0 is the cost of trainage of the said cart to Tirupati.

50. *Epidemic charges.*—Of the sum of Rs. 1,651-14-8, Rs. 105-2-7 represent the cost of the marginally-noted * establishment entertained temporarily for cholera purposes, Rs. 63-10-6 were spent on cholera medicines, Rs. 85-15-0 on repair of cholera sheds, Rs. 11-11-3 on cholera contingencies and Rs. 547-9-7 were spent for erecting two plague hospitals and two observation sheds with necessary additions, such as cook-room, &c. The marginally-noted † plague establishments were also entertained and Rs. 49-6-0 spent for contingencies such as beddings, &c.

| | |
|---|---|
| * 1 Male attendant. | 1 Female toty. |
| 1 Female attendant. | 1 Dhobie. |
| 1 Cook. | |
| † 4 Passport issuing officers. | 1 Male attendant. |
| 2 Circle Inspectors. | 1 Female attendant. |
| 2 Peons. | 1 Cook. |
| 2 Toties. | 1 Female toty. |
| 2 Sets of dhooly bearers. | 1 Hospital Assistant, 1st class. |

51. *Fairs and Festivals.*—The sum of Rs. 675-9-8 was spent for conserving the Tirupati town during the two Tirumalai Brahmotsavam festivals instead of one that usually takes place every year, and the necessary establishment was maintained as noted below:—

| | |
|---|---|
| 1 Sanitary Inspector. | 8 Tank watchmen. |
| 12 Drain cleaners. | 2 Assistant Inspectors. |
| 16 Sweepers. | 4 Maistries. |
| 16 Scavengers. | |

As plague was prevalent in the district at the time, the above-mentioned preventive measures had to be taken at a heavy cost. The Collector of the District and Dr. Thummon Sing, Civil Surgeon, were encamped here throughout the first Brahmotsavam and supervised all the above arrangements.

52. *Other sanitary outlay.*—The sum of Rs. 60-15-4 comprises Rs. 6-3-9, cost of removal of prickly-pear, Rs. 16-14-0 travelling allowance paid to sanitary inspector and maistries to go to and return from Chandragiri for conducting criminal cases as the Sub-Magistrate here could not try municipal cases, he being the Chairman, and Rs. 37-13-7 contingencies.

53. The total outlay under Grant 3 thus amounted to Rs. 7,245-13-10.

54. *Lighting.*—Rupees 293-10-8 were expended on account of the salary of the lighting establishment, and Rs. 716-4-0 represent the cost of kerosine oil and lighting materials. The increase has been due to the purchase of chimneys, &c., to the value of Rs. 218-13-0 during the year.

55. The sum of Rs. 11 shown under slaughter-house contingencies is the rent paid to the owner of the land on which the slaughter-house is constructed.

56. *Public garden.*—A gardener on Rs. 5 per mensem was maintained during the year for the garden in the premises of the Municipal office and the sum of Rs. 60 is the amount paid to him during the year. As. 14-9 has been spent for the purchase of rope to draw water from the municipal well for watering the garden.

57. *Survey of land.*—The sum of Rs. 466-1-1 represents the cost of surveying the town by the Town Survey Party.

58. *Stationery and printing.*—Rupees 296-15-4 shown under this head is the cost of printing minutes of proceedings.

59. Charges for numbering carts amounted to Rs. 11-6-0. This is only a nominal expenditure. Fees for numbering carts are collected from cart-owners and paid to the painter, the amount being shown under both heads of receipts and charges in the accounts.

60. The total of Grant 4 amounted to Rs. 1,860-1-5 against Rs. 1,517 of last year.

61. The sum of Rs. 872-3-6 is the cost of office establishment and Rs. 183-0-2 represent the contingencies, such as stationery, printing charges of office forms, purchase of postage stamps, &c.

62. *Collection of Municipal tax.*—The sum of Rs. 219-0-8 is the cost of the collection establishment. The entertainment of two additional bill collectors for two months was sanctioned in G.O., No. 368 M., dated 15th March 1899. The savings under this head are due to the stoppage of their pay for the days they were absent on leave.

63. *Contingencies.*—The cost of account forms supplied by the Lawrence Asylum Press during the year amounted to Rs. 253-9-4.

64. Rupees 120 shown under contribution for Central office and audit establishment represents the amount remitted for the said purpose.

65. *Instalments paid during the year.*—The matter has been fully discussed at length in paragraph 25 *supra* and further the same remarks apply to this also.

66. *Advances.*—The subjoined memorandum gives particulars of the advances made for the Tirupati water-works and recovered during the year :—

| | RS. | A. | P. |
|---|---|---|---|
| Balance on 31st March 1898 ... ... ... ... | 2,18,861 | 10 | 10 |
| Advances made during the year ... ... ... ... | 12,942 | 13 | 9 |
| Total ... | 2,31,804 | 8 | 7 |
| Advances repaid by adjustment ... ... ... ... | 952 | 15 | 5 |
| Balance on 31st March 1899 ... ... ... ... | 2,30,851 | 9 | 2 |

Of this balance, Rs. 23-4-0 was paid to the sanitary inspector as process-fees in previous years for prosecuting municipal cases. As the sanitary inspector had not accounted for the amount, it is not known whether the amounts have or have not been recovered. As the amount was neither recovered nor written off, this had to be carried over to the accounts of 1898-99. The sums of Rs. 20 and Rs. 10 represent the permanent advances given to the municipal manager and the vaccinator, respectively. Rupees 50 were paid as advance to contractors, Gopalacharlu and Punniyakoti Nayudu, for the repair of the Penta drain, but the work was postponed owing to want of funds. The contractors collected materials under the orders of the Chairman, and so the amounts could not be recovered from the parties. The materials will be valued and taken charge of, and necessary adjustment will be made in the accounts. A sum of As. 8, being the amount of magisterial fines to be credited to Local funds, was, by mistake, credited to Municipal funds in 1897-98 in the Sub-Magistrate's office. The mistake was found out subsequently and the Chairman was asked to pay the amount from Municipal funds. It was accordingly done. The mistake was again rectified in the accounts of the Sub-Magistrate, and As. 8 were deducted from fines due to the Municipality and credited again to Local funds. Thus an amount of As. 8 was overpaid and it will be recovered now. Rs. 5 was paid to the sanitary inspector as permanent advance and a further advance of Rs. 15 was made for plague contingencies. This seems unnecessary as all the expenses could be met from the permanent advance of the office. The amount will therefore be recovered at once. As. 5-9 has to be recovered from the District Board, North Arcot, as the same was disbursed for the repair of toll-sheds as stated in paragraph 9 above. The last four items appertain to the current year and the other items to previous years.

67. All other items of receipts and charges are more or less the same as in the revised estimate and call for no remarks.

68. *General remarks.*—I took charge of the office of Chairman on the 4th instant and find that good deal has to be done in putting the office and out-door establishments in order. The office does not exercise proper check over the out-door establishment, nor does its work properly. There has been therefore, I find, good deal of loss to Municipal funds owing to want of prompt action in the collection of taxes and fees. Arrears of several years past are being unnecessarily shown in the accounts. I am now trying to collect them, but think that a large amount could not be recovered as several rate-payers have since died, left the town and so on. I shall not deal much on this subject as this is not the place for it. The roads are not in as good an order as they ought to have been, although a sum of Rs. 1,516 and odd has been spent on them last year. It is probably due to the laying of pipes in connection with the water-works in the town. There is also a general decline in the registration of vital statistics and vaccination, and every endeavour will be made with the co-operation of the councillors towards remedying in as short a time as possible the several defects found apparent at present.

69. The following papers are submitted herewith :—

(1) Annual statements.

(2) Extract from the minutes of proceedings of the Municipal Council, Tirupati, adopting the report.

(3) Statements received from the Educational authorities.

---

No. 3837.

Forwarded through the Collector.

2. As Rs. 2,700 has to be deducted from the total receipts, being a loan, there is no question of a paid Secretary. The roads are not very bad, though broken up by the water-works.

3. *Section* 15 is very satisfactory.

4. As to *section* 25 I am to interview the Mahant personally this month. A report will be submitted.

5. *Section* 44. I think it is clear that too much is asked of the vaccinator. He fell short by 209 cases—Rs. 13—nearly a month's pay. It is not stated whether the full deduction was made. I think 42 cases might be made the month's work for the present, as a fair mean of the last two years.

(Signed) R. W. D'E. ASHE,
*Ag. Head Assistant Collector.*

6*th June* 1899.

---

Dis. No. 907-D. Eng.

Submitted.

2. The Mahant has not paid the second instalment of Rs. 12,000 due for 1898-99, though Mr. Batten wrote to him about it several times. I have recently asked Mr. Ashe, the Acting Head Assistant Collector, to meet the Mahant and to persuade him to pay up the amount and am awaiting his report in the matter.

CAMP VELLORE,
14*th June* 1899.

(Signed) R. H. CAMPBELL,
*Acting Collector.*

---

ORDER—No. 1070 M., dated 28th July 1899.

The receipts and charges of the Tirupati Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98 :—

| — | Actuals, 1897–98. | Budget estimate, 1898–99. | Revised estimate, 1898–99. | Actuals, 1898–99. |

| Balance .. .. .. .. .. .. .. .. | 3,317 | 1,170 | 1,890 | 2,644 |

2. As in the previous year, the Municipal Council held 23 meetings. The average attendance of the members, both official and non-official, declined and was indifferent. The decline in the case of officials is attributed to the absence of the

ex-officio member, for which no explanation has been furnished, and in that of non-officials to the fact that four seats which were reserved for being filled by election were vacant for the major portion of the year.

3. *Receipts.*—(1) Owing to the large decrease in the number of pilgrims caused by the prevalence of plague in India and the consequent depression of trade, the net current demand under the tax on arts again fell from Rs. 1,521 to Rs. 1,356. The demand under the taxes on buildings and lands, however, remained almost stationary.

(2) The current collections under the taxes on arts and buildings continued to be good; but under the land tax they were indifferent owing, it is stated, to delay in the issue of bills, for which no satisfactory explanation has been offered. The arrear realizations under all these heads declined and were very poor. Notwithstanding the remarks of Government in the reviews of the reports for the three previous years, arrears dating back to 1892–93 remained unadjusted at the close of the year. The Government, however, trusts that the present Chairman will spare no pains to adjust the outstanding balances without further delay. The number of warrants issued for the collection of the several taxes was much smaller than in the previous year; but there was great laxity in their execution, nearly one-third of the total number for disposal remaining unexecuted at the close of the year. This is not creditable to the Municipal executive and greater promptness should be displayed in this respect in the current year.

(3) There was an increase in the receipts from the sale of sweepings; but those from tolls and warrant fees declined. The variations in the first two cases are explained in paragraphs 9 and 15 of the Chairman's report. A sum of Rs. 12,000 was paid by the Mahant as the first instalment of his contribution towards the cost of the water-supply scheme; but from paragraph 25 of the Chairman's report, it is noticed with regret that he has failed to pay the second instalment, although it is now more than thirteen months overdue. His Excellency the Governor in Council, however, trusts that the Mahant will pay this amount without further delay and also arrange that the remaining instalments of the contribution are punctually paid in future. The result of the Head Assistant Collector's proposed interview with the Mahant, referred to in paragraph 2 of the Collector's endorsement, should be reported to Government.

(4) The number of houses served by the private scavenging agency was 198 or eight less than in the previous year. The receipts from this source amounted to Rs. 634 against Rs. 694 in that year and the service was again worked at a profit of Rs. 127 against Rs. 255. As has been repeatedly pointed out by Government, there is ample scope for the extension of this system, seeing that the number of houses served by the Municipal agency is only about 6 per cent. of the total number assessed to the tax on buildings. Every endeavour should be made to extend the service in the current year, the surest means to this end being the systematic prosecution of the owners of insanitary premises.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head amounted to Rs. 2,554 against a budget allotment of Rs. 1,57,770, the decrease which appears mainly under new works—water-supply being apparently due to the fact that no information was furnished by the Public Works Department regarding the amount spent on the water-supply scheme, which was the only important new work under execution during the year. Two iron latrines were also put up at a cost of Rs. 422. The total outlay on communications was Rs. 1,517 or 18·5 per cent. in excess of the net Municipal revenue from tolls. The town roads are stated by the Chairman not to have been in as good order as they should have been, while the Revenue Divisional Officer reports that they were not very bad, though broken up by the water-works.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,702 or 16·7 per cent. of the receipts from taxation. Of this sum, all but Rs. 187 was spent on primary education. As in the previous year, the Municipal Council maintained four primary schools on the salary-result system, one of which was for Muhammadans, and aided one secondary school with salary grants; but the number of schools aided with result grants rose from eight to nine. Taken together, the attendance at the Municipal schools showed an improvement; but notwithstanding the increase in their number, the attendance at the aided schools declined. This requires explanation.

Again no information has been furnished regarding the working of the salary grant school, an omission which should not recur. The Municipal schools appear to have done well at the departmental examinations; but the results of the grant examination in the aided schools were indifferent and more than 13 per cent. of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the Municipal and aided schools fell from 605 to 570 or 55·3 per cent. of the male population of school-going age against a general average of 61·8 per cent. for Municipalities in 1897–98.

(3) *Medical Relief.*—As in previous years, the Municipal Council maintained no hospital of its own, and medical relief was supplied by the Mahant's hospital under the management of the District Board.

(4) *Vaccination and Vital Statistics.*—The total number of vaccinations performed during the year again fell from 547 to 428, the decline being ascribed by the Chairman to the emigration of the lower classes of people from the town, owing to the prevalence of cholera and a few cases of plague. The quality of the work, however, improved, the percentage of reported success being 93·2 against 82·6 in the previous year. Infantile vaccination continued to be unsatisfactory, the total number of children under one year successfully vaccinated being 300 or 21·1 per mille of the population against a registered birth-rate of 28·2 per mille. The average cost of each successful case continued to be very high, being As. 12–5 against the general average of As. 4–3 for Municipalities in 1897–98 and should be reduced.

There was an increase in the number of births and deaths registered during the year. The death-rate was slightly above the normal, but the birth returns cannot yet be regarded as trustworthy, the rate recorded being much below the normal. Greater attention should be paid to this matter in the current year.

(5) *Sanitation.*—The expenditure under this head amounting to Rs. 6,644 exceeded the sanctioned allotment by more than 20 per cent. and was 49·8 per cent. of the current receipts. The Chairman's report furnishes hardly any information regarding the sanitary condition of the town or the steps taken to improve it. From the last inspection notes of the Sanitary Commissioner, recorded in G.O., No. 980 M., dated 12th July 1899, however, it appears that a great deal remains to be done before the sanitation of the town can be considered satisfactory. The Government trusts that the Municipal Council will exert itself to the utmost to carry out the recommendations of this officer as far as funds permit.

5. *General Remarks.*—The year closed with a balance of Rs. 2,644 or 9·4 per cent. of the current receipts.

The administration of the Municipality during the year under review deteriorated in many respects and must be regarded as inefficient. The collection of arrears was indifferent, the private scavenging system was not extended, vaccination showed a retrogression, registration of births was neglected and sanitation left much to be desired. The Government, however, trusts that the present Chairman will spare no pains to effect an improvement in all these directions in the current year.

2. As in the previous ye[ar] the Municipal Council held 23 meetings. The average attendance o[f] the members, both official and non official, declined and was in different. The decline in the case of officials is attributed to the absence of the ex-officio member, fo[r] which no explanation has been furnished, and in that of non-officials to the fact that four seats which were reserved for being fille[d] by election, were vacant for the major portion of the year.

3. Receipts (1) - Owing to the large decrease in the number of pilgrims caused by the prevalence of plague in India and the consequent depression of trade, the net current demand under the taxes on arts again fell from Rs 1,521 to Rs 1,356. The demand under the taxes on buildings and lands however remained almost stati[c].

(2) The current collections in

the taxes on arts and buildings continued to be good; but under the land tax they were indifferent, owing it is stated to delay in the issue of bills, for which no satisfactory explanation has been offered. The arrear realizations under all these heads declined and were very poor. Notwithstanding the remarks of Government in the reviews of the reports for the three previous years, arrears dating back to 1892-93 remained unadjusted at the close of the year. The Government, however, trusts that the present Chairman will spare no pains to adjust the outstanding balances without further delay. The number of warrants issued for the collection of the several taxes was much smaller than in the previous year; but there was great laxity in its execution ~~was very slack~~, only one-third of the total number for disposal remaining unexecuted at the close of the year. This is not

Vide para 7 of the report.

H I
Vide para 3(2) of G.O. No. 1433-M, 26-8-98, 2208-M, 14-10-97 and 1367-M, 4-8-98 J
Vide col 9 of Statement IV B

Vide para 25 of the report.

not creditable to the Municipal Executive and greater promptness should be displayed in this respect in the current year.

(3) There was an increase in the receipts from the sale of sweepings, but those from tolls and warrant fees declined. The variations in the first two cases are explained in paras. 9 and 15 of the Chairman's report. A sum of Rs 12,000 was paid by the Mahant as the first instalment of his contribution towards the cost of the water-supply scheme; but from para. 25 of the Chairman's report, it is noticed with regret that he has failed to pay the second instalment, although it is now more than thirteen months overdue. His Excellency the Governor in Council, however, trusts that the Mahant will ~~be good enough~~ to pay this amount without further delay and also arrange

that

that the remaining instalments of the contribution are punctually paid in future. The result of the Head Assistant Collector's proposed interview with the Mahant, referred to in para 2 of the Collector's Endorsement, should be reported to Government.

Vide also para 4 of the Head Asstt Collector's endorsement

(4) The number of houses served by the private scavenging agency was 198 or eight less than in the previous year. The receipts from this source amounted to Rs 634 against Rs 694 in that year and the service was again worked at a profit of Rs 127 against Rs 255. As has been repeatedly pointed out by Government, there is ample scope for the extension of this system, seeing that the number of houses served by the municipal agency is only about 6 per cent of the total number assessed to the tax on buildings. Every endeavour should be

not

be made to extend the service in the current year, by every means to this end being the systematic precaution of the owners of insanitary premises.

4. Expenditure (1) Public Works

The expenditure under this head amounted to Rs 2,554 against a budget allotment of Rs 154,770, the decrease which appears mainly under new works-water supply being apparently due to the fact that no information was furnished by the Public Works Department regarding the amount spent on the water supply scheme which was the only important new work under execution during the year. Two iron latrines were also put up at a cost of Rs 422. The total outlay on communications was Rs 1,517 or 18.5 per cent in excess of the net municipal revenue from tolls. The town roads are stated by the Chairman

not

Vide para 58 of the report

Please see para 2 of his endorsement

not to have been in as good order as they should have been, while the Revenue Divisional officer reports that they were not very bad, though broken up by the water works.

(2) Education. The net expenditure under this head amounted to Rs 1,702 or 16·7 per cent of the receipts from taxation. Of this amount, all but Rs 187, was spent on primary education. As in the previous year, the Municipal Council maintained four primary schools on the salary-result system, one of which was for Muhammadans, and aided one secondary school with a salary grant; but the number of schools aided with result grants rose from eight to nine. Taken together, the attendance at the municipal schools showed an improvement; but notwithstanding this increase in their number, the attendance at the aided schools declined. This requires explanation. Again no information has been furnished regarding the working of the salary grant school, an omission which should not recur. The municipal schools appear to have done well at the departmental examinations; but the results of the grant examination in the aided schools were indifferent and more than 13 per cent of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the municipal and aided schools fell from 605 to 570 or 55·3 per cent of the male population of school-going age against a general average of 61·8 per cent for municipalities in 1897-98.

(3) Medical Relief. As in previous years, the Municipal Council maintained no hospital of its own, and medical relief

Vide para 4(3) of G.O. No. 1367-M, 4-8-98

was supplied by the Mahanto's hospital under the management of the District Board.

14 Vaccinations and Vital Statistics. The total number of vaccinations performed during the year again fell from 547 to 528, the decline being ascribed by the Chairman to the emigration of the lower classes of people from the town, owing to the prevalence of cholera and a few cases of plague. The quality of the work however improved, the percentage of reported success being 93·2 against 82·6 in the previous year. Infantile vaccination continued to be unsatisfactory, the total number of children under one year successfully vaccinated being 300 or 21·1 per mille of the population against a registered birth rate of 28·2 per mille. The average cost of each successful case declined.

Vide para 44 of this report

continued to be very high, being Annas 12-5 against the general average of Annas 4-3 for Municipalities in 1897-98 and should be reduced. There was an increase in the number of births and deaths registered during the year. The death rate was slightly above the normal, but the birth returns cannot yet be regarded as trustworthy, the rate recorded being much below the normal. Greater attention should be paid to this matter in the current year.

15 Sanitation. The Expenditure under this head amounting to Rs 6644 exceeded the sanctioned allotment by more than 20 per cent and was 49·8 per cent of the current receipts. The Chairman's report furnishes hardly any information regarding the sanitary condition of the town or the steps taken

taken to improve it. From the last inspection notes of the Sanitary Commissioner, recorded in G.O. No. 980 M., dated 12th July 1899, however, it appears that a great deal remains to be done before the Sanitation of the town can be considered satisfactory. The Government trusts that the Municipal Council will exert itself to the utmost to carry out the recommendations of this officer as far as funds permit.

5. General Remarks. The year closed with a balance of Rs. 2644 or 9·4 per cent of the current receipts.

The administration of the Municipality during the year under review deteriorated in many respects and must be regarded as inefficient. The collection of arrears was indifferent, the private scavenging system was not extended, declines.

extended, Vaccination showed a retrogression, registration of births was neglected and Sanitation left much to be desired. The Government, however, trusts that the present Chairman will spare no pains to effect an improvement in all these directions in the current year.

Statistics 1898-99
Municipalities

Statement No. I relat... statistics in the Tirupati Municipality for 1898-99

| Institutions. | | 189 8 | | | 189 9. | | | Remarks. |
|---|---|---|---|---|---|---|---|---|
| | | Number of schools. | Number of pupils on 31st March. | | Number of schools. | Number of pupils on 31st March. | | |
| | | | Boys. | Girls. | | Boys. | Girls. | |
| 1 | | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| Colleges .. .. | Government .. .. .. | | | | | | | Secondary schools remained the same in number with a slight advance in their attendance. So also the municipal Primary schools whose number remained unaffected, showed a small increase in their strength. Though there was an increase of one school under the aided section, the numerical strength showed a falling off which may to some extent be attributed to be due to the increased attendance in the lower department of the two high schools. The unaided and indigenous schools increased slightly in number and in attendance. The industrial class attached to the A.R.G. mission High school showed an increase of 6 pupils. |
| | Local or municipal .. .. .. | | | | | | | |
