Sir,

I have the honour to inform you that with a view to keep the Engines at the Pumping Station in a thorough working order, the Inspector of Steam Boilers and Prime Movers Madras who examined them about the beginning of this year recommended the appointment of a Fitter on a salary of Rs 35 per mensem. Accordingly the Council after due consideration sanctioned the appointment at its meeting held on the 6th May 1899 (Vide copy of resolution enclosed). I have therefore the honour to request that the Government will be pleased to accord sanction for the same.

To

The Secretary to Government,

Local & Municipal Department.

SIR,

In regard to reference No.740 of 14th July 1899 on a letter dated the 29th May 1899 No.22, from the Chairman of the Madura Municipal Council, I have the honor to inform you that when inspecting with the Secretary of the Council, the Madura Water Works on the 10th May 1899, the question of the proposed pay to the fitter was brought under my notice & the following is an extract from my inspection notes (forwarded to the Council on the 15th May 1899).

"People cross the filter bed through water over it and this should not be allowed. It is suggested that the two oilmen proposed to be reduced be used as watchmen & they could assist in oiling, as the driver states he cannot do without such men. The watchmen are absolutely necessary and there would be no additional expense if the above suggestion is adopted.

"It was also brought to notice that the Boiler Inspector had recommended a fitter at Rs 35/- per month. This pay seems unnecessarily high and Rs 20/- a month is sufficient as the second driver only gets Rs 35/-

"It appears that house rent is charged to the driver if it would be a graceful concession and one well deserved if houses were granted rent free especially as the head driver has had no increase for four years. This is so at other towns such as Trichinopoly, Tanjore, Conjeeveram &c.."

2. The Council's resolution to pay Rs 35/- per month was come to before my inspection though my notes were received before the date of the Chairman's letter to Government.

3. I am still of opinion that a pay of Rs 35/- per mensem is unnecessarily high for a fitter and I suggest that the Council be requested to reconsider the matter in view of my notes which were not before them when their resolution in regard to the fitter was passed.

I have the honor to be,

Sir,

Your most obedient servant,

Sanitary Engineer to Govt.
