AUGUST.

Administration Report.

Reviewing the — of the Mannargudi Municipal Council for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. RANGANATHA PILLAI Avargal, Chairman, Municipal Council, Mannargudi, to the Secretary to Government, Local and Municipal Department (through the Divisional Officer, Mannargudi), dated 25th June 1899, No. 214.

I have the honour to submit my report on the administration of this Municipality for the year 1898-99, together with the enclosures named below :—

- (1) Statements of receipts and charges.
- (2) Report of the civil apothecary on the working of the Municipal hospital and the sanitation of the town.
- (3) Assistant Inspector's statements and report on education.
- (4) Extract from the proceedings of the Municipal Council, Mannargudi, dated 17th June 1899, in which the above were discussed and passed.
2. The budget and the revised estimates were passed by Government in its Orders, No. 560 M., dated 12th March 1898, and No. 369 M., dated 15th March 1899.
3. The accounts of the year under report have not yet been audited.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

4. *Municipal Board.*—The sanctioned strength of the Council is sixteen including one ex-officio councillor; of these four are nominated and twelve elected.

5. *Nominations and elections to the Council.*—Five vacancies occurred among the elected seats, two of which were filled up within the year. The remaining three were not filled up, though election was held for the purpose as the same was set aside by Government. Among the nominated seats, two became vacant, both of which were filled up within the year.

6. *Office of Chairman.*—The office of Chairman was in charge of M.R.Ry. V. Ramachandra Row Avargal, the then Deputy Collector of Mannargudi, till the 1st July 1898, on which date it was assumed by myself.

7. *Meetings of the Council.*—The number of meetings convened during the year was 42, of which ten were adjourned for want of quorum. Ordinary meetings were held on the 2nd and 4th Fridays of every month, and special meetings as often as was necessary. The elective system is in force in this Municipality, and the number of registered voters at the close of the year was 485.

II.—RECEIPTS.

8. The actual receipts of the year amounted to Rs. 23,780-4-0 against Rupees 25,430 of the revised estimate and Rs. 24,841-7-9 (audited figure) in the previous year. The seeming fall is due to the fact that, while the deposits made by renters on account of the year under report had been adjusted towards the receipts of the year 1897-98 as per G.O., No. 1040 M., dated 28th June 1895, the same course was not adopted with regard to the corresponding deposits made on account of the current year, having regard to the instructions contained in G.O., No. 202 M., dated 15th February 1899. It will be seen that such deposits amount to Rs. 1,853-6-8. The opening balance was minus Rs. 2,011-15-1, reducing the net receipts to Rupees 21,768-4-11.

9. *Tax on Arts.*—The demand as assessed by the Chairman was Rs. 2,211 against a revised estimate of Rs. 2,200 including the arrears. The collections were Rupees 1,954-8-0 which, however, include the remissions made by the Council on appeal

amounting to Rs. 181 within the year which have to be refunded to the parties. The net collection was therefore Rs. 1,773-8-0 (*vide* statement IV-A). Under arrears amounting to Rs. 740, a sum of Rs. 382 was collected and Rs. 289 remitted or written off (*vide* statement IV-B). The collections since the close of the year are Rs. 77 and remissions Rs. 28-8-0. As already reported to Government (in this office No. 633, dated 30th December 1898), the tax was revised in the current year with reference to the remarks made by my predecessor in office in the last administration report, and hence, it will be observed, the remissions were only about 9 per cent. of the demand.

10. *Tax on Buildings.*—Out of a total demand of Rs. 5,195-0-4 (Rs. 4,912-2-5 under current and Rs. 282-13-11 under arrears), Rs. 4,898-10-9 * was collected and Rs. 18-12-19 remitted. Since the close of the year, Rs. 49-10-4 has been collected and Rs. 18-9-6 written off. This tax also underwent a partial revision as will be seen from the fact that the demand rose from Rs. 4,574-2-3 to Rs. 4,912-2-5.

11. *Tax on Lands.*—The current demand under this head was Rs. 956-4-1 and the arrears Rs. 1,301-0-4. The collections were Rs. 746-9-0 and Rs. 768-0-10 under current and arrears respectively. A sum of Rs. 130-12-6 was remitted. Thus the balance at the end of the year was Rs. 615-0-3, of which Rs. 74-11-9 has been since collected (*vide* statements IV-A and IV-B).

12. *Tax on Vehicles with springs, Animals and Carts.*—The amount realized under these items was Rs. 2,709-8-0 against Rs. 2,650 of the revised estimate.

13. *Tolls.*—The lease amount was the same as in the previous year, *i.e.*, Rs. 9,720, of which Rs. 1,622-11-9 (Rs. 2-11-9 being interest) was credited in the year 1897-98. The kists for the remaining ten months amounting to Rs. 8,100, together with Rs. 6-10-4, being interest on overdue kists, were duly realized within the year. Deducting the one-third share due to the District Board, *i.e.*, Rs. 2,702-3-6, the net receipts amount to Rs. 5,404-6-10 against a revised estimate of Rs. 6,480 (G.O., No. 202 M., dated 15th February 1899), as already remarked in accounting for the difference.

14. *Fees under Act II of 1888.*—Rs. 175 was collected on account of licenses granted for dramatic and circus performances.

15. *Rent of Lands and Buildings.*—The former fetched an income of Rs. 61-3-5 against a revised estimate of Rs. 50. The rent due from the Police department for the police ward which continued to be attached to the Municipal hospital till October 1898 has not yet been received. The Police Superintendent has been addressed for the purpose.

16. *Avenue receipts.*—Rs. 893-6-3 was realized out of Rs. 1,000 expected from this source.

17. *Produce of lands, gardens, &c.*—The difference between the actuals and the estimate under this head is due to the renter having made default in paying a portion of the lease amount, and also to the fact that they were not leased out for the current year.

18. *Conservancy receipts.*—The difference, *i.e.*, Rs. 24-1-6, has since been recovered.

19. *Income from Markets.*—

	RS.	A.	P.
Lease amount for 1898-99	688	0	0
Deduct amount deposited and credited in 1897-98	172	0	0
Balance	516	0	0
Amount realized within the year	515	2	6
Interest	5	5	1
Figure in statement I	520	7	7

20. *Income from slaughter-houses.*—This was managed departmentally and fetched an income of Rs. 382-4-6. Rs. 94-11-4 is the arrear collection. This item of revenue has been leased out for the current year for Rs. 465.

21. *Warrant and Distraint fees.*—These amounted to Rs. 45-6-0 against an estimate of Rs. 80. It has to be observed that the issue of coercive process has to be regulated with great care and discretion as the enforcing of section 104 of the Act is felt as an oppression by the people.

22. *License fees.*—Warrant for Rs. 186 has been issued against persons who failed to obtain license for carrying on dangerous and offensive trades and Rs. 58 collected and Rs. 3 remitted.

23. *Fines under Municipal and other Acts.*—The amount realized under this head was Rs. 121-15-6 against a revised estimate of Rs. 150.

24. *Grants and Contributions from Government—Education—Other Purposes.*—The balance of contribution on account of the gymnastic instructor, i.e., Rs. 15, has since been recovered.

25. *Private Scavenging fees.*—The demand under this head was Rs. 196-13-2 and the collection Rs. 138-5-8. Under arrears amounting to Rs. 191-3-1, a sum of Rs. 99-0-7 was collected and Rs. 27-10-9 written off.

26. *Fishery rents.*—The reason mentioned in paragraph 8 partly accounts for the difference between the actuals and the revised estimate:—

Lease amount for 1898-99	Rs.	A.	P.
Deduct amount credited in 1897-98	142	4	0
	36	4	0
Balance	106	0	0
Amount realized in 1898-99	71	8	0
Balance	34	8	0

27. *Advances.*—Rs. 598-9-9 is the amount recovered by way of adjustment out of the advances made for works, purchase of medicines, &c., in previous years.

III.—CHARGES.

28. *Grant 1—Repairs—Communications.*—The amount spent under this head, i.e., Rs. 2,497-13-4, includes Rs. 237-7-8 paid on account of works relating to the year 1897-98. A sum of Rs. 401-4-8, being the cost of gravel purchased in 1898-99, was paid in April 1899.

29. *Repairs of Buildings.*—The repair of the travellers' bungalow, slaughter-house and sundry repairs to other buildings (*vide* statement II-A) account for the amount appearing against this head. As some of the repairs had urgently to be executed during the closing months of the year, though they had not been provided for in the budget, the actuals have exceeded the estimate by about Rs. 200.

30. *Water-supply—Repairs to works, &c.*—The repair of the hospital well, office well and the deepening of certain other fresh water wells in the town and the water-supply channel, as detailed in statement II-A, were executed during the year at a cost of Rs. 217-14-1 against a revised estimate of Rs. 250.

31. *Tools and plant.*—The office cart was repaired at a cost of Rs. 22-13-6, and spades were purchased for Rs. 7-8-0.

32. *Grant 2, Education—Salary and Furniture Grants.*—Rs. 662 was spent against a revised estimate of Rs. 800. The difference is due to the non-payment of grants within the year amounting to Rs. 146-1-4 (*vide* note to statement II).

33. *Grant 3, Medicines and Supplies.*—The large excess over the revised estimate is due to the payment of Rs. 115-7-6 and the adjustment of the amount (Rs. 312-3-1) advanced to Messrs. Burgoyne, Burbidges & Co. on account of medicines supplied in 1897-98.

34. *Other Contributions.*—Rs. 300 was paid on account of stipend to the Dufferin scholar undergoing training in the Medical College.

35. *Vital Statistics.*—The number of births registered during the year was 638 or 13 more than in the previous year, and the number of deaths was 466 against 657 in 1897-98. The marked decrease under deaths is apparently due to the absence of cholera such as raged in the year 1897-98. The registration is effected by the birth and death registrar with the aid of the sanitary inspector and his maistries.

36. *Conservancy and Sanitation.*—Full particulars regarding this subject, as well as vaccination, will be found in the accompanying report of the civil apothecary, from which it will be observed that the arrangements in connection with both are pretty satisfactory (*vide* also statement II-B).

37. *Private Scavenging.*—The number of houses served by private scavenging agency rose from 312 to 366, and it has since been increased to 401. The cost of the establishment amounted to Rs. 517-1-10 against Rs. 472-1-11 in the previous year. Rs. 88-4-6 is the expense incurred in connection with the repair of the two hand-carts and the hire of bullock for the bullock cart.

38. *Epidemic Charges.*—Out of Rs. 307-1-6 appearing against this head, Rs. 112-6-11 was spent on account of cholera and Rs. 194-13-7 in connection with plague.

39. *Fairs and festivals.*—Besides Rs. 512-9-5 spent within the year, a sum of Rs. 83-6-6 has since been expended under this head. It may be observed, however, that only Rs. 250 properly relates to the year under report, the balance being the adjustment of advances made in previous years.

40. *Grant 4—Avenue Contingencies.*—The excess over the revised estimate is due to the fact that the charges for the felling of Municipal avenue trees in connection with the repair of the slaughter-house which was sanctioned during the latter part of the year had to be debited to this head.

41. *Stationery and Printing.*—The inclusion of the cost of stationery articles purchased for the office accounts for the difference between the actuals and the revised estimate under this head. It was usual hitherto to debit the cost of such articles to office contingencies.

42. *Grant 5—Tolls—Contingencies.*—The repair of some of the toll-sheds and gates only was executed within the year, and hence the whole provision was not utilised.

43. *Advances Recoverable.*—The advances made were all recovered within the year. Hence they have been expunged from both sides of the account.

44. *Refunds of other than current collections.*—As the profession-tax and other appeals were disposed of by the Council only at the close of the year, the amounts remitted could not be refunded to the parties within the year. They are therefore shown under liabilities (note to statement II).

IV.—CLOSING BALANCE.

45. It may be remarked that the year closes with a *minus* balance of Rs. 81-8-5, but this, it will be observed, is only due to the cause mentioned in the beginning of the report, viz., that the receipts relating to the year under report which were credited in the previous year were not made good by a corresponding adjustment of the deposits for the current year. Such deposits amount to Rs. 1,858-6-8, and if this had been credited as was usual in former years, the year would be found to close with a balance of Rs. 555-1-4 even taking the liabilities into account. Bearing in mind that the year opened with a *minus* balance of more than Rs. 2,000, it is hoped that Government will not unfavourably remark about the low closing balance.

ENCLOSURE.

CONCISE Annual Report of the Municipal Hospital, Mannargudi, for the year 1898-99.

Public Health.—The general health of the public was, on the whole, fair. A few sporadic cases of cholera occurred now and then, but on every occasion it was successfully stamped out. The prevailing diseases during the year were diseases of the skin, ear, eye and of the digestive system.

2. *Vital Statistics.*—There were 638 births and 466 deaths against 625 births and 657 deaths of the previous year. There were 12 deaths from cholera, 4 from small-pox, 101 from fevers, 46 from diarrhoea, 39 from dysentery, 5 from accidents, and 259 from other causes.

3. *Sanitation.*—The sanitation of the town was fair. The conservancy staff consists of 22 sweepers on Rs. 5 each with 11 dust-carts; 16 toties to remove sewage water with 8 tub-carts—8 on Rs. 5 each and 8 on Rs. 2-8-0 each; 9 private scavenging toties—6 on Rs. 5 each and 3 on Rs. 3-8-0 each—with one bullock night-soil cart and two hand-carts; and one toty on Rs. 4 to clean the slaughter-house. From January to March 1899, one rubbish cart, two sewage carts and 12 toties were removed. A qualified sanitary inspector with two maistries under him worked the conservancy staff under the supervision of the Chairman. The staff is efficient, but the sweepers and toties are not sufficient. The sweepings of private houses and the cattle excreta are stored up in the backyards to be utilised as manure. The street-sweepings are collected in two rubbish depots and sold as manure for about Rs. 300. The sewage water removed in tub-carts was emptied into vacant spaces far from living houses. The night-soil removed from the town was buried in shallow trenches in one of the rubbish depots. The water-supply of the town is from the river Pamanyar and springs in its bed, from tanks fed by it and another Vadavar and also from some wells. Except the wells, all other sources are not satisfactory since they are liable to be contaminated. The drainage of the town was natural. All the rain water runs into the Pamanyar. The house drains empty into hollows in backyards or into cess-pools in the streets. The slaughter-house, the fish and butcher stalls are being repaired. The roads, streets and lanes are in a fairly good condition.

4. A second-class vaccinator on Rs. 10 turned out 673 cases against 615 of the previous year with 474 successful, 187 unsuccessful and 12 unknown cases. Of 673 cases, 538 were under one year of age against 414 of the previous year. Out of 652 recorded births, leaving out 89 died, 160 left the town, 26 unaccounted for, 30 postponed and 6 pending before the Magistrate, only 341 were fit to be vaccinated during the year. But an excess of 197 cases under one year of age was turned out by the vaccinator by vigilantly finding out children from other places, &c.

5. (a) There are two spacious and separate wards for accommodating 15 male and 10 female patients and one contagious ward with four beds.

(b) The cementing of the floor of the contagious ward and the lime-washing of all the blocks, are necessary.

(c) Seven institution-bedsteads were supplied during the year, and the existing furniture is in good condition.

(d) (i) The hospital was inspected once by the District Medical and Sanitary Officer. The entertainment of a nurse on Rs. 7, the supply of a good filter, a microscope and the erection of a shed in front of the Central block were the chief recommendations of this officer.

(ii) None was attended to.

(e) Rs. 3-1-6 against As. 14 were recovered for dieting patients. Other patients that were able to make their diets, did diet themselves.

(f) There were 522 in-patients with an average of 22.40 against 461 with 22.29 of the previous year, and 17,484 out-patients with an average of 98.12 against 16,993 with 88.94 of the previous year. There were 209 self-dieted patients against 202 of the previous year.

(g) There were eight deaths among in-patients against ten of the previous year.

(h) There were 1,388 surgical operations against 1,463 of the previous year.

(i) The establishment is efficient and sufficient, except that the services of a nurse are highly desirable.

(j) Midwife Ayekutte, a barber woman, trained in this hospital and entertained on 29th July 1881, gets a pay of Rs. 8 per mensem and an extra remuneration of As. 8 for every case above the monthly minimum of eight cases. She is efficient and popular in the town. She attended on 234 cases of labour against 239 of the previous year.

(k) Nil.

(l) All the affairs of the hospital are discussed in the several meetings of the Municipal Council.

MANNÁRGUDI,
13th April 1899.

(Signed) B. L. DEVI SING,
Civil Apothecary.

Endt. on Cur. No. 1091-L.

Submitted.

2. There has been some improvement in all branches of Municipal work, notably in the matter of collections, but there is still room for more.

3. The revision of house and land taxes have not yet been taken up, but it is expected that the Chairman will take it up soon.

4. The roads are in a fair condition.

(Signed) KÁDIR NAVAZ KHAN,
29th June 1899. Dy. Collector.

Endt. on C. No. 290-Ml.

Forwarded.

2. As the Divisional Officer remarks, there has been some improvement, but more is required. In particular, attention should be given to private scavenging, where the fees, even if fully collected, would not cover two-fifths of the cost; to revision of house and land taxes; and to registration of vital statistics.

(Signed) T. TWIGG,
8th July 1899. Ag. Collector.

ORDER—No. 1162 M., dated 14th August 1899.

The receipts and charges of the Mannárgudi Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98:—

	Actuals, 1897-98.	Budget estimate, 1898-99.	Revised estimate, 1898-99.	Actuals, 1898-99.

2. The Municipal Council held 32 meetings or one more than in the previous year and ten others were adjourned for want of a quorum against four in that year. The average attendance of members declined and was indifferent in the case of non-officials and poor in that of officials. The Government expects members of the Council to attend the meetings of the Council regularly in future. Two seats were filled by election during the year and they were contested, 61·4 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) The net current demand under the tax on arts was Rs. 32 less than in the previous year; but owing to the large increase in the number of assesses in the last three classes of the schedule, the average incidence of this tax fell from Rs. 5-3-9 to Rs. 4-5-0. The demand under the tax on buildings showed an increase of Rs. 354, which is attributed to a partial revision of the assessments, while under the land-tax there was an increase of Rs. 26. The revision of the registers of these taxes should be taken up without delay and the result reported to Government as soon as it is completed.

(2) Except in the case of the arrear realizations under the tax on buildings, the collections, both current and arrears, under the principal taxes showed an improvement on those of the previous year. The current collections under the tax on

buildings were good and those under the tax on arts were fair; but under the land-tax they were still indifferent and the arrear realizations under all these heads continued to be unsatisfactory. Special attention should be paid to this subject and no pains should be spared to adjust the outstanding balances as soon as possible.

(3) There was a large decrease in the number of coercive processes issued during the year and their execution was not prompt. This in view of the heavy outstandings at the close of the year is unsatisfactory.

(4) There was an increase under avenue receipts, but a decline under the taxes on animals and carts, tolls, license fees, contributions from Government and fishery rents which, in the case of tolls and fishery rents, is explained in paragraph 8 of the Chairman's report.

(5) The number of houses served by the private scavenging agency rose from 312 to 366; but the service was still worked at a loss of Rs. 369 to the Municipal Council. As it is not proper that the general tax-payer should bear the cost of what is a purely private service, early steps should be taken to render the system self-supporting in the current year, and the efforts made by the Council to extend it should be sustained until all the latrines in the town have been brought under the control of the Municipal agency.

4. *Expenditure*—(1) *Public Works.*—No new work was undertaken during the year. The total outlay on communications amounted to Rs. 2,498 or 46·5 per cent. of the net Municipal revenue from tolls against the minimum of 50 per cent. prescribed by Government. The short expenditure has not been explained; but the roads are reported by the Revenue Divisional-officer to have been maintained in fair order.

(2) *Education.*—The net expenditure under this head amounted to Rs. 2,331 or 13·8 per cent. of the receipts from taxation. Of this sum, all but Rs. 259 was spent on primary education. As in the previous year, the Municipal Council maintained two primary schools on the salary-result system; but the sessional school for the training of teachers conducted by the inspecting schoolmaster was not opened during the year. No reason has been assigned for this—an omission which should now be supplied. The attendance at both the Municipal schools declined; but they appear to have done well at the departmental examinations. Owing to certain discrepancies in the educational statements submitted by the Chairman, for which explanation has been called for in a separate memorandum, nothing can be said regarding the aided schools, nor can a comparison be made between the total number of boys under instruction in the Municipal and aided schools in the year under review and in the previous year. From the statements submitted by the Assistant Inspector of Schools, it appears that the number of unqualified teachers employed in the aided schools is large. The managers of these institutions should be made to employ none but qualified men on pain of a reduction or of withholding the grants paid to them.

(3) *Medical Relief.*—There was an increase in the number of in-patients and out-patients treated at the Municipal hospital and in view of the fact that the general health of the public was on the whole fair, this increase may be attributed to the growing popularity of the institution. The midwife attached to the Municipal hospital attended 234 cases of labour against 239 in the previous year. The Medical officer's recommendation in paragraph 5 (b) and (d) of his report regarding the improvement of the hospital buildings, the supply of hospital requisites and the entertainment of a nurse on Rs. 7 should receive the Council's attention.

(4) *Vaccination and Vital Statistics.*—The total number of vaccinations performed during the year rose from 628 to 673; but the quality of the work again deteriorated, the percentage of reported success being 70·4 against 77·9 in the previous year and no explanation of this decline has been furnished either in the Chairman's or the Medical officer's report. This omission should now be supplied. Infantile vaccination also showed some improvement, the total number of children under one year successfully vaccinated being 404 or 19·8 per mille of the population against 373 or 18·5 per mille in 1897-98.

There was an increase in the number of births registered during the year, but a large decline in that of deaths, which is explained in paragraph 35 of the Chairman's

report. The returns in both cases, however, cannot be regarded as trustworthy, the rates recorded being much below the normal. Increased attention should be paid to this subject in the current year.

(5) *Sanitation*.—Nearly 11 per cent. of the allotment for conservancy was allowed to lapse; but the total expenditure under this head amounted to Rs. 5,731 or 24.1 per cent. of the current receipts against 21.9 per cent. in the previous year. The Chairman's report furnishes no information regarding the steps if any taken by the Municipal Council to improve the sanitation of the town; but paragraph 3 of the Medical officer's report shows that much yet remains to be done in this direction and the Government trusts that vigorous measures will be taken to remedy the defects pointed out by this officer as funds become available.

5. *General Remarks*.—For the reason stated in paragraph 45 of the Chairman's report, the year closed with a deficit of Rs. 82 instead of a large working balance.

The administration of the Municipality during the year under review showed an advance on that of the previous year in several respects and may be regarded as, on the whole, fairly efficient; but increased attention should be paid to the collection of taxes, extension of the private scavenging system, vaccination, registration of vital statistics and sanitation.

6. The Chairman's report is meagre and furnishes hardly any information regarding the work done by the Council. The delay of six weeks in its submission is unsatisfactory and should have been explained.

AUGUST.

Administration Report.

Reviewing the — of the Mannārgudi Municipal Council for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. RANGANATHA PILLAI Avargal, Chairman, Municipal Council, Mannārgudi, to the Secretary to Government, Local and Municipal Department (through the Divisional Officer, Mannārgudi), dated 25th June 1899, No. 214.

I have the honour to submit my report on the administration of this Municipality for the year 1898-99, together with the enclosures named below :—

- (1) Statements of receipts and charges.
 - (2) Report of the civil apothecary on the working of the Municipal hospital and the sanitation of the town.
 - (3) Assistant Inspector's statements and report on education.
 - (4) Extract from the proceedings of the Municipal Council, Mannārgudi, dated 17th June 1899, in which the above were discussed and passed.
2. The budget and the revised estimates were passed by Government in its Orders, No. 560 M., dated 12th March 1898, and No. 369 M., dated 15th March 1899.
3. The accounts of the year under report have not yet been audited.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

4. *Municipal Board.*—The sanctioned strength of the Council is sixteen including one ex-officio councillor; of these four are nominated and twelve elected.

5. *Nominations and elections to the Council.*—Five vacancies occurred among the elected seats, two of which were filled up within the year. The remaining three were not filled up, though election was held for the purpose as the same was set aside by Government. Among the nominated seats, two became vacant, both of which were filled up within the year.

6. *Office of Chairman.*—The office of Chairman was in charge of M.R.Ry. V. Ramachandra Row Avargal, the then Deputy Collector of Mannārgudi, till the 1st July 1898, on which date it was assumed by myself.

7. *Meetings of the Council.*—The number of meetings convened during the year was 42, of which ten were adjourned for want of quorum. Ordinary meetings were held on the 2nd and 4th Fridays of every month, and special meetings as often as was necessary. The elective system is in force in this Municipality, and the number of registered voters at the close of the year was 485.

II.—RECEIPTS.

8. The actual receipts of the year amounted to Rs. 23,780-4-0 against Rupees 25,430 of the revised estimate and Rs. 24,841-7-9 (audited figure) in the previous year. The seeming fall is due to the fact that, while the deposits made by renters on account of the year under report had been adjusted towards the receipts of the year 1897-98 as per G.O., No. 1040 M., dated 28th June 1895, the same course was not adopted with regard to the corresponding deposits made on account of the current year, having regard to the instructions contained in G.O., No. 202 M., dated 15th February 1899. It will be seen that such deposits amount to Rs. 1,858-6-8. The opening balance was minus Rs. 2,011-15-1, reducing, the net receipts to Rupees 21,768-4-11.

9. *Tax on Arts.*—The demand as assessed by the Chairman was Rs. 2,211 against a revised estimate of Rs. 2,200 including the arrears. The collections were Rupees 1,954-8-0 which, however, include the remissions made by the Council on appeal

amounting to Rs. 181 within the year which have to be refunded to the parties. The net collection was therefore Rs. 1,773-8-0 (*vide* statement IV-A). Under arrears amounting to Rs. 740, a sum of Rs. 382 was collected and Rs. 289 remitted or written off (*vide* statement IV-B). The collections since the close of the year are Rs. 77 and remissions Rs. 28-8-0. As already reported to Government (in this office No. 633, dated 30th December 1898), the tax was revised in the current year with reference to the remarks made by my predecessor in office in the last administration report, and hence, it will be observed, the remissions were only about 9 per cent. of the demand.

10. *Tax on Buildings.*—Out of a total demand of Rs. 5,195-0-4 (Rs. 4,912-2-5 under current and Rs. 282-13-11 under arrears), Rs. 4,898-10-9 * was collected and Rs. 18-12-10 remitted. Since the close of the year, Rs. 49-10-4 has been collected and Rs. 18-9-6 written off. This tax also underwent a partial revision as will be seen from the fact that the demand rose from Rs. 4,574-2-3 to Rs. 4,912-2-5.

11. *Tax on Lands.*—The current demand under this head was Rs. 956-4-1 and the arrears Rs. 1,301-0-4. The collections were Rs. 746-9-0 and Rs. 768-0-10 under current and arrears respectively. A sum of Rs. 130-12-6 was remitted. Thus the balance at the end of the year was Rs. 615-0-3, of which Rs. 74-11-9 has been since collected (*vide* statements IV-A and IV-B).

12. *Tax on Vehicles with springs, Animals and Carts.*—The amount realized under these items was Rs. 2,709-8-0 against Rs. 2,650 of the revised estimate.

13. *Tolls.*—The lease amount was the same as in the previous year, *i.e.*, Rs. 9,720, of which Rs. 1,622-11-9 (Rs. 2-11-9 being interest) was credited in the year 1897-98. The kists for the remaining ten months amounting to Rs. 8,100, together with Rs. 6-10-4, being interest on overdue kists, were duly realized within the year. Deducting the one-third share due to the District Board, *i.e.*, Rs. 2,702-3-6, the net receipts amount to Rs. 5,404-6-10 against a revised estimate of Rs. 6,480 (G.O., No. 202 M., dated 15th February 1899), as already remarked in accounting for the difference.

14. *Fees under Act II of 1888.*—Rs. 175 was collected on account of licenses granted for dramatic and circus performances.

15. *Rent of Lands and Buildings.*—The former fetched an income of Rs. 61-3-5 against a revised estimate of Rs. 50. The rent due from the Police department for the police ward which continued to be attached to the Municipal hospital till October 1898 has not yet been received. The Police Superintendent has been addressed for the purpose.

16. *Avenue receipts.*—Rs. 893-6-3 was realized out of Rs. 1,000 expected from this source.

17. *Produce of lands, gardens, &c.*—The difference between the actuals and the estimate under this head is due to the renter having made default in paying a portion of the lease amount, and also to the fact that they were not leased out for the current year.

18. *Conservancy receipts.*—The difference, *i.e.*, Rs. 24-1-6, has since been recovered.

19. *Income from Markets.*—

	RS.	A.	P.
Lease amount for 1898-99	688	0	0
Deduct amount deposited and credited in 1897-98	172	0	0
Balance	516	0	0
Amount realized within the year	515	2	6
Interest	5	5	1
Figure in statement I	520	7	7

20. *Income from slaughter-houses.*—This was managed departmentally and fetched an income of Rs. 382-4-6. Rs. 94-11-4 is the arrear collection. This item of revenue has been leased out for the current year for Rs. 465.

21. *Warrant and Distraint fees.*—These amounted to Rs. 45-6-0 against an estimate of Rs. 80. It has to be observed that the issue of coercive process has to be regulated with great care and discretion as the enforcing of section 104 of the Act is felt as an oppression by the people.

22. *License fees.*—Warrant for Rs. 186 has been issued against persons who failed to obtain license for carrying on dangerous and offensive trades and Rs. 58 collected and Rs. 3 remitted.

23. *Fines under Municipal and other Acts.*—The amount realized under this head was Rs. 121-15-6 against a revised estimate of Rs. 150.

24. *Grants and Contributions from Government—Education—Other Purposes.*—The balance of contribution on account of the gymnastic instructor, i.e., Rs. 15, has since been recovered.

25. *Private Scavenging fees.*—The demand under this head was Rs. 196-13-2 and the collection Rs. 138-5-8. Under arrears amounting to Rs. 191-3-1, a sum of Rs. 99-0-7 was collected and Rs. 27-10-9 written off.

26. *Fishery rents.*—The reason mentioned in paragraph 8 partly accounts for the difference between the actuals and the revised estimate:—

					RS.	A.	P.
Lease amount for 1898-99	..	..	..	..	142	4	0
Deduct amount credited in 1897-98	..	..	..	..	36	4	0
				Balance	106	0	0
Amount realized in 1898-99	..	..	..	..	71	8	0
				Balance	34	8	0

27. *Advances.*—Rs. 598-9-9 is the amount recovered by way of adjustment out of the advances made for works, purchase of medicines, &c., in previous years.

III.—CHARGES.

28. *Grant 1—Repairs—Communications.*—The amount spent under this head, i.e., Rs. 2,497-13-4, includes Rs. 237-7-8 paid on account of works relating to the year 1897-98. A sum of Rs. 401-4-8, being the cost of gravel purchased in 1898-99, was paid in April 1899.

29. *Repairs of Buildings.*—The repair of the travellers' bungalow, slaughter-house and sundry repairs to other buildings (*vide* statement II-A) account for the amount appearing against this head. As some of the repairs had urgently to be executed during the closing months of the year, though they had not been provided for in the budget, the actuals have exceeded the estimate by about Rs. 200.

30. *Water-supply—Repairs to works, &c.*—The repair of the hospital well, office well and the deepening of certain other fresh water wells in the town and the water-supply channel, as detailed in statement II-A, were executed during the year at a cost of Rs. 217-14-1 against a revised estimate of Rs. 250.

31. *Tools and plant.*—The office cart was repaired at a cost of Rs. 22-13-6, and spades were purchased for Rs. 7-8-0.

32. *Grant 2, Education—Salary and Furniture Grants.*—Rs. 662 was spent against a revised estimate of Rs. 800. The difference is due to the non-payment of grants within the year amounting to Rs. 146-1-4 (*vide* note to statement II).

33. *Grant 3, Medicines and Supplies.*—The large excess over the revised estimate is due to the payment of Rs. 115-7-6 and the adjustment of the amount (Rs. 312-3-1) advanced to Messrs. Burgoyne, Burbidges & Co. on account of medicines supplied in 1897-98.

34. *Other Contributions.*—Rs. 300 was paid on account of stipend to the Dufferin scholar undergoing training in the Medical College.

35. *Vital Statistics.*—The number of births registered during the year was 638 or 13 more than in the previous year, and the number of deaths was 466 against 657 in 1897-98. The marked decrease under deaths is apparently due to the absence of cholera such as raged in the year 1897-98. The registration is effected by the birth and death registrar with the aid of the sanitary inspector and his maistries.

36. *Conservancy and Sanitation.*—Full particulars regarding this subject, as well as vaccination, will be found in the accompanying report of the civil apothecary, from which it will be observed that the arrangements in connection with both are pretty satisfactory (*vide* also statement II-B).

37. *Private Scavenging.*—The number of houses served by private scavenging agency rose from 312 to 366, and it has since been increased to 401. The cost of the establishment amounted to Rs. 517-1-10 against Rs. 472-1-11 in the previous year. Rs. 88-4-6 is the expense incurred in connection with the repair of the two hand-carts and the hire of bullock for the bullock cart.

38. *Epidemic Charges.*—Out of Rs. 307-1-6 appearing against this head, Rs. 112-6-11 was spent on account of cholera and Rs. 194-13-7 in connection with plague.

39. *Fairs and festivals.*—Besides Rs. 512-9-5 spent within the year, a sum of Rs. 83-6-6 has since been expended under this head. It may be observed, however, that only Rs. 250 properly relates to the year under report, the balance being the adjustment of advances made in previous years.

40. *Grant 4—Avenue Contingencies.*—The excess over the revised estimate is due to the fact that the charges for the felling of Municipal avenue trees in connection with the repair of the slaughter-house which was sanctioned during the latter part of the year had to be debited to this head.

41. *Stationery and Printing.*—The inclusion of the cost of stationery articles purchased for the office accounts for the difference between the actuals and the revised estimate under this head. It was usual hitherto to debit the cost of such articles to office contingencies.

42. *Grant 5—Tolls—Contingencies.*—The repair of some of the toll-sheds and gates only was executed within the year, and hence the whole provision was not utilised.

43. *Advances Recoverable.*—The advances made were all recovered within the year. Hence they have been expunged from both sides of the account.

44. *Refunds of other than current collections.*—As the profession-tax and other appeals were disposed of by the Council only at the close of the year, the amounts remitted could not be refunded to the parties within the year. They are therefore shown under liabilities (note to statement II).

IV.—CLOSING BALANCE.

45. It may be remarked that the year closes with a *minus* balance of Rs. 81-8-5, but this, it will be observed, is only due to the cause mentioned in the beginning of the report, viz., that the receipts relating to the year under report which were credited in the previous year were not made good by a corresponding adjustment of the deposits for the current year. Such deposits amount to Rs. 1,858-6-8, and if this had been credited as was usual in former years, the year would be found to close with a balance of Rs. 595-1-4 even taking the liabilities into account. Bearing in mind that the year opened with a *minus* balance of more than Rs. 2,000, it is hoped that Government will not unfavourably remark about the low closing balance.

ENCLOSURE.

CONCISE Annual Report of the Municipal Hospital, Mannárgudi, for the year 1898-99.

Public Health.—The general health of the public was, on the whole, fair. A few sporadic cases of cholera occurred now and then, but on every occasion it was successfully stamped out. The prevailing diseases during the year were diseases of the skin, ear, eye and of the digestive system.

2. *Vital Statistics.*—There were 638 births and 466 deaths against 625 births and 657 deaths of the previous year. There were 12 deaths from cholera, 4 from small-pox, 101 from fevers, 46 from diarrhoea, 39 from dysentery, 5 from accidents, and 259 from other causes.

3. *Sanitation.*—The sanitation of the town was fair. The conservancy staff consists of 22 sweepers on Rs. 5 each with 11 dust-carts; 16 toties to remove sewage water with 8 tub-carts—8 on Rs. 5 each and 8 on Rs. 2-8-0 each; 9 private scavenging toties—6 on Rs. 5 each and 3 on Rs. 3-8-0 each—with one bullock night-soil cart and two hand-carts; and one toty on Rs. 4 to clean the slaughter-house. From January to March 1899, one rubbish cart, two sewage carts and 12 toties were removed. A qualified sanitary inspector with two maistries under him worked the conservancy staff under the supervision of the Chairman. The staff is efficient, but the sweepers and toties are not sufficient. The sweepings of private houses and the cattle excreta are stored up in the backyards to be utilised as manure. The street-sweepings are collected in two rubbish depots and sold as manure for about Rs. 300. The sewage water removed in tub-carts was emptied into vacant spaces far from living houses. The night-soil removed from the town was buried in shallow trenches in one of the rubbish depots. The water-supply of the town is from the river Pamanyar and springs in its bed, from tanks fed by it and another Vadavar and also from some wells. Except the wells, all other sources are not satisfactory since they are liable to be contaminated. The drainage of the town was natural. All the rain water runs into the Pamanyar. The house drains empty into hollows in backyards or into cess-pools in the streets. The slaughter-house, the fish and butcher stalls are being repaired. The roads, streets and lanes are in a fairly good condition.

4. A second-class vaccinator on Rs. 10 turned out 673 cases against 615 of the previous year with 474 successful, 187 unsuccessful and 12 unknown cases. Of 673 cases, 538 were under one year of age against 414 of the previous year. Out of 652 recorded births, leaving out 89 died, 160 left the town, 26 unaccounted for, 30 postponed and 6 pending before the Magistrate, only 341 were fit to be vaccinated during the year. But an excess of 197 cases under one year of age was turned out by the vaccinator by vigilantly finding out children from other places, &c.

5. (a) There are two spacious and separate wards for accommodating 15 male and 10 female patients and one contagious ward with four beds.

(b) The cementing of the floor of the contagious ward and the lime-washing of all the blocks, are necessary.

(c) Seven institution-bedsteads were supplied during the year, and the existing furniture is in good condition.

(d) (i) The hospital was inspected once by the District Medical and Sanitary Officer. The entertainment of a nurse on Rs. 7, the supply of a good filter, a microscope and the erection of a shed in front of the Central block were the chief recommendations of this officer.

(ii) None was attended to.

(e) Rs. 3-1-6 against As. 14 were recovered for dieting patients. Other patients that were able to make their diets, did diet themselves.

(f) There were 522 in-patients with an average of 22-40 against 461 with 22-29 of the previous year, and 17,484 out-patients with an average of 98-12 against 16,993 with 88-94 of the previous year. There were 209 self-dieted patients against 202 of the previous year.

(g) There were eight deaths among in-patients against ten of the previous year.

(h) There were 1,388 surgical operations against 1,463 of the previous year.

(i) The establishment is efficient and sufficient, except that the services of a nurse are highly desirable.

(j) Midwife Ayekutte, a barber woman, trained in this hospital and entertained on 29th July 1881, gets a pay of Rs. 8 per mensem and an extra remuneration of As. 8 for every case above the monthly minimum of eight cases. She is efficient and popular in the town. She attended on 234 cases of labour against 239 of the previous year.

(k) Nil.

(l) All the affairs of the hospital are discussed in the several meetings of the Municipal Council.

MANNÁRGUDI,
13th April 1899.

(Signed) B. L. DEVI SING,
Civil Apothecary.

Endt. on Cur. No. 1091-L.

Submitted.

2. There has been some improvement in all branches of Municipal work, notably in the matter of collections, but there is still room for more.

3. The revision of house and land taxes have not yet been taken up, but it is expected that the Chairman will take it up soon.

4. The roads are in a fair condition.

(Signed) KÁDIR NAVAZ KHAN,
Dy. Collector.

29th June 1899.

Endt. on C. No. 290-MI.

Forwarded.

2. As the Divisional Officer remarks, there has been some improvement, but more is required. In particular, attention should be given to private scavenging, where the fees, even if fully collected, would not cover two-fifths of the cost; to revision of house and land taxes; and to registration of vital statistics.

(Signed) T. TWIGG,
Ag. Collector.

8th July 1899.

ORDER—No. 1162 M., dated 14th August 1899.

The receipts and charges of the Mannárgudi Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98:—

	Actuals, 1897-98.	Budget estimate, 1898-99.	Revised estimate, 1898-99.	Actuals, 1898-99.
<i>Receipts.</i>				
	RS.	RS.	RS.	RS.
Balance brought forward	—1,875	920	—2,030	—2,012
Tax on Arts	1,610	2,000	2,200	2,337
Buildings and Lands	5,241	5,200	6,500	6,418
Vehicles and Animals	1,541	1,700	1,400	1,384
Carts	1,572	1,600	1,250	1,326
Tolls	6,488	6,400	6,480	5,421
Realizations under Special Acts	250	..	100	175
Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, &c. . .	729	1,170	1,240	1,110
Conservancy Receipts	102	200	200	176
Fees and Revenue from Educational Institutions	48	50	40	36
Medical Institutions	1	..	5	8
Income from Markets and Slaughter-houses	968	1,170	1,170	997
License Fees	542	650	450	343
Other Fees	123	130	140	107
Fines under Municipal and other Acts	163	50	150	122
Interest on Investments and Premium on Loans	953	950	950	953
Grants and Contributions from Government	172	170	90	75
Local Boards	3,620	1,810	1,810	1,810
other Bodies	24	30	25	22
Recoveries for Services to Private Individuals	178	570	250	237
Miscellaneous	249	240	230	151
Advances Recovered	268	150	750	599
Total	24,842	24,240	25,430	23,797
Grand Total	22,967	25,160	23,400	21,785

report. The returns in both cases, however, cannot be regarded as trustworthy, the rates recorded being much below the normal. Increased attention should be paid to this subject in the current year.

(5) *Sanitation*.—Nearly 11 per cent. of the allotment for conservancy was allowed to lapse, but the total expenditure under this head amounted to Rs. 5,731 or 24.1 per cent. of the current receipts against 21.9 per cent. in the previous year. The Chairman's report furnishes no information regarding the steps taken by the Municipal Council to improve the sanitation of the town, but paragraph 3 of the Medical officer's report shows that much yet remains to be done in this direction and the Government trusts that vigorous measures will be taken to remedy the defects pointed out by this officer as funds become available.

5. *General Remarks*.—For the reason stated in paragraph 45 of the Chairman's report, the year closed with a deficit of Rs. 82 instead of a large working balance.

The administration of the Municipality during the year under review showed an advance on that of the previous year in several respects and may be regarded as, on the whole, fairly efficient. But increased attention should be paid to the collection of taxes, extension of the private scavenging system, vaccination, registration of vital statistics and sanitation.

6. The Chairman's report is meagre and furnishes hardly any information regarding the work done by the Council. The delay of six weeks in its submission is unsatisfactory and should have been explained.

Government expects ^{Members of Council} them to attend the meetings of the Council regularly in future.

3. The Municipal Council held 32 meetings or one more than in the previous year and ten others were adjourned for want of a quorum against four in that year. The average attendance of the members declined and was indifferent in the case of the non-officials and poor in that of the officials. The Collector should report the names of such of the official members as have no satisfactory explanation to offer for their irregularity in attending the meetings of the Municipal Council and inform the non-officials that the Government expects them to be more regular in their attendance in future. Two seats were filled by election during the year and both of them were contested, the present of the voters concerned attending the poll.

Receipts 01 - The net current demand under the tax on ⁴ to was Rs 32 less than in the previous year, but owing to the large increase in the number of assesses in the last three classes of the schedule the average incidence of this tax fell from Rs 5-3-9 to Rs 4-5. The demand under the tax on buildings showed an increase of Rs 354 which is attributed to a partial revision of the assessments while under the land tax ^{there was} increase of Rs 26. The revision of the registers of these taxes should be taken up without delay and result should be reported to Government as soon as it is completed.

(2) Except in the case of the
arrears realizations under
the tax on buildings, the
collections, both current
arrears, under the principal
taxes showed an improve-
ment on those of the previous
year.

57.
year. The current collection
under the tax on buildings of
wood and those under the tax on
arts were fair; but ~~the~~^{they}
under the land tax were
still indifferent and the
arrear realizations under
all these heads continued
to be unsatisfactory. These
Government trusts that the
Chamberlain will deviate in
Spend or rather ^{should he pay} to this
subject and spare no pains
to adjust the outstanding
balances as soon as possible

(3) There was a large decrease in the number of concourse processes issued during the year and their execution was not prompt. This in view of the heavy outstanding at the close of the year is ^{unmistakably} ~~unmistakably~~ creditable to the Manual Execution.

241) There was an increase
under average receipts and
~~average payment~~, but a
decline under the taxes ^{on} property.

Vide para 3 (2) ^G 1382.711
4-8-28

me available

Number of women issued in 1897-98 = 2786
1898-99 = 48

76.3 per cent of the total number
for disposal, remained unexecuted

12 Mar 99

Vaccination, registration of
Vital Statistics and Sanitation

6. The Chairman's report
is meagre and furnishes
hardly any information
regarding the work done by
the Council. The delay of
six weeks in its submission
is unsatisfactory and
should have been explained
