Administration Report.

Reviewing the — of the Gudiyáttam Municipal Council for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From SAIYID ADAM SAHIB, Chairman, Municipal Council, Gudiyáttam, to the Secretary to Government, Local and Municipal Department (through the Divisional Officer, Vellore), dated 22nd June 1899, Cur. No. 126.

I have the honour to submit the administration report of the Gudiyáttam Municipality for the year 1898-99 as required by section 252 of Act IV of 1884, as amended by Act III of 1897.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll (including the *ex-officio*) on 1st April 1898; of these, four non-official councillors, M.R.Rys. C. V. Subba Row, S. Venkatraya Chetty, G. Abboy Chetty and Ranga Gowndar vacated their seats on 16th July 1898 when their term of three years expired, and the vacancies were not filled up till 7th June 1899 as under G.O., No. 1950 M., dated 19th November 1898, they had to be filled up by election under the rules prescribed therefor.

Among the official councillors, M.R.Ry. C. Ramachandra Aiyar Avargal, Tahsildar, vacated his seat in the Council by his transfer to Wandiwash, and the vacancy has been recently filled up by the appointment of the present Tahsildar, M.R.Ry. Y. Narayanasami Nayudu Garu.

Thus on the 31st March 1899 there were seven councillors on the roll—two officials and five non-officials. All were nominated by Government. There has been no change in the office of Chairman ever since I assumed charge.

3. The budget for the year under report was passed by the Government in its Order, No. 247 M., dated 27th January 1898, and was revised in its Order, No. 367 M., dated 15th March 1899.

4. The usual statements of receipts and charges (Exhibit A) prepared in the prescribed forms are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and the opening balance of Rs. 948-0-9, amounted to Rs. 18,988-10-9.

6. The total current receipts amounted to Rs. 18,040-10-0 against Rs. 17,850 and Rs. 20,380 anticipated in the budget and revised estimates, respectively, and Rs. 16,767-13-9, the actuals of the previous year. The decrease under the revised estimate occurred chiefly under tax on arts, buildings, lands, carts, fines under Municipal and other Acts, and private scavenging fees.

7. The causes of variations between the actuals and the revised estimate of the year under report are explained below.

8. (2) *Municipal Rates and Taxes*—(a) *Tax on Arts*—Current.—Rs. 3,302 was the amount originally fixed by the Chairman. The Council reduced it to Rs. 3,255; of this, Rs. 1,887-8-0, or 57.9 per cent. of the net demand, was collected, Rs. 13 was written off during the year and Rs. 337-8-0 has since been collected.

Arrears.—Rs. 835-3-9 was collected out of Rs. 1,190-2-9 and Rs. 69-14-9 was written off by the Council as irrecoverable, leaving a balance of Rs. 285-0-3.

The number of persons taxed under all classes of the schedule was 1,106 against 1,129 and the amount of professional tax was Rs. 3,255 against Rs. 3,326-8-0 of the previous year. Thus the incidence of taxation per head was Rs. 2-15-1 against Rs. 2-15-2 in the previous year.

9. (b) *Tax on Buildings*—Current.—The demand under this item was almost the same as in the preceding year.

Rs. 1,805-15-6 or 45.07 per cent. was collected against the demand of Rs. 4,007-9-0, and Rs. 511-1-0 has since been collected and Rs. 3-14-0 was written off by the Council as irrecoverable. There were in all 3,794 houses including the unoccupied, of which 3,160 or 83.2 per cent. of the census number were subject to house-tax. The average incidence of tax was therefore Rs. 1-4-3.

Arrears.—Out of Rs. 1,758-8-0, Rs. 1,083-5-9 was collected and Rs. 73-4-0 was written off by the Council as irrecoverable, leaving a balance of Rs. 601-14-3.

10. *Tax on Lands*—Current.—Rs. 32-13-11 was collected out of the net demand of Rs. 362-11-11.

Arrears.—Rs. 138-9-1 was collected out of Rs. 326-2-9 and Rs. 3-3-0 was written off by the Council as irrecoverable; Rs. 89-0-9 has since been collected.

The current collections are not so satisfactory as they should be. The reason for this is not far to seek. The old outstanding balance of previous years being large, all attention had to be paid to it, as under section 269 (a) of the amended Act it could not be collected after the expiration of three years. Moreover, the prevalence of plague in Bangalore and Vellore had such an effect on the cloth trade that it was almost at a standstill, and as a matter of consequence the weavers who form the bulk of the population had to suffer much and had very little income and the taxes had to be collected with great difficulty. Warrants were freely issued with reference to the remarks made in paragraph 3 (2) of the last administration report, and one additional bill-collector was also entertained from November 1898.

11. Taxes on buildings and lands were levied at 5 per cent. during the year. Under the instructions contained in paragraph 3 (1) of the last report, these taxes were duly revised with a view to give effect to the revision during the current official year.

12. *Tax on Animals*—Current.—Rs. 691-4-0 was the original demand, of which Rs. 6 was remitted by the Council on appeal. Rs. 459-4-0 was collected. The balance is on ploughing cattle belonging to persons who, save implements of husbandry and cattle which under the provisions of section 106 (1) are exempted from distraint, have no other property. However, all possible efforts will be made to collect the arrears this year, as it is hoped that the season being favourable they would be in a better position to pay off their dues.

Arrears.—Out of Rs. 222, Rs. 89-8-0 was collected and Rs. 9-8-0 was written off.

13. *Tax on Carts*.—As per instructions contained in paragraph 3 (3) of the last administration report, the provisions of section 89 were strictly adhered to. Still there was a fall in the receipts under this item against the budget and revised figures. This is due to less traffic on account of the existence of plague in Vellore and the alarm it caused in all the villages.

14. *Tolls*.—The fall of Rs. 84 in the item under the revised estimate is also due to the reasons stated in paragraphs 10 and 13 *supra*.

15. *Fees from Educational Institutions*.—Rs. 1,319-15-0 was collected against Rs. 1,400 and Rs. 1,383-14-9 of the revised estimate and the actuals of the previous year. The fall under this item is mostly in the lower secondary and Dharnampet primary schools. The headmaster of the lower secondary school attributes the fall to certain boys having left the school at the last quarter on account of the prevalence of cholera.

and their not having joined it after the Christmas holidays. The other headmaster attributes the fall of strength in his school to certain Muhammadan boys having left the school on account of high rate of school-fees, which the Council refused to reduce as prayed for by them.

16. *Fines under Municipal and other Acts.*—Only Rs. 103-9-6 was realized under this item against Rs. 200 of the revised estimate.

17. *Private Scavenging Fees—Current.*—Rs. 87-3-0 was collected out of the demand of Rs. 313-5-0 and Rs. 107-13-0 under old standing arrears for reasons stated in paragraph 10 *supra*; Rs. 111-4-0 has since been collected. Steps will be taken to clear the outstanding balance as early as possible.

18. *Loans.*—Under paragraph 2 of G.O., No. 367 M., dated 15th March 1899, credit has been taken from Imperial funds for a sum of Rs. 3,000 to meet plague charges.

19. *Advances.*—Rs. 60 advanced to vakil for conducting a civil suit of the Municipality and Rs. 58-9-6 paid in excess to the Lawrence Asylum Press for printing Municipal account forms were adjusted during the year.

20. The other items of receipts are more or less equal to the revised figures and call for no special remarks.

III.—EXPENDITURE.

21. The total expenditure amounted to Rs. 16,307-4-6 against Rs. 19,110 of the revised estimate.

22. *Grant 1, New Works—Buildings.*—Rs. 318 was spent against Rs. 700 of the revised estimate. The allotment made in the revised for the construction of platforms in the weekly markets was not utilized during the year, as the contractor failed to complete the work within the close of the official year.

Out of the amount provided for the construction of latrine and flooring, only Rs. 122 was laid out in purchasing one latrine of corrugated iron, as the construction of the latter, *i.e.*, flooring for the moveable latrines and putting up semi-permanent tatty latrines, was considered to be unnecessary; hence a saving of Rs. 382 under this head.

23. *Repairs—Communications.*—All the works detailed in statement II-A, part II, were executed during the year departmentally; hence a saving of Rs. 35 under this item.

24. The roads and streets are maintained in a fair condition. Rs. 1,191-6-10 or 49.9 per cent. of the net income from tolls was spent on them during the year.

25. The outlay under Grant 1 amounted to Rs. 1,947 against Rs. 2,390 of the revised estimate.

26. *Grant 2, Education.*—The Council maintained during the year under report one lower secondary school, four Hindu primary schools, two Muhammadan primary schools and one Panchama school.

The report of the educational authorities on the working of the institution is herewith attached (Exhibit B). It will give details about the progress made.

As explained in the last report, two teachers—one of Dharnampet Muhammadan school and one of Nellorepet primary school—have been sent for training.

The one teacher of the lower secondary school referred to in the educational report has been permitted by the Assistant Inspector of Schools to continue in the appointment till the next examination.

The total number of pupils under instruction in the Municipal and aided schools was 613 against 609 of the previous year. The average cost for educating each pupil of the lower secondary school was Rs. 7-8-1, of the upper primary Rs. 18-5-1 and of the lower primary Rs. 2-12-4. Thus the net average cost of education for each pupil in all the Municipal schools Rs. 3-14-1 against Rs. 3-11-4 of the last year.

27. The outlay under Grant 2 was Rs. 3,232-1-7 against Rs. 3,270 of the revised estimate.

28. *Grant 3, Hospitals and Dispensaries—Medicines and Supplies.*—Rs. 39-13-5 was spent in excess of the allotment, as certain medicines had to be sent for from Madras. Hence increase.

29. The report of the hospital assistant on the working of the institution is herewith submitted (Exhibit C). 7,643 out-patients were treated during the year against 10,344 of the previous year. The hospital assistant attributes the fall to the prevalence of cholera and to the false alarm caused by the plague rules which made the people not to resort to the dispensary freely for medical aid, and I agree with him.

30. There is a trained midwife attached to the dispensary who attended 138 cases against 133 of the previous year.

31. *Medical Training of Women.*—Nothing was done during the year in aid of Countess Dufferin's fund.

32. The hospital assistant's quarters was not built, nor could the Council make any provision for it, as suggested by the Divisional Officer in the last report, for want of funds.

33. *Contribution to Government.*—Rs. 91 was spent in excess of the revised estimate, as contributions to Medical College, sanitary inspection and medical reserve staff were raised to Rs. 98, Rs. 49 and Rs. 14 from Rs. 20, Rs. 40 and Rs. 10, respectively.

34. *Vaccination.*—There is one second-class vaccinator on Rs. 11. The number of cases vaccinated by him was 866, of which 799 were successful against 837 and 768 of the previous year, respectively. The cost of each successful operation was the same as that of the previous year, *i.e.*, As. 5-8.

The hospital assistant supervises the vaccinator's work and is paid an allowance of Rs. 2 a month. He vaccinated 26 successful cases during the year.

Infantile vaccination made some progress, the number of children under one year successfully vaccinated having risen from 590 to 630.

One hundred and twenty-seven cases of failures to vaccinate children in time were reported to the Magistrate.

35. There is one registrar on Rs. 11. The total number of births and deaths registered during the year was 808 and 841, respectively, against 734 and 599 of the previous year. Twenty-six persons were prosecuted under section 247.

The increase in the number of deaths is attributable to the prevalence of cholera in the town, which broke out early in the month of December 1898 and disappeared in February 1899. There were 482 cases of attack and 254 of death.

The necessary precautionary measures were adopted to check the spread of the epidemic under the instructions contained in G.O., No. 1536 M., dated 9th September 1896.

The required medicines were indented for and freely used.

A special hospital assistant was also sent for to attend cholera cases in addition to the entertainment of a trained sanitary inspector for cholera duty.

The sanitation of the town was fairly kept up during the year.

36. *Conservancy Establishment.*—A saving of Rs. 66-14-11 was effected under this item, as the services of the permanent sanitary inspector were transferred to cholera duty.

37. *Epidemic Disease Charges.*—Rs. 925-14-5 was spent against Rs. 3,390 of the revised estimate. As there was not a single case of plague, either imported or indigenous in the town, the full establishment proposed was not maintained. Hence the saving.

38. *Sanitation.*—One latrine of corrugated iron, two sewage carts, one night-soil cart and fifty dust-bins were purchased during the year as proposed in the budget.

The suggestions contained in paragraph 3 of the hospital assistant's report embodied in G.O., No. 1224 M., dated 11th July 1898, were placed before the Council for their consideration, and a copy of their resolution is herewith submitted (Exhibit D).

Most of the vacant sites have been utilized for the construction of houses.

39. The total outlay under Grant 3 was Rs. 6,546-3-2 against Rs. 8,980 of the revised estimate for reasons stated in paragraph 37 *supra*.

40. Grant 4, Other Charges.—Rs. 507-13-11 was spent against Rs. 400 of the revised estimate as detailed below :—

	RS.	A.	P.
(1) Reward for the destruction of dogs and pigs	30	7	0
(2) Printing proceedings	272	3	10
(3) Law charges	156	8	0
(4) Charges for numbering carts and jutkas	14	8	11
(5) Land assessment	8	12	8
(6) Rent of cart-stand	20	0	0
(7) Other charges, such as purchase of tom-tom, &c.	5	5	6
Total	507	13	11

The increase under this head is due to the law charges incurred on account of the institution of a civil suit against the weekly market contractor for default of payment of the contract amount.

41. The outlay under Grant 4 amounted to Rs. 2,114-13-8 against Rs. 2,050 of the revised estimate.

42. Grant 5, Purchase of Account Books, &c.—Rs. 208-5-2 was spent against Rs. 80 of the revised estimate and Rs. 202-12-0, the actuals of the last year. This was under-estimated at the time of budget.

43. The outlay under Grant 5 amounted to Rs. 2,460-2-1 against Rs. 2,420 of the revised estimate.

44. The other items of charges do not call for any special remarks.

45. The year closed with a balance of Rs. 2,681-6-3 or 14.9 per cent. of the total receipts against Rs. 948-0-9 in the previous year.

46. General Remarks.—As already explained, the outstanding balance of 1895-96 and 1896-97, with the exception of a very few cases in which distraints have been made, has been cleared off. Now the balance of 1897-98 and 1898-99 remains to be collected. In almost all the cases warrants have been issued, and no pains will be spared sanctioned in their meeting held on 31st March 1899 the entertainment of an additional bill-collector for a period of six months during the current year. As the coming season would be more favourable, it is hoped that the inhabitants will not find it difficult to pay off their dues.

47. The total average incidence of taxation per head of population in the Municipality, including and excluding tolls, was As. 8-1 and As. 6, respectively.

48. There were twenty meetings in all, of which three were adjourned for want of quorum. The attendance of officials was 1.4, while that of the non-officials was 3.75. The decrease in the attendance of official and non-official members is due to the vacancies not having been filled up for a longer period for reasons stated in paragraph 2 *supra*. The fall in the number of meetings is partly due to the heavy work entailed by plague and partly to the want of any necessity to call meetings.

49. The total mileage of roads within Municipal limits is $19\frac{7}{8}$, the total number of miles of roads including streets maintained was $12\frac{7}{8}$, and the total length of roads metalled was seven miles.

50. The report was placed before the Council and passed by it on the 22nd June 1899 (copy of the resolution enclosed, Exhibit E).

51. I very much regret the delay of 25 days in the submission of the report. The revision of taxes effected last year and the making of preliminary arrangements for conducting election in the first week of June and the sorting of observed passports carefully scrutinizing them entailed much work on the office establishment, this delay was therefore unavoidable. The Government will, under the circumstances set forth, be pleased to overlook it.

ENCLOSURE.

ANNUAL Concise Report for the official year 1898-99 of the Municipal Dispensary at Gudiyattam.

Public Health.—People did not enjoy good health during the year under report; this is partly owing to the prevalence of cholera and partly to the existence of plague in the adjacent places. Cholera made its appearance in the month of December and subsided about the end of February 1899. There were 482 attacks and 254 deaths under this head. Prompt and urgent measures were adopted to check the spread of the malady, and necessary sanitary methods were adopted by the Chairman of the Municipal Council to prevent the spread of the epidemic; as for the treatment of the affected by the Medical officer extra medicines were indented for and freely used to treat the patients. Small-pox did not make its appearance during the year under report as in the previous one. Only four deaths have been registered against eight in the previous year. General diseases, diseases of the digestive system and those of the skin were the common complaints during the year.

2. **Vital Statistics.**—The hereunder given tabular form furnishes the information derived from available sources :—

Years.				Deaths.									Births.	Population according to Census of 1891.	
				Cholera.	Small-pox.	Fevers.	Bowel-complaints.	Suicide.	Wound.	Accident.	Snake-bite.	All other causes.			Total.
1897-98	..	..	..	111	8	205	84	..	..	..	..	191	599	734	18,747
1898-99	..	..	..	340	4	145	132	..	3	1	1	215	841	808	18,747

3. **Sanitation.**—Five springs were maintained in the river, three of which are set aside for drinking purposes and the other two for bathing. Watchmen are employed over these with a separate supervisor over them. Water-supply in the town appears to be sufficient.

4. **Slaughter-house.**—The light and prosecuting inspector and the trained sanitary inspector have been inspecting animals before they are slaughtered in the slaughter-house. The drainage of the slaughter-house requires improvement.

5. **Vaccination.**—This is compulsory in the town, and 799 cases were successfully vaccinated during the year against 768 in the previous one by the Municipal vaccinator. The Medical officer vaccinated 26 successful cases during the year. The tabular statement given below shows the work of the Municipal vaccinator :—

Years.	Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.				Birth.
	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	
1897-98	704	54	10	768	64	4	1	69	768	58	11	837	734
1898-99	734	21	34	789	65	11	1	77	799	32	35	866	808

6. **Hospitals and Dispensaries.**—(a) Accommodation whether sufficient or otherwise.—Accommodation is sufficient.

(b) State of Repair of Building.—This is in good state of repairs.

for
(Exh.
A.

(c) *State of Repair of Furniture.*—This is also in good state, but a compounding table is wanted.

(d) *Inspection.*—(1) *Any suggestion made by the Surgeon-General with the Government of Madras.*—No suggestions were made.

(2) *Any suggestion of other Inspecting Officer.*—The District Medical and Sanitary Officer recommended the erection of a compound wall, which the Municipal Council have not yet undertaken probably for want of funds.

(e) *Subscription from the Patients who are able to pay.*—Rs. 2-8-9 was collected under this item during the year.

(f) *Number of Admissions and their average daily Attendance.*—This is hereunder given :—

Years.	Total number of admissions.	Average daily attendance.
1896-97	11,258	53-62
1897-98	10,344	49-46
1898-99	7,643	33-52

The decrease is partly due to the floods of the river running into the middle of the town thereby cutting off communication and partly to the prevalence of cholera and plague in the adjacent villages. The inhabitants of the Municipal town also seem to have not freely resorted to the medical aid.

(g) *Surgical operations.*—One hundred and thirty (major and minor) operations were performed during the year under report against 323 in the past. The decrease is owing to the general fall in total number admitted for reasons stated in paragraph (f).

(h) *Midwife and her work.*—There is a trained midwife attached to the dispensary, who conducted 138 cases of labour during the year against 133 of the past. The Council have fixed a minimum of twelve cases per mensem.

(i) *General Remarks.*—The sanitation of the town is on the whole fair. The Council has constructed one additional corrugated iron sheet latrine and has purchased one more night-soil cart drawn by bullocks.

7. Sewage carts have also been sent for, and it is said they would be used shortly. The earlier it is done the better it would be, as the present system of removing the sewage in the town does not clean the so-called drains satisfactorily.

GUDIYATTAM,
28th April 1899.

(Signed) T. CHIDAMBARAM PILLAI,
First-class Hospital Assistant.

No. 1226.

Forwarded to the Chairman, Municipal Council, Gudiyattam.

VELLORE,
25th May 1899.

(Signed) P. N. LAKSHMANAN,
for Dist. Medl. and Sany. Officer, North Arcot.

Dis. No. 1308-Rev.

Forwarded.

2. After deducting the loan of Rs. 3,000 received for plague expenditure, the receipts of the year amount only to Rs. 15,040. There was a marked decrease under all the main items of receipts. The collection work was not satisfactory; out of the current demand only about 70 per cent. was collected, and the collection of arrears was slightly worse. There is no doubt that most of the balance could easily have been collected had coercive processes been promptly issued.

3. In spite of repeated orders of Government private scavenging fees were not collected in advance. Had this been done, the receipts would have more than covered the cost of service.

4. The state of the Municipal roads is not satisfactory.

VELLORE,
7th July 1899.

(Signed) N. MACMICHAEL,
Acting Sub-Collector.

No. 850-E.

Forwarded.

17th July 1899.

(Signed) R. H. CAMPBELL,
Acting Collector.

ORDER—No. 1217 M., dated 22nd August 1899.

The receipts and charges of the Gudiyattam Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98 :—

	Actuals, 1897-98.	Budget estimate, 1898-99.	Revised estimate, 1898-99.	Actuals, 1898-99.

Balance	948	1,425	2,220	2,682

2. Seventeen meetings were held by the Municipal Council against 34 in the previous year and three others were adjourned for want of a quorum against two in that year. For the reasons stated in paragraphs 2 and 48 of the Chairman's report, the average attendance of the official members continued to be below the mark and that of the non-officials declined considerably and was indifferent.

3. *Receipts.*—(1) The net current demand under the tax on lands rose from Rs. 297 to Rs. 363; but no explanation has been furnished for this increase. On the other hand the demand under the tax on arts showed a decrease of Rs. 72, which was apparently due to the depression of trade caused by the prevalence of plague in Bangalore and Vellore. The demand under the tax on buildings, however, remained almost stationary.

(2) The current collections under the taxes on arts and buildings and the arrear realizations under the tax on lands declined and were poor. There was a fall in the current collections under the last head also, which were extremely unsatisfactory, more than 90 per cent. of the demand remaining uncollected at the close of the year. This discreditable state of affairs is attributed by the Chairman to the prevalence of plague in Bangalore and Vellore and the consequent depression of the trade carried on by the weavers of the town, who form the bulk of the population; but the Sub-Collector thinks that most of the balance could have been easily collected had coercive processes been promptly issued. The arrear realizations under the taxes on arts and buildings improved and were fair in the former, but indifferent in the latter case. The Government trusts that vigorous measures will be adopted to realize the outstanding balances as soon as possible.

(3) There was an increase in the receipts from the sale of sweepings; but the income from tolls, market rents and fines declined, and except in the case of tolls, these variations have not been explained.

(4) The number of houses served by the private scavenging agency was 460 or two less than in the previous year; but the service was worked at a loss of Rs. 45 to the Municipal Council. In this connection the Council's attention is drawn to the remarks of the Sub-Collector in paragraph 3 of his endorsement regarding its failure to collect the private scavenging fees in advance as repeatedly ordered by Government. The neglect of the Chairman in this matter is very unsatisfactory and the Government must insist on its orders being strictly carried out in future. There is considerable scope for the extension of this service, as the number of houses served by the Municipal agency is only about 14 per cent. of the number assessed to the tax on buildings. The Government trusts that the Municipal Council will not rest satisfied until all the private latrines in the town have been brought under its control.

4. *Expenditure.*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The total outlay on communications amounted to Rs. 1,191 or 69.5 per cent. of the net Municipal revenue from tolls and the roads and streets are reported by the Chairman to have been maintained in a fair order; but the Sub-Collector states that their condition was not satisfactory. Increased attention should be paid to them in the current year.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,857 or 19.7 per cent. of the receipts from taxation. Of this sum, Rs. 1,557 were spent on primary, and the remainder on secondary, education. The Municipal Council continued to maintain one secondary and seven primary schools on the salary-result system and to aid five primary schools with result grants. The attendance at these schools taken together remained almost stationary. The results of the Lower Secondary examination, though better than in the previous year, were still far from satisfactory; but those of the departmental and grant examinations continued to be good and the allotment for result grants was fully utilized. The total number of boys under instruction in the Municipal and aided schools was 612 or 44.2 per cent. of the male population of school-going age against 43.6 per cent. in the previous year and the general average of 61.8 per cent. for Municipalities in that year.

(3) *Medical Relief.*—Owing partly to the prevalence of cholera and the plague scare, the number of patients treated at the Municipal dispensary again fell from 10,344 to 7,643. The midwife employed by the Municipal Council attended 133 cases of labour or five more than in the previous year. The dispensary should be furnished with a compounding table as required in paragraph 6 (c) of the medical report.

(4) *Vaccination and Vital Statistics.*—The total number of vaccinations performed during the year rose from 852 to 892 and the quality of the work also improved slightly, the percentage of reported success being 92.5 against 91.9 in 1897-98. Infantile vaccination also showed some advance, the total number of children under one year successfully vaccinated being 630 or 33.6 per mille of the population against 590 or 31.5 per mille in the previous year. There is, however, considerable scope for improvement in this branch of the administration, as the registered birth-rate was 43.2 per mille of the population.

There was a large increase in the numbers of births and deaths registered during the year, which in the latter case is attributed to the prevalence of cholera in the town. The returns may now be regarded as fairly accurate.

(5) *Sanitation.*—Nearly 10 per cent. of the allotment under this head was allowed to lapse and the total expenditure amounted to Rs. 4,726 or 26.2 per cent. of the current receipts against 28.2 per cent. in the previous year. From paragraph 33 of the Chairman's and paragraph 6 (d) of the Medical officer's report it is observed that some improvement was effected in the sanitation of the town; but the Municipal Council should not relax its efforts in this direction until all the defects pointed out by the Sanitary officers from time to time have been remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 2,682 or 14.9 per cent. of the current receipts.

The administration of the Municipality during the year under review deteriorated in many respects and must be regarded as inefficient. The collection of taxes was indifferent, the private scavenging system was not extended, the state of the roads was not satisfactory and education received but scant attention. The Government, however, trusts that the Chairman will be able to report better results in the current year.

AUGUST.

Administration Report.

Reviewing the — of the Gudiyáttam Municipal Council for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From SAIYID ADAM SAHIB, Chairman, Municipal Council, Gudiyattam, to the Secretary to Government, Local and Municipal Department (through the Divisional Officer, Vellore), dated 22nd June 1899, Cur. No. 126.

I have the honour to submit the administration report of the Gudiyattam Municipality for the year 1898-99 as required by section 252 of Act IV of 1884, as amended by Act III of 1897.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll (including the *ex-officio*) on 1st April 1898; of these, four non-official councillors, M.R.Rys. C. V. Subba Row, S. Venkatraya Chetty, G. Abboy Chetty and Ranga Gowndar vacated their seats on 16th July 1898 when their term of three years expired, and the vacancies were not filled up till 7th June 1899 as under G.O., No. 1950 M., dated 19th November 1898, they had to be filled up by election under the rules prescribed therefor.

Among the official councillors, M.R.Ry. C. Ramachandra Aiyar Avargal, Tahsildar, vacated his seat in the Council by his transfer to Wandiwash, and the vacancy has been recently filled up by the appointment of the present Tahsildar, M.R.Ry. Y. Narayanasami Nayudu Garu.

Thus on the 31st March 1899 there were seven councillors on the roll—two officials and five non-officials. All were nominated by Government. There has been no change in the office of Chairman ever since I assumed charge.

3. The budget for the year under report was passed by the Government in its Order, No. 247 M., dated 27th January 1898, and was revised in its Order, No. 367 M., dated 15th March 1899.

4. The usual statements of receipts and charges (Exhibit A) prepared in the prescribed forms are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and the opening balance of Rs. 948-0-9, amounted to Rs. 18,988-10-9.

6. The total current receipts amounted to Rs. 18,040-10-0 against Rs. 17,850 and Rs. 20,380 anticipated in the budget and revised estimates, respectively, and Rs. 16,767-13-9, the actuals of the previous year. The decrease under the revised estimate occurred chiefly under tax on arts, buildings, lands, carts, fines under Municipal and other Acts, and private scavenging fees.

7. The causes of variations between the actuals and the revised estimate of the year under report are explained below.

8. (2) *Municipal Rates and Taxes*—(a) *Tax on Arts—Current*.—Rs. 3,302 was the amount originally fixed by the Chairman. The Council reduced it to Rs. 3,255; of this, Rs. 1,857-8-0, or 57.9 per cent. of the net demand, was collected, Rs. 13 was written off during the year and Rs. 337-8-0 has since been collected.

Arrears.—Rs. 835-3-9 was collected out of Rs. 1,190-2-9 and Rs. 69-14-9 was written off by the Council as irrecoverable, leaving a balance of Rs. 285-0-3.

The number of persons taxed under all classes of the schedule was 1,106 against 1,129 and the amount of professional tax was Rs. 3,255 against Rs. 3,326-8-0 of the previous year. Thus the incidence of taxation per head was Rs. 2-15-1 against Rs. 2-15-2 in the previous year.

9. (b) *Tax on Buildings—Current*.—The demand under this item was almost the same as in the preceding year.

Rs. 1,805-15-6 or 45.07 per cent. was collected against the demand of Rs. 4,007-9-0, and Rs. 511-1-0 has since been collected and Rs. 3-14-0 was written off by the Council as irrecoverable. There were in all 3,794 houses including the unoccupied, of which 3,160 or 83.2 per cent. of the census number were subject to house-tax. The average incidence of tax was therefore Rs. 1-4-3.

Arrears.—Out of Rs. 1,758-8-0, Rs. 1,083-5-9 was collected and Rs. 73-4-0 was written off by the Council as irrecoverable, leaving a balance of Rs. 601-14-3.

10. *Tax on Lands—Current*.—Rs. 32-13-11 was collected out of the net demand of Rs. 362-11-11.

Arrears.—Rs. 138-9-1 was collected out of Rs. 326-2-9 and Rs. 3-3-0 was written off by the Council as irrecoverable; Rs. 89-0-9 has since been collected.

The current collections are not so satisfactory as they should be. The reason for this is not far to seek. The old outstanding balance of previous years being large, all attention had to be paid to it, as under section 269 (a) of the amended Act it could not be collected after the expiration of three years. Moreover, the prevalence of plague in Bangalore and Vellore had such an effect on the cloth trade that it was almost at a standstill, and as a matter of consequence the weavers who form the bulk of the population had to suffer much and had very little income and the taxes had to be collected with great difficulty. Warrants were freely issued with reference to the remarks made in paragraph 3 (2) of the last administration report, and one additional bill-collector was also entertained from November 1898.

11. Taxes on buildings and lands were levied at 5 per cent. during the year. Under the instructions contained in paragraph 3 (1) of the last report, these taxes were duly revised with a view to give effect to the revision during the current official year.

12. *Tax on Animals—Current*.—Rs. 691-4-0 was the original demand, of which Rs. 6 was remitted by the Council on appeal. Rs. 459-4-0 was collected. The balance is on ploughing cattle belonging to persons who, save implements of husbandry and cattle which under the provisions of section 106 (1) are exempted from distraint, have no other property. However, all possible efforts will be made to collect the arrears this year, as it is hoped that the season being favourable they would be in a better position to pay off their dues.

Arrears.—Out of Rs. 222, Rs. 89-8-0 was collected and Rs. 9-8-0 was written off.

13. *Tax on Carts*.—As per instructions contained in paragraph 3 (3) of the last administration report, the provisions of section 89 were strictly adhered to. Still there was a fall in the receipts under this item against the budget and revised figures. This is due to less traffic on account of the existence of plague in Vellore and the alarm it caused in all the villages.

14. *Tolls*.—The fall of Rs. 84 in the item under the revised estimate is also due to the reasons stated in paragraphs 10 and 13 *supra*.

15. *Fees from Educational Institutions*.—Rs. 1,319-15-0 was collected against Rs. 1,400 and Rs. 1,383-14-9 of the revised estimate and the actuals of the previous year. The fall under this item is mostly in the lower secondary and Dharnampet primary schools. The headmaster of the lower secondary school attributes the fall to certain boys having left the school at the last quarter on account of the prevalence of cholera.

and their not having joined it after the Christmas holidays. The other headmaster attributes the fall of strength in his school to certain Muhammadan boys having left the school on account of high rate of school-fees, which the Council refused to reduce as prayed for by them.

16. *Fines under Municipal and other Acts.*—Only Rs. 103-9-6 was realized under this item against Rs. 200 of the revised estimate.

17. *Private Scavenging Fees—Current.*—Rs. 87-3-0 was collected out of the demand of Rs. 313-5-0 and Rs. 107-13-0 under old standing arrears for reasons stated in paragraph 10 *supra*; Rs. 111-4-0 has since been collected. Steps will be taken to clear the outstanding balance as early as possible.

18. *Loans.*—Under paragraph 2 of G.O., No. 367 M., dated 15th March 1899, credit has been taken from Imperial funds for a sum of Rs. 3,000 to meet plague charges.

19. *Advances.*—Rs. 60 advanced to vakil for conducting a civil suit of the Municipality and Rs. 58-9-6 paid in excess to the Lawrence Asylum Press for printing Municipal account forms were adjusted during the year.

20. The other items of receipts are more or less equal to the revised figures and call for no special remarks.

III.—EXPENDITURE.

21. The total expenditure amounted to Rs. 16,307-4-6 against Rs. 19,110 of the revised estimate.

22. *Grant 1, New Works—Buildings.*—Rs. 318 was spent against Rs. 700 of the revised estimate. The allotment made in the revised for the construction of platforms in the weekly markets was not utilized during the year, as the contractor failed to complete the work within the close of the official year.

Out of the amount provided for the construction of latrine and flooring, only Rs. 122 was laid out in purchasing one latrine of corrugated iron, as the construction of the latter, *i.e.*, flooring for the moveable latrines and putting up semi-permanent tatty latrines, was considered to be unnecessary; hence a saving of Rs. 382 under this head.

23. *Repairs—Communications.*—All the works detailed in statement II-A, part II, were executed during the year departmentally; hence a saving of Rs. 35 under this item.

24. The roads and streets are maintained in a fair condition. Rs. 1,191-6-10 or 49.9 per cent. of the net income from tolls was spent on them during the year.

25. The outlay under Grant 1 amounted to Rs. 1,947 against Rs. 2,390 of the revised estimate.

26. *Grant 2, Education.*—The Council maintained during the year under report one lower secondary school, four Hindu primary schools, two Muhammadan primary schools and one Panchama school.

The report of the educational authorities on the working of the institution is herewith attached (Exhibit B). It will give details about the progress made.

As explained in the last report, two teachers—one of Dharnampet Muhammadan school and one of Nellorepet primary school—have been sent for training.

The one teacher of the lower secondary school referred to in the educational report has been permitted by the Assistant Inspector of Schools to continue in the appointment till the next examination.

The total number of pupils under instruction in the Municipal and aided schools was 613 against 609 of the previous year. The average cost for educating each pupil of the lower secondary school was Rs. 7-8-1, of the upper primary Rs. 18-5-1 and of the lower primary Rs. 2-12-4. Thus the net average cost of education for each pupil in all the Municipal schools Rs. 3-14-1 against Rs. 3-11-4 of the last year.

27. The outlay under Grant 2 was Rs. 3,232-1-7 against Rs. 3,270 of the revised estimate.

28. *Grant 3, Hospitals and Dispensaries—Medicines and Supplies.*—Rs. 39-13-5 was spent in excess of the allotment, as certain medicines had to be sent for from Madras. Hence increase.

29. The report of the hospital assistant on the working of the institution is herewith submitted (Exhibit C). 7,643 out-patients were treated during the year against 10,344 of the previous year. The hospital assistant attributes the fall to the prevalence of cholera and to the false alarm caused by the plague rules which made the people not to resort to the dispensary freely for medical aid, and I agree with him.

30. There is a trained midwife attached to the dispensary who attended 138 cases against 133 of the previous year.

31. *Medical Training of Women.*—Nothing was done during the year in aid of Countess Dufferin's fund.

32. The hospital assistant's quarters was not built, nor could the Council make any provision for it, as suggested by the Divisional Officer in the last report, for want of funds.

33. *Contribution to Government.*—Rs. 91 was spent in excess of the revised estimate, as contributions to Medical College, sanitary inspection and medical reserve staff were raised to Rs. 98, Rs. 49 and Rs. 14 from Rs. 20, Rs. 40 and Rs. 10, respectively.

34. *Vaccination.*—There is one second-class vaccinator on Rs. 11. The number of cases vaccinated by him was 866, of which 799 were successful against 837 and 768 of the previous year, respectively. The cost of each successful operation was the same as that of the previous year, *i.e.*, As. 5-8.

The hospital assistant supervises the vaccinator's work and is paid an allowance of Rs. 2 a month. He vaccinated 26 successful cases during the year.

Infantile vaccination made some progress, the number of children under one year successfully vaccinated having risen from 590 to 630.

One hundred and twenty-seven cases of failures to vaccinate children in time were reported to the Magistrate.

35. There is one registrar on Rs. 11. The total number of births and deaths registered during the year was 808 and 841, respectively, against 734 and 599 of the previous year. Twenty-six persons were prosecuted under section 247.

The increase in the number of deaths is attributable to the prevalence of cholera in the town, which broke out early in the month of December 1898 and disappeared in February 1899. There were 482 cases of attack and 254 of death.

The necessary precautionary measures were adopted to check the spread of the epidemic under the instructions contained in G.O., No. 1536 M., dated 9th September 1896.

The required medicines were indented for and freely used.

A special hospital assistant was also sent for to attend cholera cases in addition to the entertainment of a trained sanitary inspector for cholera duty.

The sanitation of the town was fairly kept up during the year.

36. *Conservancy Establishment.*—A saving of Rs. 66-14-11 was effected under this item, as the services of the permanent sanitary inspector were transferred to cholera duty.

37. *Epidemic Disease Charges.*—Rs. 925-14-5 was spent against Rs. 3,390 of the revised estimate. As there was not a single case of plague, either imported or indigenous in the town, the full establishment proposed was not maintained. Hence the saving.

38. *Sanitation.*—One latrine of corrugated iron, two sewage carts, one night-soil cart and fifty dust-bins were purchased during the year as proposed in the budget.

The suggestions contained in paragraph 3 of the hospital assistant's report embodied in G.O., No. 1224 M., dated 11th July 1898, were placed before the Council for their consideration, and a copy of their resolution is herewith submitted (Exhibit D).

Most of the vacant sites have been utilized for the construction of houses.

39. The total outlay under Grant 3 was Rs. 6,546-3-2 against Rs. 8,980 of the revised estimate for reasons stated in paragraph 37 *supra*.

40. Grant 4, Other Charges.—Rs. 507-13-11 was spent against Rs. 400 of the revised estimate as detailed below:—

	Rs.	A.	P.
(1) Reward for the destruction of dogs and pigs	30	7	0
(2) Printing proceedings	272	3	10
(3) Law charges	156	8	0
(4) Charges for numbering carts and jutkas	14	8	11
(5) Land assessment	8	12	8
(6) Rent of cart-stand	20	0	0
(7) Other charges, such as purchase of tom-tom, &c.	5	5	6

Total ... 507 13 11

The increase under this head is due to the law charges incurred on account of the institution of a civil suit against the weekly market contractor for default of payment of the contract amount.

41. The outlay under Grant 4 amounted to Rs. 2,114-13-8 against Rs. 2,050 of the revised estimate.

42. Grant 5, Purchase of Account Books, &c.—Rs. 208-5-2 was spent against Rs. 80 of the revised estimate and Rs. 202-12-0, the actuals of the last year. This was under-estimated at the time of budget.

43. The outlay under Grant 5 amounted to Rs. 2,460-2-1 against Rs. 2,420 of the revised estimate.

44. The other items of charges do not call for any special remarks.

45. The year closed with a balance of Rs. 2,681-6-3 or 14·9 per cent. of the total receipts against Rs. 948-0-9 in the previous year.

46. General Remarks.—As already explained, the outstanding balance of 1895-96 and 1896-97, with the exception of a very few cases in which distraints have been made, has been cleared off. Now the balance of 1897-98 and 1898-99 remains to be collected. In almost all the cases warrants have been issued, and no pains will be spared to have the balance cleared off very soon. To help in this direction the Council have sanctioned in their meeting held on 31st March 1899 the entertainment of an additional bill-collector for a period of six months during the current year. As the coming season would be more favourable, it is hoped that the inhabitants will not find it difficult to pay off their dues.

47. The total average incidence of taxation per head of population in the Municipality, including and excluding tolls, was As. 8-1 and As. 6, respectively.

48. There were twenty meetings in all, of which three were adjourned for want of quorum. The attendance of officials was 1·4, while that of the non-officials was 3·75. The decrease in the attendance of official and non-official members is due to the vacancies not having been filled up for a longer period for reasons stated in paragraph 2 *supra*. The fall in the number of meetings is partly due to the heavy work entailed by plague and partly to the want of any necessity to call meetings.

49. The total mileage of roads within Municipal limits is $19\frac{7}{8}$, the total number of miles of roads including streets maintained was $12\frac{7}{8}$, and the total length of roads metalled was seven miles.

50. The report was placed before the Council and passed by it on the 22nd June 1899 (copy of the resolution enclosed, Exhibit E).

51. I very much regret the delay of 25 days in the submission of the report. The revision of taxes effected last year and the making of preliminary arrangements for conducting election in the first week of June and the sorting of observed passports carefully scrutinizing them entailed much work on the office establishment, and this delay was therefore unavoidable. The Government will, under the circumstances set forth, be pleased to overlook it.

ENCLOSURE.

ANNUAL Concise Report for the official year 1898-99 of the Municipal Dispensary at Gudiyattam.

Public Health.—People did not enjoy good health during the year under report; this is partly owing to the prevalence of cholera and partly to the existence of plague in the adjacent places. Cholera made its appearance in the month of December and subsided about the end of February 1899. There were 482 attacks and 254 deaths under this head. Prompt and urgent measures were adopted to check the spread of the malady, and necessary sanitary methods were adopted by the Chairman of the Municipal Council to prevent the spread of the epidemic; as for the treatment of the affected by the Medical officer extra medicines were indented for and freely used to treat the patients. Small-pox did not make its appearance during the year under report as in the previous one. Only four deaths have been registered against eight in the previous year. General diseases, diseases of the digestive system and those of the skin were the common complaints during the year.

2. *Vital Statistics.*—The hereunder given tabular form furnishes the information derived from available sources:—

Years.	Deaths.										Births.	Population according to Census of 1891.
	Cholera.	Small-pox.	Fever.	Bowel-complaints.	Suicide.	Wound.	Accident.	Snake-bite.	All other causes.	Total.		
1897-98	111	8	205	84	..	..	..	..	101	599	734	18,747
1898-99	340	4	145	132	..	3	1	1	215	841	808	18,747

3. *Sanitation.*—Five springs were maintained in the river, three of which are set aside for drinking purposes and the other two for bathing. Watchmen are employed over these with a separate supervisor over them. Water-supply in the town appears to be sufficient.

4. *Slaughter-house.*—The light and prosecuting inspector and the trained sanitary inspector have been inspecting animals before they are slaughtered in the slaughter-house. The drainage of the slaughter-house requires improvement.

5. *Vaccination.*—This is compulsory in the town, and 799 cases were successfully vaccinated during the year against 768 in the previous one by the Municipal vaccinator. The Medical officer vaccinated 26 successful cases during the year. The tabular statement given below shows the work of the Municipal vaccinator:—

Years.	Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.				Birth.
	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	
1897-98	704	54	10	768	64	4	1	69	768	58	11	837	734
1898-99	734	21	34	789	65	11	1	77	799	32	35	866	808

6. *Hospitals and Dispensaries.*—(a) *Accommodation whether sufficient or otherwise.*—Accommodation is sufficient.

(b) *State of Repair of Building.*—This is in good state of repairs.

(c) *State of Repair of Furniture.*—This is also in good state, but a compounding table is wanted.

(d) *Inspection.*—(1) *Any suggestion made by the Surgeon-General with the Government of Madras.*—No suggestions were made.

(2) *Any suggestion of other Inspecting Officer.*—The District Medical and Sanitary Officer recommended the erection of a compound wall, which the Municipal Council have not yet undertaken probably for want of funds.

(e) *Subscription from the Patients who are able to pay.*—Rs. 2-8-9 was collected under this item during the year.

(f) *Number of Admissions and their average daily Attendance.*—This is hereunder given:—

Years.	Total number of admissions.	Average daily attendance.
1896-97	11,258	53.62
1897-98	10,344	49.46
1898-99	7,643	33.52

The decrease is partly due to the floods of the river running into the middle of the town thereby cutting off communication and partly to the prevalence of cholera and plague in the adjacent villages. The inhabitants of the Municipal town also seem to have not freely resorted to the medical aid.

(g) *Surgical operations.*—One hundred and thirty (major and minor) operations were performed during the year under report against 323 in the past. The decrease is owing to the general fall in total number admitted for reasons stated in paragraph (f).

(h) *Midwife and her work.*—There is a trained midwife attached to the dispensary, who conducted 138 cases of labour during the year against 133 of the past. The Council have fixed a minimum of twelve cases per mensem.

(i) *General Remarks.*—The sanitation of the town is on the whole fair. The Council has constructed one additional corrugated iron sheet latrine and has purchased one more night-soil cart drawn by bullocks.

7. Sewage carts have also been sent for, and it is said they would be used shortly. The earlier it is done the better it would be, as the present system of removing the sewage in the town does not clean the so-called drains satisfactorily.

GUDIYATTAM,
28th April 1899.

for Dist. Medl. and Sany. Officer, North Arcot.

Dis. No. 1308-Rev.

Forwarded.

2. After deducting the loan of Rs. 3,000 received for plague expenditure, the receipts of the year amount only to Rs. 15,040. There was a marked decrease under all the main items of receipts. The collection work was not satisfactory; out of the current demand only about 70 per cent. was collected, and the collection of arrears was slightly worse. There is no doubt that most of the balance could easily have been collected had coercive processes been promptly issued.

3. In spite of repeated orders of Government private scavenging fees were not collected in advance. Had this been done, the receipts would have more than covered the cost of service.

4. The state of the Municipal roads is not satisfactory.

VELLORE,
7th July 1899.

Balance	948	1,425	2,220	2,682

2. Seventeen meetings were held by the Municipal Council against 34 in the previous year and three others were adjourned for want of a quorum against two in that year. For the reasons stated in paragraphs 2 and 48 of the Chairman's report, the average attendance of the official members continued to be below the mark and that of the non-officials declined considerably and was indifferent.

3. *Receipts.*—(1) The net current demand under the tax on lands rose from Rs. 297 to Rs. 363; but no explanation has been furnished for this increase. On the other hand the demand under the tax on arts showed a decrease of Rs. 72, which was apparently due to the depression of trade caused by the prevalence of plague in Bangalore and Vellore. The demand under the tax on buildings, however, remained almost stationary.

(2) The current collections under the taxes on arts and buildings and the arrear realizations under the tax on lands declined and were poor. There was a fall in the current collections under the last head also, which were extremely unsatisfactory; more than 90 per cent. of the demand remaining uncollected at the close of the year. This discreditable state of affairs is attributed by the Chairman to the prevalence of plague in Bangalore and Vellore and the consequent depression of the trade carried on by the weavers of the town, who form the bulk of the population; but the Sub-Collector thinks that most of the balance could have been easily collected had coercive processes been promptly issued. The arrear realizations under the taxes on arts and buildings improved and were fair in the former, but indifferent in the latter case. The Government trusts that vigorous measures will be adopted to realize the outstanding balances as soon as possible.

(3) There was an increase in the receipts from the sale of sweepings, but the income from tolls, market rents and fines declined, and except in the case of tolls, these variations have not been explained.

(4) The number of houses served by the private scavenging agency was 460 or two more than in the previous year, but the service was worked at a loss of Rs. 45 to the Municipal Council. In this connection the Council's attention is drawn to the remarks of the Sub Collector in paragraph 3 of his endorsement regarding its failure to collect the private scavenging fees in advance as repeatedly ordered by Government. The neglect of the Chairman in this matter is very unsatisfactory and the Government must insist on its orders being strictly carried out in future. There is considerable scope for the extension of this service, as the number of houses served by the Municipal agency is only about 14 per cent. of the number assessed to the tax on buildings. The Government trusts that the Municipal Council will not rest satisfied until all the private latrines in the town have been brought under its control.

4. *Expenditure.*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The total outlay on communications amounted to Rs. 1,191 or 69.5 per cent. of the net Municipal revenue from tolls and the roads and streets are reported by the Chairman to have been maintained in a fair order, but the Sub-Collector states that their condition was not satisfactory. Increased attention should be paid to them in the current year.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,857 or 19.7 per cent. of the receipts from taxation. Of this sum, Rs. 1,557 were spent on primary, and the remainder on secondary, education. The Municipal Council continued to maintain one secondary and seven primary schools on the salary-result system and to aid five primary schools with result grants. The attendance at these schools taken together remained almost stationary. The results of the Lower Secondary examination, though better than in the previous year, were still far from satisfactory; but those of the departmental and grant examinations continued to be good and the allotment for result grants was fully utilized. The total number of boys under instruction in the Municipal and aided schools was 612 or 44.2 per cent. of the male population of school-going age against 43.6 per cent. in the previous year and the general average of 61.8 per cent. for Municipalities in that year.

(3) *Medical Relief.*—Owing partly to the prevalence of cholera and the plague scare, the number of patients treated at the Municipal dispensary again fell from 10,344 to 7,643. The midwife employed by the Municipal Council attended 138 cases of labour or five more than in the previous year. The dispensary should be furnished with a compounding table as required in paragraph 6 (c) of the medical report.

(4) *Vaccination and Vital Statistics.*—The total number of vaccinations performed during the year rose from 852 to 892 and the quality of the work also improved slightly, the percentage of reported success being 92.5 against 91.9 in 1897-98. Infantile vaccination also showed some advance, the total number of children under one year successfully vaccinated being 630 or 33.6 per mille of the population against 530 or 31.5 per mille in the previous year. There is, however, considerable scope for improvement in this branch of the administration, as the registered birth-rate was 48.2 per mille of the population.

There was a large increase in the numbers of births and deaths registered during the year, which in the latter case is attributed to the prevalence of cholera in the town. The returns may now be regarded as fairly accurate.

(5) *Sanitation.*—Nearly 10 per cent. of the allotment under this head was allowed to lapse and the total expenditure amounted to Rs. 4,726 or 26.2 per cent. of the current receipts against 28.2 per cent. in the previous year. From paragraph 33 of the Chairman's and paragraph 6 (i) of the Medical officer's report it is observed that some improvement was effected in the sanitation of the town; but the Municipal Council should not relax its efforts in this direction until all the defects pointed out by the Sanitary officers from time to time have been remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 2,682 or 14.9 per cent. of the current receipts.

The administration of the Municipality during the year under review deteriorated in many respects and must be regarded as inefficient. The collection of taxes was indifferent, the private scavenging system was not extended, the state of the roads was not satisfactory and education received but scant attention. The Government, however, trusts that the Chairman will be able to report better results in the current year.

2. Seventeen meetings were held by the Municipal Council against 34 in the previous year and three others were adjourned for want of a quorum against two in that year. For the reasons stated in paras. 2 and 48 of the Chairman's report, the average attendance of the official members continued to be below the mark and that of the non-officials declined considerably and was indifferent.

3. Receipts (1)—The net current demand under the tax on lands rose from Rs. 297 to Rs. 365, but no explanation has been furnished for this increase ~~in~~. On the other hand, the demand under the tax on arts showed a decrease of Rs. 72, which was apparently due to the depression of trade caused by the prevalence of plague in Bangalore and Vellore. The demand under the tax on buildings, however, remained almost stationary.

(2) The current collections under the taxes on arts and buildings and the arrear realizations under the tax on lands declined and were poor. There was a fall in the current collections under the last head also, which were extremely unsatisfactory, more than 90 per cent. of the demand remaining uncollected at the close of the year. This discreditable state of affairs is attributed by the Chairman to the prevalence of plague in Bangalore and

Vellore

4

Vellore and the consequent depression of the trade carried on by the weavers of the town, who form the bulk of the population; but the Sub-Collector thinks that most of the balance could have been easily collected had coercive processes been promptly issued. The arrear realizations under the taxes on arts and buildings improved and were fair in the former, but indifferent in the latter case. The Government trusts that vigorous measures will be adopted to realize the outstanding balances as soon as possible.

(3) There was an increase in the receipts from the sale of sweepings, but the income from tolls, market rents and fines declined and except in the case of tolls, these variations have not been explained.

(4) The number of houses served by the private scavenging agency was 460 or two more than in the previous year, but the service was worked at a loss of Rs. 45 to the Municipal Council. In this connection the Council's attention is drawn to the remarks of the Sub-Collector in para. 3 of his endorsement. The neglect of the Chairman in this matter is ^{very} ~~highly~~ ~~un~~ ~~satisfactory~~ and the Government must insist on its orders being strictly carried out in future. There is considerable scope for the extension of this service, as the number of houses served by the Municipal agency is only ^{about} 14 per cent. of the number assessed to the tax on buildings. The Government trusts that the Municipal Council

will

Vide para 2 of his endorsement

regarding its failure to collect the private scavenging fees in advance as repeatedly ordered by Government.

will not rest satisfied until all the private latrines in the town have been brought under its control.

4. Expenditure (1) Public Works--No new work of any importance was undertaken during the year. The total outlay on communications amounted to Rs. 1,191 or 69.5 per cent. of the net Municipal revenue from tolls and the roads and streets are reported by the Chairman to have been maintained in a fair order, but the Sub-Collector states that their condition was not satisfactory. Increased attention should be paid to them in the current year.

(2) Education--The net expenditure under this head amounted to Rs. 1,857 or ~~19.7~~ ^{19.7} per cent. of the receipts from taxation. Of this sum, Rs. 1,557 were spent on primary, and the remainder on secondary education. The Municipal Council continued to maintain one secondary and seven primary schools on the salary result system and to aid five primary schools with result grants. The attendance at these schools taken together remained almost stationary. The results of the Lower Secondary examination, though better than in the previous year, were still far from satisfactory; but those of the departmental and grant examinations continued to be good and the allotment for result grants was fully utilized. The total number of boys under instruction in the

Municipal

Editor's Table

Municipal and aided schools was 61.2 or 44.2 per cent. of the male population of school-going age against 43.6 per cent. in the previous year and the general average of 61.8 per cent. for Municipalities in that year.

(3) Medical Relief--Owing to the prevalence of cholera and the plague scare, the number of patients treated at the Municipal dispensary again fell from 10,344 to 7,643. The Mid-wife employed by the Municipal Council attended 138 cases of labour or five more than in the previous year. The dispensary should be furnished with a compounding table as required in para. 6 (c) of the Medical report.

*Vide para 29 of the report
& para 6 (f) of the medical report*

(4) Vaccination and Vital Statistics--The total number of vaccinations performed during the year rose from 852 to 892 and the quality of the work also improved slightly, the percentage of ~~no~~ reported success being 92.5 against 91.9 in 1897-98. Infantile vaccination also showed some advance, the total number of children under one year successfully vaccinated being 630 or 33.6 per mille of the population against 590 or 31.5 per mille in the previous year. There is, however, considerable scope for improvement in this branch of the administration, as the registered birth rate was 43.2 per mille of the population. *P* There was a large increase in the numbers of births and deaths registered during the year, which in the latter

case

Vide para 35 of the report

case is attributed to the prevalence of cholera in the town. The returns may now be regarded as fairly accurate.

(5) Sanitation--Nearly 10 per cent. of the allotment under this head was allowed to lapse and the total expenditure amounted to Rs. 4,726 or 26.2 per cent. of the current receipts against 28.2 per cent. in the previous year. From para. 38 of the Chairman's and para. 6(i) of the Medical officer's report it is observed that some improvement was effected in the sanitation of the town; but the Municipal Council should not relax its efforts in this direction until all the defects pointed out by the Sanitary officers from time to time have been remedied.

5. General Remarks--The year closed with a balance of Rs. 2,682 or 14.9 per cent. of the current receipts.

The administration of the Municipality during the year under review deteriorated in many respects and must be regarded as inefficient. The collection of taxes was indifferent, the private scavenging system was not extended, the state of the roads was not satisfactory and education received but scant attention. The Government, however, trusts that the Chairman will be able to report better results in the current year.

Statement I.—Revenues and Receipts of the Municipal Fund of the Town
of *Gudugattoru*, during the official year 1898-99—*cont.*

NOTE TO STATEMENT I.

1. Tax on arts, &c., is levied on ^{the first} all classes.
2. Tax on buildings is levied at 5 per cent. and tax on lands at ⁵ per cent. of ~~rent value~~ *gross income*.
3. Water-tax on buildings and lands is levied at — per cent. *annas 0.3 for every 80 square yards. uncultivated land*
4. Tax on vehicles and animals is levied at ^{4 per annum} *full* the maximum rates.
5. Tax on carts, &c., is levied at Rs. 3 per cart. per annum.
6. Tolls are levied at *half* the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. *20/165 dt 22.11.86, 403 dt 10.4.89, 151 dt 28.1.90*
8. The house-tax registers were last revised in the official year *1898-99* and the land tax registers in the official year. *98-99*
9. Total extent of land assessed is *276 acres. & 33 cents.*
10. The mode of estimating the annual rental of houses and lands is as follows :—

The annual rental of houses is estimated on the probable amount that may be realized if the houses are not actually let on for rent. In fixing such annual rent due consideration is given to the importance of locality of houses in which they are situated and the materials with which they are built.

In the Cases of assessed lands the estimated value of the gross produce after deducting the cultivation & expenses is taken as the annual rental.

In the Cases of lands unoccupied by houses the tax of 3 piers on ev.
80 sq yds is charged.

28/ *John*
Chairman

Statistics in the *Spidigattum* Municipality for 1898-99

Number of Schools.	1899. Number of pupils on 31st March.		REMARKS.
	Boys.	Girls.	
1	65	-	Secondary schools showed a decrease of 8 pupils.
7	378	-	The number of municipal Primary schools remained the same as in the preceding year viz 5 for Hindu and two for Muhammadans, but the attendance in-creased by 9 pupils.
5	169	1	Hindu schools advanced in strength by 3 pupils.
12	350	3	Unaided and indigenous schools remained stationary in regard to their number but fell off in attendance by 35 pupils.
25	962	4	On the whole the number of schools was the same for both years but the number of pupils declined by 31. This decrease was due to the prevalence of Cholera of a severe type for several months in the town.

Financial or Local (or Municipal) according as it has received a larger grant from Provincial or Local (or Municipal) Funds.

Municipal Councils concerned before the 1st May.
