*Proceedings of the Madras Government, Financial Department,
8th April 1873.*

No. 48. Read the following letter from the President of the Municipal Commission, Bellary, to the Chief Secretary to Government, Fort St. George, dated Bellary, 29th March 1873, No. 27:—

The Vice-President of the Bellary Municipality has addressed me to the effect that the boundaries of the Municipality are at present ill-defined, and that, for some time past, the question of clearly defining and rectifying them has been under the consideration of the Commissioners.

2. These boundaries are specified in the *Fort St. George Gazette*, dated 27th August 1867, page 718.

3. The villages of Dhangarhatty and Gowlerhatty will be included entirely by the new demarcation. At present they are partly within and partly without the municipal limits.

4. Regarding the former village, the Deputy Inspector-General of Hospitals, Indian Medical Department, Mysore Division and Ceded Districts, made the following remarks in his last Inspection Report:—"In connexion with the lines of the three Native Corps, I would again direct attention to the village of Dhangarhatty, which is certainly a nuisance. It is most filthy, and the Officer Commanding 2nd Light Cavalry informs me that, when the wind sets from that direction towards the lines of his regiment, the air is appreciably tainted. This village should be brought either under municipal or military control, and its better conservancy be enforced."

5. The latter village is so surrounded with prickly-pear that the houses are scarcely visible to a passer by, and as it lies between the towns of Bruce Pettah and Cowle Bazaar, and is inhabited chiefly by the milkmen who supply these towns, it is most desirable that it should be handed over to the Municipality for sanitary purposes.

6. I beg to enclose a sketch map; the only change in the boundaries is on the south, where the nullah is to be the limit instead of the old cantonment boundary.

7. I enclose draft of a notification to be issued under Section 5 of Act III. of 1871, and I request that it may be published in the *Fort St. George Gazette*. It differs from the original one only so far that stones having been put down the actual distances between each are accurately given, and the description made altogether more simple.

No. 49. ORDER THEREON, 8th April 1873, No. 475.

The proposed new definition of the boundaries of the Bellary Municipality is approved, and the Draft Notification submitted will be published in the *Fort St. George Gazette*.

NOTIFICATION.

Under Section 5 of Act III. of 1871, the Right Honourable the Governor of Fort St. George in Council, in modification of so much of the notification published
