SEPTEMBER.

Administration Report.

Reviewing the — of the Tanjore Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From M.R.Ry. V. A. VANDAYAR Avargal, Chairman, Municipal Council, Tanjore, to the Secretary to Government, Local and Municipal Department (through the Divisional officer, Tanjore), dated Tanjore, 12th July 1899, Cur. No. 535-Eng.

I have the honour to submit the Administration Report of this municipality for 1898–99 accompanied by the prescribed statements.

2. The report was adopted by the Council at its meeting held on 5th July 1899.

3. The accounts of the year under report have not been audited yet.

I.—Constitution of the Municipal Council.

4. The maximum strength of the Municipal Council is 24, of whom 5 are nominated and 18 are elected and 1 is the Divisional officer, who is also the ex-officio councillor. There were during the year under report three vacancies among the nominated councillors, of which only two were filled up within the year. Out of the twelve vacancies among the elective seats ten were filled up during the year. The number of registered voters was 1,195 against 1,973 of the previous year.

5. I was in charge of the municipal administration throughout the year, except from 7th May up to 26th July 1898, when the Divisional officer was ex-officio Chairman.

6. The total number of meetings held during the year was 61, of which 4 were adjourned for want of quorum. The average attendance of the councillors is compared below with that of the previous year.

	1897–98.	1898–99.
Officials	3	2
Non-officials	9	11
Average attendance	12	13

II.—Receipts.

7. The opening balance, receipts and charges and the closing balance for the year under report are given below :—

	RS.	A.	P.
Opening balance	36,674	13	2
Receipts	1,00,575	9	6
Total ...	1,37,250	6	8
Charges	1,06,763	2	9
Closing balance	30,487	3	11
Total ...	1,37,250	6	8

8. The balance on the 31st March 1899, as per treasury pass book, was Rupees 41,858–0–8, while, according to the municipal books, it amounted to Rs. 41,031–11–2, including amounts deposited by contractors, &c., Rs. 10,544–7–3. The difference is due to the cheques to the extent of Rs. 826–5–6 remaining uncashed at the close of the year.

9. Such items of receipts as call for remarks are noticed below.

10. *Tax on Arts.*—The Chairman's assessment for the year 1898–99 amounted to Rs. 6,543, of which Rs. 518–8–0 was remitted by the Council on appeal, leaving a settled demand of Rs. 6,024–8–0 due from 1,761 persons as against Rs. 7,531 due from 2,097 persons in 1897–98. The decrease in the Chairman's assessment is due chiefly to the following facts :—

(1) Two hundred and thirty persons in the last class, who had been assessed previously, had to be exempted.

(2) The South Indian Railway Company was not assessed as per G.O., No. 1201, dated 6th July 1898, and the Government Press as per Board's Proceedings, No. 190, Land Revenue, dated 19th July 1898.

(3) Some of the assessees on the highest class ceased to exercise their profession during the year under report.

11. Of the current demand of Rs. 6,024, Rs. 5,063 or 84 per cent. was collected and Rs. 1–8–0 written off during the year, leaving a balance of Rs. 960. The balance is accounted for as follows :—

	RS.	A.	P.
Since collected	458	0	0
Since remitted	81	0	0
Amount due from officers on circuit such as Engineers, &c., who object to pay on the ground that they did not exercise their profession for 60 days	52	8	0
Amount to be collected	368	8	0
Total ...	960	0	0

12. Out of the arrear demand of Rs. 1,964–1–0, Rs. 622–3–0 was collected, Rs. 141 remitted by the Council on appeals pending from the previous year and Rs. 695–1–0 written off, leaving a balance of Rs. 505–13–0. Of this, Rs. 25 have since been collected, Rs. 119–8–0 remitted, and Rs. 75 is under objection.

13. *House-tax—Current.*—The settled demand under this head was Rupees 22,481–13–0 against Rs. 22,043 in the previous year. The increase is due to new assessments made on new or improved buildings. Of the settled demand, Rupees 19,874–14–0, or 88·40 per cent. was collected and Rs. 85–14–6 written off, leaving a balance of Rs. 2,521–0–6. The amount since collected comes to Rs. 951 and since written off to Rs. 250. Remission lists for Rs. 350 are under scrutiny of the Secretary and Councillors.

14. *House-tax—Arrears.*—The demand under this head amounted to Rs. 2,740–0–3. Of this, Rs. 1,405–5–0 were collected and Rs. 559–11–9 remitted and written off, leaving a balance of Rs. 774–15–6. Subsequent collections amounted to Rs. 58 and remissions to Rs. 167.

15. *Land Tax—Current.*—The demand under this head amounted to Rupees 3,191–3–0. Of this, a sum of Rs. 1,990–15–6 was collected during the year and Rs. 46–9–0 written off, leaving a balance of Rs. 1,153–10–6 or 36·13 per cent. Subsequent collections amounted to Rs. 295 and writes off to Rs. 93.

16. *Land Tax—Arrears.*—The demand under this head amounted to Rs. 2,220. Of this, Rs. 333–14–0 was collected and Rs. 439–9–0 remitted, leaving a balance of Rs. 1,446–9–0. Of this amount, Rs. 720 are in deposit pending the decision of an appeal presented by the Receiver and Manager, Palace Estate.

36. *Training Schools.*—Two teachers of the Panchama class were trained in the Government school at a cost of Rs. 131-1-8. There were nine teachers in the sessional school, and the expenditure under this head by way of bonus, &c., to the Inspecting schoolmaster amounted to Rs. 25.

1. Putnoolkara School	1
2. Muhammadan do.	1
3. Panchama Schools	3

37. *Salary-result System Schools.*—As in the previous year, there were five schools under the direct management of the municipality for educating the backward classes of the public as per margin.

The average attendance in all the schools improved during the year as shown below :—

	1897-98.	1898-99.
Muhammadans	61	67
Silk weavers	99	110
Panchamas	147	157

The upkeep of these schools cost the municipality Rs. 1,397 against Rs. 1,491 of the previous year.

38. *Salary Grant Schools.*—The number of schools aided during the year was eight as in the previous year, and the expenditure on them amounted to Rs. 2,667 against the revised estimate of Rs. 2,400. The extra expenditure is due to the payment of grants to Kalyanasundram Middle School for which no provision was made in the budget.

39. *Result Grants.*—The number of schools aided under this system was 38 against 39 of the previous year. The expenditure under this head was Rs. 5,000.

40. *Sanitation and Medical Service.*—There are two dispensaries maintained by the municipality at its cost. The expenditure on them was Rs. 2,505 against a provision of Rs. 2,380. The increase is due to the cost of the English medicines supplied last year having been paid during the year under report. Further, a sum of Rs. 2,000 is paid as contribution to the Local Boards for the maintenance of the Raja Mirasidar Hospital at Tanjore. The inconvenience arising from the Municipal Hospital Assistants being drawn off for work during certain nights in the Raja Mirasidar Hospital under the orders of the District Medical and Sanitary officer is felt by the residents at Karuthattangudy and Manambuchavady, who are deprived of the services of the medical officers in emergent cases. The subject is under correspondence with Government.

41. *Contribution to Provincial funds.*—A sum of Rs. 278 was paid to the Provincial funds on account of the cost of sanitary inspection during the year.

42. *Midwives.*—There are two midwives attached to the two dispensaries maintained by the municipality. The number of labour cases attended upon by them has somewhat fallen during the year.

43. *Vaccination.*—The two vaccinators employed by this municipality vaccinated successfully 1,763 cases as against 1,738 in the previous year.

44. *Registration.*—The number of births and deaths during the year was 1,792 and 1,351, respectively, against 1,505 and 1,459 in the previous year. There is no reason to suppose that the registration was in any way defective.

45. *Deaths.*—The causes of 1,351 deaths are hereunder distributed and compared with those of the previous year.

	1897-98.	898-99.
Cholera	284	118
Small-pox	9	13
Fevers	243	194
Bowel complaints	290	254
All other causes	633	772

46. *Conservancy.*—A sum of Rs. 7,440-12-7 was spent in maintaining the establishment against a provision of Rs. 8,430 in the revised estimate. The decrease is due partly to deductions made from the pay of the absentees, and partly

to hands not being readily available for employment at the lowest rates of the sanctioned scale. The amount actually spent in the hire of carts for removing rubbish drain-silt and night-soil, &c., was Rs. 9,174. But the budget provision amounted to Rs. 9,150 including Rs. 750, the estimated cost of making five night-soil carts. During the year, however, only three night-soil carts were made at a cost of Rs. 405, the savings of Rs. 345 having been absorbed in paying the unprecedentedly high rates of hire at Rs. 19 for each rubbish cart with a pair of bullocks alone for each night-soil cart. The high rates of hire are partly due to the novelty of the depot system under which the contractor was required to carry the rubbish, night-soil, &c., and store them in a depot appointed by the municipality for being sold according to circumstances.

47. *Private scavenging.*—Under this head a sum of Rs. 1,314-9-8 was spent against the revised estimate of Rs. 1,360.

48. *Steps taken to improve the sanitary condition of the town.*—During the year under report two very narrow lanes, viz., the Samanthankulam and the lane behind Kamakshi Amman koil, which were freely resorted to by the people for committing nuisance, were widened or otherwise improved at the aggregate cost of Rs. 332-4-8. For improving the drainage of the fort and for opening a sewage farm in connection with it, the Government has sanctioned the raising of the loan of Rs. 33,000 in the open market. Steps are being taken to raise the loan and to carry out the work.

A big latrine has been opened in the east main street on the advice of the District Medical and Sanitary officer.

Flushing of the drains is systematically done.

At a considerable expenditure to the municipality the depot system, under which the town rubbish, &c., was accumulated in one place and sold by the municipality direct, was tried during the year under report. It was, however, abandoned during the current year, as it proved a failure from a financial point of view.

The water of the Sivaganga tank continued to be used by a small section of the public for drinking purposes, notwithstanding the supply of pipe water in abundance. To wean the public gradually from the use of the former source of supply, nearly half the number of cisterns constructed over the under-ground conduits from the tank to several important streets of the Fort have been covered over permanently with granite stones. The other cisterns also will be closed shortly.

Some of the tanks outside the Fort, the water of which is used for drinking purposes, were conserved carefully by watchmen appointed for the purpose. One tank, Sannasikulam, has been permanently closed for public use. During the prevalence of cholera some public tanks (Guziliankulam, Marathiankulam and Thulukankuttai) and wells were temporarily closed for public use, while during the whole year some reserved for bathing purposes were carefully watched against other kinds of pollution.

49. *Epidemic Charges—Cholera and Plague.*—Rs. 3,757-15-2 were spent against a provision of Rs. 3,100 in the revised estimate.

50. Cholera was first imported into the town on 23rd September 1898. Immediate steps were taken to check the spread of the disease through the Chief Sanitary Inspector, who is an Hospital Assistant, and on the advice of the District Medical and Sanitary Officer a toty and a ward cooly were appointed. The disease [illegible]red in a sporadic form up to 9th October 1898, during which period only five fatal cases occurred. It broke out afresh from 8th December 1898, when observation and preventive staffs were entertained and the full complement of cholera staff except the divisional inspectors was working from 22nd December 1898 to the close of the year.

51. There was no change in the Plague establishment or in its working during the year under report.

52. *Grant 4—Lighting and Miscellaneous.*—The expenditure under this head amounted to Rs. 12,968–2–4 against the provision of Rs. 12,540 in the revised estimate.

53. *Lighting.*—There was no change in the working of this department. Under contingency the expenditure fell short of the revised amount by Rs. 310 mainly owing to the cheaper price paid for the oil. Twenty new lights were provided during the year.

54. *Public Gardens.*—There was only one public garden called the Sivaganga garden maintained at a cost of Rs. 711. The Fort ditch garden is purely an agricultural one and is intended more for profit than for pleasure. A sum of Rs. 453 was paid to Government as assessment thereon. The Council decided at its meeting, dated 15th March 1899, that the income arising from Endowment Fund of the People's Park should be utilised by the municipality for improving municipal gardens. The matter is under correspondence with the Government.

55. *Survey of Lands.*—A field party was engaged during the year in the survey of the town. The records of the survey have not yet been made over to the municipality. Two temporary inspectors were entertained in order to watch the municipal interests and bring to the notice of the survey authorities, encroachments, etc., made on municipal lands. A sum of Rs. 140 was paid as the cost of survey stones on Tahsildar's bills.

56. *Other Charges.*—A sum of Rs. 4,073–9–0 has been spent for laying service pipes to houses for domestic purposes. The increased expenditure under stationery and printing is due to payment of arrears of the previous year.

57. *Repayment of Loan.*—A sum of Rs. 6,316–10–8 was paid to Government as the fourth instalment towards the principal and Rs. 7,248–6–0 as interest thereon.

58. The statements of the Assistant Inspector of Schools and the concise medical report with my remarks thereon are herewith submitted.

ENCLOSURE.

CONCISE Annual Report on the working of the Municipal Dispensaries of Tanjore for 1898–99.

1. *Public Health.*—The general health of the people was on the whole good except for cholera. This disease which was prevalent in the town in January, February and March 1898, almost abated in April 1898. Only eight cases occurred in a sporadic form from April to July. There were no cases in August, but on 23rd September it again broke out in Palliagraharam and continued in a sporadic form till 9th October, causing 14 deaths, when it ceased to exist. The first case that occurred was a woman, a resident of Palliagraharam. It was learnt on enquiry that she did not visit any other place. In my opinion the sudden outbreak was due to the local geographical conditions, want of drainage, and the water-supply from the river, which are favorable conditions to the outbreak. There were no cases from 10th October to 7th December, but on the 8th it again broke out in an epidemic form and continued till the end of March 1899. The first case was a labourer, a resident of Karunthattangudi. He was attacked while at work, and before he was brought home he was in a collapsed stage. The cause of this attack is obscure, but, as it occurred in the same division as the case in September, I am inclined to attribute it to the same cause.

The total number of attacks and deaths reported from April 1898 to March 1899 was 203 and 118 respectively. From 1st April to June and from September to October 1898, observation staff was employed, and in December, when the disease broke out in an epidemic form, full staff was appointed with reference to G.O., No. 1536 M., dated 9th December 1896. The chief Sanitary Inspector of the town and the hospital assistants attached to the municipal dispensaries were directed to supervise the work of the staff.

The observation staff entertained in the previous year to examine all passengers arriving from plague-infected areas continued to work throughout the year.

2. *Vital Statistics.*—The total number of births registered during the year was 1,792, giving a percentage of 32·95 per mille against 1,505 and 27·65, respectively, in the previous year. The total number of deaths for the year was 1,351 or 24·84 per mille against 1,459 and 26·97 in 1897–98. The increase in the number of births during the year shows that the births were

2. The Municipal Council held 57 meetings or two more than in the previous year. The average attendance of non-official members improved and was fair; but that of officials declined and was indifferent. Ten seats were filled by election during the year and eight of these were contested, 70·2 per cent. of the registered voters attending the poll.

3. *Receipts.*—(1) The number of persons assessed to the tax on arts and professions and the net current demand under this head again fell from 2,119 and Rs. 7,531, respectively, to 1,786 and Rs. 6,024, the decline being explained in paragraph 10 of the Chairman's report. Nearly 8 per cent. of the original demand under this tax was again remitted by the Municipal Council on appeal. Such heavy remissions indicate either that the Chairman's assessments were heavy or that the Council was unduly lenient in disposing of appeals. The latter presumption would, however, receive support from the fact that the incidence of the tax was only Rupees 3–6–0 against Rs. 3–8–11 in 1897–98 and a general average of Rs. 3–13–9 for Municipalities in that year. Under the house and water taxes the demand rose by Rs. 439 and Rs. 5,055, respectively, owing in the latter case to the enhancement of the rate of the tax from 4 to 6 per cent. of the annual value, while under the land-tax it declined by Rs. 55. The result of the revision of the house-tax registers, referred to in paragraph 25 of the Chairman's report, should be reported to Government at an early date.

(2) The current collections under the principal taxes improved. They were fair under the arts, house and water taxes, but still poor under the land-tax. The arrear realizations under all these heads continued to be very unsatisfactory. The explanation of these shortcomings given in paragraph 25 of the Chairman's report cannot be considered adequate. There was again a large balance of Rs. 11,198 outstanding at the end of the year, the arrears dating in some cases as far back as 1893–94. The continuance of this state of things, notwithstanding the remarks of Government in the reviews of the reports for the three previous years, is not creditable to the Municipal administration. The Chairman states that the necessary steps will be taken to adjust the outstanding balance. The communication on this subject promised in paragraph 26 of his report is awaited.

(3) Notwithstanding the backward state of the collections above referred to, there was a large decline in the number of warrants issued during the year and more than one-fourth of the total number for disposal remained unexecuted on the 31st March 1899. This points to great laxity on the part of the Municipal executive and should not be allowed to continue.

(4) The receipts from the taxes on vehicles, animals and carts, and from fees under Act II of 1888, produce of lands, fines and tolls advanced, the increase which was most marked under the last head being due to the enhancement of the rate from three-fourths to the maximum. On the other hand the income from the sale of sweepings, license fees, market rents, slaughter-house fees and cart-stand fees fell off. The decline under the last three heads is explained in paragraph 22 of the Chairman's report; but that in the remaining cases has not been accounted for, an omission which should now be supplied.

(5) The number of houses served by the private scavenging agency fell from 1,167 to 1,114. The receipts from this source, however, rose from Rs. 1,433 to Rs. 1,932, and the service was worked at a profit of Rs. 617 to the Council against Rs. 484 in the previous year. The Municipal Council should do all it can to extend the system, which is capable of considerable expansion, seeing that it is now adopted by only about 10 per cent. of the number of houses assessed to the tax on buildings. The service might be made more attractive, if the profit accruing from this source be utilized towards its improvement. The orders of Government requiring the collection of these fees in advance should be strictly followed in future.

4. *Expenditure*—(1) *Public Works.*—The only new work of importance under execution during the year was the construction of the drivers' quarters at the water-works pumping station, which were commenced in 1897–98 and on which an expenditure of Rs. 4,265 was incurred up to the 31st March 1899. The total outlay on communications amounted to Rs. 8,389 or 43·4 per cent. of the net Municipal income from tolls against the minimum of 50 per cent. prescribed by Government, the short expenditure being due to a portion of the allotment under this head having been reserved for expenditure on plague. The roads are, however, reported by the Revenue Divisional officer to have been in good order.

(2) *Education.*—The net expenditure under this head amounted to Rs. 9,790 or 13·5 per cent. of the receipts from taxation. Of this sum, Rs. 2,667 were spent on secondary, and the remainder on primary, education. As in the previous year, the Municipal Council maintained five primary schools on the salary-result system, three of which were for Panchamas and one for Muhammadans, and aided eight secondary schools with salary grants. Thirty-eight primary schools were also aided with result grants against 39 in the previous year. Taken together the attendance at these institutions showed an improvement. The working of the salary grant schools was on the whole fair. The results of the departmental and grant examinations continued to be good and the allotment for result grants was fully utilized. The total number of boys under instruction in the Municipal and aided schools was 3,485 or 89·6 per cent. of the male population of school-going age against 3,296 or 84·7 per cent. in the previous year. More than one-fifth of the number of teachers employed in the aided primary schools were entirely unqualified. Early steps should be taken to reduce this large proportion.

(3) *Medical Relief.*—The total number of patients treated at the two Municipal dispensaries rose from 23,019 to 23,416. But the two midwives attached to these institutions attended only 180 cases of labour against 197 in the previous year. The work of one of these, which is reported by the District Medical and Sanitary Officer to have steadily declined, should be closely supervised in future. The attention of the Municipal Council is drawn to the remarks of the Medical officer in paragraph 5 (*b*) and (*c*) of his report regarding the unsuitableness of the buildings in which the dispensaries are at present located and the state of the furniture in one of them.

(4) *Vaccination and Vital Statistics.*—The total number of vaccinations performed during the year was 1,802 or 23 less than in 1897–98, but 97·8 per cent. of the operations were successful against 95·2 per cent. in that year. Infantile vaccination showed a slight improvement, the number of children under one year successfully vaccinated being 1,048 or 19·3 per mille of the population against 1,026 or 18·9 per mille in the previous year; but to be satisfactory the number should approach the registered birth-rate which was 32·9 per mille. Greater attention should be paid to this branch of the administration in future.

The number of births registered during the year rose from 1,505 or 27·7 per mille of the population to 1,792 or 32·9 per mille; but that of deaths fell from 1,459 or 26·8 per mille to 1,351 or 24·8 per mille, the decline being ascribed to the number of deaths from cholera having been less than in the previous year. The rates recorded in both cases being considerably below the normal, it is evident that registration is still very defective. This is not a matter for surprise, as not a single prosecution was instituted during the year for failure to report occurrences of births and deaths. This subject has evidently been greatly neglected and should receive proper attention.

(5) *Sanitation.*—Owing chiefly to the full complement of the conservancy staff not having been employed, the outlay under this head fell short of the allotment by 9·5 per cent. The expenditure, however, amounted to Rs. 21,913 or 21·8 per cent. of the current receipts against Rs. 18,361 or 19·4 per cent. in 1897–98. The Government is glad to observe from paragraph 48 of the Chairman's report that some steps were taken to improve the sanitation of the town, but as cholera was again prevalent and caused as many as 118 deaths, it is evident that this subject still demands the earnest attention of the Municipal Council. The Council should not therefore rest satisfied until all the defects noticed by the Sanitary Commissioner from time to time and by the District Medical and Sanitary Officer in paragraph 3 of his report have been remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 30,487 or 30·3 per cent. of the receipts; but the greater portion of this sum is reserved for expenditure on the extension of the water works.

R
a

The administration of the Municipality during the year cannot still be considered satisfactory. The collection of taxes, the extension of the private scavenging system, vaccination, registration of vital statistics and sanitation require increased attention.

The Government trusts that the Chairman and the Secretary will spare no pains to effect a decided improvement in these directions in the current year.

G.O., No. 1257 M., 2nd September 1899.

SEPTEMBER.

Administration Report.

Reviewing the — of the Tanjore Municipal Council for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From M.R.Ry. V. A. Vandyar Avargal, Chairman, Municipal Council, Tanjore, to the Secretary to Government, Local and Municipal Department (through the Divisional officer, Tanjore), dated Tanjore, 12th July 1899, Cur. No. 535-Eng.

I have the honour to submit the Administration Report of this municipality for 1898–99 accompanied by the prescribed statements.

2. The report was adopted by the Council at its meeting held on 5th July 1899.

3. The accounts of the year under report have not been audited yet.

I.—Constitution of the Municipal Council.

4. The maximum strength of the Municipal Council is 24, of whom 5 are nominated and 18 are elected and 1 is the Divisional officer, who is also the ex-officio councillor. There were during the year under report three vacancies among the nominated councillors, of which only two were filled up within the year. Out of the twelve vacancies among the elective seats ten were filled up during the year. The number of registered voters was 1,195 against 1,973 of the previous year.

5. I was in charge of the municipal administration throughout the year, except from 7th May up to 26th July 1898, when the Divisional officer was ex-officio Chairman.

6. The total number of meetings held during the year was 61, of which 4 were adjourned for want of quorum. The average attendance of the councillors is compared below with that of the previous year.

	1897–98.	1898–99.
Officials	3	2
Non-officials	9	11
Average attendance	12	13

II.—Receipts.

7. The opening balance, receipts and charges and the closing balance for the year under report are given below :—

	RS.	A.	P.
Opening balance	36,674	13	2
Receipts	1,00,575	9	6
Total ...	1,37,250	6	8
Charges	1,06,763	2	9
Closing balance	30,487	3	11
Total ...	1,37,250	6	8

8. The balance on the 31st March 1899, as per treasury pass book, was Rupees 41,858-0-8, while, according to the municipal books, it amounted to Rs. 41,031-11-2, including amounts deposited by contractors, &c., Rs. 10,544-7-3. The difference is due to the cheques to the extent of Rs. 826-5-6 remaining uncashed at the close of the year.

9. Such items of receipts as call for remarks are noticed below.

10. *Tax on Arts.*—The Chairman's assessment for the year 1898–99 amounted to Rs. 6,543, of which Rs. 518-8-0 was remitted by the Council on appeal, leaving a settled demand of Rs. 6,024-8-0 due from 1,761 persons as against Rs. 7,531 due from 2,097 persons in 1897–98. The decrease in the Chairman's assessment is due chiefly to the following facts :—

(1) Two hundred and thirty persons in the last class, who had been assessed previously, had to be exempted.

(2) The South Indian Railway Company was not assessed as per G.O., No. 1201, dated 6th July 1898, and the Government Press as per Board's Proceedings, No. 190, Land Revenue, dated 19th July 1898.

(3) Some of the assessees on the highest class ceased to exercise their profession during the year under report.

11. Of the current demand of Rs. 6,024, Rs. 5,063 or 84 per cent. was collected and Rs. 1-8-0 written off during the year, leaving a balance of Rs. 960. The balance is accounted for as follows :—

	RS.	A.	P.
Since collected	458	0	0
Since remitted	81	0	0
Amount due from officers on circuit such as Engineers, &c., who object to pay on the ground that they did not exercise their profession for 60 days	52	8	0
Amount to be collected	368	8	0
Total ...	960	0	0

12. Out of the arrear demand of Rs. 1,964-1-0, Rs. 622-3-0 was collected, Rs. 141 remitted by the Council on appeals pending from the previous year and Rs. 695-1-0 written off, leaving a balance of Rs. 505-13-0. Of this, Rs. 25 have since been collected, Rs. 119-8-0 remitted, and Rs. 75 is under objection.

13. *House-tax—Current.*—The settled demand under this head was Rupees 22,481-13-0 against Rs. 22,043 in the previous year. The increase is due to new assessments made on new or improved buildings. Of the settled demand, Rupees 19,874-14-0, or 88·40 per cent. was collected and Rs. 85-14-6 written off, leaving a balance of Rs. 2,521-0-6. The amount since collected comes to Rs. 951 and since written off to Rs. 250. Remission lists for Rs. 350 are under scrutiny of the Secretary and Councillors.

14. *House-tax—Arrears.*—The demand under this head amounted to Rs. 2,740-0-3. Of this, Rs. 1,405-5-0 were collected and Rs. 559-11-9 remitted and written off, leaving a balance of Rs. 774-15-6. Subsequent collections amounted to Rs. 58 and remissions to Rs. 167.

15. *Land T[illegible]—Current.*—The demand under this head amounted to Rupees 3,191-3-0. Of [illegible]is, a sum of Rs. 1,990-15-6 was collected during the year and Rs. 46-9-0 wr[illegible]en off, leaving a balance of Rs. 1,153-10-6 or 36·13 per cent. Subsequent coll[illegible]ns amounted to Rs. 295 and writes off to Rs. 93.

16. *L[illegible] Tax—Arrears.*—The demand under this head amounted to Rs. 2,22[illegible] of this, Rs. 333-14-0 was collected and Rs. 439-9-0 remitted, leaving a balance [illegible]Rs. 1,446-9-0. Of this amount, Rs. 720 are in deposit pending the decisi[illegible] an appeal presented by the Receiver and Manager, Palace Estate.

17. *Water-tax on buildings—Current.*—The demand under this head amounted to Rs. 17,982–1–0, of which Rs. 15,671–0–6, or 87·15 per cent., was collected and Rs. 69–12–6 written off, leaving a balance of Rs. 2,241–4–0. Of this amount Rs. 758 has since been collected and Rs. 192 remitted. The increased demand of Rs. 6,081–5–6 over that of the previous year is due to general enhancement of water-tax from 4 to 6 per cent. as per G.O., No. 630 M., dated 22nd March 1898.

18. *Water-tax on buildings—Arrears.*—Out of the demand of Rs. 1,645–14–9, Rs. 938–10–3 was collected and Rs. 289–4–9 written off during the year, leaving a balance of Rs. 417–15–9 at its close. A sum of Rs. 39 has since been collected and Rs. 69 remitted.

19. *Water-tax on lands—Current.*—The demand under this head was Rupees 718–4–0 against the demand of Rs. 1,744–5–0 in the previous year. The decrease is due to the exemption of agricultural lands from water taxes as per section 75 of the Municipal Act. The amount collected is Rs. 281–5–0 and the amount written off Rs. 6–1–0, leaving a balance of Rs. 430–14–0.

20. *Water-tax on lands—Arrears.*—The demand under this head was Rupees 1,146–3–6, of which Rs. 175–6–0 were collected and Rs. 225–9–0 written off, leaving a balance of Rs. 745–4–6. The amount since collected is Rs. 90–7–0.

21. The tolls were farmed out for Rs. 29,135 as against Rs. 25,250 in the previous year. The whole of this amount was collected during the year together with Rs. 64 on account of interest on instalments not paid on due dates. The one-third contribution to the Local Boards was duly paid. The increase in the demand is due to the enhancement of toll fees during the year to the maximum rates leviable under the Act.

22. *Markets, Slaughter-house and Cart-stand.*—The aggregate revenue under these heads fell short of the last year's amount by about Rs. 900. The decrease is partly due to the low bids secured for the butcher stalls and vegetable market, cart-stand, &c., and partly to the fall in collection of fees from the petty bazaars of the Big market under amani system for want of bidders with reasonable offers. The balance under the head of Market Rooms rent is Rs. 184, which amount is likely to be realized shortly.

23. *Private Scavenging Fees.*—The total number of houses served during the year was 1,114, showing 53 houses less than the number served in the previous year. The fees collected amounted to Rs. 1,932–4–10 against Rs. 1,433 in the previous year. There has been an appreciable improvement in the collection of the fees during the year. The people still complain of advance payments, and this objection can be got over only in course of years. As there have been some savings in the collection over the working expenses during the last two years, the Council intend employing additional totties. The service rendered by the additional totties will induce the people to pay the fees in advance, and it is hoped that there will not be much difficulty in the collection of the fees in advance which is now being felt.

24. *Coercive processes.*—The number of warrants that remained unexecuted at the beginning of the year for the recovery of the principal items of revenue was 3,011, and the number issued during the year was 986 making up a total of 3,997. Of these 2,863 warrants have been executed or cancelled within the year and 270 subsequently.

25. The collection has improved under all heads of revenue under current during the year. The Secretary was engaged for four months from November up to February 1899 in revising the house-taxes in the fort, consisting of four sections with more than 4,200 houses. In March 1899 eight out of twelve bill collectors were deputed to work with the councillors appointed by the Council to revise the house-taxes in the remaining eight sections. This revision work has affected the collection work to some extent. As has been reported in paragraphs 16 and 23 of the previous year's administration report, the collection of house and land taxes is attended with difficulties owing to inequitable assessments and the absence of landholders outside the municipal limits.

26. The work of writing off the arrears of previous years is necessarily slow, as the Secretary has to scrutinize the remission lists by careful inquiry on the spot before placing the same before the Council through councillors. But it will be seen that the amounts outstanding in previous years have decreased, and every effort will be made to clear off the old arrears before the end of September next when a special report on the subject will be submitted to Government.

27. *Incidence of taxation.*—The incidence of taxation inclusive of tolls was, for the year under report, Rs. 1–5–3 per head of population as against Rs. 1–4–8 in the previous year. The incidence of income per head of population was Rs. 1–13–7 as against Rs. 1–11–10 of the previous year. The increase in the incidence of taxation and income is due to the increased demand under tolls and water-tax.

III.—Expenditure.

28. The total expenditure under all heads was Rs. 1,06,763, which, classified, stands as below :—

	RS.
Grant 1	33,096
„ 2	10,180
„ 3	27,957
„ 4	12,968
„ 5	8,268
Extraordinary and debt, &c.	14,294
Total ...	1,06,763

29. *Grant 1, Public Works—New Works—Communications.*—The expenditure under this head amounted to Rs. 626–15–3 against the revised estimate of Rs. 500. The increase is due to payment of Rs. 226 as compensation for land taken up for the improvement of Samandankulam lane.

30. *Water-supply.*—The expenditure under this head amounted to Rupees 1,357–2–3 against the budget provision of Rs. 570. The increase is due to the payment, during the year, of Rs. 709–13–10, which remained outstanding for the construction of drivers' quarters. Out of the sum of Rs. 27,000 allotted for the extension of water-works, only Rs. 76–6–2 were spent, as the work itself was begun in the month of March 1899 under the supervision of the Sanitary Engineer.

31. *Repairs—Communications.*—The expenditure under this head amounted to Rs. 7,762 against Rs. 8,900 provided in the revised estimate. There is a lapse of more than Rs. 1,000 under this head, as the works in the marginally-noted streets were not carried out during the year under report. The execution of these works was kept in abeyance with a view of having a reserve to meet any unforeseen expenditure under plague.

	RS.
1. Maultrarady street & bye-lanes ...	400
2. Kuthirai Kally street	300
3. Neethukara street	200
4. Abjecanna Vattarum & bye-lanes.	200

32. *Repair—Buildings.*—Under this head Rs. 1,163 was spent against a provision of Rs. 1,500. The short expenditure is due to the fact that the repair of the latrines at Servaikaran street and Oddar's huts, and the repair of slaughter house and Kanchithotty house were not carried out.

33. *Repair—Drainage.*—Out of Rs. 600 provided in the revised estimate only Rs. 230 were spent for minor repairs.

34. *Tolls and Roads.*—The provision under roads, according to the revised estimate, was Rs. 9,400, of which Rs. 8,389 were spent during the year. The toll receipts excluding the contribution to Local Boards amounted to Rs. 19,524. Of this, only 43 per cent. has been spent on roads.

35. *Grant 2, Education.*—The expenditure under this head was Rs. 10,180 against the revised estimate of Rs. 10,210.

36. *Training Schools.*—Two teachers of the Panchama class were trained in the Government school at a cost of Rs. 131-1-8. There were nine teachers in the sessional school, and the expenditure under this head by way of bonus, &c., to the Inspecting schoolmaster amounted to Rs. 25.

1. Putnoolkara School	1
2. Muhammadan do.	1
3. Panchama Schools	3

37. *Salary-result System Schools.*—As in the previous year, there were five schools under the direct management of the municipality for educating the backward classes of the public as per margin.

The average attendance in all the schools improved during the year as shown below:—

	1897–98.	1898-99.
Muhammadans	61	67
Silk weavers	99	110
Panchamas	147	157

The upkeep of these schools cost the municipality Rs. 1,397 against Rs. 1,491 of the previous year.

38. *Salary Grant Schools.*—The number of schools aided during the year was eight as in the previous year, and the expenditure on them amounted to Rs. 2,667 against the revised estimate of Rs. 2,400. The extra expenditure is due to the payment of grants to Kalyanasundram Middle School for which no provision was made in the budget.

39. *Result Grants.*—The number of schools aided under this system was 38 against 39 of the previous year. The expenditure under this head was Rs. 5,000.

40. *Sanitation and Medical Service.*—There are two dispensaries maintained by the municipality at its cost. The expenditure on them was Rs. 2,505 against a provision of Rs. 2,380. The increase is due to the cost of the English medicines supplied last year having been paid during the year under report. Further, a sum of Rs. 2,000 is paid as contribution to the Local Boards for the maintenance of the Raja Mirasidar Hospital at Tanjore. The inconvenience arising from the Municipal Hospital Assistants being drawn off for work during certain nights in the Raja Mirasidar Hospital under the orders of the District Medical and Sanitary officer is felt by the residents at Karuthattangudy and Manambuchavady, who are deprived of the services of the medical officers in emergent cases. The subject is under correspondence with Government.

41. *Contribution to Provincial funds.*—A sum of Rs. 278 was paid to the Provincial funds on account of the cost of sanitary inspection during the year.

42. *Midwives.*—There are two midwives attached to the two dispensaries maintained by the municipality. The number of labour cases attended upon by them has somewhat fallen during the year.

43. *Vaccination.*—The two vaccinators employed by this municipality vaccinated successfully 1,763 cases as against 1,738 in the previous year.

44. *Registration.*—The number of births and deaths during the year was 1,792 and 1,351, respectively, against 1,505 and 1,459 in the previous year. There is no reason to suppose that the registration was in any way defective.

45. *Deaths.*—The causes of 1,351 deaths are hereunder distributed and compared with those of the previous year.

	1897–98.	898–99.
Cholera	284	118
Small-pox	9	13
Fevers	243	194
Bowel complaints	290	254
All other causes	633	772

46. *Conservancy.*—A sum of Rs. 7,440-12-7 was spent in maintaining the establishment against a provision of Rs. 8,430 in the revised estimate. The decrease is due partly to deductions made from the pay of the absentees, and partly to hands not being readily available for employment at the lowest rates of the sanctioned scale. The amount actually spent in the hire of carts for removing rubbish drain-silt and night-soil, &c., was Rs. 9,174. But the budget provision amounted to Rs. 9,150 including Rs. 750, the estimated cost of making five night-soil carts. During the year, however, only three night-soil carts were made at a cost of Rs. 405, the savings of Rs. 345 having been absorbed in paying the unprecedentedly high rates of hire at Rs 19 for each rubbish cart with a pair of bullocks alone for each night-soil cart. The high rates of hire are partly due to the novelty of the depot system under which the contractor was required to carry the rubbish, night-soil, &c., and store them in a depot appointed by the municipality for being sold according to circumstances.

47. *Private scavenging.*—Under this head a sum of Rs. 1,314-9-8 was spent against the revised estimate of Rs. 1,360.

48. *Steps taken to improve the sanitary condition of the town.*—During the year under report two very narrow lanes, viz., the Samanthankulam and the lane behind Kamachi Amman koil, which were freely resorted to by the people for committing nuisance, were widened or otherwise improved at the aggregate cost of Rs. 332-4-8. For improving the drainage of the fort and for opening a sewage farm in connection with it, the Government has sanctioned the raising of the loan of Rs. 33,000 in the open market. Steps are being taken to raise the loan and to carry out the work.

Ks /

A big latrine has been opened in the east main street on the advice of the District Medical and Sanitary officer.

Flushing of the drains is systematically done.

At a considerable expenditure to the municipality the depot system, under which the town rubbish, &c, was accumulated in one place and sold by the municipality direct, was tried during the year under report. It was, however, abandoned during the current year, as it proved a failure from a financial point of view.

The water of the Sivaganga tank continued to be used by a small section of the public for drinking purposes, notwithstanding the supply of pipe water in abundance. To wean the public gradually from the use of the former source of supply, nearly half the number of cisterns constructed over the under-ground conduits from the tank to several important streets of the Fort have been covered over permanently with granite stones. The other cisterns also will be closed shortly.

Some of the tanks outside the Fort, the water of which is used for drinking purposes, were conserved carefully by watchmen appointed for the purpose. One tank, Sannasikulam, has been permanently closed for public use. During the prevalence of cholera some public tanks (Guziliankulam, Marathiankulam and Thulukankuttai) and wells were temporarily closed for public use, while during the whole year some reserved for bathing purposes were carefully watched against other kinds of pollution.

49. *Epidemic Charges—Cholera and Plague.*—Rs. 3,757-15-2 were spent against a provision of Rs. 3,100 in the revised estimate.

50. Cholera was first imported into the town on 23rd September 1898. Immediate steps were taken to check the spread of the disease through the Chief Sanitary Inspector, who is an Hospital Assistant, and on the advice of the District Medical and Sanitary Officer a toty and a ward cooly were appointed. The disease lingered in a sporadic form up to 9th October 1898, during which period only five fatal cases occurred. It broke out afresh from 8th December 1898, when observation and preventive staffs were entertained and the full complement of cholera staff except the divisional inspectors was working from 22nd December 1898 to the close of the year.

51. There was no change in the Plague establishment or in its working during the year under report.

(*d*) *Inspections.*—These institutions are visited occasionally by the District Medical and Sanitary officer and his assistant, and the defects in the buildings brought to the notice of the Council, but no steps have as yet been taken to remedy the defects probably on account of paucity of funds.

(*e*) Amount of recoveries from patients—*Nil.*

(*f*) *Number of patients treated as compared with previous years.*—The two dispensaries treated 23,416 out-patients with an average daily attendance of 99·89 against 23,019 and 99·61 in 1897–98 and 21,711 and 103·19 in 1896–97.

(*i*) *Establishment whether sufficient and efficient.*—Yes.

(*j*) *Midwives—Work actually done.*—Both the institutions are provided with midwives who attended 180 cases of labour against 197 in 1897–98. The number of cases attended by the midwife attached to the Manambuchavady dispensary was only six a month, the number attended by the other being nine, a month. There is a steady fall in the work turned out by the midwife at Manambuchavady which should attract the attention of the municipality.

(*k*) No dispensary is maintained for caste or gosha women.

General remarks—*Nil.*

(Signed) H. A. F. NAILER, Lieut.-col., I.M.S.,
District Medical and Sanitary Officer.

Forwarded.

2. In paragraph 1, ~~14~~ fourteen deaths are said to have been caused by cholera up to the 9th October 1898. But the number represents the attacks, of which only five proved fatal. The District Medical officer's remarks regarding the work of the midwife at Manambuchavady will receive attention.

A
(Signed) V. A. VANDYAR,
Chairman.

No. 312-Ml.

Submitted.

2. The collection of arrear balance has not been satisfactory, and the execution of warrants was not prompt.

3. Private scavenging requires more attention.

4. The explanation for not utilizing the full amount of the grant for repairs—communications ~~in~~ is not satisfactory. The roads are, however, generally in good condition.

(Signed) A. RAMACHA NEDUNGADI,
Deputy Collector.

15th July 1899.

Endt. on C. No. 312-Ml.

Forwarded.

Paragraph 54.—The subject is pending in this office, further information having been called for from the Chairman.

(Signed) J. TWIGG,
Acting Collector.

20th July 1899.

Order—No. 1257 M., dated 2nd September 1899.

The receipts and charges of the Tanjore Municipality for 1898–99 are compared below with the budget and revised estimates for the year and the actuals of 1897–98:—

Balance	36,675	7,210	5,280	30,487

2. The Municipal Council held 57 meetings or two more than in the previous year. The average attendance of non-official members improved and was fair; but that of officials declined and was indifferent. Ten seats were filled by election during the year and eight of these were contested, 70·2 per cent. of the registered voters attending the poll.

3. *Receipts.*—(1) The number of persons assessed to the tax on arts and professions and the net current demand under this head again fell from 2,119 and Rs. 7,531, respectively, to 1,786 and Rs. 6,024, the decline being explained in paragraph 10 of the Chairman's report. Nearly 8 per cent. of the original demand under this tax was again remitted by the Municipal Council on appeal. Such heavy remissions indicate either that the Chairman's assessments were heavy or that the Council was unduly lenient in disposing of appeals. The latter presumption would, however, receive support from the fact that the incidence of the tax was only Rupees 3-6-0 against Rs. 3-8-11 in 1897–98 and a general average of Rs. 3-13-9 for Municipalities in that year. Under the house and water taxes the demand rose by Rs. 439 and Rs. 5,055, respectively, owing in the latter case to the enhancement of the rate of the tax from 4 to 6 per cent. of the annual value; while under the land-tax it declined by Rs. 55. The result of the revision of the house-tax registers, referred to in paragraph 25 of the Chairman's report, should be reported to Government at an early date.

(2) The current collections under the principal taxes improved. They were fair under the arts, house and water taxes, but still poor under the land-tax. The arrear realizations under all these heads continued to be very unsatisfactory. The explanation of these shortcomings given in paragraph 25 of the Chairman's report cannot be considered adequate. There was again a large balance of Rs. 11,198 outstanding at the end of the year, the arrears dating in some cases as far back as 1893–94. The continuance of this state of things, notwithstanding the remarks of Government in the reviews of the reports for the three previous years, is not creditable to the Municipal administration. The Chairman states that the necessary steps will be taken to adjust the outstanding balance. The communication on this subject promised in paragraph 26 of his report is awaited.

(3) Notwithstanding the backward state of the collections above referred to, there was a large decline in the number of warrants issued during the year and more than one-fourth of the total number for disposal remained unexecuted on the 31st March 1899. This points to great laxity on the part of the Municipal executive and should not be allowed to continue.

(4) The receipts from the taxes on vehicles, animals and carts, and from fees under Act II of 1888, produce of lands, fines and tolls advanced, the increase which was most marked under the last head being due to the enhancement of the rate from three-fourths to the maximum. On the other hand the income from the sale of sweepings, license fees, market rents, slaughter-house fees and cart-stand fees fell off. The decline under the last three heads is explained in paragraph 22 of the Chairman's report; but that in the remaining cases has not been accounted for, an omission which should now be supplied.

(5) The number of houses served by the private scavenging agency fell from 1,167 to 1,114. The receipts from this source however rose from Rs. 1,433 to Rs. 1,932, and the service was worked at a profit of Rs. 617 to the Council against Rs. 484 in the previous year. The Municipal Council should do all it can to extend the system, which is capable of considerable expansion, seeing that it is now adopted by only about 10 per cent. of the number of houses assessed to the tax on buildings. The service might be made more attractive, if the profit accruing from this source be utilized towards its improvement. The orders of Government requiring the collection of these fees in advance should be strictly followed in future.

4. *Expenditure.*—(1) *Public Works.*—The only new work of importance under execution during the year was the construction of the drivers' quarters at the water-works pumping station, which were commenced in 1897–98 and on which an expenditure of Rs. 4,265 was incurred up to the 31st March 1899. The total outlay on communications amounted to Rs. 8,389, or 43·4 per cent. of the net Municipal income from tolls against the minimum of 50 per cent. prescribed by Government, the short expenditure being due to a portion of the allotment under this head having been reserved for expenditure on plague. The roads are, however, reported by the Revenue Divisional officer to have been in good order.

(2) *Education.*—The net expenditure under this head amounted to Rs. 9,790 or 13·5 per cent. of the receipts from taxation. Of this sum, Rs. 2,667 were spent on secondary, and the remainder on primary, education. As in the previous year, the Municipal Council maintained five primary schools on the salary-result system, three of which were for Panchamas and one for Muhammadans, and aided eight secondary schools with salary grants. Thirty-eight primary schools were also aided with result grants against 39 in the previous year. Taken together the attendance at these institutions showed an improvement. The working of the salary grant schools was on the whole fair. The results of the departmental and grant examinations continued to be good and the allotment for result grants was fully utilized. The total number of boys under instruction in the Municipal and aided schools was 3,485 or 89·6 per cent. of the male population of school-going age against 3,296 or 84·7 per cent. in the previous year. More than one-fifth of the number of teachers employed in the aided primary schools were entirely unqualified. Early steps should be taken to reduce this large proportion.

(3) *Medical Relief.*—The total number of patients treated at the two Municipal dispensaries rose from 23,019 to 23,416. But the two midwives attached to these institutions attended only 180 cases of labour against 197 in the previous year. The work of one of these, which is reported by the District Medical and Sanitary Officer to have steadily declined, should be closely supervised in future. The attention of the Municipal Council is drawn to the remarks of the Medical officer in paragraph 5 (*b*) and (*c*) of his report regarding the unsuitableness of the buildings in which the dispensaries are at present located and the state of the furniture in one of them.

(4) *Vaccination and Vital Statistics.*—The total number of vaccinations performed during the year was 1,802 or 23 less than in 1897–98, but 97·8 per cent. of the operations were successful against 95·2 per cent. in that year. Infantile vaccination showed a slight improvement, the number of children under one year successfully vaccinated being 1,048 or 19·3 per mille of the population against 1,026 or 18·9 per mille in the previous year, but to be satisfactory the number should approach the registered birth-rate which was 32·9 per mille. Greater attention should be paid to this branch of the administration in future.

The number of births registered during the year rose from 1,505 or 27·7 per mille of the population to 1,792 or 32·9 per mille; but that of deaths fell from 1,459 or 26·8 per mille to 1,351 or 24·8 per mille, the decline being ascribed to the number of deaths from cholera having been less than in the previous year. The rates recorded in both cases being considerably below the normal, it is evident that registration is still very defective. This is not a matter for surprise, as not a single prosecution was instituted during the year for failure to report occurrences of births and deaths. This subject has evidently been greatly neglected and should receive proper attention.

(5) *Sanitation.*—Owing chiefly to the full complement of the conservancy staff not having been employed, the outlay under this head fell short of the allotment by 9·5 per cent. The expenditure, however, amounted to Rs. 21,913 or 21·8 per cent. of the current receipts against Rs. 18,361 or 19·4 per cent. in 1897–98. The Government is glad to observe from paragraph 48 of the Chairman's report that some steps were taken to improve the sanitation of the town, but as cholera was again prevalent and caused as many as 118 deaths, it is evident that this subject still demands the earnest attention of the Municipal Council. The Council should not therefore rest satisfied until all the defects noticed by the Sanitary Commissioner from time to time and by the District Medical and Sanitary Officer in paragraph 3 of his report have been remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 30,487 or 30·3 per cent. of the receipts; but the greater portion of this sum is reserved for expenditure on the extension of the water works.

7/0

The administration of the Municipality during the year cannot still be considered satisfactory; the collection of taxes, the extension of the private scavenging system, vaccination, registration of vital statistics and sanitation require increased attention.

The Government trusts that the Chairman and the Secretary will spare no pains to effect a decided improvement in these directions in the current year.

2. The Municipal Counci held 57 meetings or two more t in the previous year. The averag attendance of non-official membe improved and was fair, but th of officials declined and was indifferent. Ten seats were filled election during the year, and eight of these were contested, 70·2 per cent of the registered voters atten the poll.

3. Receipts. (1) The number of persons assessed to the tax on arts and professions and th net current demand under this head again fell from 2,119 and Rs. 7,531, respectively, to 1,786 and Rs. 6,024, the decline being explain in para. 10 of the Chairman's report. Nearly 8 per cent of the original demand under this tax was again remitted by the Municipal Council on appeal. Such heavy remissions indicat

ither that the Chairman's assessments were heavy or that the Council was unduly lenient in posing of appeals. The latter preumption would, however, receive support from the fact that the incidence of the tax was only Rs 3-6-„ against Rs 3-8-11 in 1897-98 and a general average of Rs 3-13-9 for Municipalities in that year. Under the house and water taxes the demand rose by Rs 439 and Rs 5055, respectively, owing in the latter case to the enhancement of the rate of the tax from 4 to 6 per cent of the annual value; while under the land tax it declined by Rs 55. The result of the revision of the house tax registers, referred to in para. 25 f the Chairman's report, should be reported to Government at n early date.

Para. 17

(2) The current collections under

the

the principal taxes improved. They were fair under the arts house and water taxes, but still poor under the land tax. The arrear realizations under all these heads continued to be very unsatisfactory. The explanation of these shortcomings given in para. 25 of the Chairman's report cannot be considered adequate. There was again a large balance of Rs 11,198 outstanding at the end of the year the arrears dating in some cases as far back as 1893-94. The Continuance of this state of things notwithstanding the remarks of Government in the reviews of the reports for the three previous years, is not creditable to the Municipal administration. The Chairman states that the necessary steps will be taken to adjust the outstanding balance. The communication on this subje

Para 26.

promised

promised in para. 26 of his report is awaited.

(3) Notwithstanding the backward state of the collections above referred to, there was a large decline in the number of warrants issued during the year and more than one fourth of the total number for disposal remained unexecuted on the 31st March 1899. This points to great laxity on the part of the Municipal executive and should not be allowed to continue.

(4) The receipts from the taxes on vehicles, animals and carts, and from fees under Act II of 1888, produce of lands, fines and tolls advanced, the increase which was most marked under the last head being due to the enhancement of the rate from three fourths to the maximum. On the other hand the income

from

Para. 21 of report.

from the sale of sweepings, license fees, market rents, slaughter house fees and cart-stand fees fell off. The decline under the last three heads is explained in para. 22 of the Chairman's report; but that in the remaining cases has not been accounted for, an omission which should now be supplied.

(5) The number of houses served by the private scavenging agency fell from 1,167 to 1,114. The receipts from this source, however, rose from Rs. 1,433 to Rs. 1,932, and the service was worked at a profit of Rs. 617 to the Council against Rs. 484 in the previous year. The Municipal Council should do all it can to extend the system, which is capable of considerable expansion seeing that it is now adopted by only about 10 per cent of

the

against

the number of houses assessed to the tax on buildings. The service might be made more attractive, if the profit accruing from this source be utilized towards its improvement. The orders of Government requiring the collection of these fees in advance should be strictly followed in future.

Vide Para. 23 of Report.

4. Expenditure (1) Public works

The only new work of importance under execution during the year was the construction of the drivers quarters at the water works pumping station, which was commenced in 1897-98 and on which an expenditure of Rs 4265 was incurred up to the 31st March 1899. The total outlay on communications amounted to Rs 8,389 or 43·4 per cent of the net Municipal income from tolls against the minimum of 50 per cent prescribed by Government;

Para. 4 of G.O. 1643.M 21-9-98. U

& para 30 of Cl's report.

the

the short expenditure being due t a portion of the allotment under this head having been reserved for expenditure on plague. The roads are, however, reported by the Revenue Divisional officer to have been in good order.

Vide para. 6 of Cl's letter in G.O. 375.M 15-3-99 X

Para. 4 of his endt.

(2) Education. The net expenditure under this head amoun to Rs 9,790 or 13·5 per cent of the receipts from taxation. Of this sum, Rs 2,667 were spent on secondary, and the remainder on primary, education. As in the previous year, the Municipal Council maintained five primar schools on the salary result system, three of which were f Panchamas and one for Muhammadans, and aided eight secondary schools with salar grants. Thirty eight primary schools were also aided with result grants against 39 in

the

against

the previous year. Taken together the attendance at these institutions showed an improvement. The working of the salary grant in schools was on the whole fair. The results of the departmental and grant examinations continued to be good and the allotment for result grants was fully utilized. The total number of boys under instruction in the Municipal and aided schools was 3,485 or 89.6 per cent of the male population of school going age against 3,296 or 84.7 per cent in the previous year. More than one-fifth of the number of teachers employed in the aided primary schools were entirely unqualified. Early steps should be taken to reduce this large proportion.

Vide report of the Asst. Inspr. V

Vide Educational Statt III W.

(3) Medical Relief. The total number of patients treated at the two Municipal dispensaries

rose from 23,019 to 23,416. But the two midwives attached to these institutions attended only 180 cases of labour against 197 in the previous year. The work of one of these, which is reported by the District Medical and Sanitary officer to have steadily declined, should be closely supervised in future. The attention of the Municipal Council is drawn to the remarks of the Medical officer in para. 5 (b) and (c) of his report regarding the unsuitableness of the buildings in which the dispensaries are at present located and the state of the furniture in one of them.

Para. 5. g. of medical report.

(4) Vaccination and Vital Statistics- The total number of vaccinations performed during the year was 1,802 or 23 less than in 1897-98, but 97.8 per cent of the operations were successfu

against 95·2 per cent in that year. Infantile vaccination showed a slight improvement, the number of children under one year successfully vaccinated being 1048 or 19·3 per mille of the population as against 1026 or 18·9 per mille in the previous year, but to be satisfactory the number should approach the registered birth-rate which was 32·9 per mille. Greater attention should be paid to this branch of the administration in future.

The number of births registered during the year rose from 1505 or 27·7 per mille of the population to 1792 or 32·9 per mille, but that of deaths fell from 1459 or 26·8 per mille to 1351 or 24·8 per mille, the decline being ascribed to the number of deaths from cholera having been less than in the previous year. The rates recorded in

Para 2 of Medical report.

in

in both cases being considerably below the normal, it is evident that registration is still very defective. This is not a matt for surprise, as not a single prosecution was instituted duri the year for failure to report occurrences of births and deaths. This subject has evidently been greatly neglected and should receive proper attention.

Para. 46.

(5) Sanitation. Owing chiefly to the full complement of the conservancy staff not having been employed, the outlay under this head fell short of the allotment by 9·5 per cent. The expenditure, however, amounted to Rs 21,913 or 21·8 per cent of the current receipts against Rs 18,361 or 19·4 per cent in 1897-98. The Government is glad to observe from paragraph 48 of the Chairman's report that some

step

steps were taken to improve the sanitation of the town but as cholera was again prevalent and sed as many as 118 deaths, it is evident that this subject still demands the earnest attention of the Municipal Council. The Council should not therefore rest satisfied until all the defects noticed by the Sanitary Commissioner from time to time and by the District Medical and Sanitary Officer in para 3 of his report have been remedied.

Para. 1. of medical report

5. General Remarks- The year closed with a balance of Rs 30,487 or 30.3 per cent of the receipts, but the greater portion of this sum is reserved for expenditure on the extension of the water works.

Para. 30

The administration of the Municipality during the year cannot still be considered

satisfactory

satisfactory; the collection taxes, the extension of the pri scavenging system, vaccination registration of vital statistics & sanitation require increased attention.

The Government trusts t the Chairman and the Secretar will spare no pains to effect a decided improvement in these directions in the current year.

   6. R Venkatrama Aiyer I St Class Rs 15.
7. Accommodation and sanitation ... ... Sufficient but rather dark and illsuited for large classes.
8. Furniture and apparatus ... ... Sufficient
9. Library and catalogue of books ... ... 175 vols
10. Whether the prescribed Registers are correctly maintained. Yes { Register of corporal punishment and log book not kept.
11. Whether the rules as to annual promotions, &c., are strictly observed. Yes
12. General condition ... ... Satisfactory.
13. Date of last inspection ... ... 5th and 6th August 1897
    Date of present inspection ... ... 4th July 1898
14. Other remarks of the Assistant Inspector ... The portions brought up for examination are much less than what has been prescribed. The results in the subjects examined are given overleaf. A more suitable building should be obtained for the use of the School. There is also a small separate library for the School
