SUBJECT

Loan application for the construction of
a building for the mupl high school at Beller

FOR ORDERS.

In his letter dated 16th March 1878,
M. is embodied in pp. N^o 502 Educational, dated

13th August 1898, the Director of Public Instruction while submitting for the ap-
proval of the Government the following

proved and sanction of Govt. a plan
and estimate amounting to Rs 42,400 for

the construction of a building for the local
of the Municipal High School and the

...ing School, Bellary, started
...ing in which the High School

at a distance from the residence.

inconvenience had been felt for years
and as the Govt. training school

Bellamy was also ill accommodated
he suggested the desirability of

struck a building for the location of
these two institutions jointly by the

Municipal Council and Govt., the former bearing the cost of the lower story which was intended for the Municipal High School and was expected to cost Rs 24036. The Government in its order No 502 Educational, dated 13th August 1898, approved the above suggestion and transferred the plan and estimate to the Public Works Department. In communicating this order to the Municipal Council of Bellary, the Govt. in the local and Municipal Dept. called on the Municipal Council to report as to how it proposed to meet its share of the cost of the new building. Vide G.O. No 1652 dated 5th September 1898.

2. In reply, the Chairman forwarded a resolution on the Council stating that owing to the heavy charges on account of plague the financial condition of the Municipality was not at all favourable and expenditure being incurred on the school building, and that it would not undertake the work unless the Govt. lent the required money. The Govt. thereupon in its order No 2183 dated 16th December 1899, promised to advance in 1899-1900

3. With the first of the letters read above, the Chairman submitted the required application. The Collector however observed that it is a vexed question whether a new school house should take precedence of a new hospital and drainage and water supply schemes, and adds that this Municipality is likely to require every penny of its spare revenue for plague expenditure.

4. The second letter read above was a communication from a Municipal Councillor submitting to Govt. a copy of a petition addressed by one of the Councillors to the Collector objecting to the Council's application for the loan in question on the following grounds:—

(1) That the Council has to meet heavy plague charges and that therefore this is not the right time for the Municipality to go in for such a large loan for the

the School building and
(2) that the sanitation of the town is very bad and should therefore receive primary attention and

(3) that the construction of a new hospital building which is very necessary, should take precedence of that of a new School house.

5. It must be admitted that the construction of a hospital building is of much greater importance than that of the school, but as it is proposed to meet the cost of the former by selling the existing hospital buildings - vide the chairman's letter printed on page 8 of P.O. No. 706 dated 26th March 1897 - no objection need be taken to the proposal to raise a loan for the construction of a school.

As regards the other works mentioned by the Collector, it may be observed that the question of water supply to the town has been given up as being much beyond the means of the Municipal Council and that it is not likely that a ^{costly scheme of} drainage ~~will~~ be undertaken in the near future. The other objections above referred to also appear to have much

I don't very much if a new Hospital can fairly be built on what the existing building will place. The building is worth very little & the site will not sell probably for more than a new site will.

force.

In these circumstances it does appear that there is sufficient reason for putting off the construction of a school building and it is submitted that the loan application may be ordered to be published in the Gazette. The accompanying draft order is submitted for approval.

The Govt. does not consider that sufficient grounds have been shown for postponing the construction of the High School building. The application for loan submitted with the first letter read above, as amended by Govt., will accordingly be published in the Fort St. George and the Bellary District Gazettes. After the expiry of one month from the date of such publication, if no valid objections have been raised, the application will be sanctioned.

2. The Collector of Bellary will report the date of publication of the notification in the District Gazette.

Department.

Sir,

Kindly permit me to submit the
enclosed for your information.

The Collector of Bellary has endorsed upon
the protest that he has given it due con-
sideration. He has expressed himself against
the application of the Municipality just now
for the High school building.

I beg to submit this to you with the
request that the protest may be con-
sidered side by side with any re-
ference the Municipality may make
to you in connection with the new
High school building question.

I beg to remain,

7. For these reasons we would put off the application for the loan for the High School building to a time when the Municipality could really afford to bear its cost, and would therefore beg to invite your earnest attention to the subject in the hope that the resolution of the Council to apply to the Government for the loan will not recommend itself to you as proper or necessary just at present.

We beg to remain,
