GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Poonamallee Road (Park Town),

Madras, 10 April 1899.

From

J. A. JONES, Esq. MEM. INST. C. E., F.R.S.E.,

LOCAL & MUNICIPAL DEPT.

SANITARY ENGINEER TO GOVERNMENT,

To

Current No. 1003 M.

The Secretary to Government,

Local and Municipal Department.

SIR,

Hog T.

With reference to G.O. No. 368 M., dated 15th March 1899 I have the honor to inform you that the staff proposed is not quite suitable for the maintenance of the works.

I consider that the following should be the staff:-

Note

The staff recommended by the Municipal Council (see para. 30 of the Chair - main budget letter in G.O. No. 368 M., of 15-3-99) will cost Rs 87 per annum. The additional monthly cost which the Sanitary proposal involves is only Rs 7.

1. Curriers in charge of Distribution Works	Rs. 35-
1. Head Works and Delivery Line (5 miles)	
Superintendent	12-
1. Fitter	15-
2. Turncocks - at Rs 7 each	14-
3. Fountain Cleaners - at Rs 6 each	18-
	94-

This staff, except No 2 which is a special requirement, is worked out on the basis of that of other towns and should be quite sufficient.

4. The Overseer should inspect and gauge the reservoir night and morning - it does not need any special man. The Head Works Superintendent requires to be an intelligent man and the pay of Rs 8/- proposed is much too little. He should inspect the delivery pipe line of 5 miles in length from time to time and regulate the supply of water so that the town reservoir does not overflow; this point will, at first, require careful attention.

5. The other persons are those usually employed and are necessary - One of the cleaners should assist the fitter when repairing fountains, packing valves &c.

I have the honor to be,
Sir,
your most obedient servant

H. Jones
Sanitary Engineer to Govt.
