What are the reasons
for this?
MS
5.29.

It is according to Precedent.

And, I imagine, the reason is that if
the quantity of oil stored is the
standard, it will necessitate
constant vexatious inspections
when it is

where if the area is taken to go down to mean mid

Sir,

In forwarding herewith
the Adoni Municipal
Council's resolution No 13
dated 4th instant, I have
the honor to request you
will be good enough to
obtain

obtain the sanction of
Government to impose a
license fee of Rs 5 under
Clause (i) and a fee of
Rs 12 under clause (j) of
Section 188 of the District
Municipalities Act II of
1884 as amended by Act
III of 1897. —

I have the honour to be,
Sir,

Your Most Obedt. Servant,

P. H. M. S. S.
Secretary
to Chairman

Forwarded.

2. It appears from a report received from the Divisional Officer Adoni that at present there is no manufacture of fireworks for sale and no manufacture of gun powder in Adoni. It does not therefore seem necessary to require the licensing of premises for such manufacture.
3. It is also reported that there are only 3 persons who store Kerosene oil, two of whom are reported to be making 10 Rs and Rs 100 respectively per annum by its sale. The ~~levying~~ ^{imposing} of a fee of Rs 12 from these men would be unjust. A other dealer is said to have dealings on a larger scale and to be deriving a yearly income of about four or five hundred rupees from this source. No such fees are levied in the Bellary Municipality and it seems ^{un-}necessary to levy them in Adoni.
4. It is not clear from Section 267 (2) whether the issue of an order under Section 188 by the Municipal Council is subject to the approval of Government. But if it is thought that it is not so it is submitted that the fee to be levied under clause (i) of Section

may be fixed at Rs 1, and those under clause 2 at Rs 3 if the oil stored is less than 500 gallons and Rs 6 if it is more.

F.A.

Can you answer the member's question - This according to Precedent. I suppose one of the reasons is that if the quantity of oil stored is the rule - it will be scientific

- (1) Constant & variations in oil storage while if area is taken to find out & measured see the facts which is given.
- (2) Is there any other reason -

M
4.4.99

- (1) Yes.
- (2) I cannot think of any other.
