Madras.

Through the Rev. Divisional Officer
Cochin.

Sir,

I have the honor to forward herewith an extract from the proceedings of the Municipal Council, Cochin, held on the 11th instant whereby the Council requests the Government to grant a loan of Rs. 3000 for the construction of road and branch drains in Calvety from the Alingapara Landing place to Calvety bridge. The locality in question is very thickly inhabited by people who have scarce any ground around their dwellings, the consequence being that the gutters & drains such as they are, are exceedingly offensive and a menace to the public health. A general drainage scheme for the whole Municipal area has several times been discussed but the cost is prohibitive; nor is its necessity at all urgent, in other parts of the Municipal Area where

there

1/11/21/m/99

there are compounds around the dwellings. The Calcutty quarter by its situation is entirely independent of the other quarters as to drainage and so may be taken as a separate work. The drain as now existing is in so ruinous a state that no flow whatever exists, whereby the stagnant sewage matter ferments dangerously. A further inducement for the work exists in the fact, that a large firm of Merchants Messrs. Volkart Brothers have made the offer that if the drain be made they will flush it every day or two with their Steam fire engine at their own expense.

The Municipality has not, nor will have the means of raising the money from current income. The repayment of the loan which by G.O. No. 233 dated 12th ~~August~~ ^{April} 1889 the Government was pleased to grant for the reclamation which lies just at the back of the area now in question, will be completely made in three years from now, and therefore the Council propose that the loan now desired may be repaid immediately after the present loan is liquidated in continuation of the instalment now being paid upon that former loan.
