Dated 16/6/99

After the local authorities have been
agitated for years to get hold of the Police Hospital
as a Municipal Hospital & the Police have agreed
the site at which the Police would have been
approved, they suddenly find that the site of the
Police Hospital is too far from the Town - 2 1/2
miles - the case and the desire of the Council
to have the hospital in the Town is reasonable
enough.

Enclosure No. 5 to Letter No. 8/19 d/12/5/99

No 1270

From

Captain R Robertson I.M.D.

District Medical & Sanitary Officer

To

The Chairman,

Municipal Council,

Anantapur.

Sir,

With a view to new premises being obtained for the Municipal Hospital I have the honor to make the following observations and request you will place them before a special meeting of the Council to consider them.

1. The question of handing over the present Police Hospital for Municipal purposes:— The Collector and myself visited the Police Hospital yesterday morning and we were both convinced by observation that this hospital is too far distant from the village to be of practical use. The site is no doubt, a healthy one but I am afraid many would not go that distance about $1\frac{1}{4}$ mile by road for treatment more especially at night.
2. At the present Police Hospital there is no out door department. This would require to be made and would doubtless interfere with the harmony of the

building as at present constructed.

3. There is no accommodation for a Hospital Apistauh and I am told the nearest distance where a house could be procured for him would be about one mile distant. The authorized distance is under 200 yards.

4. If the present Old Hospital were converted into a municipal Hospital I am afraid a dispensary would require to be opened in the town for outdoor patients. This as far as I know from financial considerations the Municipality are unable to meet.

5. I am of opinion that the new Hospital should be built on the site of the present hospital as far as possible and that the construction, if other premises cannot be obtained, should go on bit by bit.

6. I would recommend the new building be constructed on the standard plan for 20 patients - that is 12 males and 8 females.

7. In conjunction with a new Hospital, premises will also be necessary for the District Surgeon's Office.

8. As regards the cost the District Board will doubtless contribute a valuable consideration and I have no doubt that Government will contribute liberally towards this institution as it is well known that

the District Board and Municipality are not prosperous. If a contribution cannot be made by Government no doubt the question of a loan may be considered.

9. If you will intimate to me the date fixed for the meeting I shall see my utmost to be present.

10. The present hospital buildings are positively dangerous and I fear the hospital may have to be closed during strong winds or heavy rainfall in the ensuing season.

I have the honor to be
Sir,

Yours most obedt Servant

Robert Robertson

EXTRACT from the Proceedings of the Municipal Council, Anantapur, passed
at a Meeting held on Thursday the 16th February 1899.

I Read letter NO. 1270
20-1-99 from the District Medical
and Sanitary Officer, Anantapur, making some
observations in regard to the erection of a Muni-
cipal Hospital and suggesting that, for reasons
given, it should be built in the present site.

Resolution: Resolved that the papers be sub-
mitted to Government through the Sanitary
Commissioner for necessary instruction.

ANANTAPUR MUNICIPAL COUNCIL'S OFFICE,

Dated, 20 February 1899.

Ref No. 687

M. R. P. Adimurthi Rangan

FROM
Deputy
CHAIRMAN, MUNICIPAL COUNCIL,
ANANTAPUR.

To
The Secretary to Government
[Local and Municipal Department]
Fort Saint George.
[Through the Sanitary Commissioner]
Madras.

Sir,

The question of building a new Municipal Hospital has been pending for the last ten years. Proposals after proposals have all along been made, the last ending with G.O. No. 1794 dated 20th Oct 98 intimating that the Police Hospital Building will be handed over to the Municipality for housing the Municipal Hospital there, in case it undertakes to extend the building so as to accommodate the Police patients also.

Not Committ?

2. The Council having signified its consent to the arrangement, necessary estimates etc for the extension are, I believe, under preparation by the Public Works Department.

3. The District Medical and Sanitary Officer now brings forward a suggestion that the Commissioners are carried out.

9/14/99

3 22/11/99

for reasons given in his letter (copy herewith enclosed) the proposed hospital may be built on the side of the present building and this has also met with the approval of the Collector

4. The Council, in dealing with the subject, resolved that the matter be referred to Government, through the Sanitary Commissioner, and an expression of its opinion obtained in the matter before finally disposing of it, in view to any arrangements that may be made being harmonious to Government and acceptable to the Sanitary Commissioner in a Sanitary point of view, though so far as it is concerned the Council will only be too glad to have a hospital built in the heart of the town.

5. I have the honor to solicit that Government be pleased to favour the Council with its opinion in the matter.

I have the honor to be
Sir

Yours most Obedient Servant.

PA. J. J. R.
Chairman Delegation.

No. 1000

Enclosure No. 6 to Letter No. 819/12/15/99
OFFICE OF SANITARY COMMISSIONER,
Madras
Fort St. George, 25th March 1899.

From

SURGEON-LIEUT. COL. W. G. KING, M.B., C.M., D.P.H.,

SANITARY COMMISSIONER FOR MADRAS,

To

THE

Secretary to Government,

Local and Municipal Department,

Fort Saint George.

Enclosure.

SIR,

With reference to the accompanying letter No. 687 dated 20th ^{February} 1899 from the Chairman, Municipal Council, Anantapur, I have the honor to state that I have no doubt as to the urgency of the requirement set forth by him. The following are my notes on the subject in 1890 when acting Inspector of Vaccination and Deputy Sanitary Commissioner—

The Hospital—This is the worst public institution of the nature of a hospital I have ever seen. The police and the Civil patients are accommodated in one building separated by a partition. On an average, two patients are received. Excluding the stagnant air space of the roof, which is not available, the air ration is but 537 cubic feet per head, against 1000-1500 cubic feet estimated as requisite, and 2000 cubic feet regarded as desirable, for hospitals. The District Medical Officer

Commissioner are carried out.

2
1332/20/99

for reasons given in his letter (copy herewith)

states that he has doubts of conscience as to admitting cases for operation, as they quickly suffer from hospitalism, and important operations have been lost from this cause. The accommodation for out-patients is inferior to that of an ordinary third-class dispensary."

2. I agree with Captain Robertson as to the unsuitability of the Police Hospital. I see no objection to his proposal to have the new hospital on the site of the old. Should further room be required than is there available, a portion of the Jubilee Park can be turned to more use than it is at present by utilising it for this purpose.

I have the honor to be,

Sir,

Your most Obedient Servant,

W. H. K. S.

Sanitary Commissioner for Madras
