Order

Forwarded; It is not apparent why this estimate is forwarded to Govt.- if it had been a Sanitary work costing over Rs.200 it should have been sent to the Sanitary Board. The proposed expenditure amounts however to only Rs.122-9-6 and therefore the estimate does not require the sanction of even the Sanitary Board. The estimate is correct and there is no objection to the proposal.

Note

The proposed extension to Budhanipet and Kothapeta apparently forms part of the extensions, the plan and estimates for which were approved in G.O. No. 564 M. dated 27th April 1899. The Council asked the sanction of Govt. to undertake the extension question as it is a deviation from the order above quoted.

be postponed to the next financial year, but considering the immediate necessity for undertaking the short extensions at Budwarpett and Kothapeta, the council resolves to request the sanction of Government for undertaking the same.

In submitting herewith an Extract from the Proceedings of a meeting of the Municipal Council Kurnool held on the 13th May 1899 together with the plan and estimates for extending the pipe line to a distance of 360 feet in Kothapeta and of 460 feet in Budwarpetta, I have the honour to request you will be pleased to obtain the sanction of Government for incurring this expenditure which will be met from the balance of Rs 5,775-6-8 available out of the water-tax fund.

2. I may be permitted to add that the suburbs of Kothapeta and Budwarpetta had been altogether left out of consideration at the time of the preparation of the original estimates in connection with the water works and that the provision for water supply made, when the extension of the pipe line to those places was sanctioned, was very inadequate. The people living in those localities are put to a good deal of inconvenience owing to the unsatisfactory arrangements made therein for the supply of water and the Council is strongly of opinion that the wants of the people in those parts should be attended to without delay. The Council thinks that it would be enough to lay a $\frac{1}{2}$ inch pipe at Budwarpetta.

I have the honour to be
