JULY.

Administration Report.

Reviewing the — of the Chingleput Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. P. RAMANUJACHARIYAR Avargal, B.A., B.L., Chairman, Municipal Council, Chingleput, to the Secretary to Government, Local and Municipal Department (through the Sub-Collector and Collector of Chingleput), dated 20th May 1899, No. 244-Gl.

I have the honour to submit the administration report of the Chingleput Municipality for the year 1898-99 with the statements prescribed in G.O., No. 2193, dated 16th December 1891, and the report of the District Medical and Sanitary officer, Chingleput.

I.—CONSTITUTION OF THE COUNCIL.

2. The number of councillors sanctioned for the Municipality is twelve. The councillors are nominated by Government and the elective system has not as yet been introduced. The year commenced with the full strength of twelve councillors. Of these, three were officials and the remaining nine non-officials. During the year two official and two non-official seats became vacant and these were duly filled up. The Council consisted of three Europeans, two Muhammadans and seven Hindus.

3. In the beginning of the year, the official Chairman vacated his seat owing to his transfer to another district and the present non-official Chairman was appointed.

4. The number of meetings held during the year was fourteen, of which one had to be adjourned for want of quorum. The average attendance per meeting of the official and non-official members was ·9 and 6·1, respectively.

II.—RECEIPTS.

5. The actual income from taxation and other sources was Rs. 13,479-7-3, whereas the revised budget estimate was Rs. 13,410 and the actuals of 1897-98 were Rupees 14,095-3-4. The actuals of 1897-98 cannot be taken into consideration for the purpose of comparison as it includes large arrears which remained due at the end of 1896-97, and which were collected during the course of 1897-98. The slight increase of income over the budget estimate is due mainly to slight increases under the tax on buildings, sale-proceeds of old materials, &c., and private scavenging fees.

6. *Statement IV-B. Arrears.*—The total outstanding arrears on the 31st March 1898 were Rs. 83-5-9, of which Rs. 60-1-1 were collected, and Rs. 12-11-2 were written off as irrecoverable, leaving a balance of Rs. 10-9-6. Steps are being taken to collect this amount.

7. *Statement IV-B—Current.*—The current final demand for the year was Rupees 10,984-12-5. Out of this Rs. 10,636-11-5 was realized, Rs. 257-2-0 was remitted on appeal by the Council and Rs. 19-8-1 was remitted on account of vacant houses. Thus the balance of current arrears is Rs. 83-6-11; of this Rs. 40-3-10 have been since collected and Rs. 12-8-0 have been remitted. Active steps are being taken to collect the remainder. The large remission on appeal by the Council is mainly due to the fact that the house taxes were all revised in the beginning of the year by the Chairman and consequently there was a large number of appeals. But the remission on appeal bears only a small proportion to the amount of demand.

8. (2) *Municipal Rates and Taxes.*—(*a*) *Tax on Arts—Arrears.*—As. 8 were due as arrears in the beginning of the year and it was written off as irrecoverable during the year by the Council.

(*b*) *Current.*—The assessment by the Chairman was Rs. 974-8-0 and the Council remitted Rs. 25 on appeal. Hence the settled demand was Rs. 949-8-0 whereas the settled demand of the previous year was Rs. 860. Out of Rs. 949-8-0, the sum of Rs. 915 was collected during the year, leaving an arrear of Rs. 34-8-0, of which Rs. 22 has since been collected and Rs. 12-8-0 has since been remitted by the Council.

(*c*) In this Municipality all persons coming under any of the nine classes specified in the A schedule to the Municipal Act are taxed. The number of persons taxed is 2·5 per cent. of the population. The average incidence per head is As. 1-6.

9. (*b*) *Tax on Buildings—(a) Arrears.*—The arrears due on the 31st March 1898 were Rs. 5-9-6, of which Rs. 5-3-6 were collected and the remainder, As. 6, was written off by the Council as irrecoverable.

(*b*) *Current.*—The Chairman's assessment was Rs. 4,261-1-0 as against Rupees 2,887-7-0 of the previous year. The Council remitted Rs. 220-2-0 on appeal. The settled demand was Rs. 4,040-15-0, of this Rs. 4,019-13-11 was collected, and Rupees 19-8-1 was remitted by the Council on account of vacant houses, leaving a balance of Rs. 1-9-0, of which As. 12 was since collected and steps will be taken to realize the remainder As. 13.

10. (*c*) *Tax on Lands—(a) Arrears.*—Out of the whole arrears of Rs. 33-11-7 outstanding on 31st March 1898, Rs. 28-7-11 were collected, and Rs. 2-3-11 were written off as irrecoverable, leaving a balance of Rs. 2-15-9 which will be realized during the current year.

(*b*) *Current.*—The original and settled demand was Rs. 313-15-2 as against Rs. 326-15-6 of the previous year. Of this amount Rs. 298-3-6 was collected, leaving an arrear of Rs. 15-11-8; of this sum As. 11-7 were collected and active steps will be taken to realize the balance.

11. (*e*) *Tax on Vehicles with springs and Palanquins; (f) Tax on Animals; (g) Tax on carts and other vehicles without springs—(a) Arrears.*—The outstanding arrears under these three heads on 31st March 1898 were Rs. 5-4-0, Rs. 8-8-0 and Re. 1, respectively; Rs. 3 and Rs. 5-8-0 were collected under the first two heads. Rs. 2-4-0, Rs. 3 and Re. 1 under these respective heads were written off as irrecoverable.

(*b*) *Current.*—The current demand under these heads amounted to Rs. 397, Rs. 516-8-0 and Rs. 534, respectively; of which Rs. 391, Rs. 510-8-0 and Rs. 534 were collected. Rs. 6 on vehicles and Rs. 6 under animals were remitted by the Council. Thus a sum of Re. 1 under tax on animals was outstanding at the end of the year and this has been since collected.

12. (i) *Tolls.*—The tolls were leased out for Rs. 3,560. The whole of this amount was collected together with Rs. 6-15-3 due for interest for late payment. Thus the total receipts were Rs. 3,566-15-3. Of this amount $\frac{1}{3}$, viz., Rs. 1,188-15-9 was paid to the District Board as contribution.

13. The total income from taxation on a population of 9,763 was Rs. 9,087-12-4 (inclusive of tolls), and Rs. 6,709-12-10 (exclusive of tolls).

14. *Coercive Process.*—Seventy-one warrants were issued during the year, of which five were for the arrears of last year; 69 warrants were executed during the year and two remained unexecuted. In three cases property was distrained and in two cases property was sold.

15. (3) *Realizations under special Acts—(c) Fees under Act II of* 1888.—A fee of Rs. 120 was collected for a dramatic pandal.

16. (4) *Revenue derived from Municipal property and powers apart from taxation—(a)* (i) *Rent of Lands.*—A sum of Rs. 113-13-6 was realized during the year under this head, of which Rs. 111-1-0 was collected on account of income due to the Municipal choultry from inam lands at Anur and Sríperumbúdúr and Rs. 2-12-6 was the income on account of the municipal land rented out to parties on agreement.

17. (iii) *Avenue Receipts.*—A sum of Rs. 65–2–9 was realized as against Rs. 80 in the revised estimate, showing a decrease of Rs. 14–15–3. This is a fluctuating item.

18. (iv) *Fees from Travellers' Bungalows.*—A sum of Rs. 156 was realized as against Rs. 150 in the revised estimate. This is also a fluctuating item depending upon the number of individuals who resort to the bungalow.

19. (viii) *Sale-proceeds of Old Materials, &c.*—A sum of Rs. 29–9–0 was realized under this head.

20. (*b*) *Conservancy Receipts—Sale-proceeds of night-soil, street refuse, &c.*—A sum of Rs. 51–1–5 was realized from the sale of street sweepings as against Rs. 60 in the revised estimate. The decrease is due to the want of demand for manure by the ryots.

21. (*c*) *Income from Educational Institutions*—(i) *School-fees.*—There are two schools, one for Panchamas and the other for Muhammadan boys, and they are maintained on the salary-result system. The fees collected from the Muhammadan school were Rs. 20–0–3 as against Rs. 20 in the revised estimate. The Panchama school is held free.

22. (*d*) *Income from Medical Instititutions*—(i) *Sale-proceeds and Composition Fees of Medicines.*—Rs. 34–12–6 was realized under this item as against Rs. 50 in the revised estimate. The decrease is due to the fact that there is a fall in the number of subscribers.

23. (ii) *Other Receipts.*—A sum of Rs. 7–15–6 was realized under this head by sale of old and unserviceable articles as against Rs. 20 in the revised estimate. This is a fluctuating item.

24. (*f*) *Other Fees*—(i) *Warrant and Distraint Fees, &c.*—A sum of Rs. 11–6–0 was collected as against Rs. 30 in the revised estimate. The decrease is due to the small number of warrants issued during the year.

25. (ii) *License Fees.*—This head comprises three items, viz., (1) fees from offensive and dangerous trades, (2) fees for temporary pandals, (3) fees for koradu pandals. The fees collected under these items were Rs. 171–7–11 as against Rs. 150 in the revised estimate. The increase is due to the fact that a sum of Rs. 20 was collected for a license fee from the South Indian Railway Company for the cart-stand maintained within the railway compound as per G.O., No. 124 M., dated 27th January 1899.

26. (iii) *Cart-stand Fees.*—A sum of Rs. 116–12–6 was collected under this head as against Rs. 110 in the revised estimate.

27. (v) *Miscellaneous Fees.*—A sum of As. 8 was collected as searching fees from parties on account of searching the records.

28. (*g*) (ii) *Fines under Municipal and other Acts.*—The receipts under this head amounted to Rs. 189–15–0 as against Rs. 200 in the revised estimate. The decrease is due to the fact that the people who commit offences under these Acts are leniently dealt with.

29. (*h*) *Interest on Investments*—(iii) *Medical.*—A sum of Rs. 970–9–2 was derived under this head against Rs. 970 in the revised estimate.

30. (5) *Grants and Contributions*—(*a*) (*i*) *Education—Schools.*—The sum of Rs. 17–8–0 was the grant received from Government on account of girls who passed the examination in the Panchama school at Gundurcheri as against Rs. 10 in the revised estimate.

31. (*b*) *From Local Boards*—(*ii*) *Medical.*—Rs. 2,000 is the contribution received from the Local Boards on account of the upkeep of the Municipal hospital.

32. (6) *Miscellaneous*—(*a*) *Recoveries, &c.*—(i) *Private Scavenging.*—There were 136 houses in the beginning of the year served by the Municipal agency which with additions and withdrawals came up to 162 on the 31st March 1899. The demand under this head amounted to Rs. 251–12–0, of which Rs. 236–6–0 were collected, leaving a balance of Rs. 15–6–0 at the end of the year. Out of this balance, Rs. 6 was since collected and steps are being taken to clear the balance.

(*b*) *Arrears.*—Out of a demand of Rs. 16–12–0, Rs. 9–8–0 was collected, leaving a balance of Rs. 7–4–0. Steps are being taken to realize the arrears from the persons who left the station.

33. (*b*) *Other Items*—(i) *Fishery Rents.*—A sum of Rs. 40–1–0 was realized from the sale of fish in the Kolavoy tank and madugu against Rs. 40 in the revised estimate.

34. (iii) *Fees for numbering Carts.*—A sum of As. 4 was realized as fees for the renewal of numbers on account of cart registry.

35. (7) *Extraordinary and Debt*—(*e*) *Advance*—(ii) *Others.*—A sum of Rs. 28–14–5 was realized as detailed below against Rs. 30 in the revised estimate :—

	RS.	A.	P.
(1) Overpayment made to Messrs. Burgoyne, Burbidges & Co.	1	13	7
(2) Overpayment made to the Lawrence Asylum Press for the supply of printed forms	27	0	10

III.—EXPENDITURE.

36. The total charges for the year amounted to Rs. 13,589–4–9 as against the revised estimate of Rs. 14,160. The actual expenditure for the previous year was Rs. 12,573–9–5. The main reasons why the actual charges for the year are less than the revised estimate are—

(1) the stopping by the Council of some of the works under Grant 1 with a view to save money in case any emergency occurred on account of plague necessitating extra expenditure under that head [see Grant 1, 1 (*b*) and 2 (*a*)]; (2) the full amount of the salary grant sanctioned under Grant 2 not having been earned by the schools for which they were provided; (3) owing to saving under Grant 3, 5 (*a*) and 5 (*b*).

37. *Grant 1, Public Works*—(i) *New Works*—(*a*) *Communications.*—The total length of the roads maintained by the Municipality is six miles and seven and a half furlongs which are metalled. Two tunnels were constructed at a cost of Rs. 118–1–11, one near the Post office and the other in Peddu Chetty Street. The excess expenditure over the revised estimate of Rs. 100 was due to the payment on a bill submitted by contractor for having done additional work connected with it.

38. (*b*) *Buildings.*—One embankment was constructed near Kulinthiamman Kovil at a cost of Rs. 112. This was not provided for in the budget. This work was found absolutely necessary as the road was washed away during the rains. A sum of Rs. 200 was allotted in the budget for converting the thatch roofs of the sceptic wards attached to the hospital into tiled roofs. On estimate Rs. 200 was found insufficient for the purpose and further it was anticipated that the Council would have to spend a lot of money on plague charges. So the work was not undertaken and the amount lapsed into the balance.

39. (2) *Repairs*—(*a*) *Communications.*—Repairs to five roads and twelve streets were undertaken at a cost of Rs. 1,300–13–5 which includes the cost of clearing the side ditches in some of the streets. The saving effected under this head was transferred to Grant 1 (*b*) buildings to meet the cost of the work (embankment) *supra* for which no provision was made and also to Grant 4 (3) Printing as the provision made was insufficient—*vide* explanation in paragraph 76 *infra.*

40. (*b*) *Buildings.*—The work of repairing Gundurcheri school, travellers' bungalow, choultry, white-washing the contagious sheds of the hospital and repairing the culvert near Easwaran Kovil were undertaken during the year at a cost of Rupees 154–13–6. The excess expenditure over the revised estimate of Rs. 100 is due to the fact that the last two works were not provided for in the budget. These works were undertaken as they were very urgently needed.

41. (*c*) *Drainage*—(ii) *Establishment.*—Two drain coolies were budgeted for to clean the drains at Rs. 5 per mensem. The amount spent under this head was Rs. 114–11–3 against the revised estimate of Rs. 120. The decrease is due to stoppages and fines.

42. (*d*) *Water-supply*—(ii) *Establishment.*—The amount of expenditure under this head was Rs. 200–0–8 against the revised estimate of Rs. 190. This sum represents the pay of four permanent tank watchmen and one temporary tank watchman

appointed during the hot season to watch the Kolavoy tank—*vide* G.O., Mis. No. 43 M., dated 11th January 1899. The increase was due to the pay of the temporary watchman.

43. (iii) *Contingencies.*—The amount of Rs. 39–1–10 was incurred in removing silt, &c., from wells and tanks during the hot season against the revised estimate of Rs. 40.

44. (3) (*a*) *General Establishment.*—The amount of Rs. 78–6–2 was incurred towards the pay of the road maistry at Rs. 10 per mensem appointed from 6th July 1898 as per G.O., No. 1072 M., dated 13th June 1898, against the revised estimate of Rs. 80.

45. (4) *Tools and Plant and other Stores.*—A sum of Rs. 1–7–0 was incurred under this head for the purchase of crowbars and spades, &c., against the revised estimate of Rs. 10.

46. Total charges under Grant 1 thus amounted to Rs. 2,119–7–9 against the revised estimate of Rs. 2,450.

47. *Grant 2, Education*—(2) *Municipal Schools*—(ii) *On Salary-result System*—(*a*) *Fixed Payments.*—There are two schools maintained under this system, one for Muhammadan children and the other for Panchama children. The total number of pupils in both these schools on 31st March 1899 was 76. Of these ten were girls and the remaining 66 boys. These schools presented 50 pupils for examination, of whom 35 were declared successful. The amount expended under this head was Rs. 189–2–2 towards the pay of the schoolmasters against the revised estimate of Rs. 190.

48. (*b*) *Result Stipends.*—The amount expended under this head was Rs. 70 against the revised estimate of Rs. 70.

49. (*c*) *Contingencies.*—The amount expended under this head was Rs. 64–8–9 against the revised estimate of Rs. 70. This sum represents the expenditure on house-rent of the Muhammadan school, stationery to both schools, &c.

50. (3) *Salary Grants.*—The amount expended under this head was Rs. 582–11–1 against the revised estimate of Rs. 650. This sum was paid upon the bills submitted by the managers of the Free Church Mission high school and the Native high school, Chingleput. These two secondary schools were maintained under the salary grant system. The total number of pupils in these schools stood on 31st March 1899 was 312. Sixteen pupils were presented for examination and ten passed out successfully. The number of pupils presented under the 7th, 6th and the 5th standards during the year under review is far less than that of the previous year and this is due to the conversion of the Native secondary school into a salary grant school.

51. (4) *Fixed and Result Grants.*—The total number of schools admitted to aid during the year under report was nine and all of them received grants. The amount spent for this purpose was Rs. 800 against the revised estimate of Rs. 800.

52. (6) *Inspection*—(i) *Establishment.*—The provision of Rs. 70 made for contribution to Local Boards for the inspecting schoolmaster for inspecting the schools in the Municipality was not spent during the year and hence no figure is entered under this item against the revised estimate of Rs. 70.

53. The total charges under Grant 2 thus amounted to Rs. 1,706–6–0 against the revised estimate of Rs. 1,850.

54. *Grant 3, Medical Services, Sanitation, &c.*—(i) *Hospitals and Dispensaries*—(*a*) *Establishment.*—The amount spent under this head was Rs. 1,381–12–6 against the revised estimate of Rs. 1,400. The small saving was due to fines and stoppages.

55. (*b*) *Medicines and Supplies.*—A sum of Rs. 802–5–10 was incurred in purchasing European and bazaar medicines against the revised estimate of Rs. 900, resulting in a saving of Rs. 80–12–3.

56. (*c*) *Diet of Patients.*—The expenditure under this head was Rs. 846–4–11 against revised estimate of Rs. 700. The increase was due to the high prices of articles during the year and to the fact that special diets were prescribed by the Medical officer in several cases.

57. (*d*) *Sundries and Contingencies.*— Rs. 581–2–0 was spent against the revised estimate of Rs. 600, resulting in a saving of Rs. 12–6–10.

58. (2) (*a*) *Contributions to Provincial Funds for* (i) *Medical College*—(ii) *Sanitary Inspection*—(iii) *Medical Reserve Staff.*—The expenditure under items (i), (ii) and (iii) was Rs. 82, Rs. 41 and Rs. 12, respectively, against the revised estimate of Rs. 20, Rs. 10 and Rs. 10, respectively. These sums were paid as per advice of the Treasury Deputy Collector under instructions from the Accountant-General. This communication was received only at the end of the year; hence the exact amount was not provided for in the budget.

59. (*c*) *Other Contributions.*—A sum of Rs. 28–8–0 was spent on account of stipends paid to the midwifery pupil under training against the revised estimate of Rs. 30.

60. (3) *Vaccination*—(*a*) *Establishment.*—There is only one vaccinator for the town. His pay amounted to Rs. 96 at the rate of Rs. 8 per mensem against the revised estimate of Rs. 100. The number of cases vaccinated during the year was 822, of which 583 were successful and 152 unsuccessful. The operations were performed with lanoline lymph obtained from the Mysore Government Vaccine Depot, Bangalore.

61. (*b*) *Contingencies.*—The expenditure under this head amounted to Rupees 67–1–10 against the revised estimate of Rs. 60. The excess amount is due to the purchase of lancet, cups, soaps, &c., for the use of the vaccinator and to printing vaccination forms.

62. (4) *Registration of Births and Deaths*—(*a*) *Establishment.*—The amount of Rs. 117 represents the pay of the birth and death registrar at the rate of Rs. 10 per mensem against the revised estimate of Rs. 120. The saving is due to fines.

63. (*b*) *Contingencies.*—A sum of Rs. 6–4–11 was spent for printing forms for the use of the birth and death registrar against the revised estimate of Rs. 10.

64. (5) *Sanitation*—(*a*) *Conservancy, Road-cleaning and Road-watering*—(i) *Establishment.*—The amount incurred under this head was Rs. 1,170–11–3 against the revised estimate of Rs. 1,270. The saving is caused partly by not entertaining two sweepers till the middle of the year as the new conservancy cart was not ready till that time and partly by giving pay at the rate of Rs. 4 per mensem to a scavenger though Rs. 5 was sanctioned as one was available at that rate and also by fines and stoppages and by not entertaining a scavenger on Rs. 5 though sanctioned in the budget.

65. (ii) *Other charges.*—The amount expended under this head was Rs. 923–7–7 against the revised estimate of Rs. 930.

66. (*b*) *Private Scavenging*—(i) *Establishment.*—The amount expended under this head was Rs. 230–8–6 against the revised estimate of Rs. 230.

67. (*c*) *Epidemic Charges* (*Plague*).—A sum of Rs. 579–10–7 was expended against the revised estimate of Rs. 620. This was spent on account of erection of plague segregation camps and sheds, dieting charges of the segregated people connected with a plague patient who died at Chingleput, cooly paid to the attendants on the plague patient, purchase of medicines, sundries, &c., and also rewards given for destruction of rats, &c. Rs. 132–11–8 was paid to the nurse on plague inspection duty at the railway station for her travelling allowance and pay from 26th January 1899. This Rs. 132–11–8 and certain sundry items are to be recovered from Provincial funds as per G.O., No. 915 L., dated 27th April 1899.

Cholera.—A sum of Rs. 38–0–9 was spent during the time of epidemic of cholera in hiring temporary coolies for disinfection purposes, in purchasing medicines and in other sundries against the revised estimate of Rs. 100.

68. The total charges under Grant 3 thus amounted to Rs. 7,003–14–8 against the revised estimate of Rs. 7,110.

69. *Grant 4, Lighting and Miscellaneous Municipal purposes*—(i) *Lighting*—(*a*) *Establishment.*—The charge incurred under this head was Rs. 103–12–5 against the

revised estimate of Rs. 110. The expenditure represented the pay of the two lamp-lighters at Rs. 4–8–0 each. There are in all sixty-one lights in the town. The saving is due to stoppages and fines.

70. (*b*) *Contingencies.*—The amount spent under this head was Rs. 317-0-2 against the revised estimate of Rs. 340. The charge incurred was for kerosine-oil, chimneys, tape, &c., purchased for lighting the town. The saving is due to the fall in the price of kerosine-oil.

71. 3. *Choultries*—(*a*) *Establishment.*—The charge incurred under this head was Rs. 131–4–10 against the revised estimate of Rs. 132 or Rs. 130 taken as round figure in the revised estimate. The choultry has three portions—one for Brahmins, one for Sudras and the third for Muhammadans, Eurasians and Christians. The first portion is watched by a Brahmin servant who supplies water to travellers for drinking purposes. The second and third are watched by a Sudra servant. There are two latrines attached to the choultry which are cleaned by a scavenger. There is also a sweeper who sweeps the choultry. The above charge represents the pay of all these servants.

72. (*b*) *Contingencies.*—The amount spent under this head was Rs. 20–2–4 against the revised estimate of Rs. 20. The charge was for lighting the choultry and for purchase of ropes, brooms, winnows, &c., required for the choultry.

73. (4) *Travellers' Bungalow*—(*a*) *Establishment.*—The amount spent was Rs. 96 against the revised estimate of Rs. 100. The charge incurred was for the pay of the cook on Rs. 6 and a toti on Rs. 2 per mensem.

74. (*b*) *Contingencies.*—The amount expended under this head was Rs. 60–2–9 against the revised estimate of Rs. 70. This expenditure was incurred on account of the bills for repairs to punkahs painting doors, &c., done during 1897–98 having been paid for during 1898–99, on account of the purchase of towels, plates, cups, knives, &c., for the use of the bungalow and on account of the wages of the dhoby.

75. (10) *Other charges*—(ii) *Rewards for destruction of pigs and dogs.*—A sum of Rs. 7–11–0 was spent under this head against the revised estimate of Rs. 10.

76. (iii) *Stationery and Printing.*—A sum of Rs. 439–1–6 was incurred under this head against the revised estimate of Rs. 410. As intimation was received from the Collector to remit Rs. 72–10–0 to the treasury on account of private work done by the Government Press, this sum was accordingly paid into the treasury; hence the increase over the revised estimate.

77. (v) *Law charges.*—The amount spent under this head was Rs. 24–1–0 against the revised estimate of Rs. 50.

78. The total charges under Grant 4 thus amounted to Rs. 1,199–4–0 against the revised estimate of Rs. 1,240.

79. *Grant 5, Supervision and Management*—(i) *General Establishment*—(*a*) *Inspection*—(ii) *Conveyance allowance.*—The amount incurred under this head was Rs. 209–14–3 against the revised estimate of Rs. 210. The charge represents the carriage allowance paid to the Chairman during the year.

80. (*b*) *Office Establishment.*—The expenditure under this head was Rs. 607–8–0 against the revised estimate of Rs. 610. The saving is due to fines and stoppages.

81. (*c*) *Contingencies.*—A sum of Rs. 271–0–11 was incurred against the revised estimate of Rs. 280. The charge incurred was for the purchase of postage stamps, stationery for office use, for office house-rent paid at Rs. 10 per mensem and for the purchase of an almirah for Rs. 20.

82. (*d*) *Collection of Municipal Taxes*—(i) *Establishment.*—The expenditure incurred under this head was Rs. 216 against the revised estimate of Rs. 216 or Rupees 220 taken as round figure in the revised estimate.

83. (ii) *Contingencies.*—The expenditure incurred under this head was Rupees 106–2–5 against the revised estimate of Rs. 100. The charge was incurred on account of printed forms, books, &c., supplied by the Lawrence Asylum Press.

84. (2) (a) *Contribution for Central Office, &c.*—A sum of Rs. 40 was paid as per revised estimate.

85. The total charges under Grant 5 thus amounted to Rs. 1,450–9–7 against the revised estimate of Rs. 1,460.

86. *Extraordinary and Debt*—(3) *Advances Recoverable*—(*b*) *Other.*—A sum of Rs. 50 was paid under this head to meet plague charges when occasion arises and Rs. 16–13–11 was the overpayment into the treasury on account of medicines supplied by Messrs. Burgoyne, Burbidges & Co.

87. (4) *Refunds of other than current Collections.*—A sum of Rs. 42–12–10 was refunded as detailed below :—

	Rs.	A.	P.
Tax on buildings	30	0	0
Koradu pandal license	0	13	5
Land-tax	0	0	11
Remission for vacant houses	11	14	6
Total ..	42	12	10

88. Total income from the various sources, including the balance as shown in statement I, amounted to Rs. 15,256–6–7. The total charges as shown in statement II amounted to Rs. 13,589–4–9.

The difference, viz., Rs. 1,667–1–10, is the balance with which the year closed.

89. Before closing, a few general remarks are necessary. The resources of the Municipality are very limited. It may be mentioned that this Municipality is probably the smallest Municipality in the Presidency. It has not as yet passed through the trial stage. The suggestions made from time to time by the District Medical and Sanitary Officer, the Director of Public Instruction and other heads of various departments, though all of them are intended for the benefit of the town and for the well-being of the population, are yet suggestions which the Municipal Council cannot fully adopt owing to want of funds. But the Council heartily thanks the various officers concerned for several suggestions that they make from time to time and will do its very best to carry out those suggestions so far as funds permit.

90. An extract from the Minutes of Proceedings of the Council adopting this report is submitted together with the educational statements.

ENCLOSURE.

CONCISE annual report on the working of the Municipal Hospital, Chingleput, for the official year 1898–99, No. 38–P.L.

1. *Public Health.*—The general health was, on the whole, fair. There was a sharp but short outbreak of cholera in Melamyur, a village which is conserved in the Municipality of Chingleput, the cause of which was traced to a tank that was open to pollution and from which the people of the village were drawing their supply of drinking water. The use of this water was stopped by employing a watchman, and it had the desired effect of arresting the progress of the disease. There were 21 attacks, of which 12 proved fatal. The necessary sanitary measures for combating cholera, such as the disinfection of wells in the backyards of the infected houses, securing all cholera discharges with disinfectants and destroying them by fire, and the general sanitation of the infected houses and their backyards were attended to. There was one death from small-pox, which was an imported case from Conjeeveram.

Malarial fevers, affections of the respiratory system and rheumatic affections were unusually prevalent owing probably to the uncommonly heavy rainfall during the latter part of the year.

2. *Vital Statistics.*—The total number of births and deaths was 396 and 288, against 362 and 312 respectively in the previous year.

The registration continued to be satisfactory. Only one person was prosecuted for not reporting a birth, and he was warned by the Magistrate.

3. *Sanitation.*—One sanitary inspector, two sweepers and one toty were newly appointed during the year.

Latrines.—There are only eight, of which four were constructed on sanitary principles, and the other four are mere enclosures. The latter should be gradually replaced by better ones. Four toties look after eight public latrines, and clean them only twice a day. People resort to sheltered and unfrequented places in preference to the public latrines, as they are generally not kept clean. One toty should be appointed to look after each latrine and clean it frequently, and one hand cart with a night-soil bucket should also be provided for each latrine for storing night-soil. There are only two night-soil and six conservancy carts, which are quite insufficient for the requirements of the town. One hundred and sixty-two houses were cleaned under the private scavengering system against 140 in the previous year.

Drainage system.—There is no proper system of drainage for the town. The house drainage is allowed to run into the side drains, which are badly constructed and are converted into pools of stagnant liquid filth, contaminating the soil and sub-soil water by soakage, and the air by the emanation of offensive gases. They should be cleaned out daily and the sewage liquid should be removed in water-tight carts until the town is provided with a proper system of drainage. There are a few cess-pools, which are not regularly cleaned by the owners and are generally in a dirty state.

There are twenty-four masonry and twenty-six movable galvanized iron dust-bins. The masonry dust-bins are mostly out of repair and should be substituted by movable iron ones. The water-supply is obtained chiefly from three public tanks and twelve public wells and also from the fort ditch and the river, which are subject to pollution in various ways. The three public tanks should also be watched at nights from being contaminated and also the fort ditch as many people make use of its water.

Rubbish is swept up and removed in six conservancy carts to a spot set apart for the purpose, where it remains in heaps and is sold in the cultivation season to ryots. It becomes very offensive especially in the wet weather from the decomposition of animal and vegetable matter. A better arrangement will be to burn it in an incinerator or rubbish destructor, and store the ashes for sale when required by the ryots for use as manure.

A public market and a slaughter-house are a great want for this town. The present market, which is a private property, is in a very bad state of repair without an ample supply of clean water and without any provision for drainage, which are essential for a market. It is over three years since it was lime-washed, and should be white-washed at least once in three months. Its license should not be renewed until and unless it is thoroughly repaired, and if possible, the above-mentioned defects are remedied. The sheep are slaughtered in an open private ground near the market without undergoing any previous inspection. The sanitary inspector should examine and pass the animals before they are slaughtered. The owner may be induced to construct a slaughter-house on the standard plan as it is a remunerative concern, if the Municipality cannot find sufficient funds for the undertaking. The roads are generally in disrepair.

4. *Vaccination* was carried on with lanoline paste supplied from the Bangalore Vaccine Institute by probationary vaccinator Hithamathy. He has vaccinated in all 822 cases against 732 in the previous year.

Under primary vaccination 512 cases were vaccinated against 658 in the year previous with a percentage of success of 89·07 and 80·85, respectively. Of these 377 were in children under one year of age against 323 with a successful percentage of 87·92 and 85·14, respectively. The total number of births during the year was 305 exclusive of 91 still births, and deaths within the six months after birth. The percentage of infantile vaccination as compared with the births was 120·39 against 112·19 in the previous year.

5. *Hospitals and Dispensaries*—(*a*) *Nature and Sufficiency of Accommodation.*—It is limited and unsuitable for the purpose, chiefly the out-patient department.

(*b*) *State of Repair of Buildings.*—The buildings are in a fair condition, but are in urgent need of a few minor repairs. The hospital was not lime-washed during the year.

(*c*) *State of Repair of Furniture.*—It is in good repair.

(*d*) *Inspections*—(1) *Steps taken to carry out the Recommendations, if any, of the Surgeon-General with the Government of Madras.*—None of the several recommendations made year after year by the Surgeon-General have been carried out except providing disinfecting tubs. As the Municipality incurs only less than a fourth of the annual charges of the hospital, it ought to be able to spare every year at least one or two thousand rupees for carrying out the necessary improvements strongly recommended by the Surgeon-General or the Municipal Council may set apart at least the annual interest on the hospital endowment for the purpose with a view to complete the improvements in a few years.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and Medicines.*—The amount of Rs. 34–12–6 was realized by the sale of medicines and Rs. 9–3–2 on account of diets supplied to patients.

(*f*) Number of patients treated as compared with previous years.

Years.	In-door.	Out-door.	Total.
1896-97	388	11,847	12,235
1897-98	483	12,164	12,647
1898-99	353	12,688	13,041

(*i*) *Establishment whether sufficient and efficient.*—The establishment is very inadequate. Some of the servants are so miserably low paid that efficient men cannot be had for the pay that is offered. Proposals have been frequently made in vain to the Municipal Council to increase the strength and improve the pay of the establishment.

(*j*) *Midwives—Work actually done.*—The midwife conducted 73 cases during the year against 52 in the previous year.

(*k*) *Dufferin Fund Dispensaries.*—Nil.

(*l*) *General remarks.*—Nil.

CHINGLEPUT,
20*th May* 1899.

(Signed) C. S. LANGLEY,
District Medical and Sanitary Officer.

Forwarded to the Collector.

2. *Paragraph* 28.—I am inclined to think that the small amount of fines collected is due to lack of energy in detecting and prosecuting nuisance cases. The police may be asked to help the Municipality as much as possible in this matter.

3. *Paragraph* 32.—The proportion of houses served by the Municipal agency to the total number of houses assessed is still too small, being only 10·4 per cent. and only 26 houses were added during the year under report. The outstanding balance is due to neglect of the instructions of Government as to the collection of private scavenging fees *in advance.*

4. I agree with the District Medical and Sanitary Officer that the roads are generally in bad repair. I am afraid that the contractor is not doing his work properly.

5. The proposal of the District Medical and Sanitary Officer as to the disposal of dry rubbish may be tried during the current year (1899–1900) as the income derived from the sale of night-soil and dry rubbish is inconsiderable. The number of properly constructed latrines should be increased. People are naturally repelled by the "mere enclosures" which now do duty as such.

1*st June* 1899.

(Signed) J. P. BEDFORD,
Ag. Sub-Collector.

Dis. No. 1355-D.

Forwarded.

2. *Paragraph* 4.—The average attendance of the official and non-official members has fallen from 1·5 and 6·6 in the preceding year to ·9 and 6·1 respectively during the year under report. The fall in the attendance of the latter is slight. The attention of the official members will again be invited to G.O., No. 859 M., dated 10th April 1897.

3. The collection of taxes continued to be satisfactory. The decrease in the number of cases in which warrants were issued is also satisfactory.

4. *Paragraph* 32.—The proportion of houses served by the private scavenging agency to the total number assessed to the tax on buildings is still exceedingly small. The system is however self-supporting.

5. *Paragraph* 52.—No reason has been assigned for the failure to spend the allotment of Rs. 70, contribution to Local Funds on account of the inspecting schoolmaster.

6. The reason for the decrease of 28 per cent. in the number of in-patients treated is not apparent. It is not known whether rules under section 127 of the District Municipalities Act for the receipt and treatment of patients were framed.

7. There was a slight increase in the number of cases vaccinated during the year, but the proportion of successful cases fell from 80·1 per cent. to 72·1.

8. The registration of vital statistics shows some improvement.

9. I can endorse the remarks of the Sub-Collector and the District Medical and Sanitary Officer on the roads.

SAIDAPET,
8*th June* 1899.

(Signed) D. W. G. COWIE,
Ag. Collector.

ORDER—No. 948 M., dated 6th July 1899.

The receipts and charges of the Chingleput Municipality for 1898–99 are compared below with the budget and revised estimates for the year and the actuals of 1897–98 :—

—	Actuals, 1897–98.	Budget estimate, 1898–99.	Revised estimate, 1898–99.	Actuals, 1898–99.

Grand Total	12,573	13,590	14,160	13,589
Balance	1,777	1,450	1,030	1,667

2. The Municipal Council held thirteen meetings or one more than in the previous year. The average attendance of the members declined and was poor in the case of officials, but fair in that of non-officials.

3. *Receipts.*—(1) Owing apparently to more careful assessment, the net current demand under the tax on arts and professions rose from Rs. 860 to Rs. 949 and the average incidence from Rs. 3–8–2 to Rs 3–12–9. The house and land tax registers were revised during the year, with the result that the demand under the former tax increased from Rs. 2,883 to Rs. 4,041, while under the latter it remained practically unaltered. The collections under these taxes, both current and arrears, continued to be satisfactory, and coercive processes were much fewer than in the previous year.

(2) There was a decline in the income from tolls and fines, which in the case of the former is ascribed to want of competition at the auction sale and in that of the latter to leniency in dealing with nuisance cases. In this connection, the attention of the Inspector-General of Police will be drawn in the Judicial Department to the suggestion made by the Sub-Collector in paragraph 2 of his endorsement. The sale of the town-sweepings brought in only Rs. 51 against Rs. 109 in 1897–98. This source of revenue should be fostered as it is capable of considerable improvement.

(3) The number of houses served by the private scavenging agency and the receipts from this source rose from 136 and Rs. 181, respectively, to 162 and

Government {1899} of Madras.

LOCAL AND MUNICIPAL.

Note for the Secretary

Administration Report.

Reviewing the — of the Chingleput Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. P. RAMANUJACHARIYAR Avargal, B.A., B.L., Chairman, Municipal Council, Chingleput, to the Secretary to Government, Local and Municipal Department (through the Sub-Collector and Collector of Chingleput), dated 20th May 1899, No. 244-Gl.

I have the honour to submit the administration report of the Chingleput Municipality for the year 1898-99 with the statements prescribed in G.O., No. 2193, dated 16th December 1891, and the report of the District Medical and Sanitary officer, Chingleput.

I.—CONSTITUTION OF THE COUNCIL.

2. The number of councillors sanctioned for the Municipality is twelve. The councillors are nominated by Government and the elective system has not as yet been introduced. The year commenced with the full strength of twelve councillors. Of these, three were officials and the remaining nine non-officials. During the year two official and two non-official seats became vacant and these were duly filled up. The Council consisted of three Europeans, two Muhammadans and seven Hindus.

3. In the beginning of the year, the official Chairman vacated his seat owing to his transfer to another district and the present non-official Chairman was appointed.

4. The number of meetings held during the year was fourteen, of which one had to be adjourned for want of quorum. The average attendance per meeting of the official and non-official members was ·9 and 6·1, respectively.

II.—RECEIPTS.

5. The actual income from taxation and other sources was Rs. 13,479-7-3, whereas the revised budget estimate was Rs. 13,410 and the actuals of 1897-98 were Rupees 14,095-3-4. The actuals of 1897-98 cannot be taken into consideration for the purpose of comparison as it includes large arrears which remained due at the end of 1896-97, and which were collected during the course of 1897-98. The slight increase of income over the budget estimate is due mainly to slight increases under the tax on buildings, sale-proceeds of old materials, &c., and private scavenging fees.

6. *Statement IV-B. Arrears.*—The total outstanding arrears on the 31st March 1898 were Rs. 83-5-9, of which Rs. 60-1-1 were collected, and Rs. 12-11-2 were written off as irrecoverable, leaving a balance of Rs. 10-9-6. Steps are being taken to collect this amount.

7. *Statement IV-B—Current.*—The current final demand for the year was Rupees 10,984-12-5. Out of this Rs. 10,636-11-5 was realized, Rs. 257-2-0 was remitted on appeal by the Council and Rs. 19-8-1 was remitted on account of vacant houses. Thus the balance of current arrears is Rs. 83-6-11; of this Rs. 40-3-10 have been since collected and Rs. 12-8-0 have been remitted. Active steps are being taken to collect the remainder. The large remission on appeal by the Council is mainly due to the fact that the house taxes were all revised in the beginning of the year by the Chairman and consequently there was a large number of appeals. But the remission on appeal bears only a small proportion to the amount of demand.

8. (2) *Municipal Rates and Taxes.*—(*a*) *Tax on Arts—Arrears.*—As. 8 were due as arrears in the beginning of the year and it was written off as irrecoverable during the year by the Council.

(*b*) *Current.*—The assessment by the Chairman was Rs. 974-8-0 and the Council remitted Rs. 25 on appeal. Hence the settled demand was Rs. 949-8-0 whereas the settled demand of the previous year was Rs. 860. Out of Rs. 949-8-0, the sum of Rs. 915 was collected during the year, leaving an arrear of Rs. 34-8-0, of which Rs. 22 has since been collected and Rs. 12-8-0 has since been remitted by the Council.

(*c*) In this Municipality all persons coming under any of the nine classes specified in the A schedule to the Municipal Act are taxed. The number of persons taxed is 2·5 per cent. of the population. The average incidence per head is As. 1-6.

9. (*b*) *Tax on Buildings—(a) Arrears.*—The arrears due on the 31st March 1898 were Rs. 5-9-6, of which Rs. 5-3-6 were collected and the remainder, As. 6, was written off by the Council as irrecoverable.

(*b*) *Current.*—The Chairman's assessment was Rs. 4,261-1-0 as against Rupees 2,887-7-0 of the previous year. The Council remitted Rs. 220-2-0 on appeal. The settled demand was Rs. 4,040-15-0, of this Rs. 4,019-13-11 was collected, and Rupees 19-8-1 was remitted by the Council on account of vacant houses, leaving a balance of Rs. 1-9-0, of which As. 12 was since collected and steps will be taken to realize the remainder As. 13.

10. (*c*) *Tax on Lands—(a) Arrears.*—Out of the whole arrears of Rs. 33-11-7 outstanding on 31st March 1898, Rs. 28-7-11 were collected, and Rs. 2-3-11 were written off as irrecoverable, leaving a balance of Rs. 2-15-9 which will be realized during the current year.

(*b*) *Current.*—The original and settled demand was Rs. 313-15-2 as against Rs. 326-15-6 of the previous year. Of this amount Rs. 298-3-6 was collected, leaving an arrear of Rs. 15-11-8; of this sum As. 11-7 were collected and active steps will be taken to realize the balance.

11. (*e*) *Tax on Vehicles with springs and Palanquins;* (*f*) *Tax on Animals;* (*g*) *Tax on carts and other vehicles without springs—(a) Arrears.*—The outstanding arrears under these three heads on 31st March 1898 were Rs. 5-4-0, Rs. 8-8-0 and Re. 1, respectively; Rs. 3 and Rs. 5-8-0 were collected under the first two heads. Rs. 2-4-0, Rs. 3 and Re. 1 under these respective heads were written off as irrecoverable.

(*b*) *Current.*—The current demand under these heads amounted to Rs. 397, Rs. 516-8-0 and Rs. 534, respectively; of which Rs. 391, Rs. 510-8-0 and Rs. 534 were collected. Rs. 6 on vehicles and Rs. 6 under animals were remitted by the Council. Thus a sum of Re. 1 under tax on animals was outstanding at the end of the year and this has been since collected.

12. (i) *Tolls.*—The tolls were leased out for Rs. 3,560. The whole of this amount was collected together with Rs. 6-15-3 due for interest for late payment. Thus the total receipts were Rs. 3,566-15-3. Of this amount $\frac{1}{3}$, viz., Rs. 1,188-15-9 was paid to the District Board as contribution.

13. The total income from taxation on a population of 9,763 was Rs. 9,087-12-4 (inclusive of tolls), and Rs. 6,709-12-10 (exclusive of tolls).

14. *Coercive Process.*—Seventy-one warrants were issued during the year, of which five were for the arrears of last year; 69 warrants were executed during the year and two remained unexecuted. In three cases property was distrained and in two cases property was sold.

15. (3) *Realizations under special Acts—(c) Fees under Act II of* 1888.—A fee of Rs. 120 was collected for a dramatic pandal.

16. (4) *Revenue derived from Municipal property and powers apart from taxation—(a)* (i) *Rent of Lands.*—A sum of Rs. 113-13-6 was realized during the year under this head, of which Rs. 111-1-0 was collected on account of income due to the Municipal choultry from inam lands at Anur and Sríperumbúdúr and Rs. 2-12-6 was the income on account of the municipal land rented out to parties on agreement.

17. (iii) *Avenue Receipts.*—A sum of Rs. 65–2–9 was realized as against Rs. 80 in the revised estimate, showing a decrease of Rs. 14–15–3. This is a fluctuating item.

18. (iv) *Fees from Travellers' Bungalows.*—A sum of Rs. 156 was realized as against Rs. 150 in the revised estimate. This is also a fluctuating item depending upon the number of individuals who resort to the bungalow.

19. (viii) *Sale-proceeds of Old Materials, &c.*—A sum of Rs. 29–9–0 was realized under this head.

20. (*b*) *Conservancy Receipts—Sale-proceeds of night-soil, street refuse, &c.*—A sum of Rs. 51–1–5 was realized from the sale of street sweepings as against Rs. 60 in the revised estimate. The decrease is due to the want of demand for manure by the ryots.

21. (*c*) *Income from Educational Institutions*—(i) *School-fees.*—There are two schools, one for Panchamas and the other for Muhammadan boys, and they are maintained on the salary-result system. The fees collected from the Muhammadan school were Rs. 20–0–3 as against Rs. 20 in the revised estimate. The Panchama school is held free.

22. (*d*) *Income from Medical Instititutions*—(i) *Sale-proceeds and Composition Fees of Medicines.*—Rs. 34–12–6 was realized under this item as against Rs. 50 in the revised estimate. The decrease is due to the fact that there is a fall in the number of subscribers.

23. (ii) *Other Receipts.*—A sum of Rs. 7–15–6 was realized under this head by sale of old and unserviceable articles as against Rs. 20 in the revised estimate. This is a fluctuating item.

24. (*f*) *Other Fees*—(i) *Warrant and Distraint Fees, &c.*—A sum of Rs. 11–6–0 was collected as against Rs. 30 in the revised estimate. The decrease is due to the small number of warrants issued during the year.

25. (ii) *License Fees.*—This head comprises three items, viz., (1) fees from offensive and dangerous trades, (2) fees for temporary pandals, (3) fees for koradu pandals. The fees collected under these items were Rs. 171–7–11 as against Rs. 150 in the revised estimate. The increase is due to the fact that a sum of Rs. 20 was collected for a license fee from the South Indian Railway Company for the cart-stand maintained within the railway compound as per G.O., No. 124 M., dated 27th January 1899.

26. (iii) *Cart-stand Fees.*—A sum of Rs. 116–12–6 was collected under this head as against Rs. 110 in the revised estimate.

27. (v) *Miscellaneous Fees.*—A sum of As. 8 was collected as searching fees from parties on account of searching the records.

28. (*g*) (ii) *Fines under Municipal and other Acts.*—The receipts under this head amounted to Rs. 189–15–0 as against Rs. 200 in the revised estimate. The decrease is due to the fact that the people who commit offences under these Acts are leniently dealt with.

29. (*h*) *Interest on Investments*—(iii) *Medical.*—A sum of Rs. 970-9–2 was derived under this head against Rs. 970 in the revised estimate.

30. (5) *Grants and Contributions*—(*a*) (*i*) *Education—Schools.*—The sum of Rs. 17–8–0 was the grant received from Government on account of girls who passed the examination in the Panchama school at Gundurcheri as against Rs. 10 in the revised estimate.

31. (*b*) *From Local Boards*—(*ii*) *Medical.*—Rs. 2,000 is the contribution received from the Local Boards on account of the upkeep of the Municipal hospital.

32. (6) *Miscellaneous*—(*a*) *Recoveries, &c.*—(i) *Private Scavenging.*—There were 136 houses in the beginning of the year served by the Municipal agency which with additions and withdrawals came up to 162 on the 31st March 1899. The demand under this head amounted to Rs. 251–12–0, of which Rs. 236–6–0 were collected, leaving a balance of Rs. 15–6–0 at the end of the year. Out of this balance, Rs. 6 was since collected and steps are being taken to clear the balance.

(*b*) *Arrears.*—Out of a demand of Rs. 16–12–0, Rs. 9–8–0 was collected, leaving a balance of Rs. 7–4–0. Steps are being taken to realize the arrears from the persons who left the station.

33. (*b*) *Other Items*—(i) *Fishery Rents.*—A sum of Rs. 40–1–0 was realized from the sale of fish in the Kolavoy tank and madugu against Rs. 40 in the revised estimate.

34. (iii) *Fees for numbering Carts.*—A sum of As. 4 was realized as fees for the renewal of numbers on account of cart registry.

35. (7) *Extraordinary and Debt*—(*e*) *Advance*—(ii) *Others.*—A sum of Rs. 28–14–5 was realized as detailed below against Rs. 30 in the revised estimate :—

	RS.	A	P.
(1) Overpayment made to Messrs. Burgoyne, Burbidges & Co.	1	13	7
(2) Overpayment made to the Lawrence Asylum Press for the supply of printed forms	27	0	10

III.—EXPENDITURE.

36. The total charges for the year amounted to Rs. 13,589–4–9 as against the revised estimate of Rs. 14,160. The actual expenditure for the previous year was Rs. 12,573–9–5. The main reasons why the actual charges for the year are less than the revised estimate are—

(1) the stopping by the Council of some of the works under Grant 1 with a view to save money in case any emergency occurred on account of plague necessitating extra expenditure under that head [see Grant 1, 1 (*b*) and 2 (*a*)]; (2) the full amount of the salary grant sanctioned under Grant 2 not having been earned by the schools for which they were provided; (3) owing to saving under Grant 3, 5 (*a*) and 5 (*b*).

37. *Grant 1, Public Works*—(i) *New Works*—(*a*) *Communications.*—The total length of the roads maintained by the Municipality is six miles and seven and a half furlongs which are metalled. Two tunnels were constructed at a cost of Rs. 118–1–11, one near the Post office and the other in Peddu Chetty Street. The excess expenditure over the revised estimate of Rs. 100 was due to the payment on a bill submitted by contractor for having done additional work connected with it.

38. (*b*) *Buildings.*—One embankment was constructed near Kulinthiamman Kovil at a cost of Rs. 112. This was not provided for in the budget. This work was found absolutely necessary as the road was washed away during the rains. A sum of Rs. 200 was allotted in the budget for converting the thatch roofs of the sceptic wards attached to the hospital into tiled roofs. On estimate Rs. 200 was found insufficient for the purpose and further it was anticipated that the Council would have to spend a lot of money on plague charges. So the work was not undertaken and the amount lapsed into the balance.

39. (2) *Repairs*—(*a*) *Communications.*—Repairs to five roads and twelve streets were undertaken at a cost of Rs. 1,300–13–5 which includes the cost of clearing the side ditches in some of the streets. The saving effected under this head was transferred to Grant 1 (*b*) buildings to meet the cost of the work (embankment) *supra* for which no provision was made and also to Grant 4 (3) Printing as the provision made was insufficient—*vide* explanation in paragraph 76 *infra*.

40. (*b*) *Buildings.*—The work of repairing Gundurcheri school, travellers' bungalow, choultry, white-washing the contagious sheds of the hospital and repairing the culvert near Easwaran Kovil were undertaken during the year at a cost of Rupees 154–13–6. The excess expenditure over the revised estimate of Rs. 100 is due to the fact that the last two works were not provided for in the budget. These works were undertaken as they were very urgently needed.

41. (*c*) *Drainage*—(ii) *Establishment.*—Two drain coolies were budgeted for to clean the drains at Rs. 5 per mensem. The amount spent under this head was Rs. 114–11–3 against the revised estimate of Rs. 120. The decrease is due to stoppages and fines.

42. (*d*) *Water-supply*—(ii) *Establishment.*—The amount of expenditure under this head was Rs. 200–0–8 against the revised estimate of Rs. 190. This sum represents the pay of four permanent tank watchmen and one temporary tank watchman

appointed during the hot season to watch the Kolavoy tank—*vide* G.O., Mis. No. 43 M., dated 11th January 1899. The increase was due to the pay of the temporary watchman.

43. (iii) *Contingencies.*—The amount of Rs. 39–1–10 was incurred in removing silt, &c., from wells and tanks during the hot season against the revised estimate of Rs. 40.

44. (3) (*a*) *General Establishment.*—The amount of Rs. 78–6–2 was incurred towards the pay of the road maistry at Rs. 10 per mensem appointed from 6th July 1898 as per G.O., No. 1072 M., dated 13th June 1898, against the revised estimate of Rs. 80.

45. (4) *Tools and Plant and other Stores.*—A sum of Rs. 1–7–0 was incurred under this head for the purchase of crowbars and spades, &c., against the revised estimate of Rs. 10.

46. Total charges under Grant 1 thus amounted to Rs. 2,119–7–9 against the revised estimate of Rs. 2,450.

47. *Grant 2, Education*—(2) *Municipal Schools*—(ii) *On Salary-result System*—(*a*) *Fixed Payments.*—There are two schools maintained under this system, one for Muhammadan children and the other for Panchama children. The total number of pupils in both these schools on 31st March 1899 was 76. Of these ten were girls and the remaining 66 boys. These schools presented 50 pupils for examination, of whom 35 were declared successful. The amount expended under this head was Rs. 189–2–2 towards the pay of the schoolmasters against the revised estimate of Rs. 190.

48. (*b*) *Result Stipends.*—The amount expended under this head was Rs. 70 against the revised estimate of Rs. 70.

49. (*c*) *Contingencies.*—The amount expended under this head was Rs. 64–8–9 against the revised estimate of Rs. 70. This sum represents the expenditure on house-rent of the Muhammadan school, stationery to both schools, &c.

50. (3) *Salary Grants.*—The amount expended under this head was Rs. 582–11–1 against the revised estimate of Rs. 650. This sum was paid upon the bills submitted by the managers of the Free Church Mission high school and the Native high school, Chingleput. These two secondary schools were maintained under the salary grant system. The total number of pupils in these schools stood on 31st March 1899 was 312. Sixteen pupils were presented for examination and ten passed out successfully. The number of pupils presented under the 7th, 6th and the 5th standards during the year under review is far less than that of the previous year and this is due to the conversion of the Native secondary school into a salary grant school.

51. (4) *Fixed and Result Grants.*—The total number of schools admitted to aid during the year under report was nine and all of them received grants. The amount spent for this purpose was Rs. 800 against the revised estimate of Rs. 800.

52. (6) *Inspection*—(i) *Establishment.*—The provision of Rs. 70 made for contribution to Local Boards for the inspecting schoolmaster for inspecting the schools in the Municipality was not spent during the year and hence no figure is entered under this item against the revised estimate of Rs. 70.

53. The total charges under Grant 2 thus amounted to Rs. 1,706–6–0 against the revised estimate of Rs. 1,850.

54. *Grant 3, Medical Services, Sanitation, &c.*—(i) *Hospitals and Dispensaries*—(*a*) *Establishment.*—The amount spent under this head was Rs. 1,381–12–6 against the revised estimate of Rs. 1,400. The small saving was due to fines and stoppages.

55. (*b*) *Medicines and Supplies.*—A sum of Rs. 802–5–10 was incurred in purchasing European and bazaar medicines against the revised estimate of Rs. 900, resulting in a saving of Rs. 80–12–3.

56. (*c*) *Diet of Patients.*—The expenditure under this head was Rs. 846–4–11 against revised estimate of Rs. 700. The increase was due to the high prices of articles during the year and to the fact that special diets were prescribed by the Medical officer in several cases.

57. (*d*) *Sundries and Contingencies.*— Rs. 581–2–0 was spent against the revised estimate of Rs. 600, resulting in a saving of Rs. 12–6–10.

58. (2) (*a*) *Contributions to Provincial Funds for* (i) *Medical College*—(ii) *Sanitary Inspection*—(iii) *Medical Reserve Staff.*—The expenditure under items (i), (ii) and (iii) was Rs. 82, Rs. 41 and Rs. 12, respectively, against the revised estimate of Rs. 20, Rs. 10 and Rs. 10, respectively. These sums were paid as per advice of the Treasury Deputy Collector under instructions from the Accountant-General. This communication was received only at the end of the year; hence the exact amount was not provided for in the budget.

59. (*c*) *Other Contributions.*—A sum of Rs. 28–8–0 was spent on account of stipends paid to the midwifery pupil under training against the revised estimate of Rs. 30.

60. (3) *Vaccination*—(*a*) *Establishment.*—There is only one vaccinator for the town. His pay amounted to Rs. 96 at the rate of Rs. 8 per mensem against the revised estimate of Rs. 100. The number of cases vaccinated during the year was 822, of which 583 were successful and 152 unsuccessful. The operations were performed with lanoline lymph obtained from the Mysore Government Vaccine Depot, Bangalore.

61. (*b*) *Contingencies.*—The expenditure under this head amounted to Rupees 67–1–10 against the revised estimate of Rs. 60. The excess amount is due to the purchase of lancet, cups, soaps, &c., for the use of the vaccinator and to printing vaccination forms.

62. (4) *Registration of Births and Deaths*—(*a*) *Establishment.*—The amount of Rs. 117 represents the pay of the birth and death registrar at the rate of Rs. 10 per mensem against the revised estimate of Rs. 120. The saving is due to fines.

63. (*b*) *Contingencies.*—A sum of Rs. 6–4–11 was spent for printing forms for the use of the birth and death registrar against the revised estimate of Rs. 10.

64. (5) *Sanitation*—(*a*) *Conservancy, Road-cleaning and Road-watering*—(i) *Establishment.*—The amount incurred under this head was Rs. 1,170–11–3 against the revised estimate of Rs. 1,270. The saving is caused partly by not entertaining two sweepers till the middle of the year as the new conservancy cart was not ready till that time and partly by giving pay at the rate of Rs. 4 per mensem to a scavenger though Rs. 5 was sanctioned as one was available at that rate and also by fines and stoppages and by not entertaining a scavenger on Rs. 5 though sanctioned in the budget.

65. (ii) *Other charges.*—The amount expended under this head was Rs. 923–7–7 against the revised estimate of Rs. 930.

66. (*b*) *Private Scavenging*—(i) *Establishment.*—The amount expended under this head was Rs. 230–8–6 against the revised estimate of Rs. 230.

67. (*c*) *Epidemic Charges* (*Plague*).—A sum of Rs. 579–10–7 was expended against the revised estimate of Rs. 620. This was spent on account of erection of plague segregation camps and sheds, dieting charges of the segregated people connected with a plague patient who died at Chingleput, cooly paid to the attendants on the plague patient, purchase of medicines, sundries, &c., and also rewards given for destruction of rats, &c. Rs. 132–11–8 was paid to the nurse on plague inspection duty at the railway station for her travelling allowance and pay from 26th January 1899. This Rs. 132–11–8 and certain sundry items are to be recovered from Provincial funds as per G.O., No. 915 L., dated 27th April 1899.

Cholera.— A sum of Rs. 38–0–9 was spent during the time of epidemic of cholera in hiring temporary coolies for disinfection purposes, in purchasing medicines and in other sundries against the revised estimate of Rs. 100.

68. The total charges under Grant 3 thus amounted to Rs. 7,003–14–8 against the revised estimate of Rs. 7,110.

69. *Grant 4, Lighting and Miscellaneous Municipal purposes*—(i) *Lighting*—(*a*) *Establishment.*—The charge incurred under this head was Rs. 103–12–5 against the

revised estimate of Rs. 110. The expenditure represented the pay of the two lamp-lighters at Rs. 4–8–0 each. There are in all sixty-one lights in the town. The saving is due to stoppages and fines.

70. (*b*) *Contingencies.*—The amount spent under this head was Rs. 317-0-2 against the revised estimate of Rs. 340. The charge incurred was for kerosine-oil, chimneys, tape, &c., purchased for lighting the town. The saving is due to the fall in the price of kerosine-oil.

71. 3. *Choultries*—(*a*) *Establishment.*—The charge incurred under this head was Rs. 131–4–10 against the revised estimate of Rs. 132 or Rs. 130 taken as round figure in the revised estimate. The choultry has three portions—one for Brahmins, one for Sudras and the third for Muhammadans, Eurasians and Christians. The first portion is watched by a Brahmin servant who supplies water to travellers for drinking purposes. The second and third are watched by a Sudra servant. There are two latrines attached to the choultry which are cleaned by a scavenger. There is also a sweeper who sweeps the choultry. The above charge represents the pay of all these servants.

72. (*b*) *Contingencies.*—The amount spent under this head was Rs. 20–2–4 against the revised estimate of Rs. 20. The charge was for lighting the choultry and for purchase of ropes, brooms, winnows, &c., required for the choultry.

73. (4) *Travellers' Bungalow*—(*a*) *Establishment.*—The amount spent was Rs. 96 against the revised estimate of Rs. 100. The charge incurred was for the pay of the cook on Rs. 6 and a toti on Rs. 2 per mensem.

74. (*b*) *Contingencies.*—The amount expended under this head was Rs. 60–2–9 against the revised estimate of Rs. 70. This expenditure was incurred on account of the bills for repairs to punkahs painting doors, &c., done during 1897–98 having been paid for during 1898–99, on account of the purchase of towels, plates, cups, knives, &c., for the use of the bungalow and on account of the wages of the dhoby.

75. (10) *Other charges*—(ii) *Rewards for destruction of pigs and dogs.*—A sum of Rs. 7–11–0 was spent under this head against the revised estimate of Rs. 10.

76. (iii) *Stationery and Printing.*—A sum of Rs. 439–1–6 was incurred under this head against the revised estimate of Rs. 410. As intimation was received from the Collector to remit Rs. 72–10–0 to the treasury on account of private work done by the Government Press, this sum was accordingly paid into the treasury; hence the increase over the revised estimate.

77. (v) *Law charges.*—The amount spent under this head was Rs. 24–1–0 against the revised estimate of Rs. 50.

78. The total charges under Grant 4 thus amounted to Rs. 1,199–4–0 against the revised estimate of Rs. 1,240.

79. *Grant 5, Supervision and Management*—(i) *General Establishment*—(*a*) *Inspection*—(ii) *Conveyance allowance.*—The amount incurred under this head was Rs. 209–14–3 against the revised estimate of Rs. 210. The charge represents the carriage allowance paid to the Chairman during the year.

80. (*b*) *Office Establishment.*—The expenditure under this head was Rs. 607–8–0 against the revised estimate of Rs. 610. The saving is due to fines and stoppages.

81. (*c*) *Contingencies.*—A sum of Rs. 271–0–11 was incurred against the revised estimate of Rs. 280. The charge incurred was for the purchase of postage stamps, stationery for office use, for office house-rent paid at Rs. 10 per mensem and for the purchase of an almirah for Rs. 20.

82. (*d*) *Collection of Municipal Taxes*—(i) *Establishment.*—The expenditure incurred under this head was Rs. 216 against the revised estimate of Rs. 216 or Rupees 220 taken as round figure in the revised estimate.

83. (ii) *Contingencies.*—The expenditure incurred under this head was Rupees 106–2–5 against the revised estimate of Rs. 100. The charge was incurred on account of printed forms, books, &c., supplied by the Lawrence Asylum Press.

84. (2) (a) *Contribution for Central Office, &c.*—A sum of Rs. 40 was paid as per revised estimate.

85. The total charges under Grant 5 thus amounted to Rs. 1,450–9–7 against the revised estimate of Rs. 1,460.

86. *Extraordinary and Debt*—(3) *Advances Recoverable*—(*b*) *Other.*—A sum of Rs. 50 was paid under this head to meet plague charges when occasion arises and Rs. 16–13–11 was the overpayment into the treasury on account of medicines supplied by Messrs. Burgoyne, Burbidges & Co.

87. (4) *Refunds of other than current Collections.*—A sum of Rs. 42–12–10 was refunded as detailed below :—

	Rs.	A.	P.
Tax on buildings	30	0	0
Koradu pandal license	0	13	5
Land-tax	0	0	11
Remission for vacant houses	11	14	6
Total	42	12	10

88. Total income from the various sources, including the balance as shown in statement I, amounted to Rs. 15,256–6–7. The total charges as shown in statement II amounted to Rs. 13,589–4–9.

The difference, viz., Rs. 1,667–1–10, is the balance with which the year closed.

89. Before closing, a few general remarks are necessary. The resources of the Municipality are very limited. It may be mentioned that this Municipality is probably the smallest Municipality in the Presidency. It has not as yet passed through the trial stage. The suggestions made from time to time by the District Medical and Sanitary Officer, the Director of Public Instruction and other heads of various departments, though all of them are intended for the benefit of the town and for the well-being of the population, are yet suggestions which the Municipal Council cannot fully adopt owing to want of funds. But the Council heartily thanks the various officers concerned for several suggestions that they make from time to time and will do its very best to carry out those suggestions so far as funds permit.

90. An extract from the Minutes of Proceedings of the Council adopting this report is submitted together with the educational statements.

ENCLOSURE.

CONCISE annual report on the working of the Municipal Hospital, Chingleput, for the official year 1898–99, No. 38–P.L.

1. *Public Health.*—The general health was, on the whole, fair. There was a sharp but short outbreak of cholera in Melamyur, a village which is conserved in the Municipality of Chingleput, the cause of which was traced to a tank that was open to pollution and from which the people of the village were drawing their supply of drinking water. The use of this water was stopped by employing a watchman, and it had the desired effect of arresting the progress of the disease. There were 21 attacks, of which 12 proved fatal. The necessary sanitary measures for combating cholera, such as the disinfection of wells in the backyards of the infected houses, securing all cholera discharges with disinfectants and destroying them by fire, and the general sanitation of the infected houses and their backyards were attended to. There was one death from small-pox, which was an imported case from Conjeeveram.

Malarial fevers, affections of the respiratory system and rheumatic affections were unusually prevalent owing probably to the uncommonly heavy rainfall during the latter part of the year.

2. *Vital Statistics.*—The total number of births and deaths was 396 and 288, against 362 and 312 respectively in the previous year.

The registration continued to be satisfactory. Only one person was prosecuted for not reporting a birth, and he was warned by the Magistrate.

3. *Sanitation.*—One sanitary inspector, two sweepers and one toty were newly appointed during the year.

Latrines.—There are only eight, of which four were constructed on sanitary principles, and the other four are mere enclosures. The latter should be gradually replaced by better ones. Four toties look after eight public latrines, and clean them only twice a day. People resort to sheltered and unfrequented places in preference to the public latrines, as they are generally not kept clean. One toty should be appointed to look after each latrine and clean it frequently, and one hand cart with a night-soil bucket should also be provided for each latrine for storing night-soil. There are only two night-soil and six conservancy carts, which are quite insufficient for the requirements of the town. One hundred and sixty-two houses were cleaned under the private scavengering system against 140 in the previous year.

Drainage system.—There is no proper system of drainage for the town. The house drainage is allowed to run into the side drains, which are badly constructed and are converted into pools of stagnant liquid filth, contaminating the soil and sub-soil water by soakage, and the air by the emanation of offensive gases. They should be cleaned out daily and the sewage liquid should be removed in water-tight carts until the town is provided with a proper system of drainage. There are a few cess-pools, which are not regularly cleaned by the owners and are generally in a dirty state.

There are twenty-four masonry and twenty-six movable galvanized iron dust-bins. The masonry dust-bins are mostly out of repair and should be substituted by movable iron ones. The water-supply is obtained chiefly from three public tanks and twelve public wells and also from the fort ditch and the river, which are subject to pollution in various ways. The three public tanks should also be watched at nights from being contaminated and also the fort ditch as many people make use of its water.

Rubbish is swept up and removed in six conservancy carts to a spot set apart for the purpose, where it remains in heaps and is sold in the cultivation season to ryots. It becomes very offensive especially in the wet weather from the decomposition of animal and vegetable matter. A better arrangement will be to burn it in an incinerator or rubbish destructor, and store the ashes for sale when required by the ryots for use as manure.

A public market and a slaughter-house are a great want for this town. The present market, which is a private property, is in a very bad state of repair without an ample supply of clean water and without any provision for drainage, which are essential for a market. It is over three years since it was lime-washed, and should be white-washed at least once in three months. Its license should not be renewed until and unless it is thoroughly repaired, and if possible, the above-mentioned defects are remedied. The sheep are slaughtered in an open private ground near the market without undergoing any previous inspection. The sanitary inspector should examine and pass the animals before they are slaughtered. The owner may be induced to construct a slaughter-house on the standard plan as it is a remunerative concern, if the Municipality cannot find sufficient funds for the undertaking. The roads are generally in disrepair.

4. *Vaccination* was carried on with lanoline paste supplied from the Bangalore Vaccine Institute by probationary vaccinator Hithamathy. He has vaccinated in all 822 cases against 732 in the previous year.

Under primary vaccination 512 cases were vaccinated against 658 in the year previous with a percentage of success of 89·07 and 80·85, respectively. Of these 377 were in children under one year of age against 323 with a successful percentage of 87·92 and 85·14, respectively. The total number of births during the year was 305 exclusive of 91 still births, and deaths within the six months after birth. The percentage of infantile vaccination as compared with the births was 120·39 against 112·19 in the previous year.

5. *Hospitals and Dispensaries*—(*a*) *Nature and Sufficiency of Accommodation.*—It is limited and unsuitable for the purpose, chiefly the out-patient department.

(*b*) *State of Repair of Buildings.*—The buildings are in a fair condition, but are in urgent need of a few minor repairs. The hospital was not lime-washed during the year.

(*c*) *State of Repair of Furniture.*—It is in good repair.

(*d*) *Inspections*—(1) *Steps taken to carry out the Recommendations, if any, of the Surgeon-General with the Government of Madras.*—None of the several recommendations made year after year by the Surgeon-General have been carried out except providing disinfecting tubs. As the Municipality incurs only less than a fourth of the annual charges of the hospital, it ought to be able to spare every year at least one or two thousand rupees for carrying out the necessary improvements strongly recommended by the Surgeon-General or the Municipal Council may set apart at least the annual interest on the hospital endowment for the purpose with a view to complete the improvements in a few years.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and Medicines.*—The amount of Rs. 34–12–6 was realized by the sale of medicines and Rs. 9–3–2 on account of diets supplied to patients.

(*f*) Number of patients treated as compared with previous years.

Years.	In-door.	Out-door.	Total.
1896-97	388	11,847	12,235
1897-98	483	12,164	12,647
1898-99	353	12,688	13,041

(*i*) *Establishment whether sufficient and efficient.*—The establishment is very inadequate. Some of the servants are so miserably low paid that efficient men cannot be had for the pay that is offered. Proposals have been frequently made in vain to the Municipal Council to increase the strength and improve the pay of the establishment.

(*j*) *Midwives—Work actually done.*—The midwife conducted 73 cases during the year against 52 in the previous year.

(*k*) *Dufferin Fund Dispensaries.*—Nil.

(*l*) *General remarks.*—Nil.

CHINGLEPUT,
20*th May* 1899.

(Signed) C. S. LANGLEY,
District Medical and Sanitary Officer.

Forwarded to the Collector.

2. *Paragraph* 28.—I am inclined to think that the small amount of fines collected is due to lack of energy in detecting and prosecuting nuisance cases. The police may be asked to help the Municipality as much as possible in this matter.

3. *Paragraph* 32.—The proportion of houses served by the Municipal agency to the total number of houses assessed is still too small, being only 10·4 per cent. and only 26 houses were added during the year under report. The outstanding balance is due to neglect of the instructions of Government as to the collection of private scavenging fees *in advance.*

4. I agree with the District Medical and Sanitary Officer that the roads are generally in bad repair. I am afraid that the contractor is not doing his work properly.

5. The proposal of the District Medical and Sanitary Officer as to the disposal of dry rubbish may be tried during the current year (1899–1900) as the income derived from the sale of night-soil and dry rubbish is inconsiderable. The number of properly constructed latrines should be increased. People are naturally repelled by the "mere enclosures" which now do duty as such.

1*st June* 1899.

(Signed) J. P. BEDFORD,
Ag. Sub-Collector.

Dis. No. 1355-D.

Forwarded.

2. *Paragraph* 4.—The average attendance of the official and non-official members has fallen from 1·5 and 6·6 in the preceding year to ·9 and 6·1 respectively during the year under report. The fall in the attendance of the latter is slight. The attention of the official members will again be invited to G.O., No. 859 M., dated 10th April 1897.

3. The collection of taxes continued to be satisfactory. The decrease in the number of cases in which warrants were issued is also satisfactory.

4. *Paragraph* 32.—The proportion of houses served by the private scavenging agency to the total number assessed to the tax on buildings is still exceedingly small. The system is however self-supporting.

5. *Paragraph* 52.—No reason has been assigned for the failure to spend the allotment of Rs. 70, contribution to Local Funds on account of the inspecting schoolmaster.

6. The reason for the decrease of 28 per cent. in the number of in-patients treated is not apparent. It is not known whether rules under section 127 of the District Municipalities Act for the receipt and treatment of patients were framed.

7. There was a slight increase in the number of cases vaccinated during the year, but the proportion of successful cases fell from 80·1 per cent. to 72·1.

8. The registration of vital statistics shows some improvement.

9. I can endorse the remarks of the Sub-Collector and the District Medical and Sanitary Officer on the roads.

SAIDAPET,
8th June 1899.

(Signed) D. W. G. COWIE,
Ag. Collector.

ORDER—No. 948 M., dated 6th July 1899.

The receipts and charges of the Chingleput Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98 :—

2. The Municipal Council held thirteen meetings or one more than in the previous year. The average attendance of the members declined and was poor in the case of officials, but fair in that of non-officials.

3. *Receipts.*—(1) Owing apparently to more careful assessment, the net current demand under the tax on arts and professions rose from Rs. 860 to Rs. 949 and the average incidence from Rs. 3-8-2 to Rs 3-12-9. The house and land tax registers were revised during the year, with the result that the demand under the former tax increased from Rs. 2,883 to Rs. 4,041, while under the latter it remained practically unaltered. The collections under these taxes, both current and arrears, continued to be satisfactory, and coercive processes were much fewer than in the previous year.

(2) There was a decline in the income from tolls and fines, which in the case of the former is ascribed to want of competition at the auction sale and in that of the latter to leniency in dealing with nuisance cases. In this connection, the attention of the Inspector-General of Police will be drawn in the Judicial Department to the suggestion made by the Sub-Collector in paragraph 2 of his endorsement. The sale of the town-sweepings brought in only Rs. 51 against Rs. 109 in 1897-98. This source of revenue should be fostered, as it is capable of considerable improvement.

(3) The number of houses served by the private scavenging agency and the receipts from this source rose from 136 and Rs. 181, respectively, to 162 and

Dis. No. 1355-D.

2. The Municipal Council held thirteen meetings or one more than in the previous year. The average attendance of the members declined and was poor in the case of officials, but fair in that of non-officials.

3. *Receipts.*—(1) Owing apparently to more careful assessment, the net current demand under the tax on arts and professions rose from Rs. 860 to Rs. 949 and the average incidence from Rs. 3–8–2 to Rs 3–12–9. The house and land tax registers were revised during the year, with the result that the demand under the former tax increased from Rs. 2,883 to Rs. 4,041, while under the latter it remained practically unaltered. The collections under these taxes, both current and arrears, continued to be satisfactory, and coercive processes were much fewer than in the previous year.

(2) There was a decline in the income from tolls and fines, which in the case of the former is ascribed to want of competition at the auction sale and in that of the latter to leniency in dealing with nuisance cases. In this connection, the attention of the Inspector-General of Police will be drawn in the Judicial Department to the suggestion made by the Sub-Collector in paragraph 2 of his endorsement. The sale of the town-sweepings brought in only Rs. 51 against Rs. 109 in 1897–98. This source of revenue should be fostered, as it is capable of considerable improvement.

(3) The number of houses served by the private scavenging agency and the receipts from this source rose from 136 and Rs. 181, respectively, to 162 and

Rs. 246, and the service was more than self-supporting. As however the system is now adopted by only 10·5 per cent. of the total number of houses assessed to the tax on buildings, there is ample scope for its extension, which the Council should effect in the current year, the surest means to this end being the systematic prosecution of all owners of insanitary premises. In this connection, the attention of the Municipal Council is drawn to the remarks of the Sub-Collector in the second sentence of paragraph 3 of his endorsement.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The total outlay on communications amounted to Rs. 1,419 or 59·7 per cent. of the net Municipal income from tolls; but the District Medical and Sanitary Officer reports, and the Sub-Collector and the Collector agree in the opinion, that the town roads are generally in bad repair—a result which is stated by the Sub-Collector to be due probably to the failure of the contractor to do his work properly. Every endeavour should be made to improve them in the current year.

(2) *Education.*—The net expenditure on education was Rs. 1,669 or 18·4 per cent. of the receipts from taxation, and more than one half of this sum was devoted to primary education. The Municipal Council maintained, as in the previous year, two primary schools on the salary-result system, one of which was for Muhammadans and the other for Panchamas, and aided with salary grants two secondary schools against one and with result grants one secondary and nine primary schools against one and six, respectively, in 1897–98. The attendance at the Municipal schools declined slightly; but at the aided schools taken together, it showed a marked improvement. The results of the departmental and grant examinations were fair and all but 4·6 per cent. of the allotment for grants was utilized. It is very gratifying to observe that the total number of boys under instruction in the schools maintained and aided from Municipal funds again rose from 464 to 776 or 5·2 per cent. in excess of the male population of school-going age. The omission pointed out by the Collector in paragraph 5 of his endorsement should be supplied without delay.

(3) *Medical Relief.*—The number of out-patients treated at the Municipal hospital rose from 12,199 to 12,688; but that of in-patients fell from 489 to 353, and for this no explanation has been offered. The Municipal Council is requested to frame a set of rules under section 127 of the District Municipalities Act for the treatment of patients in the Municipal hospital and submit them for the sanction of Government at an early date. The midwife employed by the Municipal Council attended 73 cases of labour against 52 in 1897–98. The attention of the Council is drawn to the remarks of the District Medical and Sanitary Officer in paragraphs 5 (*a*), (*b*), (*d*) and (*i*) of his report regarding the improvements to the hospital building and the inadequacy of the establishment.

(4) *Vaccination and Vital Statistics.*—The number of persons vaccinated during the year rose from 732 to 822; but the percentage of reported success fell from 80·1 to 70·9. Infantile vaccination, however, made good progress, the number of children under one year successfully vaccinated having risen from 275 or 28·2 per mille of the population to 364 or 37·3 per mille; and as from paragraph 4 of the Medical officer's report it appears that the total number of children available for vaccination was 305, the results, if the returns are correct, point to the incorrectness of the vital statistics.

The number of births registered during the year rose from 362 or 34·3 per mille of the population to 396 or 40·6 per mille; but that of deaths declined from 312 or 32 per mille to 288 or 29·5 per mille. The rates recorded are somewhat below the normal. The Municipal Council should devote its special attention to rendering the returns more accurate and trustworthy.

(5) *Sanitation.*—The expenditure under this head, amounting to Rs. 2,942 exceeded the allotment by 9 per cent. and was 21·8 per cent. of the current receipts. From paragraph 3 of the District Medical and Sanitary Officer's report, it appears that some attention is being paid to the sanitation of the town; but the several defects pointed out by that officer should be remedied, as far as funds permit. In this connection, the attention of the Municipal Council is drawn to the remarks of the Sub-Collector in paragraph 5 of his endorsement. The reduction from Rs. 5 to Rs. 4 in

the salary of one of the scavengers referred to in paragraph 64 of the Chairman's report should have been reported for the approval of Government, which is, however, now accorded.

5. *General Remarks.*—The year closed with a balance of Rs. 1,667 or 12·4 per cent. of the receipts.

The administration of the Municipality during the year under review showed an advance on that of the previous year and was tolerably satisfactory; but the improvement of roads and sanitation demand closer attention.

48.

2. The Municipal Council held thirteen meetings or one more than in the previous year. The average attendance of the members declined and was poor in the case of officials, but fair in that of non-officials.

3. RECEIPTS: (1) Owing apparently to more careful assessment, the net current demand under the tax on arts and professions rose from Rs.860 to Rs.949 and the average incidence from Rs.3-8-2 to Rs.3-12-9. The house and land tax registers were revised during the year, with the result that the demand under the former tax increased from Rs.2,883 to Rs.4,041, ~~but~~ under the latter, it remained practically unaltered. The collections under these taxes, both current and arrears, continued to be satisfactory, and coercive processes were much fewer than in the previous year.

(2) There was a decline in the income from tolls and fines, which in the case of the former is ascribed to want of competition at the auction sale and in that of the latter to leniency in dealing with nuisance cases. In this connection, the attention of the Inspector-General of Police will be drawn in the Jud[illegible] The Department to the suggestion [illegible]ector in Sub-Collector in para.2 of hi[illegible]ld be supment. The sale of the town

brought in only Rs.51 against Rs.109 in 1897-98. This source of revenue should be fostered, as it is capable of considerable improvement.

Please see also para 5 of the Sub-Collector's endorsement.

(3) The number of houses served by the private scavenging agency and the receipts from this source rose from 156 and Rs.181, respectively, to 162 and Rs.246, and the service was more than self-supporting. As however the system is now adopted by only 10.5 per cent of the total number of houses assessed to the tax on buildings, there is ample scope for its extension, which the Council should effect in the current year, the surest means to this end being the systematic prosecution of all owners of insanitary premises. In this connection, the attention of the Municipal Council is drawn to the remarks of the Sub-Collector in the second sentence of para.5 of his endorsement.

4. EXPENDITURE (1) PUBLIC WORKS: No new work of any importance was undertaken during the year. The total outlay on communications amounted to Rs.1,419 or 59.7 per cent of the net Municipal income from tolls; but the District Medical and Sanitary Officer reports, and ...b-Collector and the Collector ...he opinion, that the town roads ...ly in bad repair - a result ...ated by the Sub-Collector to be

Vide last sentence of para 3 of the Medical report and paras 4 and 9 of the Sub-Collector's and Collector's respective endorsements.

para 4(2) G.O. 1567-M 6-9-98 N.

Vide para 4 of the Chairman's letter

48

probably be due to the failure of the contractor to do his work properly. Every endeavour should be made to improve them in the current year.

(2.) EDUCATION: The net expenditure on education was Rs.1,669 or 18.4 per cent of the receipts from taxation, and more than one-half of this sum was devoted to primary education. The Municipal Council maintained, as in the previous year, two primary schools on the salary-result system, - one of which was for Muhammadans and the other for Panchamas - and aided with salary grants two secondary schools against one, and with result grants one secondary and nine primary schools against one and six respectively, in 1897-98. The attendance at the Municipal schools declined slightly, but at the aided schools taken together, it showed a marked improvement. The results of the departmental and grant examinations were fair and all but 4.6 per cent of the allotment for grants was utilized. It is very gratifying to observe that the total number of boys under instruction in the schools maintained and aided from Municipal funds again rose from 464 to 776 or 5.2 per cent in excess of the male population of school-going age. The omission pointed out by the Collector in para.5 of his endorsement should be supplied without delay.

(3)

(3) MEDICAL RELIEF: The number of ~~out~~ out-patients treated at the Municipal hospital rose from 12,199 to 12,688; but that of in-patients fell from 489 to 355, and for this no explanation has been offered. The Municipal Council is requested to frame a set of rules under Section 127 of the District Municipalities Act for the treatment of patients in the Municipal hospital and submit them for the sanction of Government at an early date. The midwife employed by the Municipal Council attended 73 cases of labour against 52 in 1897-98. The attention of the ~~Municipal~~ Council is drawn to the remarks of the District Medical and Sanitary Officer in paras 5(a), (b), (d) and (i) of his report regarding the improvements to the hospital building and the inadequacy of the establishment.

Vide para 6 of the Collector's endorsement

(4) VACCINATION AND VITAL STATISTICS: The number of persons vaccinated during the year rose from 732 to 832; but the percentage of reported success fell from 80.1 to 70.9. Infantile vaccination however made good progress, the number of children under one year successfully vaccinated having risen from 275 or 28.2 ~~per~~ per mille of the population to 364 or 37.3 per mille; and as from para.4 of the Medical Officer's report it appears that the total number of children available for vaccination was only 305, the results ~~must be considered to be very satisfactory~~, if the returns are correct.

point to the incorrectness of the births Statistics

Note The total number of births including Still births & deaths within six months after birth is given as 305.

The

58

The number of births registered during the year rose from 362 or 34.3 per mille of the population to 396 or 40.6 per mille; but that of deaths declined from 312 or 32 per mille to 288 or 29.5 per mille. ~~The returns in both cases were still incomplete,~~ the rates recorded are somewhat ~~being~~ below the normal. The Municipal Council should devote its special attention to rendering the returns more accurate and trustworthy.

(5) SANITATION: The expenditure under this head amounting to Rs.2,942 exceeded the allotment by nine per cent and was 21.8 per cent of the current receipts. From Para.3 of the District Medical and Sanitary Officer's report it appears that some attention is being paid to the sanitation of the town; but the several defects pointed out by that Officer should be remedied as far as funds permit. In this connection, the attention of the Municipal Council is drawn to the remarks of the Sub-Collector in para.5 of his endorsement. The reduction from Rs.5 to Rs.4 in the salary of one of the scavengers referred to in para.64 of the Chairman's report should have been reported for the approval of Government, which is however now accorded.

5. GENERAL REMARKS: The year closed with a balance of Rs.1,667 or 12.4 per cent of the receipts.

The

The administration of the Municipality during the year under review showed an advance on that of the previous year and was tolerably satisfactory; but the improvement of roads and sanitation demand closer attention.

* Statements I and II should accompany budgets as well as reports. When submitted with the budgets, if columns 2 and 3 show the estimate for 1898-99, column 4 should exhibit the revised estimate for 1897-98, column 5 the budget estimate for the same year, *exclusive of subsequent allotments*, and column 6 the actuals of 1896-97.

† Expenditure on toll-tickets and process-fees and overpayments to District Boards on account of tolls should be debited to advances recoverable in Statement II, and when these are recovered the recoveries should be credited to this head.

Note to Statement I [1].—

1. The tax on arts, &c., is levied on ~~the first~~ all classes.
2. The tax on buildings is levied at 6¼ per cent. and the tax on lands at 6¼ per cent. of rent value. of Cultivable Lands annas 2 for every 80 square yards. of Lands unappropriated to any building or occupied by naked huts.
3. The water and drainage tax on buildings and lands is not levied at ~~per cent~~.
4. The tax on vehicles and animals is levied at ~~the~~ maximum rates.
5. The tax on carts, &c., is levied at Rs. ~~4-0-0~~ per cart per annum.
6. The tax on private, menial and domestic male servants is levied ~~at Rs.~~ ~~per mensem for each servant~~.
7. Tolls are levied at half the maximum rates.
8. License-fees are levied at the rates sanctioned in G.O. Nr 216 M dated 15 February 1897, G.O. Nr 1042 M/ 12 May 1897 & G.O. Nr 1656 M. 8.9 July 1897.
9. The house-tax registers were last revised in the official year 1898-99 and the land-tax registers in the official year 1898-99.
10. The total extent of land assessed is 410.1 acres.
11. The mode of estimating the annual rental of houses and lands is as follows:— In the case of houses actually occupied by * tenants, the rent that they pay to the Landlord is taken as the annual valuation. In the case of houses occupied by the owners themselves a fair estimate of rent is made regard being had to the rent of neighbouring houses occupied by tenants, and the yearly tax levied is 6¼ per cent of the annual rental. In the case of vacant lands the amount of tax is 2 annas per 80 sq. yards; with regard to nunjah and punjah lands the rent is taken on the Government assessment and 6¼ per cent is levied on this.

Dis. 8.9.246 M 21-2-99

[1] This note should be filled in both when the statement is submitted with the budgets as well as when it accompanies reports, but in the former case items 9, 10 and 11 may be left blank.
