Administration Report.

Reviewing the — of the Bimlipatam Municipal Council for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From W. ST. B. SYDENHAM, Esq., Chairman-Delegate, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector), dated 20th May 1899, No. 63-M.

I have the honour to submit herewith my report on the administration of this municipality for the financial year ending 31st March 1899 together with the annual accounts. The accounts and the report were duly circulated among the Councillors and formally approved and passed by them at their special meeting held on the 27th May 1899.

2. Copy of the Council's resolution on the same is herein enclosed.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

3. The municipality was governed throughout the financial year by Act IV of 1884 as amended by Act III of 1897. The strength of the Council on the 31st March last was 10 against 12 including the Divisional officer who is ex-officio Councillor of the municipality. Now that the system of electing Councillors has come into force, the two vacancies in the Council are, according to the instructions of the Divisional officer, to be filled up by election which will take place at a meeting to be held on the 26th instant and the result of the same will be duly reported to the Government. There is another vacancy in the present official year caused by the expiry of the term of the late Chairman, M.R.Ry. K. B. Nilachalam Pantulu Garu, on the 5th instant. The Divisional officer who had charge of the municipality till the 8th instant, handed over charge to me on that date as Chairman Delegate. Out of the actual number of Councillors on 31st March 1899, two were officials including the Divisional officer and the official element is now what it ought to be—*vide* section 11 of the Act. Of the ten Councillors, there is only one European Councillor excluding the Divisional officer.

4. During the year under report, fifteen meetings were convened, of which only one was adjourned for want of quorum. The average attendance at each meeting actually held was 6·36 as against 5·5 of the preceding year. The average attendance of officials was one as against ·19 of the previous year and that of non-officials as against 5·31. The increase in the attendance speaks well of the interest taken in the Council, while that of the official element is due to the presence of the Divisional officer at some of its meetings.

5. The year [illegible]

7. A sum of Rs. 11,587-7-10 was the total demand of the principal taxes as originally assessed by the Chairman, of which Rs. 51-8-0 were remitted by the Council on appeal. A sum of Rs. 11,535-15-10 was therefore left to be collected during the year under report. Against this, a sum of Rs. 11,295-10-11 including a penal interest of As. 1-2 on overdue kists, was recovered and credited to accounts; Rs. 21-15-0 was remitted on account of vacant houses and Rs. 133-3-9 was written off as irrecoverable. The balance of Rs. 85-3-4 is therefore left to be collected in the current year.

8. *Tax on Arts.*—This tax was levied on all classes except class 2, for want of persons liable to be taxed under that class. The original demand under this head was Rs. 1,493, of which Rs. 46-8-0 was remitted by the Council on appeal. The final demand was Rs. 1,446-8-0, of which Rs. 1,403 were actually collected against Rs. 1,350 of the revised estimate and Rs. 18-8-0 were written off as irrecoverable, leaving a balance of Rs. 25 which were collected in the beginning of the current year. Only seven warrants were issued for the collection of this tax and I am glad to state that in five cases the tax-payers tendered payment before attachment of property; in one case property was attached but not sold and in another case the amount was written off as irrecoverable owing to poverty. In the case of the outstanding sum of Rs. 25, no warrants were issued as the persons concerned were assessed only at about the close of the year and as the year closed before the due date of serving warrants against them. The Council spared no pains to tax all persons liable to assessment and so there was an increase under this head, although no persons were assessed under class 2.

9. *Tax on Buildings.*—This tax was levied at 8½ per cent. on the actual or probable annual rental of buildings and lands. The original as well as the final demand under this head was Rs. 3,021-1-2 against Rs. 2,660-4-8 and Rs. 2,657-9-6, respectively, of the previous year. Out of the net demand, a sum of Rs. 2,846-9-1 was recovered against Rs. 2,900 of the revised estimate, Rs. 21-15-0 were remitted on account of vacant houses, &c., and Rs. 92-15-9 were written off as irrecoverable, leaving a balance of Rs. 59-9-4 to be collected during the ensuing year against Rs. 27-14-4 of the preceding year. The decrease by which the actual collection has fallen short of the revised estimate is accounted for by the absence from the town of the owners of many of those buildings which fetch a high rent. For the collection of this tax, 36 warrants were issued against 57 of the previous year. Three warrants were outstanding at the beginning of the year. The total number of warrants thus issued was 39. Of these, 36 were executed, two cancelled on which no collections were made and only one remained to be accounted for in the current year. Out of the 36 warrants thus executed, in 27 cases, the amount was collected after the issue of warrants, but before the distraint and in nine cases property was distrained but not sold.

10. *Tax on Lands.*—The original demand as assessed by the Chairman and that finally settled were the same and that was collected in full. No warrants were issued.

11. *Tax on Vehicles, Animals and Carts.*—The full schedule rates were levied [illegible] animals, but not on carts. The original demands under these heads [illegible]224, Rs. 334 and Rs. 153, and of these Rs. 3 on vehicles and [illegible]mitted by the Council on appeal. The net demands were, [illegible] and Rs. 153. Out of these, Rs. 212, Rupees [illegible]d carts, respectively, were collected and [illegible] off as irrecoverable, leaving a [illegible]nimals, three warrants [illegible]ount was written [illegible] the two

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From W. ST. B. SYDENHAM, Esq., Chairman-Delegate, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector), dated 20th May 1899, No. 63-M.

I have the honour to submit herewith my report on the administration of this municipality for the financial year ending 31st March 1899 together with the annual accounts. The accounts and the report were duly circulated among the Councillors and formally approved and passed by them at their special meeting held on the 27th May 1899.

2. Copy of the Council's resolution on the same is herein enclosed.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

3. The municipality was governed throughout the financial year by Act IV of 1884 as amended by Act III of 1897. The strength of the Council on the 31st March last was 10 against 12 including the Divisional officer who is ex-officio Councillor of the municipality. Now that the system of electing Councillors has come into force, the two vacancies in the Council are, according to the instructions of the Divisional officer, to be filled up by election which will take place at a meeting to be held on the 26th instant and the result of the same will be duly reported to the Government. There is another vacancy in the present official year caused by the expiry of the term of the late Chairman, M.R.Ry. K. B. Nilachalam Pantulu Garu, on the 5th instant. The Divisional officer who had charge of the municipality till the 8th instant, handed over charge to me on that date as Chairman Delegate. Out of the actual number of Councillors on 31st March 1899, two were officials including the Divisional officer and the official element is now what it ought to be—*vide* section 11 of the Act. Of the ten Councillors, there is only one European Councillor excluding the Divisional officer.

4. During the year under report, fifteen meetings were convened, of which only one was adjourned for want of quorum. The average attendance at each meeting actually held was 6·36 as against 5·5 of the preceding year. The average attendance of officials was one as against ·19 of the previous year and that of non-officials was 5·36 as against 5·31. The increase in the attendance speaks well of the non-officials was 5·36 Council, while that of the official element is due to the constitution of the Divisional officer at some of its meetings.

5. The year ... to the constant attendance of the

II.—RECEIPTS.

... under report opened with a balance of Rs. 430–4–4 and closed with a balance of Rs. 1,282–3–8 excluding deposits of Rs. 274–4–0. The total actual receipts including the opening balance are Rs. 14,809–10–8 against Rs. 14,254–9–3 of the previous year and Rs. 14,900 of the revised estimate.

6. A sum of Rs. 27–14–4, being the arrears of tax on buildings for 1897–98, was to be collected, of which Rs. 21–9–7 was recovered and the remaining Rs. 6–4–9 was written off as irrecoverable.

7. A sum of Rs. 11,587–7–10 was the total demand of the principal taxes as originally assessed by the Chairman, of which Rs. 51–8–0 were remitted by the Council on appeal. A sum of Rs. 11,535–15–10 was therefore left to be collected during the year under report. Against this, a sum of Rs. 11,295–10–11 including a penal interest of As. 1–2 on overdue kists, was recovered and credited to accounts; Rs. 21–15–0 was remitted on account of vacant houses and Rs. 133–3–9 was written off as irrecoverable. The balance of Rs. 85–3–4 is therefore left to be collected in the current year.

8. *Tax on Arts.*—This tax was levied on all classes except class 2, for want of persons liable to be taxed under that class. The original demand under this head was Rs. 1,493, of which Rs. 46–8–0 was remitted by the Council on appeal. The final demand was Rs. 1,446–8–0, of which Rs. 1,403 were actually collected against Rs. 1,350 of the revised estimate and Rs. 18–8–0 were written off as irrecoverable, leaving a balance of Rs. 25 which were collected in the beginning of the current year. Only seven warrants were issued for the collection of this tax and I am glad to state that in five cases the tax-payers tendered payment before attachment of property; in one case property was attached but not sold and in another case the amount was written off as irrecoverable owing to poverty. In the case of the outstanding sum of Rs. 25, no warrants were issued as the persons concerned were assessed only at about the close of the year and as the year closed before the due date of serving warrants against them. The Council spared no pains to tax all persons liable to assessment and so there was an increase under this head, although no persons were assessed under class 2.

9. *Tax on Buildings.*—This tax was levied at 8½ per cent. on the actual or probable annual rental of buildings and lands. The original as well as the final demand under this head was Rs. 3,021–1–2 against Rs. 2,660–4–8 and Rs. 2,657–9–6, respectively, of the previous year. Out of the net demand, a sum of Rs. 2,846–9–1 was recovered against Rs. 2,900 of the revised estimate, Rs. 21–15–0 were remitted on account of vacant houses, &c., and Rs. 92–15–9 were written off as irrecoverable, leaving a balance of Rs. 59–9–4 to be collected during the ensuing year against Rs. 27–14–4 of the preceding year. The decrease by which the actual collection has fallen short of the revised estimate is accounted for by the absence from the town of the owners of many of those buildings which fetch a high rent. For the collection of this tax, 36 warrants were issued against 57 of the previous year. Three warrants were outstanding at the beginning of the year. The total number of warrants thus issued was 39. Of these, 36 were executed, two cancelled on which no collections were made and only one remained to be accounted for in the current year. Out of the 36 warrants thus executed, in 27 cases, the amount was collected after the issue of warrants, but before the distraint and in nine cases property was distrained but not sold.

10. *Tax ...as.*—The original demand as assessed by the Chairman and that finally settled were the same and that was collected in full. No warrants were issued.

11. *Tax on Vehicles, Animals and Carts.*—The full schedule rates were levied on vehicles and animals, but not on carts. The original demands under these heads were respectively Rs. 224, Rs. 334 and Rs. 153, and of these Rs. 3 on vehicles and Rs. 2 on animals were remitted by the Council on appeal. The net demands were, therefore, respectively Rs. 221, Rs. 332 and Rs. 153. Out of these, Rs. 212, Rupees 323–8–9 and Rs. 153 on vehicles, animals and carts, respectively, were collected and Rs. 9 on vehicles and Rs. 8 on animals were written off as irrecoverable, leaving a balance of As. 8 on animals. For the collection of taxes on animals, three warrants were issued. Of these, two were executed and in one case the amount was written off as irrecoverable owing to the absence of any property for distraint. Of the two cases in which warrants were executed, in one case payment was made before distraint, but in the other case property was attached but not sold.

12. *Coercive Process.*—Appendix A to statements IV-A and IV-B, shows how far coercive measures were resorted to during the year under report for the collection of all kinds of taxes. The number of warrants issued together with the three warrants which remained unexecuted at the end of the year 1897–98 were 49 against 89 of

the preceding year. Of these, 44 were executed, four were cancelled as per Proceedings, No. 15, dated 28th March 1899, on the score of poverty and one remained unexecuted at the close of the year. Of the 44 warrants thus executed, in 33 cases payment was tendered before distraint and in eleven cases property was distrained but not sold. No prosecutions were instituted for the recovery of any of the taxes.

13. *Tolls.*—There are two pukka built toll-gate houses at the two entrances into the town, one on the road to Vizianagram and the other on that to Vizagapatam. Tolls were levied at half of the schedule rates. The tolls were, in the year under report, managed departmentally, owing to the absence of adequate bids. A sum of Rs. 5,488–15–6 was realised, of which Rs. 420–8–4 were the establishment charges and Rs. 97–11–2 were spent for contingencies. A fourth part of the remaining sum of Rs. 4,970–12–0, which was due to the District Board for its share of tolls was duly paid and the remaining sum was credited to account. I am glad to state in this connection that, so long as the tolls were under the direct supervision of the municipality, the Chairman with his office-staff spared no pains to improve the finances of the municipality in this direction. But in spite of their exertions, there was a decrease owing to the failure of certain crops and the deterioration in trade. Consequently, the tolls were at the beginning of this year again leased out to bidders at a public auction and the highest bid that could be obtained was Rs. 4,800.

14. *Incidence of Taxation.*—The total amount of income from taxation including tolls was about Rs. 9,298 and that excluding tolls was about Rs. 5,052. The population according to the census of 1891 being 9,784, the incidence per head including tolls was As. 15–2 and that excluding tolls was As. 8–3.

15. *Rent on Lands.*—This item represents the fees levied from private parties that took out materials from the hill for which the Council obtained a lease from the Vizianagram samastanam on an annual rent of Rs. 50. No bidder came forward to purchase the hill in a public auction, and so the Council was obliged to manage it departmentally. Out of the revised estimate of Rs. 20, only Rs. 17–11–8 was realized. The slight decrease calls for no special remark.

16. *Rent on Buildings.*—The two municipal buildings were rented out—one to the Police department and the other to the Civil apothecary in charge of the municipal hospital at Rs. 14 and Rs. 10 a month, respectively. The total demand under this head was Rs. 288, of which Rs. 278 was collected. The remaining Rs. 10 was due from the civil apothecary.

17. *Produce of Lands and Gardens.*—The only garden of the municipality was leased out during the year under report for three years on an annual rent of Rs. 67. But only a sum of Rs. 50–4–0 was realized under this head as Rs. 16–12–0 were remitted on a representation to the Council of the losses the contractor of the garden had during the year under report.

18. *Sale-proceeds of Old Materials, &c.*—A sum of Rs. 20–7–6 was realized under this head from the sale of empty oil-cans, &c., against Rs. 20 of the revised estimate.

19. *Sale-proceeds of Night-soil, Street Refuse, &c.*—The sweepings in the cart-stand were leased out for Rs. 90, which sum was realized. During the year under report, I regret to say that the street sweepings fetched nothing. The Council tried its utmost to sell them by auction sale, but none came forward to bid. It appears that people in these parts have very poor ideas of its worth and as such do not require it. There is thus a very great difficulty in the way of the Council's realising any amount, however small it may be, under this head.

20. *Fees from Educational Institutions.*—The municipality maintained five schools—one, a High school on the salary system and four others on the salary-result system; but in only three of these fees are collected. The total collection amounted to Rs. 1,670–2–4 against Rs. 1,397–2–10 in the previous year. But it fell short of the revised estimate of Rs. 1,750 by Rs. 79–13–8, as many poor boys left the lower secondary classes owing to their inability to pay fees. As the opening of the fourth form in the local Lower Secondary school was sanctioned only in the latter part of July, many boys of this place left the station to join the neighbouring schools, which they afterwards found impossible to quit. With all that, the fourth form was, with the exercise of strictest economy, made almost self-supporting.

21. *Sale-proceeds and Composition Fees of Medicines.*—A sum of Rs. 327–6–0 was realized against Rs. 330 of the revised estimate. The item is of a fluctuating nature. Hence it calls for no special remark.

22. *Other Hospital Receipts.*—This item represents the usual contributions from certain firms and private individuals. The actual amount collected was Rs. 564 against the revised estimate of Rs. 560.

23. *Income from Slaughter Yards.*—The slaughter-houses were, as usual, leased out to renters for Rs. 54, which sum, together with As. 1–2, penal interest paid by the contractor on overdue kists, was collected during the year under report.

24. *Warrant and Distraint Fees, &c.*—A sum of Rs. 8–10–0 was collected under this head against Rs. 20 of the revised estimate. Although a great deal of difficulty was experienced in the collection of the taxation, the peace and the convenience of the people were mainly kept in view and mild measures were adopted in so far as were consistent with the collection of the tax. Hence the decrease.

25. *License Fees.*—Under this head Rs. 95 were collected against Rs. 100 of the budget and of the revised estimate. The slight decrease of Rs. 5 calls for no remark.

26. *Cart-stand Fees.*—The revised estimate and the actuals under this head do not differ.

27. *Miscellaneous Fees.*—This item was not provided for either in the budget or in the revised estimate. However, Re. 1 was collected, being the fee paid for searching the births register and giving an extract of one birth under section 249, clause (4) of Act IV of 1884.

28. *Fines under Municipal and Other Acts.*—The receipts under this head amounted to Rs. 186–0–1 against Rs. 131–6–0 of the previous year and Rs. 120 of the revised estimate. The increase of Rs. 54–10–1 over the revised estimate is owing to the detection of nuisance cases with care and vigilance. The number of cases detected under sections 221 and 222 of Act IV of 1884 was 182 and the number convicted was 173.

29. *Interest on Investments—Educational—Jubilee Gold Medal Fund.*—A sum of Rs. 20–7–3 was the interest collected for the year under report on a Government promissory note for Rs. 600, held by the Council in trust.

30. *Grants and Contributions—(a) From Government Municipal Schools.*—A sum of Rs. 55 only was contributed from Provincial funds towards the salary of the gymnastic instructor at Rs. 5 per mensem. The balance of Rs. 5 is still due from Government and it will be collected in the current year.

31. (*b*) *Local Boards*—(ii) *Medical.*—A sum of Rs. 300 was, as usual, contributed by the Taluk Board, Vizianagram, towards the upkeep of the municipal hospital.

32. (iii) *Other Purposes.*—A sum of Rs. 81–4–0, the usual contribution of the Vizagapatam District Board for the maintenance of the roads, was realised under this head.

33. *Private Scavenging Fees.*—The number of private latrines worked by the municipal agency during the year under report was 300 against 278 of the previous year. The amount collected was Rs. 627–6–0 against Rs. 508–8–0 of the preceding year and Rs. 610 of the revised estimate. The slight increase of Rs. 17–6–0 is due to the strenuous exertions of the Council towards the satisfactory working of the system.

34. *Other items—Sale of Pigs.*—A sum of Rs. 4–6–0 was collected on account of sale of dead pigs within the municipal limits.

35. *Fees for Numbering Carts.*—The amount realised under this head was Rupees 10–6–0 against Rs. 10 of the revised estimate.

III.—EXPENDITURE.

36. *Grant 1, Repairs—Communications.*—A sum of Rs. 167–4–6 was spent on repairs to roads against Rs. 210 of the revised estimate. The savings under this head

were necessarily effected for meeting the charges under repairs—buildings as the provision made for it in the revised estimate was quite short of the expenses incurred owing to inevitable repairs of the police station-house and the apothecary's quarters.

37. *Repairs—Buildings.*—The charges under this head were Rs. 114–10–10 against Rs. 60 of the revised estimate. The cause of the increase is to be found in paragraph 36.

38. *Repairs-Drainage,-Repairs to Works.*—The expenditure under this head was Rs. 32–9–8 against Rs. 40 of the revised estimate. This sum was spent on petty repairs of the drains. As the saving under this head was found insufficient for any fresh repairs, it was utilised in meeting the charges under repairs—buildings.

39. *Water-Supply, Repairs to Works, &c.*—Although no provision was made for this item in the budget or in the revised estimate, a sum of Rs. 4–1–0 was spent on this head for removing certain trees which were growing in the sides of several public wells.

40. *Grant 2, Education—Salary System—Establishment and Contingencies.*—The amount spent under this head was Rs. 1,668–0–10 against Rs. 1,670 of the revised estimate. The petty small saving of Rs. 1–15–2 calls for no special remark.

41. *Salary-result system—Schools.*—The municipality, as usual, maintains four schools—Town Primary, Muhammadan, Paraya and Night schools.

42. *Fixed Payments.*—The charges under this head amount to Rs. 710–2–1 against Rs. 710 of the revised estimate.

43. *Result Stipends.*—The charges under this head and the provision in the revised estimate are the same.

44. *Salary-result System— Contingency.*—The expenditure was Rs. 59–14–5 against Rs. 70 of the revised estimate. The saving under this head is the result of insisting upon observing economy in utilising the contingencies.

45. *Fixed and Result Grants.*—There were three schools aided by the municipality during the year under report and the amount of grant paid to the managers of the schools was Rs. 100 against Rs. 100 of the revised estimate.

46. *Miscellaneous—Common Gymnasium—Establishment.*—The charges were the same as those provided for in the revised estimate.

47. *Other items—Reading-room—Establishment.*—No remarks.

48. *Jubilee Gold Medals.*—The amount spent under this head was Rs. 41 against Rs. 40 of the revised estimate. The slight difference calls for no remark.

49. The statements forwarded by the Assistant Inspector of Schools, Ganjám-Vizagapatam division, are appended. The total number of schools on 31st March 1899 managed or aided by the Council was 8 and the number of indigenous schools was 3, making a total of 11 ; and the number under instruction was 430 boys and 10 girls against 409 boys and 7 girls in the preceding year. The Inspector of Schools and the Assistant Inspector of Schools examined the schools in the municipality once during the year under report. The headmaster of the high school looks after the duties of the superintendent of the municipal schools.

50. The total expenditure under Grant 2 amounted to Rs. 2,989–1–4 against Rs. 3,000 of the revised estimate.

51. *Grant 3, Medical Services, Sanitation, &c.—Hospitals and Dispensaries —Establishment.*—A sum of Rs. 1,935–7–7 was spent under this head against Rs. 1,930 of the revised estimate. The slight difference of Rs. 5–7–7 calls for no special remark.

52. *Medicines and Supplies.*—The amount spent for the purchase of medicines was Rs. 597 against Rs. 750 of the revised estimate. The decrease in expenditure of Rs. 153 under this head is accounted for by the comparatively small quantities of medicines indented for during the year under report, owing to the outstanding stores of medicines of the preceding year.

53. *Diet of Patients.*—The charges under this head were Rs. 226–13–2 against Rs. 240 of the revised estimate. The decrease of Rs. 13–2–10 is due to the strictest economy observed in it.

54. *Sundries and Contingencies.*—The outlay under this head was Rs. 346–5–0 against Rs. 360 of the revised estimate. The explanation given in the above paragraph 53 holds good in this case as well.

55. The hospital was inspected by the District Medical and Sanitary Officer twice during the year. It was freely resorted to by the public. Mr. M. J. Pereira still continues to be the Medical officer in charge. He is easily accessible to those who seek his assistance. The total number of patients treated in the hospital during the year under report was 136 in- and 16,053 out- patients against 140 in- and 13,686 out- patients of the preceding year. There was a small decrease in the number of in- patients, but there was a large increase in the number of out- patients. The Medical officer remarks that the increase in the number of out- patients is due to the greater prevalence of malarial fevers, there being an increase of 1,428 over the previous year's admissions in those diseases alone. The town was not visited by any epidemics. There were only a few cases of chicken-pox and measles at the close of the year, but no deaths occurred from those diseases. The Medical officer's report is herein enclosed. The midwife attached to the hospital has been turning out excellent work. She attended 164 cases against 145 of the previous year.

56. *Contributions to Provincial Funds.*—These sums amounting to Rs. 129 against Rs. 130 of the revised estimate were paid according to the instructions of the Accountant-General, Madras.

57. *Contributions to the Local Boards.*—A sum of Rs. 24 was paid to the Taluk Board, Vizianagram, for reserving compounders at the District Surgeon's office. This sum includes that of the previous year as well.

58. *Vaccination.*—The charges under this head were Rs. 207–11–9 against Rs. 200 of the revised estimate. The increase under this head of Rs. 7–11–9 is due to the purchase of some instruments, &c., required by the vaccinator.

59. The work of the 2nd-class vaccinator, S. Narayana Appadu, was supervised by the Civil apothecary in charge of the hospital. Vaccination is compulsory in this municipality. The number of cases vaccinated by the Civil apothecary was 43 against 30 of the previous year; all of these were successful. Of the 43 cases, 7 were operated on children under one year of age. The number of cases vaccinated by the Municipal vaccinator was 487, of which 395 were successful against 526 and 501 respectively in the preceding year. Of 487 cases, 206 were operated on children below one year of age, of which 189 were successful, against 261 in the preceding year. Glycerine paste supplied by the calf depot at Vizagapatam was used in all these cases and the cost of the same was paid to the District Surgeon. The total number of cases vaccinated by the Civil apothecary and the Municipal vaccinator was 530. The cost of each successful case was As. 8–5 against As. 5–9 in the preceding year.

60. *Registration of Births and Deaths—Establishment.*—A sum of Rs. 144 was spent under this head against Rs. 140 of the revised estimate. The total number of births registered was 274 against 238 in the preceding year. The total number of deaths registered was 181 against 330 of the previous year. The increase in the number of births and the decrease in the mortality during the year under report were due to the absence of famine or any epidemic and also to the improved sanitation and health of the town, as certified to by the Medical officer in his report.

61. *Conservancy—Road-cleaning and Road-watering—Establishment.*—A sum of Rs. 2,018–4–3 was spent under this head against Rs. 2,000 of the revised estimate. The slight increase does not call for any special remark.

62. *Other Charges.*—This item represents the hire of two conservancy carts at Rs. 10 per mensem. The actuals and the revised estimate figures under this head are the same.

63. *Private Scavenging Establishment.*—The amount spent under this head was Rs. 607–4–0 against Rs. 610 of the revised estimate. I am glad to say, in this connection, that owing to the increased rate of private scavenging fees, in the year under report, as per G.O., No. 566 M., dated 14th March 1898, the system was made self-supporting and has ever since been working satisfactorily.

64. *Epidemic Charges—Bubonic Plague.*—The outlay, under this head, was Rs. 502–12–0 against Rs. 550 of the revised estimate. The above sum was spent on the construction of plague sheds, purchase of disinfectants, &c., and the entertainment of a separate establishment.

65. The total charges under Grant 3 were Rs. 6,979–4–3 against Rs. 7,160 of the revised estimate.

66. *Grant 4, Lighting and Miscellaneous Purposes—Establishment and Contingencies.*—A sum of Rs. 542–3–4 was spent against Rs. 560 of the revised estimate. As the oil required throughout the year could be got comparatively at cheap rates, a saving was effected under this head. There was no change in the number of lights put up.

67. *Choultries—Poor-house—Contingencies.*—A sum of Rs. 180 was, as usual, contributed towards the maintenance of the Lord Ripon poor-house. I am very glad to remark that the institution has been as before working very satisfactorily under the able supervision of M.R.Ry. C. L. Sanyasi Nayudu Garu, a Municipal councillor, Taluk and District Board member, a leading merchant and a kind-hearted and liberal gentleman.

68. *Avenues—Establishment.*—No remarks.

69. *Stationery and Printing.*—The total charges under this head were Rupees 183–15–9 against Rs. 200 of the revised estimate. This is a fluctuating item and calls for no special remark.

70. The other items under Grant 4 call for no special remarks.

71. The total outlay under Grant 4 was Rs. 1,084–6–1 against Rs. 1,090 of the revised estimate.

72. *Grant 5, Office Establishment.*—The charges are almost the same as those provided for in the revised estimate. During the year, the office establishment has done excellent work under the able supervision of the manager and I have much pleasure in certifying as to his capability. The amount spent was Rs. 969–5–1 against Rs. 970 of the revised estimate.

73. *Office Contingencies.*—A sum of Rs. 175–0–9 was spent under this head against Rs. 100 of the revised estimate and Rs. 213–15–11, the actuals of the previous year. This increase over the revised estimate figure is due to the unavoidable expenses incurred in printing and other charges.

74. *Collection of Municipal taxes and Establishment.*—A sum of Rs. 173–8–0 was spent under this head against the revised estimate of Rs. 170. The slight increase requires no explanation.

75. From Statement IV-A, it will be found that, out of a total demand of Rs. 11,535–15–10, a sum of Rs. 11,295–10–11 was collected, Rs. 21–15–0 was remitted on account of vacant houses, &c., and Rs. 133–3–9 was written off, leaving a balance of Rs. 85–3–4 to be collected in the current year. From this, it is manifest that the municipality continues turning out excellent work in the business of the collection of taxes.

76. *Collection of Tolls—Establishment and Contingencies.*—A sum of Rs. 518–3–6 was spent on this against Rs. 470 of the revised estimate. Much of the increase in expenditure was spent on sundries like the printing of ticket registers, &c.

77. *Contribution to the Central Office and its Establishment.*—A sum of Rs. 120 was paid into the local Sub-treasury in accordance with the instructions of the Accountant-General, Madras.

78. The total charges under Grant 5 were Rs. 1,956–1–4 against Rs. 1,830 of the revised estimate.

79. *Refund of other than current collections.*—A sum of Rs. 200 was paid to the British Foreign and Marine Insurance Company and Triton Insurance Company on account of Professional tax for the second-half of 1896–97 and the first half of 1897–98 as sanctioned by the Government in their Order No. 134 M., dated 30th January 1899.

80. The total charges amounted to Rs. 13,527–7–0 against Rs. 13,590 of the revised estimate and Rs. 13,824–4–11 of the previous year.

81. The year closed with a balance of Rs. 1,282–3–8 (excluding the deposits of Rs. 274–4–0 for the current year). But the amount certified by the Sub-treasury officer to be at the credit of the municipality in the Government treasury on the last day of the year was Rs. 1,568–15–8; the difference of Rs. 12–8–0 is due to a cheque issued in favour of M.R.Ry. Mindi Ramajogi Pantulu Garu, Proprietor of Appiconda Estate, not being cashed in the sub-treasury before the close of the year under report.

82. In conclusion, I beg to submit that I assumed charge of the municipality long after the close of the official year as Chairman-Delegate, as stated in the beginning of this report. All the roads in the town, though they were not well attended to owing to financial deficit during the year under report, are in good order. The sanitation and the general health of the town are well attended to. People have been accommodated with a sufficient number of latrines. The suggestions of the Sanitary Commissioner have been carried out as far as practicable. The private scavenging system, I am glad to say, has considerably improved inasmuch as it is more than self-supporting. In accordance with the directions of the Government, every step was taken to pay increased attention to the securing of accuracy in the registration of vital statistics. On the whole, I am exceedingly glad to observe that the *regimé* of the late Chairman, M.R.Ry. K. B. Nilachalam Pantulu Garu, is highly satisfactory. That his administration has been successful, is attested to by the Council's unanimous resolution to re-elect him as the Chairman, though his term as a councillor ceases, at a meeting held on the 28th March 1899, under section 14, clause 2 of Act IV of 1884.

Concise Annual Report of the Municipal Hospital, Bimlipatam, for 1898–99.

I. Public Health.—The health of the town has been very satisfactory during the year under report. The town was not visited by any epidemics. There were only a few cases of chicken-pox and measles at the close of the official year, but no deaths occurred from these diseases. The most common diseases that prevailed were malarial fevers, worms, eye diseases, rheumatic affections, digestive diseases and diseases of the skin. Malarial fevers prevailed to a greater extent than last year. Elephantiasis is also a common disease among the natives of the town.

II. Vital Statistics.—There were 281 births and 188 deaths within municipal limits during the year under report; of these deaths, 42 were from fevers, and 31 from bowel complaints. Among the in-patients treated in hospital there were seven deaths against fifteen in the previous year; this being due to people not having been admitted in a starved condition as was the case last year.

III. Sanitation.—The sanitation of the town is carefully looked after by an efficient staff placed under the direct control of the Chairman. There are six pukka latrines for the use of the public. Private scavenging also works well. One public latrine situated at the back of the hospital might, with great convenience to the patients of the hospital, be removed to some other locality as the effluvia from it is very nauseating and they have been complaining about it. Slaughter-houses are kept clean.

IV. Vaccination.—The municipal vaccinator operated on 487 cases, of which 395 were successful. The apothecary in charge of the hospital vaccinated 43 cases, of which all were successful. Glycerine paste supplied by the calf depot at Vizagapatam is used, and works well.

V. Hospitals and Dispensaries.—The hospital building is situated in a convenient spot. It provides accommodation for ten male and four female in-patients. There is also besides accommodation for Europeans, but it is seldom taken advantage of. There is also a shed for contagious diseases situated at one end of the hospital compound; but it is at present in a very dilapidated state. Part of the wall of the female latrine has fallen down and requires repair. The attention of the Chairman of the municipality has been drawn to these requirements.

The furniture is adequate and does not require any repairs.

(*a*) *Inspections.*—The hospital was inspected twice during the year by the District Medical and Sanitary Officer.

(*b*) *Recoveries from patients.*—The sum of Rs. 331–0–6 was collected from sale of medicines to out-patients against Rs. 304–5–0 in the previous year. Besides this the undermentioned firms pay a certain contribution to the municipality monthly, viz. :—

	Per mensem.
	Rs.
Stuart Hall & Co.	20
Arbuthnot & Co.	20
Bank of Madras	5

(*c*) *Number of patients* compared with *previous years* :—

Years.	In-patients.		Out-patients.	
	Total.	Daily average.	Total.	Daily average.
1896–97	117	5·91	15,187	106·06
1897–98	140	5·98	13,686	100·60
1898–99	136	6·13	16,053	104·30

The increase of 2,367 over previous year in the number of out-patients is due to the greater prevalence of malarial fevers ; there being an increase of 1,428 over the previous year's admissions in these diseases alone.

(*d*) *Operations.*—The number of operations performed was 280, of which 235 were cured and 45 relieved.

(*e*) *Establishment* is sufficient and efficient.

(*f*) *Midwives work.*—The hospital midwife attended 164 cases against 145 in the previous year. In order to encourage her to work she is allowed one rupee for every case above ten she attends during the month.

(*g*) *General remarks.*—The municipality contributes seven-eighths of the pay of the Civil apothecary ; the remaining one-eighth being derived from Provincial funds. The hospital building is the property of the municipality.

2. The Municipal Council held fourteen meetings or two less than in the previous year. The average attendance of the members, both official and non-official, improved and was fair.

3. *Receipts.*—(1) The net current demand under the tax on arts again showed a decrease of Rs. 46, for which no explanation has been furnished in the Chairman's report; but owing to the enhancement of the rate of the taxes on buildings and lands from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of the annual rental, the net current demand under these heads increased by Rs. 364 and Rs. 12 respectively.

(2) The collections under the principal taxes continued to be satisfactory.

(3) There was an increase in the receipts from tolls and school-fees; but it is to be regretted that the efforts made by the Municipal Council to create a demand for the street-sweepings have again proved unsuccessful. The Council should now consider the desirability of starting a Municipal garden on a small scale in order to demonstrate to the ryots the use of sweepings as manure.

(4) The number of houses served by the private scavenging agency rose from 278 to 300, and the fees collected, which amounted to Rs. 627 against Rs. 509 in the previous year, more than covered the cost of the service. The Government trusts that the efforts made in this direction will be sustained until all the latrines in the town have been brought under the control of the Municipal Council.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The total expenditure on communications amounted to Rs. 167 or only 4·5 per cent. of the net Municipal income from tolls against the minimum of 50 per cent. prescribed by Government; but this short expenditure is explained in paragraph 36 of the Chairman's report. The roads in the town are, however, reported by the Principal Assistant Collector to have been maintained in good condition.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,264 or 13·6 per cent. of the receipts from taxation. Of this sum, Rs. 829 were spent on primary, and the remainder on secondary, education. By the opening of a fourth form the Municipal Lower Secondary school was raised to the standard of a high school. In addition to this the Municipal Council continued to maintain four primary schools on the salary-result system; but the number of such schools aided with result grants was three or one less than in the previous year. The attendance at the Municipal schools remained practically unaltered; but owing to the decrease in the number of aided institutions, the attendance at these schools declined. The results of the Lower Secondary examination were not satisfactory; but at the departmental and grant examinations they continued to be fair. It is to be regretted that the number of boys under instruction in the Municipal and aided institutions again fell from 347 to 330 or 46·7 per cent. of the male population of school-going age against 61·8 per cent., the general average for Municipalities in 1897–98.

(3) *Medical Relief.*—There was a slight decline in the number of in-patients treated at the Municipal hospital, but a large increase in that of out-patients, which is attributed to the greater prevalence of malarial fevers during the year. The midwife attached to the Municipal hospital attended 164 cases of labour against 145 in 1897–98. This is satisfactory.

(4) *Vaccination and Vital Statistics.*—The number of persons vaccinated during the year again fell from 556 to 530, and the quality of the work greatly deteriorated, the percentage of reported success being 82·7 against 95·5 in the previous year. Infantile vaccination also showed a further retrogression, the total number of children under one year successfully vaccinated being 196 or 20 per mille of the population against 27·3 per mille in 1897–98. In consequence of these unsatisfactory results, the cost of each successful operation performed by the Municipal vaccinator rose from As. 6–4 to As. 8–5 and was almost double the general average for Municipalities in the previous year. This reflects much discredit on the Municipal executive and should not be per-

There was an increase in the number of births registered during the year, but a decline in that of deaths, and the variations in both cases are attributed in paragraph 60 of the Chairman's report to the absence of famine and epidemics and also to the improved sanitation and health of the town. But in view of the fact that the rates recorded in both cases were much below the normal, this explanation cannot be accepted as satisfactory and the returns must be regarded as untrustworthy. Increased attention should be paid to the registration of vital satistics in the current year.

(5) *Sanitation.*—The expenditure under this head exceeded the sanctioned allotment by 2·1 per cent. and amounted to Rs. 3,369 or 23·4 per cent. of the current receipts against 21·8 per cent. in the previous year. In paragraph 82 of the Chairman's report it is stated that the suggestions of the Sanitary Commissioner have been carried out as far as practicable. Full information should have been given as to what these suggestions were and how far they were carried out. It is hoped that the efforts made to effect an improvement in this direction will be sustained until all the defects in the sanitation of the town pointed out by the sanitary officers from time to time have been remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 1,282 or 8·9 per cent. of the current receipts. Except as regards education, vaccination and registration of vital statistics, which demand increased attention, the administration of the Municipality during the year under review continued to be on the whole satisfactory.

(True Extract.)

Ead A. Rungaswamy Aiyangar.

2. The Municipal Council held fourteen meetings or two less than in the previous year. The average attendance of the members, both official and non-official, improved and was fair.

3. *Receipts.*—(1) The net current demand under the tax on arts again showed a decrease of Rs. 46, for which no explanation has been furnished in the Chairman's report; but owing to the enhancement of the rate of the taxes on buildings and lands from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of the annual rental, the net current demand under these heads increased by Rs. 364 and Rs. 12 respectively.

(2) The collections under the principal taxes continued to be satisfactory.

(3) There was an increase in the receipts from tolls and school-fees; but it is to be regretted that the efforts made by the Municipal Council to create a demand for the street-sweepings have again proved unsuccessful. The Council should now consider the desirability of starting a Municipal garden on a small scale in order to demonstrate to the ryots the use of sweepings as manure.

(4) The number of houses served by the private scavenging agency rose from 278 to 300, and the fees collected, which amounted to Rs. 627 against Rs. 509 in the previous year, more than covered the cost of the service. The Government trusts that the efforts made in this direction will be sustained until all the latrines in the town have been brought under the control of the Municipal Council.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The total expenditure on communications amounted to Rs. 167 or only 4·5 per cent. of the net Municipal income from tolls against the minimum of 50 per cent. prescribed by Government; but this short expenditure is explained in paragraph 36 of the Chairman's report. The roads in the town are, however, reported by the Principal Assistant Collector to have been maintained in good condition.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,264 or 13·6 per cent. of the receipts from taxation. Of this sum, Rs. 829 were spent on primary, and the remainder on secondary, education. By the opening of a fourth form the Municipal Lower Secondary school was raised to the standard of a high school. In addition to this the Municipal Council continued to maintain four primary schools on the salary-result system; but the number of such schools aided with result grants was three or one less than in the previous year. The attendance at the Municipal schools remained practically unaltered; but owing to the decrease in the number of aided institutions, the attendance at these schools declined. The results of the Lower Secondary examination were not satisfactory; but at the departmental and grant examinations they continued to be fair. It is to be regretted that the number of boys under instruction in the Municipal and aided institutions again fell from 347 to 330 or 46·7 per cent. of the male population of school-going age against 61·8 per cent., the general average for Municipalities in 1897–98.

(3) *Medical Relief.*—There was a slight decline in the number of in-patients treated at the Municipal hospital, but a large increase in that of out-patients, which is attributed to the greater prevalence of malarial fevers during the year. The midwife attached to the Municipal hospital attended 164 cases of labour against 145 in 1897–98. This is satisfactory.

(4) *Vaccination and Vital Statistics.*—The number of persons vaccinated during the year again fell from 556 to 530, and the quality of the work greatly deteriorated, the percentage of reported success being 82·7 against 95·5 in the previous year. Infantile vaccination also showed a further retrogression, the total number of children under one year successfully vaccinated being 196 or 20 per mille of the population against 27·3 per mille in 1897–98. In consequence of these unsatisfactory results, the cost of each successful operation performed by the Municipal vaccinator rose from As. 6–4 to As. 8–5 and was almost double the general average for Municipalities in the previous year. This reflects much discredit on the Municipal executive and should not be per[illegible]to[illegible]
[illegible]mitted to continue.

There was an increase in the number of births registered during the year, but a decline in that of deaths, and the variations in both cases are attributed in paragraph 60 of the Chairman's report to the absence of famine and epidemics and also to the improved sanitation and health of the town. But in view of the fact that the rates recorded in both cases were much below the normal, this explanation cannot be accepted as satisfactory and the returns must be regarded as untrustworthy. Increased attention should be paid to the registration of vital satistics in the current year.

(5) *Sanitation.*—The expenditure under this head exceeded the sanctioned allotment by 2·1 per cent. and amounted to Rs. 3,369 or 23·4 per cent. of the current receipts against 21·8 per cent. in the previous year. In paragraph 82 of the Chairman's report it is stated that the suggestions of the Sanitary Commissioner have been carried out as far as practicable. Full information should have been given as to what these suggestions were and how far they were carried out. It is hoped that the efforts made to effect an improvement in this direction will be sustained until all the defects in the sanitation of the town pointed out by the sanitary officers from time to time have been remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 1,282 or 8·9 per cent. of the current receipts. Except as regards education, vaccination and registration of vital statistics, which demand increased attention, the administration of the Municipality during the year under review continued to be on the whole satisfactory.

JULY.

Administration Report.

Reviewing the — of the Bimlipatam Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From W. ST. B. SYDENHAM, Esq., Chairman-Delegate, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector), dated 20th May 1899, No. 63-M.

I have the honour to submit herewith my report on the administration of this municipality for the financial year ending 31st March 1899 together with the annual accounts. The accounts and the report were duly circulated among the Councillors and formally approved and passed by them at their special meeting held on the 27th May 1899.

2. Copy of the Council's resolution on the same is herein enclosed.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

3. The municipality was governed throughout the financial year by Act IV of 1884 as amended by Act III of 1897. The strength of the Council on the 31st March last was 10 against 12 including the Divisional officer who is ex-officio Councillor of the municipality. Now that the system of electing Councillors has come into force, the two vacancies in the Council are, according to the instructions of the Divisional officer, to be filled up by election which will take place at a meeting to be held on the 26th instant and the result of the same will be duly reported to the Government. There is another vacancy in the present official year caused by the expiry of the term of the late Chairman, M.R.Ry. K. B. Nilachalam Pantulu Garu, on the 5th instant. The Divisional officer who had charge of the municipality till the 8th instant, handed over charge to me on that date as Chairman Delegate. Out of the actual number of Councillors on 31st March 1899, two were officials including the Divisional officer and the official element is now what it ought to be—*vide* section 11 of the Act. Of the ten Councillors, there is only one European Councillor excluding the Divisional officer.

4. During the year under report, fifteen meetings were convened, of which only one was adjourned for want of quorum. The average attendance at each meeting actually held was 6·36 as against 5·5 of the preceding year. The average attendance of officials was one as against ·19 of the previous year and that of non-officials was 5·36 as against 5·31. The increase in the attendance speaks well of the constitution of the Council, while that of the official element is due to the constant attendance of the Divisional officer at some of its meetings.

II.—RECEIPTS.

5. The year under report opened with a balance of Rs. 430–4–4 and closed with a balance of Rs. 1,282–3–8 excluding deposits of Rs. 274–4–0. The total actual receipts including the opening balance are Rs. 14,809–10–8 against Rs. 14,254–9–3 of the previous year and Rs. 14,900 of the revised estimate.

6. A sum of Rs. 27–14–4, being the arrears of tax on buildings for 1897–98, was to be collected, of which Rs. 21–9–7 was recovered and the remaining Rs. 6–4–9 was written off as irrecoverable.

7. A sum of Rs. 11,587–7–10 was the total demand of the principal taxes as originally assessed by the Chairman, of which Rs. 51–8–0 were remitted by the Council on appeal. A sum of Rs. 11,535–15–10 was therefore left to be collected during the year under report. Against this, a sum of Rs. 11,295–10–11 including a penal interest of As. 1–2 on overdue kists, was recovered and credited to accounts; Rs. 21–15–0 was remitted on account of vacant houses and Rs. 133–3–9 was written off as irrecoverable. The balance of Rs. 85–3–4 is therefore left to be collected in the current year.

8. *Tax on Arts.*—This tax was levied on all classes except class 2, for want of persons liable to be taxed under that class. The original demand under this head was Rs. 1,493, of which Rs. 46–8–0 was remitted by the Council on appeal. The final demand was Rs. 1,446–8–0, of which Rs. 1,403 were actually collected against Rs. 1,350 of the revised estimate and Rs. 18–8–0 were written off as irrecoverable, leaving a balance of Rs. 25 which were collected in the beginning of the current year. Only seven warrants were issued for the collection of this tax and I am glad to state that in five cases the tax-payers tendered payment before attachment of property; in one case property was attached but not sold and in another case the amount was written off as irrecoverable owing to poverty. In the case of the outstanding sum of Rs. 25, no warrants were issued as the persons concerned were assessed only at about the close of the year and as the year closed before the due date of serving warrants against them. The Council spared no pains to tax all persons liable to assessment and so there was an increase under this head, although no persons were assessed under class 2.

9. *Tax on Buildings.*—This tax was levied at $8\frac{1}{2}$ per cent. on the actual or probable annual rental of buildings and lands. The original as well as the final demand under this head was Rs. 3,021–1–2 against Rs. 2,660–4–8 and Rs. 2,657–9–6, respectively, of the previous year. Out of the net demand, a sum of Rs. 2,846–9–1 was recovered against Rs. 2,900 of the revised estimate, Rs. 21–15–0 were remitted on account of vacant houses, &c., and Rs. 92–15–9 were written off as irrecoverable, leaving a balance of Rs. 59–9–4 to be collected during the ensuing year against Rs. 27–14–4 of the preceding year. The decrease by which the actual collection has fallen short of the revised estimate is accounted for by the absence from the town of the owners of many of those buildings which fetch a high rent. For the collection of this tax, 36 warrants were issued against 57 of the previous year. Three warrants were outstanding at the beginning of the year. The total number of warrants thus issued was 39. Of these, 36 were executed, two cancelled on which no collections were made and only one remained to be accounted for in the current year. Out of the 36 warrants thus executed, in 27 cases, the amount was collected after the issue of warrants, but before the distraint and in nine cases property was distrained but not sold.

10. *Tax on Lands.*—The original demand as assessed by the Chairman and that finally settled were the same and that was collected in full. No warrants were issued.

11. *Tax on Vehicles, Animals and Carts.*—The full schedule rates were levied on vehicles and animals, but not on carts. The original demands under these heads were respectively Rs. 224, Rs. 334 and Rs. 153, and of these Rs. 3 on vehicles and Rs. 2 on animals were remitted by the Council on appeal. The net demands were, therefore, respectively Rs. 221, Rs. 3 2 and Rs. 153. Out of these, Rs. 212, Rupees 323–8–0 and Rs. 153 on vehicles, animals and carts, respectively, were collected and Rs. 9 on vehicles and Rs. 8 on animals were written off as irrecoverable, leaving a balance of As. 8 on animals. For the collection of taxes on animals, three warrants were issued. Of these, two were executed and in one case the amount was written off as irrecoverable owing to the absence of any property for distraint. Of the two cases in which warrants were executed, in one case payment was made before distraint, but in the other case property was attached but not sold.

12. *Coercive Process.*—Appendix A to statements IV-A and IV-B, shows how far coercive measures were resorted to during the year under report for the collection of all kinds of taxes. The number of warrants issued together with the three warrants which remained unexecuted at the end of the year 1897–98 were 49 against 89 of

the preceding year. Of these, 44 were executed, four were cancelled as per Proceedings, No. 15, dated 28th March 1899, on the score of poverty and one remained unexecuted at the close of the year. Of the 44 warrants thus executed, in 33 cases payment was tendered before distraint and in eleven cases property was distrained but not sold. No prosecutions were instituted for the recovery of any of the taxes.

13. *Tolls.*—There are two pukka built toll-gate houses at the two entrances into the town, one on the road to Vizianagram and the other on that to Vizagapatam. Tolls were levied at half of the schedule rates. The tolls were, in the year under report, managed departmentally, owing to the absence of adequate bids. A sum of Rs. 5,488–15–6 was realised, of which Rs. 420–8–4 were the establishment charges and Rs. 97–11–2 were spent for contingencies. A fourth part of the remaining sum of Rs. 4,970–12–0, which was due to the District Board for its share of tolls was duly paid and the remaining sum was credited to account. I am glad to state in this connection that, so long as the tolls were under the direct supervision of the municipality, the Chairman with his office-staff spared no pains to improve the finances of the municipality in this direction. But in spite of their exertions, there was a decrease owing to the failure of certain crops and the deterioration in trade. Consequently, the tolls were at the beginning of this year again leased out to bidders at a public auction and the highest bid that could be obtained was Rs. 4,800.

14. *Incidence of Taxation.*—The total amount of income from taxation including tolls was about Rs. 9,298 and that excluding tolls was about Rs. 5,052. The population according to the census of 1891 being 9,784, the incidence per head including tolls was As. 15–2 and that excluding tolls was As. 8–3.

15. *Rent on Lands.*—This item represents the fees levied from private parties that took out materials from the hill for which the Council obtained a lease from the Vizianagram samastanam on an annual rent of Rs. 50. No bidder came forward to purchase the hill in a public auction, and so the Council was obliged to manage it departmentally. Out of the revised estimate of Rs. 20, only Rs. 17–11–8 was realized. The slight decrease calls for no special remark.

16. *Rent on Buildings.*—The two municipal buildings were rented out—one to the Police department and the other to the Civil apothecary in charge of the municipal hospital at Rs. 14 and Rs. 10 a month, respectively. The total demand under this head was Rs. 288, of which Rs. 278 was collected. The remaining Rs. 10 was due from the civil apothecary.

17. *Produce of Lands and Gardens.*—The only garden of the municipality was leased out during the year under report for three years on an annual rent of Rs. 67. But only a sum of Rs. 50–4–0 was realized under this head as Rs. 16–12–0 were remitted on a representation to the Council of the losses the contractor of the garden had during the year under report.

18. *Sale-proceeds of Old Materials, &c.*—A sum of Rs. 20–7–6 was realized under this head from the sale of empty oil-cans, &c., against Rs. 20 of the revised estimate.

19. *Sale-proceeds of Night-soil, Street Refuse, &c.*—The sweepings in the cart-stand were leased out for Rs. 90, which sum was realized. During the year under report, I regret to say that the street sweepings fetched nothing. The Council tried its utmost to sell them by auction sale, but none came forward to bid. It appears that people in these parts have very poor ideas of its worth and as such do not require it. There is thus a very great difficulty in the way of the Council's realising any amount, however small it may be, under this head.

20. *Fees from Educational Institutions.*—The municipality maintained five schools—one, a High school on the salary system and four others on the salary-result system; but in only three of these fees are collected. The total collection amounted to Rs. 1,670–2–4 against Rs. 1,397–2–10 in the previous year. But it fell short of the revised estimate of Rs. 1,750 by Rs. 79–13–8, as many poor boys left the lower secondary classes owing to their inability to pay fees. As the opening of the fourth form in the local Lower Secondary school was sanctioned only in the latter part of July, many boys of this place left the station to join the neighbouring schools, which they afterwards found impossible to quit. With all that, the fourth form was, with the exercise of strictest economy, made almost self-supporting.

21. *Sale-proceeds and Composition Fees of Medicines.*—A sum of Rs. 327–6–0 was realized against Rs. 330 of the revised estimate. The item is of a fluctuating nature. Hence it calls for no special remark.

22. *Other Hospital Receipts.*—This item represents the usual contributions from certain firms and private individuals. The actual amount collected was Rs. 564 against the revised estimate of Rs. 560.

23. *Income from Slaughter Yards.*—The slaughter-houses were, as usual, leased out to renters for Rs. 54, which sum, together with As. 1–2, penal interest paid by the contractor on overdue kists, was collected during the year under report.

24. *Warrant and Distraint Fees, &c.*—A sum of Rs. 8–10–0 was collected under this head against Rs. 20 of the revised estimate. Although a great deal of difficulty was experienced in the collection of the taxation, the peace and the convenience of the people were mainly kept in view and mild measures were adopted in so far as were consistent with the collection of the tax. Hence the decrease.

25. *License Fees.*—Under this head Rs. 95 were collected against Rs. 100 of the budget and of the revised estimate. The slight decrease of Rs. 5 calls for no remark.

26. *Cart-stand Fees.*—The revised estimate and the actuals under this head do not differ.

27. *Miscellaneous Fees.*—This item was not provided for either in the budget or in the revised estimate. However, Re. 1 was collected, being the fee paid for searching the births register and giving an extract of one birth under section 249, clause (4) of Act IV of 1884.

28. *Fines under Municipal and Other Acts.*—The receipts under this head amounted to Rs. 186–0–1 against Rs. 131–6–0 of the previous year and Rs. 120 of the revised estimate. The increase of Rs. 54–10–1 over the revised estimate is owing to the detection of nuisance cases with care and vigilance. The number of cases detected under sections 221 and 222 of Act IV of 1884 was 182 and the number convicted was 173.

29. *Interest on Investments—Educational—Jubilee Gold Medal Fund.*—A sum of Rs. 20–7–3 was the interest collected for the year under report on a Government promissory note for Rs. 600, held by the Council in trust.

30. *Grants and Contributions—(a) From Government Municipal Schools.*—A sum of Rs. 55 only was contributed from Provincial funds towards the salary of the gymnastic instructor at Rs. 5 per mensem. The balance of Rs. 5 is still due from Government and it will be collected in the current year.

31. (*b*) *Local Boards*—(ii) *Medical.*—A sum of Rs. 300 was, as usual, contributed by the Taluk Board, Vizianagram, towards the upkeep of the municipal hospital.

32. (iii) *Other Purposes.*—A sum of Rs. 81–4–0, the usual contribution of the Vizagapatam District Board for the maintenance of the roads, was realised under this head.

33. *Private Scavenging Fees.*—The number of private latrines worked by the municipal agency during the year under report was 300 against 278 of the previous year. The amount collected was Rs. 627–6–0 against Rs. 508–8–0 of the preceding year and Rs. 610 of the revised estimate. The slight increase of Rs. 17–6–0 is due to the strenuous exertions of the Council towards the satisfactory working of the system.

34. *Other items—Sale of Pigs.*—A sum of Rs. 4–6–0 was collected on account of sale of dead pigs within the municipal limits.

35. *Fees for Numbering Carts.*—The amount realised under this head was Rupees 10–6–0 against Rs. 10 of the revised estimate.

III.—EXPENDITURE.

36. *Grant 1, Repairs—Communications.*—A sum of Rs. 167–4–6 was spent on repairs to roads against Rs. 210 of the revised estimate. The savings under this head

were necessarily effected for meeting the charges under repairs—buildings as the provision made for it in the revised estimate was quite short of the expenses incurred owing to inevitable repairs of the police station-house and the apothecary's quarters.

37. *Repairs—Buildings.*—The charges under this head were Rs. 114–10–10 against Rs. 60 of the revised estimate. The cause of the increase is to be found in paragraph 36.

38. *Repairs-Drainage,-Repairs to Works.*—The expenditure under this head was Rs. 32–9–8 against Rs. 40 of the revised estimate. This sum was spent on petty repairs of the drains. As the saving under this head was found insufficient for any fresh repairs, it was utilised in meeting the charges under repairs—buildings.

39. *Water-Supply, Repairs to Works, &c.*—Although no provision was made for this item in the budget or in the revised estimate, a sum of Rs. 4–1–0 was spent on this head for removing certain trees which were growing in the sides of several public wells.

40. *Grant 2, Education—Salary System—Establishment and Contingencies.*—The amount spent under this head was Rs. 1,668–0–10 against Rs. 1,670 of the revised estimate. The petty small saving of Rs. 1–15–2 calls for no special remark.

41. *Salary-result system—Schools.*—The municipality, as usual, maintains four schools—Town Primary, Muhammadan, Paraya and Night schools.

42. *Fixed Payments.*—The charges under this head amount to Rs. 710–2–1 against Rs. 710 of the revised estimate.

43. *Result Stipends.*—The charges under this head and the provision in the revised estimate are the same.

44. *Salary-result System— Contingency.*—The expenditure was Rs. 59–14–5 against Rs. 70 of the revised estimate. The saving under this head is the result of insisting upon observing economy in utilising the contingencies.

45. *Fixed and Result Grants.*—There were three schools aided by the municipality during the year under report and the amount of grant paid to the managers of the schools was Rs. 100 against Rs. 100 of the revised estimate.

46. *Miscellaneous—Common Gymnasium—Establishment.*—The charges were the same as those provided for in the revised estimate.

47. *Other items—Reading-room—Establishment.*—No remarks.

48. *Jubilee Gold Medals.*—The amount spent under this head was Rs. 41 against Rs. 40 of the revised estimate. The slight difference calls for no remark.

49. The statements forwarded by the Assistant Inspector of Schools, Ganjám-Vizagapatam division, are appended. The total number of schools on 31st March 1899 managed or aided by the Council was 8 and the number of indigenous schools was 3, making a total of 11; and the number under instruction was 430 boys and 10 girls against 409 boys and 7 girls in the preceding year. The Inspector of Schools and the Assistant Inspector of Schools examined the schools in the municipality once during the year under report. The headmaster of the high school looks after the duties of the superintendent of the municipal schools.

50. The total expenditure under Grant 2 amounted to Rs. 2,989–1–4 against Rs. 3,000 of the revised estimate.

51. *Grant 3, Medical Services, Sanitation, &c.—Hospitals and Dispensaries —Establishment.*—A sum of Rs. 1,935–7–7 was spent under this head against Rs. 1,930 of the revised estimate. The slight difference of Rs. 5–7–7 calls for no special remark.

52. *Medicines and Supplies.*—The amount spent for the purchase of medicines was Rs. 597 against Rs. 750 of the revised estimate. The decrease in expenditure of Rs. 153 under this head is accounted for by the comparatively small quantities of medicines indented for during the year under report, owing to the outstanding stores of medicines of the preceding year.

53. *Diet of Patients.*—The charges under this head were Rs. 226–13–2 against Rs. 240 of the revised estimate. The decrease of Rs. 13–2–10 is due to the strictest economy observed in it.

54. *Sundries and Contingencies.*—The outlay under this head was Rs. 346–5–0 against Rs. 360 of the revised estimate. The explanation given in the above paragraph 53 holds good in this case as well.

55. The hospital was inspected by the District Medical and Sanitary Officer twice during the year. It was freely resorted to by the public. Mr. M. J. Pereira still continues to be the Medical officer in charge. He is easily accessible to those who seek his assistance. The total number of patients treated in the hospital during the year under report was 136 in- and 16,053 out- patients against 140 in- and 13,686 out- patients of the preceding year. There was a small decrease in the number of in- patients, but there was a large increase in the number of out- patients. The Medical officer remarks that the increase in the number of out- patients is due to the greater prevalence of malarial fevers, there being an increase of 1,428 over the previous year's admissions in those diseases alone. The town was not visited by any epidemics. There were only a few cases of chicken-pox and measles at the close of the year, but no deaths occurred from those diseases. The Medical officer's report is herein enclosed. The midwife attached to the hospital has been turning out excellent work. She attended 164 cases against 145 of the previous year.

56. *Contributions to Provincial Funds.*—These sums amounting to Rs. 129 against Rs. 130 of the revised estimate were paid according to the instructions of the Accountant-General, Madras.

57. *Contributions to the Local Boards.*—A sum of Rs. 24 was paid to the Taluk Board, Vizianagram, for reserving compounders at the District Surgeon's office. This sum includes that of the previous year as well.

58. *Vaccination.*—The charges under this head were Rs. 207–11–9 against Rs. 200 of the revised estimate. The increase under this head of Rs. 7–11–9 is due to the purchase of some instruments, &c., required by the vaccinator.

59. The work of the 2nd-class vaccinator, S. Narayana Appadu, was supervised by the Civil apothecary in charge of the hospital. Vaccination is compulsory in this municipality. The number of cases vaccinated by the Civil apothecary was 43 against 30 of the previous year; all of these were successful. Of the 43 cases, 7 were operated on children under one year of age. The number of cases vaccinated by the Municipal vaccinator was 487, of which 395 were successful against 526 and 501 respectively in the preceding year. Of 487 cases, 206 were operated on children below one year of age, of which 189 were successful, against 261 in the preceding year. Glycerine paste supplied by the calf depot at Vizagapatam was used in all these cases and the cost of the same was paid to the District Surgeon. The total number of cases vaccinated by the Civil apothecary and the Municipal vaccinator was 530. The cost of each successful case was As. 8–5 against As. 5–9 in the preceding year.

60. *Registration of Births and Deaths—Establishment.*—A sum of Rs. 144 was spent under this head against Rs. 140 of the revised estimate. The total number of births registered was 274 against 238 in the preceding year. The total number of deaths registered was 181 against 330 of the previous year. The increase in the number of births and the decrease in the mortality during the year under report were due to the absence of famine or any epidemic and also to the improved sanitation and health of the town, as certified to by the Medical officer in his report.

61. *Conservancy—Road-cleaning and Road-watering—Establishment.*—A sum of Rs. 2,018–4–3 was spent under this head against Rs. 2,000 of the revised estimate. The slight increase does not call for any special remark.

62. *Other Charges.*—This item represents the hire of two conservancy carts at Rs. 10 per mensem. The actuals and the revised estimate figures under this head are the same.

63. *Private Scavenging Establishment.*—The amount spent under this head was Rs. 607–4–0 against Rs. 610 of the revised estimate. I am glad to say, in this connection, that owing to the increased rate of private scavenging fees, in the year under report, as per G.O., No. 566 M., dated 14th March 1898, the system was made self-supporting and has ever since been working satisfactorily.

64. *Epidemic Charges—Bubonic Plague.*—The outlay, under this head, was Rs. 502–12–0 against Rs. 550 of the revised estimate. The above sum was spent on the construction of plague sheds, purchase of disinfectants, &c., and the entertainment of a separate establishment.

65. The total charges under Grant 3 were Rs. 6,979–4–3 against Rs. 7,160 of the revised estimate.

66. *Grant 4, Lighting and Miscellaneous Purposes—Establishment and Contingencies.*—A sum of Rs. 542–3–4 was spent against Rs. 560 of the revised estimate. As the oil required throughout the year could be got comparatively at cheap rates, a saving was effected under this head. There was no change in the number of lights put up.

67. *Choultries—Poor-house—Contingencies.*—A sum of Rs. 180 was, as usual, contributed towards the maintenance of the Lord Ripon poor-house. I am very glad to remark that the institution has been as before working very satisfactorily under the able supervision of M.R.Ry. C. L. Sanyasi Nayudu Garu, a Municipal councillor, Taluk and District Board member, a leading merchant and a kind-hearted and liberal gentleman.

68. *Avenues—Establishment.*—No remarks.

69. *Stationery and Printing.*—The total charges under this head were Rupees 183–15–9 against Rs. 200 of the revised estimate. This is a fluctuating item and calls for no special remark.

70. The other items under Grant 4 call for no special remarks.

71. The total outlay under Grant 4 was Rs. 1,084–6–1 against Rs. 1,090 of the revised estimate.

72. *Grant 5, Office Establishment.*—The charges are almost the same as those provided for in the revised estimate. During the year, the office establishment has done excellent work under the able supervision of the manager and I have much pleasure in certifying as to his capability. The amount spent was Rs. 969–5–1 against Rs. 970 of the revised estimate.

73. *Office Contingencies.*—A sum of Rs. 175–0–9 was spent under this head against Rs. 100 of the revised estimate and Rs. 213–15–11, the actuals of the previous year. This increase over the revised estimate figure is due to the unavoidable expenses incurred in printing and other charges.

74. *Collection of Municipal taxes and Establishment.*—A sum of Rs. 173–8–0 was spent under this head against the revised estimate of Rs. 170. The slight increase requires no explanation.

75. From Statement IV-A, it will be found that, out of a total demand of Rs. 11,535–15–10, a sum of Rs. 11,295–10–11 was collected, Rs. 21–15–0 was remitted on account of vacant houses, &c., and Rs. 133–3–9 was written off, leaving a balance of Rs. 85–3–4 to be collected in the current year. From this, it is manifest that the municipality continues turning out excellent work in the business of the collection of taxes.

76. *Collection of Tolls—Establishment and Contingencies.*—A sum of Rs. 518–3–6 was spent on this against Rs. 470 of the revised estimate. Much of the increase in expenditure was spent on sundries like the printing of ticket registers, &c.

77. *Contribution to the Central Office and its Establishment.*—A sum of Rs. 120 was paid into the local Sub-treasury in accordance with the instructions of the Accountant-General, Madras.

78. The total charges under Grant 5 were Rs. 1,956–1–4 against Rs. 1,830 of the revised estimate.

79. *Refund of other than current collections.*—A sum of Rs. 200 was paid to the British Foreign and Marine Insurance Company and Triton Insurance Company on account of Professional tax for the second-half of 1896–97 and the first half of 1897–98 as sanctioned by the Government in their Order No. 154 M., dated 30th January 1899.

80. The total charges amounted to Rs. 13,527–7–0 against Rs. 13,590 of the revised estimate and Rs. 13,824–4–11 of the previous year.

81. The year closed with a balance of Rs. 1,282–3–8 (excluding the deposits of Rs. 274–4–0 for the current year). But the amount certified by the Sub-treasury officer to be at the credit of the municipality in the Government treasury on the last day of the year was Rs. 1,568–15–8; the difference of Rs. 12–8–0 is due to a cheque issued in favour of M.R.Ry. Mindi Ramajogi Pantulu Garu, Proprietor of Appiconda Estate, not being cashed in the sub-treasury before the close of the year under report.

82. In conclusion, I beg to submit that I assumed charge of the municipality long after the close of the official year as Chairman-Delegate, as stated in the beginning of this report. All the roads in the town, though they were not well attended to owing to financial deficit during the year under report, are in good order. The sanitation and the general health of the town are well attended to. People have been accommodated with a sufficient number of latrines. The suggestions of the Sanitary Commissioner have been carried out as far as practicable. The private scavenging system, I am glad to say, has considerably improved inasmuch as it is more than self-supporting. In accordance with the directions of the Government, every step was taken to pay increased attention to the securing of accuracy in the registration of vital statistics. On the whole, I am exceedingly glad to observe that the *regimé* of the late Chairman, M.R.Ry. K. B. Nilachalam Pantulu Garu, is highly satisfactory. That his administration has been successful, is attested to by the Council's unanimous resolution to re-elect him as the Chairman, though his term as a councillor ceases, at a meeting held on the 28th March 1899, under section 14, clause 2 of Act IV of 1884.

CONCISE Annual Report of the Municipal Hospital, Bimlipatam, for 1898-99.

I. Public Health.—The health of the town has been very satisfactory during the year under report. The town was not visited by any epidemics. There were only a few cases of chicken-pox and measles at the close of the official year, but no deaths occurred from these diseases. The most common diseases that prevailed were malarial fevers, worms, eye diseases, rheumatic affections, digestive diseases and diseases of the skin. Malarial fevers prevailed to a greater extent than last year. Elephantiasis is also a common disease among the natives of the town.

II. Vital Statistics.—There were 281 births and 188 deaths within municipal limits during the year under report; of these deaths, 42 were from fevers, and 31 from bowel complaints. Among the in-patients treated in hospital there were seven deaths against fifteen in the previous year; this being due to people not having been admitted in a starved condition as was the case last year.

III. Sanitation.—The sanitation of the town is carefully looked after by an efficient staff placed under the direct control of the Chairman. There are six pukka latrines for the use of the public. Private scavenging also works well. One public latrine situated at the back of the hospital might, with great convenience to the patients of the hospital, be removed to some other locality as the effluvia from it is very nauseating and they have been complaining about it. Slaughter-houses are kept clean.

IV. Vaccination.—The municipal vaccinator operated on 487 cases, of which 395 were successful. The apothecary in charge of the hospital vaccinated 43 cases, of which all were successful. Glycerine paste supplied by the calf depot at Vizagapatam is used, and works well.

V. Hospitals and Dispensaries.—The hospital building is situated in a convenient spot. It provides accommodation for ten male and four female in-patients. There is also besides accommodation for Europeans, but it is seldom taken advantage of. There is also a shed for contagious diseases situated at one end of the hospital compound; but it is at present in a very dilapidated state. Part of the wall of the female latrine has fallen down and requires repair. The attention of the Chairman of the municipality has been drawn to these requirements.

The furniture is adequate and does not require any repairs.

(*a*) *Inspections.*—The hospital was inspected twice during the year by the District Medical and Sanitary Officer.

(*b*) *Recoveries from patients.*—The sum of Rs. 331–0–6 was collected from sale of medicines to out-patients against Rs. 304–5–0 in the previous year. Besides this the undermentioned firms pay a certain contribution to the municipality monthly, viz. :—

	Per mensem.
	RS.
Stuart Hall & Co.	20
Arbuthnot & Co.	20
Bank of Madras	5

(*c*) *Number of patients* compared with previous years :—

Years.	In-patients.		Out-patients.	
	Total.	Daily average.	Total.	Daily average.
1896–97	117	5·91	15,187	106·06
1897–98	140	5·98	13,686	100·60
1898–99	136	6·13	16,053	104·30

The increase of 2,367 over previous year in the number of out-patients is due to the greater prevalence of malarial fevers ; there being an increase of 1,428 over the previous year's admissions in these diseases alone.

(*d*) *Operations.*—The number of operations performed was 280, of which 235 were cured and 45 relieved.

(*e*) *Establishment* is sufficient and efficient.

(*f*) *Midwives work.*—The hospital midwife attended 164 cases against 145 in the previous year. In order to encourage her to work she is allowed one rupee for every case above ten she attends during the month.

(*g*) *General remarks.*—The municipality contributes seven-eighths of the pay of the Civil apothecary ; the remaining one-eighth being derived from Provincial funds. The hospital building is the property of the municipality.

2. The condition of the roads in the town is good, notwithstanding the small expenditure on repairs during the year.

3. The cost of each case successfully vaccinated has risen from As. 5–9 to As. 8–5, but the cause of the rise has not been explained. It was very excessive.

4. The administration of the municipality has been generally satisfactory during the year under report.

2. The Municipal Council held fourteen meetings or two less than in the previous year. The average attendance of the members, both official and non-official, improved and was fair.

3. *Receipts.*—(1) The net current demand under the tax on arts again showed a decrease of Rs. 46, for which no explanation has been furnished in the Chairman's report; but owing to the enhancement of the rate of the taxes on buildings and lands from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of the annual rental, the net current demand under these heads increased by Rs. 364 and Rs. 12 respectively.

(2) The collections under the principal taxes continued to be satisfactory.

(3) There was an increase in the receipts from tolls and school-fees; but it is to be regretted that the efforts made by the Municipal Council to create a demand for the street-sweepings have again proved unsuccessful. The Council should now consider the desirability of starting a Municipal garden on a small scale in order to demonstrate to the ryots the use of sweepings as manure.

(4) The number of houses served by the private scavenging agency rose from 278 to 300, and the fees collected, which amounted to Rs. 627 against Rs. 509 in the previous year, more than covered the cost of the service. The Government trusts that the efforts made in this direction will be sustained until all the latrines in the town have been brought under the control of the Municipal Council.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The total expenditure on communications amounted to Rs. 167 or only 4·5 per cent. of the net Municipal income from tolls against the minimum of 50 per cent. prescribed by Government; but this short expenditure is explained in paragraph 36 of the Chairman's report. The roads in the town are, however, reported by the Principal Assistant Collector to have been maintained in good condition.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,264 or 13·6 per cent. of the receipts from taxation. Of this sum, Rs. 829 were spent on primary, and the remainder on secondary, education. By the opening of a fourth form the Municipal Lower Secondary school was raised to the standard of a high school. In addition to this the Municipal Council continued to maintain four primary schools on the salary-result system; but the number of such schools aided with result grants was three or one less than in the previous year. The attendance at the Municipal schools remained practically unaltered; but owing to the decrease in the number of aided institutions, the attendance at these schools declined. The results of the Lower Secondary examination were not satisfactory; but at the departmental and grant examinations they continued to be fair. It is to be regretted that the number of boys under instruction in the Municipal and aided institutions again fell from 347 to 330 or 46·7 per cent. of the male population of school-going age against 61·8 per cent., the general average for Municipalities in 1897–98.

(3) *Medical Relief.*—There was a slight decline in the number of in-patients treated at the Municipal hospital, but a large increase in that of out-patients, which is attributed to the greater prevalence of malarial fevers during the year. The midwife attached to the Municipal hospital attended 164 cases of labour against 145 in 1897–98. This is satisfactory.

(4) *Vaccination and Vital Statistics.*—The number of persons vaccinated during the year again fell from 556 to 530, and the quality of the work greatly deteriorated the percentage of reported success being 82·7 against 95·5 in the previous year. Infantile vaccination also showed a further retrogression, the total number of children under one year successfully vaccinated being 196 or 20 per mille of the population against 27·3 per mille in 1897–98. In consequence of these unsatisfactory results, the cost of each successful operation performed by the Municipal vaccinator rose from As. 6–4 to As. 8–5 and was almost double the general average for Municipalities in the previous year. This reflects much discredit on the Municipal executive and should not be permitted to continue.

There was an increase in the number of births registered during the year, but a decline in that of deaths, and the variations in both cases are attributed in paragraph 60 of the Chairman's report to the absence of famine and epidemics and also to the improved sanitation and health of the town. But in view of the fact that the rates recorded in both cases were much below the normal, this explanation cannot be accepted as satisfactory and the returns must be regarded as untrustworthy. Increased attention should be paid to the registration of vital satistics in the current year.

(5) *Sanitation.*—The expenditure under this head exceeded the sanctioned allotment by 2·1 per cent. and amounted to Rs. 3,369 or 23·4 per cent. of the current receipts against 21·8 per cent. in the previous year. In paragraph 82 of the Chairman's report it is stated that the suggestions of the Sanitary Commissioner have been carried out as far as practicable. Full information should have been given as to what these suggestions were and how far they were carried out. It is hoped that the efforts made to effect an improvement in this direction will be sustained until all the defects in the sanitation of the town pointed out by the sanitary officers from time to time have been remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 1,282 or 8·9 per cent. of the current receipts. Except as regards education, vaccination and registration of vital statistics, which demand increased attention, the administration of the Municipality during the year under review continued to be on the whole satisfactory.

a Municipal garden on a small
scale in order to demonstrate to the ryots
the use of sweepings as manure
~~to the ryots.~~

(4) ~~Ratification to state that~~
The number of horses served
by the Private Licensing
agency rose from 278 to 300
and the fees collected which
amounted to Rs 627 against
Rs 509 in the previous year
more than covered the cost of
the service. The Government
trusts that the efforts made
in this direction will be
sustained until all the
latrines in the town have
been brought under the
control of the Municipal Council.

4. Expenditure on Public
Works — No new work of any

Para 19.

Para 33.

importance was undertaken
during the year. The total
expenditure on Communica-
-tions amounted to Rs 167 or only 4.5
per cent of the net municipal
income from tolls against the
minimum of 50 per cent pres-
-cribed by Government; but
this short expenditure is ex-
-plained in para 36 of
the Chairman's report. The
roads in the town are,
however, reported by the
Principal Assistant
Collector to have been
maintained in good
condition.

Para 2 of his endt

(2) Education. The net
expenditure under this
head amounted to Rs 1264
or 13.6 per cent of the receipts
from taxation. Of this sum
Rs 829 were spent on primary
and the remainder on
Secondary Education. By
the opening of a fourth form

Para 20.

...e Municipal Comm Secondary ...hool was raised to the Standard ...f a high School. In addition to this the Municipal Council continued to maintain four primary schools on the Salary result system, but the number of such schools aided with result grants was three or one less than in the previous year. The attendance at the Municipal Schools remained practically unaltered; but owing to the decrease in the number of aided institutions, the attendance at these schools declined. The results of the lower Secondary Examinations were not satisfactory; but at the departmental and grant examinations they continued to be fair. It is to be regretted that the number of boys under instruction in the Munl and aided institutions again fell from 347 to 330

or 46.7 per cent of the mal... population of School going age against 61.8 per cent the general average for Municipalities in 1897-98.

(3) Medical Relief - There was a slight decline in the number of in-patients treated at the Municipal hospital, but a large increase in that of out-patients, which is attributed to the greater prevalence of malarial fevers during the year. The Midwife attached to the Municipal hospital attended 164 cases of labour against 145 in 1897-98. This is satisfactory.

Para 5(c) of medical report.

(4) Vaccination and Vital Statistics - The reported number of persons vaccinated during the year again fell from 556 to 530 and the quality of the work greatly deteriorated, the reported percentage of successes being 82.7 against 95.5 in the previous year. Lymphatic vaccination also showed a

...rtain retrospection the total number of children under one year successfully vaccinated being 196 or 20 per mille of the population against 27·3 per mille in 1897-98. In consequence of these unsatisfactory results, the cost of each successful operation performed by the Municipal vaccinator rose from as 6-4 to as 8-5 and was almost double the general average for Municipalities in the previous year. This ~~state of affairs~~ reflects much discredit on the Municipal executive and should not be permitted to Continue.

There was an increase in the number of births registered during the year, but a decline in that of deaths and the variations in both cases are attributed in para 60 of the chairman's report to

The Normal rates are supposed to be 42·4 & 38·7.

the absence of famine and epidemics and also to the improved sanitation and health of the town. But in view of the fact that the rates recorded in both cases were much below the normal this explanation cannot be accepted as satisfactory and the returns must be regarded as untrustworthy. ~~The Government must~~ Increased attention should be paid to the registration of Vital Statistics in the current year.

6. Sanitation. The expenditure under this head exceeded the sanctioned allotment by 2·1 per cent and amounted to Rs 33,69 or 23·4 per cent of the current receipts against 21·8 per cent in the previous year. ~~The Government has~~ In para 82 of the Chairman's report it is stated that the suggestions of the Sanitary Commissioner have been carried out as far as practicable, ~~but it would~~

8

...rtion retrospection the

...information should have been given as to what these suggestions were and how far they were carried out. It is hoped that the efforts made to effect an improvement in this direction will be sustained until all the defects in the sanitation of the town pointed out by the Sanitary officers from time to time have been remedied.

5. General Remarks. The year closed with a balance of Rs 1282 or 8·9 per cent of the current receipts. Except as regards education, vaccination and registration of vital statistics, which demand increased attention the administration of the Municipality during the year under review continued fair on the whole satisfactory.
