Questions to be asked with the Consent of His

Excellency the Governor at the next meeting
of the Legislative Council

(1) With reference to any question asked on the 22nd

January 'whether government sees any objection
to deputing agricultural Inspectors to selected

centres to carry out experimental cultivation side

UNDER SECRETARY
27 MAY 95
PUBLICITY DEPT.

by side with the ryot' and the report of the

Revenue Board thereon that there are the

following objections to the proposal.

First - The ryot must be selected

Second - Land adjacent to his must be put at

the disposal of government

Third - The agricultural Inspector must be

Equipped with the Cattle, agricultural

implements and labor

Fourth - The nature, Value, and object of the suggested

experiments should be made plain

before government can possibly saddle

tax-payer with the Cost which such

experiments would entail

Whether there is any objection to carrying out the
experiments

1) if the ryot is selected to the satisfaction of
the

the agricultural Inspector or any other government official

2) if the land adjacent to his is placed at the disposal of Government.

3) if Cattle, agricultural implements and labor, are supplied to him.

On Condition that the produce of the land is delivered to the ryot.

The object is to show that the government estimate of the cost of cultivation and the produce of the land is incorrect and ought not to be taken as a basis for settlement operations and in case it turns out to be correct to serve as an object lesson to the ryot.

2) The Board of Revenue say in their report that the opening of five farms at selected centres with the object of carrying on experiments in agriculture has been sanctioned by Government and is only held in abeyance for want of funds.

Will Government be pleased to open at least one farm in Malabar as the ryots in Malabar are willing to supply land, cattle, agricultural implements and labor for the purposes of the experiments.

Whether Government is aware

That the Iluvass in Travancore according to the last census amount to 414,217 or 22 percent of the Hindu population and the graduates and others of their class who have received English Education, have been refused admission into ^{the} Travancore government Service.

That the Iluvass and other low Castes amounting to more than 50 percent of the population are denied admission into a large number forming the majority of Government Schools in Travancore and whether Government will be pleased to draw the attention of the British Resident to this matter and ascertain whether it is possible to remedy this state of affairs and place them at least on the same footing with respect to education and public service as other non-Hindus and native Christians.
