Fort Saint George, Marine Consultation, 22nd September 1857.

No. 16. From Captain C. D. CAMPBELL, I. N., Commanding H. C. S. V. "Coromandel" and President of Committee on "Dalhousie;" to the Chief Secretary to Government, Fort Saint George, dated 18th September 1857.

SIR,

I have the honor to report for the information of the Right Honorable the Governor in Council that I have proceeded on Board the Screw Steam Vessel "Dalhousie" with the Officers as per margin, and examined the state of that Vessel and her Machinery as she lays at Anchor, and we are of opinion that to enable the Committee to report fully as to her sound and uninjured state it is requisite she should be got under Steam to try the Machinery, but upon applying to her Commander he states that he should be happy to do so, provided the Government instruct him to that effect and bear the risk and expense of such a proceeding. Awaiting further instructions.
