Master Attendants Office
Cochin 7th March 1857

No 23

To W. Robinson Esquire

Acting Collector of Malabar.

Calicut.

Sir, I have the honor to report for your
information that the two boats recently built
for my Department have been launched and
that the necessary crews for them were entertained
on the 1st ultimo.

2 As the boats in question have been
added to my establishment at no inconsiderable
expense, and as there is no place whatever availa-
-ble for their reception, I deem it highly desirable,
or rather absolutely necessary that a suitable
shed (or boat house) should be erected for them
as soon as possible, that they may be sheltered
from the sun and rain, and thus secured against
premature decay, more especially by exposure to the
severity of the monsoon, when they may be required
to be laid up for a brief season.

3 I need hardly observe that the better
they are protected, the longer will they prove serviceable,
and

and not entail expense on the Government on the score of repairs

4. A substantial shed could be easily erected on a piece of ground available for the purpose on the river side, at a very moderate expense, if the stones thrown down by the recent accident to the Lighthouse be employed in its construction, and this advantage is taken into account in the accompanying estimate, which, together with a sketch of the proposed shed, I beg to submit for your consideration, and solicit you will be so good as to recommend the measure for the sanction of Government.

x No. 323.12--

Sir, I have the honor to submit copy of a letter from the Master Attendant of Cochin forwarding an estimate and Plan for a Boat house required for securing two boats recently built for the use of that Department, and, as I agree with Mr. Caster as to the necessity of the building, to request that sanction may be obtained at an early date in order that the work may be executed against the approach of the monsoon.

To J. Sproft Esquire,
Chief Secretary to Government,
Fort Saint George.

Dated 21 March 1857 N^o 1233.

Sir, I have the honor by desire of the Marine Board to forward the accompanying copies of letters, one from the Master Attendant Cochran recommending the construction of a Boat house for the reception of the boats, authorized to be built for that port in Extract Minutes of Consultation 15th May 1856, N^o 139; the other from the Collector of Malabar supporting the proposition.

2 The Board perfectly concurs in considering the measure advisable as a means of preserving the boats, and solicit permission to submit the plan and estimate forwarded by
